Stepped twist drill bit assortment HSS Multi Performance TiAlN

3 pieces The latest generation, multi-performance, stepped drill bits with TiAlN coating for maximum service life, significantly faster drilling with quiet processing as well as greatly reduced burr formation in the processing of almost all thin-walled materials such as conventional steel up to 1300 N/mm² strength, stainless steel, aluminium, cast iron, brass, bronze, wood and plastics.

- 9 times longer service life and up to 50% higher cutting speed
- Improved centring and up to 100% faster spot drilling
- Acceleration of the overall drilling process

Number of pieces in assortment/set	3 PCS
Shank style	3-face shank

Art. no. 0694 458 001

P. Qty.: 1

For the stepped drill bits/material assignments, see the overview tables

Stepped twist drill bit HSS Multi Performance TiAlN

The latest generation, multi-performance, stepped drill bits with TiAlN coating for maximum service life, significantly faster drilling with quiet processing as well as greatly reduced burr formation in the processing of almost all thin-walled materials such as conventional steel up to 1300 N/mm² strength, stainless steel, aluminium, cast iron, brass, bronze, wood and plastics.

- 9 times longer service life and up to 50% higher cutting speed

Stepped twist drill bit assortment HSS Performance plain

3 pieces. The latest generation of Performance stepped drill bits for longer service lives, significantly faster drilling with smooth running and greatly reduced formation of burrs when processing thin workpieces made from conventional steel with a strength of up to 900 N/mm², aluminium, cast iron, brass, bronze, wood and plastics.

- 4 times longer service life
- Improved centring and up to 100% faster spot drilling
- Acceleration of the overall drilling process

Number of pieces in assortment/set	3 PCS
Shank style	3-face shank

Art. no. 0694 453 001

MFD-S combi stone drill bit assortment

10 pieces. The combi set with straight shank specifically for cordless drills for drilling professional-quality anchor holes — even when working with the hardest of ceramics, e.g. stoneware.

Stoneware drill bit

- Specially developed cemented carbide plate geometry (multi-surface precision grinding)
- No cooling is required

MFD-S multi-purpose drill bit

- Extra-sharp carbide cutting edges with special diamond grinding on all sides
- Outstanding, rapid transport of drilling dust
- PGM tested

Number of pieces in assortment/set	10 PCS
------------------------------------	--------

Art. no. 0641 464 101

P. Qty.: 1

For further information, please refer to the individual products.

Stoneware drill bit

- Max. rotation speed 200 rpm
- Not suitable for impact drilling. For rotary drilling only!
- Optimum contact pressure 35–45 kg
- If the recommended drilling speed is observed and the optimum contact pressure applied, but you can no longer hear a „scraping“ sound, the drill bit has reached the end of its service life.
- Avoid placing high contact pressure on the drill bit when it is not rotating → Risk of breakage!
- Contact pressure too low and/or drilling speed too high → Service life ends prematurely!
- Avoid tilting and swivelling movements during the drilling process → Risk of breakage!
- We recommend drilling test holes (ideally in waste material from the tiles to be drilled)

MFD-S multi-purpose drill bit

Not suitable for impact drilling. For rotary drilling only!

Stepped drill bit

With stop ring

Diameter (Ø)	7 mm

Solid carbide spot-weld drill bit with three cutting edges

For drilling out/milling spot welds on car bodies with high-tensile steel plates in all types of cars on A-pillars, B-pillars, door sills etc.

Excellent centring of the drill bit on the spot weld

Wide yet robust tip geometry

Extremely long service life

Innovative Magma coating on the drill tip

Diameter	8 mm
Length	45 mm
Shaft diameter	7.5 mm

Art. no. 0710 810 800

P. Qty.: 1

Spot weld cutter for pneumatic machines Solid carbide multi-performance

The universal high-performance spot weld drill bit for loosening spot welds with pneumatic machines (e.g. Vario drill, expanding nail, etc.) on all body sheeting incl. ultra high-strength components (BTR, BOR, etc.) on all kinds of vehicles, e.g. on A-pillars, B-pillars, sills, etc.

- Up to 100% faster and up to 100% longer service life compared to conventional CC spot weld cutters with 3 blades
- Significantly fewer brittle centring points compared to conventional CC spot weld cutters
- Optimum cutting behaviour due to very good centring on the spot weld

Type description	Multi-Performance
Quality	ZEBRA-Premium
Cutting material	VHM
Surface	Magma multilayer coating
Number of teeth	4 PCS
Suitable for tensile strength up to	1500 N/mm ²
Length	44 mm
Shaft diameter	7.5 mm

8 mm	8 mm	0710 811 800	1

Spot weld drill bit DIN 1897 Solid carbide multi-performance

The universal high-performance spot weld drill bit for loosening spot welds on all bodywork panels including ultra high-strength components (BTR, BOR etc.) on all kinds of vehicles, e.g. on A-pillars, B-pillars, sills etc.

- Up to 100% faster and up to 100% longer service life compared to conventional solid carbide spot weld cutters with 3 cutting edges
- Significantly fewer brittle centring points compared to conventional solid carbide spot weld cutters
- Optimum cutting behaviour due to very good centring on the spot weld

Quality	ZEBRA-Premium
Cutting material	VHM
Surface	Magma multilayer coating
Suitable for tensile strength up to	1500 N/mm ²
Shank style	3-face shank
Type	DIN 1897 solid carbide multi-performance
Service life (points system)	●●●●

- Not for use in pneumatic machines (e.g. Vario drill, Spitznagel etc.)
- Do not use in drills with an impact chuck or spindles

HSS centre drill bit

Standard drill bit for making centring holes in accordance with DIN 332, page 1.

Shape A, right-hand cutting

- Without protection countersink
- With straight running surfaces
- Countersink angle 60°
- Ø tolerance on the shank: h9 in accordance with DIN 7160

Continuation **HSS centre drill bit**

Standards	DIN 333
Form	A
Countersink angle	60 Degree
Cutting material	HSS

Diamond tile wet core bit set

10 pieces 1 x core bit per size 5, 8, 10, 12, 14 mm diameter and 2 x 6 mm diameter, drilling template 4–14 mm diameter, bit holder and ejector. With 1/4 inch hexagon bit mount, specifically for use with cordless drills.

- Pinpoint, precision drilling
- Clean edges, precise holes
- Optimum, uniform coolant feed
- Very rapid loosening/replacement of drill bit possible
- Easily removed drill core

Art. no. 0651 900 001

P. Qty.: 1

Adapter for drill crown

Connection adapter for third-party and WDS machines

Product weight (per item)	Art. no.	P. Qty.

WDS = Würth Diamond System (old)

Dry drilling set With dust extraction for core drills

Suitable for use in the DS 180 core drill

- Reduced dust pollution for the user
- Extends the service life of the machine

Product weight (per item)	976 g
---------------------------	-------

Art. no. 5709 116 001

P. Qty.: 1

Drilling stand DS Comfort

Convenient drilling stand for diamond core drills DS 130-P/DS 130-T, DS 164 and DS 300

- Aluminium column with carry handle and two solid rubber wheels on stainless steel axle for easier tipping of drilling stand
- Engraved drilling depth and angle display, and drill centre point display made from stainless steel
- Column with dovetail guide
- Knurled adjusting screws with additional hexagon head
- Drill spindle with quick-change connection, can be mounted on either side of the carriage, with integrated key for the knurled adjusting screws

Column height	900 cm
Product weight (per item)	15.9 kg
Suitable for max. drill-bit diameter	350 cm

Art. no. 5709 116 12

P. Qty.: 1

Second handle

Suitable for use in the DS 180 core drill

- Better drilling progress for vertical drilling
- Easy to use

Product weight (per item)	428 g
---------------------------	-------

Art. no. 5709 116 002

P. Qty.: 1

Shoulder support

Suitable for use in the DS 180 core drill

- Better drilling progress for horizontal drilling
- Easy to use

Product weight (per item)	440 g
---------------------------	-------

Art. no. 5709 116 003

P. Qty.: 1

Adapter plate

Suitable for use in the DS 180 core drill. Required in conjunction with the shoulder support or the second handle.

- Easily switch between shoulder support and second handle

Product weight (per item)	90 g
---------------------------	------

Art. no. 5709 116 004

P. Qty.: 1

Carriage

Suitable for the DS 180 core drill

- Required for using the DS 180 in conjunction with a drilling stand

Product weight (per item)	3980 g
---------------------------	--------

Art. no. 5709 116 005

P. Qty.: 1

Diamond tile wet core bit

With 1/4-inch hex. bit shank specifically for use in cordless drills.

Precise, exact drilling

No splitting or cracking of tiles

Additional openings in the cutting area, bit mount hollow internally and additional opening in bit body

Length of core drill bit	65 mm
--------------------------	-------

Diameter (Ø)	Art. no.	P. Qty.
5 mm	0651 910 500	5
6 mm	0651 910 600	5
8 mm	0651 910 800	5
10 mm	0651 911 000	5
12 mm	0651 911 200	2
14 mm	0651 911 400	2

Ensure a continuous, adequate water supply – never drill dry!

Position the drilling jig such that the current centring hole is always located at the lowest point

Remove the drill core after every drilling process

Brick and tile drill bit

Special carbide drill bit with cylindrical shank for dry drilling of high-fired bricks and tiles.

- Suitable for all rotary and impact drills (also with 10 mm clamping drill chuck).
- Diamond-sharpened tungsten-titanium tip with special grinding
- Low-current, high-temperature soldering process (1120°C)
- Practical straight shank, virtually automatic self-clamping

12 mm	150 mm	100 mm	0641 001 200	2

Please note: Use drill bits only in rotating mode!

DUO-S impact drill bit with straight shank

High-performance impact drill bit with the features of a hammer drill bit.

- Precise drilling
- Hammer-resistant, extremely robust and designed for the toughest applications
- Rapid drilling progress owing to multi-spiral, large-volume spiral conveyor
- Suitable for rotary and impact drilling
- PGM tested

DUO-S impact drill bit, 1/4-inch hexagonal shank

High-performance impact drill bit with the features of a hammer drill bit.

- No slippage in the drill chuck thanks to the hexagonal shank
- Lathe centre with outstanding centring properties
- State-of-the-art vacuum hardening
- Highly resilient cemented carbide tip
- Optimum soldering using high-vacuum technology, heat-resistant up to 1100°C
- Specially quenched and tempered clamping shank
- High-strength drill bit head, same shank material as the hammer drill bit
- Aggressively ground cemented carbide plate
- Multi-spiral, large-volume spiral conveyor
- Suitable for rotary and impact drilling
- PGM tested

DUO-S impact drill bit box, with straight shank

10 pieces. High-performance impact drill bit with the features of a hammer drill bit.

- Lathe centre with outstanding centring properties
- State-of-the-art vacuum hardening
- Highly resilient cemented carbide tip
- Optimum soldering using high-vacuum technology, heat-resistant up to 1100°C
- Specially tempered clamping shank
- High-strength drill bit head, same shank material as the hammer drill bit
- Aggressively ground cemented carbide plate
- Multi-spiral, large-volume spiral conveyor
- Suitable for rotary and impact drilling
- Suitable for drilling holes intended for anchor connections that are subject to approval

Extraction drill bit Plus D

Extremely fast hammer drill bit with aggressive two-cutter head for drilling and suction in one work step.

- The dust is sucked up immediately as it occurs in the drill hole
- Protects the user from damage to health
- Increases the service life
- No subsequent cleaning of the drill hole is required
- Significant prevention of dust produced on the construction site
- Robust 2-blade head geometry and extra-large extraction holes directly in the head area
- Suitable for all standard, certified vacuum cleaners of dust class M thanks to flexible, one-piece rubber vacuum adapter
- Special self-centring tip

Number of cutting edges	2 PCS
Tool holding device	Suitable for SDS-plus

16 mm	370 mm	250 mm	0648 451 637	1

- Iron reinforcements may only be drilled through with permission from a structural engineer
- Observe the enclosed operating instructions
- Eligible for support from the German social accident insurance institution for the construction industry (BG BAU)
- Only use with vacuum cleaners of dust class M

Extraction drill bit Plus M

Fast hammer drill bit with excellent service life and multi-cutter head for drilling and suction in one work step.

- No subsequent borehole cleaning necessary
- Significantly inhibits the formation of dust on the construction site
- Suitable for all standard, certified vacuum cleaners of dust class M thanks to flexible, one-piece rubber suction adapter

- Iron reinforcements may only be drilled through with permission from a structural engineer
- Observe the enclosed operating instructions
- Only for use with dust class M vacuums

Concrete milling crown Max

The concrete milling crown with tool chuck suitable for SDS-max is optimised for hammer drills above 8 kg (20 J).

- New head geometry, even withstands strikes in armouring iron
- Solid centre drill in multi-flute/three-flute cutter design
- Aggressive external cutting ring with large roof-shaped carbide cutters and special reinforcement chamfers
- Optimised spiral geometry
- Conical shaft and reinforced back width

Flat chisel Plus Longlife & Speed

Premium next-generation flat chisel with tool chuck suitable for SDS-plus.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 200% longer service life compared to standard versions thanks to an extended work area

Length	250 mm
Width	20 mm
Tool holding device	Suitable for SDS-plus

Art. no. 0648 862 250

P. Qty.: 1

Flat chisel Max Longlife & Speed

Premium next-generation flat chisel with tool chuck suitable for SDS-max.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 170% longer service life compared to standard versions thanks to an extended work area

Width	25 mm
Tool holding device	Suitable for SDS-max

Length	Art. no.	P. Qty.
280 mm	0647 862 225	1
400 mm	0647 862 425	1

Premium spade chisel Plus

With wedge profile

- Impressive wedge effect
- High breaking power
- More material for a longer service life

Length	250 mm
Width	40 mm

Art. no. 0648 853 250

P. Qty.: 1

Premium spade chisel Max

With wedge profile

- Impressive wedge effect
- High breaking power
- More material for a longer service life

Length	380 mm
Width	50 mm

Art. no. 0647 853 50

P. Qty.: 1

Premium spade chisel with SDS-max drive arbor

Ultra-robust spade chisel with extended shank reinforcement

Length	350 mm
Width	115 mm

Art. no. 0647 853 115

P. Qty.: 1

Premium spade chisel with SDS-max drive arbor

Enhanced forming process for a longer service life

Length	300 mm
Width	80 mm

Art. no. 0647 853 80

P. Qty.: 1

Point chisel Plus Longlife & Speed

Premium next-generation point chisel with tool chuck suitable for SDS-plus.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 200% longer service life compared to standard versions thanks to an extended work area

Length	250 mm
Tool holding device	Suitable for SDS-plus

Art. no. 0648 861 250

P. Qty.: 1

Point chisel Max Longlife & Speed

Premium next-generation point chisel with tool chuck suitable for SDS-max.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 170% longer service life compared to standard versions thanks to an extended work area

Tool holding device	Suitable for SDS-max

Length	Art. no.	P. Qty.
280 mm	0647 861 280	1
400 mm	0647 861 400	1

Point, flat and spade chisels multi-pack Max Longlife & Speed

3 pieces. Next generation premium pointed, flat and spade chisels with tool holder suitable for SDS-max in an attractive multipack.

Point and flat chisels

- The new chisel shape prevents jamming and reduces friction.

Spade chisel

- Impressive wedge effect
- High breaking power

Tool holding device	Suitable for SDS-max
Number of pieces in assortment/set	3 PCS

Art. no. 0647 860 002

P. Qty.: 1

Point, flat and spade chisels multi-pack Plus Longlife & Speed

3 pieces. Next generation premium pointed, flat and spade chisels with tool holder suitable for SDS-plus in an attractive multipack.

Point and flat chisels

- The new chisel shape prevents jamming and reduces friction.

Spade chisel

- Impressive wedge effect
- High breaking power

Tool holding device	Suitable for SDS-plus
Number of pieces in assortment/set	3 PCS

Art. no. 0648 860 002

P. Qty.: 1

Point and flat chisel set Max Longlife & Speed

6 pieces. Premium next-generation point and flat chisels with tool chuck suitable for SDS-max in an attractive large pack.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 170% longer service life compared to standard versions thanks to an extended work area

Tool holding device	Suitable for SDS-max
Number of pieces in assortment/set	6 PCS

Art. no. 0647 860 001

P. Qty.: 1

Point and flat chisel set Plus Longlife & Speed

6 pieces. Premium next-generation point and flat chisels with tool chuck suitable for SDS-plus in an attractive large pack.

- The new chisel shape prevents jamming and reduces friction
- Self-sharpening design removes more material in less time and ensures a high removal rate across the tool's full service life
- Up to 200% longer service life compared to standard versions thanks to extended work area

Tool holding device	Suitable for SDS-plus
Number of pieces in assortment/set	6 PCS

Art. no. 0648 860 001

P. Qty.: 1

Bushing tool

With SDS-MAX mounting shank

- For use in chisel hammers with SDS-MAX mounting shank
- For removing excess concrete
- For roughening up surfaces

Length	240 mm
Width	41 mm
Tool holding device	Suitable for SDS-max

Art. no. 0993 647 001

P. Qty.: 1

Tile chisel Plus extra wide

The versatile specialist with an extra-short arbor and extra-wide working blade.

- 80% more capacity in comparison with standard tools
- Can be used in a wide range of applications

Length	165 mm
Width	75 mm
Tool holding device	Suitable for SDS-plus

Art. no. 0648 855 165

P. Qty.: 1

Floor cleaning tool

For removing floor coverings

Length	270 mm
Width	117 mm

Art. no. 0647 856 117

P. Qty.: 1

For use with tool holder with SDS-max mounting shank, length 400 mm, art. no. 0647856004

Premium tile chisel with SDS-plus drive arbor

25% greater blade width in comparison with the standard on the market (40 mm width) for more removal power

- Ergonomic blade for an optimum working position on the wall, on the floor or in joints
- Time-saving since the subsurface is only slightly damaged

Length	250 mm
Width	50 mm
Tool holding device	Suitable for SDS-plus

Art. no. 0648 855 250

P. Qty.: 1

Flat chisel with SDS-max drive arbor

Round shaft for general demolition and break-through work

Width	25 mm
Tool holding device	Suitable for SDS-max

Length	Art. no.	P. Qty.
400 mm	0647 040 025	1
600 mm	0647 060 025	1

Flat chisel with SDS-plus drive arbor

For general demolition and breaking-through work

- Greater explosive force and minimised risk of sticking in material in comparison with round versions

Length	250 mm
Width	20 mm
Tool holding device	Suitable for SDS-plus

Continuation **Flat chisel with SDS-plus drive arbor**

Art. no. 0648 920 250

P. Qty.: 1

Point chisel with SDS-max drive arbor

For general demolition and breaking-through work

- Round shaft
- The entire impact energy of the hammer drill is concentrated on a single point

Tool holding device	Suitable for SDS-max
---------------------	----------------------

Length	Art. no.	P. Qty.
400 mm	0647 040 0	1
600 mm	0647 060 0	1

Point chisel with SDS-plus drive arbor

For general demolition and breaking-through work

- Greater explosive force and minimised risk of sticking in material in comparison with round versions
- The entire impact energy of the hammer drill is concentrated on a single point

Length	250 mm
Tool holding device	Suitable for SDS-plus

Art. no. 0648 925 0

P. Qty.: 1

HSS special spiral formwork drill bit

High-quality HSS steel drill bits facilitate application in metals too and increase service life by up to 60%.

Optimal concentricity, no risk of breakage

Metal adhesive-secured fine thread connection of drill bit and shaft

Prevention of accidents

Open chip flutes to shank (from Ø 16 mm) prevent drill bit jamming in wood.

According to regulations of the German Institution for Statutory Accident Insurance and Prevention

Drill chuck adapter

For using toothed ring/quick-action drill chuck on hammer drills

Tool holding device	Suitable for SDS-plus
Drill chuck holder	1/2 inch x 20 UNF

Continuation **Drill chuck adapter**

Art. no. 0692 210 120

P. Qty.: 1

Adapter for plug-in tools, plus to max

For drills with SDS-plus drive arbor on machines with SDS-max drive arbor

Tip type	Suitable for SDS-plus
Tool holding device	Suitable for SDS-max

Art. no. 0714 44 04

P. Qty.: 1

Quick-action chuck Metal sleeve

Drill chuck type	Quick action chuck, metal sleeve
------------------	----------------------------------

Drill chuck holder	Min./max. drill chuck span width	Suitable for left-hand rotation	Suitable for impact work	Product weight (per item)	Art. no.	P. Qty.
1/2 inch x 20 UNF	1-13 mm	No	No	425 g	0692 312 130	1
1/2 inch x 20 UNF	1-13 mm	Yes	Yes	545.4 g	0692 412 132	1
B 16	3-16 mm	No	No	881 g	0692 316 160	1

The mount is not marked on all drill chucks.

In the interests of safety, therefore, you should measure the drill chuck spindle:

- 1/2" = 12.7 mm
- 3/8" = 9.5 mm
- 5/8" - 16 = 15.9 mm
- B 16 = 15.7 mm

Quick-action chuck 2-sleeve

Drill chuck type	Quick action chuck, two sleeves
Drill chuck holder	1/2 inch x 20 UNF
Min./max. drill chuck span width	1.5-13 mm
Suitable for left-hand rotation	Yes
Suitable for impact work	Yes
Product weight (per item)	296 g

Art. no. 0692 812 132

P. Qty.: 1

The mount is not marked on all drill chucks.

In the interests of safety, therefore, you should measure the drill chuck spindle:

- 1/2" = 12.7 mm
- 3/8" = 9.5 mm
- 5/8" - 16 = 15.9 mm
- B 16 = 15.7 mm

Quick-action chuck 1-sleeve

One-handed tool change

For use with machines on which the drill spindle is automatically locked after switch-off (spindle stop)

Drill chuck type	Quick action chuck, one sleeve
Drill chuck holder	1/2 inch x 20 UNF
Min./max. drill chuck span width	1.5-13 mm
Suitable for left-hand rotation	Yes
Suitable for impact work	Yes
Product weight (per item)	290 g

Art. no. 0692 838 135

P. Qty.: 1

The mount is not marked on all drill chucks.

In the interests of safety, therefore, you should measure the drill chuck spindle:

- 1/2" = 12.7 mm
- 3/8" = 9.5 mm
- 5/8" - 16 = 15.9 mm
- B 16 = 15.7 mm

Hammer drill chuck

With SDS-Plus mount for direct use in hammer drills without additional adapter

- Also suitable for safe impact drilling thanks to carbide jaws

Min./max. drill chuck span width	2.5-13 mm
Suitable for left-hand rotation	Yes
Suitable for impact work	Yes

Art. no. 0692 210 133

P. Qty.: 1

Hammer-resistant lightweight core bit

The fast, lightweight drill bit

- Specially developed hammer-resistant core bit for use in impact drills and hammer drills up to 4 kg
- Completely new carbide teeth with asymmetrical arrangement and sharp-edged geometry
- Special lightweight construction

Drilling depth	50 mm

Hammer drill bit

For large hammer drills with high impact energy

- High drilling performance thanks to innovative shaft base and active centre drill
- Secure adapter/drill bit connection thanks to special thread connection
- Active centre drill remains in the drill bit during drilling and aids the process

Centre drill bit

For hammer drill core bit art. no. 0632 000...

Including securing pin

Diameter	11 mm
Length	135 mm

Art. no. 0632 000 1

P. Qty.: 1

Diamond tile dry core bit M14 seat

Specially developed diamond core drill for dry drilling even the very hardest of materials such as stoneware. For use on angle grinders.

- Extremely fast drilling due to vacuum diamond coating
- Up to diameter of 14 mm with special cooling wax
- Easy removal of the drill core

- No water necessary!

Continuation **Diamond tile dry core bit, 1/4-inch hexagonal shank**

- Speed regulation not necessary.
- The drill bits are approximately 0.5 mm to 1 mm longer than required. This makes it easier to drill further into the substrate (e.g. a stone drill), preventing damage to the tile.

Diamond socket outlet core bit PKD

The ideal solution with particularly fast drilling speed for extremely high-compacted sand-lime brick, plus connecting thread M16.

- Greater safety and drilling that is up to six times faster than with a conventional diamond socket outlet drill bit thanks to laser-welded PCD blades
- Optimum ejection of drilling dust and easy removal of the drill core by means of the special core bit body with extremely wide ejection slits

Dust extraction device for socket outlet drill bits

With quick-change function

- For tool-free core bit changes
- For virtually dust-free drilling
- Low weight
- Compact design
- Threaded connection on core bit side: M16
- Threaded connection on machine side: 5/8" – 16UNF

Art. no. 0668 690 431

P. Qty.: 1

Conical countersink assortment Green ring, HSCO 90°, DIN 335 C

6 pieces, consisting of diameters 6.3–20.5 mm. Particularly suitable for processing stainless steel, alloyed or high-alloy and rust- and acid-resistant steels.

- Precision conical countersink with 3 cutting edges, precision-ground
- Outstanding chip formation and removal thanks to optimised flute geometry

Number of pieces in assortment/set	6 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy

Continuation **Conical countersink assortment Green ring, HSCo** **90°, DIN 335 C**

Quality	ZEBRA-Premium
Standards	DIN 335
Form	C
Cutting material	HSCo
Countersink angle	90 Degree
Surface	Uncoated
Number of cutting edges	3 PCS
Shank style	Cylindrical

Art. no. 0694 019 01

Conical countersink HSCo 90° with cross hole

For chatter-free deburring and countersinking of holes

- The even-running cone-envelope relief grinding results in a light, paring cut
- The chip flow due to drilling stops chips sticking in the workpiece
- Straight shank

Material	High-speed steel with 5% cobalt content
Countersink angle	90 Degree

Min./max. spot-facer diameter	Head diameter	Length	Shaft diameter	Art. no.	P. Qty.

Not recommended for full countersinking! Increased service life and cutting performance by using drilling and cutting oil.

Conical countersink HSCo, DIN 335D, 90°, with Morse taper shank

For universal use up to 1300 N/mm².

- Very good cutting properties
- Radial relief ensures optimum chip breaking

Conical countersink assortment TiN 90° DIN 335 C

6 pieces, consisting of diameters 6.3–20.5 mm. Significantly improved performance when processing conventional steels and cast iron compared to blue ring.

- Up to 30% higher cutting speeds and service life doubled or even quadrupled compared to blue ring
- Precision conical countersink with 3 cutting edges, precision-ground
- Outstanding chip formation and removal thanks to optimised flute geometry

Number of pieces in assortment/set	6 PCS
Material to be processed	Steel, Cast metal
Quality	ZEBRA-Premium
Standards	DIN 335
Form	C
Cutting material	HSS
Countersink angle	90 Degree
Surface	TiN
Number of cutting edges	3 PCS
Shank style	Cylindrical

Art. no. 0694 020 01

P. Qty.: 1

Contents for art. no. 0694 020 01

Spot weld cutter for pneumatic machines HSCO

The economical standard spot weld cutter for loosening spot welds with pneumatic machines on conventional bodywork panels up to 850 N/mm² strength on all kinds of vehicles

- Extra stable tip geometry for difficult milling conditions
- Optimised tip geometry for a longer service life compared to conventional spot weld cutters
- Very good centring of the cutter on the spot weld and precise milling due to the 115° centring point

Type description	Standard for pneumatic machines
Quality	Würth-Standard
Cutting material	HSCo
Surface	Plain
Number of teeth	2 PCS

Suitable for tensile strength up to	850 N/mm ²
Length	44 mm
Service life (points system)	●●○○
Drilling speed (point system)	●●○○
Bore hole quality (point system)	●●●●
Versatility (points system)	●●○○
Drilling behaviour (point system)	●●●○

Diameter	Shaft diameter	Art. no.	P. Qty.
6 mm	6 mm	0710 60	1
8 mm	8 mm	0710 80	1
9 mm	9 mm	0710 90	1
10 mm	10 mm	0710 100	1

Spot weld cutter for pneumatic machines HSCo Longlife

The extremely durable spot weld cutter with Magma multi-layer coating for loosening spot welds with pneumatic machines on high-strength bodywork panels up to 1200 N/mm² strength on all kinds of vehicles

- Special Magma multilayer coating for up to 9 times longer service life and up to 2 times longer service life compared to conventional coatings (heat resistant up to 800°)
- Extra stable tip geometry for difficult milling conditions
- Very good centring of the cutter on the spot weld and precise milling due to the 115° centring point

Type description	Longlife
Quality	Würth-Standard
Cutting material	HSCo
Surface	Magma multilayer coating
Number of teeth	2 PCS
Suitable for tensile strength up to	1200 N/mm ²
Length	44 mm
Shaft diameter	7.5 mm
Service life (points system)	●●●○

10 mm	0710 140 100	1

Spot weld cutter for Spotle TH-902 HSCo Longlife

The extremely durable spot weld cutter with Magma multi-layer coating for loosening spot welds with pneumatic Spotle machines TH-902 and T-575 on high-strength bodywork panels of up to 1200 N/mm² strength on all kinds of vehicles

- Special Magma multilayer coating for up to 9 times longer service life and up to 2 times longer service life compared to conventional coatings (heat resistant up to 800°)
- Extra stable tip geometry for difficult milling conditions
- Very good centring of the cutter on the spot weld and precise milling due to the 115° centring point

Type description	Longlife for Spotle TH-902/T-575
Quality	Würth-Standard
Cutting material	HSCo
Surface	Magma multilayer coating
Number of teeth	2 PCS
Suitable for tensile strength up to	1200 N/mm ²
Diameter	8 mm
Length	40 mm
Shaft diameter	7.5 mm
Service life (points system)	●●●○
Drilling speed (point system)	●●●○
Bore hole quality (point system)	●●●●
Versatility (points system)	●●●○
Drilling behaviour (point system)	●●●○

End mill HSCo8 short, DIN 844K, centre-cutting

For finishing steels of medium to high strength up to 1,200 N/mm² (construction steels, case-hardened steels, tempering steels), non-ferrous metals, rust and acid-resistant steels with high cutting performance yet good surface properties. Especially for synchronous milling.

CNC|TEC

Product code	1786
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Copper, Brass, Plastic
Standards	DIN 844
Overall length	Short

HPC end mill Speedcut 4.0-Inox, extra long XL, optional, four cutting edges, uneven angle of twist gradient

Solid carbide high-performance cutter particularly suitable for machining austenitic stainless steels: Smoothing, rough finishing and roughening with one tool. Different spiral angles produce smooth, vibration-free running and an excellent surface quality. Generation 4.0 sets new standards in machining performance.

Diameter	Art. no.	P. Qty.
2.6 mm	0714 42 022	5
3.2 mm	0714 42 025	5

HSS blade for straight edges

For deburring tool for deburring straight edges on steel, aluminium, brass, cast iron and plastic

Diameter	3.2 mm
Number of pieces	2 PCS

Art. no. 0714 42 027

P. Qty.: 5

HSS blade for steel/aluminium

For deburring tool for deburring steel and aluminium

Number of pieces	2 PCS
------------------	-------

Diameter	Art. no.	P. Qty.
2.6 mm	0714 42 021	5
3.2 mm	0714 42 024	5

HSS blade for external and internal burrs

For deburring tool for deburring external and internal burrs simultaneously

Number of pieces	2 PCS
------------------	-------

Diameter	Art. no.	P. Qty.
2.6 mm	0714 42 023	5
3.2 mm	0714 42 026	5

Blade holder for deburring blades

For HSS blades with Ø 2.6 mm and Ø 3.2 mm.

Number of pieces	1 PCS
------------------	-------

Art. no. 0714 42 02

P. Qty.: 1

Machine tap assortment HSCo Multi through hole M3-M12

14 pieces Consisting of MFD speed premium speed drills and Multi Performance through hole screw taps for versatile use in almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

Twist drill

- Up to 50% faster than conventional, ground twist drills thanks to speed geometry
- 135° tip angle and optimised cross thinning for outstanding centring
- Exclusive Vario coil
- 3-face shank (from Ø 4 mm)
- Available exclusively from Würth

Machine tap

- Flexible use in cordless screwdrivers and hand-held, pillar and upright drills thanks to the additional polygon shaft, which prevents slipping in the drill chuck.
- Suitable for conventional applications thanks to the retention of the straight shaft with square mount
- Newly developed tool geometry with a reduced rake angle, optimised clearance angle and micro-geometry
- Up to three times longer service life than all uncoated machine taps from Würth
- Excellent chip removal, prevention of chip bird nesting
- Available exclusively from Würth

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Cutting material	HSCo
Surface	Vaporised
Suitable for machine type	Drill, Cordless screwdrivers, Milling/drill center, Pedestal drilling machine

Art. no. 0658 700 001

P. Qty.: 1

Machine tap assortment HSCo Multi blind hole M3-M12

14 pieces Consisting of MFD speed premium speed drills and Multi Performance blind hole screw taps for versatile use in almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

Twist drill

- Up to 50% faster than conventional, ground twist drills thanks to speed geometry
- 135° tip angle and optimised cross thinning for outstanding centring
- Exclusive Vario coil
- 3-face shank (from $\varnothing 4$ mm)
- Available exclusively from Würth

Machine tap

- Flexible use in cordless screwdrivers and hand-held, pillar and upright drills thanks to the additional polygon shaft, which prevents slipping in the drill chuck.
- Suitable for conventional applications thanks to the retention of the straight shaft with square mount
- Newly developed tool geometry with a reduced rake angle, optimised clearance angle and micro-geometry
- Up to three times longer service life than all uncoated machine taps from Würth
- Excellent chip removal, prevention of chip bird nesting
- Available exclusively from Würth

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Blind hole $\leq 2.5 \times D$
Cutting material	HSCo

Continuation **Machine tap assortment HSCo Multi blind hole M3-M12**

Surface	Vaporised
Suitable for machine type	Drill, Cordless screwdrivers, Milling/drill center, Pedestal drilling machine

Art. no. 0658 800 001

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment HSCo blue ring blind hole DIN 371/376 M3-M12

7 pieces Consisting of blue ring blind hole screw taps for general, wide-ranging applications in long-chipping, non-alloyed steels up to a strength of 850 N/mm².

- Cutting geometry precisely tailored to steel materials
- Optimized micro-geometry and diagonally stepped threaded part for high process reliability and longer service life compared to comparable machine taps

Number of pieces in assortment/set	7 PCS
Material to be processed	Steel
Quality	ZEBRA-Premium
Hole type	Blind hole $\leq 2.5 \times D$
Cutting material	HSCo
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0653 810 002

P. Qty.: 1

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment HSCo blue ring through hole DIN 371/376 M3-M12

7 pieces. Consisting of blue ring through hole screw taps for general, wide-ranging applications in long-chipping, non-alloyed steels up to a strength of 850 N/mm².

- Cutting geometry precisely tailored to steel materials

Number of pieces in assortment/set	7 PCS
Material to be processed	Steel
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Cutting material	HSCo
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0653 710 002

P. Qty.: 1

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment HSCo Multi Performance blind hole DIN 371/376 M3-M12

7 pieces. Consisting of Multi Performance blind hole screw taps for versatile use in almost all machines and materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Flexible use in cordless screwdrivers and hand-held, pillar and upright drills thanks to the additional polygon shaft, which prevents slipping in the drill chuck.
- Suitable for conventional applications, such as in CNC machining centres with collect chucks or compensation chucks, thanks to the retention of the straight shaft with square mount
- Newly developed tool geometry with a reduced rake angle, optimised clearance angle and micro-geometry
- Up to three times longer service life than all uncoated machine taps from Würth
- Excellent chip removal, prevention of chip bird nesting
- Available exclusively from Würth

Number of pieces in assortment/set	7 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal

Number of pieces in assortment/set	7 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Cutting material	HSCo
Surface	Vaporised
Suitable for machine type	Drill, Cordless screwdrivers, Milling/drill center, Pedestal drilling machine

Art. no. 0658 700 002

P. Qty.: 1

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables
- For further information, please refer to the individual products.

**Machine tap assortment Aluminium professional, blind hole
M3-M12**

14 pieces Consisting of twist drills and blind hole screw taps for machining aluminium and aluminium alloys ≤ 10% silicon. Also suitable for long-chipping plastics, zinc and copper.

Twist drill

- Self-centring
- HC (High Speed Cutting) grinding and precise cutting geometry ensure consistent drilled hole quality while at the same time guaranteeing a high degree of precision and a long service life
- The bare spiral groove ensures very good chip removal

Machine tap

- Cutting geometry precisely tailored to aluminium with larger chip space and increased angle of twist
- Optimized micro-geometry
- The smoothed surface in the bare design minimizes material adhesions and guarantees very good chip removal.

Number of pieces in assortment/set	14 PCS
Material to be processed	Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Blind hole ≤ 2.5xD
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0656 800 001

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment Aluminium professional, through hole M3-M12

14 pieces Consisting of twist drills and through hole screw taps from M3-M12 for machining aluminium and aluminium alloys $\leq 10\%$ silicon. Also suitable for long-chipping plastics, zinc and copper.

Twist drill

- Self-centring
- HC (High Speed Cutting) grinding and precise cutting geometry ensure consistent drilled hole quality while at the same time guaranteeing a high degree of precision and a long service life
- The bare spiral groove ensures very good chip removal

Machine tap

- Cutting geometry precisely tailored to aluminium
- Optimized micro-geometry
- The spiral point and the smoothed surface in the bare design minimize material adhesions and guarantee very good chip removal.

Number of pieces in assortment/set	14 PCS
Material to be processed	Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0656 700 001

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment HSCo Multi Longlife throughhole M3-M12

14 pieces. Consisting of premium drills MFD Vario and throughhole thread taps Multi Longlife each with Magma multi-layer coating for the process-reliable, economic cutting of threads in series production in almost all materials such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, brass, copper and bronze.

- Magma multi-layer coating for significantly higher service life and cutting speed
- Ideal for demanding machining and series production with a high number of holes/threads

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Cutting material	HSCo
Surface	Magma multilayer coating
Suitable for machine type	Pedestal drilling machine, Milling/drill center

Art. no. 0658 740 001

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads
- For the tool/material assignments, see the overview tables
- For further information, please refer to the individual products

Machine tap assortment HSCo Multi Longlife blind hole M3-M12

14 pieces. Consisting of premium drills MFD Vario and throughhole thread taps Multi Longlife each with Magma multi-layer coating for the process-reliable, economic cutting of threads in series production in almost all materials such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, brass, copper and bronze.

- Magma multi-layer coating for significantly higher service life and cutting speed
- Ideal for demanding machining and series production with a high number of holes/threads

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Stainless steel, Cast metal, Titanium, Special alloy, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Blind hole ≤ 2.5xD
Cutting material	HSCo
Surface	Magma multilayer coating
Suitable for machine type	Pedestal drilling machine, Milling/drill center

Art. no. 0658 840 001

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads
- For the tool/material assignments, see the overview tables
- For further information, please refer to the individual products

Combination screw tap assortment HSCo Multi Performance M3-M10

6 pieces. Premium combination screw tap for precise drilling, thread cutting and countersinking/deburring in just one operation, now also for thicker workpieces with a material thickness of up to 2xD and for almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- 3 in 1 - Drilling, thread cutting and countersinking/deburring in just one operation
- The first combination screw tap, which is suitable for thicker workpieces in addition to sheet metal machining
- Newly developed shaft generation with a combination of polygon and straight shank with square drive

Number of pieces in assortment/set	6 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Non-ferrous metal
Quality	ZEBRA-Premium
Hole type	Clearance hole
Cutting material	HSCo
Surface	Vaporised
Suitable for machine type	Cordless screwdrivers, Drill, Pedestal drilling machine

Art. no. 0658 500 001

P. Qty.: 1

CAUTION: Countersinks according to DIN74-1 for countersunk head screws (according to DIN 7991) are not possible!

For use in cordless drills as well as on hand-held, pillar and upright drills.

Sufficient coolant and lubricant must be added.

For tool/material assignments, see the overview tables.

Machine tap Speedtap 4.0–Uni/Inox, spirally grooved, for metric ISO thread DIN 13

For base thread. Particularly suitable for stainless chromium-nickel steels, non-alloyed and alloyed steel ≤1300 N/mm². Generation 4.0 sets new standards with threads.

CNC|TEC

Product code	4638
Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Non-ferrous metal
Hole type	Blind hole ≤ 3xD
Cutting material	HSCo-PM

Continuation **Machine tap Speedtap 4.0–Uni/Inox, spirally grooved, for metric ISO thread DIN 13**

Surface	HARODUR
Form	C
Shank style	Cylindrical with square drive
Tolerance of screw taps	ISO 2X (6HX)
Tolerance of shank diameter	h9
Twist angle	50° (right)
Coolant supply	External

Machine tap HSCo cast material professional, TiAlN, DIN 371/376

The cast material professional for processing cast materials, such as cast iron, cast iron with graphite nodules, malleable iron, ADI, and GGV.

- Tool type for through hole and blind hole threads
- High cutting speeds of up to 30 m/min
- Up to three times longer service life compared to similar uncoated tools in abrasive materials due to the extremely high hardness and temperature resistance of the TiAlN coating
- Cutting geometry precisely tailored to cast materials reduces the risk of outbreaks
- ØIncreased number of cuts (from M5) and X allowance for a longer service life
- Suitable for minimum quantity lubrication

Thread type	Metric thread
Material to be processed	Cast metal
Hole type	Clearance/blind hole ≤ 3xD

- When thread cutting, sufficient coolant and lubricant must be added.
- For the tool/material assignments, see the overview tables

Thread formers HSCo Multi Performance, DIN 2174

The high-performance thread former with oil grooves (from ØM3) for versatile use on almost all machines (for the first time, also on free-standing, pillar drills) and in almost all materials, e.g. conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1400 N/mm² strength. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys and bronze.

- The first thread former to bring the advantages of thread forming over thread cutting to application on free-standing and pillar drilling machines (up to Ø M12)
- One tool for throughhole and blind hole threads
- No chipping issues due to cold forming of threads, thread depths up to 4xD possible, better thread surface quality, higher strength in thread, significantly longer service life

Type description	Multi-performance thread mould
Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Non-ferrous metal, Titanium, Hard and tough material, Special alloy
Hole type	Clearance/blind hole ≤ 4xD

M20	2.5 mm	140 mm	32 mm	62 mm	0658 202 000	1

- Caution: A special predrilling diameter larger than in thread cutting and with tighter tolerances is required for thread forming! The suitable core hole diameter is stored as a technical characteristic for all thread formers.
- In thread forming, the main job of the cooling lubricant is lubrication. The more lubrication used with the highest possible grease content, the longer the service life. The lubrication also affects the surface quality of the thread! For water-mixed cooling lubricants, we recommend an oil concentration in the emulsion of at least 8% for steel processing and at least 12% for stainless steel processing. We recommend Würth cutting paste Cut and Cool Perfect for use on free-standing/pillar drills.
- Please note that for thread forming, you will need approx. two times as much performance (torque) compared to thread tapping. The means that capacity should be considered when using thread-cutting devices.
- For the tool/material assignments, see the overview tables

Multi-use bimetal bandsaw blade

One blade for any job

- Bi-metal (carrier made of spring steel, teeth made of cobalt steel M42)
- Easy band selection, as just three tooth types cover a wide variety of applications and material thicknesses.
- Cost saving thanks to minimal setup and auxiliary process times

Length x height x thickness	Teeth type	Art. no.	P. Qty.

The M42 tooth tips are highly heat resistant and very powerful, regardless of the coolant used.

The ZEBRA multi-use bandsaw blade is an aggressive tool and has a high penetration capacity; for this reason, the user must observe the following points:

- Tension the saw blade well to prevent oscillation at the teeth.
- Carefully guide the saw blade to the material to be cut.
- Apply moderate pressure (approx. 30–40% less than conventional saw blades), especially when cutting profiles.

Machine tap assortment Steel blind hole M3-M12

14 pieces Consisting of precision twist drills and blind hole screw taps for machining long-chipping, non-alloyed steels up to a strength of 850 N/mm².

Twist drill

- Optimised cross thinning for 20% lower infeed force compared to conventional drills as well as quicker progress and a more gentle way of working
- Optimised split point for precise spot drilling without centring, even on curved surfaces
- Very precise point geometry for accurate drill holes
- Vaporised surface for excellent adhesive capability of coolant lubricants and reduced tendency for material to build up

Machine tap

- Cutting geometry precisely tailored to steel materials
- Optimized micro-geometry and diagonally stepped threaded part for high process reliability and longer service life compared to comparable machine taps

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel
Quality	ZEBRA-Premium
Hole type	Blind hole ≤ 2.5xD

Continuation **Machine tap assortment Steel blind hole M3-M12**

Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0653 01

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap assortment Stainless steel through hole M3-M12

14 pieces Consisting of precision twist drills and green ring through hole screw taps for processing alloyed and high-alloyed steels (stainless steels), as well as rust-resistant and acid-resistant steels. Also suitable for processing conventional steel materials up to a strength of 850 N/mm².

Twist drill

- Large chipping space and small core for fast drilling with perfect chip removal
- Very precise point geometry for accurate drill holes, ideal for core drill holes

Machine tap

- Tool geometry precisely tailored to stainless steel with increased clearance angle

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Stainless steel
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Cutting material	HSCo
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0655 1

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap HSCo Longlife blue ring TiN through hole DIN 371/376

The Longlife blue ring machine tap with titanium nitride coating for machining long-chipping, non-alloyed steels up to a strength of 1,000 N/mm².

- Up to twice the service life as well as up to 50% higher cutting speed compared to uncoated tools, thanks to optimized TiN coating

Thread type	Metric thread
Material to be processed	Steel
Hole type	Clearance hole $\leq 3 \times D$
Quality	ZEBRA-Premium
Thread type x nominal diameter	M20
Pitch	2.5 mm
Length	140 mm
Shaft diameter	16 mm
Size of square	12 mm
Core hole diameter	17.5 mm
DIN	376
Cutting material	HSCo
Surface	TiN
Form	B
Shank style	Cylindrical with square drive
Tolerance of screw taps	ISO 2 (6H)

Art. no. 0653 100 20

P. Qty.: 1

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Multi Performance blind hole DIN 371/376

The high-performance screw tap with the newly-developed generation of shanks (a combination of polygon and straight shank (Ø M4–M12)) for versatile use with almost all machines and materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Flexible use in cordless screwdrivers and hand-held, pillar and upright drills thanks to the additional polygon shaft, which prevents slipping in the drill chuck.
- Suitable for conventional applications, such as in CNC machining centres with collect chucks or compensation chucks, thanks to the retention of the straight shaft with square mount
- Newly developed tool geometry with a reduced rake angle, optimised clearance angle and micro-geometry
- Up to three times longer service life than all uncoated machine taps from Würth
- Excellent chip removal, prevention of chip bird nesting
- Available exclusively from Würth

Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal

- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Longlife red ring TiAlN+ blind hole DIN 371/376

The extremely stable, Longlife screw tap for machining hard-to-machine materials (such as Hardox) with extremely high strengths from 1000 up to 1400 N/mm², e.g. excavator shovels, lorry attachments, armour plating, snow ploughs, agricultural machinery, etc.

- Currently one of the most powerful screw tap coatings on the market for machining hard materials
- Specifically developed for thread cutting
- Extremely high heat resistance up to 800°C
- Very high coating hardness up to 3,000 HV
- Multi-layer design with additional lubricant coating ensures extremely low friction values, low adhesion tendency and an optimum chip removal
- Stable cutting edge thanks to reduced chipping angle

Machine tap HSCo, Multi Special MF thread, blind hole DIN 374

The versatile screw tap for drilling metric fine threads for universal use in steels with a strength up to 1,000 N/mm², stainless steels and non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Universal geometry for use with a wide range of materials
- X allowance for a longer service life and greater process reliability
- Very good adhesion of coolants and lubricants as well as a reduced tendency for deposit-build-up thanks to the vaporized thread surface

Machine tap HSCo Multi Special blind hole DIN 376

The versatile screw tap with overrun shaft for universal use in steels up to a strength of 1,000 N/mm², stainless steels and non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Enables use with deep threads or interference contours thanks to the tapered tool shaft that is consistently smaller than the core diameter.
- Universal geometry for use with a wide range of materials
- X allowance for a longer service life and greater process reliability
- Very good adhesion of coolants and lubricants as well as a reduced tendency for deposit-build-up thanks to the vaporized thread surface

Machine tap HSCo Multi Longlife blind hole DIN 371/376

The Longlife high-performance thread tap with Magma multi-layer coating for process-reliable, economical cutting of threads in series production in almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, brass, copper and bronze.

- Outstanding performance and economy
- Ideal for demanding machining and series production with a high number of threads
- Magma multi-layer coating ensures reduced friction values, low adhesion tendency and optimum chip removal

Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal

Machine screw tap HSCo green ring through hole DIN 371/376

The low-priced machine tap for processing alloyed and high-alloyed steels (stainless steels), as well as rust-resistant and acid-resistant steels. Also suitable for processing conventional steel materials up to a strength of 850 N/mm².

- Tool geometry precisely tailored to stainless steel with increased clearance angle

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables

Machine screw tap HSCo yellow ring professional aluminium through hole DIN 371/376

The professional tool for machining of aluminium and aluminium alloys $\leq 10\%$ silicon. Also suitable for long-chipping plastics, zinc and copper.

- Cutting geometry precisely tailored to aluminium
- Optimized micro-geometry
- The spiral point and the smoothed surface in the bare design minimize material adhesions and guarantee very good chip removal.

Thread type	Metric thread
Material to be processed	Non-ferrous metal

Continuation **Machine screw tap HSCo yellow ring professional aluminium through hole DIN 371/376**

- When thread cutting, sufficient coolant and lubricant must be added.
- See overview tables for machine tap/material assignments

Machine tap HSCo Multi Performance through hole DIN 371/376

The high-performance screw tap with the newly-developed generation of shanks (a combination of polygon and straight shank (Ø M4–M12)) for versatile use with almost all machines and materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Flexible use in cordless screwdrivers and hand-held, pillar and upright drills thanks to the additional polygon shaft, which prevents slipping in the drill chuck.
- Suitable for conventional applications, such as in CNC machining centres with collect chucks or compensation chucks, thanks to the retention of the straight shaft with square mount
- Newly developed tool geometry with a reduced rake angle, optimised clearance angle and micro-geometry
- Up to three times longer service life than all uncoated machine taps from Würth
- Excellent chip removal, prevention of chip bird nesting
- Available exclusively from Würth

Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Longlife red ring TiAlN+ through hole DIN 371/376

The extremely stable, Longlife screw tap for machining hard-to-machine materials (such as Hardox) with extremely high strengths from 1000 up to 1400 N/mm², e.g. excavator shovels, lorry attachments, armour plating, snow ploughs, agricultural machinery, etc.

- Currently one of the most powerful screw tap coatings on the market for machining hard materials
- Specifically developed for thread cutting
- Extremely high heat resistance up to 800°C
- Very high coating hardness up to 3,000 HV
- Multi-layer design with additional lubricant coating ensures extremely low friction values, low adhesion tendency and an optimum chip removal
- Stable cutting edge thanks to reduced chipping angle

Thread type	Metric thread

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Multi Special MF thread through hole DIN 374

The versatile screw tap for drilling metric fine threads for universal use in steels with a strength up to 1,000 N/mm², stainless steels and non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Universal geometry for use with a wide range of materials
- X allowance for a longer service life and greater process reliability
- Very good adhesion of coolants and lubricants as well as a reduced tendency for deposit-build-up thanks to the vaporized thread surface

Thread type	Metric fine thread

- Sufficient coolant and lubricant must be added when cutting threads.
- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Multi Special through hole DIN 376

The versatile screw tap with overrun shaft for universal use in steels up to a strength of 1,000 N/mm², stainless steels and non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- Enables use with deep threads or interference contours thanks to the tapered tool shaft that is consistently smaller than the core diameter.
- Universal geometry for use with a wide range of materials
- X allowance for a longer service life and greater process reliability
- Very good adhesion of coolants and lubricants as well as a reduced tendency for deposit-build-up thanks to the vaporized thread surface

- For the machine tap/material assignments, see the overview tables

Machine tap HSCo Multi Longlife through hole DIN 371/376

The Longlife high-performance thread tap with Magma multi-layer coating for process-reliable, economical cutting of threads in series production in almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, brass, copper and bronze.

- Outstanding performance and economy
- Ideal for demanding machining and series production with a high number of threads
- Magma multi-layer coating ensures reduced friction values, low adhesion tendency and optimum chip removal

Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Special alloy, Hard and tough material, Non-ferrous metal

Machine screw tap HSCo yellow ring professional aluminium blind hole DIN 371/376

The professional tool for machining of aluminium and aluminium alloys $\leq 10\%$ silicon. Also suitable for long-chipping plastics, zinc and copper.

- Cutting geometry precisely tailored to aluminium with larger chip space and increased angle of twist
- Optimized micro-geometry
- The smoothed surface in the bare design minimizes material adhesions and guarantees very good chip removal.

- When thread cutting, sufficient coolant and lubricant must be added.
- See overview tables for machine tap/material assignments

Machine tap assortment Stainless steel blind hole M3-M12

14 pieces Consisting of precision twist drills and green ring blind hole screws taps for processing alloyed and high-alloyed steels (stainless steels), as well as rust-resistant and acid-resistant steels. Also suitable for processing conventional steel materials up to a strength of 850 N/mm².

Twist drill

- Large chipping space and small core for fast drilling with perfect chip removal
- Very precise point geometry for accurate drill holes, ideal for core drill holes

Machine tap

- Tool geometry precisely tailored to stainless steel with increased clearance angle
- Extra homogeneous cutting edge rounding for a high process reliability and longer service life compared to comparable machine taps

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel, Stainless steel
Quality	ZEBRA-Premium
Hole type	Blind hole $\leq 2.5 \times D$
Cutting material	HSCo
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0655 01

P. Qty.: 1

- Sufficient coolant and lubricant must be added for drilling processes and when cutting threads.
- For tool/material assignments, see the overview tables
- For further information, please refer to the individual products.

Machine tap HSCo nuts through hole DIN 357

Long machine nut screw tap with overrun shaft for cutting nuts for metric threads in steel up to a strength of 800 N/mm².

- Very long notch (approx. 2/3 of the thread length) and up to 4x the number of teeth compared to conventional machine taps
- The groove and thread geometry has been designed specifically for processing nuts.

Thread type	Metric thread
Material to be processed	Steel
Hole type	Clearance hole $\leq 1 \times D$
Quality	ZEBRA-Premium
DIN	357
Cutting material	HSCo
Surface	Plain

Shank style	Cylindrical with square drive

- When thread cutting, sufficient coolant and lubricant must be added.
- For the tool/material assignments, see the overview tables

Combination screw tap HSCo multi performance

Premium combination screw tap for precise drilling, thread cutting and countersinking/deburring in just one operation, now also for thicker workpieces with a material thickness of up to 2xD and for almost all materials, such as conventional steels, stainless steels (e.g. V2A, V4A), titanium, heat-resistant and high-strength steels of up to 1200 N/mm² strength and casting materials. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, bronze and plastics.

- 3 in 1 - Drilling, thread cutting and countersinking/deburring in just one operation
- The first combination screw tap that is not limited to use in materials up to 600 N/mm² strength, but suitable for almost all materials
- Newly developed shaft generation with a combination of polygon and straight shank with square drive

Thread type	Metric thread
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Non-ferrous metal
Hole type	Clearance hole ≤ 2xD
Quality	ZEBRA-Premium
Cutting material	HSCo
Surface	Vaporised
Shank style	Combination of polygonal and cylinder shank with square drive
Tolerance of screw taps	ISO 2 (6H)
Service life (points system)	●●●●

Continuation **Combination screw tap HSCo multi performance**

- Countersinks according to DIN74-1 for countersunk head screws (according to DIN 7991) are not possible!
- For use in cordless drills as well as on hand-held, pillar and upright drills.
- Sufficient coolant and lubricant must be added.
- For tool/material assignments, see the overview tables.

Machine tap assortment Steel through hole M3-M12

14 pieces Consisting of precision twist drills and through hole screw taps for machining long-chipping, non-alloyed steels up to a strength of 850 N/mm².

Twist drill

- Optimised cross thinning for 20% lower infeed force compared to conventional drills as well as quicker progress and a more gentle way of working
- Optimised split point for precise spot drilling without centring, even on curved surfaces
- Very precise point geometry for accurate drill holes
- Vaporised surface for excellent adhesive capability of coolant lubricants and reduced tendency for material to build up

Machine tap

- Cutting geometry precisely tailored to steel materials

Number of pieces in assortment/set	14 PCS
Material to be processed	Steel
Quality	ZEBRA-Premium
Hole type	Clearance hole $\leq 3 \times D$
Surface	Plain
Suitable for machine type	Milling/drill center, Pedestal drilling machine

Art. no. 0653 1

Die holder for drill drivers

6 pieces. Innovative, high-quality steel adapter including appropriate die guides M3–M8 for quick, optimal cutting and repairing of male threads with cordless drill screwdrivers and lathes in conjunction with HSS performance and HSCO multi performance dies in size 25x9 mm.

- Including die guides M3–M8 for a perfect, vertical cut of the thread
- Integrated chip container to collect the largest chips and ensure a clean, safe process
- 3-face shank

Number of pieces in assortment/set	6 PCS
------------------------------------	-------

Art. no. 0659 999 001

P. Qty.: 1

Tool holder

With 1/4-inch hexagonal drive

- Small size
- The total length does not increase when a ratchet spanner is used
- Suitable for use with various tools

External drive	WS13

Thread die HSS DIN EN 22568 for standard metric ISO threads

Round die in accordance with DIN EN 22568 in closed, pre-slotted design (shape B) for the production of standard metric ISO threads according to DIN 13 in steel up to 850 N/mm² strength and in cast iron.

- Usable on both sides
- Threads can be cut in one process
- Easy cutting and excellent chip removal in cutting direction
- High edge retention

Type description	For metric ISO thread DIN 13
Cutting material	HSS
Surface	Plain
Thread type	Metric thread
Form	B
Tolerance class	6g
Material to be processed	Steel, Cast iron

Tear-out strength

The tear-out strength may vary subject to application (edge areas etc.) and material. As a result, no general information can be provided on this topic. Tests in the Würth laboratory have shown that the Time-Sert thread repairs are equivalent to the original threads in most cases.

Insert nut TIME-SERT®

For repairing defective threads.

- Reliable processing, even with weak walls
- Can also be used in thin-walled materials
- Pressure-sealed for water, oil, other liquids and compressed gases
- Self-locking
- Precise positioning in the workpiece

Threaded bushing for car spark plug repairs TIME-SERT®

For flat or conical sealing seat

- Reliable processing, even with weak walls
- Can also be used in thin-walled materials
- Media-tight
- Self-locking
- Precise positioning in the workpiece

Material	Steel
----------	-------

Thread type x nominal diameter x pitch (My)	Length (L)	Design	Surface	Art. no.	P. Qty.
M10 x 1	9 mm	For flat seal	Copper plated	0662 101 09	25

Spark plug repair set M12 x 1.25 TIME-SERT®

15 pieces, for flat sealing seat

High thermal conductivity

Copper or silver coating

Compression sealed, cannot be removed

Bushings are pressed in with the workpiece.

Thread type	Metric fine thread
Nominal diameter	12 mm
Pitch	1.25 mm
Number of pieces in assortment/set	15 PCS

Tool size according to female thread of the bushing.

Die assortment HSCo multi-performance M3–M12 for standard metric ISO threads

7 pieces HSCo high performance, nitrated die for the manufacture and repair of standard metric ISO threads according to DIN 13 with cordless drill screwdrivers or manually in the die holder in almost all materials, such as steel up to 1400 N/mm² strength, stainless steel, cast iron and non-ferrous metals (e.g. aluminium, aluminium alloys and magnesium alloys).

- Flexible use with cordless drill screwdrivers and on the lathe
- Economic manual use
- Up to three times longer service life and excellent chip removal

Number of pieces in assortment/set	7 PCS
Material	High-speed steel with 5% cobalt content

Art. no. 0652 556 001

P. Qty.: 1

Die assortment HSS Performance M3–M12 for standard metric ISO threads

7 pieces. HSS high-performance, nitrated die for the manufacture and repair of standard metric ISO threads according to DIN 13 with cordless drill screwdrivers or manually in the die holder in steel up to 900 N/mm² strength, cast iron and non-ferrous metals (e.g. aluminium, aluminium alloys and magnesium alloys)

- Flexible use with cordless drill screwdrivers and on the lathe
- Economic manual use
- Outstanding performance

Number of pieces in assortment/set	7 PCS
Material	HSS

Art. no. 0652 536 001

P. Qty.: 1

Extension

For screw taps and reamers

- DIN 377
- Square in accordance with DIN 10
- Square internally and externally, hardened
- Extension has same square dimensions both internally and externally

Suitable for	Length	Art. no.	P. Qty.
Screw tap M4 square 3.4 mm	95 mm	0658 34	1
Screw tap M5 - M8 square 4.9 mm	110 mm	0658 49	1
Screw tap M9 - M10 square 5.5 mm	115 mm	0658 55	1
Screw tap M12 square 7 mm	125 mm	0658 7	1
Screw tap M14 - M16 square 9 mm	135 mm	0658 9	1

Electrode manual welding inverter ESI 160

Digital electrode welding inverter. Your entry level device for all e-hand applications.

- MicorBoost technology facilitates the welding of all electrodes, including cellulose
- Switchable to TIG welding with ContacTIG ignition
- Optimal for assembly application thanks to IP23 and S sign

Marking: CE, S

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 2.4 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	15-160 A
ON time at max. current (40°C)	30 %
Welding current at ED 100%	110 A
Welding current at ED 60%	120 A
Weldable material thickness	Steel up to 10 mm, TIG welding steel/stainless steel 1 - 6 mm, Copper 1 - 3 mm
Product weight (per item)	11824 g
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 162

P. Qty.: 1

Electrode manual welding inverter ESI 200

Small, powerful electrode welding inverter for all power jobs

- MicorBoost technology facilitates the welding of all electrodes, including cellulose
- Simple switching to electrode types
- 80 cm drop safety (min. 25 cm according to standard)
- Switchable to TIG welding with ContacTIG ignition
- Smooth and uniform arc (arc force regulation)
- No sticking of electrode (anti-stick system)
- Hot start
- Power supply (400 V) or generator - optimal welding properties, including with long wires or in the case of mains voltage fluctuations.
- Light and compact (5.5 kg at 200 A (30% ED))
- Optimal for assembly application thanks to IP23 and S sign

Nominal voltage	400 V/AC
Min./max. current	10-200 A
Weldable electrodes	1.5 - 5 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-200 A
Min./max. TIG welding current	15-200 A
ON time at max. current (40°C)	30 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Steel up to 10 mm, Steel/stainless steel 1-8 mm, Copper 1 - 3 mm
Product weight (per item)	6 kg
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 202

P. Qty.: 1

Marking: CE, S

- Arc force: Increases the arc voltage in critical situations. Prevents slag from running into the molten bath and extinguishing the arc. As a result, even difficult-to-weld electrodes can be processed.
- Hot Start: Ensures reliable ignition of the electrode. The hot start energy is automatically adjusted to the selected welding current.
- Anti-stick: Prevents the electrode from sticking to the work piece by automatically reducing the current. As a result, the electrode does not glow out and evaporation of alloy elements is prevented.

Spare part documentation in accordance with (EU) 2019/1784 – Requirements for the ecological design of welding systems. The relevant documentation is stored in the Würth Parts Manager (<https://pm.wuerth.com/index.php>). For further questions, please contact the appropriate sales representative or product and application.

TIG welding system 180DC

The compact professional device, extremely easy to control and preset welding parameters facilitate your professional introduction into TIG welding.

- Touch-free HF ignition possible via push button, switchable to conventional contact ignition
- Switchable to electrode welding
- Tungsten electrode and seam are optimally protected against oxidation thanks to automatic gas management
- Fan standby function, modern performance electronics
- Two welding jobs per electrode and TIG can be stored
- Special coating of PCB
- Light and compact (6.5 kg at 180 A (30% ED))
- Optimal for assembly application thanks to IP23 and S sign
- 80 cm drop safety (min. 25 cm according to standard)

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	15-180 A
ON time at max. current (40°C)	30 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Copper 1 - 3 mm, Steel up to 10 mm, TIG welding steel/stainless steel 1 - 6 mm
Product weight (per item)	16700 g
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 182

P. Qty.: 1

WIG welding system 180 AC/DC

Easy to operate WIG full professional system. Whether on a construction site or in the workshop, you enjoy the full convenience of the system.

- Aluminium welding also possible with AC/DC
- Touch-free HF ignition possible via push button, switchable to conventional contact ignition
- Switchable to electrode welding
- Tungsten electrode and seam are optimally protected against oxidation thanks to automatic gas management
- Fan standby function, modern performance electronics
- Two welding jobs per electrode and TIG can be stored
- Special coating of PCB
- Light and compact (13.3 kg at 180 A (35% ED))
- Optimal for assembly application thanks to IP23 and S sign
- 60 cm drop safety (min. 25 cm according to standard)

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	3-180 A
ON time at max. current (40°C)	35 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Aluminium 1 - 5 mm, Copper 1 - 3 mm, Steel up to 10 mm, Steel/stainless steel 1-8 mm
Product weight (per item)	13.3 kg
Height	390 mm
Width	191 mm
Length	493 mm
IP protection class	IP 23

Art. no. 5952 000 181

P. Qty.: 1

Marking: CE, S

Spare part documentation in accordance with (EU) 2019/1784 – Requirements for the ecological design of welding systems. MIG/MAG welding system MM 230

Welding system with 2-roller wire feed unit for welding aluminium, steel and stainless steel welding wire.

- Adjustable switching mechanism using step switch with 7 levels
- Automatic control of welding current, post-purge gas flow and spot welding time
- Wire feed automatically adjusts to the selected level

Nominal voltage	400 V/AC
Weldable wires	Aluminium, diameter 1 - 1.2 mm, Steel, diameter 0.6-1 mm
Min./max. current	30-230 A
ON time at max. current (40°C)	20 %
Cable length	3 m
Weight of machine	66 kg
Equipped wire diameter	1 mm
Wire feed roll for stainless steel	1 mm
Wire feed roll for steel	0.8 mm

Art. no. 0702 352 0

P. Qty.: 1

MIG/MAG welding system MM 350

Welding system with 4-roller wire feed unit for welding aluminium, steel and stainless steel welding wire

- Finely-adjustable switching mechanism using 2 x 12 level coarse/fine switches
- Overload protection
- Can be used for long periods thanks to fan cooling
- Automatic control of welding current, post-purge gas flow and spot welding time
- Wire feed automatically adjusts to the selected settings
- Can be switched between 2/4-cycle spot welding

Nominal voltage	400 V/AC
Weldable wires	Aluminium, diameter 0.8 - 1.6 mm, Steel/stainless steel, diameter 1 - 1.6 mm
Min./max. current	25-350 A
ON time at max. current (40°C)	30 %
Cable length	5 m
Weight of machine	104 kg
Equipped wire diameter	1 mm
Width	390 mm
Height	690 mm
Length	830 mm
Main fuse	25A

Art. no. 5952 352 350

P. Qty.: 1

Standard value for flow rate in l/min: Wire dia. x 10 = l/min

A conversion of PTFE seams on the hose pack is required for processing aluminium and stainless steel welding wires

- Aluminium torch set 098430005
- Stainless steel torch set 098430006
- Stainless steel torch set 098430007

Spare part documentation in accordance with (EU) 2019/1784 – Requirements for the ecological design of welding systems. The relevant documentation is stored in the Würth Parts Manager (<https://pm.wuerth.com/index.php>). For further questions, please contact the appropriate sales representative or product and application.

Oxyacetylene high-pressure hose

Fabricated with grommets and union nuts

9 x 3.5 + 6 x 5 mm

Length	Art. no.	P. Qty.
5 m	0984 017 905	1
10 m	0984 017 910	1

Butane gas

High-quality butane gas for re-filling gas soldering units, lighters etc.

For refilling the WGLG 100 mains-independent gas soldering device, as well as all other applications that can be refilled with universal gas (lighters, etc.)

Contents	100 ml
Colour	Colourless
Smell/fragrance	Odourless
Chemical basis	Butane
Shelf life from production	24 Month

Art. no. 0893 250 001

P. Qty.: 1/24

Aerosols, category 1

Continuous soldering tip

Long-life, internally heated continuous soldering tip

- Base material of highly heat-conductive electrolyte copper
- Chrome coating prevents corrosion and the acceptance of solder in undesirable places

Material	Product weight (per item)	Art. no.	P. Qty.
Electrolytic copper	2 g	0715 94 02	3
Electrolytic copper	5.5 g	0715 94 16	2
Electrolytic copper	6 g	0715 94 15	2
Electrolytic copper	6.5 g	0715 94 14	2
Electrolytic copper	6.5 g	0715 94 17	2
Electrolytic copper	7 g	0715 94 18	2
Electrolytic copper	18 g	0715 94 19	2

Pressure regulator

With integrated hose-break prevention

- Used specifically in welding work
- Continuously adjustable from 1.0–4.0 bar
- Rotatable connection prevents hose twisting
- Connection: DIN/combination x R 3/8 inch left
- Flow: 12 kg/h

Connection thread	DIN/Combi x ET R 3/8 inch
Gas consumption per hour	12 kg

Art. no. 0984 898 2

P. Qty.: 1

Electronic solder no. 1

Low soldering temperature due to fast-flowing solder

- Flux residues may have a corrosive action
- Active soft-soldering wire containing halogen

Wire diameter	Weight of content	Art. no.	P. Qty.
1 mm	1 kg	0987 112	1/10
1 mm	250 g	0987 111	1/20
1.5 mm	1 kg	0987 114	1/10
1.5 mm	250 g	0987 113	1/20

S-Sn60Pb40 in accordance with DIN EN ISO 9453. Flux in accordance with DIN EN 29454-1/1.1.2.B

Electric soldering iron

With nickel-plated copper tip and Schuko plug for fine soldering work

Nominal voltage	230 V/AC
Frequency	50 Hz
Heat-up time	1.5 min
Material of the grip handle	Plastic
Cable length	1.5 m

Power rating	Soldering-tip temperature	Art. no.	P. Qty.
15 W	370 °C	0715 940 03	1
30 W	410 °C	0715 940 04	1

Electronic solder no. 10

Ideally suited for PCBs

- S-Sn60Pb40 in accordance with DIN EN ISO 9453
- Flux compliant with DIN EN 29454-1/1.1.3.B
- Processing temperature: 240-260 °C
- Melting range: 183-190 °C
- Flux residues do not have a corrosive action
- Low soldering temperature due to fast-flowing flux
- Halogen-free active soft soldering wire

Wire diameter	Weight of content	Art. no.	P. Qty.
0.7 mm	250 g	0987 105	1/20
1 mm	1 kg	0987 108	1/10
1 mm	250 g	0987 107	1/20
1.5 mm	1 kg	0987 109 0	1/10

Wire diameter	Weight of content	Art. no.	P. Qty.
1.5 mm	250 g	0987 109	1/20
2 mm	1 kg	0987 110 1	1/10
2 mm	250 g	0987 110 0	1/20

Fitting solder no. 3

- S-Sn97Cu3 in accordance with DIN EN ISO 9453
- Processing temperature: 270-300 °C
- Melting range: 230-250 °C

Spool diameter	44 mm
Weight of content	250 g
Min./max. melting temperature	230 to 250 °C

Wire diameter	Art. no.	P. Qty.
2 mm	0987 132	1/20
3 mm	0987 13	1/20

Bottle Pressure Reducer

In accordance with DIN EN ISO 2503

Shielding gas	Oxygen
Manometer display	10/16 bar
Hose connection diameter	1/4 in
Working pressure	200 bar
Product weight (per item)	1339 g

Art. no. 0984 018 01

P. Qty.: 1

Flow rate is regulated on shut-off valve.

Replacement cartridge for Turbojet soldering gun

Disposable gas cartridge with self-closing valve

Weight of content	210 g
Chemical basis	Butane/propane/acetone

Art. no. 0984 900 12

P. Qty.: 4

Replacement cartridge for Powerjet soldering gun

Disposable gas cartridge with self-closing valve

Weight of content	175 g
Chemical basis	Butane/propane

Art. no. 0984 900 02

P. Qty.: 3/12

Welding Outfit Back-Pressure Valve

For connection to pressure reducer model GVX 10

Oxygen:

- P1 = 5 bar
- P2 = 3.5 bar
- = 24 m³/h throughput

Combustible gas:

- P1 = 1.5 bar
- P2 = 0.9 bar
- = 6.5 m³/h throughput

Shielding gas	Type description	Hose connection diameter	Art. no.	P. Qty.
All-gas	GVA 10	3/8 in	0984 017 930	1
Oxygen	GVO 10	1/4 in	0984 017 920	1

Welding outfit back pressure valves must be tested annually by law, in accordance with BGV D1, § 49

Hard and soft soldering set

In wooden case, with ergonomic Piezo handle

- Easy to use in all positions
- Bayonet mount: Change burner without tools
- Easy, continuous flame regulation
- Gas supply is stopped if no burner is mounted
- Gas supply only when button is pressed
- Piezo ignition in seconds
- With refillable small gas bottle
- Stable wooden case reinforced on all sides with steel angle pieces

Scope of delivery

- Piezo handle
- Pointed burner Ø 9 mm
- Turbo cyclone torch Ø 18 mm
- Small gas bottle with base, valve and hook, 425 g
- Pressure regulator 2 bar fixed setting R 3/8" left-hand thread x R 3/8" left-hand thread
- 2 open-end spanner 17 x 19
- Hose set 2 m
- Wooden case

Art. no. 0984 8

P. Qty.: 1

Small gas bottle is supplied unfilled.

Brazing solder no. 15

DIN EN 1044, ISO 3677, B-Cu80AgP

- For brazing of copper pipes in refrigeration and air-conditioning technology
- Working temperature: 710°C
- Melting range: 650-800°C

Wire diameter x length	2 x 500 mm
Weight of content	1 kg
Min./max. melting temperature	650 to 800 °C
Product weight (per item)	1048 g

Art. no. 0987 515

P. Qty.: 1

Does not contain flux.

Copper brazing solder no. 94

DIN EN 1044, ISO 3677, B-Cu94P

- For the flux-free soldering of copper/copper connections in oil, gas and liquid gas installations and in heating and drinking water installations with pipe dimensions greater than 28 x 1.5 mm. When soldering brass or red bronze, an additional flux must be used.
- Working temperature: 730°C
- Melting range: 710-880°C

Weight of content	1 kg
Min./max. melting temperature	710 to 880 °C

Wire diameter x length	Product weight (per item)	Art. no.	P. Qty.
2 x 500 mm	1053 g	0987 594	1
3 x 500 mm	1030 g	0987 594 3	1

Solder does not contain flux.

Soldering gun Powerjet

Supplied in a metal case

- Piezo ignition
- Adjustable gas supply
- Button lock for continuous operation
- Simple torch replacement due to bayonet quick-release lock
- Automatic lock for gas supply when no torch is fitted

Power rating	0.9 kW
Working pressure	1 bar
Gas consumption per hour	70 g

Art. no. 0984 900 01

P. Qty.: 1

Contents for art. no. 0984 900 01		
Designation	Art. no.	Quantity
Spare parts, hand tools, others Handgriff Powerjet		1
Replacement cartridge for Powerjet soldering gun	0984 900 02	1
Standard burner for Powerjet soldering gun	0984 900 5	1

Soldering gun assortment Turbojet

5 pieces in system case 8.4.2

- Start/stop function for maximum safety and comfort
- Bayonet quick-action fastener
- Precise flame regulation
- Works in all positions (including overhead)

System dimensions	8.4.2
Power rating	2.2 kW

Working pressure	2 bar
Gas consumption per hour	165 g

Art. no. 5964 098 490

P. Qty.: 1

Soldering tip for WGLG 100 self-igniting gas soldering unit

Form	Product weight (per item)	Art. no.	P. Qty.
Chisel type	0.006 kg	0984 990 120	3
Conical	4.666 g	0984 990 110	3

Analogue soldering station

60 watt

- Electronic temperature-controlled soldering station
- Ergonomically designed soldering iron
- Equipotential bonding liner (high-resistance connected to soldering tip) for component safety
- Multifunctional storage stand with swivelling sponge holder for right and left-handers
- Fully insulated
- Highly flexible, heat-resistant soldering-iron connection cable (1.5 m)
- Supply voltage 230 V AC, 50–60 Hz
- Soldering iron 24 V AC

Power rating	60 W
Min./max. soldering-tip temperature	150 to 450 °C
Heat-up time	60 s
Max. frequency	60 Hz

Art. no. 0715 94 50

P. Qty.: 1

Soldering fluid brush

For soldering fluid no. 41

Width	12 mm
Length	130 mm

Art. no. 0987 141 0

P. Qty.: 3

MIG/MAG hose pack MB 15 AK

Air-cooled, with Bikox hose pack and KZ-2 central connector

- Ideal for all apparatus, vehicle, machine and steel construction
- Original Bikox hose package is highly flexible, compact, robust and has a long service life
- The hose pack has a central connection system, also called „Euro connection“
- Load: 180 A CO₂; 150 A mixed gas M21 in accordance with EN 439, 60% switch-on time

Scope of delivery:

One each of push button, torch neck, gas nozzle holder, contact nozzle Ø 0.8 mm, aluminium wire contact nozzle 1 mm, conical gas nozzle, cylindrical gas nozzle, spot gas nozzle, retaining spring

Suitable for min./max. wire diameter	0.6-1 mm
--------------------------------------	----------

Hose length	Art. no.	P. Qty.
3 m	0984 160 130	1
4 m	0984 160 140	1

The individual parts of the MB 15 also fit in models of the same design; use the dimensioned drawings as a comparison.

MIG/MAG hose pack MB 25 AK

Air-cooled, with Bikox hose pack and KZ-2 central connector

- Ideal for all apparatus, vehicle, machine and steel construction
- Original Bikox hose package is highly flexible, compact, robust and has a long service life
- The hose pack has a central connection system, also called „Euro connection“
- Load: 230 A CO₂; 200 A mixed gas M 21 in accordance with EN 439, 60% switch-on time

Scope of delivery:

One each of push button, torch neck, nozzle block, contact nozzle Ø 0.8 mm, aluminium wire contact nozzle 1.2 mm, conical gas nozzle, cylindrical gas nozzle, spot gas nozzle, retaining spring

Suitable for min./max. wire diameter	0.8-1.2 mm
--------------------------------------	------------

Hose length	Art. no.	P. Qty.
3 m	0984 260 130	1
4 m	0984 260 140	1

Piezo handle

With suspension hook and storage studs on the side

- Hose connection with left-handed thread R 3/8"
- Operating pressure 1–4 bar

Max. working pressure	4 bar
Connection thread	R 3/8 inch
Product weight (per item)	257 g

Art. no. 0984 80

P. Qty.: 1

Professional pre-heating set for propane

The professional heating burner set consists of a powerful weld torch, a construction-grade propane hose and a fixed 4-bar pressure regulator (DIN combi bottle connection) with hose break protection.

Included in delivery

- Propane handle
- Low-pressure regulator with combi-connection
- Connection pipe 600 mm
- Cutting head 60 mm
- Storage device
- HP hose 3/8" LH at both ends x 5000 mm
- Hose-break protection 12 kg/h

Art. no. 0984 898 50

P. Qty.: 1

Propane soldering set

Ideal for roof and plumbing work, for soft soldering of eaves, gutters, flashings etc.

- Robust soldering iron with wooden handle
- Very handy, ease to use, low weight
- Easy, continuous flame regulation

Art. no. 0984 88

P. Qty.: 1

Small gas bottle is supplied unfilled.

High-Pressure Hose Line

For welding burners

- Max. pressure: 4 bar
- PB 30 – 6.3 x 5
- In accordance with DIN 4815 – rubber with fabric insert
- Connections: Left-handed thread R 3/8" x left-handed thread R 3/8".

Length	Art. no.	P. Qty.
5 m	0984 898 05	1
10 m	0984 898 10	1

Shielding-Gas Welding Wire Stainless steel

For MIG welding of stainless steel according to DIN 8556

Layer-coiled	Yes
Weight	15 kg
Type of coil	Basket coil
Material	Stainless steel, 1.4430 X2CrNiMo19-13
Standards	DIN 8556
Min. longitudinal elongation	30 %
Min. elasticity limit (Rp 0.2 value)	350 N/mm ²
Min. tensile strength	600 N/mm ²
Shielding gas	Argon

Wire diameter (Ø)	Art. no.	P. Qty.
0.8 mm	0982 030 08	15
1 mm	0982 030 10	15
1.2 mm	0982 030 12	15

With wet corrosion:

- Highest operating temperature +400°C
- Heat and scale resistant to approx. +800°C

Welding wire Steel SG 2

For MIG welding of steel

Layer-coiled	Yes
Weight	15 kg
Type of coil	Basket coil
Material	Low alloy steel, 1.5125, 11MnSi6
Surface	Copper plated
Standards	EN 440 DIN 8559
Type description	G 3 Si 1/SG 2

Wire diameter (Ø)	Max. nominal current	Min. nominal current	Art. no.	P. Qty.
0.8 mm	120 A	70 A	0982 008 01	15
1 mm	180 A	120 A	0982 010 01	15
1.2 mm	300 A	170 A	0982 012 01	15

Welding wire Steel SG 3

For welding of steel according to DIN 8559 (SG 3) / EN 440 (G 4 Si1)

Layer-coiled	Yes
Weight	15 kg
Type of coil	Basket coil
Material	Low alloy steel, 1.5130, 10MnSi7
Surface	Copper plated
Standards	EN 440 DIN 8559
Type description	G 4 Si 1/SG 3
Shielding gas	Argon/CO2

Wire diameter (Ø)	Art. no.	P. Qty.
0.8 mm	0982 008 013	15
1 mm	0982 010 013	15
1.2 mm	0982 012 013	15

MIG welding wire

For MIG/MAG welding

- Chrome alloyed solid wire electrodes for wear-resistant coatings in case of combined rubbing wear and impact stress.
- Processing with clamp tension only in annealed state, otherwise sanding only.
- For excavator teeth and blades, coatings for wearing parts made of high-manganese steel in case of abrasion, augers, hammer drill tools, cutting tools for cold work, rolls, cams, impact plates etc.

Layer-coiled	Yes
Weight	15 kg
Type of coil	Basket coil
Standards	EN 440 DIN 8559

Wire diameter (Ø)	Art. no.	P. Qty.
0.8 mm	0982 088	15
1 mm	0982 090	15

Inert gas welding wire

For MIG soldering

- Connection welding of copper, copper-silicon and copper-zinc alloys
- Decreased spatter
- Minimal pore formation

Layer-coiled	Yes
Weight	15 kg
Type of coil	Basket coil
Standards	DIN 1733

Wire diameter (Ø)	Material	Art. no.	P. Qty.
0.8 mm	Steel	0982 050 08	15
1 mm		0982 050 10	15

Welding and cutting torch set

For acetylene/oxygen

- Shank Ø 17 mm
- Set in steel sheet box

Art. no. 0984 017

P. Qty.: 1

* 9–14 mm welding attachments and 40–100 mm cutting nozzles are not included, but can be ordered as accessories.

Welding spray Perfect

Biological welding protection spray for aluminium, structural steel, non-ferrous base metals, stainless steels and welding torch nozzles.

- Prevents the burning-on of weld splatter on metals, VA materials and on welding torch nozzles.
- Weld spray residues are easy to remove
- Harmless when subsequently zinc-plating and painting
- Corrosion protection

Contents	400 ml
Colour	White
Container	Aerosol can
Chemical basis	Rapeseed oil emulsion
Shelf life from production	24 Month

Art. no. 0893 102 100

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Release agents must always be applied sparingly. This is necessary to prevent the possibility of pores forming in the welded material or hydrogen-induced cracks occurring in sensitive steels under critical stresses.

Before galvanizing, thoroughly clean the work pieces using a hot water high-pressure cleaner or solvent-containing degreaser.

Welding spray Plus

Biological welding protection spray for aluminium, structural steel, non-ferrous metals, stainless steel

- Prevents burning-on of weld splatter on metals, VA materials and on welding torch nozzles
- Cooling effect
- Weld spray residues are easy to remove
- Silicone-free
- Solvent-free

Free from CHCs and other solvents

Colour	Colourless
Container	Canister
Chemical basis	Water tenside
Shelf life from production	12 Month

Contents	Art. no.	P. Qty.
5 l	0893 102 005	1
20 l	0893 102 020	1

Please consider the legal instruction at the beginning of this chapter.

Release agents must always be applied sparingly. This is necessary to prevent the possibility of pores forming in the welded material or hydrogen-induced cracks occurring in sensitive steel under critical stresses.

Before galvanising, welding spray residues on the workpieces must be thoroughly removed with high-power assembly cleaner or a high-pressure cleaner.

Self-igniting gas soldering unit WGLG 100

A handy all-rounder: can be used as a soldering iron or a hot-air gun

- Convenient piezo ignition
- Continuously adjustable power level
- Includes protective cap
- Includes accessories

Min./max. power	30-100 W
Gas intake capacity	20 ml
Length x width x height	235 x 30 x 35 mm
Colour	Black

Art. no. 0984 990 100

P. Qty.: 1

Supplied unfilled (without gas)

Soft felt pad

For ICSS 300-P cleaning device

Design	Angle	Art. no.	P. Qty.

Narrow	90 Degree	0984 800 005	10
Standard	60 Degree	0984 800 008	10
Standard	90 Degree	0984 800 007	10

Rod electrode Universal blue

Good weldability in all positions, particularly in descending position.

- Suitable for steel-to-steel connections zinc plated/bare
- Good gap closure
- Easy slag removal

Approvals, suitability tests: DB

Standards	ISO 2560-A
American Welding Society (AWS)	A5.1: E 6013
Coating of welding electrode	Rutile cellulose
Type description	E 38 0 RC 11
Min. tensile strength	510 N/mm ²
Min. longitudinal elongation	22 %

Wire diameter (Ø)	Length	Min./max. current	Weight	Art. no.	P. Qty.
2 mm	300 mm	50-70 A	4.6 kg	0982 21	480
2.5 mm	350 mm	70-100 A	5.1 kg	0982 251	300
3.2 mm	350 mm	90-150 A	5.4 kg	0982 325 1	190
4 mm	350 mm	110-200 A	5.2 kg	0982 41	120

Rod electrode Inox 2 purple

Particularly suitable for A2 stainless steel

- Very good weldability
- Low spray losses
- Easy slag removal

Wire diameter (Ø)	3.2 mm
Length	350 mm
Min./max. current	70-130 A
Weight	2 kg
Standards	ISO 3581
American Welding Society (AWS)	A5.4: E 308L-17
Coating of welding electrode	Rutile
Material	Stainless steel, 1.4316 X1CrNi19-9
Type description	E19 9 LR 1 2
Min. tensile strength	520 N/mm ²
Min. longitudinal elongation	33 %

Art. no. 0982 325 3

P. Qty.: 55

Approvals, suitability tests: DB, TÜV

The electrode can be welded with direct current +pole and alternating current.

Rod electrode Inox 4 red

Particularly suitable for A4 stainless steel

- Very good weldability
- Smooth, even weld texture
- Good re-ignition
- Few splash losses
- Easy slag removal

Standards	ISO 3581
American Welding Society (AWS)	A5.4: E 3162-17
Coating of welding electrode	Rutile
Material	Stainless steel, 1.4430 X2CrNiMo19-13
Type description	E19 12 3 LR 1 2
Min. tensile strength	520 N/mm ²
Min. longitudinal elongation	27 %

Wire diameter (Ø)	Length	Min./max. current	Weight	Art. no.	P. Qty.
2.5 mm	300 mm	45-90 A	1.7 kg	0982 254	87
3.2 mm	350 mm	60-125 A	2 kg	0982 325 4	53

Approvals, suitability tests: DB, TÜV

The electrode can be welded with direct current +pole and alternating current.

Rod electrode Standard green

Good weldability in all positions, including in gently descending position (10–20°).

- Particularly suitable for galvanised steel on galvanised steel
- Good re-ignition
- Few splash losses
- Easy slag removal
- Even weld texture

Standards	ISO 2560-A
American Welding Society (AWS)	A5.1: E 6013
Coating of welding electrode	Rutile
Type description	E 42 0 RR 12
Min. tensile strength	500 N/mm ²
Min. longitudinal elongation	20 %

Wire diameter (Ø)	Length	Min./max. current	Weight	Art. no.	P. Qty.
2 mm	300 mm	40-80 A	4 kg	0982 2	360
2.5 mm	350 mm	50-110 A	4.7 kg	0982 25	220
3.2 mm	350 mm	80-150 A	4.7 kg	0982 325	130

Approvals, suitability tests: DB, TÜV

The electrode can be welded with direct current -pole (+pole) and alternating current.

Rod electrode Special white

Best weldability in awkward positions and for root welding.

- Basic-coated, chalk-based AC/DC special electrode, also suitable for welding on miniature welding transformers
- In contrast to the welding properties of chalk-based electrodes that were previously claimed as characteristic, special white flows very smoothly with only slight splash losses.
- Notch-free seam transitions for fillet welds
- Even weld texture
- Good slag coverage
- Easy slag removal

Length	350 mm
Standards	ISO 2560-A
American Welding Society (AWS)	A5.1: E 7016
Coating of welding electrode	Basic
Type description	E 38 2 B 32 H 10
Min. tensile strength	490 N/mm ²
Min. longitudinal elongation	22 %

Wire diameter (Ø)	Min./max. current	Weight	Art. no.	P. Qty.
2.5 mm	50-90 A	4.2 kg	0982 252	200
3.2 mm	90-150 A	4.6 kg	0982 325 2	130

Approvals, suitability tests: DB, TÜV

The electrode can be welded with direct current +pole and alternating current.

Soft solder

Titanium welding burner

For drying, thawing and laying bituminous welding sheets

- Max. 1 m long high-pressure working flame
- Burner made of TA2 titanium – therefore very robust and stable
- 60% lighter than conventional welding burners made of steel and brass
- Ergonomic burner design relieves strain on the operator
- Includes stand-up base for burner
- Pre-set 7 cm pilot flame; can be adjusted with a screwdriver if necessary
- Quick switchover from pilot flame to working flame via switching lever on handle
- Good fine regulation of the working flame
- Connection: Left-handed thread R 3/8"

Angled magnet

Magnetic angle fixer for fast holding and fixing during welding and soldering work and as a work aid

- Accurate joining of flat, curved or round metal components
- Replaces „second man“ during assembly, saving working time and costs
- Simple removal by tilting to the side.
- The magnetic angle fixer offers the following angles: 30°, 45°, 75° and 90° (see picture). Other options: 105°, 120° and 180°

Length	96 mm
Width	64 mm

Continuation **Angled magnet**

Art. no. 0691 180

P. Qty.: 1

Segmented Grinding Disc For Stainless Steel

Zirconia alumina, especially suitable for machining stainless steel

- For freehand grinding with electric or pneumatic angle grinders
- Circumferential speed max. 80 m/s
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- Robust polyester-cotton mixed fabric
- Glass fabric backing disc
- Abrasive cloth (zirconia alumina)

Complies with the most demanding safety requirements of European Standard EN 13743 and the OSA (Organization for Safety of Grinding Tools)

Drill hole	22.23 mm
Material of the carrier disc	Glass fabric
Material of abrasive medium	Zirconium conrundum

Segmented Grinding Disc For Stainless Steel Long-life

With specially encased, grinding-active ceramic grain specifically designed for stainless steel and high-alloy steels.

- For freehand grinding with electric or pneumatic angle grinders.
- Circumferential speed max. 80 m/s
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- High-performance abrasive cloth (robust polyester fabric) with additional active-grinding coating layer (Topsize coating)
- Specially coated active-grinding ceramic abrasive grain
- Robust glass fabric backing disc
- Up to 4x longer service life
- Extremely high rate of material removal
- Finer and more uniform surface quality
- High-performance abrasive cloth (ceramic abrasive grain with grinding-active topcoat)

Drill hole	22.23 mm
Design	Domed
Material of the carrier disc	Glass fabric
Material of abrasive medium	Ceramic grain

Diameter (Ø)	Grid size	Max. rotation speed	Art. no.	P. Qty.
115 mm	40	13300 rpm	0578 430 314	10

Complies with the most demanding safety requirements of European Standard EN 13743 and the OSA (Organization for Safety of Grinding Tools).

Use appropriate protective clothing, e.g. safety goggles, gloves, work shoes and dust mask when working. Always use an appropriate protective hood when performing grinding work. Using damaged discs increases the risk of accidents. Work only with undamaged discs. The permissible circumferential speed may not be exceeded.

For freehand grinding with electric or pneumatic angle grinders.

Clear and correct disc storage

Dry, at +20°C room temperature.

Segmented Grinding Disc for Steel / Stainless Steel Long-life

Segmented grinding disc with patented segment shape and arrangement. Extremely long service life coupled with very high degree of material removal. Specially suitable for grinding edges.

- For freehand grinding with electric or pneumatic angle grinders
- Circumferential speed max. 80 m/s
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- High-performance abrasive cloth with additional grinding-active coating layer (Topsize coating)
- Robust glass fabric backing disc
- New, patented flap shape and arrangement
- High-performance abrasive cloth (zirconia alumina with grinding-active topcoat)
- Minimal vibrations in comparison to conventional rough grinding discs

Drill hole	22.23 mm

Use appropriate protective clothing, e.g. safety glasses, gloves, work shoes and dust mask when working. Always use an appropriate protective hood when performing grinding work. Using damaged discs increases the risk of accidents. Work only with undamaged discs. The permissible circumferential speed may not be exceeded.

Clear and correct disc storage

Dry, at +20°C room temperature

Longlife ser. flap disc

**The fillet welding professional for steel/stainless steel.
For machining hard-to-reach areas such as radii and
fillet welds.**

- Comfortable and secure operation
- Extremely long service life, very high material removal with limited material heating and finest surface roughness
- Highly flexible abrasive flaps, quick and easy disc assembly

Diameter (Ø)	125 mm
Tool holding device	M14
Design	Straight
Material of the carrier disc	Plastic
Max. rotation speed	12250 rpm
Min./max. recommended rotation speed	7500-10000 rpm
Max. recommended rotation speed	10000 rpm
Material of abrasive medium	Ceramic grain

Grid size	Art. no.	P. Qty.

60	0578 881 526	10
80	0578 881 528	10

Segmented grinding disc CERALINE Longlife & Speed

**For extremely high and fast material removal at low
contact pressure for steel, stainless steel and aluminium.**

- Extremely high and very fast material removal rate with cool grinding
- Very long service life and low contact pressure

Diameter (Ø)	125 mm
Drill hole	22.23 mm
Design	Straight
Material of the carrier disc	Glass fabric
Max. rotation speed	12250 rpm
Max. recommended rotation speed	7500 rpm
Material of abrasive medium	Ceramic grain

Grid size	Art. no.	P. Qty.
40	0578 510 524	10
60	0578 510 526	10
80	0578 510 528	10
120	0578 510 521	10

Complies with the most demanding safety requirements of European Standard EN 13743 and the OSA (Organization for Safety of Grinding Tools)

- Max. circumferential speed 80 m/s
- Recommended speed 7,500 rpm

- Only use with appropriate protective equipment such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Segmented see-through grinding disc CERALINE Longlife & Speed

For optimum view when machining workpieces made from steel, stainless steel and aluminium.

- See-through segmentation allows for a clear view of the work-piece to be machined
- Extremely high and very fast material removal rate with cool grinding, very long service life and low contact pressure

Diameter (Ø)	125 mm
Drill hole	22.23 mm
Design	Domed
Material of the carrier disc	Glass fabric
Max. rotation speed	9650 rpm
Max. recommended rotation speed	7500 rpm
Material of abrasive medium	Ceramic grain

Grid size	Art. no.	P. Qty.

60	0578 810 326	10
80	0578 810 328	10
120	0578 810 321	10

Complies with the most demanding safety requirements of European Standard EN 13743 and the OSA (Organization for Safety of Grinding Tools)

- Max. circumferential speed 63 m/s
- Recommended rotation speed 7,500 rpm
- The disc becomes softer at lower speeds to adapt perfectly to the contour of the workpiece.
- Work only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Segmented Grinding Disc Speed

With grinding-active multi-connection specifically designed for stainless steel and high-alloy steels (surface pro).

- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- High-performance abrasive cloth with additional grinding-active coating layer (Topsize coating)
- Robust glass fabric backing disc
- In comparison to conventional segmented discs:
- High-performance abrasive cloth (zirconia alumina with grinding-active topcoat)

Drill hole	22.23 mm
Design	Domed
Material of the carrier disc	Glass fabric

125 mm	80	Straight	12200 rpm	7500 rpm	0579 400 528	10

Complies with the most demanding safety requirements of European Standard EN 13743 and the OSA (Organization for Safety of Grinding Tools)

Slotted See-Through Disc

Good view „through the disc“ and therefore of the material being processed. Ideal for processing thin metal sheets.

- Clear view of the workpiece to be processed
- Better surface quality through targeted work
- Reduction of temperature on the surface prevents undesired blue colouring of the workpiece
- Good, smooth guidance

Drill hole	22.23 mm
Design	Domed
Material of the carrier disc	Glass fabric
Material of abrasive medium	Zirconium conrundum

Diameter (Ø)	Grid size	Max. rotation speed	Max. recommended rotation speed	Art. no.	P. Qty.

125 mm	80	12250 rpm	7500 rpm	0578 812 580	10

When only wood or plastics are ground, the disc must be cleaned by grinding on a sharp-edged iron tool.

Segmented Grinding Disc OSF® (one-step finish)

The pipe professional is ideal for removing weld seams and providing finishing touches in one work step. For direct use on speed-controllable angle and fillet seam grinders, offering a combination of fast material removal and perfect surface quality on piping.

- 3 in 1 (welding seam grinding, matching, finish sanding)
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- Nylon abrasive fleece made from „surface conditioning“ material
- Aluminium oxide with top size abrasive cloth
- Robust fibre glass backing disc
- Enormous amount of time saved (significant reduction in work steps)
- Grinding welding seams and finishing in one step
- Constant and low Ra value (high surface quality)
- No changes in shape during grinding
- Cooler grinding (low working temperature)
- No clogging
- No additional support plate required

Drill hole	22.23 mm
Grid size	Medium
Design	Domed

Diameter (Ø)	Max. rotation speed	Min./max. recommended rotation speed	Max. recommended rotation speed	Art. no.	P. Qty.
115 mm	13200 rpm	2700-3700 rpm	3700 rpm	0585 580 318	1/10
125 mm	12200 rpm	2500-3500 rpm	3500 rpm	0585 580 328	1/10

The surface quality is an expression of the roughness (Ra value)

Mini-Disc

Zirconium corundum. Compatible with 3M Roloc system.

- Flexible mini segmented grinding disc with quick-change mounting for use on pneumatic rod grinders (angled), flexible shafts.
- 76 mm Ø discs can also be used on 115 mm pneumatic or electric angle grinders in conjunction with an M14 holder.
- Sturdy plastic disc with quick-change mounting
- Rugged, flexible cotton fabric with high tear resistance
- Service life comparison: Conventional fibre disc: Mini-Disc = 20: 1

Radial bristle disc

For easy and rapid cleaning of hard-to-reach places such as on door rebates. For use on pneumatic axial grinders and flexible shafts.

- Cast from one piece
- Individual segments
- Unique, tough Cubitron (ceramic abrasive grain)
- High level of consistent efficiency right until the entire segment is completely worn

Diameter (Ø)	75 mm
Max. rotation speed	20000 rpm

Colour	Grid size	Art. no.	P. Qty.
White	120	0673 010 751	10
Yellow	80	0673 010 758	10

Holder

For radial bristle disc

Length	65 mm
Shaft diameter	6 mm

Art. no. 0673 976

P. Qty.: 1

Bristle disc

For cleaning and removing coatings or dirt on metals, concrete, natural stone, wood and plastic

- Cast from a single piece and uniquely tough, „CUBITRON“ (ceramic abrasive grain)
- Suitable for up to 25,000 rpm, allows a higher and more uniform level of use until the entire disc is worn out.
- Tool-free quick-change mount system for diameters 50 mm and 75 mm, integrated M14 thread for 115 mm diameter

Diameter (Ø)	Tool holding device	Colour	Grid size	Max. rotation speed	Art. no.	P. Qty.

180 mm	120	8500 rpm		0580 180 120	50

General working and safety instructions

- Only use fibre discs with approved, undamaged support plates
- The diameter of the fibre disc must not be more than 15 mm greater than the diameter of the support plate
- Plunge-cut grinding is not permitted
- Always wear appropriate protective equipment, e.g. safety glasses, gloves, hearing protection, etc.
- Store out of direct sunlight and away from heat sources. Do not store in damp environments or on the floor
- Store in original packaging at 18-22°C and 45-60% relative air humidity

Vulcanised fibre discs, Topsize zirconia alumina

Tear-resistant, tough-elastic sanding disc

- 22 mm hole with cross slot
- Carrier material made from vulcanised fibre
- Consistent removal rates
- Topsize coating (= specialised zirconia alumina with cooling multi-bonding and active grinding fillers) and highly elastic fully synthetic resin bonding

Bore diameter	22.23 mm

- Store in original packaging at 18-22°C and 45-60% relative air humidity

Longlife & Speed ceramic abrasive grain vulcanised fibre disc

Blue/green for steel and stainless steel (professional stainless steel).

- Lowest roughness and perfect surface finish due to precision-shaped uniform abrasive grain
- Extremely high removal rate with cool sanding
- Low contact pressure required
- Extremely long service life
- Free from iron, chlorine and sulphur ($\leq 0.1\%$)

Bore diameter	22.23 mm

Precision-shaped, fully uniform Cubitron® II grain does not correspond to any of the numerous global grain standards (e.g. FEPA). For this reason, the grain size is shown with a + sign and empirically assigned to known grain series (e.g. 36+).

3M® and Cubitron® are brand names of the 3M Company

Support plate

Complete with clamping nut

Diameter (Ø)	Suitable machines	Art. no.	P. Qty.
115 mm	Pneumatic angle grinder	0586 580 115	1
125 mm	Würth EWS 17-125 Power, Würth EWS 12-125 Solid, Würth EWS 10-125, Würth EWS 10-125 Compact	0586 580 125	1

180 mm	Würth SWS 180 Power	0586 580 180	1

Support plate with cooling grooves for vulcanised fibre discs

Long service life and perfect surface results.

- Long service life
- Optimal surface results with minimal heat generation

Diameter (Ø)	Art. no.	P. Qty.
115 mm	0586 580 215	1
125 mm	0586 580 225	1
178 mm	0586 580 280	1

Hard-pressed compact fleece disc

For direct use on speed-controllable angle and fillet seam grinders; offers a uniform finish without damaging the surface at a defined roughness.

- High removal rate at lowest roughness depth
- Achieves a consistently high quality surface
- Rapid achievement of high-quality surfaces without changing the shape of the workpiece

Suitable for	Fillet weld grinder, Angle grinder
--------------	------------------------------------

Diameter (Ø)	Drill hole	Thickness	Hardness	Design	Art. no.	P. Qty.
125 mm	22.23 mm	3 mm	7 (medium hard)	Fein	0585 012 163	6
125 mm	22.23 mm	3 mm	8 (hard)	Medium	0585 012 173	6
125 mm	22.23 mm	6 mm	5 (soft)	Very fine	0585 012 243	6
125 mm	22.23 mm	6 mm	7 (medium hard)	Fein	0585 012 273	6
150 mm	25.4 mm	3 mm	7 (medium hard)	Fein	0585 915 163	6
150 mm	25.4 mm	3 mm	8 (hard)	Medium	0585 915 172	6
150 mm	25.4 mm	6 mm	5 (soft)	Very fine	0585 915 243	6
150 mm	25.4 mm	6 mm	7 (medium hard)	Fein	0585 915 263	6

The surface quality is an expression of the roughness (Ra value).

Hard-pressed compact fleece disc

With fabric plate for direct use on speed-controllable angle grinders, offers a uniform finish without damaging the surface at a defined roughness.

- High removal rate at the lowest roughness
- Achieve constant surface quality
- Quickly achieve high-quality services without modifying the workpiece geometry
- Achieve the lowest roughness in one work step, e.g. Ra 1.4301 becomes 0.02 f
- Resists clogging
- Long service life and comfortable working

Drill hole	22.23 mm
Hardness	5 (soft)
Design	Very fine
Grid size	Very fine
Suitable for	Angle grinder

Continuation **Hard-pressed compact fleece disc**

Diameter (Ø)	Min./max. rotation speed	Recommended rotation speed	Art. no.	P. Qty.
115 mm	5300-10000 rpm	5300 rpm	0585 011 348	5
125 mm	4500-8000 rpm	4500 rpm	0585 012 348	1/5

The surface quality is an expression of the roughness (Ra value).

Hook-and-loop fabric disc Trizact®

For sanding, polishing (finish sanding) and removing rolling skin.

- Aggressive sanding, extremely fine grinding finish, long service life with constant surface quality (roughness)

Diameter	125 mm
Adhesive system	Hook and loop
Backing material	Semi-flexible X-base

Grid size	Art. no.	P. Qty.
120	0573 412 012	10
220	0573 412 022	10
280	0573 412 028	10

600	0573 412 060	10
1200	0573 412 120	10

Please consider the legal instruction at the beginning of this chapter.

- Recommended speed 1,000 rpm to 2,500 rpm
- Work only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Hook-and-loop fabric disc CERALINE

Used for grinding surfaces, dressing, smoothing, deburring and for welding seam machining.

- Extremely high and very fast material removal with a cool grind
- Very long service life and low contact pressure

Diameter	125 mm
Adhesive system	Hook and loop
Backing material	Mesh
Material to be processed	Steel, Stainless steel, Aluminium

Grid size	Art. no.	P. Qty.
60	0573 512 506	10
80	0573 512 508	10
120	0573 512 512	10

- Recommended speed 2,500 rpm - 5,300 rpm
- Use only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Support Plate for Velcro Disc

For optimal sanding results. The sanding plates are matched to the application.

- Colour-coding system for quick and easy identification of the right support plate
- Highly heat-resistant adhesive and Velcro
- Rubber intermediate layer
- M14 direct mounting

Diameter (Ø)	123 mm
Connection thread	M14

Design	Colour	Art. no.	P. Qty.
Hard	Black	0586 643 125	1
Medium	Red	0586 642 125	1
Soft	Grey	0586 641 125	1

Stainless Steel Tape

Self-adhesive

- Uniform sanding pattern on both frame parts
- Allows fast, simple and precise taping off
- Simple to cut to size with ordinary household scissors
- Simple and economical solution
- Reusable

Width	100 mm
Thickness	0.15 mm
Material	Stainless steel A4, 1.4404

Length	Art. no.	P. Qty.
1 m	0672 101 001	1
3 m	0672 101 003	1

Velcro fabric discs

Diameter: 115 mm

- Heavy, robust fabric on hook-and-loop pad
- Based on a solid synthetic resin bond
- Because of dense corundum scattering (aluminium oxide)

Diameter	115 mm
Adhesive system	Hook and loop

Grid size	Art. no.	P. Qty.

Universal dispenser system

Dispenser system with eight large reel stars

Length	365 mm
Width	535 mm
Height	143 mm
Included in delivery (Lieferumfang)	5 x reel holders/8 x reel cores

Art. no. 0956 109 0

P. Qty.: 1

Fleece Flap Disc

For direct use on speed-controlled angle grinders

Design:

- Fleece
- Synthetic corundum (aluminium oxide)
- Fabric plate

Diameter (Ø)	115 mm
Recommended rotation speed	2500 rpm
Suitable for	Angle grinder

Design	Grid size	Art. no.	P. Qty.
Coarse	100	0585 500 100	10
Fein	280	0585 500 280	10
Medium	180	0585 500 180	10

Fleece Flap Disc Combined

For direct use on speed-controlled angle grinders

Design:

- Fleece/linen
- Synthetic corundum/synthetic corundum (aluminium oxide/aluminium oxide)
- Fabric plate

Diameter (Ø)	115 mm
Recommended rotation speed	2500 rpm
Suitable for	Angle grinder

Design	Grid size	Art. no.	P. Qty.
Coarse	100	0585 501 100	10
Fein	P280	0585 501 280	10
Medium	P180	0585 501 180	10

The combination with grinding cloth enhances the sanding effect of the fleece. Not suited for radial use.

Sanding Blade Roller

With 6 mm wedge taper and size 19 hole for surface sanding machines.

- Medium hardness
- Synthetic corundum
- Synthetic resin-bound sanding discs
- Circumferential speed: Specified by the machine used, but no more than approx. 30 m/s = 3,700 rpm

Design	With wedge taper 6 mm
Max. circumferential speed	30 m/s
Material of abrasive medium	Normal corundum

100 x 100 x 19 mm	320	0672 900 320	1

General working instructions: At high speeds a coarse grain acts like a finer grain and at low speeds a fine grain acts like a coarser one.

Use tools with a low contact pressure; high contact pressure leads to premature wear.

With insufficient chip removal, do not increase the contact pressure, but instead use a coarser grain.

Attention: Pay attention to the running direction! Tools are only suitable for clockwise rotation.

Burnishing roller

Sanding Fleece/Linen Combined

- With 6 mm wedge taper and size 19 hole for surface sanding machines
- Medium harness
- Normal corundum
- Synthetic resin-bound grinding segments
- Circumferential speed: Specified by the machine used, but no more than 30 m/s = 3700 rpm

Design	With wedge taper 6 mm
Material of abrasive medium	Normal corundum
Max. circumferential speed	30 m/s

Diameter x width x drill hole	Fleece grid size	Linen grid size	Material to be processed	Art. no.	P. Qty.

General working instructions: At high speeds a coarse grain acts like a finer grain and at low speeds a fine grain acts like a coarser one.

Use tools with a low contact pressure; high contact pressure leads to premature wear.

With insufficient chip removal, do not increase the contact pressure, but instead use a coarser grain.

Attention: Pay attention to the running direction! Tools are only suitable for clockwise rotation.

Serrated grinding sleeve

Replaces sanding sleeves, flap wheels, sanding tips and even carbide burrs. Makes it possible to achieve perfect surface results.

Comfortable and rapid work

Extremely soft operation with a very high rate of material removal, outstanding service life and the lowest possible surface roughness, with a perfect surface finish thanks to the abrasive flaps.

Less vibration and noise

compared to sanding tips and carbide milling cutters thanks to the abrasive flaps

The ideal solution to many problems

The serrated grinding sleeve ensures an extremely high rate of material removal, even in the most confined of spaces.

75 mm	30 mm	60 mm	120	4000-7000 rpm	0589 506 031	10

For optimum service life results, work only with a low contact pressure. The recommended rotation speed depends on the application and the material to be processed. The maximum permitted circumferential speed is 30 m/s, which is not the same as the recommended rotation speed. Do not allow grinding sleeves to protrude beyond the sanding belt mount. Follow general working and safety precautions.

Synthetic corundum flap wheels

Ideal for grinding in confined spaces e.g. in mould-making, container and apparatus engineering and pipeline construction.

- Supple, soft abrasive flaps for gentle working with high material removal
- Easily resettable synthetic resin core facilitates optimal operation in confined spaces without damaging the work piece

Please consider the legal instruction at the beginning of this chapter.

Flap wheels achieve optimal performance at a recommended cutting speed of 15–20 m/s. An ideal compromise between the removal rate, surface quality and temperature load of the work piece and the service life of the flap wheel. The maximum permissible rotation speed (min-1) must never be exceeded for safety reasons. Flexible shafts, electric and pneumatic straight grinders can be used as tool drives.

Service life and heat development:

The low contact pressure and circumferential speed increase the service life of the flap wheel and minimise the temperate load on the work piece.

Material removal:

Increasing the removal rate should be achieved by switching to a rougher grain rather than increasing the contact pressure.

Surface quality:

High cutting speeds with low contact pressure produce fine roughness. Increasing the contact pressure with low cutting speed increases the depth of roughness. The softer the material to be machined, the greater the depth of roughness (when using the same grain size).

Ceramic abrasive grain flap wheel

Ideal for grinding in tight spaces and for decorating surfaces.

- Creating decorative surfaces
- High material removal rate and the lowest surface roughness with high service life
- Ideal in confined spaces thanks to the slightly set-back resin core

Material of abrasive medium	Ceramic grain
Material to be processed	Stainless steel, Hardened steel, Cast metal, Higher strength steel, Zinc, Injection-moulded zinc

Please consider the legal instruction at the beginning of this chapter.

Flap wheels achieve optimal performance at a recommended cutting speed of 15–20 m/s. An ideal compromise between the removal rate, surface quality and temperature load of the work piece and the service life of the flap wheel. The maximum permissible rotation speed (min-1) must never be exceeded for safety reasons. Flexible shafts, electric and pneumatic straight grinders can be used as tool drives.

Service life and heat development:

The low contact pressure and circumferential speed increase the service life of the flap wheel and minimise the temperate load on the work piece.

Material removal:

Increasing the removal rate should be achieved by switching to a rougher grain rather than increasing the contact pressure.

Surface quality:

High cutting speeds with low contact pressure produce fine roughness. Increasing the contact pressure with low cutting speed increases the depth of roughness. The softer the material to be machined, the greater the depth of roughness (when using the same grain size).

Abrasive fleece matting body

Specially designed for processing stainless steel. Virtually shoulder-free matting and burnishing and for matching „pre-sanded“ metal sheets. For effective surfaces, cleaning oxide coatings and removing discolouration.

Quick and shoulder-free

Double-impregnated abrasive fleece achieves the required sanding pattern with quick and shoulder-free results.

Easy to assign fineness structure

Colour coding to prevent the different versions from being mixed up.

Diameter x width x shaft diameter	Design	Colour	Max. rotation speed	Max. recommended rotation speed	Art. no.	P. Qty.
40 x 25 x 6 mm	Extra-coarse	Orange	9000 rpm	7500 rpm	0672 304 080	10
40 x 25 x 6 mm	Medium	Yellow	9000 rpm	7500 rpm	0672 304 018	10
40 x 25 x 6 mm	Fein	Green	9000 rpm	7500 rpm	0672 304 028	10
50 x 25 x 6 mm	Extra-coarse	Orange	8000 rpm	6000 rpm	0672 305 080	10
50 x 25 x 6 mm	Medium	Yellow	8000 rpm	6000 rpm	0672 305 018	10
50 x 25 x 6 mm	Fein	Green	8000 rpm	6000 rpm	0672 305 028	10
60 x 40 x 6 mm	Extra-coarse	Orange	7000 rpm	5000 rpm	0672 306 080	5
60 x 40 x 6 mm	Medium	Yellow	7000 rpm	5000 rpm	0672 306 018	5
60 x 40 x 6 mm	Fein	Green	7000 rpm	5000 rpm	0672 306 028	5
80 x 50 x 6 mm	Extra-coarse	Orange	6000 rpm	4000 rpm	0672 308 080	5
80 x 50 x 6 mm	Medium	Yellow	6000 rpm	4000 rpm	0672 308 018	5
80 x 50 x 6 mm	Fein	Green	6000 rpm	4000 rpm	0672 308 028	5

- At high rotation speeds, coarse grain acts finer, and at low speeds fine grain acts coarser
- Use tools with a low contact pressure; heavy contact pressure causes premature wear
- If there is insufficient chip removal, do not increase the contact pressure. Instead, use coarser grains

Abrasive fleece matting body

For effective surfaces, cleaning oxide coatings and removing discolouration.

Diameter x width x shaft diameter	Art. no.	P. Qty.
40 x 20 x 6 mm	0672 954 210	5
40 x 30 x 6 mm	0672 954 310	5
50 x 30 x 6 mm	0672 955 310	5
60 x 40 x 6 mm	0672 956 410	5

- At high rotation speeds, coarse grain acts finer, and at low speeds fine grain acts coarser
- Use tools with a low contact pressure; heavy contact pressure causes premature wear
- If there is insufficient chip removal, do not increase the contact pressure. Instead, use coarser grains

Combined abrasive fleece/cloth matting body (mixed corundum)

For shoulder-free matting, line matting, satin finish and removal of dirt and oxide layers on metal.

- High sanding effect owing to the additional abrasive cloths between the abrasive fleece

Colour	Red brown
--------	-----------

Diameter x width x shaft diameter	Art. no.	P. Qty.
40 x 20 x 6 mm	0672 964 218	5
40 x 30 x 6 mm	0672 964 318	5
50 x 30 x 6 mm	0672 965 318	5
60 x 40 x 6 mm	0672 966 418	5

- At high rotation speeds, coarse grain acts finer, and at low speeds fine grain acts coarser
- Use tools with a low contact pressure; heavy contact pressure causes premature wear
- If there is insufficient removal, do not increase the contact pressure. Instead, use coarser grains

Matting body CERALINE

For the removal of minor scratches, virtually seamless matting and burnishing and for matching „pre-sanded“ sheet metal. For impressive surfaces, cleaning oxide coatings and removing discolouration.

- Effective and very long-lasting
- Quick and seamless
- Simple assignment of fineness structure

Diameter x width x shaft diameter	Design	Colour	Max. rotation speed	Max. recommended rotation speed	Art. no.	P. Qty.
40 x 25 x 6 mm	Extra-coarse	Orange	9000 rpm	7500 rpm	0672 404 066	10
40 x 25 x 6 mm	Medium	Yellow	9000 rpm	7500 rpm	0672 404 061	10

60 x 40 x 6 mm	Extra-coarse	Orange	7000 rpm	5000 rpm	0672 406 066	5
60 x 40 x 6 mm	Medium	Yellow	7000 rpm	5000 rpm	0672 406 061	5
60 x 40 x 6 mm	Fein	Green	7000 rpm	5000 rpm	0672 406 062	5
80 x 50 x 6 mm	Extra-coarse	Orange	7000 rpm	5000 rpm	0672 408 066	5
80 x 50 x 6 mm	Medium	Yellow	7000 rpm	5000 rpm	0672 408 061	5
80 x 50 x 6 mm	Fein	Green	7000 rpm	5000 rpm	0672 408 062	5

- At high rotation speeds, coarse grain acts finer, and at low speeds fine grain acts coarser
- Use tools with a low contact pressure; heavy contact pressure causes premature wear
- If there is insufficient removal, do not increase the contact pressure. Instead, use coarser grains

Sanding sleeve Trizact®

For sanding, polishing (finish sanding) and removing rolling skin.

- Semi-flexible X-layer for high adaptation and uniform surface quality on profiled workpieces
- Uniform grain structure in three-dimensional pyramid structure
- Low sanding temperature due to active additional materials

Diameter x width	Grid size	Art. no.	P. Qty.
90 x 100 mm	120	0672 908 012	10
90 x 100 mm	220 (A100)	0672 908 022	10

100 x 100 mm	600	0672 918 060	10

Please consider the legal instruction at the beginning of this chapter.

Rubber Eraser

For removing adhesive residues and films on metallic surfaces.

Outer diameter	90 mm
Can be used with adapter	Yes

Art. no. 0585 93

P. Qty.: 1

- Operate only with slow-running machines (max. 2000 rpm).
- Do not use the film rubber on plastic parts and painted plastics (e. g. bumpers, motorcycle trim etc.)!
- Note direction of rotation (opposite of working direction): Do not work too long in one place because excessive heat generation can harm sheet metal and paint. Always use safety goggles, hearing protection and gloves when working.
- In some cases, may lead to discolouration when used on water-based paint. In this case we recommend preliminary tests in non-visible places.

Fabric sanding belt Synthetic corundum for electric grinding file

For sanding of pipes, pipe elbows and closed pipe structures, sanding welding seams, removing tempering colour, removing rust and scale.

- High and fast material removal rate and long service life

Material of abrasive medium	Normal corundum
-----------------------------	-----------------

Width x length	Grid size	Art. no.	P. Qty.

- Work only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Ceramic abrasive grain sanding belt

For electrical abrasive file

Special micro-fragmentation

Considerably more sharp grinding edges, resulting in extremely high material removal without high grinding pressure, finer and more uniform surface quality, up to four times longer service life compared with zirconia alumina.

Grinding additives

Very cool cut, no material discolouration

Width x length	12 mm x 330 mm
Material of abrasive medium	Ceramic grain

Grid size	Art. no.	P. Qty.
40	0672 416 004	20
80	0672 416 008	20

Fabric sanding belt Trizact® for electric grinding file

For refining (polishing) and finishing pipes, pipe bends and closed pipe structures.

- Aggressive sanding, extremely fine grinding finish, long service life with constant surface quality (roughness)

Material of abrasive medium	Aluminium oxide
-----------------------------	-----------------

Sanding belt KGX

For woodworking and metalworking

For hand sanders

Aggressive abrasive grain for

- Maximum material removal
- Minimal clogging
- Long service life
- Uniform grinding finish

Design:

- X-fabric
- Aluminium oxide (corundum)
- Synthetic resin bond
- Open scattering
- Special wave-shaped closure

With this closure system, the belt can also be tensioned against the running direction. If the belt becomes clogged in one running direction, it is possible to turn it around.

Fabric sanding belt Zirconia alumina electric grinding file

For sanding of pipes, pipe elbows and closed pipe structures, sanding welding seams, removing tempering colour, removing rust and scale.

- High and fast material removal rate with cool grinding

Material of abrasive medium	Zirconium conrundum

- Free from iron, chlorine and sulphur ($\leq 0.1\%$)

Wheel Hub Grinder Type A

Special grinder for cleaning the wheel centring apparatus and the contact surface between the wheel and the hub.

- Grinding bell with nylon sanding fleece disc
- Fast removal of rust and deposits on wheel hubs
- Optimal processing quality
- Use in connection with commercially available electric or battery-powered drills
- Cost savings owing to replaceable nylon sanding fleece disc

Diameter	160 mm
Diameter 2	60 mm
Max. rotation speed	1500 rpm

Art. no. 0585 190 1

P. Qty.: 1

Wheel Hub Grinder Type A with 1/2" drive

Special grinder for cleaning the wheel centring apparatus and the contact surface between the wheel and the hub.

- Grinding bell with nylon sanding fleece disc
- Fast removal of rust and deposits on wheel hubs
- Optimal processing quality
- Use in connection with commercially available electric or battery-powered drills
- Cost savings owing to replaceable nylon sanding fleece disc

Diameter	150 mm
Max. rotation speed	1500 rpm

Art. no. 0585 190 4

P. Qty.: 1

Use for wheel hub of max. 70 mm diameter. Cleaning is carried out through rotation speed and not through maximum downforce.

Nylon Sanding Fleece Disc

For wheel hub grinders

Type description	Diameter (Ø)	Art. no.	P. Qty.

Type C	53 mm	0585 190 31	5

Longlife Mini coarse nylon abrasive fleece disc

Extremely fast cleaning and maximum service life when removing welding seams, scale, corrosion and coatings.

- Ceramic abrasive grain for a very high rate of material removal and very long service life
- Improved synthetic resin bonding and open fleece structure prevent the disc from smearing the surface

Colour	Red, Dark red

Observe maximum rpm

Vehicle finishing disc

For removing dust inclusions, paint runs, and orange peeling, as well as for fine sanding before polishing and matting of paint surfaces.

- Significantly shorter grinding and polishing times
- Full-surface extraction
- Pressure-equalising, absorbent and permeable
- Safe working

Form	Washer
Adhesive system	Hook and loop

Vehicle sanding pad

Sanding in hard-to-reach areas such as door handle knobs, bumpers and radiator grilles.

Safe method of working

- Sanding pad can be folded without kinks owing the foam material
- The foam material prevents pointed pressure on the surface -> The risk of sanding through on edges, beading and curves is reduced to a minimum

Pressure-equalising, absorbent and permeable, guarantees the controlled absorption and release of water.

Length x width x height	140 x 115 x 5 mm

Vehicle dry sandpaper Arizona® Perfect soft

For all paint repair work with intermediate and fine sanding. For fast, convenient sanding of hard-to-reach areas, e.g. edges and curves in addition to dry sanding.

Quick, flexible and secure

- Highly flexible finishing paper on foam
- Optimum adjustment to tight radii, curvatures and recesses
- No sanding through on edges and curves

Form	Roll
Width x length	115 mm x 25 m

Sanding disc

For edge sanders with hook-and-loop attachment

- KPE = E-paper carrier material, grain size 40, 60, 80, 100
- KPC = C-paper carrier material, grain size 120
- Synthetic resin bond
- Grain: Aluminium oxide
- Used for sanding parquet and floorboards in problem areas such as radiators and stairs
- The sanding discs have a slotted central hole, which allows them to be attached to larger flanges

Form	Washer
Diameter (Ø)	178 mm
Hole pattern	Unpunched
Adhesive system	Hook and loop

Vehicle dry sandpaper disc RED PERFECT®

Used to sand fillers and filler compounds, old paints, HS top-coat paints, water-based paints, factory primers on new parts, plastic parts and composite fibre materials (e.g. GFRP).

- No tearing or fraying of disc around edges and extraction holes
- Quicker sanding times and effective operation with very positive results
- Very high material removal and long service life

Vehicle dry sandpaper strip red perfect®

Used to sand fillers, old paints, HS top-coat paints, water-based paints, new-part factory primers, plastic parts and composite fibre materials (e.g. GFRP).

No tearing or fraying of disc around edges and extraction holes

Quicker grinding times and effective operation with very positive results

- 21-hole pattern for thorough all-over vacuuming of sanding dust
- Suitable for all commercially available adhesive discs

Extremely high rate of material removal and long service life

Vehicle Nylon Sanding Fleece

Highly flexible nylon hand sanding fleece for cleaning surfaces (rust removal) and matting new parts, old paint and aluminium. For optimum use in critical areas like folds, corners, recesses or other sharp corners and edges and on interior body parts.

Highly flexible nylon sanding fleece

- Optimum adjustment to tight radii, curvatures and recesses.
- Fast, convenient sanding of hard-to-reach areas.

Contains no metallic components

No danger of soiling or rusting

Width	115 mm
Length	10 m
Material	Fleece

Grid size	Colour	Art. no.	P. Qty.
A-280	Red	0585 804 280	1
S 1200	Grey	0585 804 600	1

Dust-free sanding system Useit® Superpad SG

The finishing disc for finishing and polish sanding

- The sanding dust is vacuumed away completely from the entire surface
- Quicker grinding times and effective operation at a grinding performance up to six times higher compared with conventional abrasives
- Can achieve very high gloss without polishing paste
- Removes dust inclusions

Form	Washer
Adhesive system	Hook and loop
Suitable machines	Random orbit sander D 150

Suitable for wet and dry sanding.

Sanding disc Useit Superpad, vehicles

The perforated sanding disc for filler and filler compounds, HS top-coat paints and water-based paints, as well as plastics and composite fibre materials (e.g. GFRP).

- Sanding disc perforated over entire surface
- Dust and shadow-free operation
- Saves time and money.
- No clogging of sanding disc
- Foam insulation
- The risk of sanding through on edges, beading and curves is reduced to a minimum.

The following factors can affect the sanding results:

- 1. The condition of the surface (type of filler, spraying pattern, degree of drying through).
- 2. The processor (sanding pressure, feed rate, sanding technique).
- 3. The sanding plate (design, e.g. shape and hardness).
- 4. The processing machine (rotation speed, drive, stroke, suction etc.).

Sandpaper strip Useit® Superpad, vehicles

The perforated sanding strip for fillers, HS top-coat paints and water-based paints, as well as plastics and composite fibre materials (e.g. GFRP).

- Sanding strip perforated over entire surface
- Dust and shadow-free operation
- Saves time and money.
- No clogging of sanding disc
- Foam insulation
- The risk of sanding through on edges, beading and curves is reduced to a minimum

- 3. The sanding plate (design, e.g. shape and hardness).
- 4. The processing machine (rotation speed, drive, stroke, suction etc.).

Sanding disc Useit® Superpad, wood

For treated and untreated hardwood and softwood, fillers, plastics, plasterboards, paints, hard and soft paint systems and mineral materials (artificial stone).

- The sanding dust is vacuumed away completely from the entire surface
- Shorter sanding time and effective working with a sanding performance up to four times that of conventional perforated abrasives
- In contrast to conventional perforated abrasives, the hole pattern of the Würth Useit Superpad Wood has been optimised for the material and the amount of dust produced

Sandpaper triangle Useit® Superpad, wood

For treated and untreated hardwood and softwood, fillers, plastics, plasterboards, paints, hard and soft paint systems and mineral materials (artificial stone).

- The sanding dust is vacuumed away completely from the entire surface
- Saves time and money
- No clogging of abrasive

Form	Triangular

Sandpaper roll Useit® Superpad, wood

The perforated sanding roll for treated and untreated hardwood and softwood, fillers, plastics, plasterboards, paints, hard and soft paint systems and mineral materials (artificial stone).

The sanding dust is vacuumed away completely from the entire surface

- No clogging, high sanding performance, long service life, uniform grinding finish
- Dust and shadow-free operation

Saves time and money

No clogging of abrasive

SPS (silicon paper stearate) quality

Finishing disc Useit® Superpad SG

The finishing disc for finishing and polish sanding.

- The sanding dust is vacuumed away completely from the entire surface
- Quicker grinding times and effective operation at a grinding performance up to six times higher compared with conventional abrasives
- Can achieve very high gloss without polishing paste
- Removes dust inclusions

Form	Washer
Adhesive system	Hook and loop

Sanding disc NET PERFECT

Net sanding disc for high material removal for sanding plasterboard, hard and soft woods, varnish, fillers, plastics and non-ferrous metals.

- The open structure of the net sanding disc enables sanding dust to be extracted thoroughly and over the whole area.
- Adapts to any grinding plate, regardless of holes
- Higher material removal as well as a considerably longer service life compared to conventional perforated sanding discs

Adhesive system	Hook and loop
-----------------	---------------

Continuation **Sanding disc NET PERFECT**

Use of the matching protective attachment is required to protect the adhesive disc.

Sanding roll

- Backing material: J cotton fabric/super-flexible
- Bond: Synthetic resin bond
- Grain: Aluminium oxide
- Suitable for ORSY 10 unrolling dispenser
- Close and even scattering for even grinding finish
- Super-flexible design
- No grain breakout, even with tight radii and curvatures

Ceramic abrasive grain sanding belt for tube belt sander

For sanding of pipes, pipe elbows and closed pipe structures, sanding welding seams, removing tempering colour, removing rust and scale

Special micro-fragmentation

Considerably more sharp grinding edges, resulting in extremely high material removal without high grinding pressure, finer and more uniform surface quality, up to four times longer service life compared with zirconia alumina.

Grinding additives

Very cool cut, no material discolouration

Material of abrasive medium	Ceramic grain

Trizact®: Brand name of 3M

Fleece sanding belt for electric grinding file

Reinforced nylon sanding fleece with needled-th-rough fabric carrier

High tear resistance, uniform grinding finish, waterproof and stretch-resistant.

Folded Sanding Fleece Ring

Burnishing roller made of folded sanding fleece for virtually shoulder-free line matting. With 6 mm wedge taper and size 19 hole for surface sanding machines and polishing machine with clamping mandrel.

- Suitable for use with polishing machine or with infinitely variable, adjustable angle grinder or fillet seam grinder thanks to M14 thread
- Folded abrasive fleece for virtually shoulder-free line matting
- Long service life owing to double impregnation
- Easy to assign thanks to colour coding

Diameter (Ø)	125 mm
Width	50 mm
Connection thread	M14
Max. rotation speed	3200 rpm

Design	Grid size	Colour	Art. no.	P. Qty.
Coarse	100	Red	0672 911 100	1/2
Extra-coarse	80	Orange	0672 911 080	1/2
Medium	180	Yellow	0672 911 180	1/2

The circumferential speed is specified by the machine used, though max. 3,200 rpm. At high rotation speeds a coarse grain acts like a finer grain and at low rotation speeds a fine grain acts like a coarser one. Use tools with a low contact pressure; high contact pressure leads to premature wear. With insufficient chip removal, do not increase the contact pressure, but instead use a coarser grain.

Fold Roller Sanding Fleece

Burnishing roller made of folded sanding fleece for virtually shoulder-free line matting. With 6 mm wedge taper and size 19 hole for surface sanding machines and polishing machine with clamping mandrel.

Folded abrasive fleece

Virtually shoulder-free line matting on all materials

Double impregnation

Extremely long service life compared with ordinary burnishing rollers

Colour coding

Easy to assign fineness structure

Circumferential speed

Specified by the machine used, but no more than 3700 rpm.

Diameter x width x drill hole	100 x 100 x 19 mm
Max. rotation speed	3700 rpm

Design	Grid size	Colour	Art. no.	P. Qty.
Coarse	100	Red	0672 919 100	1
Extra-coarse	80	Orange	0672 919 080	1
Fein	280	Green	0672 919 280	1
Medium	180	Yellow	0672 919 180	1
Very fine	400	Purple	0672 919 400	1

Burnishing roller

Sanding Fleece

- With 6 mm keyway and 19 hole for surface grinding machines
- Medium hardness
- Synthetic corundum
- Synthetic resin-bound sanding segments
- Produces impressive surfaces on stainless steel, copper, aluminium, brass etc. Also for cleaning oxide coatings and for smoothing plastics and wood.
- Circumferential speed: Specified by the machine used, but no more than 30 m/s = 3700 rpm

Diameter x width x drill hole	Grid size	Art. no.	P. Qty.
100 x 50 x 19 mm	100	0672 902 100	1
100 x 50 x 19 mm	180	0672 902 180	1
100 x 50 x 19 mm	280	0672 902 280	1
100 x 100 x 19 mm	100	0672 910 0	1
100 x 100 x 19 mm	180	0672 918 0	1

General working instructions: At high speeds a coarse grain acts like a finer grain and at low speeds a fine grain acts like a coarser one.

Use tools with a low contact pressure; high contact pressure leads to premature wear.

With insufficient chip removal, do not increase the contact pressure, but instead use a coarser grain.

Attention: Pay attention to the running direction! Tools are only suitable for clockwise rotation.

Edge Sanding Belt

F-paper base with aluminium oxide grain, half-open scattering, for extremely high loads (e.g. calibration).

- Extremely long service life due to minimal clogging behaviour as a result of antistatic finish
- F-weight paper, half-open scattering with anti-static finish to prevent the sanding belt from clogging up too soon, for extremely high load bearing capacity of the sanding belts (e.g. calibration), an optimal grinding finish and low impact from grinding dust (fine dust).

Antistatic	Yes
Scattering	Half-open scattering
Backing material	F-weight paper
Material of abrasive medium	Aluminium oxide

The belts should be stored in dry, frost-free rooms. Do not store near heaters, cold or damp walls, doors or windows and not directly on the floor. Storage temperatures between 18°C and 22°C at a relative humidity between 45% and 65% are recommended. Protect belts from exposure to direct sunlight. If possible, store sanding belts in the original packaging until used. Store sanding belts that have been removed from the packaging in such a way that deformations are prevented.

KPF edge sanding belt, individual

The edge sanding belt is available in various dimensions and can be tailored to your requirements. Simply ask your Würth sales representative.

Long sanding belt

F-paper base with aluminium oxide grain, half-open scattering, for extremely high loads (e.g. calibration).

Minimal clogging thanks to the anti-static equipment.

This results in an extremely long service life

F-paper, half-open scattering with anti-static finish

- Extremely high load-bearing capacity of sanding belts (e.g. calibration)
- Prevents the sanding belt from clogging up too soon
- Optimum grinding finish
- Low impact from grinding dust (fine dust)

Antistatic	Yes
Scattering	Half-open scattering
Backing material	F-weight paper

The belts should be stored in dry, frost-free rooms. Do not store near heaters, cold or damp walls, doors or

Continuation Long sanding belt

windows and not directly on the floor. Storage temperatures between 18°C and 22°C at a relative humidity between 45% and 65% are recommended. Protect belts from exposure to direct sunlight. If possible, store sanding belts in the original packaging until used. Store sanding belts that have been removed from the packaging in such a way that deformations are prevented.

Wide sanding belt

F-paper base with aluminium oxide grain, half-open scattering, for extremely high loads (e.g. calibration).

Can be used universally for all types of wood as well as for grinding melamine-coated boards.

Minimal clogging thanks to the anti-static equipment

Results in extremely long service life.

F-paper, half-open scattering with anti-static equipment

- Extremely high load-bearing capacity of sanding belts (e.g. calibration)
- Prevents the sanding belt from clogging up too soon
- Optimum grinding finish
- Low impact from grinding dust (fine dust)

Antistatic	Yes
Scattering	Half-open scattering
Backing material	F-weight paper

Plastic hand sanding block

Robust plastic sanding block with two sandpaper holders and an abrasive pad with soft plastic backing.

Length x width x height	212 x 105 x 105 mm
-------------------------	--------------------

Art. no. 0899 700 321

P. Qty.: 1

Sanding Block

Made of cork

Length x width x height	100 x 60 x 40 mm
Adhesive system	Without

Art. no. 0715 64 06

P. Qty.: 1

Longlife coarse nylon abrasive fleece disc with cloth plate

Extremely fast cleaning and maximum service life when removing welding seams, scale, corrosion and coatings.

- Ceramic abrasive grain for a very high rate of material removal and very long service life
- Improved synthetic resin bonding and open fleece structure prevent the disc from smearing the surface

Drill hole	22.23 mm
Colour	Red, Dark red
Grid size	Very coarse
Material of abrasive medium	Ceramic grain

Diameter (Ø)	Max. rotation speed	Art. no.	P. Qty.
115 mm	12000 rpm	0585 333 115	10
125 mm	11000 rpm	0585 333 125	10

Observe maximum rpm

Fleece Segmented Grinding Disc

For direct use on angle grinders. For cleaning and polishing non-alloyed and high-alloy steels, aluminium and non-ferrous metals.

- Free of iron, chlorine and sulphur ($\leq 0.1\%$)
- Extra-reinforced nylon sanding fleece with needled-through fabric carrier
- Robust glass fabric carrier disc
- Long service life thanks to segment arrangement
- Compact design for intensive grinding
- No change in shape during grinding
- No clogging
- Cooler grinding (low working temperature)
- No additional support plate required

Drill hole	22.23 mm
------------	----------

Continuation **Fleece Segmented Grinding Disc**

Fleece Sanding Disc

For use on electric and pneumatic angle grinders. Ideal for surface sanding.

Extra-reinforced nylon sanding fleece with needled-through fabric carrier

- More compact version for more intensive sanding (considerably higher edge strength)
- High tear resistance, uniform grinding finish, waterproof
- No change in shape during grinding
- No clogging
- No sanding through when machining bodywork parts
- Cooler grinding (low working temperature)

Diameter (Ø)	Colour	Design	Grid size	Max. rotation speed	Art. no.	P. Qty.

125 mm	Grey	Very fine	400	3800 rpm	0585 471 400	10
125 mm	Red brown	Medium	100	3800 rpm	0585 471 100	10

The discs should only be used with suitable support plates.

At high speeds a coarse grain acts like a finer grain and at low speeds a fine grain acts like a coarser one.

Use tools with a low contact pressure; higher contact pressure leads to premature wearing.

With insufficient chip removal, do not increase the contact pressure, but instead use a coarser grain.

Nylon Sanding Fleece

With shank

- Coarsely structured, elastic, abrasive cleaning sanding fleece made of a special combination of synthetic fibres and evenly embedded abrasive grains (silicon carbide).
- Free of metals susceptible to corrosion
- For use on electric drills, straight grinders and flexible shafts
- Plastic support flanges can be broken off in steps
- Round shank: 6 x 40 mm

Diameter (Ø)	60 mm
Max. rotation speed	10000 rpm
Recommended rotation speed	5000 rpm

Art. no. 0585 320

P. Qty.: 5

General working and safety precautions:

The maximum permissible speeds may not be exceeded.

Work only with appropriate protective equipment, such as protective goggles, gloves, ear protectors etc.

Attention: Rough-cleaning sanding fleeces are not suitable for edge sanding. Therefore, only sand along and not against material edges!

Observe operating instructions.

Nylon abrasive fleece disc

With cloth plate. Cleaning welding seams, metal surfaces, wood and plastic.

- Coarsely structured, elastic, abrasive cleaning sanding fleece made of a special combination of synthetic fibres and evenly embedded abrasive grains (silicon carbide).
- Continuous exposure of fresh abrasive grain
- Free of metals susceptible to corrosion
- For use on electric drills, straight grinders and flexible shafts
- Plastic support flanges can be broken off in steps
- For direct use on angle grinders
- 150-mm dia. for use on 180-mm angle grinders

Drill hole	22.23 mm
Colour	Black

Diameter (Ø)	Max. rotation speed	Art. no.	P. Qty.
115 mm	11000 rpm	0585 311 5	10
125 mm	10000 rpm	0585 312 5	10
150 mm	8500 rpm	0585 315 0	5

General working and safety precautions:

The maximum permissible speeds may not be exceeded.

Work only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.

Caution: Coarse cleaning sanding fleeces are not suitable for edge sanding. Therefore, only sand along and not against material edges!

Observe operating instructions.

Nylon Sanding Fleece Disc

With permanently integrated clamping mandrel

- Coarsely structured, elastic, abrasive cleaning sanding fleece made of a special combination of synthetic fibres and evenly embedded abrasive grains (silicon carbide).
- Flexible, open fleece structure
- Continuous exposure of fresh abrasive grain
- Free of corrosive metals
- For use on electric drills, straight grinders and flexible shafts
- Plastic support flanges can be broken off in steps

Diameter x width x shaft diameter	Min./max. recommended rotation speed	Max. rotation speed	Min./max. rotation speed at nominal load	Art. no.	P. Qty.

150 x 26 x 8 mm	2500-3000 rpm	4000 rpm	2500-3000 rpm	0585 215 0	3

Caution: Flange diameter \geq half the disc diameter

General working and safety instructions:

The maximum permissible speeds may not be exceeded.

Work only with appropriate protective equipment, such as protective goggles, gloves, ear protectors etc.

Attention: Rough-cleaning sanding fleeces are not suitable for edge sanding. Therefore, only sand along and not against material edges!

Observe operating instructions.

Nylon Sanding Fleece Disc

For use with reusable clamping mandrel

- Coarsely structured, elastic, abrasive cleaning sanding fleece made of a special combination of synthetic fibres and evenly embedded abrasive grains (silicon carbide).
- Flexible, open fleece structure
- Easy-to-handle sanding power
- Continuous exposure of fresh abrasive grain
- Free of corrosive metals
- For use on electric drills, straight grinders and flexible shafts

Colour	Black

125 mm	0586 01 125	1
150 mm	0586 01 150	1

Please consider the legal instruction at the beginning of this chapter.

Abrasive pad

Universal abrasive pad made from aluminium oxide for woodworking and metalworking.

- Sandpaper and sanding block in one
- For dry sanding
- Adapts to any shape, making it suitable for universal use
- Can be used repeatedly after rinsing with water
- Can be used even in hard-to-reach places
- Particularly suitable for surface sanding

Length x width x height	125 x 100 x 10 mm
Material of abrasive medium	Aluminium oxide (normal corundum)

Grid size	Art. no.	P. Qty.
60	0587 02 60	10/100
80	0587 02 80	10/100
100	0587 02 100	10/100
120	0587 02 120	10/100
220	0587 02 220	10/100

Sanding sponge

Universal sanding sponge made from aluminium oxide for woodworking and metalworking.

- Sandpaper and sanding block in one
- For dry sanding
- Adapts to any shape, making it suitable for universal use
- Can be used repeatedly after rinsing with water

Length x width x height	100 x 68 x 25 mm
-------------------------	------------------

Grid size	Art. no.	P. Qty.
60	0587 01 60	10/100
80	0587 01 80	10/100
100	0587 01 100	10/100
120	0587 01 120	10/100
160	0587 01 160	10/100
180	0587 01 180	10/100
220	0587 01 220	10/100

Nylon Sanding Fleece

Suitable for hand and machine use

Width	Length	Grid size	Art. no.	P. Qty.
81 mm	153 mm	100	0585 44 100	10
81 mm	153 mm	180	0585 44 180	10
81 mm	153 mm	280	0585 44 280	10

115 mm	230 mm	100	0585 41 100	10
115 mm	230 mm	180	0585 41 180	10
115 mm	230 mm	280	0585 41 280	10
115 mm	230 mm	1000	0585 41 600	10
152 mm	230 mm	100	0585 45 100	10
152 mm	230 mm	180	0585 45 180	20
152 mm	230 mm	280	0585 45 280	20
152 mm	230 mm	1000	0585 45 600	20

Grain size 1000 (art. no. 058541 600, 058544 600, 058545 600) adheres to riptape without riptape coating.

Nylon abrasive fleece grain 100 Coarse A

Pre-treatment for painting galvanised steel

Length	5 m
Grid size	P100

Width	Art. no.	P. Qty.
35 mm	0585 835 100	1
70 mm	0585 870 100	1
115 mm	0585 805 100	1

A degreasing process is also necessary for oily dirt

Nylon abrasive fleece Fine A

Pre-treatment for painting galvanised steel

Length	5 m
Grid size	P180

Width	Art. no.	P. Qty.
35 mm	0585 835 180	1
70 mm	0585 870 180	1
115 mm	0585 805 180	1

A degreasing process is also necessary for oily dirt.

Nylon abrasive fleece Very Fine A

For cleaning, degreasing and roughening

Width	115 mm
Length	5 m
Grid size	P280

Art. no. 0585 805 280

P. Qty.: 1

Nylon abrasive fleece Ultra-Fine S

Highly flexible nylon hand sanding fleece for cleaning surfaces (rust removal) and matting new parts, old paint and aluminium. For optimum use in critical areas like folds, corners, recesses or sharp corners and edges and on interior body parts.

Length	5 m
Grid size	P1000

Width	Art. no.	P. Qty.
35 mm	0585 835 600	1
70 mm	0585 870 600	1
115 mm	0585 805 600	1

Nylon Sanding Disc

For derusting, burnishing, matting and creating decorative surfaces with a random orbital sander, or for finishing by hand.

Diameter (Ø)	Design	Adhesive system	Grid size	Suitable for	Art. no.	P. Qty.
115 mm	Reinforced nylon abrasive pad	Hook and loop	100	Angle grinder	0585 46 100	10
150 mm		Hook and loop	100	Random orbit sanders, Manual work	0585 42 100	10
150 mm		Hook and loop	180	Random orbit sanders, Manual work	0585 42 180	10
150 mm		Hook and loop	280	Random orbit sanders, Manual work	0585 42 280	10
150 mm		Without	1000	Random orbit sanders, Manual work	0585 42 600	10

Grain size 1000 (art. no. 058542 600) adheres to riptape without riptape coating.

Vulcanised fibre disc CERALINE

For a high removal rate with low contact pressure for steel, stainless steel and aluminium.

- Extremely high and very fast material removal rate with cool grinding
- Very long service life and low contact pressure

Bore diameter	22.23 mm
---------------	----------

Diameter (Ø)	Grid size	Max. rotation speed	Recommended rotation speed	Art. no.	P. Qty.
115 mm	36+	13300 rpm	8300 rpm	0580 911 537	25

178 mm	120	8500 rpm	5300 rpm	0580 917 812	25

- Use fibre discs only with approved support plates that are in proper working condition.
- Work only with appropriate protective equipment, such as safety glasses, gloves, hearing protection etc.
- Do not store in sunlight, near heat sources, in damp places or on floors.
- Store in the original packaging at 18 - 22°C and 45 - 60% relative humidity.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Mini vulcanised fibre disc CERALINE

For use on offset compressed air angle grinders and flexible shafts in hard-to-reach places.

- Extremely high and very fast material removal rate with cool grinding
- Very long service life and low contact pressure

Design	Compatible with 3M Roloc system
Material of abrasive medium	Ceramic grain

Diameter (Ø)	Grid size	Max. rotation speed	Recommended rotation speed	Art. no.	P. Qty.
50 mm	36	30000 rpm	20000 rpm	0580 005 236	50

76 mm	120	20000 rpm	12000 rpm	0580 007 212	50

- 76 mm dia. discs can also be used on 115 mm pneumatic or electric angle grinders in conjunction with an M14 holder.
- Work only with appropriate protective equipment, such as safety goggles, gloves, hearing protection etc.
- Free of iron, chlorine and sulphur ($\leq 0.1\%$)

Vehicle dry sandpaper disc red perfect® non-perforated

For preparation of surface treatment of metallic substrates

- No tearing or fraying of disc around edges
- Very high material removal and long service life

Form	Washer

Sanding disc NET PERFECT assortment

Extensive assortment consisting of net sanding discs for high material removal for sanding plasterboard, hard and soft woods, varnish, fillers, plastics and non-ferrous metals.

- The open structure of the net sanding disc enables sanding dust to be extracted thoroughly and over the whole area.
- Adapts to any grinding plate, regardless of holes
- Higher material removal as well as a considerably longer service life compared to conventional perforated sanding discs

Adhesive system	Hook and loop
-----------------	---------------

Diameter	Number of pieces in assortment/set	Art. no.	P. Qty.
150 mm	51 PCS	5506 393 001	1
225 mm	26 PCS	5506 395 001	1

Sanding disc

For edge sanders

KGX = X-cloth backing material

Resin bond

Grain: Aluminium oxide

Used for sanding parquet and floorboards in problem areas such as radiators and stairs

The sanding discs have a slotted central hole, which allows them to be attached to larger flanges

- 150 mm disc = 12 mm centre hole
- 178 mm disc = 22 mm centre hole

Backing material	X-cloth
Material of abrasive medium	Aluminium oxide

Mesh Sanding Disc

For rotary disc sanders

- For fine sanding and intermediate varnish sanding of all floor-board and parquet floors.
- The linen mesh disc is attached via a black floor pad.

Diameter (Ø)	406 mm
--------------	--------

Grid size	Art. no.	P. Qty.
60	0585 406 60	20
80	0585 406 80	20
100	0585 406 100	20
120	0585 406 120	20
150	0585 406 150	20

Floor pad

For rotary disc sanders

- Material: Nylon
- The darker the discs, the harder and more inflexible they are

Diameter (Ø)	406 mm
--------------	--------

Thickness	Colour	Suitable for	Art. no.	P. Qty.
10 mm	Black	Cleaning	0675 010 4	10
10 mm	Brown	Oiling/waxing	0675 010 3	10
10 mm	Green	Cleaning	0675 010 2	10
10 mm	White	Polishing	0675 010 1	10
20 mm	Black	Cleaning	0675 020 4	5

20 mm	Green	Cleaning	0675 020 2	5
20 mm	White	Polishing	0675 020 1	5

Brush

With stainless steel wire for processing stainless steel surfaces with straight grinders and drills

Shaft diameter	6 mm
----------------	------

Diameter (D)	Usable length of wire (H)	Effective width (A)	Wire diameter	Max. rotation speed	Art. no.	P. Qty.
40 mm	9 mm	10 mm	0.2 mm	18000 rpm	0714 692 300	1
60 mm	14 mm	14 mm	0.3 mm	15000 rpm	0714 692 301	1

Always wear safety glasses and protective gloves when working with machine brushes!

Spindle-mounted round wheel brush

With sanding brushes made of polyamide fibres impregnated with silicon carbide abrasive grain.

- Grinding bristles work not just at the tips but at the flanks
- Low contact pressure means low heat generation
- Elastic polyamide fibres adjust to suit the surface contour
- The best surface result is achieved at a speed of between 8000 and 10,000 rpm

Shaft diameter	6 mm
Max. rotation speed	15000 rpm

Continuation **Spindle-mounted round wheel brush**

Diameter (D)	Grid size	Usable length of wire (H)	Effective width (A)	Art. no.	P. Qty.
50 mm	120	12 mm	10 mm	0714 692 603	1

70 mm	320	20 mm	12 mm	0714 692 615	1

Always wear safety glasses and protective gloves when working with machine brushes!

Shank brush/paint brush

End brushes feature especially high-quality wire

The brush opens more or less depending on the rotation speed and allows you to work in hard-to-reach areas, e.g. drilled holes and housing parts.

Usable length of wire (H)	30 mm
Length (L)	72 mm
Shaft diameter	6 mm
Max. rotation speed	20000 rpm

Diameter (D1)	Sleeve diameter (D2)	Wire diameter	Art. no.	P. Qty.
20 mm	19 mm	0.25 mm	0714 692 119	1
20 mm	19 mm	0.35 mm	0714 69 04	1
30 mm	29 mm	0.5 mm	0714 69 05	1

Always wear safety goggles and safety gloves when working with machine brushes!

End brush

With shaft and corrugated wire for brushing in hard to reach places

Shaft diameter	6 mm
----------------	------

Diameter (D1)	Sleeve diameter (D2)	Usable length of wire (H)	Length (L)	Wire diameter	Art. no.	P. Qty.

23 mm	22 mm	25 mm	68 mm	0.3 mm	0714 69 201	1
23 mm	22 mm	25 mm	68 mm	0.3 mm	0714 692 205	1

Always wear safety goggles and safety gloves when working with machine brushes!

Shank round brush (braided steel wire)

For light and medium-heavy deburring and rust removal work

- Hardened steel wire, braided clockwise

Diameter (D)	75 mm
Usable length of wire (H)	15 mm
Effective width (A)	12 mm
Wire diameter	0.5 mm
Shaft diameter	6 mm
Max. rotation speed	20000 rpm

Art. no. 0714 69 06

P. Qty.: 1

Always wear safety goggles and safety gloves when working with machine brushes!

Braided cup brush (steel)

For pre-treating metallic surfaces that must be painted or coated.

- Hardened steel wire, braided clockwise
- Can be used on all common angle grinders.

Diameter (D)	70 mm
Usable length of wire (H)	20 mm
Tool holding device (d)	M14
Wire diameter	0.5 mm
Max. rotation speed	12500 rpm

Art. no. 0714 69 01

P. Qty.: 1

Always wear safety goggles and safety gloves when working with machine brushes!

Cup brush (stainless steel wire)

For treating rust-free surfaces (stainless steel)

Material: Rust-free wire, braided clockwise

Diameter (D)	65 mm
Usable length of wire (H)	20 mm
Tool holding device (d)	M14
Wire diameter	0.35 mm
Max. rotation speed	12500 rpm

Art. no. 0714 692 01

P. Qty.: 1

Always wear safety goggles and safety gloves when working with machine brushes!

Cup brushes (steel)

For pre-treating metallic surfaces that must be painted or coated.

- With support ring, which is simply removed after free wire has worn down. Another 20 mm of wire is then available.
- Hardened steel wire, braided clockwise
- Can be used on all common angle grinders

Tool holding device (d)	M14
Wire diameter	0.5 mm
Max. rotation speed	9000 rpm

Diameter (D)	Usable length of wire (H)	Art. no.	P. Qty.
80 mm	25 mm	0714 691 310	1
100 mm	23 mm	0993 579 110	1

Always wear safety goggles and safety gloves when working with machine brushes!

Cup brush made from wavy steel wire

For angle grinders

Diameter (D)	60 mm
Usable length of wire (H)	20 mm
Tool holding device (d)	M14
Wire diameter	0.35 mm
Max. rotation speed	12000 rpm

Art. no. 0714 691 340

P. Qty.: 1

Always wear safety goggles and safety gloves when working with machine brushes!

Round brushes (steel)

For angle grinders

- Made from hardened steel wire, braided counter clockwise
- Especially suited for cleaning fillet welds and welding seams due to its slim design.

Internal diameter (d)	22.23 mm
Effective width (A)	12 mm
Wire diameter	0.5 mm

Diameter (D)	Usable length of wire (H)	Max. rotation speed	Art. no.	P. Qty.
115 mm	20 mm	12500 rpm	0714 69 02	1
125 mm	23 mm	12500 rpm	0714 691 512	1
150 mm	32 mm	9500 rpm	0714 69 03	1

Always wear safety goggles and safety gloves when working with machine brushes!

Round brushes — rust-free wire

For angle grinders

Rust-free wire, braided counter clockwise

Internal diameter (d)	22.2 mm
Effective width (A)	12 mm
Max. rotation speed	12500 rpm

Diameter (D)	Usable length of wire (H)	Wire diameter	Art. no.	P. Qty.
115 mm	24 mm	0.35 mm	0714 692 02	1
125 mm	29 mm	0.5 mm	0714 692 512	1

Always wear safety goggles and safety gloves when working with machine brushes!

Conical brush

For angle grinders

Thanks to their special shape, these brushes can be used to machine hard-to-reach places.

Steel

Hardened steel wire, braided counterclockwise.

Diameter (D)	115 mm
Usable length of wire (H)	20 mm
Tool holding device (d)	M14
Effective width (A)	12 mm
Wire diameter	0.5 mm
Max. rotation speed	12500 rpm

Art. no. 0714 691 411

P. Qty.: 1

Always wear safety goggles and safety gloves when working with machine brushes!

Surface brush

With shaft and hardened, crimped steel wire for processing large areas with straight grinders and drills

Wire diameter	0.3 mm
Shaft diameter	6 mm
Max. rotation speed	4500 rpm

Diameter (D)	Usable length of wire (H)	Ring width (A)	Art. no.	P. Qty.
50 mm	20 mm	10 mm	0714 69 12	1
75 mm	25 mm	15 mm	0714 69 13	1

Always wear safety glasses and protective gloves when working with machine brushes!

Shank round brush

With crimped steel wire for easy rust removal and deburring with straight grinders and drills

Shaft diameter	6 mm
----------------	------

Diameter (D)	Usable length of wire (H)	Effective width (A)	Wire diameter	Max. rotation speed	Art. no.	P. Qty.
40 mm	9 mm	6 mm	0.2 mm	18000 rpm	0714 69 100	2
40 mm	9 mm	10 mm	0.2 mm	18000 rpm	0714 69 10	1
60 mm	14 mm	14 mm	0.3 mm	15000 rpm	0714 69 11	1

Always wear safety glasses and protective gloves when working with machine brushes!

Synthetic corundum sanding tip

Professional tool made from synthetic corundum in synthetic resin bond for processing stainless steels (e.g. V2A, V4A). Also suitable for use on alloyed and tempered steels, tool steels, hard non-ferrous metals (e.g. aluminium, magnesium and copper alloys) and bronze.

- Precise concentricity ensures low-vibration sanding.
- Especially suited to use on temperature-sensitive materials thanks to cool sanding action.

Shaft length	40 mm
Shaft diameter	6 mm
Material of abrasive medium	Normal corundum
Binding	Ceramically bound
Material to be processed	Stainless steel

Wear appropriate protective equipment when using the sanding tip, such as eye protection, hearing protection, a dust mask and protective gloves. Please note the recommended rotation speed (n) and cutting speed (Vc) for the material being processed as well as the tool/material assignments in the overview tables. When using the drive spindle extensions, the specified rotation speeds and cutting speeds must be significantly reduced to prevent the shaft from bending. This is a matter of safety. Before using the sanding tip, please ensure that the tip rotates properly and that the clamping function on the tool drive works correctly. Regardless of the length of the shaft on the tool, the clamping length must be at least 10 mm.

To use sanding tools safely, please note the following information:

- The sanding tips are approved for a maximum peripheral speed of 50 m/s. The maximum permitted rotation speeds for various shaft lengths and diameters are specified in DIN 69170, which is based on EN 12413. Each packaging unit comes with an accompanying sheet that specifies the maximum permitted rotation speeds of the tool. This must be strictly observed in order to prevent the shaft from bending during use.
- The tools are fragile and must therefore be handled and transported with care. The tools must be stored in such a way that prevents them from being exposed to mechanical loads and harmful environmental influences.
- Do not use damaged or broken sanding tips.
- When using sanding tools, please observe the FEPA safety recommendations. Download: <http://www.fepa-abrasives.org>

Specially fused alumina sanding tip, pink

The professional tool made from specially fused pink alumina for universal use on steel and cast steel.

- Long service life and low tool wear thanks to a wear-resistant grain and a tough bond that retains its shape.
- High edge stability for economic use on low-speed drive motors.

Sanding Belt

Aluminium oxide linen sanding belt with a full synthetic resin bonding

- The centrifugal force tension ensures slip-free mounting of the sanding belt
- Extremely resilient sanding belt thanks to the flexibility of the carrier
- Cool sanding action ensures no tarnishing of material
- Even solder can be processed thanks to the flexibility and flexing movement
- Casting resins and fillers can be processed well with an appropriately coarse grain

Carbide milling bit Multi-performance TiAlSiN

The premium all-rounder with titanium-aluminium-silicon-nitride coating and unique multi-tooth geometry for efficient roughing and smoothing in a single process on almost all materials, such as steel with a hardness < 65 HRC, cast iron, stainless steel, titanium, special alloys and hard and tough materials (e.g. Hardox). Also suitable for non-ferrous metals, such as aluminium alloys > 10% silicon, magnesium alloys, brass, copper, bronze and plastics.

- Innovative multi-tooth geometry with a combination of staggered and fine toothing for a shiny, smooth surface finish, smooth milling behaviour and excellent handling
- High-end TiAlSiN coating for a service life of up to three times longer than uncoated milling bits with a conventional staggered tooth system
- Up to 50% higher cutting performance compared to conventional staggered tooth system
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Titanium alloy, Special alloy, Hard and tough material, Non-ferrous metal

Wear appropriate protective equipment when using the sanding tip, such as eye protection, hearing protection and protective gloves. Please note the recommended rotation speed (n) and cutting speed (Vc) for the material being processed as well as the tool/material assignments in the overview tables. Before using the sanding tip, please ensure that the tip rotates properly and that the clamping function on the tool drive works correctly. Do not choose a clamping length that is too small. We recommend a minimum clamping length of approx. 2/3 of the shaft length. Discolouration may occur on the shaft due to the extremely high cutting performance. This discolouration is caused by the extremely high temperature that the tool reaches and does not pose a safety risk. Materials are generally processed in reverse rotation. Suitable tool drives: flexible shaft drives, straight grinders, robots, machine tools.

Carbide milling bit INOX teeth

High-performance milling bit with innovative tooth geometry for an outstanding cutting performance when processing stainless steel (INOX).

- Up to 100% higher cutting performance when processing stainless steel compared to milling bits with a conventional staggered tooth system
- High surface quality thanks to optimal chip formation
- Smooth milling behaviour and excellent handling
- Convenient operation with low vibration and very little noise
- The special cutting geometry reduces heat development and prevents discolouration on the workpiece.
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Carbide milling bit RADIUS teeth

Professional radius tool with a combined cylindrical and round shape for quick and unique rounding of edges in internal and external chamfers in almost all materials, such as steel with a hardness < 60 HRC, cast iron, stainless steel, special alloys, hard and tough materials (e.g. Hardox) and hard non-ferrous metals.

- Special tooth geometry with overlapping teeth in the centre of the milling bit for convenient production of smooth radii.
- The self-centring guide geometry prevents slippage on sharp edges.
- The smooth front of the milling bit prevents the workpiece surface from being damaged.
- Smooth milling behaviour and excellent handling
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Form	Combination of cylindrical and cylindrical shape
Head diameter x cutting edge length	12.7 x 25 mm

Wear appropriate protective equipment when using the sanding tip, such as eye protection, hearing protection and protective gloves. Please note the recommended rotation speed (n) and cutting speed (Vc) for the material being processed as well as the tool/material assignments in the overview tables. Before using the sanding tip, please ensure that the tip rotates properly and that the clamping function on the tool drive

Continuation Carbide milling bit MX teeth

works correctly. Do not choose a clamping length that is too small. We recommend a minimum clamping length of approx. 2/3 of the shaft length. Discolouration may occur on the shaft due to the high cutting performance. This discolouration is caused by the extremely high temperature that the tool reaches and does not pose a safety risk. Materials are generally processed in reverse rotation. Suitable tool drives: flexible shaft drives, straight grinders, robots, machine tools.

Carbide milling bit 3R teeth

Extremely robust, impact-resistant milling bit for rough cutting in steel with a hardness < 55 HRC, cast iron, stainless steel, special alloys and hard non-ferrous metals.

- High material removal rate in heavy-duty use
- High-performance cutting geometry minimises tooth breakouts, flaking and head breakage.
- Can also be used at low speeds thanks to the innovative 3R toothing.
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Carbide milling bit MZ teeth

The specialist tool for micro-machining with extremely high surface quality on almost all materials, such as steel with a hardness < 60 HRC, cast iron, stainless steel, special alloys, titanium, hard and tough materials (e.g. Hardox), hard non-ferrous metals and wood.

- No geometric change as a result of wear compared to sanding tips, and very little vibration or noise
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Titanium alloy, Special alloy, Hard and tough material, Non-ferrous metal
Suitable for hardnesses up to	60 HRC

Before using the sanding tip, please ensure that the tip rotates properly and that the clamping function on the tool drive works correctly. Do not choose a clamping length that is too small. We recommend a minimum clamping length of approx. 2/3 of the shaft length. Move the milling bit quickly and synchronously over the workpiece being processed to produce a fine surface. Suitable tool drives: flexible shaft drives, straight grinders, robots, machine tools.

Carbide milling bit assortment MX teeth

10 pieces. Standard milling bits with staggered tooth system for universal machining of steel with a hardness < 60 HRC, cast iron, stainless steel, special alloys, hard and tough materials (e.g. Hardox) and hard non-ferrous metals.

- Produces short chips and a high surface quality
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Number of pieces in assortment/set	10 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Special alloy, Hard and tough material, Non-ferrous metal
Suitable for hardnesses up to	60 HRC
Quality	Würth-Standard

Carbide milling bit assortment Multi-performance TiAlSiN

10 pieces. The premium all-rounder with titanium-aluminium-silicon-nitride coating and unique multi-tooth geometry for efficient roughing and smoothing in a single process on almost all materials such as steel with a hardness < 65 HRC, cast iron, stainless steel, titanium, special alloys and hard and tough materials (e.g. Hardox). Also suitable for non-ferrous metals, such as aluminium alloys > 10% silicon, magnesium alloys, brass, copper, bronze and plastics.

- Innovative multi-tooth geometry with a combination of staggered and fine toothing for a shiny, smooth surface finish, smooth milling behaviour and excellent handling
- High-end TiAlSiN coating for a service life of up to three times longer than uncoated milling bits with a conventional staggered tooth system
- Up to 50% higher cutting performance compared to conventional staggered tooth system
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Number of pieces in assortment/set	10 PCS
Material to be processed	Steel, Cast metal, Stainless steel, Titanium, Titanium alloy, Special alloy, Hard and tough material, Non-ferrous metal

Carbide milling bit assortment INOX teeth

10 pieces. High-performance milling bits with innovative tooth geometry for an outstanding cutting performance when processing stainless steel (INOX).

- Up to 100% higher cutting performance when processing stainless steel compared to milling bits with a conventional staggered tooth system
- High surface quality thanks to optimal chip formation
- Smooth milling behaviour and excellent handling
- Convenient operation with low vibration and very little noise
- The special cutting geometry reduces heat development and prevents discolouration on the workpiece.
- Manufactured in accordance with strict quality standards including full inspection of soldered connections

Cutting disc, Longlife & Speed

The high-tech cutting disc for extreme demands on cutting capacity and versatility with large safety buffer

- Very high safety reserves due to highly tear-resistant special woven fabrics and innovative product design
- Significant clearance cutting and easier cutting due to extremely rough lateral surfaces
- Minimal burr formation means very little reworking required

Complies with the highest safety requirements of European Standard EN 12413.

Longlife cutting disc for aluminium/non-ferrous metals

Extremely long service life, optimal cutting capacity in solid and profile material, very high lateral stability.

- Synthetic resin-bonded, fibre-reinforced high-performance cutting discs
- For free-hand cutting with electric or pneumatic angle grinders
- Extremely low susceptibility to breakage

230 x 2.5 mm	Straight	6600 rpm	0670 122 302	25

Meets the maximum safety requirements in accordance with the EN 12413 European standard.

- Storage: Dry, at 20°C room temperature
- Work only with appropriate protective clothing
- Always use an appropriate protective hood when performing cutting work
- Work only with undamaged discs
- Do not jam/tilt the discs during cutting – increased risk of breakage!
- Ensure proper contact pressure
- Always clamp cutting discs (straight design) with metal ring towards machine

Longlife cutting disc for steel

Extremely long service life, optimal cutting capacity in solid and shaped material, very high lateral stability.

- Synthetic resin-bonded, fibrous material-reinforced high-performance cutting discs
- For free-hand cutting with electric or pneumatic angle grinders
- Extremely low susceptibility to breakage
- Minimal dimension and imbalance tolerances

125 x 2.5 mm	Cranked	12250 rpm	0670 151 252	25
180 x 3 mm	Straight	8500 rpm	0670 151 803	25
230 x 3 mm	Straight	6600 rpm	0670 152 303	25

Meets the maximum safety requirements in accordance with the EN 12413 European standard.

- Storage: Dry, at 20°C room temperature
- Work only with appropriate protective clothing
- Always use an appropriate protective hood when performing cutting work
- Work only with undamaged discs

Continuation **Cutting disc, Longlife for stone**

- Do not jam/tilt the discs during cutting – increased risk of breakage!
- Ensure proper contact pressure
- Always clamp cutting discs (straight design) with metal ring towards machine

Cutting disc for steel and stainless steel Ceraline Longlife & Speed

Cutting disc made from high-performance ceramic abrasive grain with an extremely long service life, maximum cutting performance and optimum cutting properties, especially in very hard and demanding workpieces as well as solid materials. Specially designed for steel and stainless steel.

- High-performance ceramic abrasive grain and optimum binding system
- Hardly any reworking necessary
- Considerably less stress on the user

Versatility (points system)	●●●○

125 x 1 mm	12250 rpm	0664 831 250	10

Complies with the highest safety requirements of European Standard EN 12413

- Store in a dry place at 20°C room temperature
- Work only with appropriate protective clothing
- Always use an appropriate protective hood when performing cutting work
- Only use undamaged discs
- Do not jam/tilt the discs during cutting – increased risk of breakage!
- Ensure proper contact pressure
- Always clamp cutting discs (straight design) with metal ring towards the machine

Speed cutting disc for steel

Especially for thin-walled pipes and profiles, thin metal sheets, motor vehicle body sheets

- Extreme cutting capacity (very short cutting times) with very long service life
- Extremely thin for precise, virtually burr and chatter-free cuts (very clean and cool cutting surfaces)
- Very comfortable operation available to protect the user and machine
- Low cutting waste and dust formation
- Low noise development and high break resistance

Meets the maximum safety requirements in accordance with the EN 12413 European standard.

Cutting disc, carbide-tipped

The disc's specially designed carbide granulate ensures not only excellent durability, but also rapid cuts with the angle grinder.

- Different materials can be cut with a single device. No more time-consuming machine and accessory changes.
- Special disc design for quick, clean cuts.
- The minimum disc thickness and the presence of damping slits facilitates a high circumferential speed of 80 m/s.
- The robust connection between the steel body and carbide granulate ensures durability and safety when cutting (no kick-back effect, e.g. if nails are cut).
- Either rotation direction can be selected.

Diameter	Thickness	Drill hole	Max. rotation speed	Art. no.	P. Qty.

Cutting disc Speed plus for stainless steel

Especially for thin-walled pipes and profiles, thin metal sheets, bodywork panels etc.

- Extreme cutting capacity (very short cutting times) with very long service life
- Extremely thin for precise, virtually burr and chatter-free cuts (very clean and cool cutting surfaces)
- Very comfortable operation available to protect the user and machine
- Low cutting waste and dust formation
- Low noise development and high break resistance
- Free of iron, chlorine and sulphur (≤ 0.1%)

Suitable for KWU Class II (e.g. pipeline and reactor construction)
Meets the maximum safety requirements in accordance with the EN 12413 European standard.

125 x 7 mm	22.23 mm	Cranked	12250 rpm	0664 161 257	25

Complies with the highest safety requirements of European Standard EN 12413.

- Storage: Dry, at 20°C room temperature
- Work only with appropriate protective clothing
- Always use an appropriate protective hood when performing cutting work
- Work only with undamaged discs
- Do not jam/tilt the discs during cutting – increased risk of breakage!
- Ensure proper contact pressure
- Always clamp cutting discs (straight design) with metal ring towards machine

Ensure the proper contact angle of the rough grinding disc.

An excessively shallow contact angle causes breakage of the wheel in the peripheral area.

Clamping mandrel for cutting discs and grinding discs

One for all. Clamping mandrel for cutting and grinding discs with 6-mm or 10-mm hole for use on axial or straight grinders.

- Clamping range from 0–8 mm
- Clamping screw is fully countersunk in the clamping mandrel
- Clamping screw with large contact surface and right-hand thread (self-clamping effect)
- Clamping screw with large support surface and lengthwise slit

Shaft diameter	6 mm

Meets the maximum safety requirements in accordance with the EN 12413 European standard.

- Storage: Dry, at 20 °C room temperature
- Work only with appropriate protective clothing
- Always use an appropriate protective hood when performing cutting work
- Work only with undamaged discs
- Do not jam/tilt the discs during cutting – increased risk of breakage!
- Ensure proper contact pressure
- Always clamp cutting discs (straight design) with metal ring towards machine

Diamond cutting disc Universal Basic segmented

Very good and versatile standard disc with driver hole for use on construction sites with varying materials.

- Long service life thanks to 15 mm high segments
- Optimised dust removal, cooling and cutting performance

Versatility (points system)	●●●○
Service life (points system)	●●●○
Cutting speed (point system)	●●●○
Cut quality (point system)	●●○○
Diameter (Ø)	350 mm
Drill hole	25.4 mm
Segment height	15 mm
Segment thickness	3.2 mm
Number of segments	24 PCS
Segment connection	Sintered
Max. rotation speed	5400 rpm
Max. circumferential speed	100 m/s

Art. no. 0668 772 355

P. Qty.: 5

- Diamond cutting discs become blunt at excessively high rotation speeds and wear too rapidly at insufficient circumferential speeds
- If ease of cutting is lost (indicated by heavy sparking), sharpen the disc in abrasive material, e.g. sandstone, with several cuts
- Separate larger workpiece cross-sections into several sections (swing cut)
- Work without applying pressure – the weight of the machine is sufficient. Increased pressure causes increased wear.
- Diamond cutting discs are designed for straight cutting. Cutting curves deforms the blade and results in core cracks and segment tear-offs – risk of injury!
- Despite the level of safety offered by the tool, always wear safety glasses and clothing while working
- Observe the information on the label (max. rotation speed), the restrictions of use and the safety instructions
- The direction arrow on the disc must match the machine's direction of rotation
- Must not be used for lateral grinding
- Use the appropriate protective hood
- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)
- If grinding tools are clamped wrongly or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting disc Longlife & Speed 3D Extreme

Yellow for construction sites. For angle grinders. With outstanding cutting properties for all construction trades thanks to innovative 3D technology.

- 3D technology
- Protection against undercut especially when working with particularly abrasive materials
- 3x more cutting edges when compared with similar cutting discs
- Optimised cooling with special cooling openings

- Must not be used for lateral grinding
- Use the appropriate protective hood
- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)
- If grinding tools are clamped or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting and chamfering disc PLA

Specially developed diamond disc for cutting and chamfering plastic pipes in a single process.

- Cutting edge and chamfering tool with special vacuum diamond coating (BSL)
- Cut depth stop
- Constant, uniform guide

Diameter (Ø)	125 mm
Drill hole	22.23 mm
Segment thickness	2.8 mm
Number of segments	10 PCS
Segment connection	BSL
Max. rotation speed	12250 rpm
Max. circumferential speed	80 m/s

Art. no. 5527 962 128

P. Qty.: 1

- Diamond cutting discs become blunt at excessively high rotation speeds and wear too rapidly at insufficient circumferential speeds
- If ease of cutting is lost (indicated by heavy sparking), sharpen the disc in abrasive material, e.g. sandstone, with several cuts
- Separate larger workpiece cross-sections into several sections (swing cut)
- Work without applying pressure – the weight of the machine is sufficient. Increased pressure causes increased wear.
- Diamond cutting discs are designed for straight cutting. Cutting curves deforms the blade and results in core cracks and segment tear-offs – risk of injury!
- Despite the level of safety offered by the tool, always wear safety glasses and clothing while working
- Observe the information on the label (max. rotation speed), the restrictions of use and the safety instructions
- The direction arrow on the disc must match the machine's direction of rotation

- Must not be used for lateral grinding
- Use the appropriate protective hood
- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)
- If grinding tools are clamped wrongly or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting disc Long-life & Speed roof

Super-thin diamond cutting disc with extremely high ease of cutting, very long service life and especially wide range of applications specially developed for the roofing trade.

- The extra-thin, finely toothed closed cutting edge facilitates absolutely precise, rapid cuts and cleanly cut edges
- Disc does not wobble or vibrate owing to corrugated carrier specially reinforced in the centre
- The extremely thin segment focuses the cutting force very precisely
- Special cooling openings with an „arrow arrangement“ provide additional cooling and serve as a captive running direction indicator

Versatility (points system)	●●●●
Service life (points system)	●●●●
Cutting speed (point system)	●●●●
Cut quality (point system)	●●●●
Drill hole	22.23 mm
Segment height	12 mm

- Must not be used for lateral grinding
- Use the appropriate protective hood
- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)

Continuation **Diamond cutting disc Long-life & Speed roof**

- If grinding tools are clamped wrongly or used incorrectly or are damaged, they represent a danger and may cause serious injury

Reducing ring Multi-Fix

The reducing ring makes it very easy to adjust the bore hole diameter and thus enables the use of all diamond cutting discs, without time-consuming assembly work.

- Usable on both sides and reusable: Reduction of 25.4 or 22.23 mm bore holes to 20.0 mm or 25.4 mm to 22.23 mm.
- Safe, quick and easy to secure thanks to the extra large contact surface
- Complies with the European Standard EN13236

Diameter	103 mm
----------	--------

Suitable for bore diameter	Suitable for bore diameter 2	Reduction of/to	Reduction 2 of/to	Art. no.	P. Qty.
25.4 mm	22.23 mm	25.4/20 mm	22.23/20 mm	0668 000 001	1
25.4 mm		25.4/22.23 mm		0668 000 002	1

Speed Omni-Cut diamond cutting disc, construction site

Yellow for construction sites. For angle grinders. Enormously versatile and extremely fast. Specially developed for use in frequently changing materials. Also optimally suited for use by rescue services (fire departments, technical relief organisations etc.).

- Flexible and fast
- Cuts virtually all materials in a special vacuum process (BSL)
- Easy to use
- Considerably cooler cutting due to cooling openings located directly under the segment

Versatility (points system)	●●●●

- If grinding tools are clamped or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting disc, speed, tile

For tiles and comparable materials up to 20 mm thick, with closed edge for a quick and clean cut.

- The cooling function of the structured segment sides allows for closure of the compensation slots as a result of heat-induced expansion. This enables an edge with a closed cutting surface.
- The disc is also stabilised with systematic reinforcement around the flange.
- In comparison to conventional tile-cutting discs, the 10-mm-high segment guarantees a considerably longer service life.

Diamond cutting disc, tile

Long-lasting, economical diamond cutting disc for tile layers, plumbing companies, stone cutters and similar trades

For material thickness up to approx. 20 mm.

High profitability

The WÜRTH tile disc is an optimal compromise of function and economical operation. A segment height of 7.5 mm ensures a good service life.

Optimized cutting quality

The closed edge and fine segment structure enable a clean cut.

- If grinding tools are clamped or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting disc, speed, wet cutting for tiles

**Premium diamond cutting disc with very narrow cutting surface and closed edge for a fast and clean cut.
For material up to approx. 20 mm thick.**

- Extremely fine, precise cut
- Improved cutting characteristics
- Protects the bench saw motor
- Reduced steering forces
- Flexible use on machines with 25.4 and 30 mm mount

- Diamond cutting discs become blunt at excessively high rotation speeds and wear too rapidly at insufficient peripheral surface speeds
- If ease of cutting is lost (indicated by heavy sparking), sharpen the disc in abrasive material, e.g. sandstone, with several cuts
- Cut larger workpiece cross-sections into several sections (swing cut)
- Work without applying pressure – the weight of the machine is sufficient. Increased pressure causes increased wear.
- Diamond cutting discs are designed for straight cutting. Cutting curves deforms the blade and results in core cracks and segment tear-offs – risk of injury!
- Despite the level of safety offered by the tool, always wear safety glasses and clothing while working
- Observe the information on the label (max. rotation speed), the restrictions of use and the safety instructions
- The direction arrow on the disc must match the machine's direction of rotation
- Must not be used for lateral grinding
- Use the appropriate protective hood
- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)
- If grinding tools are clamped or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond cutting disc Construction site Longlife & Speed RS

Premium diamond cutting disc specially developed for all construction trades with enormous versatility, extremely high service life and maximum cutting speed. The perfect disc for all angle grinders, wall slitting cutters, hand-held and floor saws.

- Special segment shape and innovative segment technology
- Long service life thanks to up to 15-mm-high segments, optimised dust removal and cooling
- Innovative slot geometry reduces uncontrolled vibrations and unpleasant running noises

Diamond cutting disc Construction site Longlife & Speed RS Plus

Premium diamond cutting disc specially developed for all construction trades with enormous versatility, extremely high service life and cut quality, maximum cutting speed. The perfect disc for all angle grinders and wall slitting cutters.

- Special wavy, ribbed segment shape and innovative optimised segment technology for a definite increase in cutting speed and cut quality
- Differently sized layers are matched perfectly to one another, diamonds on alternate sides
- Long service life due to segments up to 15 mm high, optimised dust removal and cooling

- Clamping must be performed only by a trained specialist (do not use force, use clean clamping flanges of the same size, perform a test run)
- If grinding tools are clamped or used incorrectly or are damaged, they represent a danger and may cause serious injury

Diamond mortar raking blade Combined Longlife & Speed RS Plus

For fast cutting and simultaneous milling of cable ducts with wall slitting cutters with at least 1800 W. The laborious and time-consuming removal of the centre bar is no longer necessary.

- Up to 50% time savings through cutting and milling in one operation
- Reduced dust and dirt
- Width 19 mm for 20 mm conduits and width 24 mm for 25 mm conduits

Diamond milling disc, long-life, for construction sites

The specialised disc for removing old mortar from joints during renovation work (e.g. clinker facades) and for milling joints/slots, for tile and floor layers, facade renovators, electricians, plumbing companies and similar trades. Also used for the installation of thin installation cables and similar jobs.

- Very efficient
- For a precise fit with four different segment thicknesses (4.5-10 mm)
- Extended service life
- Optimised stability when milling

Diamond Cup Wheel for Hard Material

Very versatile, economical cup wheel with good removal speed, good service life and a good surface result.

- Very high removal speed and an optimal surface result thanks to enhancement of the proven T-segment developed for cup wheels
- Very good dust extraction thanks to a combination of special open carrier and T-segment
- Grinds nearly all concrete and stone materials

P. Qty.: 1

Adapter M14/22.23

With internal M14 thread for direct clamping of diamond cup wheels with a 22.23 mm bore to the machine spindle.

Art. no. 0668 590 001

P. Qty.: 1

Bi-metal saw blade HSS

No saw blade offers more cutting performance and flexibility.

- Specialist steels: High-alloyed, high-speed steel on tooth edge, tough tool steel on back.
- Tooth edges of fully hardened material make for unbeatable cutting performance and service life.
- Work faster, longer and more economically with only one saw blade.

Normal tooththing

- More profitability
- More safety
- High cutting performance
- Prolonged service life

Progressive tooththing

- Universally used
- High tooth pitch in the initial cut area for easy initial cuts. Fluttering of thin materials is considerably reduced.
- Low tooth pitch in remaining cutting area for high cutting performance.

Max. material thickness	2 mm
Length (L)	300 mm

Continuation **Bi-metal saw blade HSS**

Hand saw blade

Double-sided saw blade made of high-speed steel

- Long service life even with hard, high-alloyed and stainless steel

Teeth per unit of length	22 PCS/Inch
Length (L)	300 mm
Width (B)	25 mm
Thickness (H)	0.8 mm

Art. no. 0603 300 25

P. Qty.: 10/50

Band saw blade

Specially designed for construction steel

- Milled bimetal blade (M42)
- Innovative tooth design for a long service life, precise cuts and a smooth surface.

The M42 tooth tips are highly heat resistant and very powerful, regardless of the coolant used.

The ZEBRA multi-use bandsaw blade is an aggressive tool and has a high penetration capacity; for this reason, the user must observe the following points:

- Tension the saw blade well to prevent oscillation at the teeth.
- Carefully guide the saw blade to the material to be cut.
- Apply moderate pressure (approx. 30–40% less than with conventional saw blades), especially when cutting profiles.

24-hour service is not available for these items. These items are excluded from exchange and return. Each order is manufactured individually to the customer's specifications.

Machine saw blade

HSS

- For hacksaws
- Particularly suitable for sawing stainless steel and other materials that are difficult to saw

Insulation saw

High-quality insulation saw with 2-component cork handle and special teeth for the precise sawing of insulation materials.

- Two-component cork handle
- 45° and 90° marking angles integrated in handle
- Delivery incl. tooth protection

Sheet length	460 mm
Length	600 mm

Art. no. 5760 031 905

P. Qty.: 1/6

Cellular concrete saw

High-quality carbide-coated saw with 2-component cork handle

- 17 carbide-tipped teeth
- 2-component cork handle
- Marking area for 45° and 90° angles integrated in handle

Sheet length	700 mm
Length	800 mm

Art. no. 5760 031 900

P. Qty.: 1/6

Plasterboard saw

High-quality saw for clean cuts in plasterboard

Extremely clean cut, very long service life

Hardened teeth

Very easy to use

Beech wood handle

Sheet length	150 mm
--------------	--------

Art. no. 5760 041 005

P. Qty.: 1/12

Hand saw

High-quality hand saw

- Special steel saw
- Ground or sharpened, inductively hardened teeth
- Plastic handle for right and left-handed users
- Tooth guard

Teeth per unit of length	7 PCS/Inch
--------------------------	------------

Sheet length	Art. no.	P. Qty.

Hand saw, 1-C

High-quality hand saw with 1-component plastic handle for precision cuts in wood products.

The handle has integrated marking guides for 45° and 90° angles

Fast and easy marking off of lines and angles

Inductively hardened teeth

- Gives extremely clean cuts and has excellent durability
- Excellent chip removal while sawing (fast penetration depth)

Tooth guard included

Teeth per unit of length	7 PCS/Inch
--------------------------	------------

Sheet length	Length	Art. no.	P. Qty.
500 mm	580 mm	5760 031 036	1/6

Hand saw, top

High-quality hand saw with 2-component cork handle for high-precision cuts in wood products

With a two-component cork handle

For comfort of use

The handle has integrated marking guides for 45° and 90° angles

Fast and easy marking off of lines and angles

Inductively hardened teeth

- Gives extremely clean cuts and has excellent durability
- Excellent chip removal while sawing (fast penetration depth)

Tooth guard included

Teeth per unit of length	7 PCS/Inch
--------------------------	------------

Japanese hand saw 1C

Japanese saw with 1-component plastic pistol grip

Fine-toothed saw, without back

Pistol grip

Excellent guidance, comfortable action

Extremely flexible saw blade

For working in hard-to-reach places

Includes tooth guard

Length	445 mm
Sheet length	250 mm
Sheet width	59 mm
Blade thickness	0.6 mm
Teeth spacing	1.6 mm

Art. no. 5760 051 005

P. Qty.: 1/6

Japanese hand saw 2C

High-quality Japanese saw with 2-component pistol grip

- Fine-toothed saw, without back
- Two-component pistol grip
- Extremely flexible saw blade
- High-quality saw blade guard

Length	430 mm
Sheet length	250 mm
Sheet width	59 mm
Blade thickness	0.6 mm
Teeth spacing	1.6 mm

Art. no. 5760 051 001

P. Qty.: 1/6

Japanese hand saw Douzuki

Backsaw, very fine toothing

Extremely precise and clean cuts

This saw cuts only on the pull stroke. As a result, the saw blade can be considerably thinner and harder.

Long service life

Laser-hardened steel saw blades ground razor-sharp.

Length	540
Sheet length	240
Blade thickness	0.3 mm

Art. no. 0695 932 151

P. Qty.: 1

Japanese hand saw Kataba

Fine saw without backing rib

Extremely precise and clean cuts

This saw cuts only on the pull stroke. As a result, the saw blade can be considerably thinner and harder.

Long service life

Laser-hardened steel saw blades ground razor-sharp.

Working length	250 mm
Blade thickness	0.4 mm

Art. no. 0695 932 152

P. Qty.: 1

Japanese hand saw Ryoba

Combined saw with trapezoidal toothing for cross cuts and triangular toothing for longitudinal cuts

Extremely precise and clean cuts

This saw cuts only on the pull stroke. As a result, the saw blade can be considerably thinner and harder.

Long service life

Laser-hardened steel saw blades ground razor-sharp.

Working length	240 mm
Blade thickness	0.4 mm

Art. no. 0695 932 150

P. Qty.: 1

Folding saw

High-quality folding saw with Japanese tooothing

Three-way sharpened and impulse-hardened teeth

Extremely rapid cutting action and long service life

Non-slip, ergonomically designed handle

Excellent handling, comfortable action

Saw blade folds fully into handle

No risk of injuries

Two-way saw blade adjustment

Length	500 mm
Sheet length	240 mm
Blade thickness	0.8 mm

Art. no. 0695 932 149

P. Qty.: 1

Folding saw Douzuki

Japanese hand saw with high-quality plastic handle

Fine-toothed saw, with back

Folding saw blade

Saves space effectively and protects the tooothing

Inductively hardened teeth

Extremely sharp, high stability

Delivered in plastic case

Sheet length	240 mm
Length (opened out)	567 mm
Blade thickness	0.3 mm
Material of the grip handle	Plastic

Art. no. 5760 051 011

P. Qty.: 1/6

Folding saw Kataba

Japanese hand saw with high-quality plastic handle

Fine-toothed saw, without back

Folding saw blade

Saves space effectively and protects the tooothing

Inductively hardened tooothing

Extremely sharp, high stability

Extremely flexible saw blade

For working in hard-to-reach places

Delivered in plastic case

Sheet length	250 mm
Length (opened out)	580 mm

Continuation **Folding saw Kataba**

Blade thickness	0.5 mm
Material of the grip handle	Plastic

Art. no. 5760 051 008

P. Qty.: 1/6

Folding saw Ryoba

Japanese hand saw with high-quality plastic handle

Saw blade with dual toothing

- Japanese crosscut toothing (finely toothed)
- Rip cut toothing (crosscut/rip cut toothed)

Inductively hardened Japanese toothing

Extremely sharp, high stability

Folding saw blade

Saves space effectively and protects the toothing

Delivered in plastic case with rip cut tooth guard

Sheet length	240 mm
Length (opened out)	567 mm
Blade thickness	0.5 mm
Material of the grip handle	Plastic

Art. no. 5760 051 015

P. Qty.: 1/6

Teeth per unit of length	Thickness (H)	Art. no.	P. Qty.
	0.4 mm	0609 3	12
32 PCS/Inch	0.45 mm	0609 2	12

Small saw bow

Length (L)	250 mm
Design	Nickel-plated round steel

Art. no. 0609 1

P. Qty.: 1

With universal small saw blade, 32 teeth per inch, 145 x 6 x 0.45 mm

Metal bow saw

Ergonomic, aluminium die cast metal bow saw

Extremely robust and highly scratch-resistant Prevents hand slipping from saw

Thanks to pistol grip and hand guide made from 2-component plastic

Two saw blade positions (45° and 90°)

Rapid blade tensioning and replacement

Sheet length	300 mm
Length (L)	400 mm
Height	135 mm

Art. no. 5760 071 001

P. Qty.: 1/5

Metal bow saw

Light and manageable metal bow saw with aluminium handle

- Very light, very robust and extremely scratch-resistant
- Pistol grip in powder-coated aluminium
- 6x adjustable saw blade positions
- Saw blade clamped with quick-action clamping system in handle

Sheet length	300 mm
Length (L)	400 mm
Height	140 mm

Art. no. 0714 64 02

P. Qty.: 1

Metal saw blade

Heavy-duty, flat steel saw bow with 2C plastic handle

- Power-coated, flat steel bow 18 x 8 mm
- Automatic saw blade tensioning by turning handle
- Universal use, easy blade replacement

Sheet length	300 mm
Length (L)	530 mm
Height	140 mm

Art. no. 0695 552 892

P. Qty.: 1

Mini universal saw

Can be used with metal and wood saw blade

- Particularly light and manageable thanks to aluminium frame
- 6-way secure blade adjustment

Length (L)	147 mm
------------	--------

Art. no. 0714 64 03

P. Qty.: 1

Saw blade

For folding saw with Japanese tothing

Thickness	0.8 mm
-----------	--------

Art. no. 0695 932 154

P. Qty.: 1

Saw blade for Japanese hand saw

Ensures fatigue-free cutting without excessive force

Material	Thickness	Art. no.	P. Qty.
		0695 932 155	1
		0695 932 156	1
		0695 932 157	1
Steel	0.6 mm	5760 051 002	1

Saw blade for Kataba folding saw

Material	Steel
Thickness	0.5 mm

Art. no. 5760 051 009

P. Qty.: 1

Universal saw

For sawing in hard-to-reach places.

Handle adjustable by turning

Length (L)	250 mm
------------	--------

Design	Art. no.	P. Qty.
Fixed handle	0609 11	1
Handle adjustable on all sides	0609 10	1

With universal small saw blade, 32 teeth per inch, 145 x 6 x 0.45 mm

Arbor A2

With centre drill

Suitable for hole-saw diameter	32 - 200 mm
Shaft diameter	11 mm
Drive type	Hexagon

Art. no. 0632 02

P. Qty.: 1

Adapter A4

With centre drill

- For 14–30 mm diameter
- Hexagonal shaft, 6.35 mm diameter

Suitable for hole-saw diameter	14 - 30 mm
Shaft diameter	6.35 mm
Drive type	Outer hexagon
Length	59 mm

Art. no. 0632 04 1

P. Qty.: 1

Construction site circular saw blade

For rough work on construction sites

- Flat tooth with alternating chamfer (FAC)
- For construction site circular saws (Avola, Atika, Scheppach, Elektra Beckum).
- Suitable for solid wood, light building materials, plywood with mortar, pallets and wood with firmly hammered-in nails.

Tooth shape	Flat tooth with alternating chamfer
Side holes	Combi (2/7/42 - 2/9/46 - 2/10/60)
Material to be processed	Wood with metal, Light building boards, Solid wood, Flat panels with woods, Flat panels with mortar, Flat panels with pallets

Diameter x saw cutting width/main blade thickness x drill hole	Number of teeth	Max. rotation speed	Art. no.	P. Qty.
400 x 4/2.8 x 30 mm	28 PCS	4800 rpm	0611 540 028	1
450 x 4/2.8 x 30 mm	32 PCS	4200 rpm	0611 545 032	1
500 x 4/2.8 x 30 mm	36 PCS	3800 rpm	0611 550 036	1

Auxiliary hole 2/7/42 for Striebig/Reich machines.

Auxiliary hole 2/9/46 for Felder and Italian machine manufacturers.

Auxiliary hole 2/10/60 for Martin, Kölle, Altendorf and Panhans.

Guide drill bit A014C

For adapter A2

- Short version
- 6.35 mm (1/4") diameter

Shaft diameter (Ø)	6.35 mm
Drill diameter	6.35 mm
Length	79 mm

Art. no. 0632 014

P. Qty.: 1

Guide drill bit A014D

For adapter A4

- Long version
- 6.35 mm (1/4") diameter

Shaft diameter (Ø)	6.35 mm
Drill diameter	6.35 mm
Length	105 mm

Art. no. 0632 014 1

P. Qty.: 1

Hand-held circular saw blade

Universal for mobile use

Tooth shape	Alternating tooth
Material to be processed	Softwood, Hardwood, Raw sheet material, Plastic-coated sheet material, Veneered sheet material

Diameter x saw cutting width/main blade thickness x drill hole	Number of teeth	Max. rotation speed	Art. no.	P. Qty.
140 x 2.6/1.6 x 20 mm	24 PCS	10900 rpm	0610 140 240	1
160 x 2.6/1.6 x 20 mm	16 PCS	9500 rpm	0610 160 160	1

MBS HW cylinder saw

Multi-range saw for a precise and clean drilling pattern with low tolerances

- Even CNC cut with cutting geometry specifically aligned to reduce cutting pressure
- Offset, optimised centre drill (GS-protected system)
- Precise, optimally embedded seating of the cemented carbide teeth via a unique, fully automatic soldering process
- Ejection spring
- Solid basic body with offset chip grooves
- Separately tempered shank from Ø 32 mm

Width across flats	3/4 inch
Cutting depth	20 mm
Drive type	Triangle

Diameter (Ø)	Connection thread (conduit thread)	Art. no.	P. Qty.

Ensure that the cylinder saw is secure in the drill chuck. Avoid using the cylinder saw at an angle. Wear appropriate protective clothing, e.g. safety glasses, gloves etc. when working.

Core drill bit assortment HSCo8 AlCrN

7 pieces High-performance core drill bits with 55-mm cutting depth, AlCrN-multilayer coating and 8% cobalt alloy for high service life and versatile use with almost all materials such as in conventional steels, cast iron, titanium, stainless steels, heat-resistant and high-strength steels up to 1400 N/mm² in strength. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, magnesium alloys, brass, bronze and plastics.

- Significantly higher service life as well as up to 60% higher cutting speed compared to uncoated core drill bits
- Significantly faster drilling progress compared to uncoated core drill bits
- For process reliability in almost all materials

Number of pieces in assortment/set	7
Material to be processed	Steel, Stainless steel, Cast metal, Non-ferrous metal, Hard and tough material
Surface	AlCrN
Cutting material	HSCo8
Cutting depth	55 mm
Length	84.6 mm
Shank style	Weldon

Art. no. 0630 942 607

P. Qty.: 1

- Unlike the twist drill, the core drill bit does not machine the entire bore diameter, but rather only a thin material ring. The drill core is ejected by an ejector pin using spring tension; this is included in the scope of delivery. The drilling times of core drill bits are therefore up to ten times shorter than those of twist drills.
- Sufficient continuous cooling during the entire drilling process considerably increases the service life of the core drill. Do not use in a dry state.
- See the overview tables for core drill bits/material assignments as well as cutting values
- Wear appropriate protective equipment when using the sanding tip, such as Eye protection, hearing protection, protective gloves
- Set aside loose clothing or jewellery that could get caught in moving parts
- The core drill bits must not be used manually
- Before use, please ensure that the tool rotates properly and that the clamping function on the tool drive works correctly

Core drill bit HSCo8 AlCrN

High-performance core drill bits with 55-mm cutting depth, AlCrN-multilayer coating and 8% cobalt alloy for high service life and versatile use with almost all materials such as in conventional steels, cast iron, titanium, stainless steels, heat-resistant and high-strength steels up to 1400 N/mm² in strength. Also suitable for non-ferrous metals, such as aluminium, aluminium alloys, magnesium alloys, brass, bronze and plastics.

- Significantly higher service life as well as up to 60% higher cutting speed compared to uncoated core drill bits
- Significantly faster drilling progress compared to uncoated core drill bits

The drill core is ejected by an ejector pin using spring tension; this is not included in the scope of delivery. The drilling times of core drill bits are therefore up to ten times shorter than those of twist drills.

Continuation **Core drill bit HSCo8 AlCrN**

- Sufficient continuous cooling during the entire drilling process considerably increases the service life of the core drill. Do not use in a dry state.
- See the overview tables for core drill bits/material assignments as well as cutting values
- Wear appropriate protective equipment when using the sanding tip, such as Eye protection, hearing protection, protective gloves
- Set aside loose clothing or jewellery that could get caught in moving parts
- The core drill bits must not be used manually
- Before use, please ensure that the tool rotates properly and that the clamping function on the tool drive works correctly

Core drill bit HSS

Standard core drill bits made of cemented carbide for drilling large through holes up to Ø 50 mm with mobile magnetic or stationary drills in cutting depths of 30 mm and 50 mm in conventional steels up to 850 N/mm², wood and non-ferrous metals, such as aluminium, aluminium alloys and plastic.

- Powerful performance and fast drilling progress with a long service life
- No predrilling required, no formation of burrs
- Optimised cutting geometry, exact guide, no slippage

- Unlike the twist drill, the core drill bit does not machine the entire bore diameter, but rather only a thin material ring. The drill core is ejected by an ejector pin using spring tension; this is not included in the scope of delivery. The drilling times of core drill bits are therefore up to ten times shorter than those of twist drills.
- Sufficient, continuous cooling throughout the drilling process significantly increases the service life of the core drill. Do not use in a dry state
- Not suitable for chipboard, titanium or heat-resistant and high-alloy steels
- See the overview tables for core drill bits/material assignments as well as cutting values
- Wear appropriate protective equipment when using the sanding tip, such as Eye protection, hearing protection, protective gloves
- Set aside loose clothing or jewellery that could get caught in moving parts
- The core drill bits must not be used manually
- Before use, please ensure that the tool rotates properly and that the clamping function on the tool drive works correctly

Core drill range HSS

7 pieces. Standard core drill made from HSS for drilling large through-holes of up to 50 mm in diameter with mobile magnetic or stationary drilling machines in conventional steels up to 850 N/mm², wood and non-ferrous metals, such as aluminium, aluminium alloys and plastics.

- Powerful performance and fast drilling progress with a long service life
- No pre-drilling required, no formation of burrs
- Optimised cutting geometry, precise control and no slipping

Number of pieces in assortment/set	7 PCS

Cutting material	HSS
Shank style	Weldon
Quality	Würth-Standard
Service life (points system)	●●○○
Drilling speed (point system)	●●●○
Bore hole quality (point system)	●●●●
Versatility (points system)	●●○○
Drilling behaviour (point system)	●●●○

Cutting depth	Length	Art. no.	P. Qty.
30 mm	64.2 mm	0630 930	1
50 mm	84.6 mm	0630 940 007	1

- In contrast to twist drills, the core drill does not machine the complete bore diameter but only a thin ring of material. The drilling core is taken out using an ejector pin with spring power which is not included in the scope of delivery. Core drills are therefore up to 10 times quicker in terms of drilling time compared to twist drills.
- Sufficient continuous cooling during the entire drilling process considerably increases the service life of the core drill. Do not use dry
- Not suitable for pressboard, titanium or heat-resistant and high-alloy steels
- For core drill/material allocations and cutting values, see the overview tables
- During use, wear appropriate protective equipment, such as eye protection, hearing protection and protective gloves
- Take off loose clothing or jewellery which could get caught in the moving parts
- Core drills must not be used hand-guided
- Before use, ensure perfect concentricity and the correct clamping function of the tool drive

Circular saw blade for cordless hand-held circular wood saws

For mobile use and precise cuts in any material, especially for cordless hand-held circular wood saws.

- Perfect cutting results in any material due to optimised tooth geometry and colour coding system
- Extra thin, super fast and simple cuts thanks to the thin steel blade

Max. rotation speed	8000 1/min
---------------------	------------

Diameter x saw cutting width/ main blade thickness x drill hole	Number of teeth	Tooth shape	Material to be processed	Art. no.	P. Qty.

Vibrations significantly reduce the service life of the circular saw blade

Long-life metal circular saw blade for chop saws

For mobile use. Suitable for metal chop saw MKS 2200 inox/MKS 2400 and dry cutter machines.

Particularly long service life in stainless steel

Optimized tooth geometry and carbide alloying

Diameter x saw cutting width/ main blade thickness x drill hole	355 x 2.4/2 x 25.4 mm
Tooth shape	Trapezium tooth/flat tooth
Max. rotation speed	1700 rpm
Min./max. material thickness	2-5 mm

90 PCS	Thin-walled steel, Stainless steel	2.5 mm		0604 135 590	1

UNI-Top circular saw blade

The universal circular saw blade for construction sites.

For clean cuts in a wide variety of materials.

- Depending on the diameter, suitable for hand-held circular saws, chop saws and mitre saws, sliding mitre saws, circular saw benches

Tooth shape	Alternating tooth
Material to be processed	Hardwood, Wood with metal, Plastic, Non-ferrous metal, Shuttering boards, Coated chipboard, Veneered chipboard, Chipboard (raw), Composites, Softwood

Diameter x saw cutting width/ main blade thickness x drill hole	Number of teeth	Max. rotation speed	Side holes	Art. no.	P. Qty.

Reducing ring included with art. no. 0611 615 024, 0611 616 024, 0611 617 024, 0611 618 030

Cemented carbide hole saw

Hole saw for universal use

- Robust and durable
- Rapid drilling progress
- Improved oscillation and vibration behaviour

Drilling depth	60 mm

85 mm	0632 400 085	1
105 mm	0632 400 105	1

Please note:

- Only use hole saw in rotating mode. Switch off hammer function!
- Not suitable for hard-burned tiles and fine earthenware

Please order centre drill and adapter separately.

Hole saw HW

Flat-cut hole saw (cutting depth limit) for a precise and clean drilling pattern with low tolerances

- Even CNC cut with cutting geometry specifically aligned to reduce cutting pressure
- Offset, optimised centre drill (GS-protected system)
- Precise, optimally embedded seating of the cemented carbide teeth via a unique, fully automatic soldering process
- Cutting depth limitation
- Ejection spring protects shock-sensitive carbide teeth after pre-drilling when the drill bit enters the medium
- Separately tempered shank from Ø 32 mm

Drilling depth	12 mm

- The cylinder saw must be seated securely in the drill chuck
- Avoid tilting of the cylinder saw
- Appropriate protective clothing such as safety glasses, gloves etc. must be worn during work

Hole saw with countersink bit

For installation of device sockets flush to hollow walls.

- Fits all drills with 13 mm chuck

Diameter (Ø)	68 mm
Material to be processed	Gypsum plasterboard, Wood beams, Plastic plates, Chipboard, Blockboard

Art. no. 0632 068

P. Qty.: 1

Remove countersink bit for cutting depths greater than 32 mm.

Panel saw blade

Specialist for mobile use. For cross sections with the sliding mitre saw, chop saw and mitre saw.

Diameter x saw cutting width/main blade thickness x drill hole	Adapter type	Number of teeth	Tooth shape	Max. rotation speed	Art. no.	P. Qty.

Quick-change adapter for bi-metal cylinder saws

One adapter for all diameters

Quick, convenient and secure

- Special adapters allow the various diameters to be changed very quickly and easily
- The mount does not need to be removed from the drill chuck or the collet chuck in order to change the saw. This allows for one-handed operation.

Very high precision and durability

Suitable for hole-saw diameter	14 - 152 mm
Shaft diameter	11 mm
Drive type	Hexagon
Length	140 mm

Art. no. 0632 900 000

P. Qty.: 1

Quick-action chuck with SDS-plus drive arbor

For hammer drills

- Convenient quick-release closure for fast, tool-free changing of the centre drill
- Wrench surfaces enable easy loosening of the mount
- Easy removal of drill core by unlocking and pulling out centre drill bit
- With shortened mounting grooves. Prevents impacting use in hammer drills, even if impact mechanism is accidentally switched on.

Tool holding device	Suitable for SDS-plus
Length	118 mm
Connection thread	M16

Art. no. 0632 401 010

P. Qty.: 1

Special circular saw blade

For non-ferrous metals

- Trapezoidal tooth/flat tooth (TT/FT)
- For table saws, panel saws or chop and mitre saws
- Profile and solid materials made from aluminium and other non-ferrous alloys, acrylic resin and Pertinax
- Particularly suitable for thin-walled aluminium profiles

Tooth shape	Trapezium tooth/flat tooth
Material to be processed	Aluminium, Non-ferrous metal, Acrylic resin, Pertinax
Side holes	Combi (2/10/60 - 2/11/63 - 2/12/64)

Diameter x saw cutting width/main blade thickness x drill hole	Number of teeth	Tooth geometry	Max. rotation speed	Suitable for machine type	Art. no.	P. Qty.
250 x 3.2/2.2 x 30 mm	80 PCS	Negative	7600 rpm	Mitre saws	0611 025 803	1
250 x 3.2/2.5 x 30 mm	60 PCS	Negative	7600 rpm	Mitre saws	0611 025 603	1

350 x 3.4/2.8 x 30 mm	108 PCS	Negative	5500 rpm	Mitre saws	0611 035 103	1

Special circular saw blade for trimming cuts

For perfect cutting edge quality on sensitive surfaces

- Trapezoidal tooth/flat tooth (TT/FT)
- For bench and trimming circular saws (1), mitre saws (2)
- Profile and solid materials made from aluminium and other non-ferrous alloys, acrylic resin and Pertinax
- Especially suitable for thin-walled aluminium profiles

Tooth shape	Hollow tooth/inverted-V/flat tooth
Side holes	Combi (2/7/42 - 2/10/60)
Material to be processed	Laminated veneered chipboard, Laminated veneered fibreboard, Plastic, Acrylic glass, Polymer materials

Diameter x saw cutting width/main blade thickness x drill hole	Number of teeth	Max. rotation speed	Art. no.	P. Qty.
253 x 3.2/2.2 x 30 mm	48 PCS	7600 rpm	0611 253 481	1
303 x 3.2/2.2 x 30 mm	60 PCS	6400 rpm	0611 303 601	1
303 x 3.2/2.2 x 30 mm	60 PCS	6400 rpm	0611 303 602	1
350 x 3.5/2.5 x 30 mm	72 PCS	5500 rpm	0611 350 720	1

Auxiliary hole 2/7/42 for Striebig/Reich machines.

Auxiliary hole 2/9/46 for Felder and Italian machine manufacturers.

Auxiliary hole 2/10/60 for Martin, Kölle, Altendorf and Panhans.

Standard drill chuck with SDS-plus drive arbor

For hammer drills

With countersunk 3 mm Allen head locking screw for centre drill bit

No risk of injury due to protruding parts.

Complete with 3 mm Allen key for changing drill bits

Tool holding device	Length	Connection thread	Art. no.	P. Qty.
			0630 008	1
			0630 009	1
Suitable for SDS-plus	105 mm	M16	0632 401 020	1

Starlock diamond segmented saw blade, Longlife

For removing joint mortar in damaged tile and mortar gaps and for separating tiles up to scratch hardness 6, fibreglass and reinforced plastics. Ideal for use in corners and edges.

- Diamond coating guarantees a long service life
- The segment blade can be rotated to optimise wear levels on the saw blade
- The segment blade enables precise cuts in corners

STARLOCK

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

Diameter	85 mm
Thickness	2 mm
Material	Diamond
Adapter type	Starlock
Saw blade design	Segment
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Art. no. 0696 121 330

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock triangular grinding disc

Grinding plate with particularly soft corners for ease of work

- Flexibility in the corners means that pressure can be exerted, enabling better removal of material

3D mount (Starlock)

- Excellent compatibility with existing mount systems
- Particularly high power transmission
- Much better material removal

STARLOCK

Dimension adhesive disc	90 x 90 x 90 mm
Adapter type	Starlock
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W), Würth EMS 12-A

Art. no. 0696 121 150

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock carbide rasp

The 3-in-1 professional tile tool for removing wall and floor tiles and sanding off tile grout when changing tiles.

- Cemented carbide guarantees a long service life
- The segmented blade can be rotated according to the application, optimising wear on the saw blade
- The droplet shape enables precise removal of the joint on the wall and floor tile (90° corner)

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

Diameter	70 mm
Material	Carbide
Adapter type	Starlock
Material to be processed	Tiling
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Art. no. 0696 121 320

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock saw blade, double tooth

For clean, tear-free separating and immersion cuts

- The slightly curved „clean cut“ toothed blade enables a clean immersion.
- Depth scale for monitoring the precise immersion depth.

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

STARLOCK

Material	Bimetal
Adapter type	Starlock
Saw blade design	Double toothed (Japan)
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Cutting depth	Cutting width	Art. no.	P. Qty.
50 mm	32 mm	0696 121 110	1/5
40 mm	65 mm	0696 121 111	1/5

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock saw blade, single tooth

The all-rounder on the construction site for rough separating and immersion cuts

- The slightly curved „clean cut“ toothed blade enables clean immersion
- Depth scale for monitoring the precise immersion depth

3D mount (STARLOCK)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

Material	Bimetal
Adapter type	Starlock
Saw blade design	Single toothed (regular)
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Cutting depth	Cutting width	Art. no.	P. Qty.
50 mm	32 mm	0696 121 410	1/5
40 mm	65 mm	0696 121 411	1/5

Starlock cemented carbide saw blade, single tooth

The high-performance saw blade for extremely demanding applications, high cutting performance and long tool life. For separating and immersion cuts in metal.

- The cemented carbide enables cutting of very hard materials.
- The slightly curved „clean cut“ tooth shape enables clean immersion.
- Depth scale for monitoring the precise immersion depth.

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

Cutting depth	40 mm
Cutting width	32 mm
Material	Carbide
Adapter type	Starlock
Saw blade design	Single toothed (regular)
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W), Würth EMS 12-A

Art. no. 0696 121 220

P. Qty.: 1/5

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock segmented saw blade

Ideal for immersion cuts, ideal for work in corners and for setting door frames

- The segmented blade can be positioned flush against the floor. The door frame can be shortened to the exact length
- The saw blade can be rotated to optimise wear of the saw blade
- Special blade shape enables precise cuts in corners

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- High cutting speeds
- Excellent compatibility with existing mount systems

Diameter	85 mm
Material	Bimetal

Saw blade design	Segment
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Art. no. 0696 121 412

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Starlock spatula

For replacing silicon joints and removing carpet adhesive and paint residue

- Flexibility enables the spatula to be pressed into any required position

3D mount (Starlock)

- Particularly high power transmission with low wear
- 3 x longer service life compared to conventional mount systems
- Much better material removal
- Precise results
- Excellent compatibility with existing mount systems

Cutting depth	38 mm
Cutting width	52 mm
Adapter type	Starlock
Suitable machines	Starlock, Starlock plus, Starlock max, Würth EMS 10-A, Würth EMS 12-A, Würth EMS 14-A, Würth EMS 18-A EC SL, Würth EMS 350-SL COMPACT, Würth EMS 450-SL POWER, Würth EMS 2 adapter 0696 121 100, Bosch GOP 10.8 V, Fein Multimaster (250 W)

Art. no. 0696 121 340

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Saw set Starlock

Starter set with Starlock saw blades in a practical storage box for processing a wide variety of materials on construction sites.

- Suitable for multi-cutters with Starlock, Starlock Plus and Starlock Max mounts.
- The saw blades included in the set have a cutting depth of 40–50 mm.

Adapter type	Starlock
Number of pieces in assortment/set	5 PCS

Continuation **Saw set Starlock**

Art. no. 0696 121 000

P. Qty.: 1

In conjunction with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Saw set Starlock Max

Starter set with Starlock Max saw blades in a practical storage box for processing a wide variety of materials on construction sites.

- Suitable for multi-cutter with Starlock Max mount.
- The saw blades included in the set have a cutting depth of 45–70 mm.

Adapter type	Starlock Max
Number of pieces in assortment/set	3 PCS

Art. no. 0696 123 000

P. Qty.: 1

In combination with the Starlock adapter (art. no. 0696121100), also suitable for the multi-cutter EMS 2.0.

Jigsaw blade, construction Multiblade LONGLIFE

With an extremely long service life in extreme applications. For thin and thick materials and, at the same time, a fast and clean cut.

- Colour-coded system with 4 distinct colours
- Exactly the right jigsaw blade for any application
- Extreme cutting performance and very long life
- Outstanding blade for construction sites, as it is possible to work continuously with one blade.
- For thin and thick material with fast cutting

Working length	65 mm
Min./max. material thickness	5-65 mm
Min./max teeth spacing	3.5-5 mm
Especially suitable for	Wood with metal, Thick metal sheets, Thin sheet metals, GFK
Suitable for	Hardwood, softwood, Aluminium profiles, Non-ferrous metal, Gypsum plasterboard, PVC, Fibreboard, MDF

Art. no. 0608 116 456

P. Qty.: 1

- To select the correct jigsaw blade, please use the guide under the documents tab.
- Further technical information can be found on the packaging of the product.

Extension for cylinder saw

For adapter A2

Length	300 mm
--------	--------

Art. no. 0632 05

P. Qty.: 1

Two-piece scorer for circular saw blade

For clean, fray-free cutting of plate materials.

Thickness	2.2 mm
Min./max. cutting width	2.8-3.6 mm
Number of teeth per saw blade	12 PCS
Tooth shape	Alternating tooth

Diameter	Drill hole	Max. rotation speed	Art. no.	P. Qty.
100 mm	20 mm	19100 rpm	0611 100 123	2
120 mm	20 mm	15900 rpm	0611 120 120	2
120 mm	22 mm	15900 rpm	0611 100 122	1

Centre drill

For use with cemented carbide hole saws and hammer-resistant light bit crowns in masonry

Design	Material to be processed	Drill diameter	Length	Art. no.	P. Qty.
				0630 080 120	1
Carbide	Masonry	8 mm	120 mm	0632 401 001	1

HSCO centre drill for bi-metal cylinder saw

Drill diameter	6 mm
Length	110 mm

Art. no. 0632 900 001

P. Qty.: 1

Centre drill

For use with cemented carbide hole saws on wood and plastic

Material to be processed	Wood, Plastic
--------------------------	---------------

Continuation **Centre drill**

Shaft diameter (Ø)	Design	Drill diameter	Length	Art. no.	P. Qty.
	HSS	7.4 mm	120 mm	0632 401 002	1
7.2 mm		7.2 mm	109 mm	0630 072 109	1

Blank circular saw blade

For quick cutting when separating and blocking wood

Tooth shape

Alternating tooth (AT)

Machine

On circular bench saws

Materials

Hard and soft wood

Design

Chip thickness limitation via deflectors.

Tooth shape	Alternating tooth
Side holes	Combi (2/7/42 - 2/9/46 - 2/10/60)

Diameter x saw cutting width/ main blade thickness x drill hole	Number of teeth	Max. rotation speed	Material to be processed	Art. no.	P. Qty.
250 x 3.2/2.2 x 30 mm	24 PCS	7600 rpm	Hardwood, Softwood	0611 025 241	1
300 x 3.2/2.2 x 30 mm	28 PCS	6400 rpm	Softwood, Hardwood	0611 030 281	1

450 x 4/2.8 x 30 mm	32 PCS	4200 rpm	Softwood, Hardwood	0611 045 321	1

Auxiliary hole 2/7/42 for Striebig/Reich machines. Auxiliary hole 2/9/46 for Felder and Italian machine manufacturers. Auxiliary hole 2/10/60 for Martin, Kölle, Altendorf and Panhans.

Cylinder saw, HSS bi-metal Longlife & Speed HSCo8

Steel/stainless steel. Extremely fast drilling speed and long service life, even on stainless steel solid materials.

Extremely fast sawing progress with minimal effort

Newly-developed tooth shape

High concentricity and side stroke accuracy

Robust base plate with more threads

Very quiet and low-vibration operation to a cutting depth of 38 mm

Combi vario toothing made from M42 bi-metal (8% cobalt)

Cutting depth	38 mm

140 mm	5-1/2 in	0632 140	1
152 mm	6 in	0632 152	1

When working with metals (except cast iron), use drilling and cutting oil. Using oil ensures a clean cut and extends the service life of the cylinder saws.

Cylinder saw, bimetal, extra long

Extra-long usable length for drilling mounting holes for roller shutter and cord ducts.

Fast and simply drilling

Combi vario toothing made from M42 bimetal (8% cobalt).

Simple and precise spot drilling

MFD-S centre drill multi-purpose drill bit with diamond-ground cemented carbide blades.

Cutting depth	90 mm
---------------	-------

Diameter (Ø)	Diameter in inches	Art. no.	P. Qty.
17 mm	11/16 in	0632 800 017	1
22 mm	7/8 in	0632 800 022	1
25 mm	1 in	0632 800 025	1

If roller shutters are subsequently installed on windows, holes must be drilled for the cord duct.

- Mini-cord (14/15 mm): dia. 17 mm
- Mini-cord with pipe insert: dia. 22 mm
- Maxi-cord (22/23 mm): dia. 25 mm

Cylinder saw adapter A2

With ejection function

- Quick and easy cutting of holes for hollow-wall device sockets
- No time-consuming „levering out“ of cut pieces
- No risk of injury when levering out cut pieces
- Very simple and easy removal of the cut piece with a single movement of the hand
- Saves costs and time

Suitable for hole-saw diameter	32 - 152 mm
Length	146 mm

Drive type	Art. no.	P. Qty.
Hexagon	0632 02 3	1
Suitable for SDS-plus	0632 02 4	1

Patented ejection function EP0994759

HSS bi-metal cylinder saw assortment

16-piece in system case. With the most popular dimensions for electricians, metal workers and plumbing work.

Number of pieces in assortment/set	16 PCS

Round file

DIN 7261, shape F

- Ensures a clean workpiece surface and facilitates good chip removal
- Boosts cutting performance at reduced power
- High-quality steel and thorough hardening ensures a long service life
- Conical tang ensures the file sits securely in the handle

1/2 inch multi-socket wrench assortment

23 pieces. One tool for all jobs: Multi-socket wrench for 5 different drives.

- Supplied in a metal box and a high-quality foam insert with clamping effect
- Multi-profile suitable for the five most common screw head drives
- Extremely high-quality multi-socket wrenches guarantee long service lives
- Surface: Chrome-plated, polished
- Drive: 1/2-inch square socket
- Tip: Bi-hexagon, multi-profile
- Version: Short

Number of pieces in assortment/set	23 PCS
Included in delivery (Lieferumfang)	19 x multi-socket wrenches, 1/2 inch, short, sizes 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24, 26, 27, 28, 30, 32, 1 x reversible ratchet, 1/2 inch, 2 x extensions 1/2 inch, 125 mm, 250 mm, 1 x cardan joint, 1/2 inch

1/4 inch lever reversible ratchet, dust-protected

Dust-protected ratchet ensuring durability, even under difficult working conditions.

- Drive: 6.3 – 1/4 inch
- Standard: DIN 3122, ISO 3315
- Reversing lever for clockwise and anti-clockwise rotation
- Geometry: Ratchet body with depressed centre for more freedom of movement

Tip size	1/4 inch
Length (L1)	136 mm
Length 2 (L2)	125 mm
Length 3 (L3)	61 mm
Width (B1)	13 mm
Width 2 (B2)	22 mm
Diameter (D1)	16 mm
Diameter 2 (D2)	21 mm
Material	Chrome-vanadium steel
Material of the grip handle	2-component plastic
Design	With 72 teeth - 5 degree angle of rotation
Surface	Chromed high-gloss satin finish
IP protection class	IP 5X

Art. no. 0712 014 03

P. Qty.: 1

1/4 inch ratchet

Rotary disc reverse

- Compact, narrow head
- Simple changeover from clockwise to anticlockwise rotation
- Chamfered square - easier removal of socket wrench inserts
- Offset ratchet body for more hand clearance
- Fine tooth rotary disc with 72 teeth; 5° angle of rotation
- Length 135 mm
- Chrome-plated, 2-component handle
- DIN 3122, ISO 3315

Tip size	1/4 inch
Length (L1)	138 mm
Ratchet diameter (D2)	24 mm
Material of the grip handle	2-component plastic
Surface	Chrome plated

Art. no. 0712 014 0

P. Qty.: 1

1/4 inch ratchet

Lever reverse

- Robust ratchet with convenient ejector
- Fast, simple changeover from clockwise to anticlockwise rotation
- Safety catch with rapid ejection
- Lowered, protected reverse lever and offset ratchet body for more hand freedom
- Coarse toothing with 48 teeth – 7.5° angle of rotation
- Length 135 mm
- Chrome-plated, 2-component handle

Tip size	1/4 inch
Length (L1)	135 mm
Material	Steel
Material of the grip handle	2-component plastic
Design	With 48 teeth
Surface	Chrome plated

DIN 3122, ISO 3315

1/4 inch bit ratchet

- Tip: For 1/4 inch hexagon head drive in accordance with DIN 3126-C 6.3 and E 6.3
- Head: Extremely compact ratchet head, fine tooth, 64 teeth
- Surface: Chrome-plated
- 2-component handle, extremely slim design, angled down 10°
- Very rugged design, max. torque of up to 40 Nm

Tip size	C 6.3 (1/4 inch)
Ratchet head height	10 mm
Length	100 mm

Art. no. 0712 014 5

P. Qty.: 1/10

1/4 inch ratchet

Lever reverse

Robust bit ratchet with convenient ejector!

Coarse toothing with 48 teeth – 7.5° angle of rotation

- Fast, simple changeover from clockwise to anti-clockwise rotation using lever
- Lowered, protected reversing lever and ratchet body with depressed centre for more hand freedom
- Low overall height compared to conventional ratchets

Tip size	1/4 inch
Ratchet head height	20 mm
Length	135 mm

Art. no. 0712 014 02

P. Qty.: 1

red dot design award

Reversible ratchet 3/8 inch

With rotary disc reverse

- Compact, narrow head
- Simple changeover from clockwise to anticlockwise rotation
- Chamfered square – easier removal of socket wrench inserts
- Offset ratchet body for more hand clearance
- Fine tooth rotary disc with 72 teeth; 5° angle of rotation
- Chrome-plated, 2-component handle
- DIN 3122, ISO 3315

Tip size	3/8 inch
Length (L1)	175 mm
Handle length	82 mm
Handle diameter (D1)	16 mm
Ratchet head height (B1)	19 mm
Ratchet diameter (D2)	30 mm

Art. no. 0712 038 0

P. Qty.: 1

3/8 inch ratchet with lever reverse

Robust ratchet with convenient ejector

- Coarse toothing with 48 teeth – 7.5° angle of rotation
- Fast, simple changeover from clockwise to anticlockwise rotation using lever
- Safety catch with rapid ejection
- Lowered, protected reverse lever and offset ratchet body for more hand clearance
- Length 175 mm
- Chrome-plated, 2-component handle
- DIN 3122, ISO 3315

red**dot** design award
honourable mention 2011

Tip size	3/8 inch
Length (L1)	175 mm
Material	Steel

Universal socket

For loosening and tightening screws and nuts

- Universal application as socket wrench insert size 7 to size 19 (1/2 inch) and size 13 to 32 (3/8 inch)
- Replaces hexagon wrenches, hexagon wrench heads and open-end spanners.
- Enormous time and space savings. Holds square and hexagon heads, TX profiles, wing nuts, hook bolts and eye screws securely with its 54 spring-loaded special pins.

Drive	3/8 inch
Drive type	Internal square
Suitable for width across flats	7-19 mm
Length (L1)	53.5 mm
Max. torque	225 Nm
Material	Steel
Surface	Chrome plated

Art. no. 0714 121 907

P. Qty.: 1

Attention: This is a universal tool may only be stressed only at the maximum torque value. The tool is not a replacement for a professional socket wrench.

3/8" socket wrench insert

Hard foam insert for 3/8 inch socket wrench assortment		1
Metal box	0955 715 3	1

1/2 inch ratchet

Rotary disc reverse

- Simple reversing of clockwise and anti-clockwise rotation
- Chamfered square - easier removal of socket wrench inserts
- Finely toothed turntable with 72 teeth, 5° angle of rotation

Tip size	1/2 inch
Material of the grip handle	2-component plastic
Number of teeth	72 PCS
Ratchet head height (B1)	26 mm
Length (L1)	250 mm

Art. no. 0712 012 0

P. Qty.: 1

Reversible ratchet 1/2 inch

Lever reverse

- Robust ratchet with convenient ejector
- Fast, simple changeover from clockwise to anticlockwise rotation
- Safety catch with rapid ejection
- Lowered, protected reverse lever and offset ratchet body for more hand freedom
- Coarse toothing with 48 teeth – 7.5° angle of rotation
- Length 250 mm
- Chrome-plated, 2-component handle

red dot design award
honourable mention 2011

Drive	1/2 inch
Length (L1)	250 mm
Material	Steel
Material of the grip handle	2-component plastic
Design	With 48 teeth
Surface	Chrome plated

Art. no. 0712 012 01

P. Qty.: 1

1/2 inch lever reversible ratchet, dust-protected

Dust-protected ratchet for a long service life even under difficult working conditions.

- Drive: 12.5 – 1/2 inch
- Standard: DIN 3122, ISO 3315
- Reversing lever for clockwise and anti-clockwise rotation
- Geometry: Ratchet body with depressed centre for more freedom of movement

Drive	1/2 inch
Length (L1)	253 mm
Length 2 (L2)	240 mm
Length 3 (L3)	115 mm
Width (B1)	19 mm
Width 2 (B2)	36 mm
Diameter (D1)	26 mm
Diameter 2 (D2)	38 mm
Material	Chrome-vanadium steel
Material of the grip handle	2-component plastic
Design	With 72 teeth - 5 degree angle of rotation
Surface	Chrome plated
IP protection class	IP 5X

Art. no. 0712 012 03

P. Qty.: 1

1/2-inch jointed-head ratchet

Swivel head rotatable by 180°

- Standard: DIN 3122, ISO 3315
- Head: 72 teeth, 5° rotating angle

Tip size	1/2 inch
Material	Chrome-vanadium steel
Surface	Chrome plated
Material of the grip handle	2-component plastic
Handle length (L3)	105 mm
Ratchet head height (B1)	24 mm
Ratchet head height with square (B2)	39 mm
Handle diameter (D1)	29 mm
Ratchet diameter (D2)	35 mm

Length (L1)	Art. no.	P. Qty.
264 mm	0715 13 90	1
402 mm	0715 13 91	1

1/2-inch jointed-head ratchet, extendable

Extendable to max. 430 mm using locking sleeve with locking device

- Standard: DIN 3122, ISO 3315
- Telescopic handle extendable to max. 430 mm
- Quick ejection with safety lock
- Flexible, rotatable ratchet head with locking device. 72 teeth with a rotating angle of 5°.

Tip size	1/2 inch
Material	Chrome-vanadium steel
Surface	Chromed high-gloss satin finish
Material of the grip handle	2-component plastic
Min./max. length (L1)	294-432 mm
Handle length (L3)	110 mm
Ratchet head height (B1)	15.5 mm
Ratchet head height with square (B2)	34 mm
Sleeve outside diameter (B3)	24 mm
Handle diameter (D1)	31 mm
Ratchet diameter (D2)	40 mm

Art. no. 0715 13 92

P. Qty.: 1

Breaker bar 1/2"

Joint can be rotated through 180° and fixed in desired position, is therefore very well-suited to tightening powerfully in different positions.

- Standard: DIN 3122, ISO 3315
- Design: Chromium-plated

Tip size	1/2 inch
Width of head (twisted) (B2)	37 mm

Length (L)	Handle diameter (A)	Width of head (B1)	Product weight (per item) (B3)	Art. no.	P. Qty.

600 mm	35 mm	20 mm	740 g	0712 130 105	1/10

1/2 inch cardan joint

With braked joint to hold the set position

- Standard: DIN 3123, ISO 3316
- Surface: Chrome-plated
- Drive: 1/2 inch square drive, ball catch groove
- Output: 1/2 inch square drive

Drive (S2)	1/2 inch
Socket wrench external diameter (D1)	25 mm
Tip size (S1)	1/2 inch
Length (L1)	70 mm
Surface	Chrome plated

Art. no. 0712 138 301

P. Qty.: 1/10

1/2" connection

- Standard: DIN 3123, ISO 3316
- Surface: Chrome-plated
- Drive: 1/2" square socket
- Tip: Square head

Drive (S2)	1/2 inch

1/2" multi-socket wrench

ONE TOOL FOR ALL JOBS. New multi-socket wrenches for 5 different drives!

Jack of all trades!

Multi-profile suitable for the five most common screw head drives

- Hexagon metric, square metric, bi-hexagon metric, hexagon imperial, outer TX
- One set covers all applications

Extremely high-quality multi-socket wrenches guarantee long service lives

Design: Chromium-plated, polished

Drive: 1/2 inch square socket

Tip: Bi-hexagon, multi-profile

Geometry: Short

Drive	1/2 inch

1/2-inch impact socket wrench insert

Hexagon, metric, short with deep hexagon socket for e.g. wheel nuts

- Fits all conventional compressed air and electric drivers
- Standard: Square drive acc. to DIN 3121
- Design: forged, burnished

Drive	1/2 inch
Drive type	Internal square
Tip type	For outer hexagon
Length (L1)	45 mm
Socket wrench external diameter 2 (D2)	30 mm
Socket wrench depth (t)	20 mm
Material	Steel
Surface	Burnished
Standards	ISO 1174 DIN 3121

Width across flats	Socket wrench external diameter (D1)	Art. no.	P. Qty.
17 mm	25 mm	0714 13 19	1
19 mm	30 mm	0714 13 20	1
22 mm	32 mm	0714 13 21	1
24 mm	34 mm	0714 13 24	1

1/2-inch impact socket wrench insert

Bi-hexagon, metric, short

- Fits all conventional compressed air and electric drivers
- Standard: Square drive acc. to DIN 3121
- Design: forged, burnished

Drive	1/2 inch
Drive type	Internal square
Tip type	Twelve-sided head
Length (L1)	38 mm
Material	Steel
Surface	Burnished
Standards	ISO 1174 DIN 3121

Width across flats	Socket wrench external diameter (D1)	Socket wrench external diameter 2 (D2)	Socket wrench depth (t)	Art. no.	P. Qty.

22 mm	32 mm	32 mm	14 mm	0714 131 922	1

1/2 inch impact socket wrench insert, power

With integrated reinforcement ring for longer service life

- Standard: DIN 3121/ISO 1174
- Drive: Hole for locking pin and groove for O-ring
- Geometry: long
- Reinforcement ring for long service life
- Replaceable plastic sleeve to protect aluminium rims
- Colour-coded socket wrenches

Drive	1/2 inch
Drive type	Internal square
Tip type	For outer hexagon
Length (L1)	86 mm
Socket wrench depth (t)	20 mm
Design	Forged
Material	Steel
Surface	Burnished
Standards	ISO 1174 DIN 3121

Width across flats	Socket wrench external diameter (D1)	Sleeve inside diameter (d2)	Sleeve outside diameter (d3)	Art. no.	P. Qty.
17 mm	25.5 mm	24 mm	26 mm	0714 134 17	1
19 mm	27.5 mm	26 mm	28 mm	0714 134 19	1
21 mm	30 mm	28 mm	30 mm	0714 134 21	1

1/2 inch impact socket wrench insert Extra long

Especially suited for deep-seated wheel nuts.

- Perfect working length
- Rotatable plastic sleeve protects the coating of the aluminium rim
- With colour guide system and size marking

POWERDRIV

Drive	1/2 inch
Tip type	Outer hexagon
Length (L1)	130 mm
Socket wrench external diameter (D1)	30 mm
Socket wrench depth (t)	35 mm
Design	Hole for retaining pin and groove for O-ring, Extra long, Metric
Material	Steel
Surface	Burnished
Standards	ISO 1174 DIN 3121

Drive type	Width across flats	Sleeve inside diameter (d2)	Sleeve outside diameter (d3)	Art. no.	P. Qty.

1/2 inch torque wrench

With push-through square drive, ratchet head (60 teeth)

- Accuracy of $\pm 3\%$ to the set value, in accordance with DIN EN ISO 6789:2003
- Simple and precise setting by turning the handle
- Switchover and/or push-through square drive
- Scaling in Nm and also in pound force per square foot
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- Anti-slip 2-component handle
- With calibration certificate

Tip size	1/2 inch
Min./max. torque measuring range	60-300 Nm
Min./max. torque measuring range (inches)	45-220 lbf.ft
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
Scale value torque	5 Nm
ISO	DIN EN ISO 6789-1:2017
Length (L1)	570 mm
Length of lever (L2)	550 mm
Ratchet head height (B1)	22 mm
Ratchet head height with square (B2)	45 mm
Handle diameter (D1)	37 mm

Art. no. 0714 71 24

P. Qty.: 1

Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and adjusted if necessary. We recommend annual calibration by our Master Service.

1/2 inch torque wrench

With push-through square drive and fine toothed ratchet head (72 teeth)

- Simple and precise setting by turning the handle
- Switchover and/or push-through square drive
- Scaling in Nm and also in pounds per square foot

Tip size	1/2 inch
Min./max. torque measuring range	20-100 Nm
Min./max. torque measuring range (inches)	15-80 lbf.ft
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
Scale value torque	1 Nm
ISO	DIN EN ISO 6789-1:2017
Length (L1)	350 mm

Length of lever (L2)	330 mm
Ratchet head height (B1)	22 mm
Ratchet head height with square (B2)	37 mm
Handle diameter (D1)	37 mm

Art. no. 0714 71 22

P. Qty.: 1

Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and adjusted if necessary. We recommend annual calibration by our Master Service.

1/2 inch torque wrench

With push-through square drive and fine toothed ratchet head (72 teeth)

- Accuracy of $\pm 3\%$ to the set value, in accordance with DIN EN ISO 6789:2003
- Simple and precise setting by turning the handle
- Switchover and/or push-through square drive
- Scaling in Nm and also in pound force per square foot
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- Anti-slip 2-component handle
- With calibration certificate

Tip size	1/2 inch
Min./max. torque measuring range	40-200 Nm
Min./max. torque measuring range (inches)	30-150 lbf.ft
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
Scale value torque	2 Nm
ISO	DIN EN ISO 6789-1:2017
Length (L1)	440 mm
Length of lever (L2)	420 mm
Ratchet head height (B1)	26 mm

Ratchet head height with square (B2)	42 mm
Handle diameter (D1)	37 mm

Art. no. 0714 71 23

P. Qty.: 1

1/4-inch torque wrench

With switchover square drive

- Accuracy of $\pm 3\%$ to the set value, to ISO 6789:2003
- Simple and precise setting by turning the handle
- With fine-toothed ratchet head (72 teeth) for working in the tightest places
- Scaling in Nm and also in pound force per square foot
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- With calibration certificate

Tip size	1/4 inch
Min./max. torque measuring range	4-20 Nm
Min./max. torque measuring range (inches)	40-180 lbf.in
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	No
Scale value torque	1 Nm
ISO	DIN EN ISO 6789-1:2017
Length (L1)	220 mm
Length of lever (L2)	205 mm
Ratchet head height (B1)	17 mm
Ratchet head height with square (B2)	25 mm
Handle diameter (D1)	40 mm

Art. no. 0714 71 20

P. Qty.: 1

- After use, relax spring and set to lowest value.
- Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and adjusted if necessary. We recommend annual calibration by our Master Service.

Torque wrench

With switchover square drive, fine-toothed ratchet head (72 teeth)

- Accuracy of $\pm 3\%$ to the set value, in accordance with DIN EN ISO 6789:2003
- Simple and precise setting by turning the handle
- Scaling in Nm and also in pound force per square foot
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- Anti-slip 2-component handle
- With calibration certificate

Continuation **Torque wrench**

Tip size	3/8 inch
Min./max. torque measuring range	20-100 Nm
Min./max. torque measuring range (inches)	15-80 lbf.ft
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
Scale value torque	1 Nm
ISO	DIN EN ISO 6789-1:2017
Length (L1)	350 mm
Length of lever (L2)	330 mm
Ratchet head height (B1)	22 mm
Ratchet head height with square (B2)	33 mm
Handle diameter (D1)	37 mm

Art. no. 0714 71 21

P. Qty.: 1

Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and adjusted if necessary. We recommend annual calibration by our Master Service.

1/4 inch torque wrench, hexagonal

- Accuracy of $\pm 6\%$ to the set value, in accordance with DIN EN ISO 6789:2003
- Adapter for 1/4 inch hexagon drive to 1/4 inch square drive
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- With calibration certificate
- Supplied in PVC storage box

Tip size	1/4 inch
Min./max. torque measuring range	1-5 Nm
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
Scale value torque	0.1 Nm
ISO	DIN EN ISO 6789-1:2017
Length	165 mm

Art. no. 0714 71 19

P. Qty.: 1

Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and be adjusted if necessary. We recommend annual calibration by our Master Service.

3/4 inch torque wrench

Switchover square drive

- Accuracy of $\pm 3\%$ to the set value, in accordance with DIN EN ISO 6789:2003
- Simple and precise setting by turning the handle
- Acoustic and tangible torque triggering prevents over-tightening of bolts
- With calibration certificate

Tip size	3/4 inch
Suitable for right-hand tightening	Yes
Suitable for left-hand tightening	Yes
ISO	DIN EN ISO 6789-1:2017

Min./max. torque measuring range	Min./max. torque measuring range (inches)	Scale value torque	Length	Head diameter	Art. no.	P. Qty.

Torque wrenches are precision tools that must be checked at regular intervals with suitable measuring equipment and adjusted if necessary. We recommend annual calibration by our Master Service.

Open-end plug tool wrench

Solves difficult installation problems - easily replaceable

- With pin detent
- Mount: 16 mm
- Material: 31CrV3

Width across flats	Art. no.	P. Qty.
13 mm	0714 71 313	1
17 mm	0714 71 317	1
19 mm	0714 71 319	1
24 mm	0714 71 324	1
30 mm	0714 71 330	1

Torque wrench

For plug-in tool

- Ideal for inaccessible screw joints in tight places
- Tool quick-change system with pin locking mechanism guarantees flexible and swift operation.
- Accuracy of $\pm 3\%$ to the set value, in accordance with DIN EN ISO 6789:2003.
- Simple and precise setting by turning the handle.
- Mount: $\varnothing 16$ mm
- Scaling in Nm and also in pound force per square foot
- Acoustic and tangible torque triggering prevents over-tightening of bolts.
- Anti-slip 2-component handle
- After use, relax spring and set to lowest value.
- With calibration certificate

Tip size	16 mm
ISO	DIN EN ISO 6789-1:2017
Wrench-drive diameter (B1)	16 mm
Handle diameter (D1)	37 mm

Tile cutter Professional

Robust tile cutter with outstanding cutting quality for trade professionals

Steel base plate

Highly robust for long service life

Spring-loaded tile supports

Prevents tiles shattering during breaking

Roller-guided cutting and scoring lever

Precision roller guidance, high cutting accuracy

Tungsten carbide cutting wheel

High cutting quality and long service life

Length x width	8651 x 300 mm
Cutting length	640 mm

Art. no. 0714 610 640

P. Qty.: 1

Tile cutting pliers

High-quality tile cutter for cutting even extremely narrow sections of tiles and stoneware

- Simple adjustment of the respective tile thickness at the touch of a button
- Extremely high breaking force due to 10-fold power transmission
- Plastic support jaws prevent damage to the tile surface, also ideal for long and thick tiles

Length	250 mm
--------	--------

Art. no. 0715 02 910

P. Qty.: 1

Tile cutter

Cutting length 610 mm

- Robust and height-adjustable guide rail
- Breakers above and below
- Rubber cover on underside of guide rail
- Embossed number scale and angle stop
- Cutting wheel with titanium nitride coating
- Grip in wooden board
- Recess for cutting wheel
- Includes angle cutting guide

Cutting length	610 mm
----------------	--------

Art. no. 0714 610

P. Qty.: 1

Tile-washing bucket system

For effective pre-cleaning and washing of freshly grouted tiled surfaces, 23 litres

- Optimum cleaning results and significant savings of time and effort
- Systematic right/left emptying of the bucket content
- Bucket quick to clean
- Float with hydro sponge and ergonomic 2-component soft handle with thumb rest

Material	PP - Polypropylene
Colour	Black
Contents	23 l
Included in delivery (Lieferumfang)	High-quality tile-washing bucket, 23 litre

Art. no. 0695 942 015

P. Qty.: 1

Mixing bucket

High-quality 30-litre bucket made of transparent polypropylene for mixing various building materials

- Litre scale printed on both sides
- 2 recessed handles for easy transport

Colour	White
Contents	30 l
Height	43 cm

Art. no. 0695 942 990

P. Qty.: 1

Tile levelling system set

201 pieces. Complete set for easy and precise laying of large-sized tiles from a joint width of 1.2 mm.

- Suitable for tile thicknesses of up to 20 mm. Precise alignment of the tiles avoids countersinking, ensures a high degree of uniformity and saves time.
- The tension plate breaks off beneath the tile, preventing cracking due to plastic parts in the joint material.
- The large surface area of the cross piece ensures uniform pressure distribution during the clamping process, thus preventing damage to the tile surface.

Art. no. 0714 610 200

P. Qty.: 1

Tile levelling rod

For levelling and setting out the tension plates of the tile levelling system.

- High traction
- Dial for setting the desired application (clamping and removal)
- Record grid in the clevis made of steel
- Pliers housing made of high-quality plastic

Length	210 mm
Width	28 mm

Art. no. 0714 610 210

P. Qty.: 1

The pliers are required together with the tile levelling system set for laying large-sized tiles.

Tile levelling crossbeam

For levelling tiles together with the tile levelling system.

- The side wings generate a constant pressure along the joint, in order to guarantee a perfect result up to the curing of the adhesive.
- The crossbeam can be unclamped under tension by applying light pressure to the side in order to clean the joints to clean or correct the joint appearance.

Length	44 mm
Height	33 mm
Width	95 mm

Art. no. 0714 610 211

P. Qty.: 100

Can only be used in combination with the tile levelling system.

Tile levelling plate

High-quality clamping plate for levelling large-sized tiles in combination with the tile levelling system.

- High-quality plastic with extremely high tensile strength

Length	81 mm
--------	-------

Art. no. 0714 610 212

P. Qty.: 500

Can only be used in combination with the tile levelling system.

Float, large-pored

Sponge rubber cover for distributing compounds

Drainage channel

Length x width	280 x 140 mm
----------------	--------------

Art. no. 0695 942 25

P. Qty.: 1

Float, fine-pored

Sponge rubber cover, for a light, sandy structure

Drainage channel

Length x width	280 x 140 mm
----------------	--------------

Art. no. 0695 942 26

P. Qty.: 1

Sponge float

Hydro sponge

- Good absorption of water
- High abrasion resistance
- Excellent cleaning effect
- Drainage channel
- Cover thickness 30 mm

Length x width	280 x 140 mm
----------------	--------------

Art. no. 0695 942 23

P. Qty.: 1

Polyurethane float

- High abrasion resistance
- Flattened handle shape for more comfortable working

Length x width	Art. no.	P. Qty.
240 x 120 mm	0695 942 31	5
280 x 140 mm	0695 942 32	5
320 x 180 mm	0695 942 33	5
420 x 220 mm	0993 420 220	1

Screw handle spatula

Ideal for filling plasterboard joints. The bit with the Philips drive is suitable for quick screwing.

- Bit on handle
- Rustproof

Width	150 mm
-------	--------

Art. no. 0695 940 895

P. Qty.: 1

Japanese spatula, spring steel

For applying and smoothing filler and plaster over smaller areas.

- Extra-flexible blade in spring steel
- Plastic back

Width (b)	Art. no.	P. Qty.
50 mm	0695 940 915	10
80 mm	0695 940 918	10
100 mm	0695 940 911	10
120 mm	0695 940 912	10

Stainless steel Japanese spatula set

4 pcs: In sizes 1 x 50, 80, 100 and 120 mm

- Blade in rustproof stainless steel
- Acid-resistant, high-quality plastic back

Art. no. 0695 940 930

P. Qty.: 1

Contents for art. no. 0695 940 930		
Designation	Art. no.	Quantity
Japanese spatula, stainless steel 50 mm	0695 940 931	1
Japanese spatula, stainless steel 80 mm	0695 940 932	1

Adhesive spreading spatula R2

With replaceable, stainless toothed mounting rail

- 2-component handle and shaft support Ø 28 mm
- Anti-twist metal spacer pins
- 2 plastic knurled screws to secure the spacer pins

Width	560 mm
Serration type	R2

Art. no. 0695 946 010

P. Qty.: 1

Painters' spatula

Made of flexible, high-quality steel (conically ground)

Material of the blade	Steel
Material of the grip handle	Wood

Width (b)	Art. no.	P. Qty.
20 mm	0695 940 902	1

80 mm	0695 940 908	1

Grinding rasp

The basic body is made of high-quality, wear-resistant steel

- Ergonomically shaped, 2-component soft plastic handle
- Particularly wear-resistant, high-durability rustproof steel
- Sloped front end for working in hard-to-reach places
- Base with 5 x 10/5 x 12 sharp-edged rows of teeth

Material	Steel
Width	140 mm

Length	Art. no.	P. Qty.
280 mm	0695 942 551	1
330 mm	0695 942 552	1

Smoothing trowel

Steel trowel with wooden handle

- Optimum attachment of blade to support through four-point welding
- Handle in waxed, natural-coloured beech wood

Material of the grip handle	Wood
Sheet width	130 mm
Sheet length	280 mm
Material thickness	0.7 mm
Material of the blade	Steel

Art. no. 5771 000 001

P. Qty.: 1/10

2-C smoothing trowel

Rust-proof trowel with 2-C handle

- Optimum attachment of blade to support through four-point welding
- Handle made from two-component plastic for optimum power transmission to trowel blade

Material of the grip handle	2-component plastic
Sheet width	130 mm
Sheet length	280 mm
Material thickness	0.7 mm
Material of the blade	Stainless steel

Art. no. 5771 011 001

P. Qty.: 1/10

Smoothing trowel

Rust-proof trowel with wooden handle

- Optimum attachment of blade to support through four-point welding
- Handle in waxed, natural-coloured beech wood

Material of the grip handle	Wood
Sheet width	130 mm
Sheet length	280 mm
Material thickness	0.7 mm
Material of the blade	Stainless steel

Art. no. 5771 001 001

P. Qty.: 1/10

Toothed trowel

Rust-proof stainless steel trowel with wooden handle

- Optimum attachment of blade to support through four-point welding
- Handle in waxed, natural-coloured beech wood

Material of the blade	Stainless steel
Sheet width	130 mm
Sheet length	280 mm
Material thickness	0.7 mm
Material of the grip handle	Wood

Serration width	Art. no.	P. Qty.
4 mm	5771 001 101	1/10
6 mm	5771 001 102	1/10
8 mm	5771 001 103	1/10
10 mm	5771 001 104	1/10

2-component toothed trowel

Rust-proof stainless steel trowel with 2-C handle

- Optimum attachment of blade to support through four-point welding
- Handle made from two-component plastic for very good transfer of force to trowel blade

Material of the blade	Stainless steel
Sheet width	130 mm
Sheet length	280 mm
Material thickness	0.7 mm
Material of the grip handle	2-component plastic

Continuation **2-component toothed trowel**

Serration width	Art. no.	P. Qty.
6 mm	5771 011 100	1/10
8 mm	5771 011 101	1/10
10 mm	5771 011 102	1/10
12 mm	5771 011 104	1
15 mm	5771 011 105	1

Adhesive trowel, sand-lime brick

Steel trowel with wooden handle

- With bucket hook
- Painted wooden handle

Sheet length	330 mm
Material of the blade	Steel

Sheet width	Art. no.	P. Qty.
115 mm	0993 943 110	1
175 mm	0993 943 111	1
240 mm	0993 943 112	1

Adhesive trowel, aerated concrete

Steel trowel with wooden handle

- With bucket hook
- Painted wooden handle

Sheet length	350 mm
Material of the blade	Steel

Sheet width	Art. no.	P. Qty.
115 mm	0993 943 100	1
175 mm	0993 943 101	1
240 mm	0993 943 102	1

365 mm	0993 943 104	1

Roofers' trowel Cat tongue shape

Rust-proof trowel with wooden handle

- Handle in waxed, natural-coloured beech wood
- Stainless-steel blade and tang

Material thickness	0.8 mm
--------------------	--------

Sheet length	Sheet width	Art. no.	P. Qty.
140 mm	50 mm	5771 001 204	1/10
160 mm	60 mm	5771 001 206	1/10

Bricklayers' trowel

Rust-proof trowel with wooden handle

- Stainless steel blade and tang
- Handle in waxed, natural-coloured beech wood

Material of the blade	Stainless steel
Material thickness	1 mm

Sheet length	Blade shape	Art. no.	P. Qty.
160 mm	S-neck	5771 001 306	1/10
180 mm	G-neck	5771 001 318	1/10
180 mm	S-neck	5771 001 308	1/10

Bricklayers' trowel, forged

Suitable even for the most demanding tasks, since handle and blade are forged from one piece.

- The conical trowel blade remains elastic at the front despite its very solid design.
- Handle made from painted beech

Blade shape	S-neck
-------------	--------

Sheet length	Art. no.	P. Qty.
160 mm	0695 943 100	1
180 mm	0695 943 101	1

Bricklayers' trowel, welded

High-quality brick trowel with welded blade

- The conical trowel blade remains elastic at the front despite its very solid design.
- Handle made from painted beech

Sheet length	180 mm
--------------	--------

Blade shape	Art. no.	P. Qty.
G-neck	0695 943 111	1
S-neck	0695 943 110	1

Plastering trowel Berne type

Rust-proof trowel with wooden handle

- Stainless steel blade and tang
- Handle in waxed, natural-coloured beech wood

Material of the blade	Stainless steel
Material thickness	0.8 mm

Continuation **Plastering trowel Berne type**

Sheet length	Art. no.	P. Qty.
120 mm	5771 001 402	1/10
140 mm	5771 001 403	1/10
160 mm	5771 001 406	1/10

Plastering trowel

Rust-proof spatula with wooden handle

- Stainless steel blade and tang
- Handle in waxed, natural-coloured beech wood

Material of the blade	Stainless steel
Material thickness	0.8 mm

Sheet width	Art. no.	P. Qty.
40 mm	5771 101 204	1/10
60 mm	5771 101 206	1/10

Street rake

Lightweight design without shaft

Number of tines	14 PCS
Length	360 mm

Art. no. 0993 943 011

P. Qty.: 1

Industrial hand brush Arenga/Elaston

For coarse and fine outdoor dirt.

- Mixture binds the dust
- Wood coated with clear varnish
- Durable
- Wet strength

Material of the handle	Wood
Material of the bristles	Mixed bristle
Length (L)	28 cm
Width (B)	5 cm
Length of bristles (H)	8 cm
Working length (A)	16 cm

Art. no. 0695 944 415

P. Qty.: 1

Frankfurt shovel

Curved cutting edges

- Hardened
- Size 5 (300 x 270)
- Red powder-coated
- Without handle

Material	Steel
Colour	Red
Size	5
Width	270 mm

Art. no. 0695 943 002

P. Qty.: 5

Holstein sand shovel

Without handle

- Hardened
- Size 2 (270 x 250)
- Red powder-coated

Material	Steel
Size	2
Width	250 mm
Type description	Socket 3/4

Art. no. 0695 943 003

P. Qty.: 5

Holstein sand shovel

With 1/2 socket, without shaft

Material	Steel
Surface	Powder-coated
Colour	Red
Size	0
Width	230 mm

Type description	Art. no.	P. Qty.
	0993 943 006	1
Socket 1/2	0993 943 003	1

Concrete spreader

Provides a nice smooth surface for simple and uncomplicated handling

- Aluminium plate
- Dimensions: 980 x 300 mm
- Without handle
- Socket 32 mm

Width	300 mm
Length	980 mm

Art. no. 0695 943 020

P. Qty.: 1

Concrete spreader

- Hollow aluminium profile
- Closed at both sides
- Without handle
- Dimensions: 1000 x 100 x 25 mm
- Socket 32 mm

Length	1000 mm
Height	25 mm

Art. no. 0695 943 021

P. Qty.: 1

Tar rake handle

For concrete spreader, aluminium/rubber squeegee

- Material: Ramin
- Socket 32

Length	1800 mm
Diameter (Ø)	32 mm

Art. no. 0715 735 001

P. Qty.: 1

Aluminium tar spreader

- Without handle
- Socket 36 mm

Continuation **Aluminium tar spreader**

Design	Length	Art. no.	P. Qty.
Hollow profile	700 mm	0695 943 040	1
Smooth blade	600 mm	0695 943 041	1
Smooth blade	800 mm	0695 943 042	1

Builders' spade with T handle

With shaft and tread

- Hardened blade
- Polished
- 285 x 185/180 mm

Length	285 mm
--------	--------

Art. no. 0695 943 030

P. Qty.: 1

Scraper

for removing adhesive or mortar residue.

- Blade thickness 1 mm
- Socket Ø 32 mm

Material thickness	1 mm
--------------------	------

Width	Art. no.	P. Qty.
150 mm	0695 943 056	1
300 mm	0695 943 057	1
500 mm	0695 943 058	1

Scraper handle

Diameter (Ø)	32 mm
Length	1100 mm
Material	Wood

Art. no. 0715 735 013

P. Qty.: 1

Snow shovel

Wooden snow shovel with steel edgeThe snow shovel is made of wood and has a steel edge.

- Including handle
- Wooden shovel with steel edge

Material	Wood
Material of the handle	Wood
Width	350 mm
Length	500 mm

Art. no. 0993 943 1

P. Qty.: 1

Concrete scraper

Carbide reversible tips and blade

Length	1300 mm
Width	100 mm

Art. no. 0993 695 130

P. Qty.: 1

Light metal shovel

Protective steel edge

Length	380 mm
Width	380 mm
Size	9

Art. no. 0695 943 71

P. Qty.: 1

Shovel handle

Sawn to fibre orientation

- Wood moisture in accordance with DIN 20151

Length	1300 mm
Diameter (Ø)	40 mm
Material of the handle	Ash

Art. no. 0715 735 000

P. Qty.: 1/10

Street broom, Elaston

For coarse dirt outdoors

- Flat wood with handle hole
- Water-resistant

Material of the bristles	Elaston
Width	12 cm

Length	Art. no.	P. Qty.
40 cm	0695 943 963	1
50 cm	0695 943 964	1
60 cm	0695 943 969	1

Outdoor broom

For stubborn dirt outdoors.

- Wood body with scrape plate
- Extremely durable and wet strength
- With highly robust metal shaft holder
- Centre row consisting of steel wire

Length	40 cm
Material of the bristles	Mixed bristle
Width	10 cm

Art. no. 0695 944 421

P. Qty.: 1

Broom

For coarse and fine dust and dirt outdoors.

- Wet strength
- With highly robust metal shaft holder

Material of the bristles	Bahia/elaston
Width	10 cm

Length	Art. no.	P. Qty.
40 cm	0695 944 405	1
60 cm	0695 944 406	1

Street broom, Piassava

For coarse dust and dirt. Also suitable for sponging in.

- Flat wood with handle hole
- Very robust natural fibres

Length	40 cm
Material of the bristles	Piassava
Width	70 mm

Art. no. 0695 943 966

P. Qty.: 1

Industrial broom, Arenga

For fine and coarse dirt outdoors

- Wooden saddle with handle hole
- Water-resistant

Material	Wood
Material of the bristles	Arenga
Width	10 cm

Length	Art. no.	P. Qty.
40 cm	0695 943 961	1
60 cm	0695 943 962	1

Industrial broom, coir

For fine dust indoors

- Coir bristles
- Wooden saddle with handle hole

Material	Wood
Material of the bristles	Coconut

Length	Width	Art. no.	P. Qty.
40 cm	10.5 cm	0695 943 965	1
60 cm	9.5 cm	0695 943 972	1

Not water-resistant

Industrial broom

For fine floors

- Fine quality mixture
- Wooden saddle with handle hole

Material	Wood
Material of the bristles	Mixed bristle
Width	9 cm

Length	Art. no.	P. Qty.
40 cm	0695 943 967	1
60 cm	0695 943 968	1

Not water-resistant

Elaston industrial broom

For coarse dust and dirt, can be used both wet and dry.

- With highly robust metal shaft holder
- Wet strength

Material	Wood
Material of the bristles	Elaston
Width	10 cm

Length	Art. no.	P. Qty.
40 cm	0695 944 400	1
60 cm	0695 944 401	1
80 cm	0695 944 402	1
100 cm	0695 944 403	1

Industrial broom with mixed bristles

For fine, dry dust and dirt indoors.

- Flat wood
- With highly robust metal shaft holder

Material	Wood
Material of the bristles	Mixed bristle
Width	10 cm

Length	Art. no.	P. Qty.
80 cm	0695 944 412	1
100 cm	0695 944 413	1

Coco industrial broom

For coarse, fine and dry dirt.

- Flat wood
- Not wet strength

Material	Wood
Material of the bristles	Coconut
Width	10 cm

Length	Art. no.	P. Qty.
80 cm	0695 944 418	1
100 cm	0695 944 419	1

Rubber wiper

Water can be quickly and completely removed from a flat surface

- Metal body
- Double cellular rubber strips
- For broom handles 24 mm in diameter

Material	Metal/rubber
----------	--------------

Length	Product weight (per item)	Art. no.	P. Qty.
45 cm	188 g	0695 943 32	1
60 cm	257 g	0695 943 33	1

Cylindrical wooden handle

Cylindrical for brooms with metal handle holder

- Cleanly ground
- Round head

Colour	Natural
Material of the handle	Wood
Length	140 cm
Diameter	23.5 mm

Art. no. 0715 735 021

P. Qty.: 1

Wooden shaft, conical

With ground cone and rounded handle end

Colour	Natural
Material of the handle	Wood

Length	Diameter	Art. no.	P. Qty.
140 cm	28 mm	0715 735 017	1
160 cm	26 mm	0715 735 034	1
160 cm	28 mm	0715 735 033	1
180 cm	28 mm	0715 735 032	1

Dustpan

Robust metal dustpan

- With wooden handle
- Dustpan painted black

Material	Metal
Length	430 mm
Working length	230 mm
Width	220 mm

Art. no. 0695 943 971

P. Qty.: 1

Dustpans

Solid, robust dustpan

FDA-compliant raw materials

- Also suitable for food use
- Halal-compliant

Hygienic design for easy cleaning and maintenance

- Rounded corners simplify cleaning
- Dishwasher-safe (to max. 93 °C)
- Can be sterilised in an autoclave (max. 121 °C)

Phthalate-free

Material	PP - Polypropylene
Length	330 mm
Width	295 mm
Height	100 mm
Min./max. temperature conditions	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 720	1
Green	0891 350 722	1
Red	0891 350 721	1
White	0891 350 723	1
Yellow	0891 350 724	1

Please consider the legal instruction at the beginning of this chapter.

Hand brush Coir

For fine dust indoors

Material of the handle	Wood
Material of the bristles	Coconut
Width (B)	40 mm
Length of bristles (H)	70 mm
Working length (A)	160 mm

Length (L)	Art. no.	P. Qty.
280 mm	0695 943 970	1
430 mm	0695 943 973	5

Not water-resistant

Bricklayer cord, polyethylene

Rot, dirt and moisture-resistant polyethylene bricklayer cord

- UV stabilised

Length	Colour	Diameter (Ø)	Max. loading weight	Max. temperature resistance	Art. no.	P. Qty.
50 m	Green	1 mm	9 kg	70 °C	0713 70 062	1/12
50 m	Green	1.7 mm	15 kg	70 °C	0713 70 063	1/12
50 m	Green	2 mm	35 kg	70 °C	0713 70 064	1/6
100 m	Yellow	2 mm	50 kg		0713 75 2	1

Only for use as a guide line! Not suitable for continuous strain.

Bricklayers' line, polypropylene

Flexible polypropylene bricklayers' line

Light-stabilised

Max. temperature resistance	80 °C
Material	PP - Polypropylene

Length	Colour	Diameter (Ø)	Max. loading weight	Art. no.	P. Qty.
50 m	Red, White	1.7 mm	40 kg	0713 70 065	1/6
50 m	Red, White	2 mm	60 kg	0713 70 066	1/6

100 m	White	3 mm	120 kg	0713 70 068	1
100 m	White	5 mm	400 kg	0713 70 069	1

Only for use as a guide line! Not suitable for continuous strain.

Bricklayer cord, polypropylene, fluorescent

Highly visible, flexible bricklayer cord made of polypropylene

- UV stabilised

Length	100 m
Diameter (Ø)	2 mm
Max. loading weight	60 kg
Max. temperature resistance	80 °C
Material	PP - Polypropylene

Colour	Art. no.	P. Qty.
Pink fluorescent	0713 70 078	1/6
Yellow fluorescent	0713 70 077	1/6

Only for use as a guide line! Not suitable for continuous strain.

Radiator paintbrush Professional

For solvent-based lacquer and paint systems

- Strong mixture of high-quality, pure, black china and polyester bristles
- Does not swell in water
- Good absorption and application of paint
- Good finish
- Tin ferrule
- Unpainted wooden handle

Material of the bristles	Synthetic
Colour of bristle	Black
Material of the handle	Wood
Material ferrule	Tinplate
Thickness	9 mm

Length of bristles	Width	Art. no.	P. Qty.
49 mm	35 mm	0693 005 15	1/10
49 mm	50 mm	0693 005 20	1/10
58 mm	60 mm	0693 005 25	1/10

Radiator paintbrush Professional

For solvent-based lacquer and paint systems

- Strong mixture of high-quality, pure, light-coloured china and polyester bristles
- Does not swell in water
- Good absorption and application of paint
- Good finish
- Tin ferrule
- Unpainted wooden handle

Material of the bristles	Artificial fibre bristle
Colour of bristle	Natural beige (natural bristles)
Material of the handle	Wood
Material ferrule	Tinplate
Length of bristles	49 mm

Internal diameter	15 mm

Width	Art. no.	P. Qty.
10 cm	0693 010 161	10/100
15 cm	0693 010 162	10/100

Economic small roller

“Standard fine” foam roller

- For simple painting tasks

Width	10 cm
Outer diameter	35 mm
Curve	Straight on both sides
Internal diameter	10 mm

Art. no. 0693 011 4

P. Qty.: 10

Small radiator roller Professional

Hard-wearing cover in high-quality polyamide

- Low lint, no felting
- Good absorption and application of paint
- Solvent-resistant

Outer diameter	39 mm
Internal diameter	15 mm

Width	Art. no.	P. Qty.
10 cm	0693 011 1	10
15 cm	0693 011 11	10

Professional paint roller, small

- 12 mm pile height
- Shape retaining
- Fibres have good restoration properties
- Low lint, no felting
- Good absorption and application of paint
- Solvent-resistant
- Long service life
- Even coating result

Width	12 cm
Roller pile height	12 mm
Outer diameter	54 mm
Internal diameter	30 mm

Art. no. 0693 011 2

P. Qty.: 1/20

Glazing and sealing roller

Hard-wearing cover in very high-quality textured non-woven polyamide

- 7 mm pile
- Shape retaining
- Low lint, no felting
- Excellent absorption and application of paint
- Solvent-resistant
- Extremely long service life
- First-class, streak-free finish

Outer diameter	60 mm
----------------	-------

Width	Art. no.	P. Qty.
18 cm	0693 010 186	1/10
25 cm	0693 010 187	1/10

Small paint roller

Hard-wearing cover in very high-quality textured non-woven polyamide

- 7 mm pile
- Shape retaining
- Low lint, no felting
- Excellent absorption and application of paint
- Solvent-resistant
- Extremely long service life
- First-class, streak-free finish

Width	10 cm
-------	-------

Outer diameter	Art. no.	P. Qty.
15 mm	0693 010 189	10/100
32 mm	0693 010 188	10/40

Glazing and sealing roller

Excellent quality cover in pure microfibre

- Extremely absorbent
- Unpadded
- 9 mm pile
- Low lint
- Very low splatter/drip
- Excellent absorption and application of paint
- Solvent-resistant
- First-class, streak-free finish

Width	250 mm
Outer diameter	75 mm
Internal diameter	57 mm

Art. no. 0693 011 511

P. Qty.: 1/10

Small glazing roller

Excellent quality cover in pure microfibre

- Extremely absorbent
- 9 mm pile
- Low lint
- Very low splatter/drip
- Excellent absorption and application of paint
- Solvent-resistant
- First-class, streak-free finish

Width	Outer diameter	Internal diameter	Art. no.	P. Qty.
10 mm	33 mm	15 mm	0693 011 518	10/100
100 mm	50 mm	32 mm	0693 011 516	10/40

Paint tray

Suitable for rollers up to 15 cm wide

- Made from „Hostalen“ plastic
- Suitable for rollers up to 15 cm wide
- Solvent-resistant, unbreakable, stackable

Length x width x height	310 x 190 x 60 mm
-------------------------	-------------------

Art. no. 0693 012 5

P. Qty.: 1

Glazing and sealing roller, microfibre polyester

Cover in very high-quality, highly compressed microfibre polyester mix

- 5 mm pile
- Low lint
- No air bubbles form during rolling
- Excellent absorption and application of paint
- Solvent-resistant
- Extremely long service life
- First-class, streak-free finish

Outer diameter	56 mm
----------------	-------

Width	Art. no.	P. Qty.
18 cm	0693 011 500	1/10
25 cm	0693 011 501	1/10

Small paint roller

Cover in very high-quality, highly compressed microfibre polyester mix

- 5 mm pile
- Low lint
- No air bubbles form during rolling
- Excellent absorption and application of paint
- Solvent-resistant
- Extremely long service life
- First-class, streak-free finish

Width	Outer diameter	Art. no.	P. Qty.
10 cm	25 mm	0693 011 503	10/100
11 cm	42 mm	0693 011 502	10/40

Foam roller

Innovative surface structure for high-quality top coats

- MicroCrater
- No air bubbles form during rolling
- Outstanding absorption and application of paint
- Excellent rolling properties
- Spreads paint evenly
- One tool for applying and smoothing finishing
- Excellent quality top coat

Width	Outer diameter	Curve	Internal diameter	Art. no.	P. Qty.
5.4 cm	35 mm	Straight on both sides	15 mm	0693 011 403	10/100
10 cm	35 mm	Round on both sides	15 mm	0693 011 401	10/50

10 cm	50 mm	Round on the frame side	30 mm	0693 011 402	10/50

Professional paint roller

Hard-wearing cover in high-quality polyamide, unpadded, 20 mm pile

- Shape retaining
- Fibres have excellent reflufling properties
- Low lint, no felting
- Excellent absorption and application of paint
- Solvent-resistant
- Long service life
- Even finish

Roller pile height	20 mm
Outer diameter	85 mm
Internal diameter	48 mm

Width	Art. no.	P. Qty.
18 cm	0693 010 5	1
25 cm	0693 010 51	1

Universal roller

Hard-wearing cover in high-quality polyamide, padded, 20 mm pile

- 20 mm pile height
- Shape retaining
- Fibres have good restoration properties
- Low lint, no felting
- Good absorption and application of paint
- Solvent-resistant
- Long service life
- Even coating result

Material	Polyamide cotton
Width	270 mm
Roller pile height	20 mm
Outer diameter	80 mm
Core diameter	41 mm

Art. no. 0693 010 2

P. Qty.: 1

Telescopic rod with safety device

High-quality telescopic extension rod with locking plug for safe and comfortable work with slip-in brackets.

- Linch pin supplied for secure working
- Thick-walled aluminium pipe for high strength
- Cone with additional rivets provides high retention forces
- Ergonomic plastic handle

Min. length	Max. length	Art. no.	P. Qty.
50 cm	75 cm	0693 012 235	1
80 cm	130 cm	0693 012 236	1
115 cm	200 cm	0693 012 237	1

Professional paint roller Filament yarn (Kanekaron), Glattfilt

Hard-wearing cover in curly filament yarn (Glattfilt), 5 mm pile, low lint

- 5 mm pile height
- Low lint
- Good absorption and application of paint
- Long service life
- Even coating result

Roller pile height	5 mm
--------------------	------

Width	Outer diameter	Internal diameter	Art. no.	P. Qty.
10 cm	23 mm	15 mm	0693 011 3	10
12 cm	54 mm	30 mm	0693 011 31	1/20

Professional paint roller Lambskin

High-quality, select lambskin, approx. 20 mm pile, low lint

- Low splatter
- Good absorption and application of paint
- Good coverage properties
- Streak-free finish

Roller pile height	22 mm
Outer diameter	90 mm
Internal diameter	50 mm

Width	Art. no.	P. Qty.
18 cm	0693 010 4	1
25 cm	0693 010 41	1

Lambskin is a natural product and therefore very high-maintenance. Not suitable for fat-dissolving, alkaline materials

Small roller Professional

“Super fine” foam roller for high-quality top coats (smooth finishing)

- Good rolling properties
- Even paint spread
- Not solvent-resistant

Curve	Round on the frame side
Internal diameter	10 mm

Continuation **Small roller Professional**

Width	Outer diameter	Art. no.	P. Qty.
10 cm	35 mm	0693 011 41	10
15 cm	40 mm	0693 011 42	10

Economic paint roller

Ideal for applying polyester and epoxy resins and for industrial coatings.

- Textured polyamide
- Solvent-resistant
- Extremely hard-wearing

Roller pile height	14 mm
Outer diameter	70 mm
Internal diameter	48 mm

Width	Art. no.	P. Qty.
18 cm	0693 010 8	1
25 cm	0693 010 81	1

Glazing and sealing roller

High-quality paint roller with excellent surface finish for glazes and seals.

- Lint-free and minimal spraying
- No streaking
- Excellent absorption and application of paint

Roller pile height	11 mm
--------------------	-------

Width	Outer diameter	Internal diameter	Art. no.	P. Qty.
400 mm	65 mm	44 mm	0693 010 070	1
400 mm	80 mm	55 mm	0693 010 072	1
500 mm	65 mm	44 mm	0693 010 071	1

Paint roller, nylon

High-quality, solvent-resistant coating and sealing roller.

- Long service life and minimal spraying
- No streaking
- Excellent absorption and application of paint

Outer diameter	70 mm
Roller pile height	14 mm

Width	Internal diameter	Art. no.	P. Qty.
400 mm	44 mm	0693 010 075	1
500 mm	55 mm	0693 010 076	1

Paint roller, continuous filament

Lint-free paint roller with continuous filament for high coverage and even application of paint, especially for surfaces exposed to streaks of light.

- Long service life and minimal spraying
- No streaking

Width	250 mm
Roller pile height	18 mm

Outer diameter	Internal diameter	Art. no.	P. Qty.
80 mm	61 mm	0693 010 080	1
90 mm	70 mm	0693 010 081	1

Paint roller, Economic

With Ø 6 mm slip-in bracket

- Polyester (vestan)
- 18 mm pile
- Extra fluffy and absorbent: Good absorption and application of paint

Wire diameter	6 mm
Length	295 mm

Max. width of roller	Width	Art. no.	P. Qty.
180 mm	180 mm	0693 010 7	1
270 mm	250 mm	0693 010 71	1

U-bracket, adjustable

Adjustable U-bracket for use with painting and sealing rollers with a roll width of 40–60 cm.

- Can be combined with a telescopic rod
- Zinc-plated steel bracket for a long life

Max. width of roller	60 cm
Wire diameter	8 mm
Width	425 mm
Length	310 mm

Art. no. 0693 012 115

P. Qty.: 1

Slip-in bracket, zinc-plated

High-quality slip-in bracket with zinc-plated steel bracket for all rollers with a hole of 6 mm or 8 mm.

- Can be combined with a telescopic rod
- Ergonomic, high-quality plastic handle

Max. width of roller	Wire diameter	Width	Length	Art. no.	P. Qty.
10 cm	6 mm	100 mm	285 mm	0693 012 191	1
27 cm	8 mm	250 mm	290 mm	0693 012 190	1

Construction and roofing roller

- 13 mm pile height
- Ideal for most construction and roofing applications
- Low lint
- Excellent absorption and application of paint
- Solvent-resistant

Width	25 cm
Outer diameter	73 mm
Internal diameter	47 mm

Art. no. 0693 011 61

P. Qty.: 1

Push-fit roller frame Economic

Suitable for all rollers with snap-in closure

- Zinc-plated round steel
- Hollow plastic handle (average handle shape), permanently attached

Max. width of roller	Wire diameter	Width	Length	Art. no.	P. Qty.
10 cm	6 mm			0693 012 0	1
15 cm	6 mm	110 mm	270 mm	0693 012 12	1
15 cm	6 mm	110 mm	420 mm	0693 012 13	1

27 cm	8 mm	180 mm	290 mm	0693 012 11	1

Paint grid

Galvanised, corrugated metal wire

Extremely sturdy design

Double hook

Suitable for all common container sizes

Material	Steel
----------	-------

Width	30 cm
Length	26 cm

Art. no. 0693 012 3

P. Qty.: 1

Binding wire rolls

In bucket

Wire diameter	1.4 mm
Material	Steel
Surface	Plain
Weight of content	20 kg
Container	Bucket

Art. no. 0477 140 001

P. Qty.: 1

Binding wire rolls

Contents: 20 kg

- Wire thickness: 1.4 mm
- Galvanised
- In bucket

Wire diameter	1.4 mm
Material	Steel
Surface	Zinc plated
Weight of content	20 kg

Art. no. 0993 477 001

P. Qty.: 1

Binding wire loop Double-twisted

With much higher strength

- Packed in plastic bags

Diameter	1 mm
Width	14 mm
Surface	Copper plated
Material	Iron

Length	Art. no.	P. Qty.
100 mm	0509 401 100	1000/15000
120 mm	0509 401 120	1000/15000

Round	90 l	250 kg	628 mm	385 mm	0993 997 027	1

Multi-purpose tray

Plastic tray for universal use

- Fits under almost any vehicle
- Stackable
- Recess at the edge to pour out liquid in a controlled way

Colour	Black
--------	-------

Volumetric capacity	External length	External width	External height	Material	Art. no.	P. Qty.
18 l	56 cm	42 cm	8 cm	PE - Polyethylene	0824 010 068	1
50 l	88 cm	60 cm	10 cm	PP - Polypropylene	0824 010 069	1

The tray with 50 l holding capacity is also suitable for collecting oil in accordance with DIN 16901 and is resistant to acids.

Drainage and protective membrane for structural sealing

Triple-layer backfill protection and drainage membrane for protecting horizontal and vertical structures in contact with the ground after sealing has been completed

- Components: Dimpled membrane (HD-PE), woven filter (PP), sliding film (LD-PE)
- Average compressive strength
- Drains off collecting water and leakage water dependably
- Rot-proof
- Root- and impact-resistant
- Shape-holding
- Resistant to aggressive waters
- Drinking water safe

Length	15 m
Area	30 m ²
Width	2 m
Height of dimples	8 mm
Min./max. temperature resistance	-30 to 80 °C
Max. pressing pressure	250 kN/m ²
Coating weight per m ²	800 g
Water drainage capacity per m	3.5 l/s
Number of plies	3 PCS

Art. no. 0993 893 002

P. Qty.: 1

Plain steel packing tape

Width of band	16 mm
Thickness of tape	0.5 mm
Barrel length	400 m
Tensile fracture load	650 N
Product weight (per item)	1000 g
Internal diameter of ring	300 mm
External diameter of ring	600 mm
Breaking elongation	3 %

Art. no. 0993 997 16

P. Qty.: 25

Marking pin

For quick and easy blocking off of construction sites

Length	1.25 m
Diameter	13 mm

Art. no. 0993 997 033

P. Qty.: 1

Not approved for use on public roads.

Building fence PPE banner

The PPE building fence banner has all relevant health and safety information that is required on the construction site

- Combined health and safety banner
- Large and colour-coded symbols
- Tear-proof, quick assembly

Number of mounting holes	24 PCS
Length x width	340 x 175 cm

Art. no. 0993 899 800

P. Qty.: 1

Mounting material, such as cable ties are not included in the scope of delivery.

AW® bit

C 6.3 (1/4 inch)

Benefits of AW output:

- Better force transfer
- Longer service life
- Optimum centring
- Largest possible contact surface of bit in screw drive

Even force distribution prevents damage to the surface-protection coating and therefore ensures better resistance to corrosion.

Drive	C 6.3 (1/4 inch)
Drive type	Outer hexagon
Length	25 mm

Tip size	Art. no.	P. Qty.

AW® bit

C 8.0 (5/16")

AW® output

Advantages over previous drive systems:

Improved force transfer.

Longer service life.

Optimum centring.

Largest possible contact surface of bit in screw drive.

Cam-out forces:

Cam-out forces virtually zero. Even force distribution prevents damage to the surface-protection coating and therefore ensures better resistance to corrosion.

Drive	C 8 (5/16 inch)

Pozidriv bit Impact Flex

PZ/Pozidriv C 6.3 (1/4")

- High-performance bit for difficult screwing tasks, in particular for use with tangential impact screwdrivers.
- Longer service life
- Fits into all standard bit holders and into direct adapters of impact screwdrivers
- Moulded casing prevents flying chips if the torsion zone breaks

Tip size	PZ1
Drive	1/4 inch
Drive type	Outer hexagon
Length	29 mm

Hexagon socket bit

C 6.3 (1/4") POWERDRIV

POWERDRIV:

Force is distributed across the curved surfaces on each side of the hexagon. This reduces the load on screw and bit.

Without POWERDRIV:

Force is exerted only at individual points. The result: high point load on screw and bit

POWERDRIV

Bit assortment

105 pieces Extensive 1/4 inch bit assortment with short and long versions of the most common standard and security bits.

Contents: 105 pieces

- 14 TX bits with hole
- 9 PH, TX bits
- 8 hex bits
- 7 PZ hex bits with hole
- 6 tri-wing spanner bits
- 5 slotted AW bits
- 4 hex bits Imperial, multi-tooth XZN, Ribe, square
- 3 bits each of Torq, Clutch, 5-star with hole
- 1 screw hook
- 1 bit adapter
- 1 magnetic bit holder

Number of pieces in assortment/set	105 PCS

10 mm	0614 788 310	1/5
12 mm	0614 788 312	1/5

Magnetic bit holder

Self-adjusting, 1/4" automatic holder for safe and efficient working

- The high-quality ring magnet automatically adjusts to the depth of the screw head.
- Simple and rapid replacement of 1/4" standard bits
- No abrasive ring when installing screws flush
- Countersink screws by sliding back the sleeve.

Drive	1/4 inch
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	67 mm

Art. no. 0614 811 320

P. Qty.: 1

1/4 inch bit holder, magnetic

Innovative bit holder with one-hand quick-change function

- One-hand quick-change function: Pressing lightly on the knob shoots the bit forwards.
- Very slim design (Ø max. 10.5 mm)
- For bits with hexagon head drive according to DIN 3126

Drive	1/4 inch
Drive type	Hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Sleeve diameter (D)	10.5 mm

Blade length (L1)	Length (L)	Design	Art. no.	P. Qty.
40 mm	66 mm		0614 176 638	1
120 mm	150 mm	With guide sleeve	0614 176 639	1
310 mm	350 mm	With guide sleeve	0614 176 645	1

1/4 inch bit holder, E 6.3

Magnetic bit holder with quick-change chuck for one-handed bit insertion

- Bit engages automatically
- Spring mechanism makes changing bit easier

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Sleeve diameter (D)	15 mm
Blade length (L1)	20 mm
Length (L)	51 mm

Art. no. 0614 176 755

P. Qty.: 1

Universal holder, magnetic

Quick-change chuck and permanent magnet

- Super-fast tool change by pushing the clamping bush forward slightly

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket

Sleeve diameter (D)	Blade length (L1)	Length (L)	Art. no.	P. Qty.
14 mm	25 mm	60 mm	0614 176 753	1
14.3 mm	31 mm	75 mm	0614 176 708	1

Universal holder E 6.3 (1/4")

Adjustable screw-in depth and permanent magnet

Quick-change holder forms a strong connection between holder and bit

Spacer with adjustable screw-in depth

Screws are held securely on the bit

- Vertical and horizontal screwing possible without tilting or losing screw
- Particularly suitable for long screws

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	60 mm

Art. no. 0614 811 360

P. Qty.: 1

Universal holder E 6.3 (1/4")

Stainless steel sleeve, snap ring and permanent magnet

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket

Length (L)	Art. no.	P. Qty.
45 mm	0614 176 690	1
50 mm	0614 176 754	1
74 mm	0614 176 699	1
74 mm	0614 176 702	1
175 mm	0614 176 758	1

Universal holder with SDS-plus mount

Quick-change chuck and permanent magnet

Rapid tool change

Pushing the clamping bush forward slightly releases the latch mechanism.

Drive type	Suitable for SDS-plus
Tip size	1/4 inch

Tip type	Hexagon socket
Length (L)	80 mm

Art. no. 0614 176 701

P. Qty.: 1

Universal holder Ø 7 mm

Quick-change chuck

- Non-magnetic holder for screws in metallic environment. Magnets would attract swarf.
- Quick-change chuck forms a strong connection between holder and bit Pushing the clamping bush forward slightly releases the latch mechanism and facilitates extremely rapid tool replacement.

Drive	G 7 mm
Drive type	Slot
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	51 mm

Art. no. 0614 176 710

P. Qty.: 1

Universal holder E 6.3 (1/4")

Quick-change chuck and permanent magnet

- Super-fast tool change by pushing the clamping bush forward slightly

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Sleeve diameter (D)	15 mm
Length (L)	74 mm

Art. no. 0614 176 688

P. Qty.: 1

1/4-inch bit holder

Magnetic bit holder with quick-change chuck

Drive	6 mm
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	200 mm

Art. no. 0613 705

P. Qty.: 1

Bit holder, interchangeable blade with quick-change chuck

Drive	6 mm
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	165 mm

Art. no. 0613 704

P. Qty.: 1

1/4 inch 2 in 1 adapter

Socket wrench and bit adapter in one tool.

- By simply sliding, the sleeve can be used as a socket wrench adapter and a bit holder
- Blade holder 1/4 inch E 6.3 for 1/4 inch square socket wrench inserts or 1/4 inch hexagon

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket and outer square
Sleeve diameter (D)	13 mm
Blade length (L1)	26 mm
Length (L)	60 mm

Art. no. 0614 176 636

P. Qty.: 1

Universal holder C 6.3 (1/4")

Stainless steel sleeve, snap ring and permanent magnet

Drive	C 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	58 mm

Art. no. 0614 176 683

P. Qty.: 1

Bit holder E 6.3 (1/4")

Stainless steel sleeve and snap ring

Non-magnetic holder for screwing in metallic environments

Magnets would attract swarf.

Drive	E 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Hexagon socket
Length (L)	74 mm

Art. no. 0614 176 729

P. Qty.: 1

Connector DIN 7428 E 6.3 (1/4 inch)

Allows the use of socket wrenches on machines with a standard drill chuck.

Drive type	Outer hexagon
Tip type	Outer square

Tip size	Length	Art. no.	P. Qty.
1/2 inch	74 mm	0614 176 780	1
1/4 inch	50 mm	0614 176 726	1
3/8 inch	50 mm	0614 176 727	1

Connector DIN 7428 with SDS-plus mount

Allows the use of socket wrenches on machines with an SDS-plus drill chuck.

Drive type	Suitable for SDS-plus
Tip size	1/2 inch
Tip type	Outer square
Length	74 mm

Art. no. 0614 176 782

P. Qty.: 1

Connector DIN 7428 C 6.3 (1/4 inch)

Drive	C 6.3 (1/4 inch)
Drive type	Outer hexagon
Tip size	1/4 inch
Tip type	Outer square
Length	25 mm

Art. no. 0614 176 700

P. Qty.: 1

Connector DIN 7427 1/4 inch

Non-magnetic holder for screwing in metallic environments

Magnetic force would attract chips in this situation.

Drive	1/4 inch
Drive type	Internal square
Tip size	1/4 inch
Tip type	Hexagon socket
Length	25 mm

Art. no. 0614 176 680

P. Qty.: 1

Connector DIN 7427 1/2 inch

Non-magnetic holder for screwing in metallic environments

Magnetic force would attract chips in this situation.

Drive	1/2 inch
Drive type	Internal square
Tip type	Hexagon socket
Length	35 mm

Tip size	Art. no.	P. Qty.
1/4 inch	0614 215 013	1
5/16 inch	0614 215 010	1

1/4 inch socket wrench insert, set

The 5-piece set includes the most common magnetic socket wrench inserts for use in mechanical applications.

- Plastic holder with belt clip

Number of pieces in assortment/set	5 PCS
------------------------------------	-------

Mini ratchet screwdriver

10-piece bit strip and PH2 bit

- Handle: 2-component handle
- Blade: Short bit holder blade with magnet, bright chromium-plated
- Output: DIN 3126-D 6.3
- For high torque applications in tight spaces
- 3-position adjustment wheel: Easy to change direction whilst working, adjustable with one hand
- 45 teeth, max. torque of 40 Nm

Included in delivery (Lieferumfang)	1 x bit strip for 10 bits, 1 x mini ratchet screwdriver incl. bit holder
Tip size	1/4 inch

Art. no. 0613 630 50

P. Qty.: 1

Pistol ratchet screwdriver assortment

37-piece assortment includes the most common bits and a wide range of adapters and socket wrench inserts

- Ergonomic 2-component pistol grip for optimal working comfort
- LED technology
- Powerful ratchet screwdriver
- Wide range of different adapters, bit holders, and socket wrench inserts

Art. no. 0613 640 37

P. Qty.: 1

Reversible blade

- Special treatment for high tip strength
- Würth colour coding system for fast identification
- Black-point tip for highly precise fit
- 6.35 mm = 1/4" hexagon mount

Reversible blades assortment

13-piece assortment with variable handle

- Can be used as a standard screwdriver in the straight position or as a T-handle in the 90° position thanks to the adjustable handle
- 2-component handle
- Würth colour coding system for fast identification
- Also suitable as longer bit for cordless drill

Contents:

- Screwdriver with T-handle function
- 1 blade each of PH 1 – 4 mm slotted; PH 2 – PH 3; PZ 1 – 5 mm slotted; PZ 2 blade – 6 mm slotted; PZ 3 – 7 mm slotted
- 1 hex socket blade 3 mm – hex socket 3 mm ball; hex socket 4 mm – hex socket 4 mm ball; hex socket 5 mm – hex socket 5 mm ball; hex socket 6 mm – hex socket 6 mm ball
- 1 blade each of TX 10-TX 15; TX 20-TX 25; TX 30-TX 40
- Metal box (220 x 110 x 35 mm)

Number of pieces in assortment/set	13 PCS

1 x 5.5 mm	125 mm	96/31 mm	0613 631 55	1

Individually tested in accordance with IEC 60900:2004

VDE screwdriver, PH recessed head, extra slim

Effortless access to deep-seated screw and spring elements.

- Insulation with reduction of blade diameter in critical working area
- Prevents fraying of insulation
- Screw symbol on end of handle
- Tip: DIN ISO 8764-I-PH
- Blade: Burnished

Tip size	Blade length (A)	Handle length/ handle width (B/C)	Art. no.	P. Qty.
PH1	80 mm	96/31 mm	0613 632 10	1
PH2	100 mm	106/35 mm	0613 632 20	1

Individually tested in accordance with IEC 60900:2004

VDE screwdriver set slotted/PH

5 pieces. Extra slim design.

Blade burnished, reduced blade insulation diameter in critical working area

- Effortless access to low-lying screw and spring elements
- Prevents insulation from fraying

Screw symbol on end of handle

Number of pieces in assortment/set	5 PCS

Angled gear

Powerful angled gear for screwing and drilling work

- High-quality angled gear made from specially hardened steel
- Secure hold thanks to adjustable soft grip
- Compact design
- Magnetic 1/4" bit holder with quick-change chuck

Blade holder	1/4 inch, E 6.3 hexagon
Drive type	Outer hexagon
Bit holder	1/4 inch hexagon
Tip type	For outer hexagon
Max. torque	57 Nm
Length	165 mm

Art. no. 0614 900 0

P. Qty.: 1

Angled gear Wibos Junior Metal

Magnetic angled gear for screwing tasks up to max. 11 Nm

- Ideal for use in inaccessible areas

Blade holder	6 mm hexagon
Drive type	Outer hexagon
Bit holder	1/4 inch hexagon
Tip type	For outer hexagon
Max. torque	11 Nm
Length	130 mm

Art. no. 0713 92 07

P. Qty.: 1

Unsuitable for use on machines.

Magnetic lifter with plastic handle

Flexible shaft for versatile applications

Telescopic magnet

Magnetic retention force 500 g

- With wash nozzle adjustment needle, magnetic head, cover cap and pocket clip
- Extension length 155-670 mm

Min./max. length	155-670 mm
Max. loading weight	500 g

Art. no. 0715 34 96

P. Qty.: 1

Precision screwdriver, flat slotted

Ideal for all fine and delicate screw work in electrical and precision engineering

- Rotatable centring head with large finger recess
- Centring cap marked with screw symbol and size
- Multi-component handle with large, soft-grip components
- Quick-action rotating zone
- Chrome-plated blades made from highly tempered special steel
- Black Point tip
- Blade: Circular blade, brushed chromium-plated
- Output: DIN 5264-A, ISO 2380, Black Point

Allen key, hexagon socket, window adjusting tool

For corner and scissor hinges

Highly versatile in the tightest of spaces thanks to long lever

Tip size	4 mm
Length (L1)	103 mm
Short-limb dimension	15 mm
Long-limb dimension (L2)	91 mm

Art. no. 0715 31 85

P. Qty.: 1

Multifunction electrical T-handle wrench

Practical T-handle wrench for locking systems with 5/6 mm square, 9 mm triangle, 3–5 mm diameter double bit, 7–8 mm square, 1/4 inch PH2 bit

- Practical folding T-handle wrench with plastic clip
- With dual turning mechanism

Art. no. 0715 16 20

P. Qty.: 1

Multifunction T-handle wrench, construction/wood

Practical T-handle wrench for locking systems

Practical folding T-handle wrench with plastic clip

For storage in a shirt or overall pocket

With dual turning mechanism

Various keys can be brought into position

Incl.

1/4-inch PH2 bit

Consisting of

5/8-mm square, 8-mm triangle, 6-9-mm stepped square drive, 1/4-inch PH2 bit

Art. no. 0715 16 21

P. Qty.: 1

Universal 5-in-1 switch cabinet key

For switch cabinet locking mechanisms

Chain, adapter and dual bit PH 2/slotted 1.0 x 7.0 mm

Material	Die-cast zinc
Width	92 mm
Length	96 mm

Art. no. 0715 16 23

P. Qty.: 1

Electric switch cabinet key Black Finish

6-in-1 switch cabinet key with hanging eyelet, 1/4 inch bit holder and bottle opener

Art. no. 0715 16 26

P. Qty.: 1

Switch cabinet key „Mini“ 6-in-1

Dual turning mechanism so that four different closures can be effected.

Closures are each rotatable by 360°

Width	25 mm
Length	72 mm
Height	21 mm

Art. no. 0715 16 24

P. Qty.: 1

Pickaxe

With shaft

Pick and axe with a tip and a cross-shafted, flattened axe blade

Weight of head	2200 g
Length	950 mm
Material of the handle	Ash
Length of handle	930 mm

Art. no. 0695 945 085

P. Qty.: 1

Potato hoe

With ash handle, 1,300 mm, spring socket and four hardened prongs

Width	200 mm
Length	1400 mm
Number of tines	4 PCS

Art. no. 0695 945 080

P. Qty.: 1

Garden hoe/small hoe

Lightweight garden hoe with 1350 mm ash wood handle for cultivated soils

- Conically milled, fully forged and hardened blade

Width	100 mm
Sheet length x sheet width	145 x 100 mm
Length	1350 mm

Art. no. 0695 945 062

P. Qty.: 1

Garden hoe/Ulm hoe

Universal garden hoe with 1350 mm ash wood handle for vegetation and garden soil

- Conically milled, fully forged and hardened blade
- Blade with inset cut

Width	110 mm
Sheet length x sheet width	180 x 110 mm
Length	1350 mm

Art. no. 0695 945 061

P. Qty.: 1

Garden hoe with wide and narrow blade

With 1350 mm ash wood handle for bed cultivation

- Conically milled, fully forged and hardened blade
- 35 mm narrow handle

Width	270 mm
Sheet length x sheet width	270 x 75 mm
Length	1350 mm

Art. no. 0695 945 066

P. Qty.: 1

Garden hoe with prongs

Lightweight garden hoe with 1350 mm ash wood handle, wide blade and two tines

- Conically milled, fully forged and hardened blade

Width	270 mm
Sheet length x sheet width	270 x 75 mm
Length	1350 mm
Number of tines	2 PCS

Art. no. 0695 945 065

P. Qty.: 1

Pulaski hoe axe

Fully forged high-quality hoe with oval blade and ash wood handle

Long service life

Fully forged blade

Width	120 mm
Sheet length x sheet width	455 x 120 mm
Length	1050 mm

Art. no. 0695 945 070

P. Qty.: 1

Garden hoe/clearing hoe

Heavyweight hoe with 1350 mm ash wood handle for natural earth and land clearing tasks

- Conically milled, fully forged and hardened blade

Width	100 mm
Sheet length x sheet width	210 x 100 mm
Length	1350 mm

Art. no. 0695 945 063

P. Qty.: 1

Spade shovel

Forged from a single piece, with 1200 mm ash wood handle

- Made from hardened steel
- With foot grip

Length of handle	1200 mm
Sheet width	225 mm
Sheet length	300 mm

Art. no. 0695 945 200

P. Qty.: 1

Manure fork

With four tines and 1350 mm ash wood handle

- Specially hardened steel
- With bar clamp

Number of tines	4 PCS
Width	230 mm
Length of handle	1350 mm

Art. no. 0695 945 001

P. Qty.: 1

Spade fork

With hardened lance tines

- Made from powder-coated steel
- Fully forged blade section is resistant to extremely high loads

Number of tines	4 PCS
Length	310 mm
Width	200 mm

Art. no. 0695 945 005

P. Qty.: 1

Lawn rake

Extremely robust rake made from powder-coated steel

Number of tines	40 PCS
Width	700 mm

Art. no. 0695 945 102

P. Qty.: 1

Levelling rake

Very lightweight rake made from aluminium with straight tines

Number of tines	16 PCS
Width	750 mm

Art. no. 0695 945 105

P. Qty.: 1

Plastic rake

With edge for levelling and flattening humus and light soil

Number of tines	16 PCS
Width	650 mm

Art. no. 0695 945 106

P. Qty.: 1

Adjustable leaf broom

Stable leaf broom made from galvanised steel with reinforced outer tines

Number of tines	22 PCS
-----------------	--------

Art. no. 0695 945 115

P. Qty.: 1

Plastic leaf rake

Very well-suited to removing leaves and garden waste

For use as a leaf rake and garden fork

Number of tines	26 PCS
Width	600 mm

Art. no. 0695 945 110

P. Qty.: 1

Splitting axe

With premium ash handle and wedge for splitting tasks

- Sharpened and polished blade

Weight of head	2000 g
Length	800 mm
Material of the handle	Ash

Art. no. 0714 727 200

P. Qty.: 1

Loppers 600 mm

High-quality loppers with forged blade allows for cutting branches up to 35 mm diameter

- Expertly forged and finished cutting head with non-stick coated blade
- Drop-forged grooving
- Forged grooving in counter blade
- High-strength aluminium tubing

Length	Cutting edge length	Wood cutting capacity	Art. no.	P. Qty.
600 mm	90 mm	35 mm	0714 03 970	1
900 mm	120 mm	50 mm	0714 03 971	1

Secateurs, 200 mm

High quality secateurs with a two-component handle for the professional gardener.

- Forged body with high-quality two-part plastic handle
- Wire cutting device for cutting binding wire
- Forged oil reservoir
- With locking lever

Length	200 mm
Cutting edge length	84 mm
Wood cutting capacity	20 mm

Art. no. 0714 03 928

P. Qty.: 1

Secateurs, 215 mm

High-quality secateurs for the professional gardener

- Forged body with high-quality plastic handle
- Integral sap groove
- Replaceable blade
- Forged groove in the hook
- Blocking lever

Length	215 mm
Cutting edge length	84 mm
Wood cutting capacity	25 mm

Art. no. 0714 03 926

P. Qty.: 1

Hedge shears

High-quality hedge shears with crimped blades

- Hard-chrome plated cutting edges
- Both blades have a juice groove for plant residues
- Self-sharpening blades
- Rubber stop
- Adjustable metal screw joint to regulate the clamping pressure of the blades
- Beech wood handles

Cutting edge length	240 mm
Length	540 mm

Art. no. 0714 03 938

P. Qty.: 1

UV weed control fabric 105 g/m²

For gardening and landscaping applications

- The fleece structure allows up to 70% of air to pass through
- Can be used universally, both covered and uncovered (up to max. 4 years)
- The water-permeable fleece allows up to 20 l/(m²xs) of water through

Material	HDPE - High density polyethylene
Colour	Black
Length	100 m

Width	Art. no.	P. Qty.
105 cm	0681 001 700	105
210 cm	0681 001 701	210

Vernier calliper

With torque fixing

- Thread table on reverse side, depth gauge on slider
- Matt chrome-plated scale and vernier, measuring surfaces polished and lapped
- Rust-free, DIN 862

Max. length measuring range	150 mm
Min./max. length measuring range	0-150 mm
Vernier scale (imperial)	1/128 inch
Vernier scale	0.05 mm
Length of jaw	40 mm

Art. no. 0715 76 01

P. Qty.: 1

Vernier callipers

With locking screw

- Thread table on the reverse
- Measuring surfaces ground and lapped
- Depth gauge on calliper
- DIN 862

Max. length measuring range	150 mm
Min./max. length measuring range	0-150 mm
Vernier scale (imperial)	1/128 inch
Vernier scale	0.05 mm
Length of jaw	40 mm

Art. no. 0715 76 02

P. Qty.: 1

Digital vernier calipers

With data output RS 232

- Stainless steel, hardened, IP54 rating
- Features: mm/inch switch, on/off, zero (0-button)
- Measuring surfaces polished and lapped, flat depth gauge, set screw at the top, including battery

Max. length measuring range	Length of jaw	Art. no.	P. Qty.
150 mm	40 mm	0715 76 122	1
200 mm	50 mm	0715 76 124	1
300 mm	60 mm	0715 76 126	1

Supplied in plastic box

Precision feeler gauge stock

Precision tool for accurate alignment and setting of machine parts.

- Made of hardened, white-polished steel strip
- The strip thickness is marked every 200 mm
- In plastic box with a practical winding/unwinding mechanism.

Width of band	12.7 mm
Length of tape	5 m

Precision protractor

Precision dial gauge for measuring angles of 0 to 180 degrees

- Measuring arms and degree arcs are movably connected to the knurled nut and can be locked at any point

Min./max angle measuring range	0-180 Degree
--------------------------------	--------------

Degree arc diameter	Free length of protractor arm	Surface	Art. no.	P. Qty.

300 mm	500 mm	Chrome plated	0715 774 500	1

Marking gauge

Made of stainless steel with hardened marking edge and millimetre graduation

Rail width	40 mm
------------	-------

Max. length measuring range	Art. no.	P. Qty.
200 mm	0715 70 200	1
300 mm	0715 70 300	1

Marking gauge

Material: White beech, protective lacquer coating
Two inlaid millimetre scales and locking screws

Length of scales: 150 mm

Scale can be set individually

Art. no. 0715 70 02

P. Qty.: 1

Steel measuring tape

From stainless, flexible steel

Hard-rolled, springy steel with matt-stained surface

No corrosion and long service life

Scale etched in black

Allows simple, precise reading

Thickness of tape (S)	0.5 mm
Scale marking on top edge (length)	0.5 mm
Scale marking on bottom edge (length)	0.5 mm

Length of tape (L)	Width of band (B)	Art. no.	P. Qty.
300 mm	13 mm	0695 072 300	1/10
500 mm	18 mm	0695 072 500	1/10

According to EEC precision class II

Steel square

With stop

Galvanised design

No corrosion

Accuracy in line with DIN 7168 m

Thickness (B1)	Width (B)	Long-limb dimension (L1)	Short-limb dimension (L2)	Art. no.	P. Qty.

Flange angle

Galvanized steel

Width	30 mm
Thickness	5 mm

Limb length x limb length 2	Art. no.	P. Qty.
300 x 300 mm	0715 763 530	1
400 x 400 mm	0715 763 540	1
500 x 500 mm	0715 763 550	1
600 x 600 mm	0715 763 560	1

Building square

Lightweight, handy square for construction work

- Consists of two light metal spirit levels
- Very precise angle transcription
- With horizontal and vertical level
- Optionally with 15° locking or infinitely variable adjustment
- Adjustment range 0-270°
- Reading range 0-180°

Min. angle indication	1 Degree
Long-limb dimension x short-limb dimension	60 x 80 cm
Measuring accuracy (per length)	1 mm/m
Thickness	20 mm

Art. no. 0714 647 080

P. Qty.: 1

Alpha square

For carpenters, formwork setters and staircase builders.

From stainless spring band steel, 1.4 mm thick.

Long-limb dimension	800 mm
Short-limb dimension	320 mm
Thickness	1.4 mm

Art. no. 0695 940 410

P. Qty.: 1

Carpenter's square

With marking holes

- 35 mm wide

Long-limb dimension x short-limb dimension	Art. no.	P. Qty.
300 x 700 mm	0695 940 377	1
800 x 320 mm	0695 940 378	1
1000 x 380 mm	0695 940 371	1

Carpenter's square

With marking holes and four dimensions

- Made from rustproof stainless steel
- The high edges are ground

Long-limb dimension x short-limb dimension	320 x 800 mm
--	--------------

Art. no. 0695 940 380

P. Qty.: 1

Telescopic measuring tool Messfix

8 m, makes work easier and quicker when substantial successive sections have to be measured.

- Locking screws to secure the individual sections at any given length
- With level for vertical and horizontal measurements
- Fibre glass cloth tape with millimetre pitch
- Messfix conforms to EC accuracy class 2
- Supplied in a plastic case

Min. length measuring range (L min)	1.53 m
Max. length measuring range (L max)	8 m

Art. no. 0715 64 98

P. Qty.: 1

Telescopic rule

Analogue measuring tool for trade professionals. For vertical and horizontal measurements.

- Fast, simple measurement of successive sections
- Individual telescopic sections made from round aluminium
- With horizontal and vertical level
- Coated tape measure with millimetre pitch
- Reading window with magnifying effect

Continuation **Telescopic rule**

Min. length measuring range (L min)	Max. length measuring range (L max)	Art. no.	P. Qty.
0.6 m	3 m	0714 642 103	1
0.9 m	5 m	0714 642 105	1

Telescopic rule conforms to EEC precision class 2

Goniometer Winkelfix mini

Compact analogue goniometer for simple measurement of angles.

- Short design and symmetrical arrangement of the measuring arms
- Locking screw allows locking in each setting
- Horizontal and vertical level
- Delivered in a plastic case

Min./max angle measuring range	0-180 Degree
--------------------------------	--------------

Art. no. 0715 64 92

P. Qty.: 1

Goniometer Winkeltronik

Electronic goniometer for quick and easy measurement of angles.

- Digital display (0.1 degree division), horizontal and vertical level
- Arms of the Winkeltronik fit into each other
- Automatic switch-off after 3 minutes

Limb length (L1)	600 mm
Min./max angle measuring range	0-355 Degree
Number of rechargeable batteries/batteries	4 PCS
Colour	Red
Product weight (per item)	1501.5 g

Art. no. 0715 64 950

P. Qty.: 1

Digital goniometer DWM 350

Short digital goniometer.

- With horizontal and vertical level
- Large digital display field
- Optional illumination
- Easy to use thanks to simple long-display and deletion of measurement values
- High-precision aluminium measuring arm
- Short arm length

Limb length (L1)	348 mm
Min./max angle measuring range	0-185 Degree
Number of rechargeable batteries/batteries	2 PCS
Rechargeable battery/battery permanently installed	Yes
Surface	Aluminium FINISH
Material	Aluminium
Colour	Red
Product weight (per item)	296 g

Art. no. 0715 641 91

P. Qty.: 1

Small spirit level with magnet

Professional small spirit level with two magnetic surfaces

- Excellent readability and long service life
- Fluorescent level liquid, highly-resistant to UV radiation
- Milled measuring surface with strong magnets and V-shaped groove for strong hold on pipes, profiles etc.

Length (L)	74 mm
Height (H)	34 mm
Width (B)	41 mm
Number of magnets	2 PCS
Measuring accuracy (per length)	1 mm/m
Measuring accuracy for overhead measurements (per length)	1 mm/m
Degrees measuring accuracy for overhead measurements	1 Degree

Art. no. 0714 644 505

P. Qty.: 1

Small spirit level, electric

Spirit level for aligning switches and sockets

- Extra-strong rare earth magnet
- Acrylic glass level block with integrated corrosion-free reading rings
- Fluorescent level liquid, highly resistant to UV radiation
- Additional ground measuring surface, can therefore be used as a standard spirit level

Length (L)	67 mm
Height (H)	18 mm
Width (B)	41 mm
Number of magnets	1 PCS
Measuring accuracy (per length)	1 mm/m
Measuring accuracy for overhead measurements (per length)	1 mm/m

Art. no. 0714 644 510

P. Qty.: 1

Light metal spirit level

Stable rectangular profile with smooth lateral surfaces

- Excellent readability and long service life
- Fluorescent level liquid, highly-resistant to UV radiation
- High degree of accuracy thanks to milled measuring surface (up to 120 cm)

Height (H)	20 mm
Width (B)	50 mm
Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.75 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.043 Degree

Length (L)	Art. no.	P. Qty.
20 cm	0714 644 202	1
30 cm	0714 644 203	1
40 cm	0714 644 204	1
50 cm	0714 644 205	1
60 cm	0714 644 206	1
80 cm	0714 644 208	1
100 cm	0714 644 210	1

Continuation **Light metal spirit level**

Length (L)	Art. no.	P. Qty.
120 cm	0714 644 212	1
180 cm	0714 644 218	1
200 cm	0714 644 220	1

Magnetic spirit level

Rugged design with strong magnets

- Acrylic glass level block with integrated corrosion-free reading rings
- Fluorescent level liquid, highly resistant to UV radiation
- Powerful magnets
- Milled measuring surface (up to 120 cm)

Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.75 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.043 Degree

Length (L)	Height (H)	Width (B)	Number of magnets	Art. no.	P. Qty.

120 cm	20 mm	50 mm	4 PCS	0714 644 312	1
180 cm	20 mm	50 mm	6 PCS	0714 644 318	1

Digital spirit level

Waterproof and dustproof digital spirit level with stable light metal profile

- Two large, clearly laid-out, illuminated displays
- Acoustic tilt guide that can be switched off
- Level block made from acrylic glass with inlaid, corrosion-free reading rings
- Fluorescent level liquid, highly-resistant to UV radiation
- Two milled measuring surfaces
- Easy-to-remove, impact-reducing end caps
- Two vertical levels

Width (B)	60 mm
Height (H)	30 mm
Number of rechargeable batteries/batteries	2 PCS
IP protection class	IP 65
Measured value display	0.1 mm
Measuring accuracy (per length)	0.5 mm/m

Measuring accuracy for overhead measurements (per length)	0.5 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.029 Degree

Length (L)	Rechargeable battery/battery designation	Art. no.	P. Qty.
61 cm	1.5 V Mignon AA	0714 644 060	1
80 cm		0714 644 080	1

Digital magnetic spirit level

Waterproof and dustproof digital magnetic spirit level with stable light metal profile

- Two large, clearly laid-out, illuminated displays (front and upper milled measuring surface)
- Acoustic tilt guide that can be switched off
- Rare earth magnets
- Two milled measuring surfaces
- Easy-to-remove, impact-reducing end caps

Length (L)	61 cm
Width (B)	60 mm
Height (H)	30 mm
Number of rechargeable batteries/batteries	2 PCS
Rechargeable battery/battery designation	Micro AAA
IP protection class	IP 65
Measured value display	0.1 mm
Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.5 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.029 Degree

Art. no. 0714 644 360

P. Qty.: 1

Light metal spirit level

Rugged light metal spirit level for metalworking and construction trades

- Excellent readability and simple determination of gradients
- Direct testing of gradients with angle level
- Fluorescent level liquid, highly-resistant to UV radiation
- Milled measuring surface with strong magnets and V-shaped groove for strong hold on pipes, profiles etc.

Length (L)	25 cm
Height (H)	20 mm

Continuation **Light metal spirit level**

Width (B)	50 mm
Number of magnets	2 PCS
Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.75 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.043 Degree

Art. no. 0714 644 125

P. Qty.: 1

Light metal spirit level with magnet

Extra-strong, stable light metal rectangular profile

- Excellent readability and long service life
- Fluorescent level liquid with high resistance to UV radiation.
- Very strong magnets
- Extremely high accuracy even for overhead measurements
- Transfer of measuring levels flush with workpiece thanks to removable end caps.
- Two vertical levels

Height (H)	30 mm
Width (B)	60 mm
Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.75 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.043 Degree

Spirit level straight edge with bubbles

From thick-walled light metal profile with middle web and two plastic end caps

Width (B)	94 mm
Height (H)	18 mm

Length (L)	Art. no.	P. Qty.
180 cm	0714 64 30	1
200 cm	0714 64 31	1

Spirit level

Extra-strong, stable light metal rectangular profile with two handles

- Precise measurements by means of two milled measuring surfaces
- Transferring of measuring planes flush with workpiece by means of removable end caps
- Two vertical bubbles mean there is no need to turn the spirit level to read vertically.
- Acrylic glass level block with integrated corrosion-free reading rings
- Fluorescent bubble liquid, highly resistant to UV radiation, no liquid discolouration, maximum precision with fluctuating temperatures.
- Easy to clean thanks to very smooth electrostatic powder coating

Height (H)	30 mm
Width (B)	60 mm
Measuring accuracy (per length)	0.5 mm/m
Measuring accuracy for overhead measurements (per length)	0.5 mm/m
Degrees measuring accuracy	0.029 degree
Degrees measuring accuracy for overhead measurements	0.029 Degree

Length (L)	Number of handles	Art. no.	P. Qty.

Wall bracket WM 1

Universal bracket for the CLL 18, CLLG 18 and PLL18 lasers.

Art. no. 5709 300 908

P. Qty.: 1

Only for use in combination with the corresponding bracket (CLL-A or PLL-A).

Levelling set

3 pieces: Builder's level, telescopic levelling rule, Tenimeter, aluminium construction tripod for levelling instruments 90-170 mm

Art. no. 0714 646 93

P. Qty.: 1

Meter tear plaque

Meter tear and axis plaque as a transfer aid for heights into the shell.

- With elastic cleaning brushes
- With suspender strip for the folding rule
- Flexible attachment thanks to slots
- The plaque can be screwed on or nailed

Length	50 mm
Width	80 mm
Thickness	2 mm

Adhesive system	Art. no.	P. Qty.
	0714 640 620	50
Self-adhesive	0714 640 621	50

Telescopic levelling staff

Aluminium measurement aid for levelling with millimetre graduation

Min./max. length	131-242 cm
------------------	------------

Art. no. 0714 64 425

P. Qty.: 1

Charging cable for CLL 18, CLLG 18 and PLL 18

High-quality charging cable for cross and line lasers CLL 18 and CLLG 18, as well as dot laser PLL 18.

Art. no. 5709 300 921

P. Qty.: 1

Automatic construction levelling instrument

Additional rough sight

- Levelling of the line of sight: Automatic (pre-adjustment via level)
- Additional rough sight
- Very short sighting distance
- Large, non-slip operating buttons
- Metal horizontal circle behind glass, 400 gon
- Housing: Aluminium, splash-proof
- Continuous spring-mounted horizontal tangent screw
- Mirror with box level

Length	220 mm
Magnification	24-times
Min. graduation (size of angle)	1 gon

Continuation **Automatic construction levelling instrument**

Max. graduation (size of angle)	400 gon
Lens opening	36 mm

Art. no. 0714 646 21

P. Qty.: 1

- cm estimation: approx. 150 m
- Graduation: upright
- Image: upright
- Compensator: with magnetic damping
- Numbering: 1 gon

Telescopic levelling rule, Tenimeter

Aluminium profiles: Anodised, telescopically extending

Easy and precise guidance of the individual sections

Push button screen

- Easy, fast operation
- Safety mechanism

Graduation: both sides, protected by protruding edges and anodic coating

- Front side: Level graduation = cm-E graduation.
- Rear side: mm graduation.

For measuring heights and lengths

For vertical alignment with a box level

Material	Aluminium
Min./max. length	1.24-5 m

Art. no. 0714 646 210

P. Qty.: 1

Point line laser PLL 18

Self-levelling point line laser for indoor and outdoor use with highly visible red laser lines and points.

- Excellent visibility of laser lines and points
- Self-levelling in seconds
- Simple one-button operation
- Can be used over longer distances (with the LRU 18 handheld receiver)
- Suitable for making perpendicular lines and separating rooms
- Level monitoring
- Flexible mounting options with brackets and tripods
- Simultaneous charging and working is made possible with the lithium-ion battery pack.

Laser category	2
Self-levelling range (+/-)	4 Degree
Min. working temperature	-10 °C

Max. working temperature	50 °C
Length	120 mm
Width	65 mm
Height	100 mm
IP protection class	IP 54
Rechargeable battery/battery designation	Li-Ion
Range with receiver	80 m
Range without receiver	25 m
Measuring accuracy (per length)	2 mm/10m

Art. no. 5709 300 222

P. Qty.: 1

Horizontal rotation laser RL2-14

Specifically designed for outdoor use. Extremely robust with a long service life, and easy to operate. The glass-fibre-reinforced composite housing makes the RL2-14 perfect for use on construction sites.

- Fulfils ISO 17123-7
- Automatic self-levelling takes just seconds
- Automatic level monitoring prevents levelling errors caused by wind, soft surfaces and impacts against the stand.
- Complete protection against dirt and water

Laser category	2
Coverage distance	400 m
Measuring accuracy (per length)	1 mm/10m
Self-levelling range (+/-)	5 Degree
IP protection class	IP 67
Type of rechargeable battery/battery	Alkali
Number of rechargeable batteries/batteries	4 PCS
Min./max. storage temperature	-20 to 70 °C
Min. application temperature	-10 °C
Max. application temperature	50 °C
Max. usage duration	60 h

Art. no. 5709 300 302

P. Qty.: 1

Batteries not included in the scope of delivery

Rotation laser RL5-14

Specifically designed for indoor and outdoor use. Vertical and horizontal alignment for all levelling tasks. The glass-fibre-reinforced composite housing makes the RL5-14 perfect for use on construction sites.

- Fulfils ISO 17123-6
- Automatic self-levelling takes just seconds
- Remote control for controlling the laser lines
- Automatic level monitoring prevents levelling errors caused by wind, soft surfaces and impacts against the stand.
- Complete protection against dirt and water
- Li-ion battery pack included

Laser category	2
Coverage distance	600 m
Measuring accuracy (per length)	0.75 mm/10m
Self-levelling range (+/-)	6 Degree
IP protection class	IP 67
Type of rechargeable battery/battery	Li-Ion
Number of rechargeable batteries/batteries	1 PCS
Min./max. storage temperature	-20 to 70 °C
Min. application temperature	-20 °C
Max. application temperature	50 °C

Art. no. 5709 300 305

P. Qty.: 1

Rotation laser set RL1-18

4 pieces. Specifically designed for outdoor use. Extremely robust with a long service life and easy to operate. The fibreglass-reinforced composite housing makes the RL1-18 perfect for use on the construction site.

- For indoor and outdoor work performed horizontally
- Manual tilt function in one axis possible
- Maximum rotational speed of 2000 rpm

Number of pieces in assortment/set	4 PCS
Product weight (per item)	8500 g

Art. no. 5709 300 980

P. Qty.: 1

Tilting wedge

For rotation lasers

Art. no. 0714 649 128

P. Qty.: 1

Remote control

Controls the laser lines on rotation laser RL5-14

Art. no. 5709 300 306

P. Qty.: 1

Adapter for LRU13

Art. no. 5709 300 910

P. Qty.: 1

Receiver bracket

For using the laser receiver LR5-14 on a rod

Art. no. 5709 300 901

P. Qty.: 1

Battery for CLL 18, CLLG 18 and PLL 18

High-quality lithium-ion battery for cross and line lasers CLL 18 and CLLG 18 as well as dot laser PLL 18.

- Runs for up to 24 hours
- Charging socket allows you to remove the battery from the device while charging

Art. no. 5709 300 920

P. Qty.: 1

Laser receiver LR5-14

High-quality laser receiver with millimetre indicator for rotation laser including holder for measuring rod.

- 600-metre work area
- Setting of pitches, controls the RL5-14 via radio communication
- Complete protection against dirt and water
- Large reception window
- Two LCD displays on front and back
- Five sensitivity levels
- Levelling instrument as alignment tool
- Receiver holder for application with a rod
- Three acoustic signal levels

Reception range	120 mm
Display	LED/LCD
IP protection class	IP 67
Rechargeable battery/battery life	50 hours
Type of rechargeable battery/battery	Alkali
Min./max. temperature conditions	-20 to 50 °C
Min./max. storage temperature	-40 to 70 °C
Rechargeable battery/battery designation	1.5 V Mignon AA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 5709 300 451

P. Qty.: 1

Batteries not included

Laser receiver Universal LRU 18

Universal receiver for red and green rotation and line lasers.

- Long range, up to 500 m
- LCD and switchable LED display offer maximum readability
- Can be read from both front and back of receiver
- Adjustable audible signal
- Degree of protection IP 67 (waterproof and dustproof)
- Two strong retaining magnets on the top enable mounting on metallic surfaces.
- With battery level indicator
- Measuring rod holder and battery included in scope of delivery

Max. working range	400 m
Reception range	60 mm
Display	LED, LCD
IP protection class	IP 67
Rechargeable battery/battery life	50 hours
Type of rechargeable battery/battery	AlMn
Min./max. temperature conditions	-10 to 50 °C
Rechargeable battery/battery designation	Mignon AA
Number of rechargeable batteries/batteries	1 PCS

Art. no. 5709 300 452

P. Qty.: 1

Multi-line laser MLLG 18

High-quality, electronic, self-levelling line laser with very clearly visible, green laser lines. Including laser vision goggles and rechargeable battery.

- Electronic self-levelling
- Lines can be switched individually
- Continuous 360° line in horizontal and vertical plane.
- 4 x 90° lines in the vertical plane. 90° angle to the ground.
- Lithium-ion battery pack
- For horizontal and vertical application without having to move the device thanks to soldering function
- Problem-free use in bright light conditions at greater distances in conjunction with the hand receiver
- Can be used in rain, as well as in dust-laden surroundings (protection class IP 55)

Laser category	2M
Levelling measuring accuracy (+/- per length)	1 mm/10m
Self-levelling range (+/-)	4 Degree
Range without receiver	50 m
Range with receiver	80 m
Min. temperature conditions	-10 °C

Continuation **Multi-line laser MLLG 18**

Max. temperature conditions	45 °C
Length	215 mm
Width	150 mm
Height	156 mm
IP protection class	IP 55
Type of rechargeable battery/ battery	Li-Ion

Art. no. 5709 300 110

P. Qty.: 1

Cross line laser CLL 18

Self-levelling cross and line laser for indoor and outdoor use with highly visible red laser lines.

- Excellent visibility of laser lines
- Self-levelling in seconds
- Simple one-button operation
- Can be used over longer distances (with the LRU 18 handheld receiver)
- Level monitoring
- Flexible mounting options with brackets and tripods
- The lithium-ion battery pack enables the device to be used while it is charging.

Laser category	2
Levelling measuring accuracy (+/- per length)	2 mm/10m
Self-levelling range (+/-)	4 Degree
Range without receiver	25 m
Range with receiver	80 m
Min. temperature conditions	-10 °C
Max. temperature conditions	50 °C
Length	115 mm
Width	65 mm
Height	100 mm
IP protection class	IP 54

Continuation **Cross line laser CLL 18**

Type of rechargeable battery/ battery	Li-Ion
Rechargeable battery/battery life	Up to 44 hours

Art. no. 5709 300 021

P. Qty.: 1

Cross line laser CLG 18

Self-levelling cross and line laser for indoor and outdoor use with highly visible green laser lines.

- Excellent visibility of laser lines
- Self-levelling in seconds
- Simple one-button operation
- Can be used over longer distances (with the LRU 18 handheld receiver)
- Level monitoring
- Flexible mounting options with brackets and tripods
- The lithium-ion battery pack enables the device to be used while it is charging.

Laser category	2
Levelling measuring accuracy (+/- per length)	2 mm/10m
Self-levelling range (+/-)	4 Degree
Range without receiver	35 m
Range with receiver	80 m
Min. temperature conditions	-10 °C
Max. temperature conditions	50 °C
Length	110 mm
Width	65 mm
Height	100 mm
IP protection class	IP 54
Type of rechargeable battery/ battery	Li-Ion
Rechargeable battery/battery life	Up to 28 hours

Art. no. 5709 300 041

P. Qty.: 1

Aluminium flat-headed stand

High-quality flat-headed stand for levelling and laser devices

- Made from high-quality anodised aluminium.
- All plastic parts made from high-quality fibreglass-reinforced polyamide
- Ground spikes with inlet tappet
- With horizontal level

Min./max. length	90-170 cm
Connection thread	5/8 inch

Art. no. 0714 649 302

P. Qty.: 1

Aluminium elevator tripod

High-quality aluminium elevator tripod for indoor and outdoor use

- Made from high-quality anodised aluminium
- All plastic parts made from high-quality fibreglass-reinforced polyamide
- The working height is reached smoothly and with millimetre accuracy with the crank handle
- Ground spikes with inlet tappet
- Integrated protective caps that cover the ground spike
- Integrated extension tube for increasing the usage height
- With horizontal level

Min./max. length	95-269 cm
Connection thread	5/8 inch

Art. no. 0714 649 303

P. Qty.: 1

Tile layer laser FLL 13

High-quality line laser with highly visible laser lines for floor layers

- 4 laser lines at 90° angles
- One additional line can be activated
- One-button operation
- Laser lines can be pulsed
- Precise levelling thanks to high-quality levels
- Degree of protection IP 55

Scope of delivery:

Batteries, homing board, protective case, quick start guide, operating instructions

Laser category	2M
Levelling measuring accuracy (+/- per length)	1 mm/m

Continuation **Tile layer laser FLL 13**

Self-levelling range (+/-)	4 Degree
Range without receiver	10 m
Range with receiver	40 m
Min. temperature conditions	-10 °C
Max. temperature conditions	40 °C
Length	115 mm
Width	76 mm
Height	108 mm
IP protection class	IP 54
Type of rechargeable battery/ battery	Alkali
Rechargeable battery/battery life	20 h

Art. no. 5709 300 030

P. Qty.: 1

Laser distance meter WDM 2-18

Handy, precise laser distance meter for measuring lengths and calculating surfaces.

- Simple and fast working
- Very robust
- Accurate measurement of distances with only one person
- Excellent legibility
- Special functions

Max. length measuring range	50 m
Rechargeable battery/battery life	Up to 10000 measurements
Number of rechargeable batteries/batteries	2 PCS
Type of rechargeable battery/ battery	Alkali
Length	116.5 mm
Width	52 mm
Height	26 mm
Min./max. temperature conditions	-10 to 50 °C
Laser wavelength	635 nm
IP protection class	IP 54
Error of measurement for length (+/-)	+/- 1.5 mm

Art. no. 5709 300 522

P. Qty.: 1

Laser range finder WDM 5-12

High-precision, robust laser range finder with inclinometer and compass

- Technical specifications (accuracy ± 1.0 mm, range 80 m) satisfy all the requirements of the new ISO Standard 16331-1
- Large, illuminated display, shock protection through extra-thick soft components
- 8-point compass, 360° tilt sensor, automatic detection of end position, tripod screw allows for precise measuring from the tripod

Functions

- Area calculation
- Volume calculation
- Cubic dimensions
- Tracking (permanent measurement)
- Pythagorean theorem
- Delimiting function
- Timer
- Inclinometer
- Memory (20 locations)
- Compass

Rechargeable battery/battery life	up to 5000 measurements
Number of rechargeable batteries/batteries	2 PCS
Length	130 mm
Width	61 mm
Height	31 mm
Min./max. temperature conditions	-10 to 50 °C
Laser wavelength	635 nm
IP protection class	IP 65
Error of measurement for length (+/-)	+/- 1 mm

Art. no. 5709 300 510

P. Qty.: 1

Laser range finder WDM 8-14

Highly-precise distance measuring unit according to ISO standard 16331-1

- Built-in colour camera enables digital target acquisition, target finder with 4x zoom
- Numerous indirect measuring options and spirit levels
- Protects against dust and splash water

Functions

- Minimum/maximum measurement
- Area/volume
- Triangle/solid angle
- Trapezoidal measurement
- Pythagorean theorem
- Tracking/inclination
- Height profile measurement
- Delimiting function
- Addition/subtraction
- Pocket calculator

Scope of delivery

One each of laser range finder WDM 8-14, belt holster, operating instructions on CD, quick-start guide

Max. length measuring range	200 m
Rechargeable battery/battery life	up to 5000 measurements
Number of rechargeable batteries/batteries	2 PCS
Type of rechargeable battery/battery	Alkali
Length	143 mm
Width	58 mm
Height	29 mm
Min./max. temperature conditions	-10 to 50 °C
Laser wavelength	635 nm
IP protection class	IP 54
Error of measurement for length (+/-)	+/- 1 mm

Art. no. 5709 300 515

P. Qty.: 1

Data transmission to iPhone and iPad

The measured values can be transmitted to the iPad or iPhone via the Bluetooth smart function using the free Würth app.

Elevator tripod

For rangefinder

Min./max. length	63.5-170 cm
Connection thread	1/4 inch

Art. no. 0714 649 210

P. Qty.: 1

Position finder MD 12

Digital position finder for locating metal, wood and electrical cables

- Automatic calibration
- Effortlessly locate energised and non-energised cables
- Clear borehole guides
- Illuminated display
- 3 detection modes: Dry construction mode, metal mode, mode for energised cables

Max. detection depth	120 mm
Steel detection depth	120 mm
Copper detection depth	80 mm
Current-carrying line detection depth	50 mm
Wooden substructure detection depth	38 mm
Automatic switch-off	5min
Rechargeable battery/battery designation	9 V block; 6LR61; 6AM6
Number of rechargeable batteries/batteries	1 PCS
Length	200 mm
Width	85 mm
Height	32 mm

Art. no. 5709 300 800

P. Qty.: 1

Folding rule

Fibreglass-reinforced, high-quality folding rule for the very toughest jobs

- Fibreglass-reinforced polyamide, indented black graduation in 1 mm increments
- Every tenth number is embossed in red, 90° joint locking, joints with spring rod for even tension
- Can be read from both sides thanks to a backwards-running scale, rule conforms to EEC precision class 3

Continuation **Folding rule**

Max. length measuring range	2 m
Length of link (pivot point)	200 mm
Length (folded up) x width (folded up) x height	235 x 32 x 15 mm

Art. no. 0715 64 605

P. Qty.: 3

Pocket tape measure

High-quality measuring rule with rubberised housing

- Housing made from rubberised, impact-resistant plastic
- Easy to read
- Movable end hooks

Max. length measuring range (L max)	3 m
Width of band (b)	16 mm
Material of the housing	Plastic
Accuracy class	II
Maximum extension before the tape bends (vertical)	2.2 m

Art. no. 0714 64 530

P. Qty.: 1

Corresponds to accuracy class II

Pocket tape measure

High-quality tape measure with plastic housing for simple measuring of all measuring ranges.

- Automatic tape retraction, movable end hooks
- Complies with EC accuracy class II
- Removable belt clip

Material of the housing	ABS
Accuracy class	II

Max. length measuring range (L max)	Width of band (b)	Design	Art. no.	P. Qty.
3 m	16 mm		0714 64 566	1
5 m	25 mm		0714 64 567	1
5 m	25 mm	With magnetic end hook	0714 64 569	1
8 m	25 mm		0714 64 568	1

Pocket tape measure 1C-PT18

High-quality and handy pocket tape measure with impact-resistant plastic housing and yellow painted tape.

- With 2-component lock button, belt clip and wrist strap
- Movable end hooks for internal and external measurements
- Meets EC precision class 2

Material of the housing	Plastic
Accuracy class	II

Max. length measuring range (L max)	Width of band (b)	Maximum extension before the tape bends (vertical)	Art. no.	P. Qty.
2 m	16 mm	220 cm	0714 65 002	1/10
3 m	16 mm	220 cm	0714 65 003	1/10
5 m	19 mm	240 cm	0714 65 005	1/10
8 m	25 mm	3.6 m	0714 65 008	1/10

Tape rule, compact

Sturdy and handy tape measure for professionals

Polyamide capsule

Low weight and high strength

All metallic parts made from stainless steel

Long service life

Crank handle released via a button

Start of tape on front edge of the fitting

Easy measuring at corners

Corresponds to EC accuracy class II

Length of tape (L)	15 m
Width of band (B)	10 mm
Accuracy class	II

Art. no. 0714 641 115

P. Qty.: 1

Steel enclosed tape measure

Complete with 3:1 crank ratio for retracting the tape three times faster

- Painting white with millimetre pitch and metre markers, high abrasion resistance and long service life thanks to the tape's special coating
- The plastic reinforcement prevents the end of the tape from kinking or becoming scratched
- Must be lined up flush, e.g. to a table edge, using the folding plastic anchor

Width of band (B)	13 mm
Accuracy class	II

Continuation **Steel enclosed tape measure**

Length of tape (L)	Art. no.	P. Qty.
10 m	0714 641 601	1
20 m	0714 641 602	1
30 m	0714 641 603	1

Odometer

For distance measurement on construction sites and at roadworks

- High-quality counter, „Made in Germany“
- Dust- and splash-proof
- Backward counting possible
- Sturdy solid wheel in die cast aluminium for maximum running smoothness.
- Fold-out support
- Integrated brake prevents measuring errors.
- Folding guide rod
- All-round rubber precisely ground to 318.5 mm diameter – corresponds to precisely 1 m circumference.
- Every measuring wheel individually inspected and provided with inspection labels.
- Robot-welded frame – for consistent quality.
- Together with rail adapter, also suitable for rail measurements (not included in scope of delivery).
- Including storage bag

Wheel circumference	1 m
Wheel diameter	318.5 mm
Measuring accuracy	< 0.05%
Max. length measuring range	9999.99 m
Material	Aluminium diecasting
Weight	3900 g

Art. no. 0993 714 004

P. Qty.: 1

Hand-held rivet pliers

For processing Ø 2.4 mm, 3 mm and 4 mm blind rivets made of aluminium, copper, steel and stainless steel and Ø 5 mm blind rivets made of aluminium.

Min./max. rivet diameter	2.4-4 mm
Material	Steel
Weight	590 g

Art. no. 0915 12

P. Qty.: 1

Hand-held rivet pliers

With long nozzle for processing 3.2 mm, 4 mm, 4.8 mm diameter blind rivets in aluminium, copper, steel and stainless steel.

- Length of chuck mount incl. chuck: 52 mm
- Diameter of chuck mount: 19 mm

Min./max. rivet diameter	3.2-4.8 mm
Material	Steel

Art. no. 0915 11

P. Qty.: 1

Hand-held rivet pliers

For processing Ø 2.4 mm, 3 mm and 4 mm blind rivets in aluminium, copper, steel and stainless steel and Ø 5 mm blind rivets in aluminium

- Weight: 590 g
- Total length: 260 mm

Min./max. rivet diameter	4-2.4 mm
Material	Steel

Art. no. 0949 15

P. Qty.: 1

Chuck for hand-held rivet pliers

Material	Steel
----------	-------

Diameter of hole	Length	Surface	Art. no.	P. Qty.
1.7 mm		Zinc plated	0946 10 18	1
2.2 mm		Zinc plated	0915 140	1
2.3 mm	7.5 mm	Zinc plated	0946 10 24	1

3.3 mm		Zinc plated	0915 150	1

Hand-held rivet pliers with rotating head

Complete with carrying case
Head rotatable by 360°

Contents:

- Hand rivet tool
- Thread mandrel with nozzle for rivet nuts
M3, M4 and M5
- Chuck with rivet diameter
2.4 mm, 3.0 mm, 3.2 mm and 4.0 mm
- Adapter set for cavity anchor
- Installation key

Min./max. rivet diameter	2.4-4 mm
Material	Steel
Colour	Black
Weight	1950 g
Surface	Lacquered

Art. no. 0949 16

P. Qty.: 1

Nozzle for lever riveter HNG 26/28

Material	Steel
----------	-------

Suitable for rivet diameter	Diameter of hole	Length	Surface	Art. no.	P. Qty.
	3 mm	13.5 mm	Anodised	0946 569 32	1

6.4 mm	4.7 mm	19.1 mm	Anodised	0946 569 880	1

Pneumatic rivet nut unit PEG 312

The smallest, most lightweight pneumatic rivet nut unit for fast and easy processing of rivet nuts made of aluminium, steel and stainless steel in diameter dimensions M3–M12

- Tool-free quick-change system for threaded mandrels
- with clear stroke scale
- Modern, lightweight design
- Automatic drill-in and drill-out system for rivet nuts
- Hanging hook for stationary work
- Deactivation option for 360° air supply
- Additional drill-off button at the back of the casing

Working pressure	7 bar
Stroke length	7 mm
Length	260 mm
Width	85 mm
Height	280 mm

Art. no. 0703 937 55

P. Qty.: 1

- Threaded mandrels and mouthpieces not included in delivery
- For processing stainless steel rivet nuts up to M10

Hand-held rivet setting pliers assortment HES 412

16 pieces in system box 8.4.1. Hand-held rivet setting pliers with quick-change system for processing blind rivet nuts and M4 - M12 bolts.

- Requires less force compared to manual setting pliers
- Quick-change system for mandrels and sleeves
- Clear stroke scale
- Colour coding system for nozzles

Min./max. diameter of rivet-nut thread	4-12 mm
System dimensions	8.4.1
Min./max. rivet diameter	2.4-6.4 mm
Min. diameter of rivet-nut thread	4 mm

Art. no. 5964 094 803

P. Qty.: 1

Hand rivet tool combination assortment

15 pieces in system case. For use with blind rivets and rivet nuts.

Min./max. diameter of rivet-nut thread	4-10 mm
System dimensions	8.4.1
Min./max. rivet diameter	3.2-6.4 mm
Min. diameter of rivet-nut thread	4 mm

Art. no. 5964 949 400

P. Qty.: 1

Hand-held riveting device

Without pin and sleeve

Art. no. 0948 900

P. Qty.: 1

Thread mandrel

Material	Steel
----------	-------

Thread type x nominal diameter	Nominal diameter	Art. no.	P. Qty.

Rivet nut pliers

Hand rivet tool with nozzle quick-change system for use with M3 to M8 rivet nuts (limitations in the M8 range)

Length	276 mm
Product weight (per item)	750 g

Art. no. 0917 101

P. Qty.: 1

Thread mandrel

With nozzle, for all rivet nuts with round pan and countersunk heads of articles with prefix number 0948

Material	Steel
----------	-------

Thread type x nominal diameter	Nominal diameter	Suitable for thread	Art. no.	P. Qty.

M8	8 mm	0917 948 8	1

Conduct your own tests before using non-Würth rivet nuts.

Rivet nut setting pliers HES 510 N

Manual rivet nut setting pliers with twisted rod and quick-change system for working with threaded rivet nuts (M5-M10) and rivet screws (M5-M8).

- Quick-change system
- Thread mandrels with colour-coding system
- Easy stroke adjustment
- Ergonomic hand lever design
- Thread mandrels are pre-mounted on the hand levers
- With pin collector and installation key for thread mandrels

Length	500 mm
Height	50 mm
Width	160 mm
Product weight (per item)	3850 g

Art. no. 0948 880

P. Qty.: 1

Rivet nut setting pliers HES 512 D with twisted rod

Rivet nut setting pliers with patented force transmission for processing M5–M12 rivet nuts.

- 60% less force required when setting rivet nuts compared to conventional hand-held rivet pliers on the market
- Patented tool-free quick-change system for threaded mandrels
- For processing aluminium, steel and stainless steel rivet nuts
- Clear stroke scale
- Supplied in robust metal case
- Threaded mandrels and chucks identical to rivet nut setting pliers HES 512

Length	550 mm
Product weight (per item)	5144 g

Art. no. 0948 870

P. Qty.: 1

Hammer tacker ST 19 Ergonomic

Light-weight professional hammer tacker for staples up to 6 mm long

- Balanced weight distribution
- Rebounding head
- Ergonomic handle for fatigue-free operation
- Hinged magazine for 156 staples

Magazine capacity	156 PCS
Suitable for min./max. staple length	4-6 mm

Art. no. 0714 819

P. Qty.: 1

Hammer tacker ST 54

Robust professional tacker with ergonomic handle for staples up to 14 mm long

- Balanced weight distribution
- Rebounding head
- Slip-proof, ergonomic handle
- Large magazine for 168 staples (2 full sticks)
- Wide impact face protects the material being stapled

Magazine capacity	168 PCS
Suitable for min./max. staple length	10-14 mm

Art. no. 0714 854

P. Qty.: 1

Manual stapler HT 34

High-performance manual stapler for staples up to 14 mm long

- Adjustable impact force (max. and min.)
- Recoil-free
- Large magazine for 84 staples
- Rapid loading
- High operational safety

Staple length	6 mm, 8 mm, 10 mm, 12 mm, 14 mm
Suitable for min./max. staple length	6-14 mm
Magazine capacity	84 PCS

Art. no. 0714 834

P. Qty.: 1

Manual stapler HT 53

High impact strength for thinner materials

- Convenient handling
- Recoil-free
- Large magazine for approx. 156 staples
- Simple loading
- High operational safety

Staple length	4 mm, 6 mm, 8 mm, 10 mm
Suitable for min./max. staple length	4-10 mm
Magazine capacity	156 PCS

Art. no. 0714 853

P. Qty.: 1

Staples for hammer stapler

Plain steel

Width (b _i)	10.5 mm
Nominal diameter	0.7 mm
Material	Steel
Surface	Plain

Length (l _i)	Art. no.	P. Qty.
6 mm	0480 113 006	5000
8 mm	0480 113 008	5000

Staples for hand-held and hammer stapler

For universal use for all appropriate staplers

Width (b _i)	10.6 mm
Nominal diameter	1.25 mm
Material	Steel
Surface	Zinc plated

Length (l _i)	Art. no.	P. Qty.
6 mm	0480 140 006	5000
8 mm	0480 140 008	5000

14 mm	0480 140 014	5000

Staples for hand-held stapler

Plain steel

Suitable for hand-held stapler HT53, art. no. 0714853

Width (b ₁)	11.4 mm
Nominal diameter	0.75 mm
Material	Steel
Surface	Zinc plated

Length (l ₁)	Art. no.	P. Qty.
6 mm	0480 153 006	5000
8 mm	0480 153 008	5000
10 mm	0480 153 010	5000

Recoil-free hammer

Housing filled with steel shot

- Nylon striking inserts
- On striking, the steel shot delivers additional impact
- No force lost to recoil

Length	Hammer weight	Art. no.	P. Qty.
350 mm	400 g	0715 72 52	1
375 mm	700 g	0715 72 54	1
385 mm	1000 g	0715 72 56	1
420 mm	1650 g	0715 72 58	1

Simplex soft face hammer

Steel housing

- Impact inserts and handle rapidly replaceable
- Inserts and handle immovably secured
- Soft face hammer with custom equipment
- Impact insert combination creates 2-in-1 soft face hammer
- Includes inserts: Black rubber composition and red plastic

Material	Steel
Material of the handle	Wood

Length of handle	Length	Hammer weight	Art. no.	P. Qty.
278 mm	330 mm	655 g	0715 72 10	1
312 mm	365 mm	1130 g	0715 72 20	1

Impact insert for recoil-free hammer

Hammer head insert diameter (Ø)	Art. no.	P. Qty.
30 mm	0715 72 53	2
40 mm	0715 72 55	2
50 mm	0715 72 57	2
60 mm	0715 72 59	2

Simplex soft face hammer

Aluminium housing

- The light aluminium housing means the hammer is only slightly top-heavy, allowing a targeted striking action
- Major weight advantage over conventional soft face hammers
- The large diameter of the inserts compared to the housing prevents off-target impacts from damaging the workpiece
- Impact inserts do not stain
- 2 hammers in 1 with 2 different impact inserts

Material of the handle	Wood
Length of handle	278 mm
Length	325 mm

Art. no. 0715 72 30

P. Qty.: 1

Secural soft face hammer

Recoil-free soft-face hammer for corners, edges and surfaces for which hammers with round impact inserts are unsuitable.

- Shaped, sheet steel housing
- Ergonomic rubber handle
- Replaceable inserts in yellow polyurethane

Material of the handle	Steel-pipe reinforced rubber
Hammer head insert length x hammer head insert width	30 x 40 mm
Length of handle	278 mm
Length	300 mm
Hammer weight	655 g

Art. no. 0715 72 35

P. Qty.: 1

Machinists' hammer

German type in line with DIN 1041, double-curved ash handle

- Electro-inductively hardened
- Double-curved, varnished ash handle
- Handle secured by ring wedge sealed with synthetic resin

Hammer weight	Length (L)	Art. no.	P. Qty.

90 mm	135 mm	380 mm	0715 734 009	1

Roofing hammer

Professional roofer's hammer for the most exacting demands

- High power transmission and long service life thanks to chromium-steel tube handle
- Precision-ground hammer head
- High-quality claw manufacture makes it possible to pull out small and large nails
- Cross-roughened strip prevents slipping upon impact
- With magnetic nail holder

Hammer weight	600 g
---------------	-------

Art. no. 0714 733 030

P. Qty.: 1

Roofing hammer

German design in line with DIN 7239 with nail groove

- Die-forged and hardened hammer head, black powder-coated
- Crosswise ribbed striking surface
- Non-slip plastic handle and firmly pressed-in, hardened steel tube handle

Hammer weight	600 g
---------------	-------

Art. no. 0715 733 01

P. Qty.: 1

Roofer's hammer

With magnetic nail holder

- Die-forged and hardened hammer head, black powder-coated
- Crosswise ribbed striking surface
- Non-slip plastic handle and firmly pressed-in, hardened steel tube handle

Hammer weight	600 g

		Art. no.	P. Qty.
		0714 733 02	1
		0715 733 02	1

Brick hammer

Berlin type

- High-quality steel tube handle
- Nail puller

Material	Steel
Hammer weight	600 g
Length	320 mm

Art. no. 0715 733 04

P. Qty.: 1

Joint chisel

Flat oval

- Chromium-vanadium air hardening steel
- Hardened safety hammer
- Full length of shaft hardened
- Regrindable blade
- Oil-resistant PVC handles
- Rebound impacts are absorbed by the handle
- Octagonal handle

Length	250 mm
Striking-surface width	13 mm
Striking-surface length x width	26 x 13 mm
Cutting edge width	50 mm

Art. no. 0714 63 37

P. Qty.: 1

Bodywork chisel

Flat oval

- Chromium-vanadium air hardening steel
- Hardened safety hammer
- Full length of shaft hardened
- Regrindable blade
- Oil-resistant PVC handles
- Rebound impacts are absorbed by the handle
- Octagonal handle

Length	230 mm
Cutting edge width	26 mm
Striking-surface length x width	26 x 7 mm

Art. no. 0714 63 35

P. Qty.: 1

Stone chisel

Octagonal

- Chromium-vanadium air hardening steel
- Hardened safety hammer
- Full length of shaft hardened
- Regrindable blade
- Oil-resistant PVC handles
- Rebound impacts are absorbed by the handle
- Octagonal handle

Length	300 mm
Cutting edge width (S)	26 mm
Striking-surface diameter (a)	18 mm

Art. no. 0714 63 36

P. Qty.: 1

Electrician's chisel

- Chromium-vanadium air hardening steel
- Hardened safety hammer
- Full length of shaft hardened
- Regrindable blade
- Oil-resistant PVC handles
- Rebound impacts are absorbed by the handle
- Octagonal handle

Pin punch

2-component plastic handle

Ergonomically shaped 2-component handle

Secure grip, effortless work

Vibration protection

The handle dampens impact vibrations and oscillations

Impact protection

Prevents injuries to the hand

Made from hardened tool steel

Long service life

Hardness at working end 54–58 HRC

Hardness on hammer head 38–46 HRC

Length (L)	150 mm
Striking-surface diameter (S)	10 mm

Width of tip (d)	Art. no.	P. Qty.

Pin punch assortment

5-piece assortment with Ø 2–6 mm

- Ergonomically shaped 2-component handle
- Vibration protection
- Impact protection
- Made from hardened tool steel
- Hardness at working end 54 - 58 HRC
- Hardness at hammer head 38 - 46 HRC

Number of pieces in assortment/set	5 PCS
------------------------------------	-------

Art. no. 0714 63 259

Pin punch set, large dimensions

5 pcs., 2-component plastic handle

- Ergonomically shaped 2-component handle
- Vibration protection
- Impact protection
- Made from hardened tool steel
- Hardness on hammer head: 54 - 58 HRC
- Hardness at hammer head: 38 - 46 HRC

Contents:

- Pin punch, length 230 mm, Ø 8 mm
- Pin punch, length 240 mm, Ø 10 mm
- Pin punch, length 260 mm, Ø 12 mm
- Pin punch, length 280 mm, Ø 14 mm

Bevelled-edge chisel

- High-quality chrome vanadium blades, prevents cutting edges from chipping
- Consistent hardness of 60–61 HRC guarantees high edge retention and optimum effective lengths of blades
- Blades are polished and protected against corrosion with clear lacquer
- The wooden handle is made from hornbeam and varnished nut brown

Produced in line with DIN 5139

Bevelled-edge chisel assortment

6-piece assortment with high-quality, polished and clear-varnished chromium-vanadium blades and wooden handle.

- High-quality chrome vanadium blades, prevents cutting edges from chipping
- Consistent hardness of 60–61 HRC guarantees high edge retention and optimum effective lengths of blades
- Blades are polished and protected against corrosion with clear lacquer
- The wooden handle is made from hornbeam and varnished nut brown

Art. no. 0715 653 001

P. Qty.: 1

Produced in line with DIN 5139

Bevelled-edge chisel

2-component handle for maximum resistance in line with DIN 5139

- Ergonomically shaped 2-component handle
- Metal striking cap
- Polished chromium-vanadium blade

Bevelled-edge chisel set

6 pieces. 2-component handle for maximum loads in line with DIN.

- Non-slip 2-component handle
- Metal striking cap for optimum transfer of impact force, durable
- Polished chromium-vanadium blade
- Clean cuts, long service life

Number of pieces in assortment/set	6 PCS
------------------------------------	-------

Pin punch set

8 pieces: Diameters 0.9; 1.4; 1.8; 2.4; 2.8; 3.4; 3.9; and 5.9 mm

**Ejector drift set with coded guide sleeve
Hardened chromium-vanadium steel inserts
For clamping sleeves**

Art. no. 0714 63 46

P. Qty.: 1

Scriber

Knurled steel handle with screw in straight and bent steel nails

Length	235 mm
--------	--------

Art. no. 0714 70 10

P. Qty.: 1

Carbide scriber

For clear and precise scribing

- Captive carbide needle in brass sleeve
- Needle can be switched quickly into working and neutral position using drop-down mechanism

Length	150 mm
--------	--------

Art. no. 0714 70 04

P. Qty.: 1

Universal scriber

With locking screw

- Stainless steel
- Ideal for marking off parallel lines and circles
- Includes plastic bag

Scribing accuracy	0.1 mm
Max. length measuring range	200 mm

Art. no. 0715 70 20

P. Qty.: 1

Oil marking chalk

Non-papered hexagonal oil-marking chalk for wood, cardboard, textiles, cold and warm iron.

Width x length	12 mm x 120 mm
----------------	----------------

Colour	Art. no.	P. Qty.

Yellow	0984 400 2	12

Chalk holder

Suitable for oil and tyre chalk

Art. no. 0984 400 6

P. Qty.: 1

Tyre chalk

Length	120 mm
--------	--------

Colour	Art. no.	P. Qty.
White	0984 400 7	10
Yellow	0984 400 8	10

Particularly suitable for tyres, even when wet or cold

Carpenter's pencil

With flat lead

- Polished
- Oval, pre-sharpened

Length	240 mm
Width	12 mm
Height	8 mm

Art. no. 0715 64 01

P. Qty.: 6

Masons' pencil

With pointed flat lead

300 mm	13 mm	8 mm	0993 715 030	100

Chalk line reel with gear ratio

For marking out with chalk powder

- Cord reels in rapidly thanks to 5:1 ratio
- Magnesium die-cast housing
- Cord can be extracted in neutral by pushing the handle

Material of the housing	Die-cast magnesium
Colour	Red
Width	84 mm
Length	133 mm
Cord length	30 m

Art. no. 0713 70 220

P. Qty.: 1

Chalk line reel

For marking out with chalk powder

Very light, extremely impact-resistant

Magnesium die-cast housing

Cord rapidly extracted

Cord can be extracted in neutral by pushing the handle

No hook slippage

Toothed, tempered end hook

Safe storage

Hook fixture in housing

Stainless steel belt clip

Material of the housing	Die-cast magnesium
Colour	Red
Width	78 mm
Length	126 mm
Cord length	30 m

Art. no. 0713 70 240

P. Qty.: 1

Powdered chalk

Fine calcium carbonate powder for general work indoors and outdoors

- Good adhesion properties, resistant to rain and wind
- In transparent, resealable plastic bottle

Weight of content	300 g
-------------------	-------

Colour	Art. no.	P. Qty.
Blue	0713 70 08	1
Red	0713 70 082	1
Yellow	0713 70 081	1

RALI® chromium steel reversible blade

For RALI® rabbet plane

Art. no. 0714 64 20

P. Qty.: 5

RALI®

RALI® plane 220

Replaces jack, smoothing and scrub planes

- Replacement blade magazine
- Reversible blades mean no sharpening or whetting of plane iron
- Wear-resistant metal plane base

Art. no. 0714 64 16

P. Qty.: 1

RALI® plane 105

Replaces jack, smoothing and scrub planes

- No sharpening or whetting of plane iron thanks to reversible blades
- Wear-resistant metal plane base
- Impact-resistant, manageable plastic housing
- Adjustable plane mouth
- No adjustment work on plane iron thanks to continuously adjustable chip removal

Art. no. 0714 64 17

P. Qty.: 1

Carbide reversible blade

For RALI® plane

Art. no. 0714 64 18

P. Qty.: 2

Reversible blade, chromium steel

For RALI® plane

Art. no. 0714 64 19

P. Qty.: 5

Replacement blade for smoothing plane

Length	260 mm
Width	40 mm

Art. no. 0713 64 101

P. Qty.: 10

Smoothing plane

Versatile tool for woodwork, metalwork and automobile work

- For skimming filler material such as plaster etc.
- For working plasterboard
- Removes paint residues and rust
- Works hardwood and softwood, hard fibres, plywood, asbestos and plastics

Length	260 mm
Width	40 mm

Art. no. 0713 64 10

P. Qty.: 1

Combination wrench, short type

Metric DIN 3113A/ISO 3318/7738

- Ring side drive: POWERDRIV bi-hex
- Material: Chrome-vanadium steel
- Surface: Chrome-plated, polished heads and ring
- Geometry: Ring end angled 15°, jaw angle 15°

Ratchet combination wrench, metric, straight

- Drive: Modified POWERDRIV bi-hexagon ring end, finely toothed, 72 teeth
- Standard: max. torque according to DIN 899
- Geometry: Straight ring end, jaw angle 15°
- Loosen bolts with the open end and tighten with the ratchet mechanism of the ring end
- Ultra slim ring end for working in tight spaces, 5° angle of rotation, precision-manufactured ring core for smooth, secure movement
- Material: Chromium-vanadium steel
- Basic body surface: chrome-plated, matt satin finish

This is a specialist tool, therefore the ring side is only suitable for loosening bolts to a limited extent.

Multi ratchet combination wrench set

6-piece set including the most common sizes. More free space for fingers or for negotiating obstacles owing to 15° angle of box wrench.

- The multiple profile is suitable for the five most common screw head drives (hexagon metric, square metric, bi-hex metric, hexagon inch, external TX)
- Drive: Ring side bi-hex, fine tooth, 72 teeth with reverse lever for clockwise and anti-clockwise turning
- Geometry: 15° offset heads
- Ring side angled down 15°

Number of pieces in assortment/set	6 PCS
Width across flats	10 mm, 12 mm, 13 mm, 17 mm, 19 mm, 8 mm
Number of teeth	72 PCS

Ratchet combination wrench

Flexible ratchet head provides greater free space for fingers or for negotiating obstacles

- Very rugged, strong ratchets for high tightening torques
- Design: Metric
- Drive: Ring side POWERDRIV bi-hexagon, fine-tooth 72 teeth
- Standard: Max. Torque according to DIN 899
- Material: Chromium-vanadium steel
- Surface: Chrome-plated, matt satin finish
- Geometry: Head offset 15°, ring side 180° joint, strong heads for heavy-duty applications

This special tool may only be subjected to the maximum torque. For this reason, the wrenches are only suitable for loosening bolts to a limited extent.

Ratchet combination wrench

Retaining ring prevents the fastener slipping from the wrench

- Design: metric
- Drive: POWERDRIV bi-hexagon ring end with retaining ring, finely toothed, 72 teeth with reversing lever for clockwise and anti-clockwise rotation and 5° angle of rotation
- Standard: max. torque to DIN 899
- Material: Chromium-vanadium steel
- Surface: Basic body chrome-plated, matt satin finish, ring yellow-nickel-plated
- Geometry: Jaw angle 15°, angled 15°, ring matt nickel-plated

Double ring wrench Powerdriv®

Design: metric, straight

- Drive: POWERDRIV bi-hex
- Standard: DIN 837/ISO 1085
- Material: Chromium-vanadium steel
- Surface: polished, chrome-plated
- Geometry: Straight ring sides, 12° angle of rotation. Thin-walled heads, countersunk on both sides
- Short shaft and slim heads for working in the tightest of spaces.

Malleable cast iron screw clamp with protective cap

For rigid, non-elastic, secure clamping

- Fixed and sliding bars in high-quality, powder-coated malleable iron
- Movable, cold-extruded pressure plate, galvanised
- Slip prevention: if the clamp tilts, a set screw engages in the track guide
- Hollow profile track in cold-drawn quality steel with six-fold ribbing, galvanised
- Spindle with trapezoidal thread, rolled and strain-hardened

Terrace construction clamp

Clamp, open and spread with just one hand

- 150 kg clamping force
- Excellent, comfortable handle design
- Spreading function for increased versatility
- Fixed and sliding bars made of fibreglass-reinforced plastic
- Spacer function for increased convenience

Scope of delivery:

- 1 x terrace construction clamp (incl. terrace clamping jaws)
- 2 x universal clamping jaws for use as versatile one-handed clamp

Overhang	100 mm
Profile thickness	6 mm
Tension force	1500 N

Art. no. 0714 662 451

P. Qty.: 1

One-handed assembly tool from VIKING ARM

High-quality, one-handed assembly tool for the professional craftsman

- Millimetre-precision adjustment of heavy objects (150 kg)
- Quick assembly (lifting, lowering, clamping)
- For a wide range of applications

Max. external clamping width	215 mm
Min./max. internal clamping width	155-380 mm
Overhang	38 mm
Profile thickness	6 mm
Tension force	1.5 kN

Art. no. 0714 662 970

P. Qty.: 1/2

Solid steel screw clamp with wooden handle

Easy and handy clamping tool for flexible, elastic and sensitive clamping.

- Dimensionally stable and warp-resistant even under high loads
- Optimum adaptation and enhanced corrosion protection due to movable galvanised pressure plate
- Extremely wear-resistant and effortless to use
- Optimal power transmission

Max. clamping width	Overhang (L1)	Profile width (B)	Profile thickness (L2)	Art. no.	P. Qty.
160 mm	80 mm	16 mm	7.5 mm	0714 674 16	1/10

600 mm	120 mm	25 mm	12 mm	0714 674 60	1/5

All-steel screw clamp with T-handle

Simple and handy clamping tool, for flexible, elastic and sensitive clamping.

Robust design with reinforced fixed and sliding bars

For maximum loads and optimum security.

Movable special pressure plate, swivels to 35°

Effortlessly adapts to the material being clamped.

Spindle with rolled, strain-hardened and hardened trapezoidal thread

T-handle for very heavy-duty applications.

Profile width (B)	30 mm
Profile thickness (L2)	15 mm

Max. clamping width	Overhang (L1)	Art. no.	P. Qty.
250 mm	120 mm	0714 675 25	1/5

1500 mm	120 mm	0714 675 150	1/5

Screw clamp, malleable cast iron

Flexible 2-component handle

- Ergonomically sophisticated design
- With soft casing that fits nicely in the hand for the toughest demands
- With seam-free smooth cap
- Integrated slip protection prevents the loosening and slipping of the clamp
- Fixed and sliding bars reinforced with corrugations made of high-quality malleable iron, powder-coated
- High-quality hollow profile rail as a reinforcement against torsional forces with 6x fluting

Max. clamping width	Overhang (L1)	Profile width (B)	Profile thickness (L2)	Art. no.	P. Qty.
160 mm	80 mm	25 mm	6 mm	0714 673 116	1/10

300 mm	120 mm	29 mm	9 mm	0714 673 130	1/10
600 mm	120 mm	29 mm	9 mm	0714 673 160	1/5
800 mm	120 mm	9 mm	9 mm	0714 673 180	1/5

All-steel screw clamp

2-component handle

- Ergonomically engineered design
- Soft casing sits comfortably in the hand for heavy-duty requirements
- Smooth, seamless cap
- Hardened fixed bar and pressure plate
- Sliding bar in forged, hardened steel for flexible and elastic clamping
- Surface-coated spindle with trapezoidal thread

Max. clamping width	Overhang (L1)	Profile width (B)	Profile thickness (L2)	Art. no.	P. Qty.
160 mm	80 mm	16 mm	7.5 mm	0714 674 216	1/10
200 mm	100 mm	19.5 mm	9.5 mm	0714 674 220	1/10
250 mm	120 mm	22 mm	10.5 mm	0714 674 225	1/10
300 mm	120 mm	22 mm	10.5 mm	0714 674 230	1/10

One-handed clamp

Clamp, open and spread with just one hand

- Clamp workpieces more securely
- Excellent, comfortable handle design
- Spreading function for increased versatility
- Fixed and sliding bars made of fibreglass-reinforced plastic
- Spacer function for increased convenience

Overhang	100 mm
Profile thickness	6 mm
Tension force	1500 N

Max. external clamping width	Art. no.	P. Qty.
150 mm	0714 662 150	1
300 mm	0714 662 300	1
450 mm	0714 662 450	1
700 mm	0714 662 700	1

Gluing clamp

Adjustable gluing clamp for gentle clamping

Large clamping range with equal pressure force

Corrugated ratchet for reliable pre-setting of clamping arm

Pressure plates made of soft plastic protect against scratching

Max. external clamping width	Overhang	Art. no.	P. Qty.
60 mm	37 mm	0714 661 900	4
100 mm	50 mm	0714 661 901	4

Window installation clamp

The window installation clamp is an assembly aid for setting and aligning wood, plastic and aluminium window frames.

- Can be used for frame thicknesses from 40 – 85 mm
- Replaces wedges and other spacers which previously had to be used to align window frames with the opening.
- Clamp body in fibre-reinforced super polyamide
- Swivelling plastic protective cap on the spindle is used for attaching the clamp to the inner frame and adapts to any frame profile shape. Supported on the opposite side by two slip-resistant steel jaws.
- Spindle and rails in bright galvanised steel
- Handy wooden handles, riveted burr-free

Material	Steel
Min./max. clamping width	40-85 mm
Min. clamping width	40 mm
Max. clamping width	85 mm
Material of the grip handle	Wood
Overhang	60 mm

Art. no. 0715 67 75

P. Qty.: 4

Inflatable air cushion Amo bag

For rapid positioning and spacing when installing windows

- Protects casing and frame
- Amo bags can be reused again and again
- Immediately ready for completion with mountings and joint compound

Min./max. joint width	3 x 50 mm
Load-bearing capacity (single direct)	100 kg
Material	Fibre-reinforced plastic

Art. no. 0715 67 80

P. Qty.: 1/4

Door frame clamp

The door frame clamp fixes and supports the door frame gently and precisely whilst wall joints are filled with foam.

- Eliminates the need for laborious alignment using inserts, wedges or spreaders
- Eliminates distortion even if the internal pressure of the foam is uneven

Min./max. clamping width	545-1010 mm
--------------------------	-------------

Art. no. 0695 965 1

P. Qty.: 1/2

Door frame clamp rack

Equipped with 6 door frame clamps

- The door frame clamp secures and supports the door frame gently and precisely whilst wall joints are filled with foam.
- No need for laborious alignment using inserts, wedges or spreaders
- Eliminates distortion even if the internal pressure of the foam is uneven

Art. no. 0695 965 2

P. Qty.: 1

Window installation tool set

For the fast and simple assembly of windows and doors

- Rotating the handle pushes the two metal plates against one another, allowing very precise adjustment and bracing of the windows during installation.
- The smooth surface of the metal plates means the window can still be aligned after bracing.
- Handle made from 2-component plastic
- Flexible shank between handle and metal plates
- Can be used even in tight spaces

Min./max. spreading height	10-21 mm
Length	360 mm
Spreading range	21 mm

Art. no. 0715 67 120

P. Qty.: 2

Wood clamp

Light wood clamp with continuous pressure control

- Slip-proof cork surface
- No denting
- Highly robust, best-quality hornbeam wood with bright galvanised steel rail

Overhang	110 mm
----------	--------

Max. external clamping width	Art. no.	P. Qty.
200 mm	0715 67 22	1/10
300 mm	0715 67 23	1/10
400 mm	0715 67 24	1/10
600 mm	0715 67 25	1/10
800 mm	0715 67 26	1/10

Door frame straightening clamp

For fast and precise adjustment of the door jamb

- Eliminates the need for laborious alignment using inserts or wedges
- Clamp body in fibre-reinforced super polyamide
- Two fixed rails as counter supports, one moving rail to align the frame (spring-mounted)
- Spindle and rails in bright galvanised steel
- Pressure plates with large protective caps
- Manageable wooden handles, riveted burr-free

Material	PA - Polyamide
Material of the grip handle	Wood
Overhang	70 mm

Art. no. 0715 67 70

P. Qty.: 2

Nut splitter

For the splitting seized nuts up to strength class 6

- The nut splitter is capable of splitting nuts without damaging the stud bolt (where necessary, positioned on the opposite side)
- Compact design for use in restricted spaces
- Damaged and blunt splitting chisels must be replaced to avoid inadvertent chipping
- Die-forged body
- Hardened chisel

Material	Steel
----------	-------

Width across flats, splitter range (A)	Cabinet width (B)	Width (C)	Length (D)	Art. no.	P. Qty.
Wrench size 10 - 17 mm	4.7 mm	33 mm	90 mm	0714 526 020	1
Wrench size 17 - 24 mm	6.5 mm	42 mm	96 mm	0714 526 030	1
Wrench size 24 - 36 mm	9 mm	60 mm	142 mm	0714 526 040	1

Wear safety goggles

Rafter clamp

Manageable clamping tool

- Fixed clamp with tip for driving into rafters
- Recesses on both sides of fixed bar
- Striking surface for driving in the clamp
- Movable, cold-extruded pressure plate, galvanised
- Spindle with rolled and strain-hardened trapezoidal thread, smooth running
- Profile rail in cold-drawn quality steel, galvanised

Max. clamping width	600 mm
Overhang (L1)	120 mm
Profile width (B)	27 mm
Profile thickness (L2)	13 mm

Art. no. 0714 675 960

P. Qty.: 1/5

Panel grip

Panel grip for transporting and lifting panels and boards easily.

- Clamping jaws made from high-quality plastic with a vulcanised rubber coating, for an extremely secure grip and a long service life.
- Clear rubber coating prevents colour from the jaw marking the workpiece.
- Ergonomically designed handles
- Fork shape means clamping jaws can be pushed into the part to be lifted from either the side or the front.

Min./max. clamping width	0-60 mm
Max. loading weight	120 kg
Length	240 mm
Height	170 mm
Width	150 mm

Art. no. 0715 67 45

P. Qty.: 2

Not suitable for use with cranes, hoists or the like

Press-on roller

For pressing on large areas of material bonded with contact adhesive

- Stable metal handle
- High-quality rubber roller

Width	75 mm
Outer diameter	35 mm
Roller material	Rubber
Material of the grip handle	Plastic

Art. no. 0693 011 756

P. Qty.: 1

16 mm strapping system Spannfix

The strapping can withstand extreme loads of 500 kg

- Five times lighter than steel strapping
- Simple securing by hand or using the tensioner
- UV and weather-resistant

Width of band	16 mm
Material of the clamp band	PES - Polyester
Length of tape	850 m
Number of strap clips	1000 PCS

Art. no. 0899 713 000

P. Qty.: 1

Tensioner

For Spannfix strapping system

Multi-functional

Tension and cut the polyester strapping in one step

Easy to use

Material	Steel
----------	-------

Suitable for min./max. strap width	Art. no.	P. Qty.
9-19 mm	0899 713 003	1
19-25 mm	0899 713 006	1

Impact loads may require a larger number of strapping turns!

Strapping clip

For Spannfix strapping system

Simple securing by hand or using the tensioner

- Easy retensioning
- Does not loosen, even during long storage periods

Clips can be used multiple times

Excellent value for money

Material	Steel
----------	-------

Width of band	Width	Art. no.	P. Qty.
13 mm		0899 713 040	1000
16 mm	16 mm	0899 713 001	1000
19 mm	19 mm	0899 713 060	1000
25 mm	25 mm	0899 713 070	500

When lashing bundled goods on a loading surface, loads must be properly secured using non-slip mats and lashing straps.

Impact loads may require a larger number of strapping turns!

Polyester strapping For Spannfix strapping system

Flexible polyester strapping for strapping or bundling a wide range of materials

- Five times lighter than steel tape, tape and clips can be used multiple times
- UV and weather resistant, largely chemical resistant
- No sharp edges, leaves no scratches or rust spots

Material of the clamp band	PES - Polyester
----------------------------	-----------------

Tear-out force	Width of band	Length of tape	Art. no.	P. Qty.
375 daN	13 mm	1100 m	0899 713 840	2
500 daN	16 mm	850 m	0899 713 850	2
725 daN	19 mm	500 m	0899 713 860	2
1250 daN	25 mm	400 m	0899 713 870	2

Loads subject to impact may require additional strapping.

When lashing bundled goods on a loading surface, loads must be properly secured using non-slip mats and lashing straps.

Edge protection

Sturdy edge protection for Spannfix strapping system

- Can be reused multiple times
- Protects the load against damage and the polyester strapping against sharp edges
- UV and weather-resistant

Width	40 mm
Max. tape width	19 mm

Art. no. 0899 713 005

P. Qty.: 500

- Loads subject to impact may require additional strapping.
- The strapping can withstand extreme loads of 500 kg
- Rules of thumb for determining the system strength

Weight of packed items/number of strapping turns

500 kg/2

750 kg/3

1000 kg/4

1500 kg/5

When lashing bundled goods on a loading surface, non-slip mats and lashing belts are required to properly secure loads.

Twin leg external and internal puller Universal

Use as external or internal puller by switching hooks

- Classic puller for secure and rapid removal of races, gears, ball bearings etc.
- Drop-forged cross-beam and hooks
- Gas nitrocarburised spindle
- Precision-milled feet grip parts being removed securely and gently

Number of arms	2 PCS
----------------	-------

External clamping width (A)	Clamping depth (B)	Min./max. internal clamping width (C)	Spindle length	Hook width (D)	Art. no.	P. Qty.
90 mm	100 mm	90-140 mm	140 mm	22 mm	0714 522 090	1
130 mm	100 mm	100-180 mm	140 mm	22 mm	0714 522 130	1
160 mm	150 mm	130-220 mm	210 mm	30 mm	0714 522 160	1
200 mm	150 mm	130-260 mm	210 mm	30 mm	0714 522 200	1
250 mm	200 mm	190-330 mm	280 mm	36 mm	0714 522 250	1
350 mm	200 mm	190-420 mm	280 mm	36 mm	0714 522 350	1
520 mm	200 mm	250-600 mm	310 mm	36 mm	0714 522 520	1

Triple leg external and internal puller Universal

Use as external or internal puller by switching hooks

- Proven model for secure and rapid removal of races, gears, ball bearings etc.
- Even load distribution over 3 pulling hooks for a secure hold and centred removal
- Cross-beam in cast iron due to geometry
- Drop-forged hooks
- Gas nitrocarburised spindle
- Precision-milled feet grip parts being removed securely and gently

Number of arms	3 PCS
----------------	-------

External clamping width (A)	Clamping depth (B)	Min./max. internal clamping width (C)	Spindle length	Hook width (D)	Art. no.	P. Qty.
90 mm	100 mm	90-140 mm	140 mm	22 mm	0714 523 090	1
130 mm	100 mm	100-180 mm	140 mm	22 mm	0714 523 130	1
160 mm	150 mm	130-220 mm	210 mm	30 mm	0714 523 160	1

Universal puller

Three twin leg pullers in one

- With this set you can combine three pullers, which can be adjusted to the corresponding clamping depth depending on the application
- The long, slender hook geometry is particularly suitable for hard-to-reach areas
- Spindle gas-nitrocarburised
- Precision-milled feet securely and gently grasp pulled parts from behind

External clamping width (A)	130 mm
Clamping depth (B1)	100 mm
Clamping depth 2 (B2)	200 mm
Clamping depth 3 (B3)	250 mm
Spindle length	140 mm
Hook width (D)	27 mm
Hook-tip length (E)	6 mm
Hook-tip thickness (F)	3.6 mm
Max. extraction weight (t max)	2.5 t
Thread dimension	M14 x 1.5
Width across flats	17 mm
Min./max. external clamping width	34-130 mm

Art. no. 0714 52 50

P. Qty.: 1

Universal puller set

For six different twin leg and triple leg pullers

- Generous range of equipment for modular system configuration
- The long, slender hook geometry is particularly suitable for hard-to-reach areas
- Scope of delivery with case: one each of twin and triple leg cross-beam, 9 pullers in 3 sizes, 1 spindle

External clamping width (A)	130 mm
Clamping depth (B1)	100 mm
Clamping depth 2 (B2)	200 mm
Clamping depth 3 (B3)	250 mm
Spindle length	140 mm
Hook width (D)	27 mm
Hook-tip length (E)	6 mm
Hook-tip thickness (F)	3.6 mm
Max. extraction weight (t max)	2.5 t
Thread dimension	M14 x 1.5
Width across flats	17 mm

Art. no. 0714 52 500

P. Qty.: 1

External and internal puller set

The variable puller system can be used with 2 or 3 arms.

- Convert from an internal to an external puller or from 2 to 3 puller arms without using tools
- Thanks to the spring mechanism, only 2 arms must be actuated so that all 3 arms open or close
- Under load, the puller arms attach even more securely, the greater the pulling force applied
- Die-forged cross-beam and hooks
- Extremely wear-resistant spindle
- Precision-milled feet securely and gently grasp pulled parts from behind
- 3 internal and 3 external puller arms included in the scope of delivery

Spindle length	190 mm
Min./max. external clamping width	7-140 mm
Min./max. internal clamping width	23-130 mm
External clamping depth	147 mm
Internal clamping depth	140 mm

Art. no. 0715 52 40

P. Qty.: 1

Manual cartridge gun, High-quality

High-quality design, semi-open, made of sheet steel with plastic handle.

- Easy to use and quick feed
- With quick-release device
- Excellent force transmission, thus easier application

Design	High-quality
Colour	Red, Black

Art. no. 0891 00

P. Qty.: 1

Cartridge gun

Sturdy design, semi-open, made of sheet steel with feeding mechanism.

- Immediate power transmission to the push rod possible
- Great value for money

Design	High-quality
Colour	Black, Red

Art. no. 0891 310 1

P. Qty.: 1

Manual cartridge gun Standard

Standard design, semi-open, made of sheet steel with quick-release device.

Design	High-quality
Colour	Black, Red

Art. no. 0891 000 001

P. Qty.: 1

Manual cartridge gun Basic

Simple design, semi-open, made of sheet steel with riveted struts.

Design	Simple
Colour	Red

Art. no. 0891 001

P. Qty.: 1

Standard application nozzle

For bag goods

Material	Plastic
Colour	Transparent
Length	13 cm
Design	With punching mechanism

Art. no. 0891 601 001

P. Qty.: 20

Standard application nozzle

For 300 ml + 310 ml metal cartridges (fine thread)

- Length approx. 8 cm
- Three marked-out V-shaped nozzle cut-outs
- Colour: Transparent

Colour	Transparent
Length	8 cm
Material	Plastic

Art. no. 0890 100 099

P. Qty.: 12

Cover for cartridge tip

For 310 ml plastic cartridges

- Prevents the cartridge tip from drying out
- Easy to clean
- Can also be used on cut application nozzles

Colour	Red
Length	9 cm

Art. no. 0891 664

P. Qty.: 5

Flat spray nozzle for sprayable seam sealing

Special nozzle restoring original OEM seam structure

- For applying Dichtfix sealant

Colour	Transparent
Length	5 cm

Art. no. 0891 628 613

P. Qty.: 12

Application nozzle Standard

For 310 ml plastic cartridges (coarse thread)

Material	Plastic
Colour	Transparent
Length	10.5 cm

Art. no. 0891 653

P. Qty.: 25

Application nozzle

Can be rotated 360°. For 310 ml plastic cartridges (coarse thread)

- Easy to use in hard-to-reach places
- Easy and quick to use

Material	Colour	Length	Art. no.	P. Qty.
Plastic	Transparent	11 cm	0891 653 31	10
PP - Polypropylene	White, Transparent	110 mm	0891 653 3	10

Long application nozzle

For 310 ml plastic cartridges (coarse thread)

Material	Plastic
Colour	Transparent
Length	15 cm

Art. no. 0891 651 12

P. Qty.: 10

Application nozzle

Resealable. For 310 ml plastic cartridges (coarse thread).

- Injection nozzle can be sealed after use with supplied lid
- Slows down the drying out of the processing material

Material	Plastic
Colour	Transparent
Colour of lid	Red
Length	11 cm

Art. no. 0891 653 2

P. Qty.: 24

Caulking gun up to 300 ml 14:1

Robust sausage pack applicator gun can be converted for cartridges of different sizes and thicknesses

- Little effort and even pressing out of the sealant bags
- Immediate power transmission to the push rod
- By simply unscrewing the blue pack piston, also suitable for processing 290 to 310 ml cartridges

Design	Suitable for	Art. no.	P. Qty.
For 300 ml bags		0891 300 310	1
For 600 ml bags	300/600 ml bag	0891 400 610	1

Double cartridge gun For 380/620 ml

For processing 2-component adhesives AI-1 2C-PUR

Ergonomic and balanced handle

- Makes it easy to use the gun
- Possible to release the catch with one hand

High transmission

- The 400 kg push-out force enables gentle and fatigue-free work
- The double transmission distributes the manual power to both push rods to optimum effect

Material	Plastics - Polyamide PA
Product weight (per item)	1378.5 g

Art. no. 0891 601 23

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

PURLOGIC® 2C foam gun Twinpress

For applying 2-component foams, 2 x 110 ml

- Ergonomic and balanced handle
- High transmission
- Non-drip function prevents material overrun
- Snap-fit function enables improved grip and prevents the cartridge from sliding or falling out

Material	Plastics - Polyamide PA
Length	310 mm
Width	178 mm

Art. no. 0891 601 21

P. Qty.: 1

Battery NiMH-CX 14.4 V/1.4 Ah

Nominal voltage	14.4 V/DC
Rechargeable battery/battery capacity	1.4 Ah
Suitable chargers	AL 60-CX

Art. no. 0700 945 430

P. Qty.: 1

Pneumatic application gun Druckfix

Powerful and lightweight pneumatic application gun for applying products in bag goods. Ideally suited for adhesives and sealants with high and low viscosities.

- Lightweight, compact and ergonomic design
- Rotary pressure controller on handle for slow and fast extrusion
- Damper on quick-trigger valve ensures optimum movement
- Fully enclosed housing

Suitable for	300/600 ml bag
Flow capacity	7.2 l/min
Length	445 mm
Connection thread	1/4 inch
Weight of machine	0.95 kg

Art. no. 0703 891 600

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

The average consumption for pneumatic application guns is approx. 7.2 litres/minute. Caution: The maximum working pressure for applying sealants is 6 bar.

Pneumatic cartridge gun Kombifix

For 310-ml cartridges

- Automatically reduces the mains pressure to 7-bar working pressure
- Infinitely and finely adjustable
- The amount of spraying air and material can each be regulated individually
- Two-step trigger
- Material feed via telescopic cylinder makes ingress of compressed air into the cartridge impossible
- Scope of delivery includes:
 - 10 plastic nozzles for sprayable seam sealant
 - 1 union nut for sprayable seam sealant
 - 1 union nut for standard sealing compounds
 - 1 connecting nipple, 1/4 inch

Suitable for	310 ml cartridge
Length	350 mm

Art. no. 0891 628 6

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

The average consumption for pneumatic application guns is approx. 7.2 litres/minute. – Caution: The maximum working pressure for applying sealants with this pistol is 7 bar.

All-round paint spray gun AP HVLP

Universal low-pressure paint gun for paints, pre-materials and stains

- Fine, soft, homogeneous spray jet
- Integrated material quantity control
- Stepless round/wide jet control
- Self-adjusting air and material seal
- Plug-in paint screen
- Up to 15% less material consumption thanks to HVLP (high volume, low pressure) low-pressure technology
- High material transfer rate/low working speed

Contents	600 ml
Included in delivery (Lieferumfang)	Paint gun complete, 600 ml plastic cup, connecting nipple, tool set

Art. no. 0891 700 07

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

All-round paint gun AP

Universal high-pressure paint gun suitable for paints, pre-materials and staining

- Integrated material quantity control
- Self-adjusting air and material seal
- Ideally suited for priming and filler products thanks to nozzle design

Contents	600 ml
Included in delivery (Lieferumfang)	Paint gun complete, 600 ml plastic cup, connecting nipple, tool set

Art. no. 0891 700 05

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Zebra® topcoat gun DP 21 RP

Is the all-rounder among spray guns for trade and industry.

- Newly developed nozzle concept for even higher colour accuracy and uniform paint application
- Wider, smoother spray for faster work
- Perfect for applying base and clear lacquers
- Even better surface quality for flawless paint finish
- Very fine material atomisation with reduced fog
- Transfer rate $\geq 65\%$
- Perfect ergonomics for effortless work

Contents	600 ml
Included in delivery (Lieferumfang)	Plastic cup 600 ml, connecting nipple, tool set, 1.4 mm nozzle

Art. no. 0891 700 521

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Paint gun SATA MINIJET 3000 B HVLP

Compact, reduced-mist paint gun

- Applications range from design painting to touch-up work
- Material quantity control, continuous round/flat spray control on both sides
- Self-adjusting air and material seal

Contents	125 ml
Included in delivery (Lieferumfang)	Paint gun complete with 125 ml plastic cup, connecting nipple, tool set and 0.8 mm nozzle

Art. no. 0891 700 000

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Blow-out gun

With standard short nozzle

- Material: Cast aluminium
- Brass coupling connector with 1/4" connection

Design	0° straight
Pipe length	33 mm
Air consumption	330 l/min
Nozzle hole diameter	1.5 mm

Art. no. 0714 921 13

P. Qty.: 1

Blow gun

Continuously adjustable

- Insulated, ergonomic handle
- Lightweight, rugged design

Min./max. temperature conditions	-20 to 60 °C
Nozzle hole diameter	2.9 mm

Design	Pipe length	Air consumption	Art. no.	P. Qty.
Tube angled	90 mm	500 l/min	0714 921 1	1
Tube angled, reduced noise	90 mm	190 l/min	0714 921 2	1
Tube straight	320 mm	500 l/min	0714 921 3	1
Tube straight	490 mm	500 l/min	0714 921 4	1

2-way blow-out gun

With a control button for the infinitely variable adjustment of air flow.

- Scratch-resistant nozzle tip prevents damage
- Includes a long additional nozzle for working in hard-to-reach areas
- Rubberised ergonomic soft grip, also has a cold-insulating effect
- The plug-in air-supply nipple can be attached to the top or bottom as desired

Design	2-fold, Two-piece, Straight, Adjustable
Pipe length	120 mm
Air consumption	330 l/min
Nozzle hole diameter	2.5 mm

Continuation **2-way blow-out gun**

Art. no. 0714 92 02

P. Qty.: 1

HGV compressed air cleaning set basic 3-piece

Practical standard blow-out set for cleaning vehicle cabins on trucks, buses and agricultural and commercial vehicles without external air supply. Removal of dust deposits.

- Can be connected to all pneumatic driver's seats with the supplied T plug-in connector
- Quick-action coupling with partition design
- Blow-out gun can also be used on conventional compressed air connections

Art. no. 0885 848 100

P. Qty.: 1

Tool case

Unequipped aluminium service case with a removable tool tray with two tool holders up to 12 mm and 20 mm in diameter

- High-quality and stable design thanks to anodised aluminium case base plates
- Warp-resistant aluminium frame prevents dust from entering
- Lockable toggle locks (keyed alike)
- Robust metal hinges and top braces
- Padded carry handle, plus support feet and casters on base
- Bottom shell (PS) with separators and lie-flat tool board with holder for one tool up to 20 mm in diameter
- Padded document compartment

Height (C)	190 mm
Width (A)	490 mm
Depth (B)	390 mm
Material	Aluminium
Product weight (per item)	6100 g

Art. no. 0715 93 011

P. Qty.: 1

Tool case

Unequipped polypropylene service case with two removable tool trays and tool pockets

- Sturdy and impact-resistant at high and low temperatures
- Sturdy, dust-proof design
- Very robust carrying handle
- Lockable cylinder locks (keyed alike)
- Metal hinges and top braces
- Base shells with separators
- Carrying capacity up to 30 kg

Height (C)	215 mm
Width (A)	485 mm
Depth (B)	385 mm
Material	PP - Polypropylene
Product weight (per item)	5480 g

Art. no. 0715 930 066

P. Qty.: 1

Tool case with transport rollers

Robust service case made from impact-resistant HDPE plastic

- Large wheels with ball bearings enable you to transport the case without damaging your back
- Telescopic pull-out handle and two additional padded carrying handles
- Lockable toggle locks
- Metal hinges and top braces
- Two removable tool boards with pockets for tools
- Bottom shells with ample storage space and separators
- Adjustable document compartment
- Carrying capacity up to 35 kg

Height (C)	370 mm
Width (A)	500 mm
Depth (B)	450 mm
Colour	Black
Material	HDPE - High density polyethylene
Product weight (per item)	8597.5 g

Art. no. 0715 93 00

P. Qty.: 1

Rolling tool case

HDPE service case

- Sturdy and impact-resistant
- Transport is easy on the back
- Large runners with ball bearings
- Telescopic pull-out handle with extra-padded carry handle
- Lockable toggle lock (keyed alike)
- Metal hinges and top braces
- 1 removable tool panel with pockets
- Bottom shell with separators and lie-flat cover panel with pockets
- Adjustable document pocket
- Carrying capacity up to 35 kg

Height (C)	245 mm
Width (A)	560 mm
Depth (B)	425 mm
Material	HDPE - High density polyethylene
Product weight (per item)	8581 g

Art. no. 0715 93 001

P. Qty.: 1

Case supplied without tools.

Rolling tool case

Robust and shock-resistant at high and low temperatures

- Telescopic pull-out handle and an additional robust carrying handle
- Lockable cylinder locks (keyed alike)
- Metal hinges and top braces
- 2 removable tool panels with slip-in pockets
- Tools stay in the holder pockets during transport
- Base shell with separators
- Can carry up to 35 kg

Height (C)	250 mm
Width (A)	485 mm
Depth (B)	385 mm
Material	PP- Polypropylene
Product weight (per item)	6693 g

Art. no. 0715 930 050

P. Qty.: 1

Tool case

Robust and impact-resistant service case with two removable tool trays and tool pockets

- Double-walled case shells made from high-quality PE plastic
- Lockable toggle locks (keyed alike)
- Metal hinges and top braces
- Padded ABS carrying handle
- Bottom shell with separators and lie-flat cover panel with pockets
- Adjustable document compartment

Height (C)	205 mm
Width (A)	470 mm
Depth (B)	375 mm
Colour	Black
Material	PE - Polyethylene
Product weight (per item)	6120 g

Art. no. 0715 93 01

P. Qty.: 1

Tool bag, small, with plastic base

Robust bag with one-piece zip and waterproof bottom shell made of plastic.

- Polyester insert pockets for tools inside and outside
- Rubber band on the outside for pens and small screwdrivers
- Comfortable leather carry handle

Length x width x height	310 x 190 x 290 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	10 kg
Product weight (per item)	989 g

Art. no. 0715 930 236

P. Qty.: 1

The tools shown are not included.

Tool bag with fold-out sides

Robust bag with waterproof bottom shell made of plastic.

- Nylon and rubber bands inside for tools, rubber band on the outside, exterior pockets for tools
- Fold-out side thanks to robust zip and can be closed with additional hook-and-loop fastening
- Shoulder strap can be removed easily and used as a tool belt.

Length x width x height	470 x 290 x 330 mm
Material	PES - Polyester

Colour	Black, Grey
Max. load capacity	15 kg
Product weight (per item)	2440 g
Min./max. length of shoulder belt	850-1400 mm

Art. no. 0715 930 233

P. Qty.: 1

The tools shown are not included.

Tool bag with plastic base

Tool bag with watertight plastic base for carrying tools and materials directly on your person.

- Organiser front pocket with many extras and dividers
- Additional outer pockets on the sides, document pocket incorporated in the lid
- Shoulder strap can be removed easily and used as a tool belt

Length x width x height	430 x 315 x 340 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	15 kg
Product weight (per item)	3439.5 g

Art. no. 0715 930 246

P. Qty.: 1

The tools shown are not included.

Installation bag without metal parts

Practical bag without metal parts particularly suitable for electrical installation.

- Several rubber bands on the inside and outside for tools
- Polyester insert pockets for tools on the outside
- Adjustable and removable shoulder strap with pad for pleasant wearing comfort

Length x width x height	220 x 220 x 420 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	10 kg
Product weight (per item)	1052 g

Art. no. 0715 930 227

P. Qty.: 1

The tools shown are not included.

Organiser bag

Practical organiser bag with laptop compartment and plenty of storage space for tools.

- Polyester pockets for tools, laptop mains adapter and personal items
- Padded laptop compartment
- Shoulder strap can be removed easily and used as a tool belt.

Length x width x height	430 x 160 x 330 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	5 kg
Product weight (per item)	2100 g

Art. no. 0715 930 250

P. Qty.: 1

The tools shown are not included in the scope of delivery.

Tool bag with plastic base

Robust bag with one-piece zip and waterproof bottom shell made of plastic.

- Shoulder strap can removed easily and used as a tool belt.
- Polyester insert pockets for tools inside and outside, rubber band on the outside for pens and small screwdrivers
- Comfortable leather carry handle

Length x width x height	440 x 250 x 340 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	12 kg
Product weight (per item)	1720 g
Min./max. length of shoulder belt	850-1400 mm

Art. no. 0715 930 223

P. Qty.: 1

The tools shown are not included.

Machine bag with plastic bottom

Robust bag for transporting machines

Plenty of storage space thanks to 9 external and 3 internal pockets

Maximum protection with a stable, water-resistant plastic bottom

Length x width x height	450 x 315 x 340 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	20 kg
Product weight (per item)	2900 g

Art. no. 0715 930 251

P. Qty.: 1

Machines, batteries and battery charger shown are not included in the scope of delivery

Tool case Professional

Particularly robust, torsion-resistant tool box, can be folded open, has sturdy riveted hinges

- Cover with continuous strap hinge
- Folding tubular carry handle
- Can be locked by a padlock

Colour	Traffic red RAL 3020
Material	Sheet steel

Length x width x height	Art. no.	P. Qty.
430 x 200 x 150 mm	0715 93 22	1
430 x 200 x 200 mm	0715 93 23	1
530 x 200 x 200 mm	0715 93 24	1

Tool case Standard

Fold-open tool box with sturdy riveted hinges

- Hammer-tone finish inside and out
- Folding tubular carry handle
- Can be locked by a padlock

Colour	Blue
Material	Sheet steel

Length x width x height	Art. no.	P. Qty.
430 x 200 x 200 mm	0715 93 20	1
530 x 200 x 200 mm	0715 93 21	1

Tool case

Made from sheet steel, robust design with reinforced lid

- Splash-proof lid
- Small parts insert with spirit level brackets
- Can be locked with a padlock

Colour	Reseda green RAL 6011
Material	Sheet steel

Length x width x height	Art. no.	P. Qty.
690 x 360 x 310 mm	0715 93 170	1
830 x 440 x 340 mm	0715 93 180	1

Multi-box tool box

3-in-1 concept. 2 robust and very resistant storage boxes incl. stools.

- Sturdy and hard-wearing box with two removable inserts
- Max. load-bearing capacity of the stool 150 kg
- Stool with integrated storage compartments for small parts

Height (C)	300 mm
Width (A)	470 mm
Depth (B)	300 mm
Colour	Black
Material	PP - Polypropylene
Product weight (per item)	3910 g

Art. no. 0715 93 600

P. Qty.: 1

Plastic carry box

Lightweight tool box with two separate storage compartments and aluminium handle

Height (C)	180 mm
Width (A)	410 mm
Colour	Black
Material	PP - Polypropylene
Product weight (per item)	507 g

Art. no. 0962 219 200

P. Qty.: 1

Electricians’ tool case Universal

38 pieces. The all-rounder for electricians, including 2-m folding rule.

Length x width x height	470 x 375 x 205 mm
Number of pieces in assortment/set	38 PCS

Art. no. 0965 93 112

Tool case with trolley function

Very robust and versatile tool case with telescopic handle for pushing

- Removable tool insert as well as integrated V-groove with a ruler on the cover
- Integrated rubber seal, metal fastening
- Lockable with padlock

Height (C)	300 mm
Width (A)	710 mm
Depth (B)	330 mm
Colour	Red, Black
Material	PP - Polypropylene
Product weight (per item)	5900 g
Load capacity	35 kg

Art. no. 0962 219 005

P. Qty.: 1

Nail pouch

High-quality belt pouch for holding nails

Robust

Made from heavy-duty cowhide leather

Material	Cowhide leather
Colour	Black

Length x width x height (L x B x H)	Product weight (per item)	Art. no.	P. Qty.
170 x 120 x 35 mm	115 g	0691 800 200	1
170 x 120 x 70 mm	174 g	0691 800 201	1

Multi-pouch

Practical and robust bag

Practical features

- Six pockets of varying sizes
- Clip-hook loop to secure individual items, e.g. adhesive tape

Robust

- Made from strong polyester fabric
- Robust split-leather pockets

Easy to attach to belt

Using tab with press stud.

Length x width x height (L x B x H)	170 x 45 x 270 mm
For belt width	50 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	197 g
Max. load capacity	3 kg

Art. no. 0715 930 006

P. Qty.: 1

Knife pouch

Practical belt pouch to safely transport knives

- Made of durable cowhide leather
- Rivet-reinforced seams
- Pointed shape to hold knives securely

Material	Cowhide leather
Colour	Black

Length x width x height (L x B x H)	Product weight (per item)	Art. no.	P. Qty.
200 x 100 x 40 mm	84 g	0715 93 736	1
210 x 65 x 35 mm	56 g	0715 93 737	1

Leather belt

With metal double-pin buckle

Length x width	1330 x 50 mm
Material	Cowhide leather
Colour	Black
Min./max. waist measurement	800-1200 mm
Product weight (per item)	290 g

Art. no. 0715 93 709

P. Qty.: 1

Carpenter's bag

Belt bag with two large storage compartments for carrying tools and materials directly on your person.

- Two leather outer pockets for screwdrivers, knives and pliers
- Circlip for securing tools up to a maximum weight of 0.5 kg
- Rubber band on the outside for pens and small screwdrivers

Length x width x height (L x B x H)	200 x 140 x 290 mm
For belt width	70 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	380 g
Max. load capacity	4 kg

Art. no. 0715 930 211

P. Qty.: 1

The tools shown are not included.

Tool backpack

Backpack without dividers in the interior with two large net outer pockets for transporting and carrying objects and materials directly on your person.

- Separate laptop compartment
- Additional outer pocket can be closed with zip
- Thick padded back support and padded shoulder straps

Length	320 mm
Width	150 mm
Height	440 mm
Volume	10 l
Max. load capacity	5 kg

Art. no. 0715 930 243

P. Qty.: 1

The tools shown are not included.

Tool rucksack with watertight base shell

High-quality rucksack with several pockets

- Watertight plastic base
- Thickly padded back rest and padded shoulder straps
- Tool pockets; some with Velcro, some with elastic straps
- Net pockets inside and outside, external lockable mobile phone pocket
- Additional hand strap and compartment for business cards
- Inset pocket with inner net, pen and document pockets
- Velcro pocket and small snap hook on the inside

Width	360 mm
Height	460 mm
Volume	15 l
Max. load capacity	12 kg
Depth	200 mm

Art. no. 0715 93 750

P. Qty.: 1

Tool backpack with dividers

Backpack with dividers in the interior with two large net outer pockets for transporting and carrying objects and materials directly on your person.

- 14 insert pockets inside
- Additional outer pocket can be closed with zip
- Thick padded back support and padded shoulder straps

Length	330 mm
Width	110 mm
Height	440 mm
Volume	12 l
Max. load capacity	5 kg

Art. no. 0715 930 244

P. Qty.: 1

The tools shown are not included.

Lunch bag

Spacious lunch bag with coated insulating material.

- Nylon shoulder strap and carrying handle
- ID card holder on the side
- Robust two-piece zip

Length x width x height	300 x 220 x 190 mm
Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	5 kg
Product weight (per item)	377 g

Art. no. 0715 930 242

P. Qty.: 1

The additional products shown are not included in the scope of delivery.

Hammer holder

With belt loop and robust, moving buckle made from stainless steel

- Elasticated strap on the outside for pens and small screwdrivers
- Belt loop and hammer holder made from high-quality polyester (1680 denier)

Length x width x height (L x B x H)	110 x 70 x 160 mm
For belt width	70 mm
Material	PES - Polyester
Colour	Black, Grey
Product weight (per item)	93 g
Max. load capacity	3 kg

Continuation **Hammer holder**

Art. no. 0715 930 230

P. Qty.: 1

The tools shown are not included in the scope of delivery.

Electrician's belt pouch without metal parts

Belt bag with two large storage compartments particularly suitable for electrical installation.

- Four leather outer pockets for screwdrivers, knives and pliers
- Rubber bands on the inside and outside for tools
- Nylon band with clip closure for adhesive tapes

Length x width x height (L x B x H)	250 x 110 x 290 mm
For belt width	70 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	290 g
Max. load capacity	3 kg

Art. no. 0715 930 226

P. Qty.: 1

The tools shown are not included.

Belt bag with drawstring

Bag with convenient drawstring closure for carrying tools and materials directly on your person.

- Two leather outer pockets for screwdrivers, knives and pliers
- Rubber band on the outside for pens and small screwdrivers
- Made from high quality polyester (1680 denier) and velour leather trim on the contact surfaces

Length x width x height (L x B x H)	140 x 100 x 120 mm
For belt width	70 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	193 g
Max. load capacity	3 kg

Art. no. 0715 930 215

P. Qty.: 1

The tools shown are not included.

Drill driver holder, large

Holder with elastic bands for holding drills, bits and bit holder.

- Suitable for left and right-handed persons
- Safety strap with press stud
- Leather outer pocket for screwdrivers, knives and pliers
- Elastic bands for holding 5 bits and drills
- Elastic bands for bit holder as well as one on the outside for pens and small screwdrivers
- Made from high quality polyester (1680 denier) and velour leather trim on the contact surfaces

Length x width x height (L x B x H)	170 x 110 x 290 mm
For belt width	70 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	169 g
Max. load capacity	4 kg

Art. no. 0715 930 228

P. Qty.: 1

The tools shown are not included.

Belt bag set 5-way

Belt bag with two large storage compartments and a drill driver holder for carrying tools and materials directly on your person.

- Three leather external pockets, drill driver holder for left and right-handed users
- High-quality polyester hip pad, three rubber straps on the outside for pens and small screwdrivers
- Circlip for securing tools with a maximum weight of up to 0.5 kg

Length x width x height (L x B x H)	890 x 140 x 330 mm
Belt length	1330 mm
Min./max. waist measurement	800-1200 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	1170 g
Max. load capacity	12 kg

Art. no. 0715 930 213

P. Qty.: 1

The tools shown are not included.

Universal bag

Belt bag with two large storage compartments and a hammer holder for carrying tools and materials directly on your person.

- Two leather outer pockets, free-moving hammer holder, tape measure holder made of stainless steel
- Circlip for securing tools up to a maximum weight of 0.5 kg
- Rubber band on the outside for pens and small screwdrivers

Length x width x height (L x B x H)	200 x 110 x 290 mm
For belt width	70 mm
Material	Polyester/leather
Colour	Black, Grey
Product weight (per item)	400 g
Max. load capacity	4 kg

Art. no. 0715 930 210

P. Qty.: 1

The tools shown are not included.

Power side cutters DIN ISO 5749

For cutting piano wire, hard and soft wire

- Strength-saving, clean cutting thanks to milled precision cutting edge
- High-quality tool steel ensures long service life and precision of blades, even under maximum loads
- Ergonomic and slip-free 2-component comfort handle with narrow collar profile for comfortable working and optimum force transfer
- Inductively hardened precision blades
- Surface: Entirely ground and chrome-plated
- Joint: Lap joint, forged on rivets

Max. soft wire diameter cutting capacity	4 mm
Material	Steel
Surface	Chrome plated
Type of joint	Launched

Wire stripping pliers

Precise, effortless stripping of cables and wires with plastic or rubber insulation

- Long service life and precision of cutting surfaces
- For single, multi and fine-wire conductors
- Opening spring opens pliers automatically
- Ergonomic and non-slip 2-component comfort handle with narrow collar profile
- Adjustment screw can be fixed in place with knurled nut

Length (L)	160 mm
Max. wire diameter (Ø)	5 mm
Max. wire cross section	10 mm ²
Surface	Chrome plated
Length in inches	6 in

Art. no. 0714 01 550

P. Qty.: 1/10

Quick deburrer

Deburring tool supplied with HSS blade, Ø 3.2 mm — ready to use immediately.

- Pivot-mounted blade in direct mount
- Metal blade mount

Length	150 mm
--------	--------

Continuation **Quick deburrer**

Art. no. 0714 42 07

P. Qty.: 1

Water pump pliers DIN ISO 8976

Self-clamping water pump pliers with push button adjustment

Rapid and convenient fine adjustment at the push of a button, directly on the workpiece

Hardened precision teeth

High wear resistance and secure grip

Ergonomic and non-slip 2-component comfort handle with narrow collar profile

Comfortable working and optimum power transmission

Huge gripping capacity yet slim design

Length in inches (L)	10 in
Length (L)	250 mm
Min./max. grip range	10-46 mm

Art. no. 0714 01 563

P. Qty.: 1/5

Pliers Assortment 1

Set comprising combination pliers, stripping pliers and snipe nose pliers and power side cutters

- High-quality tool steel ensures long tool life and precision of gripping and cutting surfaces
- Combination pliers with extra-long blade also suitable for thicker cables
- Stripping pliers with opening spring for automatic opening
- Snipe nose pliers with tips for high bending stresses
- Power side cutters for piano wire, hard and soft wire
- Ergonomic and slip-free 2-component comfort handle with narrow collar profile for comfortable working and optimum force transfer

Size foam section	2
Width x height x depth	335 x 42 x 185 mm

⚡ 1000 V

VDE cable cutters with single blade

For cutting copper and aluminium cable

- For working on live parts up to 1000 V (AC) and up to 1500 V (DC), observing all prescribed safety precautions
- Long service life and precision of cutting surfaces
- Easy and distortion-free cutting action through single- or multi-stranded cable
- Optimal power transmission
- Ergonomic and non-slip 2-component comfort handle with wide VDE collar
- Hardened, precision cutting edges
- Surface ground and chromium-plated
- Bolted and adjustable joint

Length (L)	160 mm
Length in inches (L)	6 in
Max. cable diameter cutting capacity in aluminium/copper	15 mm
Max. aluminium/copper wire cross-section cutting capacity	50 mm ²
EN standard	60900

Continuation **VDE cable cutters with single blade**

Art. no. 0714 01 585

P. Qty.: 1/10

VDE cable shears with dual blade

For cutting copper and aluminium cable; for precutting and recutting

- For working on live parts up to 1000 volts (AC) and up to 1500 volts (DC), observing all prescribed safety precautions
- High-quality tool steel ensures long tool life and precision of cutting surfaces
- Special blade geometry facilitates easy and distortion-free cutting action through single or multi-stranded cable
- 2-stage operation with dual blades for optimum transmission of forces
- Ergonomic and slip-free 2-component comfort handle with wide VDE collar for safe working
- Cutting: hardened precision blades
- Surface: ground and chrome-plated
- Joint: bolted and adjustable

Length (L)	210 mm
Length in inches (L)	8 in
Max. cable diameter cutting capacity in aluminium/copper	20 mm
Max. aluminium/copper wire cross-section cutting capacity	70 mm ²
EN standard	60900

⚡ 1000 V

VDE heavy-duty side cutters, DIN ISO 5749 IEC 60900

For cutting piano wire, hard and soft wire

- For working on live parts up to 1000 volts (AC) and up to 1500 volts (DC), observing all prescribed safety precautions
- Strength-saving, clean cutting thanks to milled precision cutting edge
- High-quality tool steel ensures long service life and precision of blades, even under maximum loads
- Single-component handle with wide VDE collar for safe working
- Inductively hardened precision blades
- Surface entirely ground and chrome-plated
- Lap joint with forged-on axis

VDE one-hand ratchet cutters

EN 60900, IEC 900

Handle:

- Insulated sleeve
- Non-slip

Blade:

- For multi-strand copper and aluminium cables
- Works without compressing cables
- Hardened
- Precision-ground

Shears can be unlocked in any cutting position

Pivot arms:

One-handed operation, optimum lever transmission

Joint:

Ratchet mechanism

Max. cable diameter cutting capacity in aluminium/copper	52 mm
Length (L)	280 mm
Max. aluminium/copper wire cross-section cutting capacity	380 mm ²
Length in inches (L)	7 in

Art. no. 0715 07 56

P. Qty.: 1

△ 1000 V

Not suitable for steel wire.

VDE cable shears

Standard: EN 60900. IEC 900.

- Handles: Dip-insulated plastic, impact-resistant
- Cutting edge: Hardened, precision-ground -> works without compressing cables
- Pivot arms: Lever transmission -> i.e. minimal force required
- Joint: Screw joint, adjustable
- Head: Forged special steel, replaceable
- Application: Cutting, sheath stripping

Length (L)	580 mm
Length in inches (L)	24 in
Max. cable diameter cutting capacity in aluminium/copper	27 mm

Continuation VDE cable shears

Max. aluminium/copper wire cross-section cutting capacity	150 mm ²
EN standard	60900

Art. no. 0715 07 53

P. Qty.: 1

⚡ 1000 V

Not suitable for steel wire

Electronic side cutters, round head

Small bevel

- Standard: DIN ISO 9654
- Handle: Soft comfort-grip handle shells
- Joint: Box joint, high precision, zero-backlash action
- Opening spring: Double spring for automatic opening of pliers
- Blade: For soft wires and some hard wires
- Head: Polished

Length	115 mm
Jaws width	11 mm
Cutting edge length	14 mm
Jaws thickness	7.5 mm
Min./max. soft wire diameter cutting capacity	0.3-1.6 mm
Max. medium wire diameter cutting capacity	1.2 mm

Art. no. 0714 07 36

P. Qty.: 1/10

Electronic side cutters, round head

Wire clamp

- Standard: DIN ISO 9654
- Handle: Soft comfort-grip handle shells
- Joint: Box joint, high precision, zero-backlash action
- Opening spring: Double spring for automatic opening of pliers
- Blade: For soft wires and some hard wires
- Head: Polished

Length	115 mm
Jaws width	11 mm
Cutting edge length	14 mm
Jaws thickness	7.5 mm
Min./max. soft wire diameter cutting capacity	0.3-1.6 mm
Max. medium wire diameter cutting capacity	1.2 mm

Art. no. 0714 07 37

P. Qty.: 1/10

Electronic side cutters, round head

Without bevel, for flush cutting

- Standard: DIN ISO 9654
- Handle: Soft comfort-grip handle shells
- Joint: Box joint, high precision, zero-backlash action
- Opening spring: Double spring for automatic opening of pliers
- Blade: For soft wires and some hard wires
- Head: Polished

Length	115 mm
Jaws width	11 mm
Cutting edge length	14 mm
Jaws thickness	7.5 mm
Min./max. soft wire diameter cutting capacity	0.3-1.3 mm
Max. medium wire diameter cutting capacity	1 mm

Art. no. 0714 07 38

P. Qty.: 1/10

Electronic side cutters, pointed head

Small bevel

- Standard: DIN ISO 9654
- Handle: Soft comfort-grip handle shells
- Joint: Box joint, high precision, zero-backlash action
- Opening spring: Double spring for automatic opening of pliers
- Blade: For soft wires and some hard wires
- Head: Polished

Length	115 mm
Jaws width	11 mm
Cutting edge length	14 mm

Art. no. 0714 07 40

P. Qty.: 1/10

Cable shears

For multi-stranded copper and aluminium cable

- Impact-resistant plastic handle
- No crushing of cables
- Precision-ground cutting edge
- Pivot arms with opening spring and catch
- Adjustable screw joint
- Head made of polished stainless steel

Length (L)	160 mm
Length in inches (L)	6-1/2 in
Max. cable diameter cutting capacity in aluminium/copper	10 mm
Max. aluminium/copper wire cross-section cutting capacity	24 mm ²

Art. no. 0715 07 51

P. Qty.: 1/24

Not suitable for steel wire.

Combination pliers DIN ISO 5746

For gripping, holding and cutting soft and hard wires and cables

- High-quality tool steel for long service life and precise gripping and cutting surfaces
- Extra-long blade also suitable for thicker cables
- Blades: Additional inductive hardening
- Surface: Entirely polished and sealed with clear lacquer
- Handle shells: PVC, double-dipped
- Joint: Lap joint

Heavy-duty side cutters, reversible

2 tools in one: Side cutters with connectible lever transmission

- Twice the cutting power on pressing the power button
- High cutting power also allows you to cut thick cables
- Avoids hard cutting impact as experienced with conventional side cutters
- Precision cutting has a long service life
- Ergonomic 2-component handle with non-slip surface

Length (L)	200 mm
Max. medium wire diameter cutting capacity	4.5 mm
Max. hard wire diameter cutting capacity	3.5 mm
Max. piano wire diameter cutting capacity	3 mm
Max. soft wire diameter cutting capacity	5 mm
Material	Steel
Surface	Chrome plated
Type of joint	Launched

One-hand ratchet cutters

Handle with hand slip guard

Cutting edge:

- For multi-strand copper and aluminium cables
- Works without compressing cables
- Hardened
- Precision-ground

Shears can be unlocked in any cutting position

Pivot arms:

One-handed operation, optimum lever transmission

Joint:

Ratchet mechanism

Max. cable diameter cutting capacity in aluminium/copper	32 mm
Length (L)	250 mm
Max. aluminium/copper wire cross-section cutting capacity	240 mm ²
Length in inches (L)	6 in

Art. no. 0715 07 54

P. Qty.: 1

Not suitable for steel wire.

Crimping tool C 161

For insulated and uninsulated wire end ferrules in accordance with DIN 46228

- Mandrel pressing
- Made of forged tool steel
- Made in Germany

Min./max. wire cross section	0.5-16 mm ²
Number of crimping points	8 PCS
Length (L)	190 mm
Material	Tool steel
Surface	Burnished
Material of the grip handle	Plastic

Art. no. 0557 10

P. Qty.: 1

Wire stripping pliers, adjustable

Integrated cutting depth adjustment for fine adjustment with different insulation materials

- Adjustable longitudinal stop: 3-18 mm
- Integrated cable cutters: Flexible up to 10.0 mm², rigid up to 1.5 mm²
- Made in Sweden

Length x width x height	191 x 20 x 90 mm
Material	Plastic/metal
Material of the grip handle	2-component plastic

Blade geometry	Min./max. wire cross section	Min./max. American Wire Gauge (AWG) (AWG)	Art. no.	P. Qty.

Straight	0.02-10 mm ²	34-8	0714 108 10	1

Wire stripping pliers SENSOR

Automatic gauging system, no adjustment to cable cross-section is necessary

- No longitudinal stop – longer cable sections can be fed through the body of the pliers and stripped
- Made in Germany

Blade geometry	O-shaped
Length x width x height	166 x 28 x 102 mm
Material	Plastic/metal
Material of the grip handle	Plastic

Type description	Min./max. wire diameter	Art. no.	P. Qty.
SENSOR 1	3.2-4.4 mm	0714 109 044	1
SENSOR 2	4.4-7 mm	0714 109 070	1

Not suitable for working on or in the vicinity of live parts.

Wire stripping pliers AS 61

Automatic gauging system, no adjustment to cable cross-section is necessary

- Pistol grip/design for fatigue-free operation, especially when working on tables and workbenches
- Adjustable longitudinal stop: 5-15 mm
- Integrated cable cutters: Up to 2.5 mm²

Type description	AS 61
Blade geometry	V-shaped
Min./max. wire cross section	0.2-6 mm ²
Min./max. American Wire Gauge (AWG) (AWG)	24-10
Length x width x height	165 x 27 x 140 mm
Material	Plastic/metal
Material of the grip handle	Plastic

Art. no. 0714 109 006

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool CAT

No cutting depth adjustment required

- 2 pairs of blades for two-stage stripping (outer sheath and foil shielding)
- No damage to the inner shielding/cable elements
- Length scaling for accurate stripping

Type description	CAT
Min./max. cable diameter	4.5-10 mm
Length x width x height	100 x 18 x 18 mm

Material	Plastic/metal
Colour	Black, Red

Art. no. 0714 41 045

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool XL

No cutting depth adjustment required. Long design for simplified stripping in device connection boxes.

- 4-blade arrangement for reduced effort and improved precision
- Length scaling for accurate stripping
- Blades coated with titanium nitride for higher cutting speed, longer service life

Type description	XL
Min./max. cable diameter	8-13 mm
Length x width x height	176 x 35 x 30 mm
Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 044

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool UNIVERSAL BASIC

No cutting depth adjustment required

- 4-blade arrangement for reduced effort and improved precision
- Longitudinal stop with 11 mm stripping length for connection clamps (1.5–2.5 mm²)
- Two-way longitudinal stop for right-handed and left-handed users

Type description	UNIVERSAL BASIC
Min./max. cable diameter	8-15 mm
Min./max. wire cross section	1.5-2.5 mm ²
Min./max. American Wire Gauge (AWG)	15-13
Length x width x height	130 x 38 x 25 mm
Material	Plastic/metal
Colour	Black, Red

Art. no. 0714 41 043

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Wire stripping pliers AS 61 PLUS

Integrated cutting depth adjustment for fine adjustment with different insulation materials

- Pistol grip/design for fatigue-free operation, especially when working on tables and workbenches
- Adjustable longitudinal stop: 6-18 mm
- Integrated cable cutters: Up to 2.5 mm²

Type description	AS 61 PLUS
Blade geometry	V-shaped
Min./max. wire cross section	0.2-6 mm ²
Min./max. American Wire Gauge (AWG) (AWG)	24-10
Length x width x height	200 x 28 x 165 mm
Material	Plastic/metal
Material of the grip handle	Plastic

Art. no. 0714 108 006

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Wire stripping and crimping pliers QUADRO

Four functions (cutting, stripping, twisting, crimping) in one tool - saves time and money

- For crimping wire end ferrules on reels in line with VDE 0609 part 1 (profile form: trapezoid)
- Integrated cable cutters: Up to 2.5 mm²
- Twist system prevents the stranded wires from fraying to ensure reliable insertion of the conductor into the wire end ferrule

Type description	QUADRO
Blade geometry	Straight
Min./max. wire cross section	0.5-2.5 mm ²
Min./max. American Wire Gauge (AWG) (AWG)	20-13
Length x width x height	173 x 30 x 98 mm
Material	Plastic/metal
Material of the grip handle	Plastic

Art. no. 0714 108 501

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Automatic self-adjusting wire stripping pliers

Automatic scanning system, no adjustment to cable cross-section is necessary

- Adjustable longitudinal stop: 3-17 mm
- Integrated cable cutters: Flexible up to 10.0 mm², rigid up to 6.0 mm²
- Made in Germany

Blade geometry	Straight
Min./max. wire cross section	0.03-10 mm ²
Min./max. American Wire Gauge (AWG) (AWG)	32-7
Length x width x height	193 x 18 x 96 mm
Material	Plastic/metal
Material of the grip handle	2-component plastic

Art. no. 0714 109 010

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Mechanical manual crimping pliers

Hexagon crimping

- Rotating crimping inserts
- Strength-saving drive
- Accurate identification of crimping insert sizes

Pressing width	5 mm

Cable sheath splitter

For removing all insulation layers from cables of Ø ≥25 mm external.

- Cutting depth can be adjusted from 0-5 mm
- Replaceable blade (can be used on both sides)
- Suitable for longitudinal and circular cuts

Length	154 mm
--------	--------

Continuation **Cable sheath slitter**

Art. no. 0714 41 09

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool AM 130

No cutting depth adjustment required

- Four-blade arrangement for reduced effort and improved precision
- Blades coated with titanium nitride for higher cutting speed, longer service life
- Fastening clip for safe storage

Type description	AM 130
Min./max. cable diameter	8-13 mm
Length x width x height	124 x 35 x 25 mm
Material	Plastic/metal
Colour	Black, Red

Art. no. 0714 41 02

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool AM 130 PLUS

No cutting depth adjustment required. Innovative grommet for fast and easy longitudinal cuts.

- Stripping device for conductors and stranded wires 0.2–0.3–0.8–1.5–2.5–4.0 mm²
- Sliding blade coated with titanium nitride
- Blades coated with titanium nitride for higher cutting speed, longer service life

Type description	AM 130 PLUS
Min./max. cable diameter	8-13 mm
Min./max. wire cross section	0.2-4 mm ²
Min./max. American Wire Gauge (AWG)	24-12
Length x width x height	124 x 37 x 25 mm
Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 031

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping tool KOAX

No cutting depth adjustment required

- 2 pairs of blades for two-stage stripping
- No damage to the inner shielding/cable elements
- Length scaling for accurate stripping

Type description	KOAX
Min./max. cable diameter	4.8-7.5 mm
Length x width x height	98 x 20 x 20 mm
Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 032

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping knife AM 280

Soft-component inserts on strap and handle guarantee maximum grip

- Hooked blade coated with titanium nitride
- Cutting depth adjustable using the screw on the end of the handle
- Blade coated with titanium nitride for higher cutting speed, longer service life

Type description	AM 280
Min./max. cable diameter	8-28 mm
Length x width x height	170 x 29 x 35 mm
Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 01

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping knife AM 280 PLUS

Automatic blade protection – prevents cutting injuries!

- Interchangeable bracket system Ø4–70 mm for sheath stripping all conventional round cables
- Viewing window on the interchangeable bracket for visual inspection of the cutting process (Ø 4–28 mm)
- Cutting depth adjustment of inner knife: max. 3.5 mm
- Cutting depth adjustment of hooked blade: 4 settings (2.8–4.6 mm)

Type description	AM 280 PLUS
Min./max. cable diameter	4-35 mm
Length x width x height	167 x 32 x 38 mm

Continuation **Stripping knife AM 280 PLUS**

Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 110

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Stripping knife AM 281

Soft-component inserts on strap and handle guarantee maximum grip

- Cutting depth adjustable using the screw on the end of the handle
- Blade coated with titanium nitride for higher cutting speed, longer service life
- Automatic adjustment to round or longitudinal cuts

Type description	AM 281
Min./max. cable diameter	8-28 mm
Length x width x height	132 x 29 x 35 mm
Material	Plastic/metal
Colour	Black, Grey, Red

Art. no. 0714 41 00

P. Qty.: 1

Not suitable for working on or in the vicinity of live parts.

Cable knife

Folding cable knife with black, impact-resistant plastic handle

Length	120 mm
Cutting edge length	75 mm

Art. no. 0695 941 09

P. Qty.: 1

Circlip pliers Type C

For bore circlips

Circlip pliers Type B

For shaft locking rings

- Standard: DIN 5254
- Handle: Plastic-coated
- Tip from compressed spring steel
- Inserted tips
- Screwed and mounted joint
- Large locating faces
- Slim pliers head
- Internal spring

Material	Steel
Form	B

Circlip pliers set

4-piece set

- Handle: Plastic-coated
- Tip from compressed spring steel
- Inserted tips
- Screwed and mounted joint
- Large contact surfaces
- Slim pliers head

Contents: 4 pcs

- 1 circlip pliers, shape A, 19 - 60 mm
- 1 circlip pliers, shape B, 19 - 60 mm
- 1 circlip pliers, shape C, 19 - 60 mm
- 1 circlip pliers, shape D, 19 - 60 mm

Carpet knife

With fixed blade and quick-change fastener

- Polished aluminium handle
- Including holster

Length	170 mm
Design	Short

Art. no. 0714 662 12

P. Qty.: 1

2-component carpet knife

With three stop positions and a fully retractable bi-metal blade.

- Fast and easy blade change thanks to magnetic holder
- Ergonomic, non-slip 2-component handle
- Integrated blade magazine for 5 blades

Length	170 mm
--------	--------

Art. no. 0715 66 015

P. Qty.: 1

2-component safety knife

With full, automatic blade retraction and a bi-metal blade

- Fast and easy blade change thanks to magnetic holder
- Ergonomic, non-slip 2-component handle
- Integrated blade magazine for 5 blades

Length	170 mm
--------	--------

Art. no. 0715 66 013

P. Qty.: 1

2C cutter knife with slide

Highly non-slip and ergonomic thanks to high-quality 2-component handle and automatic blade locking

Highly stable and precise blade guide

Very robust blade guide made from stainless steel

Width of knife blade	Length	Art. no.	P. Qty.
9 mm	160 mm	0715 66 274	1
18 mm	170 mm	0715 66 275	1
25 mm	195 mm	0715 66 276	1

1C cutter knife with slider

With automatic blade locking for convenient one-hand operation

- Impact-resistant plastic handle and stainless steel blade guide

Width of knife blade	Length	Art. no.	P. Qty.
9 mm	140 mm	0715 66 060	1/10
18 mm	160 mm	0715 66 210	1/10

ECO cutter knife with clamping wheel

Continuously variable blade locking via clamping wheel

- High-quality and ergonomic grip and removable end cap with recess for safe blade retraction
- Blade clamping using robust clamping screw
- Slide with metal insert nut for long-lasting thread use

Width of knife blade	18 mm
Length	155 mm

Art. no. 0715 66 045

P. Qty.: 1/10

1C cutter knife with clamping wheel

Blade locking via clamping wheel

High stability and precise blade guidance

Impact-resistant plastic handle and stainless steel blade guide

Width of knife blade	25 mm
Length	185 mm

Art. no. 0715 66 350

P. Qty.: 1/10

Carpet knife

With slim, extremely robust metal handle.

- Adjustable blade with 3 locking positions

Length	160 mm
Design	Carpet knife

Art. no. 0715 66 01

P. Qty.: 1

2-component universal knife

With corrosion-resistant blade made of premium stainless steel and case

- Non-slip and ergonomic 2-component handle
- Very high cutting hardness of 58 HRC
- The knife blade is extremely securely connected to the handle
- High-quality case with belt clip

Length	220 mm
Blade length	100 mm
Thickness of blade	2 mm
Width of knife blade	20 mm

Continuation **2-component universal knife**

Material	Stainless steel
Material of the grip handle	2-component plastic
Design	With quiver

Art. no. 0715 66 530

P. Qty.: 1

1-component universal knife

With high-quality 440 A stainless steel blade and case

- Ergonomic handle shape and fine, textured surface
- High cutting hardness of 56 HRC
- The knife blade is extremely securely connected to the handle
- High-quality case with belt clip

Length	225 mm
Blade length	100 mm
Thickness of blade	2 mm
Width of knife blade	20 mm
Material	Stainless steel AISI 440
Material of the grip handle	1-component plastic
Design	With quiver

Art. no. 0715 66 542

P. Qty.: 1

Snap-off blade

Extremely sharp blade for precision cuts even of fine strips. Ideal for paper, film and thin materials.

- Acute blade angle and top-quality steel make the blade extremely sharp
- In practical sliding dispenser

Material	Steel
----------	-------

Blade length	Width of knife blade	Thickness of blade	Cutting edge length	Art. no.	P. Qty.
85 mm	9 mm	0.4 mm	80 mm	0715 66 073	10

140 mm	25 mm	0.7 mm	125 mm	0715 66 351	10

Stainless steel cutting blade

Stainless steel blade for permanently clean cuts.

- No break-off segments, no predetermined breaking points
- Specially hardened cutting blade
- Secure storage in practical push dispenser

Blade length	110 mm
Width of knife blade	18 mm
Thickness of blade	0.5 mm
Material	Stainless steel, 1.4034
Cutting edge length	100 mm

Art. no. 0715 66 085

P. Qty.: 10

Trapezoidal blade

In dispenser

Blade length	61 mm
Width of knife blade	18.7 mm
Thickness of blade	0.65 mm
Material	Carbon steel

Art. no. 0715 66 02

P. Qty.: 100

Hooked blade

In dispenser

Blade length	50 mm
Width of knife blade	18.7 mm
Thickness of blade	0.65 mm
Material	Carbon steel

Art. no. 0715 66 03

P. Qty.: 10/100

Concave blade

For bitumen, PVC etc.

Blade length	59 mm
Thickness of blade	0.65 mm
Material	Steel
Material to be processed	Bitumen, PVC

Art. no. 0715 665 23

P. Qty.: 10

Straight edge blade

For polystyrene etc.

Blade length	180 mm
Thickness of blade	0.65 mm
Material	Steel
Material to be processed	Styrofoam

Art. no. 0715 665 41

P. Qty.: 2

Serrated edge blade

For insulating materials and similar

Blade length	180 mm
Thickness of blade	0.65 mm
Material	Steel
Material to be processed	Insulating materials

Art. no. 0715 665 42

P. Qty.: 2

Bi-metal blade

The bi-metal makes it almost unbreakable

Extremely safe to use

Unbreakable under normal working conditions.

Excellent profitability and efficiency

3 x longer service life than standard blades.

Bendable and flexible

The blade can be bent and worked with as required. (Such special applications are only possible with this blade)

Blade length	61 mm
Width of knife blade	18.7 mm
Thickness of blade	0.6 mm
Material	Bimetal

Art. no. 0715 66 021

P. Qty.: 10

Japanese saw blade

For use in 25 mm cutter knife.

Clean, effortless cutting

Extremely sharp due to special toothing.

Suitable for hard-to-reach areas

Compact, handy and suitable for universal use.

Enables parts to be sawed off flush

Flexible yet rigid for when in use.

Defined cutting depth prevents inadvertent damage

The cutting depth of the blade can be adjusted.

Blade length	140 mm
Width of knife blade	25 mm
Thickness of blade	0.7 mm
Material	Steel
Cutting edge length	110 mm

Material to be processed	Art. no.	P. Qty.
Plastic	0715 66 353	2
Solid wood (not chipboard)	0715 66 352	2

Scraper and blade set

27-piece scraper set with 4 different scraper blades and carpet knife

- Ergonomic 2C scraper handle with blade clamp
- Carpet knife with multi-stage locking
- Blade can be fully retracted

Number of pieces in assortment/set	27 PCS
Product weight (per item)	533 g

Art. no. 0715 66 40

P. Qty.: 1

Contents for art. no. 0715 66 40

Ergonomic two-part handle with blade clamp for scraper blades

Art. no. 0715 66 41

P. Qty.: 1

Stainless steel impact scraper

Universal scraper with striking cap and stainless steel blade

- Ergonomic 2C handle with non-slip surface to dampen hammer blows
- Spherical striking cap with full blade shaft
- Mirror-polished scraper blade for easy cleaning
- 1.8 mm thick stainless steel blade prevents contact corrosion

Length	235 mm
Blade length	100 mm
Material	Stainless steel AISI 420
Material of the grip handle	2-component plastic

Width of knife blade	Art. no.	P. Qty.
25 mm	0714 663 352	1
50 mm	0714 663 353	1
75 mm	0714 663 354	1

The scraper is intended for use with a hammer but does not substitute a chisel for chiselling work.

Multipurpose scraper

With striking cap and stainless steel blade for scraping and smoothing, extracting nails, cleaning paint rollers.

- Pulling eye for removing nails and pins
- Round cut-out for cleaning paint rollers or pipes
- Pointed blade for scraping out grooves, or for use as a putty knife
- Ergonomic, 2-part, non-slip handle, dampens hammer blows
- Mirror-polished scraper blade for easy cleaning
- 1.8 mm thick stainless steel blade to prevent contact corrosion

Length	235 mm
Width of knife blade	75 mm
Blade length	100 mm
Material	Stainless steel AISI 420
Material of the grip handle	2-component plastic

Art. no. 0714 663 355

P. Qty.: 1

The scraper is intended for use with a hammer but does not substitute a chisel for chiselling work.

Plastic scraper set

2-piece set for gentle removal of stickers, adhesive labels and dirt.

- Low risk of injury
- Robust and resharpenable scraper blade

Number of pieces in assortment/set	2 PCS
Product weight (per item)	180 g

Folding knife DESERT Special Edition

G10 folding knife made of high-quality AUS-8 stainless steel with Linerlock closure

- Premium special edition with handles milled individually from solid piece for optimum grip
- Robust and continually sharp stainless steel blade made of high-quality AUS-8 steel, extreme hardness of 59 HRC due to a special hardening process
- Serrated blade area for cutting belts and ropes

Length	110 mm
Blade length	85 mm
Material of the grip handle	Plastic glass fibre reinforced
Material	Stainless steel

Art. no. 0715 66 556

P. Qty.: 1

Trapezoidal blade knife

With integrated, magnetic 1/4 inch bit holder and cable stripping tool

- Quick and easy extension of blade
- With belt clip for attaching to clothing

Length	125 mm
Blade length	61 mm
Material of the grip handle	Aluminium
Material	Steel

Art. no. 0715 66 515

P. Qty.: 1

Folding knife RESCUE special edition

G10 limited edition folding knife with individually shaped grip plates and a blade with a hardness of 59 HRC

- Premium special edition with handles milled individually from solid piece for optimum grip
- Robust and continually sharp stainless steel blade made of high-quality AUS-8 steel, extreme hardness of 59 HRC due to a special hardening process
- Serrated blade area for cutting belts and ropes

Length	120 mm
Blade length	85 mm
Material of the grip handle	Plastic glass fibre reinforced
Material	Stainless steel

Art. no. 0715 66 558

P. Qty.: 1

Folding knife BLACK ROCK special edition

G10 limited edition folding knife with individually shaped grip plates and a blade with a hardness of 59 HRC

- Premium special edition with handles milled individually from solid piece for optimum grip
- Robust and continually sharp stainless steel blade made of high-quality AUS-8 steel, extreme hardness of 59 HRC due to a special hardening process
- Always to hand thanks to a practical nylon belt pouch

Length	110 mm
Blade length	85 mm
Material of the grip handle	Plastic glass fibre reinforced
Material	Stainless steel

Art. no. 0715 66 557

P. Qty.: 1

3-component safety knife

With fully automatic blade retraction after the cutting process.

- Even when the slide is activated, the blade retracts after leaving the cut material (regardless of person)
- Non-slip and solid 3-component handle
- Tool-free blade change

Length	160 mm
Cutting edge length	61 mm
Blade length	61 mm
Material of the grip handle	Aluminium

Art. no. 0715 66 017

P. Qty.: 1/10

Water pump pliers DIN ISO 8976

Self-clamping water pump pliers with push button adjustment

- Slip-resistant, plastic-coated handle
- Hardened chromium-vanadium steel
- Inductively hardened, polished teeth
- Pinch guard prevents crushing injuries
- Box joint
- Rapid and precise, one-handed fine adjustment directly on the workpiece
- No unintentional adjustment
- Self-clamping on pipes and nuts
- No slippage on workpiece

Material	Chrome-vanadium steel

Plier wrench

Pliers and wrench in one tool

- Plastic-covered handle
- Baking: parallel, smooth and chromium-plated
- No damage to workpiece thanks to zero-backlash surface pressure
- Push-button adjustment Directly on the workpiece
- Joint: box joint
- Force transfer: 10x
- The stroke between the gripping surfaces allows rapid tightening and loosening of bolted connections using the ratchet principle

Push-through ratchet 1/2"

Can be used for step wrenches and push-through squares

- Drive: Square mount 1/2 inch, 30 teeth, 12° angle of rotation
- Standard: DIN 3122, DIN 3120, ISO 3315
- Material: Chrome-vanadium steel
- Surface: polished, chrome-plated, ratchet head black phosphate-coated
- Handle: 2-component handle

Material of the grip handle	2-component plastic
Number of teeth	30 PCS
Ratchet head height (B1)	24.2 mm
Length (L1)	260 mm

Art. no. 0715 43 005

P. Qty.: 1

1/2" push-through square

Length 38 mm

Drive (S2)	1/2 inch
Length (L1)	38 mm

Art. no. 0715 43 011

P. Qty.: 1

Pincers

DIN 5241, German design

Design	Polished head
Surface	Phosphated

Length	Length in inches	Art. no.	P. Qty.
180 mm	7 in	0715 02 01	1
210 mm	8 in	0715 02 02	1
250 mm	10 in	0715 02 03	1

Monier pliers

DIN 5242

Design	Polished head
Surface	Phosphated

Length	Length in inches	Art. no.	P. Qty.
200 mm	5 in	0715 02 04	1
220 mm	8-1/2 in	0715 02 05	1
250 mm	10 in	0715 02 06	1
280 mm	11 in	0715 02 07	1

Power monier pliers/concretors' pliers

Slimline design for working in hard-to-reach spots

- Cutting impact dampening on cutting through binding wire
- High transmission
- Twisted binding wire Ø 2x2 mm is cut effortlessly; soft wire up to max. Ø 5 mm

Length	300 mm
Length in inches	12 in

Design	Surface	Art. no.	P. Qty.
	Nickel plated	0715 02 101	1
Polished head	Phosphated	0715 02 10	1

Sheet metal profile pliers

For connecting sheet metal profiles without screws and bolts

Art. no. 0714 03 1

P. Qty.: 1

Seaming pliers, curved 45 degrees

Forged steel, bronzed, twist-resistant

Width of jaws (outside)	60 mm
Shape of jaws	45° angle
Length	270 mm

Art. no. 0715 43 027

P. Qty.: 1/5

Compact bolt cutters

For cutting hardened steel wires

- Inductively hardened precision blades
- Particularly high cutting performance with low force application thanks to lever transmission

Length	200 mm
Max. soft wire diameter cutting capacity	6 mm
Max. medium wire diameter cutting capacity	5.2 mm
Max. hard wire diameter cutting capacity	4 mm
Max. piano wire diameter cutting capacity	3.6 mm
Material	Steel
Material of the grip handle	Polyvinyl chloride
Length in inches	8 in

Art. no. 0715 06 01

P. Qty.: 1/10

Bolt cutters

- Forged jaws
- Robust tubular handles with PVC grips
- Eccentricity bolt for adjusting jaws

Material	Steel
Material of the grip handle	Polyvinyl chloride

Length	Art. no.	P. Qty.
460 mm	0714 06 460	1
610 mm	0714 06 610	1
760 mm	0714 06 760	1
910 mm	0714 06 910	1

Welded wire mesh cutters

For cutting welded wire mesh.

- PVC handle
- Adjustable jaws

Length	950 mm
Material	Steel
Material of the grip handle	Polyvinyl chloride

Continuation **Welded wire mesh cutters**

Art. no. 0714 06 950

P. Qty.: 1

Spare head

For welded wire mesh cutters

Includes screws

Art. no. 0714 06 951

P. Qty.: 1

Spare head

For bolt cutters

Includes screws

		0714 06 611	1
		0714 06 761	1
		0714 06 911	1

Locking pliers with semi-circular jaws

For clamping pipes and shafts

- Smooth-action release lever with spring mechanism
- Convenient and effortless one-hand operation - pulling instead of pressing
- High-quality zinc coating for extra-long corrosion protection

Material	Steel
----------	-------

Length	Min./max. clamping width	Surface	Product weight (per item)	Art. no.	P. Qty.
140 mm	0-32 mm	Zinc plated	173 g	0715 09 06	1
190 mm	0-42 mm	Nickel plated	378.7 g	0714 09 07	1
190 mm	0-40 mm	Zinc plated	362 g	0715 09 07	1

235 mm	0-48 mm	Nickel plated	552 g	0714 09 08	1

Locking pliers with straight jaws

For clamping sheets and plates

- Smooth-action release lever with spring mechanism
- Convenient and effortless one-hand operation - pulling instead of pressing
- High-quality zinc coating for extra-long corrosion protection

Material	Steel
----------	-------

Length	Min./max. clamping width	Surface	Product weight (per item)	Art. no.	P. Qty.
190 mm	0-35 mm	Zinc plated	357 g	0715 09 09	1
225 mm	0-38 mm	Zinc plated	513 g	0715 09 10	1
235 mm	0-46 mm	Nickel plated	555 g	0714 09 10	1

Locking pliers with long jaws

Material	Steel
Surface	Zinc plated

Length	Min./max. clamping width	Product weight (per item)	Art. no.	P. Qty.
170 mm	0-45 mm	192 g	0715 09 03	1
215 mm	0-50 mm	347 g	0715 09 04	1

Clamping grip pliers, C type

High, long clamping bracket for especially large range

- Smooth-action release lever with spring mechanism
- Convenient and effortless one-hand operation - pulling instead of pressing
- High-quality zinc coating for extra-long corrosion protection

Material	Steel
Surface	Zinc plated

Length	Min./max. clamping width	Clamping depth (T)	Height (W)	Art. no.	P. Qty.
170 mm	0-54 mm	35 mm	55 mm	0715 09 17	1
275 mm	0-98 mm	55 mm	85 mm	0715 09 18	1

290 mm	0-86 mm	52 mm	93 mm	0715 09 23	1

Locking pliers with prism jaws

For a variety of clamping possibilities through combining straight and half-round jaw shapes

- Smooth-action release lever with spring mechanism
- Convenient and effortless one-hand operation - pulling instead of pressing
- High-quality zinc coating for extra-long corrosion protection

Material	Steel
Surface	Zinc plated

Length	Min./max. clamping width	Art. no.	P. Qty.
195 mm	0-35 mm	0715 09 25	1
235 mm	0-47 mm	0715 09 26	1
290 mm	0-62 mm	0715 09 27	1

Chain pipe cutter

Special steel, nickel-plated Secured by grip technology

Minimal force required

Large wing screw

- Easy adjustment during cutting
- Quick adjustment of working range

Chain length (L)	270 mm
------------------	--------

Art. no. 0715 55 10

P. Qty.: 1

- Always guide cutter perpendicular to pipe
- Do not perform axial movements or apply pressure
- Ensure cutting rollers and chain are adequately oiled

Pipe cutter Compact

Easy cutting of aluminium, copper and thin-walled metal pipes.

- Low weight
- Tool-free cutting wheel change
- Steel spindle bearings
- Very small working radius

Min./max. cutting capacity in steel pipe	Art. no.	P. Qty.
3-30 mm	0714 551 127	1
3-16 mm	0714 551 117	1

Steel pipe cutter

Pipe cutter for large pipe diameters

Secure pipe guidance, clean cuts

Broad support rollers

No jamming of cutting wheel when adjusting the cutting depth

Runners on carriage guide

Improved cutting and longer cutting wheel service life

Spring pressure system

Tool-free cutting wheel quick-change system

Min./max. cutting capacity in steel pipe	Art. no.	P. Qty.
10-60 mm	0714 551 460	1
60-114 mm	0714 551 470	1

Cutting wheel

For pipe cutter

Width	Diameter	Outer diameter	Internal diameter	Art. no.	P. Qty.
4.9 mm	11 mm	20 mm	5 mm	0714 551 910	10
4.9 mm	11 mm	20 mm	5 mm	0714 551 940	10
6.2 mm	12 mm	26 mm	4.85 mm	0714 551 960	10

28.2 mm	20 mm	41 mm	9.7 mm	0714 551 962	1

Stainless steel pipe cutter

Easy cutting of aluminium, copper and thin-walled metal pipes. Specifically designed for V2A/INOX pipes.

- Body made from high-pressure die-cast magnesium, slide and turning knob made from high-pressure die-cast zinc
- Tool-free cutting wheel change
- Steel spindle bearings for smoother movement when cutting
- Four needle-mounted guide rollers for optimum pipe grip during cutting
- Longer-turning knob sits deep in the hand for effective power transmission
- Integrated deburring blade for left- and right-handed users

Min./max. cutting capacity in steel pipe	Art. no.	P. Qty.
3-45 mm	0714 551 515	1
3-35 mm	0714 551 510	1

Plastic pipe cutters

For cutting plastic piping and plastic composite piping.

With ratchet function

Minimal force required

- Magnesium die cast shears
Extremely robust yet light
- Blade retraction at the push of a button
Huge time savings
- Shear blade in coated
Stainless steel
Extremely clean cutting action and long service life
- No tools required to change blades

Min./max. cutting capacity in plastic pipe	Min./max. cutting capacity in inches in plastic pipe	Length (L)	Art. no.	P. Qty.
0-50 mm	0-2-1/2 in	280 mm	0715 55 170	1
0-42 mm	0-1-5/8 in	240 mm	0715 55 160	1
0-26 mm	0-1 in	205 mm	0715 55 150	1

Art. no. 071555 150: Without ratchet function or blade retraction

Interior and exterior deburrer

For deburring aluminium, copper and soft steel tubes

- Hardened, ground cutting edges for fast, chatter-free deburring

Length (L1)	50 mm
Min./max. cutting capacity in steel pipe	3-40 mm
Outer diameter (D)	50 mm
Min. cutting capacity in inches in steel pipe	1/8 in
Max. cutting capacity in inches in steel pipe	1 3/8 in
Max. cutting capacity in steel pipe	40 mm

Art. no. 0714 91 20

P. Qty.: 1

Interior and exterior deburrer

For deburring stainless steel, steel, copper and plastic tubes

- Hardened, ground cutting edges for fast, chatter-free deburring

Length (L1)	85 mm
Min./max. cutting capacity in steel pipe	10-54 mm
Outer diameter (D)	65 mm
Min. cutting capacity in inches in steel pipe	1/8 in
Max. cutting capacity in inches in steel pipe	1 3/4 in
Max. cutting capacity in steel pipe	54 mm

Art. no. 0714 91 21

P. Qty.: 1

Ideal snips

Leverage sheet metal snips for continuous and shaped cuts

- Rounded grip made from 2-component plastic
- Lower handle made from 1-component plastic
- Handle heights prevent the shears from slipping out of your hand
- Long service life
- Unserrated cutting geometry
- Lever transmission

Max. cutting capacity in sheet metal	1.8 mm
Max. cutting capacity in stainless steel	1.2 mm

Design	Length (L)	Cutting edge length	Art. no.	P. Qty.
Left-hand cutting	240 mm		0714 03 03	1/5
Left-hand cutting	260 mm	28 mm	0713 03 110	1/5
Right-hand cutting	240 mm		0714 03 04	1/5
Right-hand cutting	260 mm	28 mm	0713 03 100	1/5

Ideal snips with carbide blades

Leverage sheet metal snips for continuous and shaped cuts

- Rounded grip made from 2-component plastic
- Lower handle made from 1-component plastic
- Handle heights prevent the shears from slipping out of your hand
- Long service life
- Inserted cemented carbide blades
- Unserrated cutting geometry
- Lever transmission

Length (L)	260 mm
Cutting edge length	28 mm
Max. cutting capacity in sheet metal	1.8 mm
Max. cutting capacity in stainless steel	1.2 mm

Design	Art. no.	P. Qty.
Left-hand cutting	0713 03 135	1/5
Right-hand cutting	0713 03 130	1/5

Shape-cutting snips

Leverage sheet metal shears for continuous cuts and tight curves

- Rounded grip made from 2-component plastic
- Lower handle made from 1-component plastic
- Handle heights prevent the shears from slipping out of your hand
- Long service life
- Unserrated cutting geometry
- Lever transmission

Length (L)	260 mm
Cutting edge length	28 mm
Max. cutting capacity in sheet metal	1.8 mm
Max. cutting capacity in stainless steel	1.2 mm

Design	Art. no.	P. Qty.
Left-hand cutting	0713 03 120	1/5
Right-hand cutting	0713 03 115	1/5

Sheet metal snips

Extremely manoeuvrable, powerful and compact

- Double leverage
- Small and lightweight
- Extremely compact shearing head
- Shears can be quickly and easily closed and kept closed
- Ergonomically shaped handle
- Optimised cutting geometry

Design	Right-hand cutting
Length (L)	180 mm
Max. cutting capacity in sheet metal	1.2 mm
Max. cutting capacity in stainless steel	0.8 mm

Art. no. 0713 03 200

P. Qty.: 1/5

Wire-cable cutters

For cutting cables, wire cables and piano wire.

- Clean cut thanks to V-shaped cutting geometry
- Your hands do not slip due to PVC-coated handle
- The fixing device holds the shears in the closed position
- Integrated clamping function for pulling out wire cables

Max. piano wire diameter cutting capacity	2.5 mm
Max. wire diameter cutting capacity in 19 HRC steel	4 mm
Max. hard wire diameter cutting capacity	5 mm
Max. soft wire diameter cutting capacity	7 mm
Max. cable diameter cutting capacity in aluminium/copper	5 mm
Length	190 mm

Art. no. 0714 03 601

P. Qty.: 1

Sheet metal shears

Inductively hardened cutting edges guarantee a long service life and optimum cutting results

- Fully die-forged sheet metal shears (head and handle)
- For sheet thickness up to 1 mm
- Cutting length 34 mm

Length (L)	280 mm
------------	--------

Design	Art. no.	P. Qty.
Left-hand cutting	0714 03 10	1/5
Right-hand cutting	0714 03 09	1/5

Punch snip

Inductively hardened cutting edges guarantee a long service life and optimum cutting results

- Fully die-forged sheet metal shears (head and handle)
- For sheet thickness up to 1 mm
- Cutting length 37 mm

Length (L)	250 mm
------------	--------

Design	Art. no.	P. Qty.
Left-hand cutting	0714 03 19	1/5
Right-hand cutting	0714 03 18	1/5

Straight-cutting snips

The wide opening angle of the snips' head and the flat-forged jaws allow very tight curves to be cut

- Leverage reduces the amount of force expended
- Fine serrations on blades prevents sheet metal slippage
- PVC-coated handles with slip guard improve working safety
- Self-opening thanks to integrated spring
- Locking mechanism
- Ergonomically designed handle shape

Max. cutting capacity in sheet metal	1.5 mm
Max. cutting capacity in stainless steel	1 mm
Length	210 mm

Design	Art. no.	P. Qty.
Left-hand cutting	0714 03 01	1/5
Right-hand cutting	0714 03 02	1/5

Sheet metal shears

The cutting edge geometry and favourable leverage facilitate the high cutting performance of 1.8 mm on sheet metals and 1.2 mm on V2A as well as excellent smooth-cutting properties

- Leverage reduces the amount of force expended
- Fine serrations on blades prevents sheet metal slippage
- PVC-coated handles with slip guard improve working safety
- Self-opening thanks to integrated spring
- Locking mechanism
- Ergonomically designed handle shape

Max. cutting capacity in sheet metal	1.8 mm
Max. cutting capacity in stainless steel	1.2 mm
Length	260 mm

Design	Art. no.	P. Qty.
Left-hand cutting	0714 03 12	1/5
Right-hand cutting	0714 03 11	1/5

Pelican snips

Induction hardened cutting edges guarantee a long service life and optimum cutting results

- Fully forged sheet-metal shears (head and handle)
- For sheet thickness up to 1 mm
- Cutting length 62 mm

Design	Right-hand cutting
Length (L)	300 mm

Art. no. 0714 03 13

P. Qty.: 1/5

Mitre snips

For straight and 45° cuts

- Hardened steel
- PVC handle

Length	220 mm
Max. mitre angle	45 Degree
Cutting edge length	55 mm

Art. no. 0714 03 50

P. Qty.: 1

Combination shears

Handy shears for cutting soft materials, film, paper, cardboard and plastics

- Stainless steel blades for extended service life
- Plastic handle
- Shears open automatically when cutting, for your comfort (built-in spring between the handles)
- Stop lever
- Cutting length 42 mm

Design	Right- and left-hand cutting
Length	190 mm

Art. no. 0714 03 14

P. Qty.: 1/24

Work scissors

Robust, high-quality, rust-proof scissors for professional applications

- Long and round handle eye facilitates optimal guidance of the scissors
- Handles painted black
- Cutting length 90 mm

Length	250 mm
Design	Polished blades

Art. no. 0714 03 17

P. Qty.: 1/12

Slate cutters

For cutting, punching and notching natural slate, fibre cement and Eternit

Material: Nickel-plated

Easy, clean and splinter-free work

Cutting performance:

- Slate and Eternit: up to 7 mm thick
- Fibre cement and cement boards: up to 8 mm thick
- Asbestos: up to 4 mm thick

Cutting edges angled 45°

Length	320 mm
Length in inches	13 in
Cutting width	2.8 mm
Cutting length	55 mm
Hole punch diameter	3.2 mm

Art. no. 0714 03 51

P. Qty.: 1

Cordless hammer drill ABH 18 COMPACT M-CUBE

Compact, powerful and brushless cordless hammer drill for moderate drilling and light-duty chiselling work, developed by Würth to meet the requirements of craftsmen

- Long motor service life
- Pleasant, effortless work thanks to anti-vibration function
- Continuous monitoring of the motor

Nominal voltage	18 V/DC
Min./max. idle speed	0-1400 rpm
Min./max. impact rate	0-4800 rpm
Impact energy	2.5 J
Tool holding device	Quick-change holder
Weight of machine with rechargeable battery	3.7 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included; with quick-change drill chuck	5701 403 000	1
With x 5 Ah batteries; with quick-change drill chuck	5701 403 004	1

Cordless hammer drill H 28-MA vibration-dampened

Extremely powerful yet compact, with brushless EC motor and vibration dampening. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Brushless EC motor and electro-pneumatic striking tool
- Lithium-ion technology
- Charge status display on the battery
- Impact stop, chisel function, clockwise/anti-clockwise rotation and throttle switch
- Lightweight, compact and ergonomic design with vibration damping
- LED light

Nominal voltage	28 V/DC
Min./max. idle speed	0-1350 rpm
Min./max. impact rate	0-5000 rpm
Impact energy	4.1 J
Tool holding device	Suitable for SDS-plus
Weight of machine with rechargeable battery	4.7 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Battery not included; with additional accessories	5700 800 02	1
2 x 3 Ah batteries; with additional accessories	5700 800 4	1

Cordless hammer drill H 28-MAS vibration-dampened

Extremely powerful yet compact, with brushless EC motor and vibration dampening, including Interchangeable drill chuck. Choose the battery power you need with PICK YOUR POWER.

- Brushless EC motor and electro-pneumatic impact mechanism
- Lithium-ion technology
- Charge level indicator on the battery
- Impact stop, chisel function, clockwise/anti-clockwise rotation and throttle switch
- Lightweight, compact and ergonomic design with vibration damping

Nominal voltage	28 V/DC
Min./max. idle speed	0-1350 rpm
Min./max. impact rate	0-5000 rpm
Impact energy	4.1 J
Tool holding device	Suitable for SDS-plus/change drill chuck
Weight of machine with rechargeable battery	4.75 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Battery not included; with additional accessories	5700 801 02	1
2 x 3 Ah batteries; with additional accessories	5700 801 4	1

Cordless drill driver ABS 18 COMPACT M-CUBE

Compact, powerful and brushless cordless drill screwdriver for moderate screwing and drilling work, developed by Würth to meet the requirements of craftsmen

- Electronic motor protection function
- 13 mm metal chuck with soldered carbide clamping jaws
- LED light on the battery block

Nominal voltage	18 V/DC
Idle speed 1st/2nd gear min./max.	0-600/0-1900 rpm
Max. torque hard/soft	60/34 Nm
Min./max. drill chuck span width	1.5-13 mm
Drill chuck holder	1/2 inch x 20 UNF
Weight of machine with rechargeable battery	1.9 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included in box	5701 800 0	1
With 2 x 5 Ah batteries; with additional accessories	5701 800 3	1

Battery-powered drill screwdriver ABS 12 COMPACT M-CUBE

Extremely compact and powerful cordless drill screwdriver for light-duty drilling and screwing applications, developed by Würth to meet the requirements of craftsmen

- Compact and ergonomic design
- Motor protection function
- Safe clamping of tools

M-CUBE
NEW BATTERY-SYSTEM

Nominal voltage	12 V/DC
Idle speed 1st/2nd gear min./max.	0-400/0-1500 rpm
Max. torque hard/soft	32/19 Nm
Min./max. drill chuck span width	0.8-10 mm
Drill chuck holder	3/8 inch x 24 UNF
Weight of machine with rechargeable battery	1.21 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
With 2 x 2 Ah batteries; additional accessories not included	5701 101 003	1
Batteries not included in box	5701 101 000	1

Battery-powered drill screwdriver ABS 18 BASIC M-CUBE

Compact and powerful 18-volt cordless drill driver for light to medium-duty drilling and screwdriving applications

- Continuous monitoring of the motor
- Safe clamping of tools
- Comfortable and effortless work, well-lit working area

M-CUBE
NEW BATTERY-SYSTEM

Nominal voltage	18 V/DC
Idle speed 1st/2nd gear min./max.	0-500/0-1600 rpm
Max. torque hard/soft	50/25 Nm
Min./max. drill chuck span width	1.5-13 mm
Drill chuck holder	1/2 inch x 20 UNF
Weight of machine with rechargeable battery	1.6 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included; additional accessories not included	5701 408 000	1
With 2 x 2 Ah batteries; additional accessories not included	5701 408 004	1

Battery-powered impact drill driver BS 28-A COMBI

Extremely powerful, high-performance, compact 28 V cordless impact drill driver with lithium-ion technology. Choose the battery power you need with PICK YOUR POWER.

- Additional impact mode
- Improved, more powerful motor
- Li-ion technology
- Charge status display on the battery
- Overload protection
- High-quality 2-speed planetary gear unit with aluminium housing
- Quick-action drill chuck with spindle lock and carbide inserts
- LED lighting

Nominal voltage	28 V/DC
Max. torque hard/soft	90/55 Nm
Max. impact rate	28800 rpm
Min./max. drill chuck span width	1.5-13 mm
Weight of machine with rechargeable battery	3.1 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included; with additional accessories	0700 647 02	1
2 x 3 Ah batteries; with additional accessories	0700 647 3	1

Cordless drywall screwdriver ATS 18 AUTOMATIC M-CUBE

Light and compact cordless drywall screwdriver with automatic function, developed by Würth to meet the needs of craftsmen

- Fast and comfortable bit change
- Continuous monitoring of the motor
- Simple adjustment of the screw-in depth

Nominal voltage	18 V/DC
Min./max. idle speed	0-5000 rpm
Max. torque	5 Nm
Max. screw diameter	5 mm
Tool holding device	1/4-inch quick-action chuck
Weight of machine with rechargeable battery	1.35 kg

M-CUBE
NEW BATTERY-SYSTEM

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included; additional accessories not included	5701 409 000	1
With two 2 Ah batteries; incl. attachment	5701 409 004	1

✓ **WÜRTH M-CUBE battery system**

✗ **CV battery system**

Cordless screwdriver S 3-A

Handy and compact cordless unit with two speeds for screwing and drilling.

- Suitable for use in tight, hard-to-reach spaces
- 2-speed gear with 15 torque levels and one drilling level
- Inhibitor prevents accidental activation of screwdriver
- Immediate bit mount

Nominal voltage	3.6 V/DC
Idle speed 1st/2nd gear min./max.	0-220/0-450 rpm
Max. torque hard/soft	4/2.7 Nm
Tool holding device	1/4-inch hexagon socket
Weight of machine with rechargeable battery	0.5 kg
Included in delivery (Lieferumfang)	2 x 3.6 V batteries, 1 x AL60-S3 charger

Art. no. 0700 102 2

P. Qty.: 1

Included in delivery: 1 x Charger AL 60-S3; 2 x Battery LI, 3.6 V/2.0 Ah

Cordless impact screwdriver ASS 18-1/4 inch COMPACT M-CUBE

Light and compact cordless impact screwdriver with 1/4 inch bit mount (E 6.3), developed by Würth to meet the needs of tradespeople

- Triple LED on the gear head
- 3 + 3 adjustment options
- Powerful and compact impact screwdriver

M-CUBE
NEW BATTERY-SYSTEM

Type description	ASS 18-1/4 inch COMPACT
Min./max. idle speed	0-3000 rpm
Min./max. impact rate	0-4000 rpm
Max. torque for hard screwing application	295 Nm
Suitable for screw	M5 - M16
Tool holding device	1/4-inch hexagon socket
Weight of machine with rechargeable battery	1.7 kg

		Art. no.	P. Qty.
		5701 415 000	1
		5701 415 004	1

Drill and Chisel Hammer BMH 32-XE

Durable hammer drill and chisel hammer in the top SDS-plus performance class for drilling diameters up to 32 mm in concrete

- Anti-vibration system
- Short drilling times with high impact power
- Chisel function with 4.2 joule individual impact strength
- 24 lockable chisel settings

Nominal voltage	230 V/AC
Power input	900 W
Min./max. idle speed	0-760 rpm
Min./max. impact rate	0-3600 rpm
Impact energy	4.2 J
Tool holding device	Suitable for SDS-plus
Min./max. drilling diameter in concrete	6-32 mm
Weight of machine	4.7 kg
Cable length	4 m

Art. no. 0702 543 2

P. Qty.: 1

Hammer drill/chipping hammer BMH 45-XE

Powerful and anti-vibration 8-kg hammer drill/chipping hammer with SDS-max drive arbour.

- Automatically locking switch in chisel mode
- Electronic adjusting wheel for drilling and impact power
- Indication of malfunctions by service LED
- Anti-vibration system
- Short drilling times with high impact power
- 12 lockable chisel settings

Nominal voltage	230 V/AC
Power input	1500 W
Min./max. idle speed	0-305 rpm
Min./max. impact rate	1380-2760 rpm
Impact energy	12.5 J
Tool holding device	Suitable for SDS-max
Min./max. drilling diameter in concrete	12-45 mm
Weight of machine	8.9 kg
Cable length	4 m

Art. no. 0702 557 1

P. Qty.: 1

Hammer drill H 28-MLS POWER

Extremely powerful hammer drill with active vibration damping and quick-release chuck. Ideal for series drilling

- Very fast drilling progress thanks to high impact energy
- Effortless work due to low vibrations
- The chiselling function means that the machine can also be used for corrective work

Nominal voltage	230 V/AC
Frequency	50 Hz
Power input	850 W
Min./max. idle speed	0-1300 rpm
Min./max. impact rate	0-4000 rpm
Impact energy	3.2 J
Tool holding device	Suitable for SDS-plus
Min./max. drilling diameter in concrete	4-28 mm
Min./max. recommended drilling range for optimum performance (in concrete)	6-18 mm
Max. drilling diameter of hollow drill bit in masonry	68 mm
Weight of machine	3.1 kg
Cable length	4 m
Protection class	Protection class II/protective insulation

Art. no. 5708 204 2

P. Qty.: 1

Hammer drill H 22-SLE

Lightweight and handy hammer drill including three hammer drill bits with diameters of 6, 8, 10 mm

- Ergonomic shape and lightweight for continuous use

Nominal voltage	230 V/AC
Frequency	50 Hz
Power input	700 W
Min./max. idle speed	0-1250 rpm
Min./max. impact rate	0-4500 rpm
Impact energy	2.2 J
Tool holding device	Suitable for SDS-plus
Min./max. drilling diameter in concrete	4-22 mm
Min./max. recommended drilling range for optimum performance (in concrete)	6-14 mm
Max. drilling diameter of hollow drill bit in masonry	68 mm
Weight of machine	2.4 kg
Cable length	4 m
Protection class	Protection class II/protective insulation

Art. no. 5708 200 1

P. Qty.: 1

Hammer drill H 26-MLS

Light and powerful hammer drill, equipped with exchangeable drill chuck and chisel function

- Drilling, hammer drilling and chiselling with adjustable chisel position (3-mode function)
- Lockable switch increases comfort for longer drilling/chiselling work.
- Ball grommet and rotating brush plate

Nominal voltage	230 V/AC
Frequency	50 Hz
Power input	830 W
Min./max. idle speed	0-1300 rpm
Min./max. impact rate	0-4000 rpm
Impact energy	2.7 J
Tool holding device	Suitable for SDS-plus
Min./max. drilling diameter in concrete	4-26 mm
Min./max. recommended drilling range for optimum performance (in concrete)	6-16 mm

Min./max. drilling diameter in steel	4-13 mm
Max. drilling diameter of hollow drill bit in masonry	68 mm
Weight of machine	2.9 kg
Cable length	4 m
Protection class	Protection class II/protective insulation

Art. no. 5708 205 1

P. Qty.: 1

Chipping hammer MH 16-XE

For the toughest applications, e.g. breakthrough and demolition work. In a practical rolling case for easy transport.

- Active vibration damping
- Power for 13-ton daily removal capacity
- Large hammer mechanism
- Robust housing

Nominal voltage	230 V/AC
Power input	1750 W
Min./max. impact rate	0-1300 rpm
Impact energy	41 J
Tool holding device	Hexagon socket 30 mm
Weight of machine	16.5 kg
Cable length	4 m

Art. no. 0702 575 1

P. Qty.: 1

Chisel not included in scope of delivery

Chipping hammer MH 10-SE

The most impact-resistant 10 kg chisel hammer (16.8 joules) with a long service life for heavy-duty demolition and breakthrough work. Supplied in a rugged carrying case with an additional handle, maintenance spray and flat chisel. With SDS-max drive arbour.

- Specially hardened tool chuck, optimised dust seal and high-performance motor with high power reserve
- High removal rate of approx. 490 kg concrete in 60 min.
- Vibration-damped ergonomic handle
- Control electronics
- Constant electronics
- Automatic cut-off carbon brushes
- 12 lockable chisel settings
- Full insulation
- Easy starting of the tool thanks to automatic chuck
- Large on-off slide switch

Nominal voltage	230 V/AC
Power input	1500 W
Min./max. impact rate	900-1890 rpm
Impact energy	16.8 J
Tool holding device	Suitable for SDS-max
Weight of machine	10.1 kg
Cable length	4 m

Art. no. 0702 571 1

P. Qty.: 1

Chipping hammer MH 5-XES

With active damping system for reducing vibrations during operation. With SDS-max mounting shank

- Large, flexible and adjustable additional handle
- Anti-vibration system
- Chisel function with 8-joule impact power
- 18-position chisel adjustment

Nominal voltage	230 V/AC
Power input	1300 W
Min./max. impact rate	1430-2840 rpm
Impact energy	8 J
Tool holding device	Suitable for SDS-max
Weight of machine	6.2 kg
Cable length	4 m

Art. no. 0702 563 1

P. Qty.: 1

Chipping hammer MH 3-XE

Lightweight chisel hammer, designed especially for renovation work in bathrooms and on façades. With SDS-plus drive arbour.

- Perfectly balanced
- Chisel function with 2.6-joule impact power
- Weighs only 3.6 kg
- Automatic cut-off carbon brushes
- Flat chisels can be rotated in 30° increments
- Rapid tool change with specially hardened SDS-plus mount
- Oil lubrication guarantees optimum lubrication at all times
- Continuously adjustable impact rate
- Continuous operation with lock button
- Service cover for rapid carbon changes

Nominal voltage	230 V/AC
Power input	650 W
Min./max. impact rate	0-3500 rpm
Impact energy	2.6 J
Tool holding device	Suitable for SDS-plus
Weight of machine	3.6 kg
Cable length	4 m

Art. no. 0702 238 2

P. Qty.: 1

Chipping hammer MH 11-XE

Powerful and anti-vibration 11-kg chipping hammer with SDS-max drive arbor.

- Electronic adjusting wheel
- 12 lockable chisel settings
- Quiet-running and powerful with anti-vibration system
- Indication of malfunctions by service LED

Nominal voltage	230 V/AC
Power input	1700 W
Min./max. impact rate	900-1700 rpm
Impact energy	23 J
Tool holding device	Suitable for SDS-max
Weight of machine	11.4 kg
Cable length	4 m

Art. no. 0702 572 1

P. Qty.: 1

Drill BM 13-XE

Practical 13 mm drill with ergonomic handle and special plug-in cable system

- Automatic spindle lock
- Single-sleeve quick-action drill chuck with clamping force locking and carbide jaws
- Defective cables can be replaced or longer cables attached within a matter of seconds with a special connection system
- Solid metal planetary gear unit
- Continuous speed control
- 2-speed switch with lock on the outside of the housing
- Right/left switch on top of housing
- Service cover for easy carbon brush changes
- Robust additional handle with depth stop
- Fibreglass-reinforced polyamide housing

Nominal voltage	230 V/AC
Power input	600 W
Idle speed 1st/2nd gear min./max.	0-900/0-2500 rpm
Min./max. drill chuck span width	1-13 mm
Max. drilling diameter in steel	13 mm
Drill chuck holder	1/2 inch x 20 UNF
Weight of machine	2.2 kg
Cable length	4 m

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
No accessories in box	0702 321 0	1
With accessories in system case 8.4.2	0702 321 2	1

Drill BM 10-E COMPACT

Compact, powerful drill for fast, powerful drilling in wood, aluminium, metal and stainless steel

- Excellent weight/power ratio for effortless work
- Belt clip for simple handling
- Robust metal quick-action drill chuck
- Electronic speed control
- Right/left rotation

Nominal voltage	230 V/AC
Power input	600 W
Min./max. idle speed	0-2600 rpm
Max. torque	20 Nm
Min./max. drill chuck span width	1-10 mm
Max. drilling diameter in steel	10 mm
Drill chuck holder	1/2 inch x 20 UNF
Weight of machine	1.7 kg
Cable length	4 m

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Individually boxed	0702 327 0	1
In system case 8.4.2	0702 327 2	1

Drill driver BS 13-SEC POWER

Compact, powerful drill driver for working at very high torques, e.g. holes with large diameters, series screw connection and agitation work.

- 3-stage gear reduction
- Soft start
- Constant electronics
- Electronic torque adjustment
- Right/left rotation
- Cable change system

Nominal voltage	230 V/AC
Power input	1200 W
Min./max. idle speed	70-530 rpm
Max. torque hard/soft	110/65 Nm
Min./max. drill chuck span width	1.5-13 mm
Max. drilling diameter in steel	16 mm
Weight of machine	2.7 kg
Cable length	4 m

Art. no. 0702 315 2

P. Qty.: 1

Percussion drill SB 13-XE

Strong, universal 13 mm impact drill with ergonomic handle and simple switching from normal to impact mode

- Single-sleeve quick-action drill chuck with clamping force locking and carbide jaws
- Defective cables can be replaced or longer cables attached within a matter of seconds with a special connection system
- Solid metal planetary gear unit
- Continuous speed control
- 2-speed switch with lock on the outside of the housing
- Right/left switch on top of housing
- Service cover for easy carbon brush changes
- Robust additional handle with depth stop
- Clamping collar corresponds to European standard

Nominal voltage	230 V/AC
Power input	750 W
Idle speed 1st/2nd gear min./max.	0-1200/0-3400 rpm
Impact rate	31500 rpm
Max. drilling diameter in steel	13 mm

Continuation **Percussion drill SB 13-XE**

Drill chuck holder	1/2 inch x 20 UNF
Min./max. drill chuck span width	1-13 mm
Weight of machine	2.2 kg
Cable length	4 m

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
No accessories in box	0702 322 0	1
With accessories in system case 8.4.2	0702 322 2	1

Angle drill WB 10-RLE

Angle drill with extremely slender rod motor for use in inaccessible areas.

- Narrow corner dimension of the angle drill
- Speed selection adjusting wheel
- Right/left rotation
- Large handle switch

Nominal voltage	230 V/AC
Power input	400 W
Min./max. idle speed	0-1100 rpm
Max. drilling diameter in steel	10 mm
Width across corners	23 mm
Min./max. drill chuck span width	1-10 mm
Weight of machine	1.6 kg
Cable length	4 m

Art. no. 0702 411

P. Qty.: 1

Tile drill NDS 68

Problem-solver for precise drilling through natural stone slabs and ceramic, porcelain or marble tiles with diamond wet drilling technology.

- Infinitely variable speed control
- Minimal bit wear and fast drilling progress
- Slimline and practical housing with additional handle
- Built-in safety during wet drilling due to PRCD safety switch, no additional leakage current box required

Nominal voltage	230 V/AC
Power input	750 W
Min./max. idle speed	3000-10000 rpm
Min./max. drill diameter	4-68 mm
Weight of machine	2.6 kg
Cable length	4 m

Art. no. 0702 419 1

P. Qty.: 1

Dry construction screwdriver S 50 TB

Extremely light and handy dry construction driver

- Specially designed for dry wall screws up to 5 mm in diameter
- Quick-change cable
- Lightweight and handy
- Adjustable depth stop

Nominal voltage	230 V/AC
Power input	500 W
Min./max. idle speed	0-4650 rpm
Max. torque	0.67 Nm
Screw diameter	5 mm
Tool holding device	1/4-inch hexagon socket
Weight of machine	1.5 kg
Cable length	4 m

Art. no. 0702 050 0

P. Qty.: 1

Magazine screwdriver ASSY[®]mat 50 with HS 16

Powerful 750-watt screwdriver with attachment for belted screws 3.5 x 25 – 4.2 x 50 mm, HOLZ HER system.

- Time saving with belt with 166 or 125 screws, depending on dimensions
- With extension, also suitable for floor screws

Nominal voltage	230 V/AC
Power input	750 W
Min./max. idle speed	0-2850 rpm
Weight of machine	1.6 kg
Cable length	4 m

Art. no. 0702 160 1

P. Qty.: 1

Observe the drive unit max. screw diameter.

Magazine screwdriver ASSY®mat 80 with HS 16

Powerful 750-watt screwdriver with attachment for belted screws 4.5 x 40 – 5.0 x 80 mm, HOLZ HER system.

- Time saving with belt with 166 or 125 screws, depending on dimensions
- With extension, also suitable for floor screws

Nominal voltage	230 V/AC
Power input	750 W
Min./max. idle speed	0-2850 rpm
Weight of machine	1.6 kg
Cable length	4 m

Art. no. 0702 160 2

P. Qty.: 1

Observe the drive unit max. screw diameter.

Screw connection unit VSG80

With pneumatic feed. For ergonomic application of winged drilling screws.

- Effortless work with upright posture
- The drilling screw is always screwed into the base at the correct angle
- Stepless adjustment of the screw-in depth
- Stepless adjustment of the pressing force (pneumatic feed)
- Stepless adjustment of the processing speed
- Markings and a large cut-out in the footplate for visualising the setpoint

Nominal voltage	230 V/AC
Power input	1700 W
Idle speed 1st gear min./max.	290-770 rpm
Idle speed 2nd gear min./max.	640-1650 rpm
Max. working pressure	8 bar
Tool holding device	1/4-inch hexagon socket
Product weight (per item)	22000 g
Cable length	10 m

Art. no. 0702 080 0

P. Qty.: 1

The device may only be used as a complete unit, consisting of the drive machine and stand.

High-performance gas-powered nail gun DIGA® CS-2 POWER

High-performance gas device for concrete, steel and full brickwork fixtures

- Independent of stationary or mobile compressed air systems
- Magazine can be replaced without requiring tools
- Light, compact design with short contact arm and very low recoil

Fastening energy	105 J
Nominal voltage	6 V/DC
Rechargeable battery/battery capacity	1.5 Ah
Number of nail insertions per battery charge	3000 PCS
Magazine capacity	40 PCS
Suitable for min./max. nail length	15-40 mm
Suitable for min./max. nail diameter	2.6 - 3.7 mm
Weight of machine with rechargeable battery	3.7 kg

Art. no. 0864 90 2

P. Qty.: 1

High-performance gas device DIGA® WO-1/21

High-performance gas device for wood fixtures with 21° magazine

- Independent of stationary or mobile compressed air systems
- Compact design with very low recoil

Nominal voltage	6 V/DC
Rechargeable battery/battery capacity	1.5 Ah
Number of nail insertions per battery charge	3000 PCS
Magazine capacity	30 PCS
Suitable for min./max. nail diameter	2.8 - 3.1 mm
Suitable for min./max. nail length	65-90 mm
Weight of machine with rechargeable battery	3.5 kg

Art. no. 0864 92

P. Qty.: 1

Charging time (discharged battery) approx. 150 minutes; minimum 24 hours for initial charge and after long periods without use.

High-performance gas device DIGA® WO-1/21 Combi

High-performance gas device for wood fixtures with 21° magazine for affixing round-headed strip nails and adhesive nails.

- 30 round-headed strip nails or 32 adhesive nails in 21° magazine
- Independent of stationary or mobile compressed air systems
- Light, compact design with short contact arm and very low recoil

Nominal voltage	6 V/DC
Rechargeable battery/battery capacity	1.5 Ah
Number of nail insertions per battery charge	3000 PCS
Magazine capacity	30 PCS
Suitable for min./max. nail diameter	2.8 - 3.1 mm
Suitable for min./max. nail length	25-90 mm
Weight of machine with rechargeable battery	3.5 kg

Art. no. 0864 92 1

P. Qty.: 1

Charging time (discharged battery) approx. 150 minutes; minimum 24 hours for initial charge and after long periods without use.

High-performance gas-powered nail gun DIGA® WO-1/34

High-performance gas device for wood connections with 34° magazine

- Independent of stationary and mobile compressed-air systems
- Light, compact design with short contact arm and very low recoil

Nominal voltage	6 V/DC
Rechargeable battery/battery capacity	1.5 Ah
Number of nail insertions per battery charge	3000 PCS
Magazine capacity	40 PCS
Suitable for min./max. nail diameter	2.8 - 3.1 mm
Suitable for min./max. nail length	50-90 mm
Weight of machine	3.5 kg

Art. no. 0864 93

P. Qty.: 1

Charging time (discharged battery) approx. 150 minutes; minimum 24 hours for initial charge and after long periods without use

High-performance gas device DIGA® CSM-1

High-performance gas device for concrete, steel and solid brick/masonry fixtures.

- Independent of stationary or mobile compressed air systems
- Compact design with very low recoil

Fastening energy	150 J
Nominal voltage	6 V/DC
Rechargeable battery/battery capacity	1.5 Ah
Number of nail insertions per battery charge	3000 PCS
Magazine capacity	40 PCS
Suitable for min./max. nail diameter	2.6 - 3.7 mm
Suitable for min./max. nail length	20-65 mm
Weight of machine with rechargeable battery	4.4 kg

Art. no. 0864 94

P. Qty.: 1

Charging time (discharged battery) approx. 150 minutes; minimum 24 hours for initial charge and after long periods without use.

Nails in magazine and gas cartridge NG CS-2 HFBX

Suitable for DIGA CS-2 Power

- High-quality special nail with rolled ballistic tip for fastenings in high-strength concrete
- Fewer setting failures than with conventional nails
- One packing unit includes 800 nails and one gas cartridge

Material of the nail	Steel, specially hardened
Surface	Zinc plated
Diameter of nail	3 mm
Head diameter	6.3 mm
Number of nails	800 PCS
Contents	80 ml
Container	Cartridge

Length of nail	Art. no.	P. Qty.
16 mm	0864 951 316	800/4000
19 mm	0864 951 319	800/4000
22 mm	0864 951 322	800/4000
27 mm	0864 951 327	800/4000
32 mm	0864 951 332	800/4000
38 mm	0864 951 338	800/4000

All nails are suitable for secondary attachments (without technical approval). The maximum tensile forces of individual attachments are at the discretion of the user and must be determined with test attachments or tightening tests.

Adhesive nail

A2 stainless steel, collated. Suitable for DIGA WO-HN 28/35

Scope of delivery:

- Round-headed adhesive nails 24°
- 2 gas cartridges 0864900002 (1 cartridge for approx. 1000 nails)

Diameter of nail (Øds)	2.8 mm
Head diameter (Ø dk)	7 mm
Material of the nail	Stainless steel A2
Surface	Plain
Design	In magazine

Length of nail (Ls)	Art. no.	P. Qty.
25 mm	0864 932 825	2000/6000
32 mm	0864 932 832	2000/6000

Nails in accordance with DIN EN 14952 and A1 (Eurocode 5)

Adhesive nail

**Hot-dip galvanised, collated. Suitable for DIGA
WO-HN 28/35**

Scope of delivery:

- Round-headed adhesive nails 24°
- 2 gas cartridges 0864900002 (1 cartridge for approx. 1000 nails)

Length of nail (Ls)	25 mm
Diameter of nail (Øds)	2.8 mm
Head diameter (Ø dk)	7 mm
Material of the nail	Steel
Surface	Hot dip galvanized
Design	In magazine

Art. no. 0864 902 825

P. Qty.: 2000/6000

Nails in accordance with DIN EN 14592 and A1 (Eurocode 5)

Pin driver BST 350

Semi-automatic pin driver with manual power control

- 6-stage power control
- Extremely easy to use
- Trigger safety catch
- Device in accordance with DIN EN 15895
- Thrust plunger principle
- Complete with carrying case

Fastening energy	200 J
Calibre	6.8/11 M
Bolt guide	8 mm
Recommended max. setting frequency/hour	500 PCS
Thrust load	Low (green), Medium (yellow), Very strong (red)
Weight of machine	2.35 kg

Art. no. 0864 22

P. Qty.: 1

Pneumatic impact screwdriver DSS 1/2 inch Premium Compact

High-quality impact screwdriver in robust, fibreglass-reinforced plastic housing, with above-average performance values and enhanced equipment features.

- Up to max. 1100 Nm Breakaway torque at a weight of just 1.1 kg
- High-quality double hammer impact mechanism and cylinder with unique seven-disc motor
- 4-stage power setting with convenient one-handed conversion
- Particularly ergonomic handle with soft grip components and precise trigger

Tool holding device	1/2-inch external square
Max. working torque	750 Nm
Max. releasing torque	1100 Nm
Sound-pressure level	88.6 dB
Vibration	7.88 m/s ²
Weight of machine	1.1 kg

Art. no. 5714 308 0

P. Qty.: 1

Pneumatic impact screwdriver DSS 3/4 inch Premium P

High-quality impact screwdriver in robust, fibreglass-reinforced plastic housing, with above-average performance and enhanced equipment features.

Recommended maximum bolt size: M32

- Up to max. 1,680 Nm breakaway torque at a weight of 3.18 kg
- High-quality double impact mechanism and cylinder with balanced 6-vane motor
- 4-stage clockwise power setting with convenient one-hand reversing
- Extremely ergonomic soft grip with sensitive trigger

Tool holding device	3/4-inch external square
Max. working torque	1550 Nm
Max. releasing torque	1680 Nm
Sound-pressure level	88.2 dB
Vibration	17.49 m/s ²
Weight of machine	3.18 kg

Art. no. 5714 351 0

P. Qty.: 1

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- When the impact screwdriver is used regularly (e.g. for tyre maintenance), a little oil should be added daily via the air inlet, and approximately 2 strokes of gear grease should be added monthly via the grease nipple.
- Plug-in nipple not included in the scope of delivery

Pneumatic impact screwdriver DSS 1 inch Premium P

High-quality impact screwdriver in robust, fibreglass-reinforced plastic housing, with above-average performance and enhanced equipment features.

Recommended maximum bolt size: M32

- Up to max. 1,680 Nm breakaway torque at a weight of 3.31 kg
- High-quality double impact mechanism and cylinder with balanced 6-vane motor
- 4-stage clockwise power setting with convenient one-hand reversing
- Extremely ergonomic soft grip with sensitive trigger

Tool holding device	1-inch external square
Max. working torque	1550 Nm
Max. releasing torque	1680 Nm
Sound-pressure level	87.8 dB
Vibration	17.46 m/s ²
Weight of machine	3.31 kg

Art. no. 5714 377 0

P. Qty.: 1

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.

Continuation **Pneumatic impact screwdriver DSS 1 inch Premium P**

- When the impact screwdriver is used regularly (e.g. for tyre maintenance), a little oil should be added daily via the air inlet, and approximately 2 strokes of gear grease should be added monthly via the grease nipple.
- Plug-in nipple not included in the scope of delivery

Pneumatic drill DBM 10 plus

Especially lightweight, handy drill with quick-action drill chuck.

- Plastic handle
- Lightweight and compact design, low-vibration
- Integrated silencer
- High-quality chuck
- Precision planetary gearbox
- Touch-sensitive trigger

Max. drill chuck span width	10 mm
Max. idle speed	2000 rpm
Working pressure	6.3 bar
Air consumption	85 l/min
Min. hose inner diameter	8 mm
Weight of machine	1 kg

Art. no. 0703 795 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic drill DBM 10-RL plus

Especially lightweight, handy drill with quick-action drill chuck. Right/left changeover with 10 mm drill chuck.

- Plastic handle
- Lightweight and compact design, low-vibration
- Integrated silencer
- High-quality chuck
- Precision planetary gearbox
- Touch-sensitive trigger

Max. drill chuck span width	10 mm
Max. idle speed	1700 rpm
Working pressure	6.3 bar
Air consumption	96 l/min
Min. hose inner diameter	9 mm
Weight of machine	1 kg

Art. no. 0703 796 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended.
- Supplied without plug-in nipple.

Pneumatic drill DBM 13-RL plus

Especially lightweight, handy drills with quick-action drill chuck. Right/left changeover with 13 mm drill chuck.

- Lightweight and compact with plastic handle
- Low vibration
- Integrated silencer
- High-quality chuck
- Precision planetary gearbox
- Good speed control with touch-sensitive trigger

Max. drill chuck span width	13 mm
Max. idle speed	700 rpm
Working pressure	6.3 bar
Air consumption	96 l/min
Min. hose inner diameter	9 mm
Weight of machine	1.5 kg

Art. no. 0703 797 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended.
- Supplied without plug-in nipple.

Vario drill VD 90

For fast, convenient removal of spot welds

- The contact bail, rotatable through 360°, prevents slippage
- The contact bail can be mounted quickly without additional tools
- Infinitely variable milling depth with depth stop

Max. idle speed	900 rpm
Min./max. pressure	6-8 bar
Air consumption	250 l/min
Weight of machine	1800 g

Art. no. 0703 090

P. Qty.: 1

- Use only genuine HSCO spot weld cutters.
- Plug-in nipple not included in the scope of delivery

Pneumatic chipping hammer DMH 10

Extremely robust, powerful chipping hammer with optimal weight distribution and vibration damping. Ideal for all bodywork, including extraction of body panels, rough removal of coatings or removal of rust from metal parts.

- Robust and partially rubberised housing
- Slip-proof, ergonomically shaped handle
- Impact power can be controlled continuously and precisely
- Handy plastic case and an extensive range of accessories included
- Can also be used as a nail deruster in conjunction with the optional screw-on attachment

Tool holding device	10.2 mm hexagon socket
Working pressure	6.3 bar
Air consumption	76.4 l/min
Max. impact rate	2900 rpm
Weight of machine	1.73 kg

Art. no. 0703 712 1

P. Qty.: 1

- Chisel hammer is not suitable for working with concrete.
- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic stapler/nail gun DKN 3065 Combi

Powerful combi unit for connecting various fastening elements: Type WN staples, type W155 staples and T nails.

- Dual-function switch
- Tool-free depth setting
- Adjustable air delivery

Suitable for min./max. staple length	32-67 mm
Suitable for min./max. staple back width	10.7-11.7 mm
Magazine capacity	150 PCS
Air consumption per impact	1.609 l
Weight of machine	3.1 kg

Art. no. 0703 556 0

P. Qty.: 1

Pneumatic stapler DKG 416

Very lightweight, powerful device for processing staples with a width of 12.8 mm and a length of 4–16 mm

- Integral sound-proofing
- Trigger with safety lock
- Air filter built into handle
- Magnesium housing with rubberised handle

Suitable for min./max. staple length	4-16 mm
Width of staple back	12.8 mm
Magazine capacity	157 PCS
Air consumption per impact	0.3 l
Weight of machine	0.7 kg

Art. no. 0703 548 0

P. Qty.: 1

Plug-in nipple not included in the scope of delivery.

Pneumatic stapler DKG 1040

Handy, powerful device for processing staples with a width of 5.7 mm and a length of 10–40 mm

- Powerful, oil-free drive
- Dual-function switch for changing from single triggering to contact triggering, and rubber nose piece for delicate surfaces
- Tool-free depth setting
- Tool-free access for easy troubleshooting
- Adjustable air delivery and belt hook

Suitable for min./max. staple length	10-40 mm
Width of staple back	5.7 mm
Magazine capacity	100 PCS
Air consumption per impact	1.13 l
Weight of machine	1.18 kg

Art. no. 0703 555 0

P. Qty.: 1

Plug-in nipple not included in the scope of delivery.

Pneumatic coil nailer DCN 4590

Powerful nailer for use with coil nails in diameters 2.5–3.8 mm, length 45–90 mm

- Integrated sound-proofing
- Safety lock with contact unit
- Tool-free depth adjustment
- Dual-function switch
- Plastic protection for safety catch
- Height-adjustable magazine
- Adjustable air delivery

Suitable for min./max. nail length	45-90 mm
Suitable for min./max. nail diameter	2.5 - 3.8 mm
Min./max. magazine capacity	200-300 PCS
Air consumption per impact	2.97 l
Weight of machine	3.5 kg

Art. no. 0703 558 0

P. Qty.: 1

Pneumatic nailer DSK 1555

Especially lightweight and handy nailer for nails with a diameter of 1.2 mm and a length of 15–54 mm

- Powerful, oil-free drive with empty magazine detection
- Tool-free access for easy troubleshooting
- Protects delicate work surfaces with tool-free depth adjustment and rubber nose piece
- Adjustable air delivery and belt hook on device
- Dual-function switch for changing from single triggering to contact triggering

Suitable for min./max. nail length	15-54 mm
Suitable for nail diameter	1.2 mm
Magazine capacity	105 PCS
Air consumption per impact	1.13 l
Weight of machine	1.09 kg

Art. no. 0703 547 0

P. Qty.: 1

Pneumatic nailer DSN 5090 22°

Powerful pneumatic nailer for processing round-head strip nails at a 21–22° angle, with a diameter of 2.9–4.1 mm and a length of 50–90 mm

- Protects delicate work surfaces with tool-free depth adjustment and rubber nose piece
- Dual-function switch for changing from single triggering to contact triggering
- Adjustable reloading magazine for various nail sizes
- Long service life with empty magazine detection and air filter built into the handle
- Specially designed trigger for safe work
- Lightweight magnesium housing with adjustable air delivery and belt hook

Suitable for min./max. nail length	50-90 mm
Suitable for min./max. nail diameter	2.9 - 4.1 mm
Min./max. magazine capacity	60-70 PCS
Air consumption per impact	3.69 l
Weight of machine	3.81 kg

Art. no. 0703 542 0

P. Qty.: 1

Pneumatic nailer DSN 5090 34°

Powerful, light pneumatic nailer for processing half-head strip nails with a 30–34° angle

- Protects delicate work surfaces with tool-free depth adjustment and rubber nose piece
- Dual-function switch for changing from single triggering to contact triggering
- Adjustable reloading magazine for various nail sizes
- Long service life with empty magazine detection and air filter built into the handle
- Specially designed trigger for safe work
- Lightweight magnesium housing with adjustable air delivery and belt hook

Suitable for min./max. nail length	50-90 mm
Suitable for min./max. nail diameter	2.9 - 3.3 mm
Min./max. magazine capacity	88-98 PCS
Air consumption per impact	3.69 l
Weight of machine	3.76 kg

Art. no. 0703 543 0

P. Qty.: 1

Pneumatic nailer DSN 160

Powerful pneumatic nailer for processing round-head strip nails with a 21-22° angle

- Long service life with empty magazine detection
- Protects delicate work surfaces with depth adjustment
- Magnesium housing including single triggering with safety catch

Suitable for min./max. nail length	100-160 mm
Suitable for min./max. nail diameter	3.8 - 4.6 mm
Magazine capacity	55 PCS
Air consumption per impact	4.96 l
Weight of machine	6.87 kg

Art. no. 0703 560 0

P. Qty.: 1

Matching nails: long 21° round-headed nails

Pneumatic rivet nut unit PEG 312

The smallest, most lightweight pneumatic rivet nut unit for fast and easy processing of rivet nuts made of aluminium, steel and stainless steel in diameter dimensions M3-M12

- Tool-free quick-change system for threaded mandrels
- with clear stroke scale
- Modern, lightweight design
- Automatic drill-in and drill-out system for rivet nuts
- Hanging hook for stationary work
- Deactivation option for 360° air supply
- Additional drill-off button at the back of the casing

Working pressure	7 bar
Stroke length	7 mm
Length	260 mm
Width	85 mm
Height	280 mm

Art. no. 0703 937 55

P. Qty.: 1

- Threaded mandrels and mouthpieces not included in delivery
- For processing stainless steel rivet nuts up to M10

Pneumatic blind riveter PNG 102

Handy, compact compressed air unit with adjustable riveting mandrel suction with a lockable slide switch for processing blind rivets.

- Patented gripping jaw system for long service life of the clamping jaws and for non-slip pulling grip of rivet pins
- Minimal pneumatic air consumption owing to double use of pneumatic air for setting the rivets and extracting the remaining mandrel
- Prevents overload via overload valve
- Low-vibration and sound-proof
- Rubberised handle
- Mandrel collecting container with integrated safety device
- Rotatable air deflector

Working pressure	6.3 bar
Min./max. working pressure	5-7 bar
Stroke length	18 mm
Length	278 mm
Height	291 mm
Min./max. rivet diameter	2.4-5 mm
Max. mandrel diameter	3.2 mm

Art. no. 0703 937 22

P. Qty.: 1

Pneumatic blind riveter PNG 122

Handy, compact compressed air unit with adjustable riveting mandrel suction with a lockable slide switch for processing blind rivets.

- Patented gripping jaw system for long service life of the clamping jaws and for non-slip pulling grip of rivet pins
- Minimal pneumatic air consumption owing to double use of pneumatic air for setting the rivets and extracting the remaining mandrel
- Prevents overload via overload valve
- Low-vibration and sound-proof
- Rubberised handle
- Mandrel collecting container with integrated safety device
- Rotatable air deflector

Min./max. working pressure	5-7 bar
Stroke length	25 mm
Length	291 mm
Height	317 mm
Min./max. rivet diameter	2.4-6.4 mm
Max. mandrel diameter	4.5 mm

Art. no. 0703 937 33

P. Qty.: 1

Pneumatic jigsaw DST 380

Robust bodywork saw for long service life and tough applications.

- Safety valve lever
- Rubberised handle
- Saw blade rotates 180°
- Integrated power control to suit respective application
- Adjustable guide

Idle stroke speed	9500 rpm
Air consumption	170 l/min
Working pressure	6.3 bar
Min. hose inner diameter	9 mm
Length	215 mm

Art. no. 0703 881

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic jigsaw DST mini

Highly compact, powerful pneumatic body jigsaw for long operating times and the toughest applications

- Small and compact
- Handy
- Rotating air inlet with air flow regulator
- Adjustable guide

Idle stroke speed	10500 rpm
Air consumption	280 l/min
Working pressure	6.3 bar
Min. hose inner diameter	8 mm
Length	148 mm
Stroke length	5 mm

Art. no. 0703 885 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic impact screwdriver DSS 1 inch P

Extremely rugged, powerful impact screwdriver with fast build-up of torque. Ideal for tough applications, such as service work on trucks and buses, construction and agricultural machinery, and for industrial service and repair work.

- Well-balanced unit in robust aluminium housing
- Rubberised and ergonomically designed handle
- 360° pivoting support handle
- Right/left switchover
- Adjustable trigger
- High-quality, high-power pin impact mechanism in oil bath with 6-disc motor

Tool holding device	1-inch external square
Max. working torque	1694 Nm
Max. releasing torque	2440 Nm
Sound-pressure level	93 dB
Vibration	5.69 m/s ²
Weight of machine	9.97 kg

Art. no. 0703 775 0

P. Qty.: 1

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- The operating torque is the torque usually achieved under average working conditions. It is dependent on the highly varying ambient conditions (air pressure, hose diameter, soiling etc.).
- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic impact screwdriver DSS 3/4 inch H

Reliable, powerful impact screwdriver with fast build-up of torque

- Well-balanced unit in robust aluminium housing
- Rubberised and ergonomically designed handle
- Right/left switchover
- Adjustable trigger
- High-quality, high-power pin impact mechanism in oil bath with 6-disc motor

Tool holding device	3/4-inch external square
Max. working torque	1440 Nm
Max. releasing torque	1500 Nm
Sound-pressure level	96 dB
Weight of machine	4.73 kg

Art. no. 0703 773 0

P. Qty.: 1

Continuation **Pneumatic impact screwdriver DSS 3/4 inch H**

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- The operating torque is the torque usually achieved under average working conditions. It is dependent on the highly varying ambient conditions (air pressure, hose diameter, soiling).
- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic impact screwdriver DSS 1/2" premium mini

Powerful and fast compact impact screwdriver. The low weight and the size make the impact screwdriver extremely handy and permit use even in tight places.

- High-strength fibre glass reinforced plastic and steel hammer housing
- Can be used single-handed
- Ergonomically shaped handle
- User-friendly right/left changeover
- Optimally adjustable switch
- High-quality double impact mechanism, unique 7-disc motor and integrated silencer with no compromise on performance

Tool holding device	1/2-inch external square
Max. working torque	375 Nm
Max. releasing torque	450 Nm
Sound-pressure level	93.2 dB
Vibration	7.5 m/s ²
Weight of machine	1.14 kg

Art. no. 0703 312 0

P. Qty.: 1

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- If the impact screwdriver is used regularly, a little oil should be added daily through the pneumatic air and approximately 2 strokes of gear grease should be added monthly via the grease nipple
- Plug-in nipple not included

Pneumatic impact screwdriver DSS 1 inch L

Highly robust, powerful impact screwdriver with long square drive.

- Robust aluminium housing
- Ergonomically shaped handle
- Additional handle rotates 360°
- User-friendly right/left changeover
- Adjustable trigger
- High-quality double hammer impact mechanism

Tool holding device	1-inch external square
Max. working torque	1870 Nm

Max. releasing torque	2440 Nm
Sound-pressure level	95 dB
Vibration	9.26 m/s ²
Weight of machine	10.93 kg

Art. no. 0703 780 0

P. Qty.: 1

- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- The operating torque is the torque usually achieved under average working conditions. It is dependent on the highly varying ambient conditions (air pressure, hose diameter, soiling etc.).
- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended
- Plug-in nipple not included in scope of delivery

Pneumatic impact screwdriver DSS 1/2 inch H

Reliable, powerful impact screwdriver with fast build-up of torque

- Rugged, well-balanced unit in aluminium housing
- Rubberised and ergonomically designed handle
- User-friendly right/left changeover
- Adjustable trigger
- High-quality pin impact mechanism in oil bath with 6-disc motor

Tool holding device	1/2-inch external square
Max. working torque	470 Nm
Max. releasing torque	569 Nm
Sound-pressure level	92 dB
Vibration	3.78 m/s ²
Weight of machine	2.3 kg

Art. no. 0703 736 0

P. Qty.: 1

- Recommended maximum bolt size: M15
- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- The operating torque is the torque usually achieved under average working conditions. It is dependent on the highly varying ambient conditions (air pressure, hose diameter, soiling etc.).
- When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended
- Plug-in nipple not included in scope of delivery

Pneumatic impact screwdriver DSS 1/2" X

Reliable, compact impact screwdriver in a rugged, fibreglass reinforced plastic housing, with strong performance and enhanced equipment features

- Release torque up to max. 816 Nm at a weight of just 1.95 kg
- High-quality double hammer impact mechanism and cylinder with 6-disc motor
- 4-stage power setting with convenient right/left rotation control
- Ergonomic handle with professional trigger

Tool holding device	1/2-inch external square
Max. working torque	600 Nm
Max. releasing torque	816 Nm
Sound-pressure level	90.8 dB
Vibration	4.6 m/s ²
Weight of machine	1.95 kg

Art. no. 0703 313 0

P. Qty.: 1

- Recommended maximum bolt size: M16
- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- The operating torque is the torque usually achieved under average working conditions. It depends on the highly varying ambient conditions (air pressure, hose diameter, soiling etc.).
- When the impact screwdriver is used regularly (e.g. for tyre maintenance), a little oil should be added daily, and approximately 2 strokes of gear grease should be added monthly via the grease nipple.
- Plug-in nipple not included in the scope of delivery

Pneumatic impact screwdriver DSS 1/2" Premium Power

High-quality impact screwdriver in robust, fibreglass-reinforced plastic housing, with above-average performance and enhanced equipment features

- Up to max. 1,321 Nm Releasing torque at a weight of 1.98 kg
- High-quality double impact mechanism and balanced cylinder with 6-disc motor
- 4-stage power setting with convenient one-handed conversion

Tool holding device	1/2-inch external square
Max. working torque	835 Nm
Max. releasing torque	1321 Nm
Sound-pressure level	80.6 dB
Vibration	7.78 m/s ²
Weight of machine	1.98 kg

Art. no. 5714 301 0

P. Qty.: 1

Pneumatic impact screwdriver 1" Premium Power

Excellent power-to-weight ratio: Up to 2712 Nm torque at a weight of only 8.1 kg

- Exhaust air conducted away from the work area
- High-quality double impact mechanism and cylinder with balanced 6-disc motor
- Highly-ergonomic soft grip with sensitive trigger and integrated silencer
- Three-stage power setting for both clockwise and anti-clockwise rotation

Tool holding device	1-inch external square
Max. working torque	1850 Nm
Max. releasing torque	2712 Nm
Sound-pressure level	106 dB
Vibration	13.4 m/s ²
Weight of machine	8.1 kg

Art. no. 5714 376 0

P. Qty.: 1

- Maximum recommended screw diameter: M38.
- Impact screwdrivers are not torque screwdrivers. Connections requiring a specific torque must be checked by means of a torque measuring device after tightening with the impact screwdriver.
- When the impact screwdriver is used regularly (e.g. for tyre maintenance), a little oil should be added through the air inlet each day, and approximately 2 strokes of gear grease should be added each month via the grease nipple.
- Plug-in nipple not included in the scope of delivery

Pneumatic angled impact wrench DWSS 1/2 inch

Powerful pneumatic angled impact wrench with low head height for working in constricted spaces.

- Very low head height of just 50 mm
- High-quality double hammer impact mechanism and cylinder with unique 7-disc motor
- 2-stage power setting with convenient right/left rotation control
- Ergonomically formed soft grip handle with sensitive trigger

Tool holding device	1/2-inch external square
Max. working torque	190 Nm
Max. releasing torque	244 Nm
Sound-pressure level	97 dB
Vibration	43.5 m/s ²
Weight of machine	1.8 kg

Art. no. 5714 300 0

P. Qty.: 1

- When the impact screwdriver is used regularly, a little oil should be added daily through the compressed air, and approximately 2 strokes of gear grease should be added monthly via the grease nipple.
- Plug-in nipple not included in the scope of delivery

Pneumatic brush sander DBS 3500

Very lightweight and handy drive machine to save you time when removing underbody seal, sealing compounds, paint, rust and films

- No smearing or clogging of tool
- Hardened wire tips
- Belts suited for all kinds of materials
- Wide variety of application options thanks to different brush types

Working pressure	6.3 bar
Max. rotation speed	3500 rpm
Air consumption	110 l/min
Min. hose inner diameter	9 mm
Weight of machine	1.1 kg

Art. no. 0703 351 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic mini orbital sander DME 75

Powerful, small compressed air random orbital sander for minor sanding tasks and headlight repairs

- Ergonomic and rubberised handle
- Lightweight and compact design
- With speed control
- Soundproofed air outlet at the end of the handle
- Large, convenient adjustment valve

Diameter of sanding plate	75 mm
Sanding stroke	4 mm
Max. idle speed	15000 rpm
Power output	224 W
Air consumption	113 l/min
Weight of machine	0.7 kg
Connection thread	1/4 inch

Art. no. 0703 236 0

P. Qty.: 1

When used regularly, the machine should be lightly oiled via the pneumatic air supply every day. The use of a mist lubricator is recommended.

Pneumatic hand-held sander DSW 15

Powerful, small pneumatic hand-held sander for repairing minor paintwork damage

- Ergonomic and rubberised handle
- Lightweight and compact design
- With speed control
- Soundproofed air outlet at the end of the handle
- Large, convenient adjustment valve

Tool holding device	M6 x 1.25 mm
Max. idle speed	15000 rpm
Power output	224 W
Air consumption	113 l/min
Weight of machine	0.72 kg

Art. no. 0703 232 0

P. Qty.: 1

Plug-in nipple not included in the scope of delivery

Pneumatic mini polisher DMP 25

Small compressed air polisher for repairing minor paintwork damage

- Ergonomic and rubberised handle
- Lightweight and compact design
- With speed control
- Soundproofed air outlet at the end of the handle
- Large, convenient adjustment valve

Max. idle speed	2500 rpm
Power output	224 W
Air consumption	113 l/min
Weight of machine	0.5 kg

Art. no. 0703 233 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic rod grinder DSG 22 Power

Long-life, handy rod grinder, straight design, with tool-free speed control and rubberised handle to protect against vibrations and cold hands.

- Rubber handle
- Lightweight and compact design
- Rotating compressed air connection

Max. drill chuck span width	6 mm
Max. idle speed	22000 rpm
Power output	373 W

Air consumption	113 l/min
Weight of machine	0.7 kg

Art. no. 0703 234 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic rod grinder DSG 25

Long-life, handy rod grinder, straight design, with tool-free speed control and rubberised handle to protect against vibrations and cold hands.

- Rubber handle
- Lightweight and compact design
- Rotating compressed air connection

Max. drill chuck span width	6 mm
Max. idle speed	25000 rpm
Power output	224 W
Air consumption	113 l/min
Weight of machine	0.4 kg

Art. no. 0703 230 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic rod grinder DSW 22

Long-life, handy rod grinder, angled design, with tool-free speed control and rubberised handle to protect against vibrations and cold hands.

- Rubber handle
- Lightweight and compact design
- Rotating compressed air connection

Max. drill chuck span width	6 mm
Max. idle speed	22000 rpm
Power output	224 W
Air consumption	113 l/min
Weight of machine	0.5 kg

Art. no. 0703 231 0

P. Qty.: 1

Brush belt, coarse

Especially suitable for areas around weld seams, contours and edges. With sand blasting effect, ensures good adhesion for tin coating and trowel application.

For fast removal of underseal, sealing compounds, paint, rust and films.

Width	Art. no.	P. Qty.
11 mm	0703 350 51	10
23 mm	0703 350 1	5/10

Pneumatic grinding file DSF 10

Handy and compact compressed air grinding file for 10/11/12 x 330-mm grinding belts. For grinding, deburring and satin finishing in hard-to-reach places.

- Light, compact design
- The spring integrated into the grinding arm ensures optimal tensioning of the grinding belt.
- The grinding arm can be rotated through 360°, ensuring great ease of operation.

Max. idle speed	15000 rpm
Power output	317 W
Working pressure	6.3 bar
Weight of machine	730 g
Sound-pressure level	85 dB

Art. no. 0703 272 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic multi-cutter DMS 2

Powerful unit for removing bonded windscreens, for cutting work on vehicle bodies and sanding work in corners and around edges.

- Universal, hex. Mount
- Oscillating motion
- Safety switch with continuous speed control
- Exhaust air system with exhaust air hose
- High-quality ball bearings

Min./max. idle orbital rate	0-20000 1/min
Working pressure	6.3 bar

Continuation **Pneumatic multi-cutter DMS 2**

Air consumption	370 l/min
Min. hose inner diameter	8 mm
Tool holding device	Hexagon
Weight of machine	1.1 kg

Art. no. 0703 862 1

P. Qty.: 1

Compressed air depth grinder DTS 100

The long arm and low overall height make it ideal for cutting sheet metal and steel in hard-to-reach places.

- Ideal for use in tight spaces
- Thermally insulated handle
- Quick and easy to replace the disc
- Tool-less adjustment

Rotation speed	14000 rpm
Washer diameter	100 mm
Connection thread	1/4 inch
Min. hose inner diameter	9 mm
Weight of machine	1.7 kg
Working pressure	6.3 bar

Art. no. 5714 200 0

P. Qty.: 1

- When used regularly, the oil should be topped up via the compressed air supply every day.
- Compressed air connection not included in scope of delivery.

Pneumatic axial screwdriver DAS 1/4-inch

With adjustable friction clutch for precise torque control.

- Easy control of rotation speed with touch-sensitive trigger
- 1/4 inch quick-action chuck for bit
- Right/left rotation changeover
- Exhaust air conducted to the rear with exhaust air system connection

Rotation speed	1800 rpm
Min./max. torque	2.2-10 Nm
Working pressure	6.3 bar
Min. hose inner diameter	9 mm
Weight of machine	1.2 kg

Art. no. 0703 413

P. Qty.: 1

- Please use only bits or bit holders with 1/4" E 6.3 mount
- Plug-in nipple not included in scope of delivery

Pneumatic gun screwdriver DPS 1/4 inch

With adjustable friction clutch for precise torque control.

- 1/4 inch quick-action chuck for bit
- Clockwise/anti-clockwise conversion on button
- Exhaust air conducted to the rear with exhaust air system connection

Tool holding device	1/4-inch hexagon socket
Rotation speed	1800 rpm
Min./max. torque	2.2-10 Nm
Air consumption	112 l/min
Length	216 mm
Weight of machine	1.6 kg

Art. no. 0703 439

P. Qty.: 1

- Please use only bits or bit holders with 1/4" E 6.3 mount
- Plug-in nipple not included in scope of delivery

Pneumatic ratchet screwdriver DRS multi

Very small, lightweight pneumatic ratchet screwdriver in rugged plastic housing. Available as a single item or in a kit together with standard accessories.

- The particularly slim design and low weight permit work in inaccessible places
- Easy to switch direction of rotation
- One machine permits four applications with two interchangeable adapters: 1/4 inch, 3/8 inch square and 1/4 inch, 10 mm bit mount
- The kit version contains a total of 40 parts in a high-quality metal box with foam insert

Tool holding device	1/4-inch hexagon socket
Max. torque	40.7 Nm
Length	155 mm
Sound-pressure level	90 dB
Working pressure	6.3 bar
Min. hose inner diameter	8 mm

Art. no. 0703 813 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic ratchet screwdriver DRS 1/4"

Durable ratchet screwdriver with speed regulation and plastic handle to protect against vibrations and cold hands.

- Precision planetary gearbox
- Short design, ideal for use in hard-to-reach areas
- Exhaust routed to the rear away from the work area
- Speed adjustable via an integrated control
- Recessed right/left switch
- Rotatable compressed air connection
- Rubberised ratchet head

Tool holding device	1/4-inch external square
Max. torque	40 Nm
Length	170 mm
Working pressure	6.3 bar
Min. hose inner diameter	6 mm

Art. no. 0703 814 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic ratchet screwdriver DRS 3/8"

Durable ratchet screwdriver with speed regulation and plastic handle to protect against vibrations and cold hands.

- Precision planetary gearbox
- Short design, ideal for use in hard-to-reach areas
- Exhaust routed to the rear away from the work area
- Speed adjustable via an integrated control
- Recessed right/left switch
- Rotatable compressed air connection
- Rubberised ratchet head

Tool holding device	3/8-inch external square
Max. torque	40 Nm
Length	170 mm
Sound-pressure level	88 dB
Working pressure	6.3 bar
Min. hose inner diameter	6 mm

Art. no. 0703 838 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic ratchet screwdriver DRS 1/2 inch

Durable ratchet screwdriver with speed regulation and plastic handle to protect against vibrations and cold hands.

- Precision planetary gearbox
- Exhaust routed to the rear away from the work area
- Speed adjustable via an integrated control
- Recessed right/left switch
- Rotatable compressed air connection
- Rubberised ratchet head

Tool holding device	1/2-inch external square
Max. torque	70 Nm
Length	270 mm
Sound-pressure level	84 dB
Working pressure	6.3 bar
Min. hose inner diameter	9 mm

Art. no. 0703 812 0

P. Qty.: 1

Plug-in nipple not included

Pneumatic impact ratchet screwdriver DSR 1/2 inch

Powerful pneumatic impact ratchet screwdriver with exceptionally high torque.

- Right/left rotation changeover at front on ratchet head and power build-up without reverse torque

Tool holding device	1/2-inch external square
Rotation speed	400 rpm
Max. torque	95 Nm
Air consumption	85 l/min
Length	275 mm
Weight of machine	1.28 kg

Art. no. 0703 110

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic angle grinder DWS 115 plus

Powerful, handy machine for sanding, cutting and roughing work.

- Plastic housing
- Compact design, low-vibration
- Spindle stop
- Exhaust air conducted to the rear
- Wrench-free adjustment of protective hood

Washer diameter	115 mm
Rotation speed	10000 rpm
Power output	600 W
Working pressure	6.3 bar
Weight of machine	1.6 kg

Art. no. 0703 855 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Pneumatic angle grinder DWS 125 plus

Powerful, handy machine for sanding, cutting and roughing work

- Plastic housing
- Compact design, low-vibration
- Spindle stop
- Exhaust air conducted to the rear
- Wrench-free adjustment of protective hood

Washer diameter	125 mm
Rotation speed	10000 rpm
Power output	600 W
Working pressure	6.3 bar
Weight of machine	1.6 kg

Art. no. 0703 856 0

P. Qty.: 1

- When used regularly, the machine should be lightly oiled via the compressed-air supply every day. The use of a mist oiler is recommended.
- Plug-in nipple not included in the scope of delivery

Core drill DS 180-P

Diamond core drill for hand and stand-guided wet and dry drilling in concrete, reinforced concrete and masonry

- Optimum weight distribution for horizontal drilling by hand
- Significantly easier spot drilling due to soft start function
- Perfect work progress due to LED load indicator

Nominal voltage	230 V/AC
Power input	2400 W
Idle speed 1st gear max.	780 rpm
Idle speed 2nd gear max.	1690 rpm
Idle speed 3rd gear max.	3520 rpm
Weight of machine	6.8 kg

Art. no. 5709 116 01

P. Qty.: 1

Core drill DS 180-T

Diamond core drill for hand and stand-guided wet and dry drilling in concrete, reinforced concrete and masonry

- Optimum weight distribution for vertical drilling by hand
- Significantly easier spot drilling due to soft start function
- Perfect work progress due to LED load indicator

Nominal voltage	230 V/AC
Power input	2400 W
Idle speed 1st gear max.	780 rpm
Idle speed 2nd gear max.	1690 rpm
Idle speed 3rd gear max.	3520 rpm
Weight of machine	6.8 kg

Art. no. 5709 116 02

P. Qty.: 1

Drilling stand DS Compact

Compact drilling stand for diamond core drills DS 130-P/DS 130-T and DS 164

- Stainless steel engraved drilling depth display, angle display and drill centre point display
- Column with swan neck guide
- Knurled adjusting screws with additional hexagon head
- Drill spindle with quick-change connection, can be mounted on either side of the carriage, with integrated key for the knurled adjusting screws

Column height	725 cm
Product weight (per item)	9600 g
Suitable for max. drill-bit diameter	200 cm

Continuation **Drilling stand DS Compact**

Art. no. 5709 116 11

P. Qty.: 1

Agitator RW 1400

1400 watt, hand-held 2-speed agitator

- Infinitely adjustable speed for soft power delivery
- Ergonomically-shaped handle
- Lightweight
- Handle is raised by 50 mm to minimise fatigue when working
- Inhibitor
- Automatic cut-off carbon brushes

Nominal voltage	230 V/AC
Power input	1400 W
Idle speed 1st/2nd gear min./max.	0-660/0-920 rpm
Idle speed 1st gear min./max.	0-660 rpm
Mixing volume	90 l
Max. agitating basket diameter	160 mm
Weight of machine	5.6 kg
Cable length	4 m

Art. no. 0702 846 0

P. Qty.: 1

Agitator RW 1010

The compact 1010 W agitator with matching mixing tool is ideally suited for a wide range of mixing jobs up to a maximum volume of 40 litres.

- Infinitely adjustable speed for soft power delivery
- Ergonomically-shaped handle
- Lightweight
- Handle is raised by 50 mm to minimise fatigue when working
- Inhibitor
- Automatic cut-off carbon brushes

Nominal voltage	230 V/AC
Power input	1010 W
Idle speed 1st gear min./max.	0-925 rpm
Mixing volume	40 l
Max. agitating basket diameter	120 mm
Weight of machine	4.7 kg
Cable length	4 m

Art. no. 0702 841 0

P. Qty.: 1

Extraction DUSTfree

For mixing dusty materials in bucket

- Less dust when filling and mixing
- Suitable for many bucket sizes

Product weight (per item)	300 g
---------------------------	-------

Art. no. 0713 95 010

P. Qty.: 1

Vacuum pump VP 800

For fastening the core drilling stand in conjunction with the respective optional vacuum set

- Mounting the baseplate eliminates the underpressure generated by the vacuum pump

Nominal voltage	230 V/AC
Power input	380 W
Max. pressure	0.8 bar
Weight of machine	13.5 kg

Art. no. 5709 132 0

P. Qty.: 1

Water pressure tank

For diamond core drilling

- Manometer for tank pressure (max. 6 bar)
- Fill volume 10 l
- Hose length 2.5 m

Liquid volume	10 l
Container capacity	13 l
Working pressure	6 bar
Material	Steel
Height x width	650 x 255 mm
Hose length	2.5 m
Product weight (per item)	5119 g

Art. no. 0651 150 205

P. Qty.: 1

Formwork release oil sprayer

Corrosion-resistant, polyester-coated steel container

- Flexible, 2.5-m spiral hose with safety latch
- The brass spray pipe is rotatable by 360° and facilitates comfortable and effortless working by adjusting direction.
- The precision flat jet nozzle with fine nozzle distributes the formwork oil evenly and sparingly.
- Quick and convenient to refill
- Dirt-free
- Secure storage

Working pressure	6 bar
Flow capacity conditions	at 2 bar
Flow capacity	0.64 l/min
Max. operating temperature	40 °C
Recoil force	5 N
Material	Steel
Hose length	2.5 m

Liquid volume	Container capacity	Height x width	Product weight (per item)	Art. no.	P. Qty.
6 l	9 l	495 x 255 mm	4352 g	0651 150 209	1
10 l	13 l	650 x 255 mm	5138 g	0651 150 207	1

Magnetic core drill MKB 35

Compact and powerful electromagnetic core drill for bore holes up to 35 mm in diameter, including safety belt, coolant tank and hexagon key.

- Secure attachment to metallic workpieces with the electromagnet
- The machine is suitable for tough construction site conditions and its low tare weight makes it easy to transport.
- 5-metre PUR network cable is flexible at low temperatures, protected against external influences and highly robust.
- With the pre-mounted star handle, the machine can be used immediately.

Tool holding device	Weldon
Min./max. drill diameter	12-35 mm
Cutting depth	50 mm
Lift height	120 mm
Rotation speed at nominal load in 1st gear	450 rpm
Magnetic force	9000 N
Power input	1100 W
Weight of machine	10 kg

Art. no. 5709 200 1

P. Qty.: 1

Magnetic core drill MKB 35 comfort

Compact and powerful electromagnetic core drill with current-independent permanent magnets including safety belt, coolant tank and hexagon key.

- The permanent magnet holds even in case of securing errors (missing tensioning belt) and power failures.
- Up to 30-40% more retention force compared to electromagnets. This makes it possible to drill holes from 3 mm material thickness.
- Easy changing of the drill bit with quick-change drill chuck
- Lightweight machine with permanent magnet.
- 5-metre PUR network cable is flexible at low temperatures, protected against external influences and highly robust.
- With the pre-mounted star handle, the machine can be used immediately.

Tool holding device	Weldon
Min./max. drill diameter	12-35 mm
Cutting depth	50 mm
Lift height	105 mm
Rotation speed at nominal load in 1st gear	450 rpm
Magnetic force	7500 N
Power input	1100 W
Weight of machine	10 kg

Art. no. 5709 201 1

P. Qty.: 1

Battery-powered blind riveter ANG 14

For cordless processing of blind rivets from 2.4 mm to 5.0 mm in diameter.

- Li-ion technology
- Ergonomic handle and compensated centre of gravity
- The immediate reset to the starting position after the riveting operation saves energy and increases the number of operating sequences
- Broken rivet pins can be collected in a container
- With holder for balancer

Nominal voltage	14.4 V/DC
Lift height	20 mm
Rivet setting force	10000 N
Weight of machine with rechargeable battery	2 kg

Art. no. 0700 915 1

P. Qty.: 1

Industrial wet and dry vacuum cleaner ISS 30-L AUTOMATIC

Universal vacuum cleaner suitable for construction sites with L certification and automatic filter cleaning

- Dust class L certification, automatic filter cleaning, and anti-static treatment
- System case storage and mounting option, integrated accessory storage
- Easy handling thanks to bayonet and clip connections, centrally positioned switches and automatic power tool detection

Air current	74 l/s
Underpressure	23 kPa
Container capacity	30 l
Max power	1380 W
Cable length	7.5 m
Hose connection diameter	35 mm

Art. no. 0701 133 0

P. Qty.: 1

Industrial wet and dry vacuum cleaner ISS 30-L

Handy and ergonomic universal vacuum with L-certification and semi-automatic filter cleaning

- Dust class L-certification, semi-automatic filter cleaning and antistatic treatment
- System case storage and mounting option and integrated storage of accessories
- Easy to use thanks to bayonet and clip connections

Air current	74 l/s
Underpressure	23 kPa
Container capacity	30 l
Max power	1380 W
Cable length	7.5 m
Hose connection diameter	35 mm

Art. no. 0701 132 0

P. Qty.: 1

- During dry vacuuming, a dust bag and folding filter must always be used. Do not vacuum without a filter system, otherwise the vacuum motor may be damaged, resulting in a health risk from increased fine dust emissions.
- Use a PES flat folding filter for wet vacuuming.

Industrial wet and dry vacuum cleaner ISS 40-M AUTOMATIC

Universal safety vacuum suitable for construction sites, with M certification and automatic filter cleaning

- Dust class M certification, automatic filter cleaning, automatic filter detection and antistatic treatment
- System case storage and mounting option, integrated accessory storage
- Easy handling thanks to bayonet and clip connections, centrally positioned switches and automatic power tool detection

Air current	74 l/s
Underpressure	23.7 kPa
Container capacity	39 l
Max power	1380 W
Cable length	7.5 m

Art. no. 0701 143 0

P. Qty.: 1

- A dust bag and folding filter must always be used when dry vacuuming. Do not vacuum without a filter system, otherwise the vacuum motor may be damaged, resulting in a health risk from increased fine dust emissions.
- Use a PES flat pleated filter for wet vacuuming.
- An electronic air flow monitor triggers a beep as soon as the airflow drops below 20 m/s. The accessory then needs to be checked for blockage or the container needs to be emptied.

Industrial wet and dry vacuum cleaner ISS 50-L AUTOMATIC

Universal, high-performance vacuum suitable for construction sites, with L certification and automatic filter cleaning

- Dust class L certification, automatic filter cleaning, and anti-static treatment
- System case storage and mounting option, integrated accessory storage
- Easy handling thanks to bayonet and clip connections, centrally positioned switches and automatic power tool detection

Air current	74 l/s
Container capacity	51 l
Max power	1380 W
Cable length	7.5 m
Hose connection diameter	35 mm

Art. no. 0701 153 0

P. Qty.: 1

- A dust bag and folding filter must always be used when dry vacuuming. Do not vacuum without a filter system, otherwise the vacuum motor may be damaged, resulting in a health risk from increased fine dust emissions.
- Use a PES flat pleated filter for wet vacuuming.

Adapter

For connecting the suction hoses for ISS 35, 35-S, 45-M and 55-S to the new ISS series 30-L, 30-L automatic, 40-m automatic and 50-L automatic

Antistatic	No
Electroconductive	No
Suitable for vacuum cleaner	ISS 30-L Automatic, ISS 30-L, ISS 40-M Automatic, ISS 50-L Automatic

Art. no. 0702 400 250

P. Qty.: 1

Flat folding filter, paper

For ISS series

- Paper filter for dry applications for fine dust and coarse dirt

Compatible with	ISS 35, ISS 35-S, ISS 45-M, ISS 55-S, ISS 30-L AUTOMATIC, ISS 30-L, ISS 50-L AUTOMATIC, ISS 40-M AUTOMATIC
-----------------	--

Art. no. 0702 400 367

P. Qty.: 1

If moisture is extracted, leave the filter to air dry.

Paper filter bag ISS 35

For ISS 35 industrial wet/dry vacuum cleaner (-S automatic 2013) and ISS 35 (automatic 2013)

Compatible with	DN nominal width	Art. no.	P. Qty.
ISS 32		0702 400 098	5
ISS 35, ISS 35-S, ISS 30-L AUTOMATIC, ISS 30-L	DN 35	0702 400 209	5
ISS 45-M, ISS 55-S, ISS 50-L AUTOMATIC	DN 35	0702 400 207	5

We recommend switching automatic cleaning off when using a paper filter bag.

Cement filter bag ISS 35

For industrial wet & dry vacuum cleaner ISS 35 (-S automatic)

Compatible with	DN nominal width	Art. no.	P. Qty.
ISS 35, ISS 35-S, ISS 30-L AUTOMATIC, ISS 30-L	DN 35	0702 400 259	5
ISS 50-L AUTOMATIC, ISS 40-M AUTOMATIC, ISS 45-M, ISS 55-S	DN 40	0702 400 260	5

Extension hose

Made of plastic for ISS and TSS series

Compatible with	Antistatic	DN nominal width	Art. no.	P. Qty.
ISS 35, ISS 35-S, ISS 45-M, HWS 15-L		DN 35	0702 400 237	1
ISS 55-S	No	DN 40	0702 400 344	1

Flat folding filter, coated

For ISS series

- Polyester filter with nanofibre coating for wet and dry applications of dust classes L and M
- Especially suitable for wet applications as well as abrasive dusts

Compatible with	ISS 35, ISS 35-S, ISS 45-M, ISS 55-S, ISS 30-L AUTOMATIC, ISS 30-L, ISS 50-L AUTOMATIC, ISS 40-M AUTOMATIC
-----------------	--

Art. no. 0702 400 191

P. Qty.: 1

If moisture is extracted, leave the filter to air dry.

Wet/dry filter bag For ISS 45 and 55

Tear-resistant filter bag, dust class L, for dry and wet cleaning

- Tear-resistant special/wet filter bag of dust class L for wet cleaning e.g. cutting concrete, sucking mud

Compatible with	ISS 55-S, ISS 50-L AUTOMATIC
DN nominal width	DN 40

Art. no. 0702 400 188

P. Qty.: 5

Suction brush, plug-in

For ISS 35(-S automatic) and ISS 45-M automatic

With natural bristles

DN nominal width	DN 35
------------------	-------

Art. no. 0702 400 427

P. Qty.: 1

Also for predecessor models ISS 32, 54, 54 H, 54 HO, 54 AS, 60.

Wet/dry filter bag

For ISS 35 (-S automatic)

Compatible with	ISS 35, ISS 35-S, ISS 45-M
DN nominal width	DN 35

Art. no. 0702 400 068

P. Qty.: 5

Paper filter bag

For craftsman's vacuum cleaner HWS 15-L

Compatible with	HWS 15-L
-----------------	----------

Art. no. 0702 400 210

P. Qty.: 5

Wet/dry filter bag, fleece

Extremely tear-resistant, 3-ply fleece filter bag of dust class M for industrial vacuum cleaners. Suitable for normal dirt, abrasive dusts, fine dusts and moist dirt.

Compatible with	Art. no.	P. Qty.
HWS 15-L	0702 400 070	5
ISS 35, ISS 35-S, ISS 30-L, ISS 30-L AUTOMATIC	0702 400 071	5
ISS 55-S, ISS 50-L AUTOMATIC, ISS 40-M AUTOMATIC, ISS 45-M	0702 400 072	5

Spray suction device SEG 10-2

Powerful spray extraction unit for upholstery cleaning and stain removal on carpeted surfaces

- Very good back suction result
- Compact, space-saving design
- Large transparent cover for continuous checking of the cleaning procedure and back suction performance
- Practical carry handle and holders for cable and nozzle

Nominal voltage	230 V/AC
Motor output	1380 W
Flow capacity	1 l/min
Underpressure	230 mbar
Fresh water tank	8 l
Dirty water tank	7 l
Weight of machine	9.8 kg
Cable length	7.5 m

Art. no. 0701 111 0

P. Qty.: 1

The hand nozzle should be guided horizontal to the floor to achieve proper suction.

Hand nozzle

Compact hand-held nozzle for cleaning upholstered furniture and smaller carpeted surfaces using the spray suction device.

- Transparent field of view for checking the cleaning procedure and back suction performance

Length	Width	Compatible with	Art. no.	P. Qty.
180 mm	105 mm	SEG 10-2	0701 111 004	1
350 mm	110 mm	SEG 10	0701 110 001	1

Suction hose

For spray suction device

Compatible with	SEG 10-2
-----------------	----------

Length	Art. no.	P. Qty.
2.4 m	0701 111 001	1
4 m	0701 111 002	1

Joint nozzle

For cleaning small and hard-to-reach surfaces with the spray suction device. Ideal accessory for cleaning upholstery and seats in vehicles.

Length	250 mm
Width	15 mm
Compatible with	SEG 10-2

Art. no. 0701 111 003

P. Qty.: 1

Floor nozzle

For cleaning larger carpeted surfaces using the spray suction device

- Flexible floor attachment for optimum suction in each angle setting
- Transparent field of view for checking the cleaning procedure and back suction performance

Length	1070 mm
Width	240 mm
Compatible with	SEG 10-2

Art. no. 0701 111 005

P. Qty.: 1

Hard surface adapter

For the floor nozzle belonging to the spray suction device for cleaning hard floors

Width	240 mm
Compatible with	SEG 10-2

Art. no. 0701 111 006

P. Qty.: 1

Handle

For spray suction device

- Modular system for switching quickly between hand-held nozzle, joint nozzle and floor nozzle
- Compact and ergonomic design
- Transparent field of view for checking the cleaning procedure and back suction performance

Compatible with	SEG 10-2
-----------------	----------

Art. no. 0701 111 007

P. Qty.: 1

Dry vacuum cleaner TSS 7-L BASIC

Compact, lightweight dry vacuum cleaner with ergonomic carry strap

- Comfortable to carry thanks to ergonomic carry strap and very low weight
- Suitable for dust with max. Workplace concentration (MAK values) > 1 mg/m³
- Optimised air flow enables the vacuum to achieve a very high suction power.
- The 7.5-m rubber mains cable can be simply and cleanly suspended around the cable hook

Nominal voltage	230 V/AC
Power input	850 W
Container capacity	7 l
Max. air current	40 l/s
Underpressure	220 mbar
Sound-pressure level	62 dB
Energy efficiency class	A
Weight of machine	3.5 kg
Cable length	7.5 m

Art. no. 0701 117 0

P. Qty.: 1

Dry vacuum cleaner TSS 12 COMPACT

Powerful, compact vacuum cleaner for professional dry building cleaning applications

- 62 dB (A), quiet dry vacuum cleaner for use in volume-sensitive areas, even during business hours
- Practical suction tube holder for straightforward and space-saving storage of the suction tube and floor nozzle on the device
- The 12-m mains cable can be wound simply and cleanly around the turbine head or hung from the fold-down cable hook

Nominal voltage	240 V
Power input	800 W
Container capacity	12 l
Max. air current	53 l/s
Underpressure	24 kPa
Weight of machine	6.6 kg
Cable length	12 m

Art. no. 0701 113 1

P. Qty.: 1

Fleece filter bag

For dry vacuum cleaners

Compatible with	Art. no.	P. Qty.
TSS 7-L BASIC	0701 117 001	5
TSS 12, TSS 12 ECO	0701 112 010	5

Paper filter bag

For dry vacuum cleaner TS 12

Compatible with	TSS 12, TSS 12 ECO
-----------------	--------------------

Art. no. 0701 112 011

P. Qty.: 5

High-pressure cleaner HDR 160 Compact

Compact cold water high-pressure washer for medium-duty cleaning jobs.

- Compact design and adjustable aluminium push handle
- Automatic pressure cut-out when work is interrupted
- Relief of pressure prolongs service life and reduces energy and water consumption
- The required concentration can be set using the dosing valve.
- Integral suction hose for cleaning agent
- Ergonomic manual spray gun with reduced retention and pulling force
- Practical accessory holder and electrical cable winding mechanism

Nominal voltage	230 V/AC
Power input	2.3 kW
Max. pressure	160 bar
Working pressure	130 bar
Min./max. feed quantity	0-480 l/h
Max. inlet temperature	60 °C
Hose length	10 m
Weight of machine	26.1 kg
Cable length	4 m

Art. no. 0701 161 0

P. Qty.: 1

For use with cleaning agents, observe the following steps:

- Pull out the suction hose for the cleaning agent.
- Hook the cleaning agent suction hose into a container of cleaning agent.
- Set the triple nozzle to „CHEM“.
- Set the cleaning agent metering valve to the required concentration.

High-pressure cleaner HDR 185 Power Plus

Powerful cold water high-pressure cleaner with hose reel, for medium to heavy-duty cleaning jobs

- Integrated hose reel
- Infinitely variable pressure/water quantity regulation
- Automatic pressure shutdown in the event of interruptions to work

Nominal voltage	230 V/AC
Power input	2.7 kW
Max. pressure	185 bar
Working pressure	150 bar
Min./max. feed quantity	0-500 l/h
Max. inlet temperature	60 °C
Hose length	15 m
Weight of machine	30.8 kg
Cable length	4 m

Art. no. 0701 163 0

P. Qty.: 1

For use with cleaning agents, observe the following steps:

- Pull out the suction hose for the cleaning agent.
- Hook the cleaning agent suction hose into a container of cleaning agent.
- Set the triple nozzle to „CHEM“.
- Set the cleaning agent metering valve to the required concentration.

Surface cleaner

For spray water-protected cleaning with the high-pressure cleaner

- Efficient cleaning of large surfaces

Compatible with	HDR 160 Premium, HDR 160 Compact, HDR 185 Power Plus
-----------------	--

Art. no. 0701 160 009

P. Qty.: 1

Pipe cleaning nozzle

For cleaning and effective removal of blockages in pipes, drains and down pipes with the high-pressure cleaner.

- The nozzle and pipe cleaning hose automatically move into the pipe, thus clearing the blockage.
- Optimum progress thanks to three jets directed towards the rear.

Compatible with	HDR 160 Compact, HDR 185 Power Plus, HDR 160 Premium
Material	Stainless steel
Connection thread	1/8 inch

Art. no. 0701 161 123

P. Qty.: 1

In addition to the pipe cleaning nozzle, a pipe cleaning hose must also be connected.

Battery-powered sabre saw SBS 28-A

Powerful battery-powered sabre saw with lithium-ion technology. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Lithium-ion technology
- Charge status display on the battery
- 2 settings
- Safety coupling
- Quick-change saw blade mount
- Tool-free adjustable stop
- Lifting rod with special seals

Nominal voltage	28 V/DC
Min./max. idle stroke speed	0-3000 rpm
Stroke length	29 mm
Tool holding device	Quick-change holder
Weight of machine with rechargeable battery	4.1 kg
Weight of machine without rechargeable battery	3.1 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Batteries not included; additional accessories not included	0700 207 02	1
2 x 3 Ah batteries; with additional accessories	0700 207 3	1

Battery-powered jigsaw STP 28-A

Powerful battery-powered jigsaw with lithium-ion technology. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Lithium-ion technology
- Charge status display on the battery
- 4 stroke settings
- 2 speed levels
- Tool-free base plate adjustment
- Saw blade quick-changing system

Nominal voltage	28 V/DC
Min./max. idle stroke speed	0-2800 rpm
Stroke length	26 mm
Max. mitre angle	45 Degree
Max. cutting depth in wood	135 mm
Tool holding device	Quick-change holder
Weight of machine with rechargeable battery	3.5 kg

Included in delivery (Lieferumfang)	Rechargeable battery/battery capacity	Art. no.	P. Qty.
Batteries not included; additional accessories not included	0 Ah	0700 217 02	1
2 x 3 Ah batteries; with additional accessories	3 Ah	0700 217 3	1

Battery-powered hand-held circular saw HKS 28-A

Powerful battery-powered hand-held circular saw with lithium-ion technology. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Li-ion technology
- Charge status display on the battery
- Motor brake
- Aluminium base plate
- Spindle lock
- Extremely thin saw blade included in the scope of delivery

Nominal voltage	28 V/DC
Max. idle speed	4200 rpm
Suitable for bore diameter	15.87 mm
Saw blade diameter	165 mm
Max. cutting depth at 90 degrees	54 mm
Weight of machine with rechargeable battery	4.3 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
2 x 3 Ah batteries; with additional accessories	0700 227 2	1
Batteries not included; with additional accessories	0700 227 01	1

Cordless metal hand-held circular saw MHKS 28-A

High-performance 28-V cordless metal hand-held circular saw. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Lithium-ion technology
- Charge status display on the battery
- Motor brake
- Spindle lock
- Compact and ergonomic design with soft-grip component
- Integrated LED on protective cover

Nominal voltage	28 V/DC
Max. idle speed	3200 rpm
Suitable for bore diameter	20 mm
Saw blade diameter	174 mm
Max. cutting depth at 90 degrees	61 mm
Weight of machine with rechargeable battery	4.2 kg

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
2 x 3 Ah batteries; with additional accessories	5700 802 3	1
Batteries not included; with additional accessories	5700 802 01	1

Plunge saw TKS 59-E

Precise plunge saw with adjustable saw blade speed.

- Parallel immersion function
- Spring-mounted splitting wedge
- Handy owing to die cast magnesium
- Speed adjustment wheel with constant electronics
- Efficient dust extraction

Nominal voltage	230 V/AC
Power input	1300 W
Min./max. idle speed	1750-4000 rpm
Max. saw-blade diameter	165 mm
Suitable for bore diameter	20 mm
Max. cutting depth at 90 degrees	59 mm
Weight of machine	5.1 kg
Cable length	4 m

Art. no. 0702 158 1

P. Qty.: 1

Hand-held circular saw HKS 55 Combi

Extremely handy hand-held circular saw with immersion function for universal use.

- Suitable as a plunge saw
- Extremely handy and lightweight with die cast magnesium
- Speed adjustment wheel with constant electronics
- Spindle lock with locking function

Nominal voltage	230 V/AC
Power input	1200 W
Min./max. idle speed	2000-5200 rpm
Max. saw-blade diameter	160 mm
Suitable for bore diameter	20 mm
Max. cutting depth at 90 degrees	55 mm
Weight of machine	3.7 kg
Cable length	4 m

Art. no. 0702 157 0

P. Qty.: 1

Hand-held circular saw HKS 65-E POWER

1800 W hand-held circular saw with low weight and high cutting speed. Coordinated guide rail means it is also ideal for precise cuts

- Constant electronics
- Speed pre-selection
- Dust-extraction system

Nominal voltage	230 V/AC
Power input	1800 W
Min./max. idle speed	2300-5000 rpm
Max. saw-blade diameter	190 mm
Suitable for bore diameter	30 mm
Max. cutting depth at 90 degrees	65 mm
Weight of machine	5.2 kg
Cable length	4 m

Art. no. 5706 600 0

P. Qty.: 1

Metal mitre saw MKS 2400

Metal-cutting circular saw for sawing pipes and profiles made from steel, non-ferrous metals, plastics and composite materials, as well as stainless steel

- High tractive power, 2,400 W motor performance
- Horizontal grip position
- The saw can be transported easily thanks to the central carrying handle.
- Saw blade guide with vibration damper
- Cooling not necessary, meaning lubricant does not need to be used. No need for manual deburring.
- With sawdust collection receptacle
- Quick-action clamping system for convenient and quick adjustment of mitre cuts (90-75-60-45°)
- Optional mounting stand with scaled longitudinal stop (art. no. 0701330001) designed to make work more comfortable.

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class I/protective grounding
Max. circumferential speed	1450 m/min
Max. saw-blade diameter	355 mm
Suitable for bore diameter	25.4 mm
Power input	2400 W
Max. mitre angle	45 Degree
Max. tilt angle	45 Degree
Weight of machine	23.5 kg
Cable length	2.5 m
Max. idle speed	1450 rpm
Vibration	1.19 m/s ²
Sound-pressure level	100 dB
Length	510 mm
Width	320 mm
Height	450 mm

Art. no. 0701 330 0

P. Qty.: 1

- Saw blade not included in the scope of delivery
- The service life of the saw blade depends on the cross-section of the cutting surface.

Mitre saw KGS 270-60 E

Very compact and lightweight chop and mitre saw with electronic motor speed control, sliding function and powerful 1550-watt motor including 24-tooth SC saw blade, assembly tool and workpiece clamp

- Electronic motor speed control
- Tensioning function with internal trombone slide as well as high-quality slide and ball bearings
- Easy transport thanks to the safe locking function of the extension and saw head

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Max. saw-blade diameter	216 mm
Suitable for bore diameter	30 mm
Cutting width	270 mm
Cutting depth	60 mm
Power input	1550 W
Max. mitre angle	50 Degree
Max. tilt angle	48 Degree
Direction of rotation for tilt angle	Left
Weight of machine	15 kg
Cable length	2 m
Min./max. idle speed	2600-5200 rpm
Max. idle speed	5200 rpm
Vibration	2.1 m/s ²
Sound-pressure level	91 dB
Length	430 mm
Width	460 mm
Height	560 mm
Included in delivery (Lieferumfang)	1 x KGS270-60 E chop and mitre saw, 1 x HM saw blade, 1 x assembly tool, 1 x workpiece clamp, 1 x operating instructions

Art. no. 0701 344 0

P. Qty.: 1

Mitre saw KGS 250-60

Very compact and lightweight chop and mitre saw with sliding function and high-torque 1400-watt motor, including 24-tooth SC saw blade, assembly tool and workpiece clamp for portable use.

- Tensioning function with internal trombone slide as well as high-quality slide and ball bearings
- Cut line display
- Easy and quick adjustment of the mitre and tilt by means of fixed engagement at standard angles
- Precise working in all tilt settings
- Effective 2-point dust extraction
- Easy transport thanks to secure locking function of extension and saw head along with carrying handles

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Max. saw-blade diameter	216 mm
Suitable for bore diameter	30 mm
Cutting width	250 mm
Cutting depth	60 mm
Power input	1400 W
Max. mitre angle	48 Degree
Max. tilt angle	48 Degree
Direction of rotation for tilt angle	Left
Weight of machine	11.5 kg
Cable length	2 m
Min./max. idle speed	0-4600 rpm
Max. idle speed	4600 rpm
Vibration	2.7 m/s ²
Sound-pressure level	92 dB
Length	355 mm
Width	445 mm
Height	425 mm
Included in delivery (Lieferumfang)	1 x KGS 250-60 chop and mitre saw, 1 x HM saw blade, 1 x assembly tool, 1 x workpiece clamp, 1 x operating instructions

Art. no. 0701 343 0

P. Qty.: 1

Sabre saw SBS 1100-E

Precise, 1100 W sabre saw, for use with wood and metal

- Throttle switch
- Safety coupling
- Saw blade quick-action mount
- Lifting rod with special seals
- Accurate mounting of the lifting rod

Nominal voltage	230 V/AC
Power input	1100 W
Min./max. idle stroke speed	0-3000 rpm
Stroke length	19 mm
Tool holding device	Quick-change holder
Weight of machine	3.2 kg
Cable length	4 m

Art. no. 5706 540 1

P. Qty.: 1

Sabre saw SBS 1300-VES

High-specification sabre saw with orbital action, vibration damping and safety coupling

- Safety coupling
- Saw blade quick-change mounting
- Stroke rod with special seals

Nominal voltage	230 V/AC
Power input	1300 W
Min./max. idle stroke speed	0-3000 rpm
Stroke length	32 mm
Tool holding device	Quick-change holder
Weight of machine	4.2 kg
Cable length	4 m

Art. no. 0702 695 1

P. Qty.: 1

Oscillating jigsaw STP 140 EXACT-S

With rod handle, ideal for high-precision applications

- Specially developed saw blade guide ensures minimum bending and low vibration for excellent smoothness
- Compact, lightweight design with small handle-circumference
- No additional tool is required to change the saw blade or adjust the magnesium foot plate

Nominal voltage	230 V/AC
Power input	800 W
Min./max. idle stroke speed	800-3000 rpm
Number of pendulum-stroke stages	4 PCS
Stroke length	26 mm
Max. cutting depth in wood	140 mm
Tool holding device	Quick-change holder
Weight of machine	2.2 kg
Cable length	4 m
Functions	Saw-blade quick change system, Restarting protection

Art. no. 5706 700 2

P. Qty.: 1

Oscillating jigsaw STP 150 Power-S

With rod handle, ideal for working under tough construction site conditions.

- Powerful motor
- Deflection-resistant foot plate
- Soft grip surfaces around the ergonomic handle
- Saw blade changes without tools

Nominal voltage	230 V/AC
Power input	780 W
Min./max. idle stroke speed	500-3100 rpm
Number of pendulum-stroke stages	4 PCS
Stroke length	26 mm
Max. cutting depth in wood	150 mm
Tool holding device	Quick-change holder
Weight of machine	2.6 kg
Cable length	4 m
Functions	Electronic torque adjustment, Saw-blade quick change system, Dust extractor (accessory)

Art. no. 5706 702 2

P. Qty.: 1

Oscillating jigsaw STP 150 Power-B

With bow-type handle, ideal for working under tough construction site conditions.

- Powerful motor
- Deflection-resistant foot plate
- Soft grip surfaces around the ergonomic handle
- Saw blade changes without tools

Nominal voltage	230 V/AC
Power input	780 W
Min./max. idle stroke speed	500-3100 rpm
Number of pendulum-stroke stages	4 PCS
Stroke length	26 mm
Max. cutting depth in wood	150 mm
Tool holding device	Quick-change holder
Weight of machine	2.7 kg
Cable length	4 m
Functions	Saw-blade quick change system

Art. no. 5706 703 2

P. Qty.: 1

Oscillating jigsaw STP 140 EXACT-B

With bar handle, ideal for high-precision applications.

- Specially developed saw blade guide for minimal saw blade deflection
- Low vibrations for extremely quiet operation
- Compact, lightweight design with small handle-circumference

Nominal voltage	230 V/AC
Power input	800 W
Min./max. idle stroke speed	800-3000 rpm
Number of pendulum-stroke stages	4 PCS
Stroke length	26 mm
Max. cutting depth in wood	140 mm
Tool holding device	Quick-change holder
Weight of machine	2.3 kg
Cable length	4 m
Functions	Saw-blade quick change system, Restarting protection

Art. no. 5706 701 2

P. Qty.: 1

Mitre saw and circular saw bench KTS 140 Combi

Versatile, compact, rugged bench saw and mitre saw including mounted universal saw blade, parallel stop, push stick, protective hood and assembly tool. Perfect for easy, precise, safe execution of longitudinal, cross, mitre and inclined cuts.

- Powerful, high-grade induction motor for maintenance free, continuous operation
- Converted from circular saw bench to chop saw without tools
- Latching points for standard incline and mitre angles
- Removable legs and integrated carrying handles
- Adjustable workpiece stop

Nominal voltage	230 V/AC
Max. idle speed	2850 rpm
Max. saw-blade diameter	250 mm
Suitable for bore diameter	30 mm
Max. mitre angle	45 Degree
Weight of machine	37 kg
Cable length	2 m

Art. no. 0701 435 0

P. Qty.: 1

Guide rail for circular saw

Suitable for AHKS 18-68 COMPACT, HKS 55 Combi, TKS 59-E, HKS 65-E POWER, HKS 10-A

- With non-slip coating on underside

Length	1500 mm
Product weight (per item)	2250 g

Art. no. 0702 157 004

P. Qty.: 1

Portable bandsaw PBS 160 - AUTOMATIC

Metal bandsaw with automatic sawing frame lowering.

- Automatic lowering of the sawing frame with 4 adjustable lowering speeds for precise cutting results, as the correct contact pressure can be applied every time to prevent the sawing belt from deviating
- 40% faster cutting thanks to reverse direction of rotation of the sawing belt in comparison to clockwise rotating bandsaws
- Ergonomic handle
- Constant, need-based cutting speed
- Fixed angle stops 0°, 45°
- Dry cutting

Nominal voltage	230 V/AC
Power input	2000 W
Saw band dimensions	1735 x 13 x 0.9 mm
Weight of machine	35 kg
Cable length	4 m

Art. no. 0701 324 0

P. Qty.: 1

Wall and ceiling grinders WSS 225-E COMPACT

Ergonomic long neck grinder with high removal rate and effective dust extraction

- Soft start
- Very handy and lightweight machine with high operating comfort and optimal balance between motor and grinding disc
- Straight, rotatable edge segment
- Optimised flexible shaft
- Suction between brush ring and grinding disc, as well as 10-hole suction, prevent the abrasive from clogging too quickly.
- Spring-mounted grinding head hood ensures perfect adjustment of the grinding head to all uneven surfaces.

Nominal voltage	230 V/AC
Power input	500 W
Min./max. idle speed	1100-1650 rpm
Diameter of sanding plate	225 mm
Weight of machine	3.9 kg
Cable length	5 m

Art. no. 0702 121 1

P. Qty.: 1

Concrete grinder EBS 125-E

Powerful 1700-W concrete grinder for sanding and removal of concrete, screed and coatings on hard substrates.

- Powerful (1700 W) yet lightweight
- Speed control allows speeds that are appropriate to the material and remain constant even under load.
- The folding segment makes it possible to work close to edges and walls.
- The spring-mounted brush ring on the protective hood adjusts to every surface and segment height and therefore ensures efficient extraction in combination with the extractor hood and the connected vacuum cleaner.
- Ergonomic handle for safe and steady guidance during grinding.

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Power input	1700 W
Power output	950 W
Min. idle speed	2200 rpm
Max. idle speed	8500 rpm
Max. torque	6 Nm
Weight of machine	4.8 kg
Cable length	4 m
WEEE (taking back waste electrical and electronic equipment)	06

Art. no. 5707 701 1

P. Qty.: 1

Only for use with vacuum cleaners of dust class M.

Window joint cutter EFF 18-68

Powerful and handy window joint cutter with exceptional immersion depth

- Ergonomic bow handle
- Max. immersion depth 68 mm
- Rapid tool replacement

Nominal voltage	230 V/AC
Power input	1400 W
Max. idle speed	7300 rpm
Washer diameter	180 mm
Weight of machine	4.7 kg
Cable length	4 m

Art. no. 0702 911 2

P. Qty.: 1

Wall slitting cutter MSF 40

Extremely powerful wall slitting cutter with 1900 W motor, including two diamond cutting discs 125 mm

- Extremely powerful 1900 W drive with slip coupling
- Clamping lever for easy, tool-free depth adjustment
- Column and bow handles ensure optimum handling for horizontal and vertical work

Nominal voltage	230 V/AC
Power input	1900 W
Min./max. idle speed	0-8200 rpm
Max. cutting disc diameter.	125 mm
Min./max. cutting depth	0-40 mm
Min./max. cutting width	0-35 mm
Weight of machine	3.9 kg
Cable length	4 m

Art. no. 0702 416 1

P. Qty.: 1

Electric planer EH 4

High-performance planer with extra-large chip ducts and chip bag for fault-free, clean operation

- High-performance 1050 W motor
- Large-diameter blade shaft
- High-volume chip bag with fill level display
- Chips can be ejected to the right or left (adjustable)

Nominal voltage	230 V/AC
Power input	1050 W
Min./max. idle speed	0-13500 rpm
Planing width	82 mm
Max. rebate depth	25 mm
Max. planing depth	4 mm
Weight of machine	4 kg
Cable length	4 m

Art. no. 0702 816 1

P. Qty.: 1

Eccentric disc-type sander ETS 125-E

Powerful and handy random orbital sander with 6-hole sanding plate for Ø125 mm sanding discs.

- Simultaneous rotating and oscillating motion
- Integrated dust extraction
- Adjusting wheel for adapting the number of rotations and oscillations

Nominal voltage	230 V/AC
Power input	320 W
Min./max. idle speed	4200-9200 rpm
Min./max. idle orbital rate	8400-18400 1/min
Diameter of sanding plate	125 mm
Oscillating diameter	5 mm
Weight of machine	2 kg
Cable length	4 m

Art. no. 0702 128 0

P. Qty.: 1

Eccentric disc-type sander ETS 150-E twin

With two lifting levels for coarse and fine sanding and with 6-hole grinding plate for Ø 150-mm grinding discs.

- 2 stroke settings on one machine: Coarse grinding with 6.2 mm stroke, fine grinding with 2.8 mm stroke
- Simultaneous rotating and oscillating motion
- Integrated dust extraction
- Adjusting wheel for adapting the number of rotations and oscillations

Nominal voltage	230 V/AC
Power input	350 W
Min./max. idle speed	4200-9200 rpm
Min./max. idle orbital rate	8400-18400 1/min
Diameter of sanding plate	150 mm
Oscillating diameter, 1st gear/2nd gear	2.8/6.2 mm
Weight of machine	2.2 kg
Cable length	4 m

Art. no. 0702 129 0

P. Qty.: 1

Eccentric disc-type sander ETS 150-E COMPACT

Small, handy random orbital sander designed for sanding work on wood, metal and coatings

- The small size makes it easy to operate and enables efficient working.
- The oscillation can be adjusted as needed to suit each application.
- The comfortable, rubberised handle absorbs significant vibration.
- The 5-mm stroke of the random orbital sander removes a large amount of material in use.
- The brushless EC motor gives the machine a long service life and therefore ensures higher efficiency and lower maintenance requirements.

Nominal voltage	220 V/AC
Power input	350 W
Min./max. idle speed	4000-10000 rpm
Diameter of sanding plate	150 mm
Oscillating diameter	5 mm
Weight of machine	1.21 kg
Cable length	4 m

Art. no. 0702 124 0

P. Qty.: 1

Eccentric disc-type sander ETS 150-2.5-E COMPACT

Lightweight, powerful one-handed random orbital sander with 2.5 mm stroke; ideal for achieving a perfect surface finish on wood and metal

- Small dimensions for excellent handling and efficient processing
- Brushless EC motor ensures a long running time, greater efficiency and low maintenance efforts and costs
- Low-vibration operation and strong vibration absorption thanks to the rubberised, comfortable handle

Nominal voltage	230 V/AC
Power input	350 W
Min./max. idle speed	4000-10000 rpm
Diameter of sanding plate	150 mm
Oscillating diameter	2.5 mm
Weight of machine	1.21 kg
Cable length	4 m

Art. no. 5707 710 0

P. Qty.: 1

Straight grinder GSL 950-E POWER

The geared high-power model with long neck and planetary gear unit for machining surfaces.

- Planetary gear unit
- Easy tool change with spindle stop
- Lightweight collar design (conical shape)
- Removable rubber cap and additional handle
- Safety cut-out if the tool blocks
- Restart protection to prevent an accidental restart of the tool
- Thermal overload protection
- Insensitive to dust with coated field coil and winding protective grille
- Drive for flexible shaft
- Suitable for clamping frame

Nominal voltage	230 V/AC
Power input	950 W
Min./max. idle speed	2500-8700 rpm
Collet chuck diameter	6 mm
Weight of machine	2 kg
Cable length	4 m

Art. no. 0702 522 0

P. Qty.: 1

Straight grinder GSL 700-E

The universal tool with long neck for milling and grinding work.

- Easy tool change with spindle stop
- Lightweight collar design (conical shape)
- Removable rubber cap and additional handle
- Safety cut-out if the tool blocks
- Restart protection to prevent an accidental restart of the tool
- Thermal overload protection
- Insensitive to dust with coated field coil and winding protective grille
- Drive for flexible shaft
- Suitable for clamping frame

Nominal voltage	230 V/AC
Power input	710 W
Min./max. idle speed	10000-30500 rpm
Collet chuck diameter	6 mm
Weight of machine	1.9 kg
Cable length	4 m

Art. no. 0702 521 0

P. Qty.: 1

Without planetary gear

Straight grinder GS 700-E

The high-power model, small and powerful

- Lightweight collar design
- Safety cut-out if the tool blocks
- Restart protection to prevent an accidental restart of the tool
- Thermal overload protection
- Insensitive to dust with coated field coil and winding protective grille

Nominal voltage	230 V/AC
Power input	710 W
Min./max. idle speed	13000-34000 rpm
Collet chuck diameter	6 mm
Weight of machine	1.7 kg
Cable length	4 m

Art. no. 0702 520 0

P. Qty.: 1

- No drive for flexible shaft
- No planetary gear

Polishing machine PM 200-E

Powerful polishing machine and calender in a compact and handy design

- With the corresponding accessories, the PM 200-E replaces a calender
- Minimal force needed when working side surfaces
- Double transmission reduction enables very low speed
- Soft start and restart protection (after power cuts)

Nominal voltage	230 V/AC
Power input	1200 W
Min./max. idle speed	900-2700 rpm
Max. polishing element diameter	200 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.5 kg
Cable length	4 m

Art. no. 0702 453 0

P. Qty.: 1

Support plate and polishing pad not included

Eccentric polishing machine EPM 160-E

Compact and high-performance, with 1,010 W motor and 8 mm polishing stroke for a high level of efficiency. Ideal for hologram-free polishing with permanent positive drive

- Accurate handling with dome grip. Ergonomically shaped bail handle can be unscrewed
- Soft start for slow, careful start of the machine without jerking or spraying polish
- Prevents unintentional start-ups after power cuts

Nominal voltage	230 V/AC
Power input	1010 W
Min./max. idle speed	160-480 rpm
Weight of machine	2.7 kg
Cable length	4 m
Min./max. idle stroke speed	3200-9600 rpm

Art. no. 5707 500 0

P. Qty.: 1

Polishing machine Automotive EPM 14-200-E

Powerful 1450 W automotive polishing machine ideal for removing scratches

- Thermal overload protection
- Restarting protection
- Overload protection

Nominal voltage	230 V/AC
Power input	1450 W
Min./max. idle speed	490-2100 rpm
Max. polishing element diameter	200 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.3 kg
Cable length	6 m

Art. no. 5707 510 0

P. Qty.: 1

Electrical orbital sander ESS 115-2

With universal clamping system for fastening Velcro sandpaper with dimensions of 230 x 115 mm and 10-hole perforation, and for clamping sandpaper without an adhesion system

- Low-vibration and long-lasting oscillation system
- Universal clamping system permits the use of sandpaper with and without Velcro
- Use of abrasives up to 10 mm thick
- Integrated dust extractor
- Additional extraction with side extraction channels on the Velcro abrasive pad
- Universal extraction connection with fluting

Nominal voltage	230 V/AC
Power input	350 W
Min./max. idle speed	4200-9200 rpm
Min./max. idle orbital rate	8400-18400 1/min
Grinding surface length x grinding surface width	230 x 115 mm
Oscillating diameter	2.2 mm
Weight of machine	2.7 kg
Cable length	4 m

Art. no. 5707 700 0

P. Qty.: 1

Harmful dusts (e.g. sawdust and paint dust) must be extracted by a vacuum cleaner with dust class M approval. The industrial wet and dry vacuum cleaner ISS 45-M automatic, Art. no. 07011460 is suitable for extracting such dusts.

Battery-powered angle grinder EWS 28-A

Powerful battery-powered angle grinder with lithium-ion technology. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- Lithium-ion technology
- Charge status display on the battery
- One-handed operation possible
- Overload and restart protection
- Spindle lock and Fixtec quick-clamping nut
- Suitable for Ø 125 mm discs

Nominal voltage	28 V/DC
Max. idle speed	9000 rpm
Max. cutting disc diameter.	125 mm
Weight of machine without rechargeable battery	1.8 kg

Included in delivery (Lieferumfang)	Rechargeable battery/battery capacity	Art. no.	P. Qty.
Batteries not included; with additional accessories		0700 237 04	1
2 x 3 Ah batteries; with additional accessories	3 Ah	0700 237 4	1

Sheet metal nibbler EK 16-E

Powerful nibbler with high cutting speed for universal use.

- Very slim gear head for optimum ease of handling
- Quick-release system for straightforward stamp and die replacement
- Tool-free rotation of the die holder enables cutting direction to be variably adjusted in 45° increments by 360°
- Electronic stroke rate adjustment
- Rotating round stamp prolongs service life by up to 30% and reduces operating costs
- Chip protection grille on ventilation slots

Nominal voltage	230 V/AC
Power input	350 W
Min./max. idle stroke speed	0-1500 rpm
Max. cutting capacity in sheet metal (400 N/mm ²)	1.6 mm
Cutting speed	1.9 m/min
Cutting lane width	5 mm
Weight of machine	1.8 kg
Cable length	5 m

Art. no. 0702 717 2

P. Qty.: 1

Compressor Solid 24 L oil-free

Oil-free, robust piston compressor for flexible use

- Oil-free piston compressor
- Additional manometer
- Adjustable working pressure through pressure reducer with manometer

Type description	SOLID24-OILFREE
Motor output	1.5 kW
Max. pressure	8 bar
Tank capacity	24 l
Intake air capacity	220 l/min
Filling capacity	120 l/min
Supply air quantity at 80 % of max. pressure	100 l/min
Oil-free operation	Yes
Nominal voltage	230 V/AC
Frequency	50 Hz
IP protection class	IP 20
Rotation speed	2850 rpm
Min./max. temperature conditions	5 to 40 °C
Cable length	1.5 m
Length x width x height	630 x 406 x 630 mm
Number of cylinders	1 PCS

Continuation **Compressor Solid 24 L oil-free**

Number of quick-action couplings	1 PCS
Sound-pressure level	82 dB
Weight of machine	24 kg

Art. no. 0701 223 0

P. Qty.: 1

Compressor Compact 20 L oil-free

Oil-free, compact piston compressor for flexible use in interior fitting and on construction sites using the mounting and transport facilities of the large system case.

- Oil-free piston compressor
- All components are installed in a sturdy, compact tubular frame
- Equipped with two strong lifting eyes
- Additional manometer
- Adjustable working pressure through pressure reducer with manometer
- High-quality pressure switch with relief valve
- Robust wheels and variable pull/carry handle (trolley function) for convenient transport
- Rubber feet for secure footing
- Cable can be wound up
- Integrated overload protection

Type description	COMPACT20-OILFREE
Motor output	1.7 kW
Max. pressure	10 bar
Tank capacity	20 l
Intake air capacity	280 l/min
Filling capacity	150 l/min
Supply air quantity at 80 % of max. pressure	140 l/min
Oil-free operation	Yes
Nominal voltage	230 V/AC
Frequency	50 Hz
IP protection class	IP 20
Rotation speed	2850 rpm
Min./max. temperature conditions	0 to 40 °C
Cable length	4 m
Length x width x height	580 x 600 x 500 mm
Number of cylinders	1 PCS
Number of quick-action couplings	2 PCS
Sound-pressure level	82.5 dB
Weight of machine	40 kg

Art. no. 0701 224 0

P. Qty.: 1

Not approved for use in medicine, foodstuff processing or for filling breathing apparatus. Observe the safety notices in the operating instructions. The device has been prototype tested.

Compressor Power 50 L

Powerful, robust V-belt piston compressor for flexible applications within the workshop

- Adjustable working pressure and good air quality thanks to filter pressure reducer with manometer and oil mister
- Built-in overload protection
- High manoeuvrability and secure footing due to steering rollers with locking brake

Type description	POWER50L
Motor output	2.2 kW
Max. pressure	10 bar
Tank capacity	50 l
Intake air capacity	393 l/min
Filling capacity	300 l/min
Supply air quantity at 80 % of max. pressure	255 l/min
Oil-free operation	No
Nominal voltage	230 V/AC
Frequency	50 Hz
IP protection class	IP 44
Rotation speed	1050 rpm
Min./max. temperature conditions	5 to 40 °C
Cable length	1.5 m
Length x width x height	1050 x 410 x 817 mm
Number of cylinders	2 PCS
Number of quick-action couplings	3 PCS
Sound-pressure level	86 dB
Weight of machine	73 kg

Art. no. 0701 225 0

P. Qty.: 1

Not approved for use in medicine, foodstuff processing or for filling breathing apparatus. Observe the safety notices in the operating instructions. The device has been prototype tested.

Agitating basket DLX

For soft and pourable compounds

- Splash-free mixing
- No clumps form
- Mixing effect from top to bottom

Length	590 mm
Basket diameter	120 mm
Min./max. amount of material that can be agitated	15-30 kg
Suitable for machine chuck	M14

Art. no. 0713 95 140

P. Qty.: 1

Electrical plate shears EB 13-2

Lightweight, handy electrical plate shears for sheet steel up to 1.3 mm thick.

- Low curve radius and free field of view on templates
- High cutting speed
- Burr-free cutting
- High level of safety

Nominal voltage	230 V/AC
Power input	300 W
Min./max. idle stroke speed	0-3900 rpm
Max. cutting capacity in sheet metal	1.3 mm
Cutting speed	9 m/min
Min. curve radius	145 mm
Weight of machine	1.6 kg
Cable length	4 m

Art. no. 0702 713 0

P. Qty.: 1

Multi-cutter EMS 350-SL COMPACT

Very compact, low-vibration 350 Watt multi-cutter with innovative Starlock-Plus tool holder for better torque transmission

- Innovative Starlock Plus chuck ensures better torque transfer, compatible with all Starlock and Starlock Plus accessories
- Electronic speed control
- Anti-vibration system offers maximum operating comfort
- Convenient quick-action clamping system
- Accessories set including suction device

Nominal voltage	220 V/AC
Power input	350 W

Min./max. idle orbital rate	10000-19500 1/min
Oscillation stroke	3.4 Degree
Tool holding device	Starlock Plus
Weight of machine	1.4 kg
Cable length	5 m

Art. no. 5706 101 1

P. Qty.: 1

Multi-cutters EMS 450-SL POWER

Very strong, low-vibration 450 Watt multi-cutter with innovative Starlock-Max tool holder for better torque transmission

- Quick-In quick-action clamping system
- Starlock Max tool chuck is suitable for all existing Starlock accessories
- Anti-vibration system
- Infinitely adjustable speed
- Tacho generator for optimum consistency under load
- Long 4.0° oscillation stroke for fast removal and fast cutting

Nominal voltage	220 V/AC
Power input	450 W
Min./max. idle orbital rate	10000-19500 1/min
Oscillation stroke	4 Degree
Tool holding device	Starlock Max
Weight of machine	1600 g
Cable length	5 m

Art. no. 5706 102 1

P. Qty.: 1

Multi-cutter EMS 450 1.7 Compact

Extremely powerful multi-cutter with quick-action clamping system specially designed for the automotive sector.

- Anti-vibration system reduces vibrations by up to 70 %
- Metal gears ensure durability and long service life
- 450 W motor is permanently secure and overload-proof, with infinitely variable speed control

Nominal voltage	230 V/AC
Power input	450 W
Min./max. idle orbital rate	10000-19500 1/min
Oscillation stroke	3.4 Degree
Tool holding device	Quick-change holder
Weight of machine	1650 g
Cable length	5 m

Continuation **Multi-cutter EMS 450 1.7 Compact**

Art. no. 5706 103 1

P. Qty.: 1

Diamond tile cutting machine WAC 90

Professional, low-noise, stainless-steel diamond tile cutting machine with integrated water cooling system allow for a maximum cutting length of up to 90 cm.

- High-quality materials and robust design
- Flexible adjustment options for cutting height and cutting angle
- Sturdy carrying handles at front and rear, large wheels on rear support feet

Nominal voltage	230 V/AC
Power input	1500 W
Min./max. idle speed	0-2800 rpm
Max. cutting length	900 mm
Max. cutting depth	50 mm
Max. cutting disc diameter.	250 mm
Drill hole	25.4 mm
Weight of machine	52 kg
Cable length	3 m

Art. no. 0701 409 2

P. Qty.: 1

Diamond tile cutting machine WAC 120

Professional, low-noise, stainless-steel diamond tile cutting machine with integrated water cooling system allow for a maximum cutting length of up to 120 cm.

- High-quality materials and robust design
- Flexible adjustment options for cutting height and cutting angle
- Sturdy carrying handles at front and rear, large wheels on rear support feet

Nominal voltage	230 V/AC
Power input	1500 W
Min./max. idle speed	0-2800 rpm
Max. cutting length	1200 mm
Max. cutting depth	50 mm
Max. cutting disc diameter.	250 mm
Drill hole	25.4 mm
Weight of machine	62 kg
Cable length	3 m

Art. no. 0701 401 2

P. Qty.: 1

Angle grinder EWS 7-115 Basic

Powerful 720 W angle grinder with a 115 mm protective cover and restart protection. Ideal for simple grinding and cutting.

- Restart protection
- Lightweight and handy
- Small drive head
- The specially developed air vents cool the motor down optimally
- Automatic cut-off carbon brushes
- Twist-proof protective hood

Nominal voltage	230 V/AC
Power input	720 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	115 mm
Thread type x spindle-thread diameter	M14
Weight of machine	1.8 kg
Cable length	4 m

Art. no. 5707 011 0

P. Qty.: 1

Angle grinder EWS 8-115 Light-S

Handy 850 Watt angle grinder with small grip circumference. Ideal for thin cuts and fine grinding

- Restart protection after power failure
- Small grip circumference
- Powerful motor with good overload capability

Nominal voltage	230 V/AC
Power input	850 W
Max. idle speed	11.5 rpm
Max. cutting disc diameter.	115 mm
Thread type x spindle-thread diameter	M14
Weight of machine	1.8 kg
Cable length	4 m

Art. no. 5707 014 0

P. Qty.: 1

Quick-clamping nut Fixtec

Tool-free changing of abrasives for angle grinders. Tightened and released by hand

- For angle grinders up to max. Ø 150 mm with standard M14 spindle thread
- The quick-clamping nut can also be released with face wrench, if necessary
- Holes are located below the clip
- Use suitable face wrench

Diameter	49 mm
Height	9 mm

Art. no. 0702 480 900

P. Qty.: 1

Once the clamping flange and separating or roughing wheel are mounted, the free grinding spindle length must be at least 3 mm.

Quick-clamping nut Jacobs

Tool-free changing of abrasives for angle grinders. Tightened and released by hand

- For angle grinders with 180–230 mm diameter and standard M14 spindle thread
- Patented clamping system design practically rules out the risk of jams during heavy-duty work

Diameter	47 mm
Height	12.5 mm

Art. no. 0702 489 900

P. Qty.: 1

Once the clamping flange and separating or roughing wheel are mounted, the free grinding spindle length must be at least 10 mm.

Extractor hood WSA 125 for angle grinder

Permits almost dust-free operation.

- Simple assembly
- Grind close to walls
- Brush ring and optimised flow channel for almost dust-free grinding
- Consistently high extraction rates
- Dust extraction connection Ø 35/41 mm

Diameter	125 mm
Height	80 mm
Suitable machines	Würth EWS 14-125 EQ Universal, Würth EWS 17-125 Q Power, Würth EWS 12-125 Solid, Würth EWS 10-125 Compact, Würth EWS 12-125 T Solid
Weight	0.3 kg

Art. no. 5707 000 107

P. Qty.: 1

Angle grinder EWS 14-125 INOX

1400 watt, handy angle grinder for grinding and roughing work with stainless steel.

- High torque in mid and low speed range
- 3x winding protection against metal dusts
- Optimal speed adjustment with the constant electronics

Nominal voltage	230 V/AC
Power input	1400 W
Max. idle speed	7500 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.4 kg
Cable length	4 m
Functions	Constant electronics
Min./max. idle speed	2100-7500 rpm

Art. no. 0702 478 0

P. Qty.: 1

Angle grinder EWS 12-125-T Solid

Reliable 1,200-watt angle grinder demonstrates impressive robustness, endurance and an additional anti-vibration handle. Ideal for intensive work with high safety requirements.

- Deadman's switch
- Recoil protection
- Quick-adjustment protective hood

Nominal voltage	230 V/AC
Power input	1200 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.4 kg
Cable length	4 m
Functions	Anti-vibration system, Recoil protection, Dead man's switch, Quickly adjustable cover

Art. no. 5707 004 3

P. Qty.: 1

Flat-head angle grinder FKWS 9-125

Solution for hard-to-reach places, especially in grinding operations at acute angles up to 43°.

- Compact design with ultra flat drive head
- Constant electronics
- Restart protection
- Electronic overload protection and soft start
- Electronic safety shutdown
- Quick-release nut and quick adjustment safety guard

Nominal voltage	230 V/AC
Power input	910 W
Max. idle speed	10000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.1 kg
Cable length	4 m
Functions	Constant electronics, Restarting protection, Overloading protection, Quick clamping system (Fixtec), Soft start, Recoil protection
Min./max. idle speed	0-10000 rpm

Art. no. 5707 000 2

P. Qty.: 1

Angle grinder EWS 12-125 SOLID

1,200 watt, powerful and robust angle grinder with anti-vibration handle for fast working progress and long service life. Ideal for continuous intense rough machining and cutting work

- Restart protection
- Recoil protection
- Quickly adjustable protective cover

Nominal voltage	230 V/AC
Power input	1200 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.4 kg
Cable length	4 m
Functions	Anti-vibration system, Restarting protection, Recoil protection, Overloading protection
Min./max. idle speed	0-11000 rpm

Art. no. 5707 040 0

P. Qty.: 1

Angle grinder EWS 7-125-E Basic

Extremely easy-to-handle 720-watt angle grinder with speed control and a 125-mm protective hood. Ideal for light grinding and cutting work.

- Recoil and restart protection
- Direct motor cooling
- Small gear head

Nominal voltage	230 V/AC
Power input	720 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	1.8 kg
Cable length	4 m
Functions	Restarting protection, Overloading protection, Speed electronics
Min./max. idle speed	2800-11000 rpm

Art. no. 5707 013 0

P. Qty.: 1

If you are using a 115-mm protective hood, 115-mm grinding wheels and cutting discs can also be used.

Angle grinder EWS 10-125-E COMPACT

Compact 1,000-watt angle grinder with ideal balance of power and ergonomics. Ideal for light- to medium-duty grinding and cutting work, such as deburring

- 6-stage speed regulation with constant electronics
- Recoil/restart/overload protection and soft start
- Quick-adjustable protective hood

Nominal voltage	230 V/AC
Power input	1000 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.1 kg
Cable length	4 m
Functions	Speed electronics, Speed adjustment wheel, Restarting protection, Soft start, Recoil protection, Overloading protection, Constant electronics, Quickly adjustable cover
Min./max. idle speed	2800-11000 rpm

Art. no. 5707 030 0

P. Qty.: 1

Angle grinder EWS 17-125-EQ POWER

Powerful 1,700-watt angle grinder with good handling, fast material removal and maximum productivity. Ideal for heavy-duty roughing and cutting work

- 6-stage speed regulation with constant electronics
- Recoil/restart/overload protection as well as soft start
- Quick-action nut „Q-Nut“, quick-adjustment protective hood

Nominal voltage	230 V/AC
Power input	1700 W
Max. idle speed	11000 rpm
Max. cutting disc diameter.	125 mm
Thread type x spindle-thread diameter	M14
Weight of machine	2.6 kg
Cable length	4 m
Functions	Speed electronics, Speed adjustment wheel, Constant electronics, Recoil protection, Restarting protection, Soft start, Overloading protection, Quick clamping nut, Quickly adjustable cover, Anti-vibration system
Min./max. idle speed	2800-11000 rpm

Art. no. 5707 061 2

P. Qty.: 1

Two-hand angle grinder EWS 24-180

2400-watt angle grinder for disks with max. 180 mm diameter.

- Handle can be rotated in 90° steps
- Very slim housing
- Vibration damping on both handles
- Twist-resistant protective guard
- Kickback protection
- Overload indicator
- Restart protection
- Overload protection
- Soft start
- Optimised dust protection concept

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Power input	2400 W
Max. cutting disc diameter.	180 mm
Max. idle speed	8500 rpm
Thread type x spindle-thread diameter	M14
Weight of machine	5.7 kg
Cable length	4 m

Art. no. 0702 445 10

P. Qty.: 1

Two-hand angle grinder EWS 24-180-S

2400-watt angle grinder with quick-clamping nut, for discs with max. 180 mm diameter.

- Handle can be rotated in 90° steps
- Very slim housing
- Vibration damping on both handles
- Twist-resistant protective guard
- Kickback protection
- Overload indicator
- Restart protection
- Overload protection
- Soft start
- Optimised dust protection concept

Nominal voltage	230 V/AC
Frequency	50 Hz
Protection class	Protection class II/protective insulation
Power input	2400 W
Max. cutting disc diameter.	180 mm
Max. idle speed	8500 rpm
Thread type x spindle-thread diameter	M14

Continuation **Two-hand angle grinder EWS 24-180-S**

Weight of machine	5.7 kg
Cable length	4 m

Art. no. 0702 445 20

P. Qty.: 1

Two-hand angle grinder EWS 24-230

2400-watt angle grinder for disks with max. 230 mm diameter.

- Handle can be rotated in 90° steps
- Very slim housing
- Vibration damping on both handles
- Twist-resistant protective guard
- Kickback protection
- Overload indicator
- Restart protection
- Overload protection
- Soft start
- Optimised dust protection concept

Nominal voltage	230 V/AC
Power input	2400 W
Max. idle speed	6600 rpm
Max. cutting disc diameter.	230 mm
Thread type x spindle-thread diameter	M14
Weight of machine	5.8 kg
Cable length	4 m

Art. no. 0702 446 10

P. Qty.: 1

Two-hand angle grinder EWS 24-230-S

2400-watt angle grinder with quick-clamping nut, for discs with max. 230 mm diameter

- Handle can be turned in 90° increments
- Vibration damping on both handles
- With recoil, overload and restart protection

Nominal voltage	230 V/AC
Power input	2400 W
Max. idle speed	6600 rpm
Max. cutting disc diameter.	230 mm
Thread type x spindle-thread diameter	M14
Weight of machine	5.8 kg
Cable length	4 m

Art. no. 0702 446 20

P. Qty.: 1

Safety angle grinder SWS 26-230-T

Extremely powerful and safe angle grinder with long-lasting 2600 W motor, dead man's switch and run-out brake

- Electronic safety coupling
- Mechanical disc brake
- Dead man's switch with safety function

Nominal voltage	230 V/AC
Power input	2600 W
Max. idle speed	6600 rpm
Max. cutting disc diameter.	230 mm
Thread type x spindle-thread diameter	M14
Weight of machine	6.6 kg
Cable length	4 m

Art. no. 5707 090 0

P. Qty.: 1

Electrode manual welding inverter ESI 160

Digital electrode welding inverter. Your entry level device for all e-hand applications.

- MicorBoost technology facilitates the welding of all electrodes, including cellulose
- Switchable to TIG welding with ContacTIG ignition
- Optimal for assembly application thanks to IP23 and S sign

Marking: CE, S

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 2.4 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	15-160 A
ON time at max. current (40 °C)	30 %
Welding current at ED 100%	110 A
Welding current at ED 60%	120 A
Weldable material thickness	Steel up to 10 mm, TIG welding steel/stainless steel 1 - 6 mm, Copper 1 - 3 mm
Product weight (per item)	11824 g
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 162

P. Qty.: 1

Electrode manual welding inverter ESI 200

Small, powerful electrode welding inverter for all power jobs

- MicorBoost technology facilitates the welding of all electrodes, including cellulose
- Simple switching to electrode types
- 80 cm drop safety (min. 25 cm according to standard)
- Switchable to TIG welding with ContacTIG ignition
- Smooth and uniform arc (arc force regulation)
- No sticking of electrode (anti-stick system)
- Hot start
- Power supply (400 V) or generator - optimal welding properties, including with long wires or in the case of mains voltage fluctuations.
- Light and compact (5.5 kg at 200 A (30% ED))
- Optimal for assembly application thanks to IP23 and S sign

Nominal voltage	400 V/AC
Min./max. current	10-200 A
Weldable electrodes	1.5 - 5 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-200 A
Min./max. TIG welding current	15-200 A
ON time at max. current (40°C)	30 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Steel up to 10 mm, Steel/stainless steel 1-8 mm, Copper 1 - 3 mm
Product weight (per item)	6 kg
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 202

P. Qty.: 1

Marking: CE, S

- Arc force: Increases the arc voltage in critical situations. Prevents slag from running into the molten bath and extinguishing the arc. As a result, even difficult-to-weld electrodes can be processed.
- Hot Start: Ensures reliable ignition of the electrode. The hot start energy is automatically adjusted to the selected welding current.
- Anti-stick: Prevents the electrode from sticking to the work piece by automatically reducing the current. As a result, the electrode does not glow out and evaporation of alloy elements is prevented.

Spare part documentation in accordance with (EU) 2019/1784 – Requirements for the ecological design of welding systems. The relevant documentation is stored in the Würth Parts Manager (<https://pm.wuerth.com/index.php>). For further questions, please contact the appropriate sales representative or product and application.

MIG/MAG welding system MM 350

Welding system with 4-roller wire feed unit for welding aluminium, steel and stainless steel welding wire

- Finely-adjustable switching mechanism using 2 x 12 level coarse/fine switches
- Overload protection
- Can be used for long periods thanks to fan cooling
- Automatic control of welding current, post-purge gas flow and spot welding time
- Wire feed automatically adjusts to the selected settings
- Can be switched between 2/4-cycle spot welding

Nominal voltage	400 V/AC
Weldable wires	Aluminium, diameter 0.8 - 1.6 mm, Steel/stainless steel, diameter 1 - 1.6 mm
Min./max. current	25-350 A
ON time at max. current (40°C)	30 %
Cable length	5 m
Weight of machine	104 kg
Equipped wire diameter	1 mm
Width	390 mm
Height	690 mm
Length	830 mm
Main fuse	25A

Art. no. 5952 352 350

P. Qty.: 1

Standard value for flow rate in l/min: Wire dia. x 10 = l/min

A conversion of PTFE seams on the hose pack is required for processing aluminium and stainless steel welding wires

- Aluminium torch set 098430005
- Stainless steel torch set 098430006
- Stainless steel torch set 098430007

Spare part documentation in accordance with (EU) 2019/1784 – Requirements for the ecological design of welding systems. The relevant documentation is stored in the Würth Parts Manager (<https://pm.wuerth.com/index.php>). For further questions, please contact the appropriate sales representative or product and application.

MIG/MAG welding system MM 230

Welding system with 2-roller wire feed unit for welding aluminium, steel and stainless steel welding wire.

- Adjustable switching mechanism using step switch with 7 levels
- Automatic control of welding current, post-purge gas flow and spot welding time
- Wire feed automatically adjusts to the selected level

Nominal voltage	400 V/AC
Weldable wires	Aluminium, diameter 1 - 1.2 mm, Steel, diameter 0.6-1 mm
Min./max. current	30-230 A
ON time at max. current (40°C)	20 %
Cable length	3 m
Weight of machine	66 kg
Equipped wire diameter	1 mm
Wire feed roll for stainless steel	1 mm
Wire feed roll for steel	0.8 mm

Art. no. 0702 352 0

P. Qty.: 1

TIG welding system 180DC

The compact professional device, extremely easy to control and preset welding parameters facilitate your professional introduction into TIG welding.

- Touch-free HF ignition possible via push button, switchable to conventional contact ignition
- Switchable to electrode welding
- Tungsten electrode and seam are optimally protected against oxidation thanks to automatic gas management
- Fan standby function, modern performance electronics
- Two welding jobs per electrode and TIG can be stored
- Special coating of PCB
- Light and compact (6.5 kg at 180 A (30% ED))
- Optimal for assembly application thanks to IP23 and S sign
- 80 cm drop safety (min. 25 cm according to standard)

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	15-180 A
ON time at max. current (40°C)	30 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Copper 1 - 3 mm, Steel up to 10 mm, TIG welding steel/stainless steel 1 - 6 mm
Product weight (per item)	16700 g
Height	211 mm
Width	130 mm
Length	337 mm
IP protection class	IP 23

Art. no. 5952 000 182

P. Qty.: 1

WIG welding system 180 AC/DC

Easy to operate WIG full professional system. Whether on a construction site or in the workshop, you enjoy the full convenience of the system.

- Aluminium welding also possible with AC/DC
- Touch-free HF ignition possible via push button, switchable to conventional contact ignition
- Switchable to electrode welding
- Tungsten electrode and seam are optimally protected against oxidation thanks to automatic gas management
- Fan standby function, modern performance electronics
- Two welding jobs per electrode and TIG can be stored
- Special coating of PCB
- Light and compact (13.3 kg at 180 A (35% ED))
- Optimal for assembly application thanks to IP23 and S sign
- 60 cm drop safety (min. 25 cm according to standard)

Nominal voltage	230 V/AC
Weldable electrodes	1.5 - 4 mm
Weldable TIG welding rods	1 - 3.2 mm
Min./max. electrode welding current	10-150 A
Min./max. TIG welding current	3-180 A
ON time at max. current (40°C)	35 %
Welding current at ED 100%	130 A
Welding current at ED 60%	150 A
Weldable material thickness	Aluminium 1 - 5 mm, Copper 1 - 3 mm, Steel up to 10 mm, Steel/stainless steel 1-8 mm
Product weight (per item)	13.3 kg
Height	390 mm
Width	191 mm
Length	493 mm
IP protection class	IP 23

Art. no. 5952 000 181

P. Qty.: 1

Marking: CE, S

Pneumatic application gun Juniorfix

Powerful and lightweight pneumatic application gun for applying products in cartridges. Ideally suited for adhesives and sealants with high and low viscosities.

- Lightweight, compact and ergonomic design
- Rotary pressure controller on handle for slow and fast extrusion
- Damper on quick-trigger valve
- Fully enclosed housing

Suitable for	310 ml cartridge
Flow capacity	7.2 l/min
Length	238 mm
Connection thread	1/4 inch
Weight of machine	0.47 kg

Art. no. 0703 891 310

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

The average consumption for pneumatic application guns is approx. 7.2 litres/minute.

Caution: The maximum working pressure for applying sealants is 6 bar.

Pneumatic application gun Druckfix

Powerful and lightweight pneumatic application gun for applying products in bag goods. Ideally suited for adhesives and sealants with high and low viscosities.

- Lightweight, compact and ergonomic design
- Rotary pressure controller on handle for slow and fast extrusion
- Damper on quick-trigger valve ensures optimum movement
- Fully enclosed housing

Suitable for	300/600 ml bag
Flow capacity	7.2 l/min
Length	445 mm
Connection thread	1/4 inch
Weight of machine	0.95 kg

Art. no. 0703 891 600

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

The average consumption for pneumatic application guns is approx. 7.2 litres/minute. Caution: The maximum working pressure for applying sealants is 6 bar.

Pneumatic cartridge gun Kombifix

For 310-ml cartridges

- Automatically reduces the mains pressure to 7-bar working pressure
- Infinitely and finely adjustable
- The amount of spraying air and material can each be regulated individually
- Two-step trigger
- Material feed via telescopic cylinder makes ingress of compressed air into the cartridge impossible
- Scope of delivery includes:
 - 10 plastic nozzles for sprayable seam sealant
 - 1 union nut for sprayable seam sealant
 - 1 union nut for standard sealing compounds
 - 1 connecting nipple, 1/4 inch

Suitable for	310 ml cartridge
Length	350 mm

Art. no. 0891 628 6

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

The average consumption for pneumatic application guns is approx. 7.2 litres/minute. – Caution: The maximum working pressure for applying sealants with this pistol is 7 bar.

Cordless grease gun FP 12-A

Sturdy and handy cordless grease gun for lubricating lubrication points.

- High working pressure enables application of all standard greases
- Can be used for cartridges and bags as well as other types of container
- Li-ion battery pack for a long working time per battery charge

Nominal voltage	12 V/DC
Rechargeable battery/battery capacity	3 Ah
Max. working pressure	562 bar
Capacity with cartridge	411 g
Max. hose pressure	690 bar
Weight of machine with rechargeable battery	3.3 kg
Included in delivery (Lieferumfang)	Carrying bag

Art. no. 5700 200 1

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

Filing neck required for filling using grease filler item no. 098602.

Cordless application gun AKP 18-600 M-CUBE

Powerful 18 V application gun that Würth developed to meet the needs of tradespeople.

- Avoids motor blockages with hardened material
- Prevents dripping by momentarily decoupling the push rod
- Speed control for optimum application speed

Type description	AKP 18-600
Nominal voltage	18 V/DC
Pressing force	5000 N
Weight of machine with rechargeable battery	2.3 kg

Number of rechargeable batteries/batteries	Rechargeable battery/battery capacity	Included in delivery (Lieferumfang)	Art. no.	P. Qty.
0 PCS	0 Ah	Batteries not included; additional accessories not included	5701 410 000	1
2 PCS	2 Ah	With 2 x 2 Ah batteries; additional accessories not included	5701 410 004	1

Hot glue gun HKP 300-E

Powerful hot glue gun, ideal for all installation, repair, fixing and decoration work

- Quick to heat up
- Stroke limit
- Ergonomic trigger

Nominal voltage	230 V/AC
Power input	300 W
Min./max. melting temperature	120 to 230 °C
Min./max. flow rate per weight	1-1.5 kg/h
Weight of machine	600 g
Cable length	2.4 m

Art. no. 5707 200 1

P. Qty.: 1

Thermo tacker WTG 40

For simple, cost-effective repairs to plastic parts.

- Suitable for practically all types of plastic.
- Weather-resistant repairs, since the staples to be applied are stainless.
- Low power consumption of max. 40 W

Length	180 mm
Width	90 mm
Height	90 mm
Power input	40 W
Max. temperature conditions	500 °C
Nominal voltage	230 V/AC

Art. no. 0702 206 0

ORSY® BULL drawer box Series 5

Ideal for your tools and small parts. Arrangement possible with partition elements and system inserts. Drawers are available with central locking and individual latch.

- Simply stack the boxes up and lock them in place using the clever coupling mechanism
- Extremely robust thanks to impact-resistant sides made from high-quality plastic
- Non-deforming and corrosion-free
- The boxes can hold up to 100 kg
- Large, ergonomically shaped handles for high user comfort
- Special sliding mechanism for easy locking and unlocking
- Each box can be secured with a lock (included in delivery)

System plate with Isofix connection

For the safe transport of system cases in the car

Easy mounting of the device in the car

Attached via Isofix with a single click

- Cases are easily stacked on top of each other (max. 4)
- Max. Load: 25k

Width x depth x height	570 x 405 x 120 mm
------------------------	--------------------

Continuation **System plate with Isofix connection**

Art. no. 5581 038 100

P. Qty.: 1

System suspension rail

For mounting system boxes

- Capable of bearing loads of up to 25 kg (depending on the fastenings)
- Customisation to existing assembly situation
- Flexible attachment of suspension rail

P. Qty.: 1

System case 8.4.2 transparent

Ideal for flexible storage of small parts, machines and tools used with consumables

- Transparent lid gives a clear view of contents.
- Compatible and flexible thanks to grid dimensions
- Easily combine several cases and transport safely
- With a number of functional elements
- High user comfort
- The system case has been awarded the three most prestigious design awards:

ORSY

System dimensions	8.4.2
Width x depth x height (external dimension)	500 x 380 x 140 mm

Wheeled workbench PRO

Heavy-duty wheeled workbench, versatile use, for tasks such as heavy-duty assembly jobs

- Robust sheet-steel construction, welded with multiple edging
- 40-mm bevelled worktop made from beech multiplex, water and oil-resistant thanks to colourless varnish
- Central locking system to protect contents from theft
- Aluminium handle with labelling strips and transparent cover
- Drawers with over 80% partial extension, mounted on roller bearings
- Built-in safety drawer lock prevents tipping
- Internal drawer dimensions (W x D): 437 x 587 mm
- Drawer load capacity: 100 kg with evenly distributed load
- Rows of slots and perforated base for inserting dividers
- Robust steering handle
- Two fixed castors and steering rollers with brake, Ø 200 mm

Width x height x depth	1200 x 835 x 700 mm
Colour of frame	Light grey RAL 7035
Load capacity	600 kg

Work table PRO

Heavy-duty, all-purpose workbench for assembly work for example

- Robust sheet steel construction, welded with multiple edges
- Working height: 840 mm
- Base powder-coated in light grey RAL 7035

Type description	PRO WT
Working height	840 mm
Colour of frame	Light grey RAL 7035
Load capacity	800 kg
Material of the tabletop	Beech multiplex
Tabletop thickness	40 mm
Surface of the tabletop	Clear varnished
Design	With plastic slider and leveller

Width x depth x height (external dimension)	Width x depth	Art. no.	P. Qty.
1500 x 750 x 840 mm	1500 x 750 mm	0957 313 115	1
2000 x 750 x 840 mm	2000 x 750 mm	0957 313 220	1

Workbenches and work tables from the Pro series are supplied pre-assembled. Customised variants must be assembled by the customer.

Workbench PRO WUSK

Robust workbench with PRO undercounter drawer box for storing tools and other working materials.

- Robust sheet steel construction, welded with multiple edges
- Closed underside of housing
- With levelling

Working height	840 mm

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm

Plug-in rack Professional

Robust plug-in rack with 5 steel shelves for heavy loads in warehouses, workshops and factories

- Pre-assembled frame for quick and easy plug-in assembly without additional tools
- Frame support in the form of a sturdy T section
- Frame and shelf braces (cross beams and diagonal cross braces) for maximum stability
- Can be extended as required with add-on bays and accessories
- Steel shelves with a load capacity of 250 kg per bay (with evenly distributed load)
- Shelves with flexible height adjustment at 25 mm increments, easy installation using plug-in shelf support

Width	1005 mm
Height	2000 mm
Bay load	2000 kg
Shelf load	250 kg

Depth	Type description	Art. no.	P. Qty.
400 mm	Basic shelving unit	0957 581 402	1
400 mm	Add-on shelf	0957 581 412	1
500 mm	Basic shelving unit	0957 581 502	1
500 mm	Add-on shelf	0957 581 512	1
600 mm	Basic shelving unit	0957 581 602	1
600 mm	Add-on shelf	0957 581 612	1
800 mm	Basic shelving unit	0957 581 802	1
800 mm	Add-on shelf	0957 581 812	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm

Plug-in office rack

Robust plug-in rack with six steel shelves for clear, space-saving storage of files and other office materials.

- Quick and easy plug-in installation without any additional tools thanks to the pre-assembled frame
- The height of the shelves can be adjusted in the 25-mm grid. The shelves are also easy to install thanks to plug-in shelf supports
- A rack depth of 600 mm means folders can be stored one behind the other (can be accessed from both sides)
- Shelves with a depth of 600 mm are stabilised with longer latches

Width	1005 mm
Height	2000 mm

Bay load	2000 kg
Shelf load	150 kg

Depth	Type description	Art. no.	P. Qty.
300 mm	Basic shelving unit	0957 580 332	1
300 mm	Add-on shelf	0957 580 342	1
600 mm	Basic shelving unit	0957 580 632	1
600 mm	Add-on shelf	0957 580 642	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm

Large compartment plug-in rack

Robust plug-in rack with 5 panels for heavy and bulky goods in warehouses, workshops and factories

- Pre-assembled frame for quick and easy plug-in assembly without additional tools
- Frame support in the form of a sturdy T section
- Cross beams and stepped bars for maximum stability
- Can be extended as required with add-on bays and accessories
- Panels with wooden inserts and a load capacity of 350 kg per bay (with evenly distributed load)
- Shelves with flexible height adjustment at 25 mm increments

Width	1695 mm
Depth	600 mm
Height	2000 mm
Bay load	2500 kg
Shelf load	350 kg

Type description	Art. no.	P. Qty.
Basic shelving unit	0957 584 602	1
Add-on shelf	0957 584 612	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm

Plug-in corner rack

Robust plug-in rack with 10 steel shelves for medium loads and optimal use of space in warehouses, workshops and factories.

- Pre-assembled frame for quick and easy plug-in assembly without additional tools
- Frame support in the form of a sturdy T section
- Frame and shelf braces (cross beams and longitudinal bars) for maximum stability
- Can be extended as required with add-on bays and accessories
- Steel shelves with a load capacity of 150 kg per bay (for an evenly distributed load)
- Shelves with flexible height adjustment at 25 mm increments, easy installation using plug-in shelf support

Width	1005 mm
Height	2000 mm
Load capacity of shelf	150 kg
Type description	Corner rack
Bay load	2000 kg
Shelf load	150 kg

Depth	Art. no.	P. Qty.
300 mm	0957 580 320	1
400 mm	0957 580 420	1
500 mm	0957 580 520	1
600 mm	0957 580 620	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm

Craftsman's shelf cabinet

Robust workshop shelf cabinet with grille doors for clear storage of consumable materials

- Lockable with a padlock to protect against unauthorised access
- Hinged doors with grids enable missing items to be noticed without opening
- Closed side walls made from solid sheet metal
- Can be used with the Pro or Basic add-on shelf of 500-mm depth
- Rear wall with square holes suitable for the range of hooks and brackets
- 3 levels with 150-kg load capacity
- Simple positioning with shelf supports

Width	1005 mm
Depth	500 mm
Height	2000 mm

Bay load	2000 kg
Shelf load	150 kg

Type description	Art. no.	P. Qty.
Basic shelving unit	0957 586 502	1
Add-on shelf	0957 586 512	1

Craftsman's add-on shelves only fit other craftsman's basic shelves.

Plug-in tyre rack

Robust plug-in rack available with 3 or 4 storage levels for safe storage and protection of tyres.

- Pre-assembled frame for quick and easy plug-in assembly without additional tools
- Frame support in the form of a sturdy T section
- Cross beams and support beams for maximum stability
- Can be extended as required with add-on bays and accessories
- Storage levels with a load capacity of 250 kg (with evenly distributed load)
- Support beams with flexible height adjustment at 25 mm increments
- Suitable for wheels up to a size of 19 inches

Width	1285 mm
Depth	400 mm
Shelf load	250 kg
Bay load	2000 kg

Height	Type description	Number of levels	Art. no.	P. Qty.
2000 mm	Basic shelving unit	3 PCS	0957 585 404	1
2000 mm	Add-on shelf	3 PCS	0957 585 414	1
2500 mm	Basic shelving unit	4 PCS	0957 585 405	1
2500 mm	Add-on shelf	4 PCS	0957 585 415	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm
- Supplied empty

Garage plug-in rack

Sturdy plug-in rack for storage of, for example, tyres and car accessories.

- Quick and easy plug-in installation without any additional tools thanks to the pre-assembled frame
- Strong, T-profile frame support
- Cross beams and support bars for maximum stability

Width	1005 mm
Depth	400 mm
Height	2000 mm
Shelf load	250 kg
Bay load	2000 kg
Number of levels	4 PCS

Type description	Art. no.	P. Qty.
Basic shelving unit	0957 582 401	1
Add-on shelf	0957 582 411	1

Please consider the legal instruction at the beginning of this chapter.

- All indicated section widths are axial dimensions
- External dimensions
 - Width of basic shelf + 56 mm
 - Width of add-on shelf + 0 mm
 - Rack depth = shelf depth + 26 mm
- Supplied empty

Mounting frame set For workbenches

Mounting frame with perforated panel for the clear storage of tools and small parts.

- Perforated panel for holder, hooks and mounting rail for holding tools and small parts.
- Customisable and ergonomic workplace design
- Can be converted and retrofitted at any time

Material	Sheet steel
Colour	Light grey RAL 7035
Depth	50 mm

Width	Height	Art. no.	P. Qty.
1500 mm	470 mm	0957 510 101	1
1500 mm	820 mm	0957 510 103	1
2000 mm	470 mm	0957 510 102	1
2000 mm	820 mm	0957 510 104	1

Mounting frame set 3

For workbenches with perforated wall and storage tray. A modular mounting frame that allows you to design your own workbenches and create an ergonomic workplace.

- Perforated panel for brackets, hooks and hanging rail for mounting tools and small parts. Storage tray for system storage box size 1.
- Customisable and ergonomic workplace design
- Can be converted or retrofitted at any time

Material	Sheet steel
Colour	Light grey RAL 7035
Depth	50 mm
Height	1270 mm

Width	Art. no.	P. Qty.
1500 mm	0957 510 105	1
2000 mm	0957 510 106	1

Worktop support

The PVC worktop cover protects the work surface and sensitive components from contamination and mechanical stress.

- Resistant to household cleaning agents
- Easy to clean, robust and tear-resistant
- The material withstands temperatures between -5°C and +60°C

Material	PVC - Polyvinyl chloride
Colour	Transparent
Resistance against	Water, Cleaning agent

Length x width x thickness	Art. no.	P. Qty.
1500 x 750 x 3 mm	0957 515 001	1
2000 x 750 x 3 mm	0957 515 002	1

The worktop supports can be used only to a limited extent in the case of the solid beech worktop

Worktop support

The PVC worktop cover is oil and petrol-resistant and protects the work surface and the components to be machined from contamination and mechanical stress.

- Resistant to oil and petrol
- Easy to clean, robust and tear-resistant
- The material withstands temperatures between -5°C and +60°C

Material	Polyvinyl chloride – flexible film
Colour	Transparent
Resistance against	Water, Cleaning agent, Oil, Petrol

Length x width x thickness	Art. no.	P. Qty.
1500 x 750 x 3 mm	0957 515 021	1
2000 x 750 x 3 mm	0957 515 022	1

The worktop supports can be used only to a limited extent in the case of the solid beech worktop

Wheeled cart PRO

Sturdy and easily manoeuvrable wheeled cart with storage trays and drawers. Ideal height for use in conjunction with the workbenches from the PRO line.

- Sturdy sheet steel construction, multi-folded and welded
- Central locking system secures the contents against theft
- Aluminium handle strip with labelling strips and transparent cover
- Drawers with over 80% partial extension, mounted on roller bearings
- Built-in safety drawer lock prevents tipping
- Internal drawer dimensions (W x D): 422 x 602 mm
- Drawer capacity: 100 kg with an evenly distributed load

Total load:

- 300 kg
- Rows of slots and perforated base for inserting dividers
- Two sturdy driving handles
- Two fixed castors and two steering rollers with brake, Ø 100 mm

Advantages of the PRO series:

- Choice of 4 RAL colours for the front panels
- Locks compatible with central locking system

Body colour	Light grey RAL 7035
Width x depth x height (external dimension)	570 x 680 x 790 mm
Load capacity	300 kg

Assembly trolley BASIC

Robust and easily manoeuvrable assembly trolley with three storage trays.

- Robust sheet steel construction, welded, with multiple edging
- Three robust storage trays with a load-bearing capacity of 100 kg each
- Aluminium handle strip with labelling strips and transparent cover
- Maximum load: 300 kg
- Rows of slots and perforated base to insert dividers
- Two robust steering handles
- Two fixed and two steering rollers with brake, Ø 100 mm

Type description	BASIC WMW 1/3
Drawer design	Without drawers
Body colour	Light grey RAL 7035
Width x depth x height (external dimension)	572 x 600 x 790 mm
Load capacity	300 kg

Art. no. 0957 505 040

P. Qty.: 1

Mobile assembly stool

Makes it easier to perform lengthy work tasks at low heights (e.g. when working on brakes or chassis).

- Infinitely adjustable height, max. body weight 100 kg
- Gas-assisted
- 5 casters (2 lockable)
- 2 storage compartments

Min./max. height	37-50 cm
Number of rolls	5 PCS
Seat diameter	34 cm

Art. no. 0715 93 04

P. Qty.: 1

BASIC swivel work chair with synthetic leather cover

Robust workshop chair with adjustable backrest

- Especially durable and easy to clean due to synthetic leather upholstery on seat and backrest
- Ergonomically shaped seat with pelvis support, backrest and integrated lumbar support
- Permanent contact backrest supports the movements of the upper body and can be locked in any position

Type description	BASIC 1
Adjustable seat inclination	No
Height adjustment	Yes
Colour of seating	Black
Min./max. height	450-600 mm
Seating material	Imitation leather
Seat width	460 mm
Seat depth	470 mm
Backrest height	500 mm
With armrests	Optional
Base frame design	Five-star base with rollers
Number of rolls	5 PCS

Art. no. 0957 591 001

P. Qty.: 1

Delivered dismantled with assembly instructions

BASIC swivel work chair with Supertec cover

Robust workshop chair with adjustable backrest

- Extremely robust, cut-proof and easy to clean as well as being soft and breathable
- Ergonomically shaped seat with pelvis support, backrest and integrated lumbar support
- Permanent contact backrest supports the movements of the upper body and can be locked in any position

Type description	BASIC 2
Adjustable seat inclination	No
Height adjustment	Yes
Colour of seating	Black
Min./max. height	450-600 mm
Seating material	Supertec
Seat width	460 mm
Seat depth	470 mm
Backrest height	500 mm
With armrests	Optional

Base frame design	Five-star base with rollers
Number of rolls	5 PCS

Art. no. 0957 591 005

P. Qty.: 1

Delivered dismantled with assembly instructions

PRO swivel work chair with synth leather cover

For the most demanding ergonomic requirements

- Synchronous technology for dynamic sitting
- Weight regulation for adapting to bodyweight
- Seat height, seat tilt and seat depth adjustment
- Backrest height adjustment
- Ergonomically shaped seat with pelvic support in the rear area
- Backrest with integrated lumbar support
- Extra high version for back support over a large area
- Especially durable and easy to clean due to synthetic leather upholstery on seat and backrest
- Stable, flat plastic base with load-dependent braked castors for hard floors

Type description	PRO 1
Adjustable seat inclination	Yes
Height adjustment	Yes
Colour of seating	Black
Min./max. height	440-620 mm
Seating material	Imitation leather
Seat width	450 mm
Seat depth	470 mm
Backrest height	600 mm
With armrests	Optional
Base frame design	Five-star base with rollers
Number of rolls	5 PCS

Art. no. 0957 591 010

P. Qty.: 1

Delivered dismantled with assembly instructions

PRO swivel work chair with fabric cover

For the most demanding ergonomic requirements

- Synchronous technology for dynamic sitting
- Weight regulation for adapting to bodyweight
- Seat height, seat tilt and seat depth adjustment
- Backrest height adjustment
- Ergonomically shaped seat with pelvic support in the rear area
- Backrest with integrated lumbar support
- Extra high version for back support over a large area
- Especially breathable due to material padding on seat and backrest
- Stable, flat plastic base with load-dependent braked castors for hard floors

P. Qty.: 1

Mobile stool

For combined workspaces

- Soft-touch PU foam is robust and easy to clean
- Ergonomic seat shape provides maximum space
- Sturdy, low-profile plastic cruciform base with load-dependent braked castors for hard floors

Min./max. height	450-650 mm
Colour	Black
Seat diameter	400 mm
Base frame design	Five-star base with rollers
Seating material	PU foam

Art. no. 0957 591 020

P. Qty.: 1

Delivered dismantled with assembly instructions

Armrest for PRO/BASIC swivel work chair

Multi-function armrest for PRO and BASIC swivel work chairs.

- Swivelling and adjustable in height, depth and width
- Ideal adaptation to the user possible
- Can be subsequently assembled without problems

Colour	Black
Material	Plastic

Art. no. 0957 591 030

P. Qty.: 1

Item consists of left and right armrest

Standing support

For reducing the strain on individual parts of the body at assembly/standing workstations

- Protects muscles and skeleton through variable positioning of individual parts of the body
- Soft-touch PU foam is robust and easy to clean
- Sturdy, low-profile plastic cruciform base with gliders
- Chrome-plated foot ring, height adjustable with quick adjustment (without tools)

Height adjustment	Yes
Min./max. height	510-780 mm
Seating material	PU foam
With footrest	Yes
Base frame design	Five-star base with glides
Seat width	360 mm
Seat depth	380 mm
Backrest height	200 mm
Max. height	780 mm
Material of the frame	Plastic

Art. no. 0957 591 025

P. Qty.: 1

Delivered dismantled with assembly instructions

Workshop crawler board with padded liner

**Extremely robust and easy-to-handle racing rollers
with replaceable TPU steering rollers**

- Ergonomically designed cushion pads for back, shoulders and head areas in carbon finish
- Wheels made of high-quality plastic for hard and delicate flooring
- With magnetic holder on the left and right next to the head cushions

Length (L)	1045 mm
Width (B)	517 mm
Height (H)	90 mm
Load capacity	130 kg
Material	Plastic reinforced with glass fibre
Colour	Black
Number of rolls	6 PCS
Product weight (per item)	4700 g

Art. no. 0715 93 55

P. Qty.: 1

Professional aluminium telescopic ladder

Flexible for use as a leaning, step and staircase ladder, and as two separate work trestles

- Desired working height in distance between rungs can easily be adjusted using sturdy locking lever
- Robust, automatically locking safety section joints
- Can be used as a stepladder, even on stairs

Material	Aluminium
Surface	Plain
Load capacity	150 kg

Number of rungs	Min./max. length as standard ladder	Max. standing height as standard ladder	Min./max. length as step ladder	Max. standing height as step ladder	Art. no.	P. Qty.

Aluminium step ladder Riveted

Steps with tested slip resistance

- 85 mm deep steps with grooved surface ensure a high level of stepping safety and a comfortable, safe footing
- Strut/rung connection with special rivets and additional reinforcement struts ensure a high level of robustness and good torsional rigidity
- From dimension 2x9 upwards with metal cross brace for even greater stability

Material	Aluminium
Surface	Plain
Load capacity	150 kg

Hybrid ladder single-sided

Wooden ladder, single-sided with two non-slip 80 mm deep aluminium steps with tested slip resistance for safe and effortless work according to TRBS 2121-2

- With finger pinch protection when folding due to 25 mm strut clearance
- Secure and stable thanks to two round metal rods on each side, which clamp the struts together
- Hardwood rungs, double mortised

Material of the beam	Wood
Material of the rungs	Wood
Material of the steps	Aluminium
Number of steps	2
Load capacity	150 kg

Continuation **Hybrid ladder single-sided**

Number of rungs	Length	Width (bottom)/width (top)	Stand height	Art. no.	P. Qty.
2 x 4	1.2 m	470/340 mm	0.5 m	0962 934 504	1

Always sold in pairs

Stationary platform

For retrofitting Würth aluminium runged ladders to be able to continue using this as a workspace according to TRBS 2121 Part 2

- Foldable and can thus remain on the ladder without disrupting transport or storage
- Large, grooved platform ensures a comfortable and secure footing
- Due to assembly using hinge screws, the platform is firmly connected to the ladder and can still be mounted at another point of the ladder if required

Material	Aluminium
Width	260 mm
Depth	265 mm
Max. loading weight	150 kg
For rung dimension	28 x 28 mm
For rung distance	280 - 285 mm

Art. no. 0962 931 916

P. Qty.: 1

Strut extension

Universal for aluminium leaning ladders for easy and safe climbing over

- Extremely safe, as climbing over simply takes place between the strut extensions
- The position can be adjusted in three stages depending on the roof slope
- Folds parallel to the strut

Material	Aluminium/aluminium
For beam width	up to 25 mm
For beam height	58-102 mm

Art. no. 0962 931 917

P. Qty.: 1

Retrofit step For runged aluminium single-section ladders

Comfortable and safe standing position according to TRBS 2121 Part 2. With tested slip resistance

- 80 mm deep steps with grooved surface
- Precision-fit, positive-locking clamp, screw connection, simply attach and tighten
- May remain on the ladder during transport

Material	Aluminium
Surface	Plain
Depth	80 mm
Max. loading weight	150 kg

Width	Art. no.	P. Qty.
275 mm	0962 930 912	1
275 mm	0962 930 913	1
347 mm	0962 930 922	1
347 mm	0962 930 923	1

Aluminium hook-in step

For wooden wide-rung ladders

- Comfortable and secure footing thanks to large, corrugated platform
- The platform complies with TRBS 2121 Part 2

Material	Aluminium/aluminium
Width	270 mm
Depth	268 mm
Max. loading weight	150 kg
For rung width max.	44 mm
For rung high max.	44 mm
For rung distance	280 - 285 mm

Art. no. 0962 931 918

P. Qty.: 1

Retrofit step For aluminium runged stepladders

Comfortable and safe standing position according to TRBS 2121 Part 2. With tested slip resistance

- 80 mm deep, serrated surface
- Precision-fit, positive-locking clamp, screw connection, simply attach and tighten
- May remain on the ladder during transport

Material	Aluminium
Surface	Plain
Depth	80 mm
Max. loading weight	150 kg

Continuation **Retrofit step For aluminium runged stepladders**

Width	Art. no.	P. Qty.
321/355 mm	0962 930 930	1
355 mm	0962 930 932	1
355 mm	0962 930 933	1

Rungs 1 and 2 must not be climbed. That's why the basic set is specifically designed to the width of the 3rd and 4th rungs.

With the 2-part and 3-part extension sets, additional rungs from rung 5 downwards can be retrofitted if necessary.

Retrofit step For wooden runged stepladders/hybrid ladders

Comfortable and safe standing position according to TRBS 2121 Part 2. With tested slip resistance

- 80 mm deep, serrated surface
- Precision-fit, positive-locking clamp, screw connection, simply attach and tighten
- May remain on the ladder during transport

Material	Aluminium

Rungs 1 and 2 must not be climbed. That's why the basic set is specifically designed to the width of the 3rd and 4th rungs. With the 2-part and 3-part extension sets, additional rungs from rung 5 downwards can be retrofitted if necessary.

Aluminium runged leaning ladder

Lightweight and strong

- High torsional rigidity thanks to quadruple flanged and pressed connections between struts and rungs
- Rungs and spar made of extruded aluminium for very good bending resistance
- Secure footing thanks to non-slip 2-component ladder feet/cross rail shoes

Material	Aluminium
Surface	Plain
Load capacity	150 kg

Number of rungs	Length	Width	Stand height	Art. no.	P. Qty.
1 x 6	1.85 m	0.35 m	0.71 m	0962 930 106	1

The traverse (including fastening material) is included with the ladder and can be fitted in just a few easy steps.

Multipurpose aluminium ladder

Flexible for use as a leaning, extension or stepladder

- Robust guide fittings with slide bearings made from abrasion-resistant plastic provide secure, torsion-resistant support for the ladder parts
- High torsional rigidity thanks to quadruple flanged and pressed connections between struts and rungs
- Very good bending resistance, as rungs are made of extruded aluminium profile

Material	Aluminium
----------	-----------

Number of rungs	Min./max. length as standard ladder	Step ladder with sliding part: Min./Max. length	Step ladder with sliding part: Max. standing height	Step ladder without sliding part: Length	Art. no.	P. Qty.

Multi-purpose aluminium ladder

Stowaway ladder, flexible for use as a standard or step ladder

- Space-saving in vehicles and stockrooms
- Stable, automatically locking steel wire hanger joints
- Highly torsion-resistant

Material	Aluminium
Number of rungs	4 x 4
Load capacity	150 kg
Standing height as standard ladder	3.21 m
Standard ladder with wall distance: Standing height	2.4 m
Standing height as step ladder	1.54 m
Transport dimension	1.23 x 0.35 x 0.27 m
Weight	14.6 kg

Art. no. 0962 931 624

P. Qty.: 1

The traverses (including fastening material) are included with the ladder and can be fitted in just a few easy steps.

Multipurpose aluminium ladder

Stowaway ladder, flexible for use as a leaning or step ladder, or as a work platform.

- Space-saving in vehicles and stockrooms
- Solid, automatically engaging steel wire joints
- Highly torsion-resistant
- Very good bending resistance
- Secure footing
- Step safety

Material	Aluminium
Number of rungs	4 x 3
Load capacity	150 kg
Standing height as standard ladder	2.21 m
Standard ladder with wall distance: Standing height	1.57 m
Standing height as step ladder	1 m
Working platform: Standing height	0.93 m
Transport dimension	0.94 x 0.35 x 0.27 m
Weight of ladder	13.1 kg
Weight of platform	4.2 kg

Continuation **Multipurpose aluminium ladder**

Art. no. 0962 931 613

P. Qty.: 1

The traverse (including fastening material) is included with the ladder and can be fitted in just a few easy steps.

Aluminium extension ladder

Two pieces

- Easy extension and retraction
- Ladder parts are secure and torsion-resistant
- The sliding part can be used on both sides due to ladder feet at both ends and rungs grooved on both sides (type 2x8, type 2x10)

Material	Aluminium
Surface	Plain
Width	0.43 m
Load capacity	150 kg

Number of rungs	Min./max. length	Max. stand height	Art. no.	P. Qty.
2 x 8	2.42-3.84 m	2.46 m	0962 930 208	1
2 x 10	2.98-4.96 m	3.46 m	0962 930 210	1

2 x 20	5.81-10.62 m	8.46 m	0962 930 520	1

The traverse (including fastening material) is included with the ladder and can be fitted in just a few easy steps.

Aluminium assembly trestle

For use on construction sites and in workshops

Width (B)	80 cm
Height (H)	80 cm
Load capacity	230 kg
Material	Aluminium
Surface	Plain

Art. no. 0962 931 910

P. Qty.: 1

Wooden assembly trestle

Width (B)	55 cm
Height (H)	92 cm
Load capacity	100 kg
Material	Wood

Art. no. 0962 932 910

P. Qty.: 1

Folding, movable basic scaffolding

Compact, lightweight and robust, stand height 0.7 m

- Easy to set up without tools
- Flap hinge saves space during transport and storage
- Flexible standing heights, as the platform can be mounted at different heights

Material	Aluminium
Load capacity	150 kg
Max. number of people	1
Max. stand height	0.7 m

Art. no. 0962 931 705

P. Qty.: 1

Max. Standing height:

- Basic framework without accessories: 0.7 m (2nd rung)
- Basic frame with tip prevention Pro: 1.0 m (3rd rung)
- Basic frame with telescopic support set: 1.0 m (3rd rung)
- Basic frame with telescopic support set and railing set: 1.55 m (5th rung)

Folding roller scaffold Pro

Compact, lightweight and robust, stand height 1.0 m

- Easy to set up without tools
- Flexible stand heights and increased stand stability
- Using accessories, stand heights up to 1.55 m are possible

Material	Aluminium
Load capacity	150 kg
Max. number of people	1
Max. stand height	1 m

Art. no. 0962 931 706

P. Qty.: 1

Max. Standing height:

- Basic framework without accessories: 0.7 m (2nd rung)
- Basic frame with tip prevention Pro: 1.0 m (3rd rung)
- Basic frame with telescopic support set: 1.0 m (3rd rung)
- Basic frame with telescopic support set and railing set: 1.55 m (5th rung)

Folding roller scaffold, complete set

Compact, lightweight and robust, stand height 1.55 m

- Easy to set up without tools
- Flexible stand heights
- Retractable telescopic supports for even greater stability

Material	Aluminium
Load capacity	150 kg
Max. number of people	1
Max. stand height	1.55 m

Art. no. 0962 931 710

P. Qty.: 1

Contents for art. no. 0962 931 710

Folding roller area-wide scaffold, complete set

Compact, lightweight and robust, stand height 1.55 m

- A lot of freedom of movement and space for equipment and tools
- Easy setup without tools and space-saving during transport and storage
- Adjustable stand height
- Optimum stability and space-saving storage on frame
- 4 steering rollers with locking brake

Material	Aluminium
Load capacity	200 kg
Max. number of people	2
Max. stand height	1.55 m

Art. no. 0962 931 720

P. Qty.: 1

Max. Standing height:

- Basic framework without accessories: 0.7 m (2nd rung)
- Basic frame with tip prevention Pro: 1.0 m (3rd rung)
- Basic frame with telescopic support set: 1.0 m (3rd rung)
- Basic frame with telescopic support set and railing set: 1.55 m (5th rung)

Supplied in modules

Assembly platform

Compact and sturdy

- Rapid assembly and space-saving transport/storage
- The ascending parts automatically snap into use/transport position
- Easy to transport

Platform dimension	1.7 x 0.5 m
Max. load capacity	300 kg
Stand height	0.58 m
Transport dimension	1.75 x 0.6 x 0.2 m

Art. no. 0962 940 600

P. Qty.: 1

Grating assembly platform

Compact and robust, ideal for tasks involving contact with dirt

- Non-slip, dirt simply falls through
- Quick set-up and space-saving transport/storage
- Climbing parts lock automatically into place in usage/transport position

Material	Aluminium
Platform dimension	1.55 x 0.55 m
Max. load capacity	300 kg
Stand height	0.65 m
Transport dimension	1.6 x 0.77 x 0.15 m

Art. no. 0962 931 760

P. Qty.: 1

Stepladder

Steps with tested slip resistance

- The extra-large, grooved standing platform ensures safe and comfortable working
- Accessible from both sides; can be folded away
- Can be expanded with another ladder step and up to two Würth telescopic planks next to each other to form a large working platform

Continuation Stepladder

Material	Aluminium
Surface	Plain
Load capacity	150 kg

Number of steps (including platform)	Length	Width (bottom)/width (top)	Stand height	Art. no.	P. Qty.
2 x 2	0.52 m	0.65/0.61 m	0.37 m	0962 930 702	1
2 x 3	0.71 m	0.67/0.61 m	0.56 m	0962 930 703	1

Lightweight platform ladder

With long handrails and large platform. Steps with tested slip resistance

- The extra-large, grooved standing platform, high safety bar and handrails ensure safe and comfortable working even over longer periods of time
- The handrails can be folded in to save time and space during transport and storage
- Storage possibility thanks to tray integrated in the safety bar

Material	Aluminium
Surface	Plain
Load capacity	150 kg

Aluminium step-leaning ladder Riveted

Steps with tested slip resistance

- Step safety
- Robust, highly torsion-resistant
- Very good bending resistance

Material	Aluminium
Surface	Plain
Width	0.44 m
Load capacity	150 kg

Universal load dolly

The universal load dolly is a problem-solving solution for tilers, removal firms, furniture companies, carpenters, joiners etc.

- Extremely robust construction
- Special coating prevents the transported items from sliding around

Width	600 mm
Depth	350 mm
Height	145 mm
Load capacity	500 kg
Material	Multiplex beech
Material of the wheel	Plastic

Art. no. 0715 93 95

P. Qty.: 1

Universal load dolly With soft rollers

Robust, universal load dolly with high load capacity

- Non-slip coating prevents the goods to be transported from shifting
- Soft tread made of high-quality plastic, suitable for hard and delicate floorings
- Sturdy screw connection for the steering rollers, 18 mm thick birch plywood board

Width	575 mm
Depth	300 mm
Height	140 mm
Load capacity	400 kg
Material	Wood
Material of the wheel	PA - Polyamide

Art. no. 0715 93 988

P. Qty.: 1

Stack trolley

For easy transportation of light and heavy objects.

- Permanently welded steel construction
- Steel tube, Ø 26.9 x 1.75 mm
- Base plate made from 4 mm thick sheet steel
- Solid rubber or pneumatic wheels fitted with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in accordance with DIN EN 1757-3) protect against hand injuries
- Powder-coated in RAL 5010 (gentian blue)

Toe plate width	300 mm
Toe plate depth	225 mm
Load capacity	200 kg

Wheel diameter	Material of the wheel	Art. no.	P. Qty.
250 mm	Solid rubber	0962 400 103	1
260 mm	Air	0962 400 102	1

Stack trolley with step skids

With integrated step sliding skids for travelling over uneven ground and ledges.

- Step skids are secured with clips and can be replaced if necessary
- Permanently welded steel construction
- Steel tube, Ø 26.9 x 1.75 mm
- Base plate made from 4 mm thick sheet steel
- Wheels with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in accordance with DIN EN 1757-3) protect against hand injuries

Toe plate width	300 mm
Toe plate depth	225 mm

Load capacity	Wheel diameter	Material of the wheel	Art. no.	P. Qty.
200 kg	250 mm	Solid rubber	0962 400 107	1
250 kg	260 mm	Air	0962 400 106	1

Aluminium sack truck

Vertically welded tubes on the back enable bagged items and smaller objects to be transported.

- Permanently welded aluminium construction
- Aluminium tube, Ø 25.0 x 2 mm
- Base plate made from 4 mm thick sheet aluminium
- Polyurethane or pneumatic wheels fitted with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in accordance with DIN EN 1757-3) protect against hand injuries

Toe plate width	345 mm
Toe plate depth	170 mm
Load capacity	150 kg
Wheel diameter	260 mm
Material of the wheel	Polyurethane

Art. no. 0962 400 109

P. Qty.: 1

Sack truck

Vertically welded tubes on the back enable bagged items and smaller objects to be transported.

- Permanently welded steel construction
- Steel tube Ø 26.9 x 1.75 mm
- Base plate made from 4 mm thick sheet steel
- Solid rubber or pneumatic wheels with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in line with DIN EN 1757-3) protect against hand injuries

Toe plate width	400 mm
Toe plate depth	180 mm
Load capacity	200 kg

Wheel diameter	Material of the wheel	Art. no.	P. Qty.
250 mm	Solid rubber	0962 400 101	1
260 mm	Air	0962 400 100	1

Stack trolley with tube bends

For easy transportation of light and heavy objects.

- Permanently welded steel construction
- Steel tube Ø 26.9 x 1.75 mm
- Base plate made from 4 mm thick sheet steel
- Solid rubber or pneumatic wheels with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in line with DIN EN 1757-3) protect against hand injuries

Toe plate width	300 mm
Toe plate depth	225 mm
Load capacity	200 kg

Wheel diameter	Material of the wheel	Art. no.	P. Qty.
250 mm	Solid rubber	0962 400 105	1
260 mm	Air	0962 400 104	1

Staircase trolley

3-star solid rubber wheels fitted with plastic rims and roller bearings make it easier to perform the difficult task of transporting items up stairs.

- Permanently welded steel construction
- Useful in applications involving frequent trips up and down stairs where ground conditions are good and level
- Handles with safety bar made of high-strength plastic (in line with DIN EN 1757-3) protect against hand injuries.
- Steel tube Ø 26.9 x 1.75 mm
- Base plate made from 4 mm thick sheet steel

Continuation **Staircase trolley**

Toe plate width	300 mm
Toe plate depth	225 mm
Load capacity	150 kg
Wheel diameter	160 mm
Material of the wheel	Solid rubber

Art. no. 0962 400 125

P. Qty.: 1

Aluminium stack trolley with step skids

With integrated staircase sliding skids for travelling over uneven ground and ledges.

- Permanently welded aluminium construction
- Aluminium tube Ø 25.0 x 2 mm
- Base plate made from 4 mm thick sheet aluminium
- Polyurethane or pneumatic wheels with plastic rims and roller bearings
- Handles with safety bar made of high-strength plastic (in line with DIN EN 1757-3) protect against hand injuries
- Step skids are secured with clips and can be replaced if necessary

Toe plate width	300 mm
Toe plate depth	200 mm
Load capacity	150 kg
Wheel diameter	260 mm

Material of the wheel	Art. no.	P. Qty.
Air	0962 400 112	1
Polyurethane	0962 400 113	1

Steel tube shelf trolley

- Steel tube, Ø 26.9 x 1.75 mm
- Castors fitted with solid rubber tyres and roller bearings, galvanised housing
- Locking devices on the steering castors in line with European standard EN 1757-3
- Loading platform made from beech-effect wooden panel board (MDF)
- Wooden loading platforms are secured in angled frame from underneath
- Protruding edge is approx. 15 mm high
- Profiled steel frame made of 30/30/3 mm angular steel

Load capacity	250 kg
---------------	--------

Number of loading surfaces	Loading surface width x loading surface depth	Width	Depth	Loading-surface height	Art. no.	P. Qty.
2 PCS	790 x 490 mm	990 mm	500 mm	190 mm, 820 mm	0962 400 201	1
2 PCS	990 x 590 mm	1190 mm	600 mm	190 mm, 820 mm	0962 400 202	1

3 PCS	990 x 590 mm	1190 mm	600 mm	190 mm, 505 mm, 820 mm	0962 400 204	1

Table trolley for steel pipes, flush loading area

- Steel tube Ø 26.9 x 1.75 mm
- Rollers with solid rubber tyres and roller bearings, galvanised housing
- Steering rollers with locking device in line with European standard EN 1757-3
- Loading platform made from beech-effect wooden panel board (MDF)

Number of loading surfaces	2 PCS
Loading-surface height	260 mm, 800 mm
Load capacity	500 kg

Loading surface width x loading surface depth	Width	Depth	Art. no.	P. Qty.
800 x 500 mm	850 mm	500 mm	0962 400 214	1
1000 x 700 mm	1050 mm	700 mm	0962 400 216	1
1200 x 800 mm	1250 mm	800 mm	0962 400 217	1

Angular steel table trolley

- Steel tube, diameter 26.9 x 1.75 mm
- Rollers fitted with solid rubber tyres and roller bearings, galvanised housing
- Locking device on the steering rollers in line with European standard EN 1757-3
- Loading platform made from beech-effect wooden panel board (MDF)
- Wooden loading platforms are inserted flush with the profile
- Profiled steel frame made of angular steel (40/40/4 mm) for high load-bearing capacity

Number of loading surfaces	2 PCS
Load capacity	500 kg

Loading surface width x loading surface depth	Width	Depth	Loading-surface height	Art. no.	P. Qty.
1000 x 700 mm	1150 mm	700 mm	280 mm, 900 mm	0962 400 210	1
1200 x 800 mm	1350 mm	800 mm	280 mm, 920 mm	0962 400 211	1

Warehouse trolley

With loading surface made of wooden plate (MDF) with beech surface decor

- Steel tube Ø 26.9 x 1.75 mm
- Rollers with solid rubber tyres and roller bearings, galvanised housing
- Steering rollers with locking device in line with European standard EN 1757-3

Material of the wheel	Solid rubber
-----------------------	--------------

Loading-surface width	Loading-surface depth	Load capacity	Art. no.	P. Qty.
800 mm	500 mm	250 kg	0962 400 300	1
1000 mm	700 mm	400 kg	0962 400 301	1

Push handle trolley

With loading surface made of wooden plate (MDF) with beech surface decor

- Steel tube Ø 26.9 x 1.75 mm, welded on base frame
- Rollers with solid rubber tyres and roller bearings, galvanised housing
- Steering rollers with locking device according to European standard EN 1757-3
- Profile steel frame made of angular steel and square tubing

Material of the wheel	Solid rubber
Material of the loading surface	Medium density fibreboard

Loading-surface width	Loading-surface depth	Load capacity	Art. no.	P. Qty.
1000 mm	700 mm	400 kg	0962 400 330	1
1200 mm	800 mm	600 kg	0962 400 331	1

Board trolley

Steel construction made of steel tube and angular steel

- Steering rollers with solid rubber tyres and roller bearings
- Loading surface made from beech-effect wooden panel board (MDF)
- Square tube with 7 holes for inserting the bracket
- Start roller for easy loading and unloading of the plates
- Solid rubber tyres

Loading-surface depth	800 mm
Depth	800 mm
Wheel diameter	200 mm

Loading-surface width	Width	Load capacity	Product weight (per item)	Art. no.	P. Qty.
1200 mm	1340 mm	500 kg	500000 g	0962 400 360	1
1200 mm	1340 mm	1200 kg	49000 g	0962 400 361	1

1600 mm	1740 mm	1200 kg	62 kg	0962 400 363	1

Folding trolley

The practical push handle can be folded onto the platform, allowing the trolley to be stowed to save space.

- Rollers with blue-grey solid rubber wheels and roller bearings
- Galvanised housing
- Steering rollers with locking device according to European standard EN 1757-3
- Loading surface made from beech-effect wooden panel board (MDF)

Colour	Gentian blue RAL 5010
Material of the loading surface	Medium density fibreboard

Loading-surface width	Loading-surface depth	Handle height	Load capacity	Wheel diameter	Art. no.	P. Qty.
720 mm	450 mm	900 mm	150 kg	125 mm	0962 400 350	1
900 mm	600 mm	950 mm	250 kg	160 mm	0962 400 351	1

Aluminium folding trolley

Upright push bar can be folded down onto the platform

- Castors fitted with blue-grey solid rubber tyres and roller bearings, galvanised housing
- Brakes on the steering castors in line with European standard EN 1757-3
- Loading platform made from corrugated aluminium

Load capacity	150 kg
Colour	Aluminium coloured
Material of the loading surface	Aluminium

Loading-surface width	Loading-surface depth	Handle height	Wheel diameter	Product weight (per item)	Art. no.	P. Qty.
720 mm	450 mm	900 mm	125 mm	12000 g	0962 400 352	1
900 mm	600 mm	950 mm	160 mm	25000 g	0962 400 353	1

Folding trolley with drawbar

Robust transport trolley made of wood with folding drawbar

- Loading area with non-slip MaxiGRIP-special coating
- Handle with premium soft grip
- Space-saving and easy-to-store
- High comfort level when pushing and pulling heavy loads
- Four soil-conserving ultra-soft machinery rollers for hard and sensitive floor surfaces

Loading-surface width	400 mm
Loading-surface depth	800 mm
Handle height	950 mm
Load capacity	300 kg
Wheel diameter	100 mm
Height (closed)	140 mm
Colour	Brownish
Material of the loading surface	Medium density fibreboard
Material of the tyre	TPE
Product weight (per item)	10000 g
Width	400 mm
Depth	400 mm

Art. no. 0962 400 115

P. Qty.: 1

Large recycling bag

Transparent design for easy inspection of fill level and separation of recyclable materials

Colour	Transparent
--------	-------------

Contents	Material thickness	Width	Length	Art. no.	P. Qty.

Fabric sack Mineral wool

Flat sack with drawstring

- „Mineral fibre waste, carcinogenic“ printed on
- Fabric thickness: 65 + 20 g/m²

Width	140 cm
Length	220 cm
Material	Polypropylene material

Art. no. 0899 801 005

P. Qty.: 40

Bin bag with handles

Contents	120 l
Material thickness	40 µm
Width	700 mm
Length	1000 mm
Colour	Blue

Art. no. 0899 800 581

P. Qty.: 20/200

Waste paper basket with flame extinguishing lid

Round waste paper basket with flame extinguishing lid for preventive fire protection

- Self-extinguishing flame extinguishing lid disrupts the oxygen flow and suffocates the flames
- TÜV certified
- Made from steel with a scratch-resistant epoxy resin coating

Colour	Grey
Material	Steel

Contents	Height x width x depth	Art. no.	P. Qty.
30 l	520 x 320 x 320 mm	0957 570 201	1
60 l	695 x 375 x 375 mm	0957 570 202	1

Waste bag holder

For 120-l refuse bags

- Tip-proof metal frame
- Steel clamping ring
- Zinc-plated and painted

Suitable for sacks for collecting recyclable materials	110 - 120 l
Height	98 cm
Width	50 cm
Length	53 cm
Colour	Pebble grey
Product weight (per item)	4600 g

Art. no. 0993 899 200

P. Qty.: 1

Big Bag Standard

With skirting and fastener bands

- With four lifting loops (length: 25 cm)
- Load (SWL): 1,200 kg
- Safety factor (SF): 5:1
- Fabric thickness: 150 g/m²
- Without imprint

Length	90 cm
Width	90 cm
Height	110 cm
Material	Polypropylene material
Design	Uncoated

Art. no. 0899 801 000

P. Qty.: 15

Big Bag Asbestos

With skirting and fastener bands

- With four lifting loops (length: 25 cm)
- Load (SWL): 1,200 kg
- Safety factor (SF): 5:1
- Fabric thickness: 150 + 20 g/m²
- With asbestos marking

Length	90 cm
Width	90 cm
Height	110 cm
Material	Polypropylene material
Design	Coated

Art. no. 0899 801 001

P. Qty.: 15

Big Bag Mineral wool

With skirting and fastener bands

- With four lifting loops (length: 25 cm)
- Load (SWL): 500 kg
- Safety factor (SF): 5:1
- Fabric thickness: 100 + 20 g/m²
- With mineral wool marking

Length	90 cm
Width	90 cm
Height	120 cm
Material	Polypropylene material
Design	Coated

Art. no. 0899 801 004

P. Qty.: 15

Asbestos sheeting sack

With skirting and fastener bands

- With four lifting loops (length: 25 cm)
- Load (SWL): 1,500 kg
- Safety factor (SF): 5:1
- Fabric thickness: 120 + 20 g/m²
- With asbestos marking

Width	125 cm
Height	30 cm
Material	Polypropylene material
Design	Coated

Length	Art. no.	P. Qty.
260 cm	0899 801 002	10
320 cm	0899 801 003	10

Edge protection profile

The profiles are flexible and can be pushed on by hand.

High resistance to ozone, weathering, UV radiation, alkalis and weak acids

Length	10 m
Ultraviolet resistance	Yes
Colour	Black

Min./max. grip range	Grip range	Width x height	Design	Min./max. temperature conditions	Art. no.	P. Qty.

Labelling assortment Labelmanager 420P

Electronic labeller with accessories in system case

- Option of connecting to the PC via USB and the supplied software
- Quick and simple process for changing cassettes
- 4-line back-lit display showing the selected effects
- Thermal transfer printing
- Label tape width: 6, 9, 12 and 19 mm
- Multi-line printing (up to four lines)
- 7 font heights, 10 font types, 8 borders
- Saving of the last label
- Memory for up to 10 labels
- Adjustable fixed length, multiple copies, continuous enumeration, print preview
- Barcodes (8- and 13-digit EAN and UPC)
- Supplied with a rechargeable lithium-ion battery

ORSY

Labelling strip, self-adhesive

Ideal for marking and lettering of shelving racks, for example

- Suitable for scanners due to transparent plastic
- Open at the top and sides
- Can be cut to variable lengths

Scope of delivery:

- 50 x insertion markers suitable for marking by hand

Length	200 mm
Design	Self-adhesive
Colour	Transparent
Material	Plastic
Thickness	2.2 mm

Height	Art. no.	P. Qty.
20 mm	0957 570 185	50
30 mm	0957 570 186	50

Labelling profile, magnetic

Label holder for magnetic fixing. Practical C-profile for easy insertion and secure holding of insertion markers

- Can be cut to variable lengths
- Magnetic label strip
- Includes labelling strips and transparent strips to protect from soiling

Length	200 mm
Design	Magnetic
Colour	Anthracite
Thickness	4 mm

Height	Art. no.	P. Qty.
20 mm	0957 570 190	50
30 mm	0957 570 191	50

Marking tape, magnetic

Ideal for flexible marking on metallic surfaces

- Can be cut to variable lengths
- Flexible, elastic and bend-resistant
- Can be marked using standard permanent markers

Length	5000 mm
Design	Magnetic
Colour	Anthracite, White
Thickness	3 mm

Height	Art. no.	P. Qty.
20 mm	0957 570 195	1
30 mm	0957 570 196	1

Hydraulic transmission jack

With rotary valve to control the lowering speed. Supplied complete with receptacle socket.

- With foot pump

Min./max. height	1.1-1.88 m
Roll distance	670 mm
Roll distance 2	670 mm
Width (support)	360 mm
Load capacity	500 kg

Art. no. 0715 93 80

P. Qty.: 1

Floor jack 3 tonnes

Flat design

- Very low underrun depth for using lowered vehicles up to 70 mm
- High mobility thanks to 2 oil- and acid-resistant nylon swivel rollers and 2 steel rollers, reliable, precision control during lifting and lowering thanks to the simple lifting rod operation, lifting only possible via lever
- Very robust design, two-piece lifting rod, lower lifting rod with rubber coating, saddle cushion made of oil-resistant rubber

Load capacity	3000 kg
Min. height (A)	70 mm
Max. height (B)	510 mm
Width	190 mm
Length	840 mm
Height	400 mm
Number of rolls	4 PCS
Colour	Black, Red
Material	Steel
Product weight (per item)	51500 g

Art. no. 0715 549 3

P. Qty.: 1

Floor jack 2.5 tonnes

Made of aluminium/steel

- High mobility thanks to 2 oil- and acid-resistant nylon swivel rollers and 2 steel rollers, reliable, precision control during lifting and lowering thanks to the simple lifting rod operation
- Very compact and robust design, two-piece lifting rod, lower lifting rod with rubber coating
- Saddle cushion made of oil-resistant rubber, built-in grab handles on sides

Load capacity	2500 kg
Min. height (A)	100 mm
Max. height (B)	450 mm
Width	330 mm
Length	720 mm
Height	190 mm
Number of rolls	4 PCS
Colour	Black, Red
Material	Steel
Product weight (per item)	26400 g

Art. no. 0715 549 025

P. Qty.: 1

Floor jack 2.5 tonnes

Made of steel with screw holder

- High mobility thanks to 2 oil- and acid-resistant nylon swivel rollers and 2 steel rollers, reliable, precision control during lifting and lowering thanks to the simple lifting rod operation
- Very compact and robust design, two-piece lifting rod, lower lifting rod with rubber coating
- Saddle cushion made of oil-resistant rubber, integrated grab handles

Load capacity	2500 kg
Min. height (A)	75 mm
Max. height (B)	510 mm
Width	380 mm
Length	790 mm
Height	215 mm
Number of rolls	4 PCS
Colour	Black, Red
Material	Steel
Product weight (per item)	32800 g

Art. no. 0715 549 25

P. Qty.: 1

Hydraulic lifting jack Heavy-duty design

Suitable for work and repairs on trailers, cars, minibuses and vans

- Additional height adjustment thanks to spindle extension, except for 30 tonne version
- Pump lever, 2 pcs.
- Pressure-limiting valve

Load capacity	Spindle length (B)	Lift height (C)	Min./max. overall height	Baseplate length	Art. no.	P. Qty.

TÜV-certified

Hydraulic trolley jack RH-6

With a robust frame construction and a load capacity of 6,000 kg.

- Convex rollers and swivelling wheels mounted on ball bearings ensure a high level of manoeuvrability.
- In the event of overloading, the safety valve causes the lifting rod to enter into idling operation.
- Lifting rod with ergonomic, rubber-coated handle

Load capacity	6000 kg
Min. height (A)	150 mm
Max. height (B)	570 mm
Product weight (per item)	90000 g

Art. no. 0715 54 160

P. Qty.: 1

Hydraulic trolley jack RH-4

With a robust frame construction and a load capacity of 4,000 kg.

- Convex rollers and swivelling wheels mounted on ball bearings ensure a high level of manoeuvrability
- In the event of overloading, the safety valve causes the lifting rod to enter into idling operation
- Additional foot pedal for activating the quick-lift function
- Reliable, precision control during lifting and lowering actions thanks to the simple means of operating the lifting rod
- Lifting rod with ergonomic, rubber-coated handle
- Pneumatic rubber wheels not included in scope of delivery

Load capacity	4000 kg
Min. height (A)	145 mm
Max. height (B)	560 mm
Product weight (per item)	70000 g

Art. no. 0715 54 150

P. Qty.: 1

Used oil collection device

For quick, clean oil changes

- Height-adjustable and pivotable collection tray
- Empties via pressure pad (0.5 bar)
- Container volume: 90 litres

Container capacity	90 l
Min./max. height	1400-1900 mm
Tray diameter	580 mm
Max. height	1900 mm
Tray height	300 mm
Tray capacity	13 l
Number of steering rollers	2 PCS
Number of fixed rollers	2 PCS

Art. no. 0715 93 90

P. Qty.: 1

Oil extraction device

For mobile operation, complete with 8 suction tubes

- Vacuum extraction
- Emptied by pressure pad (0.5 bar)
- Transparent suction head
- Oil can be drained from multiple vehicles one after the other
- External viewing tube
- Removable small parts tray
- Direct connection without probe for all Mercedes vehicles

Container capacity	90 l
Number of steering rollers	2 PCS
Number of fixed rollers	2 PCS

Art. no. 0715 93 91

P. Qty.: 1

Aluminium box

Very robust transport box with lockable lid, perfect for trade and business professionals

- Resistant to corrosion, weathering and extreme temperatures
- Wrap-around beading and profiles guarantee high stability and long durability
- Stackable
- Wrap-around rubber seal protects against environmental influences such as splashing water, dust and unpleasant odours

Material	Aluminium

Textured sheet metal box

Sturdy transport box made from aluminium checker plate, ideal for use as a flatbed truck box

- Fully welded seams
- Adjustable feet with M10 thread on the underside for fixed attachment
- Gas springs make it easier to open the cover and hold it open
- Wrap-around rubber seal and slip lid prevent the ingress of splashing water and dust

Material thickness	3 mm

Base plate for square-perforated panel system

The practical organiser for clearly organised, space-saving storage of tools, small parts and other work materials.

- Symmetrically perforated sheet steel panel with square holes
- Reinforced panel at the rear is welded and has side-edging
- Hole spacing is retained even with several plates next to/over each other
- Holes in the reinforcing profiles for easy wall mounting

1028 mm	6 PCS	0960 060 013	1
1485 mm	8 PCS	0960 060 014	1

Cable drum

For square holes in perforated plates, workshop trolley and ORSY1 shelving system

- Impact-resistant housing
- Overheating protection

Art. no. 0962 605 519

P. Qty.: 1

VDE tested and construction type certified

Magnetic dish

For simply and safely storing magnetic small parts, even lying on their side.

- Plastic-covered magnets for gentle attachment to delicate surfaces
- Tough dish with extra-high lip

Length (L)	240 mm
Width (B)	145 mm
Material	Stainless steel
Height (H)	45 mm

Art. no. 0714 937 124

P. Qty.: 1

Tool holder

Keeps the most important tools for tyre service to hand

- 4 powerful magnets with a retention force of max. 5 kg for flexible use
- Essential tools right where you work
- Protective and secure storage of tools thanks to the dip-coated mounts
- 1.6-mm thick steel construction
- Black powder-coated surface

Width (B)	102 mm
Height (H)	395 mm
Material thickness	1.6 mm

Art. no. 0714 937 130

P. Qty.: 1

Belt bag set 3-way

Belt bag with five large storage compartments and length-adjustable clip fastening belt for carrying tools and materials directly on your person.

- Two leather outer pockets, free-moving hammer holder, tape measure holder
- Two circlips to secure tools up to a maximum weight of 0.5 kg
- Rubber band on the outer side for pens and small screwdrivers

Length x width x height	650 x 140 x 270 mm
Material	Polyester/leather
Colour	Black, Grey
Max. load capacity	10 kg
Min./max. waist measurement	800-1200 mm
Product weight (per item)	830 g
Length	650 mm
Width	140 mm

Art. no. 0715 930 212

P. Qty.: 1

The tools shown are not included.

Clip fastening belt

Robust belt with plastic clip-on closure for simple opening.

- Length adjustable by means of riptape
- Made from high quality polyester (1680 denier)

Material	PES - Polyester
Colour	Black, Grey
Max. load capacity	10 kg

Min./max. waist measurement	800-1200 mm
Product weight (per item)	211 g
Length	1400 mm
Width	50 mm

Art. no. 0715 930 231

P. Qty.: 1

The tools shown are not included in the scope of delivery.

Magnet

Height	12 mm
Diameter	34 mm
Colour	White
Holding capacity	2 kg

Art. no. 0993 997 087

P. Qty.: 10

Magnetic strip

For fastening pictures, plans, notices etc. by means of magnets.

Width	50 mm
Length	1000 mm
Colour	White
Design	Self-adhesive

Art. no. 0993 997 088

P. Qty.: 1

Supplied without magnets

Wall bracket

For fastening brooms, telescopic rods and garden tools. Particularly robust and durable hooks (up to 10 kg)

Material	TPE/Polypropylene
Width	80 mm
Height	60 mm
Min./max. diameter	25-35 mm
Min./max. temperature conditions	-10 to 80 °C

Colour	Length	Art. no.	P. Qty.
Blue	160 mm	0891 350 600	1
Blue	395 mm	0891 350 610	1
Green	160 mm	0891 350 602	1

Continuation **Wall bracket**

Colour	Length	Art. no.	P. Qty.
Green	395 mm	0891 350 612	1
Red	160 mm	0891 350 601	1

Yellow	160 mm	0891 350 604	1
Yellow	395 mm	0891 350 614	1

Please consider the legal instruction at the beginning of this chapter.

Document folder

Practical folder for organising documents.

- Metal bracket for clamping writing pads, additional document compartment
- Business card holder with transparent window
- Wide rubber band for further business cards as well as smaller utensils

Length x width x height	260 x 50 x 350 mm
Sealing type	Zip
Material	PES - Polyester
Colour	Black, Grey
Product weight (per item)	750 g
Width	50 mm
Length	260 mm
Height	350 mm

Art. no. 0715 930 240

P. Qty.: 1

The additional products shown are not included in the scope of delivery.

Labelling pocket, magnetic

With magnetic strips on the back for use on metallic surfaces

- Ideal for labelling storage racks and metal containers

Design	Magnetic
Colour	Dark blue

Type description	Internal width	Internal depth	Art. no.	P. Qty.
1/2 A5 landscape	210 mm	74 mm	0957 570 106	50

Small labels	100 mm	38 mm	0957 570 120	50

Labelling pocket with fold

With a strong fold for overhanging cartons, boxes or other containers.

- Ideal for inserting between stacked boxes
- Can be reused multiple times for marking in production and warehouse

Design	Fold
Colour	Dark blue

Type description	Internal width	Internal depth	Art. no.	P. Qty.
A4 landscape	297 mm	210 mm	0957 570 142	50
A5 landscape	210 mm	148 mm	0957 570 141	50
A6 landscape	148 mm	105 mm	0957 570 140	50

Labelling pocket with neodymium magnets

With strong adhesive force thanks to two welded neodymium high-strength magnets

- Ideal for labelling of metallic surfaces such as crates, pipes and moving transport containers
- Protective flap to prevent documents being contaminated with dust and moisture

Design	Neodymium magnet
Colour	Dark blue

Continuation **Labelling pocket with neodymium magnets**

Type description	Internal width	Internal depth	Art. no.	P. Qty.
A4 landscape	297 mm	210 mm	0957 570 152	10

A5 landscape	210 mm	148 mm	0957 570 150	10

Labelling pocket for crates

Crate labelling pocket with arrow-shaped loops for mounting into clamping slots

- Ideal for permanently marking storage and transport boxes
- Extremely strong hold on movable transport containers such as crates
- Protective flap to prevent documents being contaminated with dust and moisture

Design	Plastic straps
Colour	Dark blue

Type description	Internal width	Internal depth	Art. no.	P. Qty.
A4 landscape	297 mm	210 mm	0957 570 162	50
A4 profile	210 mm	297 mm	0957 570 161	50
A5 landscape	210 mm	148 mm	0957 570 160	50

Labelling pocket for pallet foot

Sleeve for attaching to the outside of the pallet base. Simple mounting with rip-tape fastening.

- Ideal for the flexible pallet labelling
- 4-sided labelling possible

Design	With hook and loop fastener
Colour	Dark blue
Internal width	140/90 mm
Internal depth	65 mm

Art. no. 0957 570 170

P. Qty.: 50

Labelling pocket with wire hanger

Wire hanger labelling pocket with zinc-plated, flexible wire for easy and secure fastening.

- For optimum identification of transport containers, crates, wooden support frames and pallet boxes
- Protective flap to prevent documents being contaminated with dust and moisture

Design	With eccentric clamp
Colour	Dark blue

Type description	Internal width	Internal depth	Art. no.	P. Qty.
A4 landscape	297 mm	210 mm	0957 570 182	50
A4 profile	210 mm	297 mm	0957 570 181	50
A5 landscape	210 mm	148 mm	0957 570 180	50

Information frame, self-adhesive

Self-adhesive and hinged information frame with magnetic closure for quick and easy exchange of documents.

- For A4 documents such as room identifiers, orientation information, hazardous substance instructions, operating instructions, fire safety identifiers.

Material	Plastic
Height	236 mm
Width	322 mm
DIN format	A4

Colour	Art. no.	P. Qty.
Black	0957 570 001	2/10
Dark blue	0957 570 003	2/10
Orange	0957 570 004	2/10
Red	0957 570 002	2/10
Silver	0957 570 005	2/10

Info frame, magnetic

Magnetic information frame for attaching documents to metallic surfaces in production and in the office.

- For A4 documents such as machine files, operational figures, employee information, orientation information, hazardous substance instructions, operating instructions, fire safety identifiers.

Material	Plastic
Height	323 mm
Width	236 mm
DIN format	A4

Colour	Art. no.	P. Qty.
Black	0957 570 015	5
Dark blue	0957 570 017	5
Orange	0957 570 018	5
Red	0957 570 016	5
Silver	0957 570 019	5

Display panel system, wall, one colour

Wall holder with five display panels for clear storage of documents in DIN A4 format

- For A4 documents such as machine files, operational figures, employee information, orientation information, hazardous substance instructions, operating instructions, fire safety identifiers.

Material	Plastic
Height	280 mm
Width	340 mm
DIN format	A4
Design	Five-piece

Colour	Art. no.	P. Qty.
Dark blue	0957 570 027	1
Orange	0957 570 028	1
Red	0957 570 026	1

Display panel system wall, multi-colour

Wall holder with ten display panels for clear storage of documents in DIN A4 format

- For A4 documents such as machine files, operational figures, employee information, orientation information, hazardous substance instructions, operating instructions, fire safety identifiers.

Colour	Multicolour
Material	Plastic
Height	260 mm
Width	330 mm
DIN format	A4
Design	2 x red, 2 x dark blue, 2 x yellow, 2 x green, 2 x black

Art. no. 0957 570 031

P. Qty.: 1

Display panel system, magnetic, one colour

Magnetic wall holder with five display panels for clear storage of documents in DIN A4 format

- For installation on e.g. shelving, machinery, etc.

Material	Metal/Plastic
Height	280 mm
Width	340 mm
DIN format	A4
Design	Five-piece

Colour	Art. no.	P. Qty.
Black	0957 570 036	1
Dark blue	0957 570 037	1

Display panel system table stand

Table stand with 10 display panels for clear storage of documents and instructions in the workplace

- For A4 documents such as machine files, operational figures, employee information, orientation information, hazardous substance instructions, operating instructions, fire safety identifiers.

Colour	Multicolour
Material	Metal/Plastic
Height	270 mm
Width	395 mm
DIN format	A4
Design	2 x red, 2 x dark blue, 2 x yellow, 2 x green, 2 x black

Art. no. 0957 570 041

P. Qty.: 1

Sorting rack

Stable sorting rack for clear sorting and organisation of various documents in production and logistics

- Optimal organisation of e.g. order and working papers, drawings, work plans, etc.

Material	Sheet steel
Colour	Grey
DIN format	A4

Length	Width	Height	Design	Art. no.	P. Qty.
253 mm	365 mm	345 mm	5-fold	0957 570 301	1
250 mm	360 mm	540 mm	8-fold	0957 570 302	1

Footrest

For cleaning shoes before entering portacabins, offices etc.

Zinc-plated steel grating with 3 sturdy, replaceable broom heads

Width	40 cm
Length	70 cm
Surface	Zinc plated
Number of pieces in assortment/set	4 PCS

Art. no. 0993 997 207

P. Qty.: 1

Hand brush, soft

Suitable for brushing away very fine dirt particles on smooth surfaces and machine parts.

Material of the handle	PP - Polypropylene
Material of the bristles	PES - Polyester
Length (L)	330 mm
Width (B)	35 mm
Length of bristles (H)	52 mm
Min./max. temperature resistance	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 700	1
Green	0891 350 702	1
Red	0891 350 701	1
White	0891 350 703	1
Yellow	0891 350 704	1

Please consider the legal instruction at the beginning of this chapter.

Hand brush, medium

Suitable for brushing both fine and coarse dirt

Angled bristles

FDA-compliant raw materials

- Also suitable for food use
- Halal-compliant

Hygienic design for easy cleaning and maintenance

- Dishwasher safe (at max. 93 °C)
- Can be sterilised in an autoclave (max. 121 °C)

Phthalate-free

Material of the handle	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length (L)	330 mm
Width (B)	35 mm
Length of bristles (H)	50 mm
Min./max. temperature resistance	-20 to 100 °C

Colour	Art. no.	P. Qty.
Green	0891 350 712	1
Red	0891 350 711	1
White	0891 350 713	1
Yellow	0891 350 714	1

Please consider the legal instruction at the beginning of this chapter.

Broom, soft/hard bristles

Universal broom for almost all types of dirt. The hard bristles loosen the dirt while the soft bristles effectively sweep dirt particles together.

FDA-compliant raw materials

- Also suitable for food use
- Halal-compliant

Hygienic design for easy cleaning and maintenance

- Dishwasher safe (at max. 93 °C)
- Can be sterilised in an autoclave (max. 121 °C)

Material	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length	410 mm
Width	90 mm
Height	120 mm
Length of bristles	60 mm
Min./max. temperature resistance	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 630	1
Green	0891 350 632	1
Red	0891 350 631	1
White	0891 350 633	1
Yellow	0891 350 634	1

Please consider the legal instruction at the beginning of this chapter.

Washing brush L, hard

Multi-purpose brush for stubborn dirt, also suitable for larger surfaces.

Large drop-shaped hanger for easy hanging and to facilitate cleaning

Stiff, angled bristles

Fully coloured and available in 5 different colours

Material	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length	200 mm
Width	70 mm
Height	60 mm
Length of bristles	36 mm
Min./max. temperature conditions	-20 to 80 °C

Continuation **Washing brush L, hard**

Colour	Art. no.	P. Qty.
Blue	0891 350 680	1
Green	0891 350 682	1
Red	0891 350 681	1
White	0891 350 683	1
Yellow	0891 350 684	1

Hand brush / nail brush S, hard

Small universal brush for cleaning fingernails, hands and arms, as well as a range of surfaces and containers

Large drop-shaped hanger for easy hanging and to facilitate cleaning.

FDA-compliant raw materials

- Also suitable for food use
- Halal and kosher-compliant

Contains no phthalates or bisphenol A

Material	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length	130 mm
Width	50 mm
Height	40 mm
Length of bristles	17 mm
Min./max. temperature conditions	-20 to 80 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 670	1
Green	0891 350 672	1
Red	0891 350 671	1
White	0891 350 673	1
Yellow	0891 350 674	1

High-low brush/angled floor brush, medium

For thorough cleaning/scrubbing of even hard to reach surfaces

With angled shape and front-facing bristles

Due to the angled shape, this cleaning device can be held parallel to the ground, making it very easy to clean/scrub even hard-to-reach areas.

Free from phthalates and bisphenol A

Material	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length	265 mm
Width	150 mm
Height	100 mm
Min./max. temperature resistance	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 640	1
Green	0891 350 642	1
Red	0891 350 641	1
White	0891 350 643	1
Yellow	0891 350 644	1

Please consider the legal instruction at the beginning of this chapter.

Universal brush, medium

For thorough cleaning of a range of surfaces in tight and hard-to-reach areas.

Small and lightweight brush with a wide head and ergonomically shaped handle

Hygienic design for easy cleaning and maintenance

Fully coloured and available in 5 different colours

Material of the handle	Polypropylene/stainless steel
Material of the bristles	PES - Polyester
Length x width	260 x 40 mm
Length of bristles	22 mm
Min./max. temperature resistance	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 690	1
Green	0891 350 692	1
Red	0891 350 691	1
White	0891 350 693	1
Yellow	0891 350 694	1

Please consider the legal instruction at the beginning of this chapter.

Hand puller with mini stem

Ultra-hygienic hand squeegee with soft, flexible rubber lip.

With ergonomic aluminium handle

Hygienic design for easy cleaning and maintenance

Fully coloured and available in 5 different colours

Material	TPE/Polypropylene
Length	245 mm
Width	50 mm
Height	104 mm
Product weight (per item)	230 g
Min./max. temperature conditions	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 660	1
Green	0891 350 662	1
Red	0891 350 661	1
White	0891 350 663	1
Yellow	0891 350 664	1

Please consider the legal instruction at the beginning of this chapter.

Water squeegee

With replaceable interchangeable foam rubber cartridge

Double-sheet water squeegee with soft, replaceable sponge rubber sheets

Floor squeegee with firm neck

- Very robust
- Has a long service life

Material	Polypropylene, foam rubber
Length	500 mm
Width	70 mm
Height	115 mm
Min./max. temperature conditions	-20 to 80 °C

Colour	Product weight (per item)	Art. no.	P. Qty.
Blue	250 g	0891 350 650	1
Green	290 g	0891 350 652	1
Red	290 g	0891 350 651	1
White	250 g	0891 350 653	1
Yellow	290 g	0891 350 654	1

Replacement cassette

Suitable for the water wiper

Length x width x height	500 x 27 x 43 mm
Material	Polypropylene, foam rubber
Product weight (per item)	151 g

Art. no. 0891 350 659

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Ergonomic aluminium handle

Extremely robust and ergonomic handle with rounded tip

Material of the handle	Aluminium
Material of the grip handle	Plastic
Length	1510 mm
Diameter	31 mm
Min./max. temperature conditions	-20 to 100 °C

Colour	Art. no.	P. Qty.
Blue	0891 350 620	1
Green	0891 350 622	1
Red	0891 350 621	1
White	0891 350 623	1
Yellow	0891 350 624	1

Please consider the legal instruction at the beginning of this chapter.

Screwdriver holder

Rack for storing up to 15 screwdrivers. For square holes in perforated plates, TOOLsystem workshop trolley and ORSY1 shelving system.

- Bored slots for wall mounting
- Surface: Black matt, powder-coated
- With holding clips for attaching to square perforation

Width	100 mm
Height	185 mm
Length	310 mm

Art. no. 0714 938 218

P. Qty.: 1

Machine vice

Reinforced version with two offset prism jaws and a high-quality, long design

- With horizontal and vertical prism for holding round materials

Width of clamping jaw (B1)	100 mm
Width (B2)	185 mm
Max. clamping width (A max)	115 mm
Min./max. length (L1)	375-480 mm
Height (H1)	74 mm
Clamping depth (H2)	35 mm

Art. no. 0715 670 100

P. Qty.: 1

Parallel vice Heuer

Simple, adjustable central guide

- Surface-hardened clamping jaws
- Forged, hardened pipe clamping jaws
- Protected precision spindle bearing
- Die-forged rear jaws with anvil
- Protected spindle with double-start trapezoidal thread
- Large bearing surfaces

Width of clamping jaw (B1)	Max. clamping width (A max)	Clamping depth (T)	Max. pipe diameter	Min./max. pipe diameter in inches	Art. no.	P. Qty.

TOOLsystem Compact workshop trolley Compact

Compact and versatile workshop trolley with numerous practical details

- Wheels made from trackless rubber, steering wheels Ø 100 mm (one with locking brake), running wheels Ø 140 mm
- Available with worktop made of ABS plastic, wood or ribbed rubber mat
- Power-coated: Unit available in four different colours; all drawers in RAL 9011 (graphite black)

Three-stage locking concept

- Central locking with cylinder lock
- One-handed unlocking and individual drawer locks prevent drawers from accidentally opening while in motion
- Drawer lock for excellent stability and to prevent tipping. Only one drawer can be opened at a time.

Width	710 mm
Depth	430 mm
Height	940 mm

Workshop trolley Compact 7 plus equipment

74 pieces. Compact and versatile workshop trolley with numerous practical details for professional use in the workshop.

- Robust, multi-folded sheet steel construction
- External dimensions incl. handle (W x D x H): 710 x 430 x 940 mm
- Total load: 300 kg
- Working height: 885 mm
- Ball bearing-mounted fully extending drawers, load capacity up to 35 kg
- Drawer dimensions suitable for tool assortments in foam inserts
- Robust, ergonomic side handle
- Trackless rubber, steering wheels Ø 100 mm (one with locking brake), running wheels Ø 140 mm
- Crash protection made of foam rubber protects against impact damage
- Available with ABS plastic worktop, wooden panel or ribbed rubber mat
- Powder-coated: Unit available in four different colours, all drawers in RAL 9011 (graphite black)
- Wide range of accessories
- Sidewalls with square perforations for accessories from perforated plate range

Three-stage locking concept

- Central locking with cylinder lock
- One-handed unlocking and individual drawer locks prevent drawers opening by themselves while moving
- Drawer lock for maximum stability and to prevent tipping. Only one drawer can be opened at a time

Width x depth x height (external dimension)	710 x 430 x 940 mm
Load capacity	300 kg

Width x height x depth	231 x 38 x 335 mm
Decor	Carbon appearance

ORSY

Art. no. 0965 905 945

P. Qty.: 1

System assortment 8.4.1 socket wrench 1/4 inch and 3/8 inch

62 pieces

- Compatible with all ORSY system products
- Insert made from high-quality plastic in attractive carbon finish for improved robustness, stability and easy cleaning
- Tool sizes are marked on the insert.

Number of pieces in assortment/set	62 PCS
Size foam section	8.4.1
Width x height x depth	462 x 38 x 335 mm
Decor	Carbon appearance

ORSY

Art. no. 0965 905 913

P. Qty.: 1

System assortment 2.4.1, impact socket wrench 1/2-inch

4 pieces

- Compatible with all ORSY system products
- Insert made from high-quality plastic in attractive carbon finish for improved robustness, stability and easy cleaning
- Tool sizes are marked on the insert.

Number of pieces in assortment/set	4 PCS
Size foam section	2.4.1
Width x height x depth	115 x 38 x 335 mm
Decor	Carbon appearance

ORSY

Art. no. 0965 905 213

P. Qty.: 1

System insert 4.4.1, empty compartment

- Compatible with all ORSY system products
- Insert made from high-quality plastic in attractive carbon finish for improved robustness, stability and easy cleaning
- Tool sizes are marked on the insert.

Size foam section	4.4.1
Width x height x depth	231 x 38 x 335 mm
Decor	Carbon appearance

Art. no. 0955 905 980

P. Qty.: 1

ORSY

Plastic insert bodywork

12 empty compartments marked VL, VR, HL and HR

- Compatible with all ORSY system products
- Insert made from high-quality plastic in attractive carbon finish for improved robustness, stability and easy cleaning
- Tool sizes are marked on the insert.

Size foam section	8.8.1
Width x height x depth	670 x 54 x 463 mm
Decor	Carbon appearance

Art. no. 0955 905 955

Arm guard W-280 Level C

Protects the heel of the hand, wrist and forearm areas from cuts and heat

- Two-layer, seamless, round-knit fine fabric design made from 100% Kevlar®
- Optimal in conjunction with cut protection clothing or gloves
- Arm guard fits perfectly over the heel of the hand thanks to integrated thumb hole

Size	Universal
Length	35 cm
Material of the liner	Kevlar®
Standards	EN 388 EN 407 EN 420
Cut resistance according to ISO 13997	C
Category	II

Continuation **Arm guard W-280 Level C**

Art. no. 0899 400 420

P. Qty.: 1

Household glove

Liquid-proof, premium-quality cleaning glove made from natural latex

- Diamond structure for a secure grip
- Extremely elastic
- Optimum sense of touch
- Food safe
- Silicone-free manufacturing process

Material	Natural latex
Interior finish	Flocklined
Standards	EN 388 EN 374 EN 420
Category	III
Length	300 mm
Material thickness	0.42 mm
Tolerance, material thickness (+/-)	0.03 mm
Colour	Yellow

Size	Art. no.	P. Qty.

Chemical protective glove, natural latex and neoprene

Cotton flocking on the inside

- 100% liquid-proof
- Excellent sense of touch
- Good resistance to diluted acid and alkaline solutions
- Good mechanical resistance
- Silicone-free manufacturing process
- Food-safe

Material	Natural latex chloroprene mix
Interior finish	Flocklined
Standards	EN 388 EN 374 EN 420
Category	III
Length	320 mm
Material thickness	0.67 mm
Tolerance, material thickness (+/-)	0.03 mm
Colour	Black

Chemical and moisture protective glove Vinyl

Fully dipped protective glove with vinyl coating on cotton jersey lining

- Excellent wet and dry grip thanks to micro-roughened palm surfaces
- 100% waterproof
- Cold-insulating and heat-insulating jersey lining

Size	10
Material	PVC - Polyvinyl chloride
Interior finish	Cotton jersey liner
Standards	EN 374 EN 388 EN 420
Category	III
Length	350 mm
Material thickness	1.8 mm
Tolerance, material thickness (+/-)	0.03 mm
Colour	Green

Art. no. 0899 430

P. Qty.: 12

Chemical protective glove, Butyl

Gas-tight and resistant to exhaust gases produced by combustion processes

- Excellent protection against hazardous chemicals
- Good mechanical resistance
- Rolled edge
- Powdered

Material	Butyle
Interior finish	Powdered
Standards	EN 374 EN 388 EN 420
Category	III
Length	350 mm
Material thickness	0.5 mm
Tolerance, material thickness (+/-)	0.1 mm

Not resistant to oils, greases, halogens and hydrocarbons

Chemical protective glove nitrile with backing fabric

Robust, liquid-tight protective glove with polyamide support fabric that combines optimum chemical protection, secure grip and comfort

- Comfortable wearing thanks to polyamide support fabric
- Liquid-tight nitrile coating with roughened palm, optimal grip in moist, wet and oily working areas
- Good mechanical resistance

Material	Nitrile
Interior finish	Polyamide liner
Standards	EN 374 EN 388 EN 420
Category	III
Length	345 mm
Material thickness	1.3 mm
Tolerance, material thickness (+/-)	0.1 mm
Colour	Green, Black

Only limited suitability for wet work

Split cowhide leather glove W-10

Robust work glove made from split leather

- The thumb and index finger are completely made of leather for special protection
- Backs of hands made from heavy cotton fabric
- Knuckle guards and fingertips made of split leather
- Rubberised cuff
- Cotton half-lining

Size	10
Material	Split cowhide leather
Interior finish	Palm lining
Standards	EN 388 EN 420
Category	II

Art. no. 5350 000 110

P. Qty.: 12/120

Only limited suitability for wet work

Blue nitrile glove

Laminated safety cuff

- Nitrile coating on a heavy cotton jersey lining
- Breathable thanks to open backs of hands
- Very comfortable
- Liquid and oil repellent with good chemical resistance
- Good abrasion resistance

Material of the liner	Cotton jersey
Material coating	Nitrile
Standards	EN 388 EN 420
Category	II
Colour	Blue

Size	Art. no.	P. Qty.
10	0899 420	12
11	0899 420 100	6

Blue nitrile glove Economy

Safety cuff

- Medium-weight, cotton jersey lining, dip-coated in nitrile and synthetic latex
- Safety cuff made from sail material
- Breathable thanks to open backs of hands
- Good abrasion resistance
- Liquid repellent

Size	10
Material of the liner	Cotton jersey
Material coating	Nitrile
Standards	EN 388 EN 420
Category	II
Colour	Blue

Art. no. 0899 420 001

P. Qty.: 144

Yellow nitrile glove

Universal, lightweight assembly glove with nitrile coating

- Nitrile coating on a dense interlock cotton lining with knitted wrist gaiters
- Breathable through open backs of hands
- Good abrasion resistance
- Repellent to liquids, oil and grease
- Very good dry grip

Material of the liner	Cotton-Interlock
Material coating	Nitrile
Standards	EN 388 EN 420
Category	II
Colour	Yellow

Nitrile glove Light

Light mechanical stress

- Palms and 3/4 of the backs of the hands coated with nitrile
- Cotton lining with knitted cuff
- Basic wear resistance
- Liquid-repellent, oil-repellent and grease-repellent
- Outstanding dry grip

Size	10
Standards	EN 388 EN 420
Category	II

Art. no. 0993 899 130

P. Qty.: 12/144

4.1.1.1

Mechanic's glove

Universal glove with good mechanical resistance and special surface texturing for excellent dry and wet grip

- Excellent flexibility for fine assembly work
- Excellent dry and wet grip via special surface texturing
- High-quality natural latex coating with open hand back for good breathability

Gauge	15
Material of the liner	Polyamide
Material coating	Natural rubber with crinkle finish
Standards	EN 388 EN 420
Category	II

Size	Art. no.	P. Qty.

Vinyl protective glove

Dirt-protection glove for light to medium-heavy tasks with minimal risks

- Moisture and dirt-repellent artificial leather (vinyl-impregnated fabric)
- Inside with cotton half-lining
- Backs of hands and light safety cuffs made from cotton

Size	10
Material	PVC - Polyvinyl chloride
EN standard	420
Category	I

Art. no. 0899 401 000

P. Qty.: 12

Protective glove MultiFit Latex

Extremely light and flexible

- Good dry and wet grip properties
- Micro-porous, foamed natural latex coating on palm
- Seamless polyamide/elastane backing fabric

Gauge	15
Material of the liner	Polyamide/elastane
Material coating	Latex foam
Standards	EN 388 EN 420
Category	II

Assembly glove Economy

Lightweight gloves with breathable black PU coating

- Fine-knit fabric made from grey textured polyester
- Comfortable to wear
- Excellent fit, flexibility and dexterity
- Resistant to dirt

Gauge	15
Material of the liner	Polyester
Material coating	Polyurethane
Standards	EN 388 EN 420
Category	II

Mechanic's glove Pro

With an integrated magnet on the back of the hand to attach small tools and fastening materials.

- Robust protectors on backs and fingers
- Shock-absorbing palm inserts
- Areas of strain specifically reinforced
- Highly durable triple stitching on the palm
- Great fit and high degree of user safety
- Comfortable

Standards	EN 388 EN 420
Category	II

Size	Art. no.	P. Qty.

Mechanic's glove Cut plus

Robust all-round gloves with excellent cut protection

- Special cut-protection fibres in the palm area
- Specific reinforcements at areas placed under strain
- Robust protectors on the back of the hand and fingers
- Palm with abrasion-proof and non-slip facings
- Soft neoprene rip-tape fastening
- Breathable, elasticated polyester fabric on the back of the hand

Standards	EN 388 EN 420
Category	II

Protective glove MultiFit Dry

Liquid-repellent, fully dipped all-round glove, particularly suitable for wet working environments

- Liquid-repellent and breathable
- Outstanding grip in dry and wet conditions
- Optimum fit and maximum touch sensitivity
- Cuff with comfort width
- Maximum comfort thanks to the seamlessly round-knit polyamide/elastane backing fabric combined with a breathable coating

Gauge	15
Material of the liner	Polyamide/elastane
Material coating	Latex foam
Standards	EN 388 EN 407 EN 420
Category	II

Mechanic's winter glove

Seamless polyester and cotton looped, knit fabric with natural latex coating

- Breathable thanks to open backs of hands
- Fine surface texture for outstanding wet and dry grip
- Excellent mechanical resistance

Size	11
Gauge	10
Material of the liner	Polyester/acrylic
Material coating	Natural rubber with crinkle finish
Standards	EN 388 EN 511 EN 420
Category	II

Art. no. 0899 400 522

P. Qty.: 6

Winter glove Comfort

Two-layer knitted glove with excellent protection against cold

- Acrylic/pure new wool fibre for maximum comfort
- Open backs for excellent breathability
- High-quality natural latex coating
- Fine surface texture for outstanding wet and dry grip

Gauge	15
Material of the liner	Polyamide/acrylic-wool
Material coating	Natural rubber with crinkle finish
Standards	EN 388 EN 511 EN 420
Category	II

Cold protection gloves Cyokit 400

Hand protection with integrated special membrane for handling cryogenic gases and working in cold environments

- Protection against cold contact injuries and burns from escaped liquid gas and impermeable to water
- High breathability and comfortable to wear
- Highly elastic

Standards	EN 388 EN 511
Category	III

Size	Art. no.	P. Qty.
10	0899 450 160	1
11	0899 450 161	1

Not suitable for immersion in cold fluids!

Welding glove W-100

Robust welding glove for universal use; made from full-grain cowhide

- Full-grain cowhide palms
- Split leather backs and cuffs
- Very rugged and hard-wearing
- Repellent to oil, grease and water

Size	10
Length	35 cm
Material	Full-grain cowhide leather
Interior finish	Without lining
Standards	EN 388 EN 420 EN 12477A
Category	II

Art. no. 5350 050 010

P. Qty.: 1

Welding glove W-110

High-quality, fully lined welding glove for all welding tasks with increased heat development

- Fully lined, including cuffs
- Heat-insulating Molton lining
- Full-grain cowhide palms
- Split leather backs and cuffs
- Leather surface protects against welding beads and sparks
- Repellent to oil, grease and water
- Long service life

Length	35 cm
Material	Full-grain cowhide leather
Interior finish	Complete lining
Standards	EN 388 EN 420 EN 12477A
Category	II

Welding glove W-120

Split leather standard glove with porous surface

Size	10
Length	35 cm
Material	Split cowhide leather
Interior finish	Without lining
Standards	EN 388 EN 420 EN 12477A
Category	II

Art. no. 5350 050 210

P. Qty.: 1

Gloves should not be used at oily and greasy work stations.

Welding glove W-130

Touch-sensitive welding gloves for work with excellent touch feel

- Excellent touch sensitivity
- Palms and backs of hands made from supple nappa leather
- Split leather cuffs
- Lined cuffs
- Repellent to oil, grease and water

Material	Nappa leather
Interior finish	Without lining
Standards	EN 388 EN 420 EN 12477B
Category	II

Voltage protective glove

For working voltages up to 1000 V/AC

- Good flexibility
- Good sense of touch
- Layer thickness according to the standard max. 1 + 0.6 mm
- Supplied in a UV-resistant PE storage pouch

Length	410 mm
Material	Natural latex
Category	III
Class	0 - Operating voltage < 1000 volts
Utilisation voltage (AC voltage)	1000 V/AC
Utilisation voltage (DC voltage)	1500 V/DC

Size	Art. no.	P. Qty.

11	0899 400 931	1

Resistant to acid, oil, ozone and cold temperatures (category RC)

EN 60903

EN 61482-1+2

- Level 1: 4 kA/0.5 s/300 mm
- Level 2: 7 kA/0.5 s/300 mm

Cut protection glove W-110 Level B

Universal, very comfortable cut protection glove with Dyneema® fibres and breathable PU coating

- Excellent hand temperature and optimal comfort for long periods thanks to Dyneema® fibres
- Maximum comfort thanks to breathable PU coating, excellent fit and flexibility
- High degree of abrasion resistance and mechanical resistance

Gauge	13
Material of the liner	Dyneema®/polyamide/elastane
Material coating	Polyurethane
Standards	EN 388 EN 420
Cut resistance according to ISO 13997	B
Category	II

Size	Art. no.	P. Qty.

Cut protection glove W-120 Level B

Universal, flexible cut protection glove for light cut protection work

- Outstanding wearing comfort thanks to breathable PU coating
- Highly flexible and good tactile sensitivity
- Good mechanical abrasion resistance and good cut protection

Gauge	13
Material of the liner	Polyethylene/elastane/polyamide/polyester/glass fibre
Material coating	Polyurethane
Standards	EN 388 EN 420
Cut resistance according to ISO 13997	B
Category	II

Continuation **Cut protection glove W-120 Level B**

Cut protection glove W-500 Level F

Extremely robust cut protection glove with maximum cut protection and abrasion resistance

- Outstanding mechanical resistance in terms of cut and abrasion resistance
- Nitrile foam coating with outstanding grip and good resistance against grease and oils
- Good puncture resistance against metal chips, good fit

Gauge	13
Material of the liner	HDPE/steel/basalt/polyester/elastane
Material coating	Nitrile foam
Standards	EN 388 EN 420
Cut resistance according to ISO 13997	F
Category	II

Heat protection glove H-100

Universal, flexible heat protection glove with nitrile nubs for short-term contact with heat

- Increased heat protection due to heavy, seamless double-knit design
- Short-term protection against contact heat up to 250°C
- Better grip and flexibility due to nitrile nubs on both sides

Gauge	7
Material of the liner	Cotton double layer

Material coating	Nitrile dots
Standards	EN 388 EN 420 EN 407
Category	II

Size	Art. no.	P. Qty.
9	0899 407 009	6
10	0899 407 010	6

Heat protection glove H-110

Universal, flexible heat protection glove with nitrile coating with good sensitivity and comfort

- Short-term protection against contact heat up to 250°C
- Liquid-tight nitrile coating with high nubs
- Additional cut protection and increased service life due to reinforced crook of the thumb

Gauge	10
Material of the liner	Para-aramid synthetic fibre
Material coating	Nitrile foam
Standards	EN 388 EN 407 EN 420
Category	II

Heat protection glove H-120

Robust heat protection glove with very good cut protection properties for short-term contact heat up to 350°C

- Optimum heat protection and cut protection thanks to special double-knit design (outside: aramid fibres, inside: 100% cotton)
- Short-term protection against contact heat up to 350°C
- Very good wrist protection due to long design and seamless, knitted cuff

Size	10
Gauge	7
Standards	EN 388 EN 407 EN 420

Continuation **Heat protection glove H-120**

Category	II
Material	Aramid fibre/cotton

Art. no. 0899 407 310

P. Qty.: 1

Glove holder with snap hooks

For easy fastening to work and protective clothing

- Very secure hold due to serrated grips
- Easy to use

Material	Polycarbonate - PC
----------	--------------------

Art. no. 0899 899 023

P. Qty.: 3

Ear plugs x-100

Ergonomic, cone-shaped disposable ear plugs for use in extremely noisy environments

- Closed surface prevents foreign bodies and dirt particles from penetrating the ear plug
- Gentle, optimum adaptation to the ear canal
- Quick and easy proper insertion and easy removal of the ear plug

SNR attenuation value	37 dB
L attenuation value	34 dB
M attenuation value	34 dB
H attenuation value	36 dB

Container	Design	Art. no.	P. Qty.
Disposable dispenser	In pairs in polybag	0899 300 331	200

Refilling bag for dispenser	Loose	0899 300 336	200

Corded ear plugs x-100

Ergonomic, cone-shaped disposable ear plugs for use in extremely noisy environments

- Always available and close at hand thanks to safety cord
- Outstanding insulation properties
- Excellent voice recognition
- Very comfortable for maximum user acceptance
- Closed surface prevents the penetration of foreign bodies and dirt particles in the plugs
- Soft and optimum adjustment to the ear canal
- Quick and simple to insert correctly
- Easy to remove

SNR attenuation value	37 dB
L attenuation value	34 dB
M attenuation value	34 dB
H attenuation value	36 dB
Container	Disposable dispenser
Design	In pairs in polybag

Art. no. 0899 300 332

P. Qty.: 100

Ear plug band x-300

Lightweight at only 8 g

- To be worn under the chin
- Designed according to the latest ergonomic findings
- Oval plugs perfectly close up the ear canal.
- Fixing of the strap eliminates distracting friction noises

SNR attenuation value	24 dB
L attenuation value	18 dB
M attenuation value	19 dB
H attenuation value	27 dB
EN standard	352

Art. no. 0899 300 339

P. Qty.: 3

Folding ear plug band x-300

Practical and comfortable hearing protection that you can store in any shirt or jacket pocket and take with you.

- To be worn under the chin
- Oval ear plugs perfectly close up the ear canal
- Fixing of the strap eliminates distracting friction noises

SNR attenuation value	23 dB
L attenuation value	17 dB

M attenuation value	18 dB
H attenuation value	26 dB
EN standard	352

Replacement plugs

For ear defender strap x-300

Number of ear plugs	5 Pair
---------------------	--------

Art. no. 0899 300 340

P. Qty.: 5

VE 5 = 5 pairs

Corded ear plugs

Soft fins make these ear plugs very comfortable to wear

- Always to hand thanks to a securing cord
- High insulation performance with good signal and speech recognition
- Comfortable to wear due to soft fins

SNR attenuation value	27 dB
L attenuation value	22 dB
M attenuation value	24 dB
H attenuation value	27 dB
EN standard	352

Art. no. 0899 300 338

P. Qty.: 4

Ear defenders 3M Peltor Optime I

Very light and versatile ear defenders for the best possible protection.

Extremely comfortable to wear, even during long-term use

- The soft and comfortable sealing rings filled with a unique combination of liquid and foam guarantee a perfect seal with low-contact pressure
- Plenty of space under the shells despite slimline profile

Can be combined

The ear defenders can be worn together with other protective equipment.

SNR attenuation value	27 dB
-----------------------	-------

Continuation **Ear defenders 3M Peltor Optime I**

Art. no. 5M51 0

P. Qty.: 1

Ear defenders WNA 200

With very good insulation properties (SNR attenuation value 33 dB) and height-adjustable headband

- Very comfortable due to padded headbands and soft sealing cushions
- Adapts to any head shape thanks to height-adjustable straps
- Suitable for areas with lots of noise

SNR attenuation value	33 dB
L attenuation value	24 dB
M attenuation value	31 dB
H attenuation value	35 dB

Art. no. 0899 300 410

P. Qty.: 1

Ear defenders WNA 200/F

With excellent insulation properties (SNR attenuation value 32 dB), height-adjustable headband and fluorescent muffs

- Very comfortable due to padded headbands and soft sealing cushions
- Adapts to any head shape thanks to height-adjustable straps
- Excellent visibility in difficult viewing conditions thanks to fluorescent capsules and reflective lettering on the headband

SNR attenuation value	32 dB
L attenuation value	22 dB
M attenuation value	29 dB
H attenuation value	36 dB

Art. no. 0899 300 430

Professional forest helmet combination

This forest-worker helmet combination meets the needs of professional forestry workers, providing effective protection, good ventilation, comfort and optimum visibility.

- Very safe thanks to the special UV-stabilised ABS plastic and the special helmet shape
- Optimum visibility thanks to the short peak and professional visor
- Protection class „S“ for increased durability

SNR attenuation value	28 dB
L attenuation value	16 dB
M attenuation value	26 dB
H attenuation value	35 dB
EN standard	397

Art. no. 0899 200 150

P. Qty.: 1

Tested and recognised by the FPA (German Forestry Testing Commission)

Cup-shaped mask CM 3000 V FFP1 NR D

Complete protection and comfortable to wear thanks to special, soft filter materials

- Exhalation valve ensures a pleasant microclimate inside the mask
- Low breathing resistance
- Pre-moulded design
- Nosepiece for a better grip
- Half-height sealing lip in the nose area
- Looped-through cotton head strap
- Use together with Würth safety glasses for optimum protection

Filter class	FFP1 NR D
Design	With valve
EN standard	149:2001 + A1:2009

Art. no. 0899 110 501

P. Qty.: 15

Cup-shaped mask CM 3000 FFP1 NR D

Complete protection and comfortable to wear thanks to special, soft filter materials

Low breathing resistance

Optimum fit and seal thanks to

- Pre-moulded design
- Nosepiece for a better grip
- Half-height sealing lip in the nose area

Looped-through cotton head strap

Use together with Würth safety glasses for optimum protection

Filter class	FFP1 NR D
Design	No valve
EN standard	149:2001 + A1:2009

Art. no. 0899 110 500

P. Qty.: 20

Cup-shaped mask CM 3000 FFP2 NR D

Complete protection and comfortable to wear thanks to special, soft filter materials

Low breathing resistance

Optimum fit and seal thanks to

- Pre-moulded design
- Nosepiece for a better grip
- Half-height sealing lip in the nose area

Looped-through cotton head strap

Use together with Würth safety glasses for optimum protection

Filter class	FFP2 NR D
Design	No valve

P. Qty.: 15

Cup-shaped mask CM 3000 V FFP3 NR D

Complete protection and comfortable to wear thanks to special, soft filter materials

- Exhalation valve ensures a pleasant microclimate inside the mask
- Low breathing resistance
- Pre-moulded design
- Nosepiece for a better grip
- All-round sealing lip
- Adjustable head strap
- Use together with Würth safety glasses for optimum protection

Filter class	FFP3 NR D
Design	With valve
EN standard	149:2001 + A1:2009

Art. no. 0899 110 505

P. Qty.: 5

Comfort mask CM 3000 Pro V FFP2 NR D

Optimum protection with maximum comfort

- Two extra filters ensure a longer service life and minimal breathing resistance
- Mask is more pleasant to wear thanks to an exhalation valve and two additional inhalation valves (heat and moisture)
- 3D nose area ensures an optimum fit. Mask can also be used with Würth safety glasses and provides a clear field of vision
- Head strap length can be adjusted in a flexible manner
- Sealing lip all round for optimum seal

Filter class	FFP2 NR D
Design	With valve
EN standard	149:2001 + A1:2009

Art. no. 0899 110 510

Storage box (empty)

Practical storage box for the half face mask HM 173

Length x width x height	300 x 200 x 150 mm
-------------------------	--------------------

Art. no. 0899 171 000

P. Qty.: 1

Particle filter P3 for half face mask HM 173

- Bayonet connection system in accordance with EN 141
- Low weight

Filter class	P3
Protection against	Fine dusts up to 30 times the limit value, Fine dusts with full face mask up to 400 times the limit value
Range of applications	Against solid and liquid particles of toxic, highly toxic and carcinogenic substances

Art. no. 0899 173 002

P. Qty.: 4

Gas filter for half face mask HM 173

Lightweight filter with bayonet connection system according to EN 141

Filter class	Protection against	Range of applications	Art. no.	P. Qty.
A2	Organic vapours and gases (boiling point above 65°C)	Spray painting, Application of solvents	0899 173 003	12
A2-P3	Organic vapours and gases (boiling point above 65°C), Fine dusts up to 30 times the limit value, Fine dusts with full face mask up to 400 times the limit value	Spray painting, Application of solvents, Against solid and liquid particles of toxic, highly toxic and carcinogenic substances	0899 173 004	8
ABEK1	Organic vapours, Inorganic and acidic gases, Ammoniac, Derivatives	Application of chlorine, Application of bleaching agents, Application of hydrochloric acid, Application of sulphur dioxide, Application of methylamine	0899 173 005	12
ABEK1 P3	Organic vapours, Inorganic and acidic gases, Ammoniac, Derivatives, Fine dusts up to 30 times the limit value, Fine dusts with full face mask up to 400 times the limit value	Application of chlorine, Application of bleaching agents, Application of hydrochloric acid, Application of sulphur dioxide, Application of methylamine, Against solid and liquid particles of toxic, highly toxic and carcinogenic substances	0899 173 006	8

Particle pre-filter for HM 173 half face mask

For additional filtering of fine dust when working with half face mask HM 173

- Filtering of fine dust particles protects the gas filter in the half face mask.

Filter class	P2
Protection against	Fine dusts up to 10 times the limit value, Fine dusts with full face mask up to 15 times the limit value
Range of applications	As a particle prefilter for gas filters for solid and liquid particles

Art. no. 0899 173 001

P. Qty.: 50

Only in conjunction with gas filter, art. no. 0899173003, and filter holder, art. no. 0899173007.

Screw filter P3 RD

High-quality filter for protective masks with standardised round threaded connection in accordance with EN 148-1

Plastic filter housing

Therefore reduced weight

Low breathing resistance

Resealable openings

Therefore increased durability

Long shelf life

12 years

Filter class	P3 RD
EN standard	143, 14387, 148-1

Continuation **Screw filter P3 RD**

Art. no. 0899 142 300

P. Qty.: 1

EN 143:2000 and EN 14387

Screw filter A2-P3 RD

High-quality filter for protective masks with standardised round threaded connection in accordance with EN 148-1

Aluminium filter housing

Therefore reduced weight

Low breathing resistance

Resealable openings

Therefore increased durability

Long shelf life

6 years

Filter class	A2-P3 RD
EN standard	143, 14387, 148-1

Art. no. 0899 142 312

P. Qty.: 1

In accordance with EN 143:2000 and EN 14387

Screw filter A2B2E2K2Hg-P3 RD

High-quality filter for protective masks with standardised round threaded connection in accordance with EN 148-1

Aluminium filter housing

Therefore reduced weight

Low breathing resistance

Resealable openings

Therefore increased durability

Long shelf life

6 years

Filter class	ABEK2Hg-P3 RD
EN standard	143, 14387, 148-1

Art. no. 0899 142 015

P. Qty.: 1

In accordance with EN 143:2000 and EN 14387

Safety glasses Wega®

Sporty safety glasses with perfect all-around protection

- Safely shields the eyes against flying particles
- Adapts to the shape of the individual wearer's face for comfort and perfect protection
- Perfect fit with adjustable arm length and angle
- Scratch-resistant lens surface and permanent anti-fog coating on inside
- 100% UV protection (up to 400 nm)

Colour of safety lens	Clear
Material of safety lens	Polycarbonate
UV protection	400 nm
EN standard	166, 170
Mechanical strength	F (45m/s)

Art. no. 0899 102 115

P. Qty.: 1

Safety glasses Cetus®

Perfect protection with a sporty, dynamic, fashionable look

- Perfect eye coverage
- Distortion-free view
- Extremely scratch-resistant lens surface and permanent anti-fog coating on inside
- 100% UV protection (up to 400 nm)
- High wear comfort and secure fit owing to flexible two-component arms

Material of safety lens	Polycarbonate
UV protection	400 nm
Mechanical strength	F (45m/s)

Colour of safety lens	EN standard	Art. no.	P. Qty.
Clear	166, 170	0899 102 320	1
Grey	166, 172	0899 102 321	1

Safety goggles LIBRA®

Versatile use with perfect protection and comfort

- Excellent coverage of the eye area
- Innovative lens technology with excellent visual clarity
- Crystal-clear, distortion-free view
- Scratch-resistant lens surface and permanent anti-fog coating on inside
- 100% UV protection (up to 400 nm)
- Excellent for combining with prescription glasses
- No contact between goggles and prescription glasses
- Quick, automatic adjustment of arms to head shape
- Soft, especially flexible arm ends for comfort

Colour of safety lens	Clear
Material of safety lens	Polycarbonate
UV protection	400 nm
EN standard	166, 170
Mechanical strength	F (45m/s)

Art. no. 0899 102 275

P. Qty.: 1

Safety glasses CEPHEUS®

Lightweight, well-fitting safety glasses

- Sporty slip-in bracket for pressure-free fit
- Unrestricted side view
- Highly impact-resistant polycarbonate lens
- Scratch-resistant coating on both sides
- 100% UV protection (up to 400 nm)

Material of safety lens	Polycarbonate
UV protection	400 nm
Mechanical strength	F (45m/s)

Height	150 mm

Art. no. 0899 520 15

P. Qty.: 1

Eye rinse solution

Handy bottle with sterile sodium chloride solution (0.9%)

- Ergonomically shaped eye cup
- The bottle is especially suitable for mobile use in the workplace and for refilling wall stations and wall-mounted emergency boxes

Chemical basis	Sterile sodium chloride solution (0.9%)
Range of applications	For rinsing foreign bodies.
Shelf life from production	36 Month

Contents	Recommended rinsing time	Art. no.	P. Qty.
200 ml	approx. 2 minutes	0899 511 915	1/10
500 ml	approx. 5 minutes	0899 511 906	1/12

In accordance with DIN EN 15154-4

Neutralising eye rinse solution

Handy bottle with sterile phosphate solution (4.9%) which has a neutralising effect when there is a risk of chemical burns

- Ergonomically shaped eye cup
- The bottle is especially suitable for mobile use at workstations or for refilling wall stations or wall-mounted first-aid boxes

Contents	200 ml
Chemical basis	Sterile phosphate buffer solution (4,9%)
Range of applications	To neutralize acids and a variety of alkali., Rinse until the bottle is empty., Continuation of rinsing with the Würth Eye Irrigation.
Recommended rinsing time	approx. 2 minutes
Shelf life from production	36 Month

Art. no. 0899 511 921

P. Qty.: 1

Rinse eyes until the bottle is empty. Continue rinsing with the Würth eye wash solution until medical treatment is sought.

Emergency station for eyes

In a dust-proof wall-mounted box

Scope of delivery

- Eye rinse solution, 500 ml
- Neutralising eye rinse solution, 200 ml
- Mirror and emergency plan for eyes

Contents	700 ml
Chemical basis	Sodium chlorite
Shelf life from production	36 Month

Art. no. 0899 511 920

P. Qty.: 1

Eye rinsing station

Compact eye rinsing station for local use

Scope of delivery:

- Wall station consisting of 1x eye wash solution, 500 ml
- Wall bracket with pictograms and mirror

Shelf life from production	36 Month
----------------------------	----------

Art. no. 0899 511 905

P. Qty.: 1

In accordance with DIN EN 15154-4

Eye rinsing station Maxi

With two 500 ml filled, ready-to-use eye wash bottles

- Ideal for use in industry and workshops
- Dustproof wall box protects the eye wash bottles against external contamination

Contents	500 ml
Chemical basis	Sodium chlorite
Recommended rinsing time	approx. 5 minutes
Shelf life from production	36 Month

Art. no. 0899 511 914

P. Qty.: 1

Finger bandage

For covering skin injuries on fingers

Length	12 cm
Width	2 cm
Number of pieces	20 PCS

Continuation **Finger bandage**

Art. no. 0899 520 101

P. Qty.: 1

First-aid kit for car

First aid kit complies with DIN 13164

Scope of delivery:

1x roll of plasters, 1x set of assorted plasters, 2x skin wipes, 4x small first aid dressings, 2x large dressings, 5x roller bandage, 3x compresses, 2x triangular bandage, 1x pair of scissors, 1x emergency blanket, 4x gloves, 1x first aid booklet, 1x table of contents

DIN	13164
Length	255 mm
Width	166 mm
Height	80 mm
Box material	ABS

Art. no. 0899 520 7

P. Qty.: 1

Refill pack for first-aid kit

Contents in accordance with DIN 13157

- Contents: 66 pcs.

DIN	13157, 13169
Shelf life from production	60 Month

Art. no. 0899 520 100

P. Qty.: 1

Refill kit for first aid bags

First-aid materials in accordance with DIN 13164-2014

DIN	13164
Length	240 mm
Width	65 mm
Height	160 mm
Shelf life from production	48 Month
Included in delivery (Lieferumfang)	10 x replacement pack

Art. no. 0824 403 000

P. Qty.: 10

Plaster strips

Elastic, individually packaged fabric plasters suitable for single use and for replenishing plaster dispensers

- Rapid first aid for minor injuries
- The plasters are individually wrapped and ready for immediate use after removal from the dispenser

Number of pieces	45 PCS
------------------	--------

Art. no. 0899 520 151

P. Qty.: 1

Adhesive-free plaster Elast latex-free

Adhesive-free plaster for all wounds and cuts.

- Does not adhere to skin, hair or wounds
- No residues
- Self-adhesive (only sticks to itself), does not adhere to skin, hair or wounds
- Absorbent, absorbs blood

Number of pieces	1 PCS
Plaster length	450 cm

Plaster width	Art. no.	P. Qty.
3 cm	0899 512 240	1
6 cm	0899 512 24	1

Blue, adhesive-free plaster Elast latex-free

Adhesive-free plaster for all wounds and cuts, optimum hold even in food-processing areas

- Recognisable as for use in areas where food is processed or stored
- Does not adhere to skin, hair or wounds
- No residues
- Self-adhesive (only adheres to itself)
- Cannot be detected

Number of pieces	1 PCS
Plaster length	450 cm

Plaster width	Art. no.	P. Qty.
3 cm	0899 512 250	1
6 cm	0899 512 25	1

Plaster strips, long

For quickly attending to minor injuries

- Particularly suitable for finger injuries
Plasters can be wrapped around the finger several times as they are particularly long
- A flexible, skin-coloured fabric plaster
- The plasters are individually packed and immediately ready for use after removal from the dispenser

Number of pieces	30 PCS
Plaster length	120 mm
Plaster width	20 mm

Art. no. 0899 520 106

P. Qty.: 1

Plasters Alu

For fast first aid for minor injuries with aluminium layer. Ideal for burns.

- Flexible fabric plaster with a micronised aluminium layer
- Does not stick to the wound
- Breathable and skin-friendly

Number of pieces	45 PCS
Plaster length	72 mm
Plaster width	25 mm

Art. no. 0899 520 178

P. Qty.: 1

Combination first-aid bag

Space-saving vehicle combi bag with bandaging material in accordance with DIN 13164 as well as European warning triangle

- Case made of high-quality nylon material with water-repellent coating
- 3-sided all-round zip fastening

Length	435 mm
Width	100 mm
Height	75 mm
DIN	13164

Art. no. 0899 520 9

P. Qty.: 1

Defibrillator AED Plus®

Semi-automatic external defibrillator ideal for first aiders

The AED Plus® includes a support in real time for CPR, to guide the first aider step-by-step through resuscitation.

This facilitates good and safe chest compressions and is proven to increase the chances of survival of the patient many times over.

Audiovisual real-time feedback on the performance, the depth and rate of compressions in CPR

Coaching with the aim of achieving a high-standard of CPR by first aiders, to increase survival rates for heart and brain-related ailments.

Durable and cost-effective

- 5-year electrode shelf life
- 5-year battery life

Width	24.1 cm
Height	13.3 cm
Power input	0 W
Nominal voltage	3 V
Protection class	Protection class II/protective insulation
Depth	29.2 cm
Type description	Inch AED Plus
Material	Polycarbonate - PC

Art. no. 0993 900 100

P. Qty.: 1

Wall cabinet for defibrillators

Cabinet suitable for many defibrillators

- With holes for wall mounting
- Front raised edge for safe storage of the defibrillator
- Viewing window made from shatterproof acrylic glass

Product weight (per item)	4.9 kg
Material	Sheet steel
Width	400 mm
Length	220 mm
Height	400 mm

Art. no. 0993 900 103

P. Qty.: 1

Plaster dispenser

For quickly attending to minor injuries

The plasters can quickly and easily be removed with one hand

- The protective paper is automatically removed when the plaster strip is pulled out of the dispenser
- Very hygienic
- Plaster is easy to unwrap from the packaging
- Plaster can be applied immediately

Included in delivery (Lieferumfang)	Empty dispenser including fastening materials
-------------------------------------	---

Colour	Length	Height	Width	Art. no.	P. Qty.
Green	230 mm	135 mm	30 mm	0899 520 175	1
Transparent	85 mm	130 mm	35 mm	0899 520 181	1

Dispenser

For adhesive-free latex-free plasters

- Optimum availability
- Hygienic storage
- Integrated blade for cutting plasters

Included in delivery (Lieferumfang)	Plaster dispenser incl. fastening materials
Colour	Red
Length	280 mm
Height	170 mm
Width	170 mm

Art. no. 0899 512 23

P. Qty.: 1

Hard hat SH 2000-S

Comfortable hard hat with internal dial adjustment

- Extended downwards for neck protection
- Low weight
- 30 mm insert pockets allow the fitting of hearing protection

Min./max. size	52 cm-61 cm
Interior equipment helmet	6-point
EN standard	397
Min. temperature conditions	-30 °C
Material	PE - Polyethylene

Colour	Art. no.	P. Qty.

White	0899 200 243	1
Yellow	0899 200 244	1

Hard hat SH 2000-S Pro

Comfortable hard hat with internal dial adjustment and pre-mounted 4-point chin strap

- High-quality 4-point chin strap
- Neck protector extended downwards
- Optimum, quick width adjustment with dial system
- Unobstructed upwards view thanks to short helmet peak
- 6-point fabric lining and individually controlled ventilation openings on the front and back
- Low weight
- Good combination options
- Tested in line with EN 397 with supplementary requirements

Colour	White
Min./max. size	52 cm-61 cm
Interior equipment helmet	6-point
EN standard	397
Min. temperature conditions	-30 °C
Material	PE - Polyethylene

Art. no. 0899 200 235

P. Qty.: 1

Electrician's helmet SH-E 2000-S

Comfortable electrician's hard hat with internal dial adjustment

- Helmet shell is completely closed, so suitable for use by electricians in accordance with EN 397 and EN 50365 (1000 VAC)
- Optimum, quick width adjustment with dial system
- Unobstructed upwards view thanks to short helmet peak
- 6-point textile suspension harness
- Compatible with visors and ear defenders
- Suitable for very low temperatures down to -30°C
- Protects against weld spatter (MM = molten metal)

Colour	White
Min./max. size	52 cm-61 cm
Interior equipment helmet	6-point
EN standard	397, 50365
Min. temperature conditions	-30 °C
Material	PE - Polyethylene

Art. no. 0899 200 236

P. Qty.: 1

Hard hat SH-6

Helmet shell extended downwards for neck protection

- Special net structure reinforces the shell at all critical points
- Low weight
- Circumferential rain groove for directed water run-off
- Ventilation holes for „good climate“ under the helmet
- 30 mm insert pockets for hearing protection
- Long, circumferential sweatband made from especially absorbent fleece material
- Attachment points for chin strap
- Quick-action closure for optimum adjustment to head size
- Approval as a cold-use safety helmet to -30 °C

Min./max. size	52 cm-62 cm
Interior equipment helmet	6-point
EN standard	397
Min. temperature conditions	-30 °C
Material	PE - Polyethylene

Colour	Art. no.	P. Qty.
White	0899 200 71	1
Yellow	0899 200 70	1

Hard hat Builder

Very comfortable to wear and secure fit through ergonomic and height-adjustable inner

**Inner with rotary wheel for perfect setting
Firm inside fit**

To prevent localised pressure upon impact

Extended protective area for the neck

240 mm² ventilation areas

5-rib design

Min./max. size	53 cm-61 cm
Interior equipment helmet	6-point
EN standard	397
Min. temperature conditions	-20 °C
Material	HDPE - High density polyethylene

Colour	Art. no.	P. Qty.
Blue	0993 899 222	1
Green	0993 899 224	1
Orange	0993 899 225	1
Red	0993 899 223	1
White	0993 899 221	1
Yellow	0993 899 220	1

BG Bau recommends replacing hard hats made of thermoplastics after a maximum of four years.

Chin strap, 4-point

For hard hat SH 2000

Material	Plastic
Colour	Black

Art. no. 0899 200 248

P. Qty.: 1

Sweatband

For hard hat SH 2000/working-at-height helmet

Material	Faux leather
Colour	Skin-coloured

Art. no. 0899 200 249

P. Qty.: 10

Winter hood

Ideal for work in the cold that requires a helmet, as the helmet sits securely on the hood.

- Windproof and water-repellent outer material
- Circumferential reflector band
- Side mesh in the ear area increases the wearer's attention to environmental influences
- Warm fleece inner lining

Colour	Yellow
--------	--------

Art. no. 0899 200 293

P. Qty.: 1

Standard visor

For hard hat SH 2000-S

Easy removal of the visor without removing the complete device thanks to magnetic fasteners

Material	Polycarbonate - PC
Colour	Clear
EN standard	166, 170

Art. no. 0899 200 237

P. Qty.: 1

Electrician's visor SLB 1

Arc fault class 1 visor for electrician's hard hat SH-E 2000-S

- The magnetic fastenings make it possible to detach the visor, without having to remove the whole apparatus.

Material	Polycarbonate - PC
Colour	Clear
Non-fogging	Yes
EN standard	166, 170

Art. no. 0899 200 238

P. Qty.: 1

Electrician's visor SLB 2

Arc fault class 2 visor for electrician's hard hat SH-E 2000-S

- The magnetic fastenings make it possible to detach the visor, without having to remove the whole apparatus.

Material	Polycarbonate - PC
Colour	Blue
Non-fogging	Yes
EN standard	166, 170

Art. no. 0899 200 239

P. Qty.: 1

Ear defenders

For hard hat SH 2000-S

- The magnetic fastening enable easy attachment to the visor.

SNR attenuation value	27 dB
-----------------------	-------

Art. no. 0899 200 259

P. Qty.: 1

No helmet adapter included. The hearing protection can only be attached to the helmet in combination with a visor.

Neck protector

Optimum protection of the neck area when working with SH 2000 hard hats.

Material	100% polyester
----------	----------------

Art. no. 0899 200 296

P. Qty.: 1

Helmet adapter

Practical adapter for SH 2000 hard hats used for attaching ear plugs and visors.

- The magnetic fastenings make it possible to detach the visor, without having to remove the whole apparatus.

Material	PE - Polyethylene
----------	-------------------

Art. no. 0899 200 297

P. Qty.: 2

Face shield Ultimate

Perfect protection for grinding and cutting work, as well as against dripping or splashing liquids

- Maximum safety with optimum comfort
- Special geometry provides extended protection for top of the head and chin
- Large, durable polycarbonate visor with wide field of vision

Material	PA - Polyamide
----------	----------------

Art. no. 0899 101 205

P. Qty.: 1

Impact cap

Sporty head protection with a modern baseball cap design for any applications with a risk of impact to the head.

- Upper material: 100% cotton
- Hard plastic shell
- Foam padding on the shell and built-in ventilation holes for comfort
- Adjustable with riptape fastening
- Built-in sweatband
- Covering washable at up to 30°C

Min./max. temperature conditions	-30 to 50 °C
EN standard	812
Min./max. size	54 cm-59 cm

Colour	Art. no.	P. Qty.
Black	0899 200 981	1
Dark blue	0899 200 980	1
Grey	0899 200 986	1

The impact caps are designed to protect the wearer from light impacts and scratches. They do not protect against the effects of falling or thrown objects or moving, hanging loads. Under no circumstances may the impact cap be used in place of an industrial hard hat in accordance with EN 397.

High-temperature protective blanket HTD 1000

To protect delicate components during welding and soldering work

- Suitable for extreme conditions
- Resistant to sparks, cinders, welding beads and incandescent materials
- Asbestos-free

Max. temperature resistance	850 °C
Max. short-term temperature resistance	1000 °C

Length	Width	Art. no.	P. Qty.
500 mm	330 mm	0984 350 1	1
1500 mm	1000 mm	0984 350	1
3000 mm	2000 mm	0984 350 0	1

High-temperature protective blanket HTD 900

To protect sensitive components during welding and soldering work

- Resistant to sparks, cinders, welding beads
- Asbestos-free
- Application temperature: 750°C, briefly: 900°C

Max. temperature resistance	750 °C
Max. short-term temperature resistance	900 °C

Length	Width	Art. no.	P. Qty.
1500 mm	1000 mm	0984 350 3	1
3000 mm	2000 mm	0984 350 10	1

Portable welding protection wall

The combination of extremely robust base frame based on square profiles (30x30 mm) and the welding protection curtain is suitable for arc welding according to EN 1598.

- Translucent orange welding protection curtain
- Risk factor < 1
- Degree of reflection: 230 to 400 nm < 10%

Dimensions:

- Wall: W x H: 200 x 190 cm
- Curtain: W x H: 205 x 180 cm

ISO	EN ISO 25980
Width x height	200 x 190 cm

Art. no. 0984 770

P. Qty.: 1

In accordance with EN 1598

According to Article 5 of VBG (Institution for Statutory Accident Insurance and Prevention in the Administrative Sector) Accident Prevention Regulation 15, work stations for arc welding must be set up in such a way that non-participants are protected against harmful effects of optical radiation to the skin and eyes.

Barricade post with pull-out belt

Post system for a mobile, primarily visual or symbolic barrier. The pull-out belt can be attached to another post, wall cassette or wall clip.

- Mobile and flexible barrier
- Safe belt return and good stability
- The barrier can be flexibly configured using wall cassette and wall clip

Height	1000 mm
Base plate shape	Round

Post diameter	Material	Colour	Base plate diameter	Product weight (per item)	Art. no.	P. Qty.
63.5 mm	Metal	Yellow, Black	350 mm	10.5 kg	0957 595 002	2
63.5 mm	Plastic	Yellow, Black	410 mm	8 kg	0957 595 001	2
100 mm	Metal	Black	350 mm	11 kg	0957 595 005	1

When combining different products from the range of barriers with belt pull-out, please ensure the same type designation.

Welding goggles CEPHEUS®

Lightweight and comfortable welding goggles

- Modern design
- Highly impact-resistant polycarbonate lens
- Special welding protection coating minimises welding spark burn-in
- UV and IR protection

Material of safety lens	Polycarbonate
UV and IR protection	Yes
EN standard	166, 169
Mechanical strength	S
Colour of safety lens	Green

Protection level	Art. no.	P. Qty.
2	0984 502 120	1
5	0984 502 150	1

Welding goggles FORNAX®plus

Maximum protection in an innovative design

- With integrated side protection, panoramic lens for large field of view, extremely scratch-resistant outer, permanently fog-free interior
- Very good colour recognition through grey lens, infrared and glare protection, 100% UV protection (up to 400 nm)
- Adapts flexibly through variable arm angle, secure hold without pressure points even during extended wear

Protection level	5
Material of safety lens	Polycarbonate
UV and IR protection	Yes
EN standard	166, 169
Mechanical strength	F (45m/s)
Colour of safety lens	Grey

Art. no. 0984 502 250

P. Qty.: 1

Welding lens

For visor and protective screen

External lens

For automatic welding helmet WSH II 3/11, WSH II 9-13, WSH II 5-13, WSH III 10-11, WSH III 9-13 and WSH III 5-13

Art. no. 0984 680 02

P. Qty.: 2

Internal lens

For WSH II 5/13 and WSH II 9/13 automatic welding helmets

Art. no. 0984 700 05

P. Qty.: 5

Sweat band

For automatic welding helmets

Art. no. 0984 700 14

P. Qty.: 5

Welding cap WSC 9-12

Lightweight, comfortable glare protection with automatic darkening

- Lightweight and extremely comfortable, optimum coverage of the face, neck and ears, wider field of view through the nose cutout in the anti-glare cassette
- Infinitely variable adjustment of protection levels between DIN 9-12, grinding mode switches off the cassette for flicker-free grinding
- For all arc welding methods: Electrode welding, MIG/MAG, flux-cored wire welding, TIG welding

Translucency when not activated	Protection level 3
Translucency when activated	Protection level 9-12
Weight	425 g
Approval mark	CE, ANSI, AS/NZS
EN standard	166, 175, 379
Energy supply	2 replaceable 3 V button cells (CR2032)
Min./max. operating temperature	-10 to 60 °C

Art. no. 0984 700 300

P. Qty.: 1

Caution: Not suitable for laser welding!

Welder's apron, split leather

- With chest flap
- Universally adjustable leather straps
- Rough surface

Material	Sheepskin
Length	100 cm
Width	80 cm
Design	Raspy surface

Art. no. 0984 312

P. Qty.: 1

Welder's apron, full leather

The ideal protection for welding shops, distilleries, foundries, galvanising shops. The smooth surface makes it resistant to flying sparks, welding beads, liquid steel and aluminium.

- With chest flap
- Universally adjustable leather straps
- Smooth surface

Material	Full leather
Length	100 cm
Width	80 cm
Design	Smooth surface

Art. no. 0984 313

P. Qty.: 1

Safety harness Profi 3

Ideal as safety harness and retaining harness

- Tested and approved for up to 125 kg
- Rear harness eye in accordance with EN 361
- Two chest loops as harness eye in accordance with EN 361
- Two side harness eyes in accordance with EN 358

EN standard	361, 358
Max. load capacity	125 kg

Design	Art. no.	P. Qty.
Standard	0899 032 915	1
XXL	0899 032 068	1

Safety harness Basic

Light safety harness

- Back harness eye in accordance with EN 361
- Two chest loops as harness eye in accordance with EN 361

Max. load capacity	100 kg
--------------------	--------

Art. no. 0899 032 911

P. Qty.: 1

- If both chest loops on the safety harness are not used with a fastener, they must be connected using a carabiner.
- If chest loops are used as an anchor point on the safety harness, both loops must be connected to the carabiner of the coupling device.

Safety harness Elastico

Ergonomic safety harness with elastic belt material around the chest

- Maximum freedom of movement and comfort, even when working in tight conditions
- Rear harness eye in accordance with EN 361
- Two chest loops as harness eye in accordance with EN 361
- Two side harness eyes in accordance with EN 358

EN standard	358, 361
Max. load capacity	100 kg

Art. no. 0899 032 008

P. Qty.: 1

- If both chest loops on the safety harness are not used with a fastener, they must be connected using a carabiner.
- If chest loops are used as an anchor point on the safety harness, both loops must be connected to the carabiner of the coupling device.

Safety harness with high-vis waistcoat

Fall arrestor and high-vis vest in one product

- Safety harness with integrated high-vis vest for workplaces with falling hazards, especially where lighting conditions are poor and where visibility requirements are higher
- According to EN 361 and EN 20471
- Harness eyelet on back according to EN 361
- Two chest loops as harness eyelets according to EN 361
- Two zips to adjust the size
- Quick and easy to put on and take off thanks to quick-release fasteners on the leg straps

EN standard	361
Design	M/L
Max. load capacity	100 kg

Continuation **Safety harness with high-vis waistcoat**

Art. no. 0899 032 064

P. Qty.: 1

- If both chest loops on the safety harness are not used with a fastener, they must be connected using a carabiner.
- If chest loops are used as an anchor point on the safety harness, both loops must be connected to the carabiner of the coupling device.

Elastico Pro safety harness

Ergonomic safety harness allowing maximum freedom of movement

- Elasticated straps in chest area
- X-shaped back padding
- Leg padding
- Belts threaded through the back padding (no twisting)
- Quick-action buckles on the leg straps
- Rear harness eyelet in accordance with EN 361
- Two chest loops as harness eyelet in accordance with EN 361

EN standard	361
Max. load capacity	100 kg

Art. no. 0899 032 075

P. Qty.: 1

- If both chest loops on the safety harness are not used with a fastener, they must be connected using a carabiner.
- If chest loops are used as an anchor point on the safety harness, both loops must be connected to the carabiner of the coupling device.

Safety harness device, trailing W101

With integrated fall dampener

- Travels freely in the climbing direction and automatically locks in the event of a fall
- Robust, flexible 11-mm kernmantle rope
- Tested and approved up to 140 kg

EN standard	353-2
Length	15 m

Art. no. 0899 032 929

P. Qty.: 1

Fall arrestor device with belt strap

Light fall arrestor device for universal use in areas with a falling hazard

EN standard	360
Total length of connection element	2.5 m
Width x height x depth	110 x 110 x 80 mm
Weight	1.13 kg
Max. load capacity	100 kg

Art. no. 0899 032 908

P. Qty.: 1

Fall arrestor HSG-18 Compact

Lightweight fall arrestor with belt strap, in particular for use involving aerial work platforms

- Equipped with tri-lock aluminium carabiners
- Permissible user weight of 135 kg
- Integrated belt absorbs fall energy
- Lightweight, compact construction
- Double edges tested

EN standard	354, 360
Total length of connection element	1.8 m
Max. load capacity	135 kg

Art. no. 0899 032 110

P. Qty.: 1

Fall arrestor HSG-25-Y Compact

Lightweight fall arrestor in particular for use involving scaffolding construction and alternating of work positions

- Two-strand Y-design for securing one individual, alternating attachment facilitates optimal, continual safety
- Equipped with tri-lock aluminium carabiner and two aluminium tubular carabiners with an opening of 60 mm for quick and simple attachment, integrated belt fall dampener for absorbing fall energy
- Permissible user weight of 135 kg, lightweight, compact construction, double edges tested

EN standard	354, 360
Total length of connection element	2.5 m
Max. load capacity	135 kg

Art. no. 0899 032 112

P. Qty.: 1

Fall arrester HSG-25 Compact

Lightweight fall arrester with belt strap, in particular for use involving scaffolding construction

- Equipped with tri-lock aluminium carabiner and aluminium tubular carabiner with an opening of 60 mm for quick and simple attachment
- Integrated belt fall cushioner for absorbing fall energy
- Permissible user weight of 135 kg
- Lightweight, compact construction
- Double edges tested

EN standard	354, 360
Total length of connection element	2.5 m
Max. load capacity	135 kg

Art. no. 0899 032 111

P. Qty.: 1

Fall arrester device Pro with steel cable

Offers optimum freedom of movement and flexibility during work whilst providing maximum safety in the event of a fall

- Optimum safety through independent retraction of the steel rope, edge-tested
- In the event of a fall, the device locks as soon as a falling speed of 1.5 m/s is reached
- Sturdy plastic housing, swivel snap hook prevents rope from twisting; suitable for horizontal use

EN standard	360
Wire cable diameter	4.8 mm
Max. load capacity	100 kg

Wire cable length	Width x height x depth	Weight	Art. no.	P. Qty.
5 m	145 x 210 x 70 mm	2.6 kg	0899 032 120	1
10 m	180 x 275 x 80 mm	3.76 kg	0899 032 121	1
15 m	265 x 375 x 100 mm	5.47 kg	0899 032 122	1

Rope, mast anchorage

With rope grab for continuous adjustment of the holding position

EN standard	358
Length	2 m
Diameter	12 mm

Art. no. 0899 032 016

P. Qty.: 1

Connector with fall arrestor belt for scaffolding

Ideal for longitudinal façade scaffolding

- For fast, easy attachment to pipes and scaffolding up to max. Ø 59 mm via a large, aluminium pipe carabiner
- Tested on sharp edges

EN standard	354, 355
Length	2 m
Max. load capacity	100 kg

Art. no. 0899 032 052

P. Qty.: 1

Connector with energy absorber

One-handed carabiners for easy use

EN standard	354, 355
Length	2 m
Max. load capacity	100 kg

Art. no. 0899 032 012

P. Qty.: 1

Connector with energy absorber and pipe carabiner

Ideal for façade scaffolding

For fast, easy attachment to pipes and scaffolding up to max. Ø 59 mm

via a large, steel pipe carabiner

EN standard	354, 355
Length	1.5 m
Suitable for	Pipe up to max. diameter 59 mm
Max. load capacity	100 kg

Art. no. 0899 032 014

P. Qty.: 1

Y-connector

For attachment on alternating sides

For fast, easy attachment to pipes up to Ø 59 mm with large, steel pipe carabiner

EN standard	354, 355
Length	1.5 m
Suitable for	Pipe up to max. diameter 59 mm
Max. load capacity	100 kg

Art. no. 0899 032 015

P. Qty.: 1

Locking carabiner, oval

Screw retainer

Material	Steel
Surface	Zinc plated
EN standard	362
Max. width of mouth	17 mm
Length	109 mm
Width	57 mm
Load force in an open position	8 kN
Load force in a vertical position	25 kN

Art. no. 0899 032 920

P. Qty.: 1

In accordance with EN 362

ABS rope system Stainless steel cable

Stainless steel cable made of particularly robust V4A steel.

Length	1 m
EN standard	795
Material	Stainless steel
Colour	Silver grey

Wire cable diameter	Type description	Weight	Art. no.	P. Qty.
6 mm	SY-1000A	152 g	0838 904 065	1
8 mm	SY-1000	250 g	0838 904 060	1

The 6 mm version is also available in the highly visible warning colour red.

ABS Clamping element

Stainless steel end fastener (fork head) made of extremely robust V4A steel with integrated clamping device

- Clamping element made of stainless steel
- For ABS rope systems I - IV

EN standard	795
Material	Stainless steel
Colour	Silver grey

Wire cable diameter	Type description	Weight	Art. no.	P. Qty.
6 mm	SY-1007A	383.7 g	0838 904 066	1
8 mm	SY-1007	855.3 g	0838 904 061	1

ABS universal slider

ABS ProSlide: Aluminium slider for safety harness systems that can be driven over

Length	90 mm
EN standard	795
Material	Aluminium
Wire cable diameter	8 mm
Type description	SY-PROSLIDE
Colour	Black
Weight	92 g

Art. no. 0838 904 069

P. Qty.: 1

ABS special stainless steel cable preassembled

ABS stainless steel cable with pressed-on fork head in 6 and 8 mm and preassembled lengths

EN standard	795
Material	Stainless steel
Colour	Silver grey

Length	Wire cable diameter	Type description	Weight	Art. no.	P. Qty.

Snap hook Trilock

With Trilock closure for maximum safety

Material	Aluminium/aluminium
Surface	Plain
EN standard	362, 12275
Max. width of mouth	23 mm
Length	112 mm
Width	78 mm
Load force in a horizontal position	8 kN
Load force in an open position	6 kN
Load force in a vertical position	24 kN

Art. no. 0899 032 925

P. Qty.: 1

In accordance with EN 362, EN 12275

ABS Lock I

The perfect window fall protection: an anchor point that can be removed at the push of a button

- DIN EN 795:2012, B + DIN CEN/TS 16415:2013
- Removable at the push of a button
- Crossbar protects against accidental opening
- Usable with ABS-Lock II-B for concrete and wood
- Usable with ABS-Lock II-ST for steel

EN standard	795
Surface	Stainless steel FINISH
Length	10 cm
Width	5 cm
Height	10 cm
Type description	L1-1000
Material	Stainless steel
Product weight (per item)	250 g

Art. no. 0838 904 134

P. Qty.: 1

Temporary horizontal securing system

Optimum freedom of movement in horizontal positions

Belt strap with ratchet, length: 20 m

Includes:

- 2 rotary spring hooks
- 2 belt slings
- Storage and carry bag

EN standard	795-B
Material	PES - Polyester
Height	64.4 mm

Art. no. 0899 032 960

P. Qty.: 1

In accordance with EN 795 B

Suitable for a maximum of 2 persons

Single anchor point W-BAP 1

Single anchor point for fixing in concrete with DIBt National technical approval Z-14.9-692. Mounting with Würth chemical injection mortar WIT-VIZ and anchor rod W-VIZ-A/A4 M16 (h_{ef} 125) or W-VIZ-IG/A4 M16x120 (female thread)

- Signal yellow for excellent visibility
- Inexpensive alternative to other fall arrester systems
- Quick and easy anchor point installation and removal
- The load-bearing capacity of the mounting surface must be ensured

Material	Non-alloyed steel, 1.0570
Rod length	80 mm
Surface	Lacquered

Art. no. 0838 904 484

P. Qty.: 1

With general construction permit Z-14.9-692 for concrete and steel

- Observe the installation instructions and only use approved fasteners
- The single anchor point is made of unalloyed structural steel; this must be noted when using in aggressive environments
- Single anchor points must be attached to the concrete using the fasteners named in the approval documentation. The approval will otherwise be rendered null and void
- Delivery incl. fastening material (anchor rod) but without chemical injection mortar

Anchor point ABS Lock X wood 16

Single anchor point with DIBt approval for weak wooden surfaces

- Anchoring point directly onto wooden formwork and wooden structures
- GP Standard 200 x 200 mm
- Tested in accordance with EN 795
- Includes 16 ABS stainless steel special screws
- Approved for the safety harness system and as a single anchor point for 3 people

Material	Stainless steel
Surface	Stainless steel FINISH

Rod length	Art. no.	P. Qty.
150 mm	0838 904 040	1
300 mm	0838 904 041	1
400 mm	0838 904 042	1
500 mm	0838 904 043	1
600 mm	0838 904 044	1

ABS attachment point Lock X SR concrete

Attachment point for fixing with drive-in dowels in concrete surfaces

- Anchoring point
- Reinforced as end holder
- Base plate 150 x 150 mm
- Tested to EN 795
- Supplied with fastening material depending on the surface
- Design = Overhang
- Approved for safety harness system and as anti-fall protection for 3 people

Material	Stainless steel
Rod length	300 mm
Surface	Stainless steel FINISH

Art. no. 0838 904 080

P. Qty.: 1

DIBt general technical approval also granted for mounting of the ABS-Lock X-SR-B with wedge anchors. This version has a Ü-sign.

Also available in lengths of up to 1500 mm.

Anchor point ABS-Lock-On-Top MAX

For non-penetrative mounting on the roof membrane

- Anchor point for welding on bitumen with abZ
- Anchor point with damping element for an enormous force reduction
- Non-penetrative without extra load

Material	Stainless steel A2, 1.4301
----------	----------------------------

Art. no. 0838 904 059

P. Qty.: 1

Assembly kit fall arrester

Assembly kit with quality tool for mounting anchor points and rope safety systems

Set consisting of torque wrenches and many other products in a practical backpack

Art. no. 0838 904 485

P. Qty.: 1

Terminal W-MAP 1

Terminal for fast and safe securing of mobile anchor points in concrete. For use with the W-MAP 1 mobile anchor points

- Quick and easy installation and removal of the single anchor point W-MAP 1 (eyelet) thanks to a special locking system
- Visually barely noticeable due to its small size and almost flush-mount installation of the terminal in a wall or ceiling
- The internal spring plug automatically protects the W-MAP 1 terminal against contamination
- Economical and flexible, as any number of W-MAP 1 terminals can be installed in the building, but only one mobile W-MAP 1 anchor point (eyelet) is required per user

Material	Stainless steel A2, 1.4301
Rod length	120 mm
Diameter	20 mm
Surface	Stainless steel FINISH

Art. no. 0838 904 481

P. Qty.: 1

- General construction permit Z-14.9-692
- Also certified in accordance with DIN EN 795:2012 Type A (tests for deformation, static and dynamic strength and integrity) and CEN/TS 16415

- Installation with WIT-PE 500 chemical injection mortar
- The load-bearing capacity of the surface must be ensured
- Observe the installation instructions and approvals for the fasteners and single anchor point
- The W-MAP 1 terminal may only be used in conjunction with the mobile W-MAP 1 anchor point. The individual components are not compatible with similar systems
- The W-MAP 1 terminal is fixed permanently to the structure; mobile W-MAP 1 anchor points are quick and easy to move from one terminal to the next

ABS Lock III B

ABS-Lock III-B attachment point, the all-rounder for concrete

- Anchor point for concrete, for cementing into a façade or overhead
- General technical approval (abZ) from the German Institute for Construction Technology (DIBt - Deutsches Institut für Bautechnik)
- Can be used to set up various holding and catching systems
- Approved as a support in safety harness systems

Material	Stainless steel
Surface	Stainless steel FINISH
Colour	Stainless steel coloured

Continuation **ABS Lock III B**

Rod length	Art. no.	P. Qty.
100 mm	0838 904 002	1
200 mm	0838 904 003	1
300 mm	0838 904 004	1
400 mm	0838 904 005	1
500 mm	0838 904 006	1
600 mm	0838 904 007	1
800 mm	0838 904 009	1

For use in safety harness systems on a wall/façade (corner support or end bracket) with a projection \geq 100 mm, you will need a support tube.

ABS Lock X T

Securing device with general technical approval (abZ) for trapezoidal sheet roofs.

- The stainless steel anchor point with moldable plastic supports (16 mm diameter)
- general technical approval (abZ)
- has the appropriate Ü-number
- The anchor point is designed for positively and negatively laid trapezoidal sheets.
- It can be used as a single anchor point as well as a bracket for safety harness components.
- The safety solution is fastened with 4 toggle fixings, which are included.
- The anchor point has been tested for transverse loads
- for 3 people against falling from a roof

Material	Stainless steel
Diameter	16 mm
Surface	Stainless steel FINISH
Colour	Stainless steel coloured

Rod length	Art. no.	P. Qty.
150 mm	0838 904 024	1
300 mm	0838 904 025	1
400 mm	0838 904 026	1
500 mm	0838 904 027	1
600 mm	0838 904 028	1
700 mm	0838 904 229	1
800 mm	0838 904 231	1

Anchor point ABS Lock X, trapezoid With support tube

- Stainless steel anchoring point for a positively or negatively displaced trapezoidal metal sheet
- Tested in accordance with EN 795 for 3 people at once
- Can also be used as a system support (end, curve and intermediate support) for rope systems in accordance with EN 795 class C
- From a steel sheet thickness of 0.63 mm, base plate 290 x 200 mm, support Ø 16 mm
- For raised bead spacings (centre-centre) of 180 mm to 250 mm
- Includes fastening material (4 special spring toggles)

Material	Stainless steel
Surface	Stainless steel FINISH

Rod length	Art. no.	P. Qty.
150 mm	0838 904 224	1
300 mm	0838 904 090	1
400 mm	0838 904 091	1
500 mm	0838 904 092	1
600 mm	0838 904 093	1
700 mm	0838 904 094	1
800 mm	0838 904 095	1

The anchor point is DIBt-approved and conforms to DIN EN 795:2012 type A for attaching to trapezoidal sheets.

Metal roofing anchoring point Anchor point Lock V standing seam

- Single anchor point for seam roofs without roof penetration
- Suitable for copper standing seam roofs
- Tested in accordance with EN 795 for 3 people
- Brass clamp
- Lug made from V2A
- For all panel widths

Material	Stainless steel
Rod length	0 mm
Surface	Stainless steel FINISH

Colour	Art. no.	P. Qty.
Anthracite grey RAL 7016	0838 904 410	1
Brown grey RAL 7013	0838 904 411	1
Stainless steel coloured	0838 904 113	1
Stainless steel coloured	0838 904 115	1

ST = for aluminium, titanium zinc and steel

CU = for copper standing seam

ABS Lock III BE

Flat roof fall arrester with general technical approval (abZ - allgemeine bauaufsichtliche Zulassung)

- Anchor point for hammering into concrete
- General technical approval (abZ) from the German Institute for Construction Technology (DIBt - Deutsches Institut für Bautechnik)
- Incl. Stainless steel anchor ring
- Installed in around 2 minutes
- Approved as a support element in safety harness systems

Material	Stainless steel
Rod length	300 mm
Surface	Stainless steel FINISH
Colour	Stainless steel coloured

Art. no. 0838 904 010

P. Qty.: 1

ABS Lock III ST

Attachment point with or without projection

- 16-mm thick stainless steel support
- The securing device can be loaded in any direction
- Secures up to 3 people
- Suitable as an intermediate holder
- Functions as a curve or corner support with fitted support tube
- Incl. fastening material

Material	Stainless steel
Surface	Stainless steel FINISH
Colour	Stainless steel coloured

Rod length	Art. no.	P. Qty.
0 mm	0838 904 170	1
50 mm	0838 904 182	1
100 mm	0838 904 171	1
150 mm	0838 904 172	1
200 mm	0838 904 174	1
300 mm	0838 904 176	1
400 mm	0838 904 178	1
500 mm	0838 904 180	1
600 mm	0838 904 183	1

With or without projection. Incl. fastening material. With support tube as end and corner post in rope systems.

Scaffolding set Basic

Complete set for scaffolding work

- Safety harness with back eyelet extension tested on sharp edges (length 50 cm)
- Fastener with belt fall arrester belt tested on sharp edges (length 2 m) and pipe carabiner for fast, easy attachment to pipes and scaffolding

Number of pieces in assortment/set	3 PCS
------------------------------------	-------

Art. no. 0899 032 050

P. Qty.: 1

Contents for art. no. 0899 032 050

Rucksack	0899 032 943	1

Fall arrestor set W1000, 3 pieces

Complete set comprising safety harness, synchronous-running fall arrestor with 15 m rope and storage case

- Tested and approved up to 140 kg

Number of pieces in assortment/set	3 PCS
------------------------------------	-------

Art. no. 0899 032 976

P. Qty.: 1

Fall arrestor set W1001, 3 pieces

Complete set comprising safety harness, synchronous-running fall arrestor with 15 m rope and backpack

- Tested and approved up to 140 kg

Number of pieces in assortment/set	3 PCS
------------------------------------	-------

Art. no. 0899 032 977

P. Qty.: 1

Continuation **Fall arrestor set W1001, 3 pieces**

- If both chest loops on the safety harness are not used with a fastener, they must be connected using a carabiner.
- If chest loops are used as an anchor point on the safety harness, both loops must be connected to the carabiner of the coupling device.
- When using a fall protection belt and coupling device, the user weight of the coupling device is decisive.

ABS Sealing cuff BITU

ABS-LockSeal BITU - sealing cuffs for attachment points

- Sanded for bitumen roofs
- For Ø 16mm and Ø 42mm supports
- Incl. heat-shrink tubing
- Root resistant
- Plate diameter Ø 42cm

Product weight (per item)	378 g
Material	Bitumen
Diameter	42 cm

Type description	Art. no.	P. Qty.
ZU-BITU-42	0838 905 032	1
ZU-BITU-16	0838 905 031	1

ABS Sealing cuff PE/PP/PVC

Sealing cuff for attachment points ABS-LockSeal PE/PP/ PVC

- 0838 905 033 + 34 – sealing cuff for PVC (Sikaplan, Bauder, FDT, Wolfen, Alwitra, Flag, Alkorplan F).
- 0838 905 035 + 36 – sealing cuff for PP (Bauder, FDT, Vedag, Wolfen, Flag, Sucoflex).
- 0838 905 037 + 38 – sealing cuff for PE (Polyfin, Nebiprofa, Schedetal).

Safety traverse Aluminium

Flexible anchor point in an attractive design for use between load-bearing door openings

- Permitted as an anchor point for max. 2 people
- Made from high quality material
- Low weight for very good handling

reddot design award
winner 2018

Material	Aluminium
Weight	7.5 kg
Width	12 cm
Height	14.5 cm
Length	139.3 cm

Art. no. 0899 032 980

P. Qty.: 1

Mobile stop clamp

Mobile, adjustable anchor point for steel beams with a flange width from 90 to 380 mm.

- Permitted as an attachment point for 1 person
- Two locking pins to fix the setting

Material	Aluminium
Height	109 mm
Length	490 mm

Art. no. 0899 032 985

P. Qty.: 1

TYVEK® protective suit Classic Xpert

Ideal combination of protection, durability and comfort. Innovative, ergonomic design for optimum freedom of movement.

- High degree of resistance to wear and tear
- Anti-static on both sides
- Silicon-free
- Breathable: Impermeable to air and water
- Hood surrounds the face perfectly
- Optimally designed around the wearing of respiratory masks
- Sleeves sit perfectly, including for overhead work
- Outstanding protection against solid, airborne particles and to a limited extent against liquids

CAT I in accordance with PPE regulation

Storage box

For optimal storage of personal protective equipment

- Sign indicating mandatory use included
- Always at hand and neatly stored away
- Suitable for safety goggles, breathing protection (half face masks), ear defenders

Width	225 mm
Height	180 mm

Art. no. 0899 102 360

P. Qty.: 1

Mechanic's protective mat

Protective mat made from non-absorbent foam, to protect against dirt and prevent health hazards.

- Easy-to-clean, closed-cell surface
- Ergonomic carry handle
- Resistant to oil, petrol and brake-cleaning agents

Colour	Black, Red
Material	Foam material

Length x width x thickness	Art. no.	P. Qty.
480 x 320 x 36 mm	0899 500 210	1
1150 x 550 x 36 mm	0899 500 220	1

Knee pads PROFI

For universal use for all kneeling tasks

- Abrasion-resistant PU surface, extremely non-slip
- Very comfortable
- No one-sided strain or cutting into the back of the knee

Material	Polyurethane
Material of the fastening strip	Chloropren
Colour	Black
EN standard	14404
Number of pieces	1 Pair

Art. no. 0899 030 10

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Knee pads UNI

For working on very hard and rough surfaces

- Certified in accordance with DIN EN 14404
- Highly abrasion-resistant surface with 600 g/m² Kevlar®, can slip in some conditions
- Very comfortable
- No one-sided strain or cutting the hollows of the knees
- Maximum damping despite low material thickness thanks to a 12-mm-thick sandwich design
- High-quality material (Durable LYCRA® coating)

Material	Kevlar®
Material of the fastening strip	Chloropren
Colour	Black
EN standard	14404
Number of pieces	1 Pair

Art. no. 0899 030 20

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Warning marking adhesive tape

Quick and easy to apply and virtually no residue when removed

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Good adhesion properties, high tensile strength and good abrasion resistance
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

According to ASR A1.3

Length	33 m
Thickness	0.16 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	0 to 60 °C
Min./max. processing temperature	5 to 40 °C
Elongation at break	150 %
Material	PVC - Polyvinyl chloride
Adhesive base	Natural rubber

Width	Colour	Art. no.	P. Qty.
50 mm	Red-white	0812 44 662	1
50 mm	Yellow-black	0812 44 660	1
75 mm	Red-white	0812 44 663	1
75 mm	Yellow-black	0812 44 661	1

Warning marking adhesive tape Heavy Duty

Adhesive tape with thick material layer for simple, universal bonding.

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Good adhesion properties, high tensile strength and good abrasion resistance
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	10 m
Thickness	0.5 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	-20 to 55 °C
Min./max. processing temperature	15 to 25 °C
Material	PVC - Polyvinyl chloride
Adhesive base	Acrylate

Width	Colour	Art. no.	P. Qty.
50 mm	Red-white	0812 44 666	1
50 mm	Yellow-black	0812 44 664	1
75 mm	Red-white	0812 44 667	1
75 mm	Yellow-black	0812 44 665	1

According to ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- Red and white tape for temporarily restricted or movable hazard points and obstacles
- The adhesion surface must be dry and free from grease and dust

Warning adhesive tape for food areas and hygiene zones

Lower dirt adhesion due to low material thickness

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- High tensile strength and can be driven over immediately
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	15 m
Thickness	0.2 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	-40 to 150 °C
Min./max. processing temperature	10 to 25 °C
Material	PES - Polyester
Adhesive base	Acrylate

Continuation **Warning adhesive tape for food areas and hygiene zones**

Width	Colour	Art. no.	P. Qty.
50 mm	Red-white	0812 44 670	1
50 mm	Yellow-black	0812 44 668	1
75 mm	Red-white	0812 44 671	1
75 mm	Yellow-black	0812 44 669	1

According to ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- Red and white tape for temporarily restricted or movable hazard points and obstacles
- The adhesion surface must be dry and free from grease and dust.

Warning adhesive tape, non-slip, standard

Slip resistance R13 according to DIN 51130

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Prevents slipping and falling accidents
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	6 m
Thickness	1 mm
Colour	Yellow-black
Suitable for use in the following materials	Concrete screed, Asphalt, Smooth surfaces
Area of application	Outdoors, Indoors
Material	PVC - Polyvinyl chloride
Adhesive base	Acrylate

Width	Art. no.	P. Qty.
50 mm	0812 44 672	1
75 mm	0812 44 673	1

In accordance with ASR A1.5/1.2 and ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- The butyl primer should be used outdoors. This significantly increases the adhesive strength of an adhesive tape on all surfaces.
- The adhesion surface must be dry and free from grease and dust.

Warning adhesive tape, non-slip, luminous

Good visibility in the dark and R13 slip-resistance according to DIN 51130.

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Prevents slipping and falling accidents
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	6 m
Thickness	1 mm
Colour	Yellow-black
Suitable for use in the following materials	Concrete screed, Asphalt, Smooth surfaces
Area of application	Outdoors, Indoors
Material	PVC - Polyvinyl chloride
Adhesive base	Acrylate

Width	Art. no.	P. Qty.
25 mm	0812 44 675	1
50 mm	0812 44 674	1

In accordance with ASR A1.5/1.2 and ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- For outdoor use, apply butyl primer first. This significantly increases the adhesion strength of adhesive tape on all surfaces.
- The adhesion surface must be dry and free from grease and dust.

Warning adhesive tape, non-slip, aluminium-laminated

Mouldable tape with R13 slip-resistance according to DIN 51130.

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Prevents slipping and falling accidents
- Aluminium-laminated for good formability
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	6 m
Thickness	1 mm
Colour	Yellow-black
Suitable for use in the following materials	Concrete screed, Asphalt, Smooth surfaces
Area of application	Outdoors, Indoors
Material	Aluminium
Adhesive base	Acrylate

Width	Art. no.	P. Qty.
25 mm	0812 44 677	1
50 mm	0812 44 676	1

In accordance with ASR A1.5/1.2 and ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- For outdoor use, apply butyl primer first. This significantly increases the adhesion strength of adhesive tape on all surfaces.
- The adhesion surface must be dry and free from grease and dust.

Fabric hazard marking tape

Fast, easy and flexible bonding and marking

- Dense, firm and tightly woven fabric
- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Good abrasion resistance

Length	50 m
Thickness	0.29 mm
Colour	Yellow-black
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Material	Fabric - plastic coated
Adhesive base	Natural rubber

Width	Design	Art. no.	P. Qty.
50 mm	Left-pointing	0812 44 678	1
50 mm	Right-pointing	0812 44 680	1
75 mm	Left-pointing	0812 44 679	1
75 mm	Right-pointing	0812 44 681	1

According to ASR A1.3

- Yellow-black tape for permanent hazard points and obstacles
- Guidance past hazard points by directing to the left/right
- The adhesion surface must be dry and free from grease and dust.

Warning marking adhesive tape (3840) 3M Scotchlite

Reflective class type 2

- Flexible and removable
- Improved visibility for vehicles during the day and night
- Self-adhesive for ease of use
- Particularly suitable for adhering to vehicles with three-dimensional surfaces
- Edge sealed against dirt and moisture

Length	45.7 m
Width	141 mm
Colour	Red-white

Design	Art. no.	P. Qty.
Left-pointing	5M38 401 411	1
Right-pointing	5M38 401 412	1

Warning adhesive tape (13057) 3M Scotchlite

Black/yellow partially reflective: Highlights moving obstacles such as barriers, cranes, gates or forklift trucks.

- The reflective tape is self-adhesive and meets the requirements of DIN 4844.
- Indicates left and right every 25 m

Length	25 m
Width	50 mm
Colour	Yellow-black

Art. no. 5M13 058 50

P. Qty.: 1

Floor marking adhesive tape

Quick and easy to apply and virtually no residue when removed

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Good floor adhesion, high tensile strength and good abrasion resistance
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	33 m
Thickness	0.16 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	0 to 60 °C
Min./max. processing temperature	5 to 40 °C
Elongation at break	150 %
Material	PVC - Polyvinyl chloride
Adhesive base	Natural rubber

Width	Colour	Art. no.	P. Qty.
50 mm	Blue	0812 449 652	1
50 mm	Green	0812 449 656	1
50 mm	Red	0812 449 654	1
50 mm	Yellow	0812 449 650	1
75 mm	Blue	0812 449 653	1
75 mm	Green	0812 449 657	1
75 mm	Red	0812 449 655	1
75 mm	Yellow	0812 449 651	1

According to ASR A1.3

The adhesion surface must be dry and free from grease and dust.

Floor marking adhesive tape Heavy Duty

Adhesive tape with thick material layer for simple, universal bonding

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- High durability, high tensile strength and good abrasion resistance
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles etc. Revolving and turning on the tape should be avoided

Length	10 m
Thickness	0.5 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	-20 to 55 °C
Min./max. processing temperature	15 to 25 °C
Material	PVC - Polyvinyl chloride
Adhesive base	Acrylate

Width	Colour	Art. no.	P. Qty.
50 mm	Blue	0812 449 660	1
50 mm	Green	0812 449 664	1
50 mm	Red	0812 449 662	1
50 mm	Yellow	0812 449 658	1
75 mm	Blue	0812 449 661	1
75 mm	Green	0812 449 665	1
75 mm	Red	0812 449 663	1
75 mm	Yellow	0812 449 659	1

According to ASR A1.3

The adhesion surface must be dry and free from grease and dust

Floor marking adhesive tape for food areas and hygiene zones

Lower dirt adhesion due to low material thickness

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- High tensile strength and can be driven over immediately
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	15 m
Thickness	0.2 mm
Suitable for use in the following materials	Concrete screed, Smooth surfaces
Area of application	Indoors
Min./max. temperature conditions	-40 to 150 °C
Min./max. processing temperature	10 to 25 °C
Material	PES - Polyester
Adhesive base	Acrylate

Width	Colour	Art. no.	P. Qty.
50 mm	Blue	0812 449 668	1
50 mm	Green	0812 449 672	1
50 mm	Red	0812 449 670	1
50 mm	Yellow	0812 449 666	1
75 mm	Blue	0812 449 669	1
75 mm	Red	0812 449 671	1
75 mm	Yellow	0812 449 667	1

According to ASR A1.3

The adhesion surface must be dry and free from grease and dust.

Floor marking tape, anti-slip Heavy Duty

Retro-reflective tape (cat's eye effect) with R11 slip-resistance according to DIN 51130.

- Meets the requirements of DIN 4844 or DIN EN ISO 7010
- Extremely wear-resistant
- Tape can be driven over by industrial trucks, passenger cars, commercial vehicles, etc. Revolving and turning on the tape should be avoided.

Length	12.5 m
Thickness	1.6 mm
Suitable for use in the following materials	Concrete screed, Asphalt, Smooth surfaces
Area of application	Outdoors, Indoors
Min./max. temperature conditions	-20 to 80 °C
Min./max. processing temperature	15 to 25 °C
Material	PU fabric reinforced
Adhesive base	Natural rubber

Width	Colour	Art. no.	P. Qty.
50 mm	Black	0812 449 680	1
50 mm	Blue	0812 449 678	1
50 mm	Green	0812 449 684	1
50 mm	Red	0812 449 682	1
50 mm	White	0812 449 676	1
50 mm	Yellow	0812 449 674	1
75 mm	Black	0812 449 681	1
75 mm	Blue	0812 449 679	1
75 mm	Green	0812 449 685	1
75 mm	Red	0812 449 683	1
75 mm	White	0812 449 677	1
75 mm	Yellow	0812 449 675	1

In accordance with ASR A1.5/1.2 and ASR A1.3

- For outdoor use, apply butyl primer first. This significantly increases the adhesion strength of adhesive tape on all surfaces.
- The adhesion surface must be dry and free from grease and dust.

PVC Plus anti-fatigue mat by the metre

2-layer floor mat for medium to heavy-duty applications at dry workstations.

- Mat made from closed-cell PVC foam with asphalt surface
- Slip resistance R10 in accordance with EN13552
- Hardened surface

Design	Customized cutting
Colour	Black
Material	PVC - Polyvinyl chloride

Length x width x thickness	Art. no.	P. Qty.
100 x 600 x 12.5 mm	0957 590 125	10
100 x 900 x 12.5 mm	0957 590 126	10
100 x 1200 x 12.5 mm	0957 590 127	10

Floor mats are cut to customer specifications. It is not possible to exchange the products.

Mat can be ordered in individual lengths, PU 10 = 10 cm, maximum length: 18 metres / VE 1800

PVC Premium anti-fatigue mat

2-layer floor mat for heavy-duty applications at dry workstations.

- The mat is made up of a foamed PVC underside and a vinyl upper section with checker plate surface
- Vinyl top is self-extinguishing, very rugged and durable

Design	Cutting
Material	PVC - Polyvinyl chloride

Length x width x thickness	Colour	Art. no.	P. Qty.
900 x 600 x 14 mm	Black	0957 590 130	1
900 x 600 x 14 mm	Black, Yellow	0957 590 135	1
1500 x 900 x 14 mm	Black	0957 590 131	1
1500 x 900 x 14 mm	Black, Yellow	0957 590 136	1

PVC Premium anti-fatigue mat by the metre

2-layer floor mat for heavy-duty applications at dry workstations.

- The mat is made up of a foamed PVC underside and a vinyl upper section with checker plate surface
- The vinyl upper section is self-extinguishing, extremely robust and durable

Design	Customized cutting
Material	PVC - Polyvinyl chloride

Length x width x thickness	Colour	Art. no.	P. Qty.
100 x 600 x 14 mm	Black	0957 590 140	10
100 x 600 x 14 mm	Black, Yellow	0957 590 145	10
100 x 900 x 14 mm	Black	0957 590 141	10
100 x 900 x 14 mm	Black, Yellow	0957 590 146	10
100 x 1200 x 14 mm	Black	0957 590 142	10
100 x 1200 x 14 mm	Black, Yellow	0957 590 147	10

Floor mats are cut to customer specifications. It is not possible to exchange the products.

Mat can be ordered in individual lengths, PU 10 = 10 cm, maximum length: 18 metres / VE 1800

Anti-fatigue mat with textured surface

Floor mat made from natural rubber for heavy-duty applications at static standing workstations

- The textured surface also encourages users to move more
- The air chambers on the bottom provide additional cushioning

Design	Cutting
--------	---------

Length x width x thickness	Colour	Material	Art. no.	P. Qty.
900 x 600 x 14 mm	Black	Rubber	0957 590 160	1
1200 x 900 x 14 mm	Black	Rubber	0957 590 161	1
900 x 600 x 14 mm	Black, Yellow	Rubber	0957 590 165	1
1200 x 900 x 14 mm	Black, Yellow	Rubber	0957 590 166	1
900 x 600 x 14 mm	Black	Nitrile rubber	0957 590 170	1
1200 x 900 x 14 mm	Black	Nitrile rubber	0957 590 171	1

Chemical resistance should be checked on a case-by-case basis.

Premium anti-fatigue mat with textured surface

PU floor mat for heavy-duty applications at static standing workstations.

- Foamed PU mat with textured surface to encourage increased movement
- Fire protection class B1 in accordance with DIN54332/ DIN4102

Design	Cutting
Colour	Black
Material	Polyurethane

Length x width x thickness	Art. no.	P. Qty.
900 x 600 x 15 mm	0957 590 195	1
1200 x 900 x 15 mm	0957 590 196	1

Premium anti-fatigue mat, closed design

NBR rubber floor mat for heavy-duty applications at dry and wet workstations.

The modular tile system consists of middle and edge sections. Modules are toothed on the edges and can simply be slotted together.

The tiles and edge modules can be cut to size on the basis of a 30-cm grid.

Design	Tile
Length x width x thickness	900 x 900 x 16 mm
Colour	Black
Material	Rubber

Art. no. 0957 590 200

P. Qty.: 1

Anti-fatigue mat, perforated design

SBR rubber floor mat with perforated design for heavy-duty applications at dry and wet workstations.

- The perforated structure makes it possible for liquids to drain away or for chips to be collected
- Fire protection class B1 according to DIN 54332/DIN 4102

Design	Cutting
Colour	Black
Material	Rubber

Length x width x thickness	Art. no.	P. Qty.
1200 x 800 x 10 mm	0957 590 215	1
1500 x 900 x 10 mm	0957 590 216	1

Chemical resistance must be tested on a case-by-case basis.

Insulating mat

Insulating mat for work on live parts in accordance with EN 61111.

- EPDM rubber mat for work on live parts
- Anti-slip surface thanks to fine ribbing
- Resistant to oil and chemicals
- Colour coded on the reverse

Design	Customized cutting
EN standard	BS EN 61111:2009
Colour	Black
Material	Rubber

Class	Length x width x thickness	Art. no.	P. Qty.
0 - Operating voltage < 1000 volts	100 x 1000 x 3 mm	0957 590 230	10
2 - Operating voltage < 17000 volts	100 x 1000 x 4 mm	0957 590 231	10
4 - Operating voltage < 36000 volts	100 x 1000 x 5 mm	0957 590 232	10

Floor mats are cut to customer specifications. It is not possible to exchange the products.

Mat can be ordered in individual lengths, PU 10 = 10 cm, maximum length: 10 metres / VE 1000

Chemical resistance should be tested on a case-by-case basis.

Dirt trapping mat

Wear-resistant dirt trapping mat for the reliable capture of dirt and moisture.

- Durable and high-performance
- Easy to clean

Colour	Black, Grey
Material	100% polyamide

Length x width x thickness	Art. no.	P. Qty.
9 x 600 x 900 mm	0957 590 241	1
9 x 900 x 1500 mm	0957 590 242	1

Anti-fatigue mat with textured surface, extendible

Floor mat made from natural rubber for heavy-duty applications at static standing workstations.

- The anti-fatigue mats help to improve ergonomics at standing workstations. The properties of the mat help to protect the back and joints.
- Mats can be extended lengthwise. Sections are toothed on the edges and can simply be slotted together.
- Mat made from natural rubber with textured surface

Design	Length x width x thickness	Colour	Material	Art. no.	P. Qty.
Centrepiece	900 x 600 x 14 mm	Black	Rubber	0957 590 185	1
Corner piece	900 x 600 x 14 mm	Black	Rubber	0957 590 186	1

Corner piece	1200 x 900 x 14 mm	Black, Yellow	Rubber	0957 590 251	1

Chemical resistance should be checked on a case-by-case basis.

Sneeze guard roller blind

Transparent barrier against droplet infections

- Thin, crystal-clear material
- Dirt- and scratch-resistant.
- Pre-mounted on mounting rail
- Side pulley (can be mounted either on the right or on the left)

Width x depth x height	Art. no.	P. Qty.
1200 x 70 x 1800 mm	0997 865 646	1
1500 x 70 x 1800 mm	0997 865 647	1

Sneeze guard screen

Transmission protection with connectable base plates

- Screen can be set up free-standing on tables and counters
- Multiple modules can be placed next to each other
- Simple and fast installation simply by plugging together

Width x depth x height	1000 x 5 x 650 mm
------------------------	-------------------

In accordance with EN 12195-2
GS-certified

Lashing belts with coloured belt strap are not 100% colour-fast. Use in constant rain may result in slight staining.

Ratchet lashing belt, two-part with S-hooks

For small to medium loads

- No scratching as S-hooks have a PVC coating
- Suitable for lashing points with larger bracket diameters

Design	Two-piece
Width (B)	25 mm
Length (L)	6 m
Max. elongation lashing strap	5 %
Permitted tensile force LC in the strapping	700 daN
Permissible LC tensile force when pulled directly	350 daN
Pre-load	133 daN
Product certification	GS certified safety
Material	PES - Polyester
Shape of the hook	S hook
Colour	Red
Standards	EN 12195-2

		Art. no.	P. Qty.
		5713 922 537	1
		5713 988 001	1

In accordance with EN 12195-2
GS-certified

Place the goods to be secured on non-slip mats for additional protection

Ratchet strap, two-piece with double-claw hook

An all-round system for small to medium loads in all sectors (e.g. tradespeople and industry)

Width (B)	35 mm
Permitted tensile force LC in the strapping	2000 daN
Permissible LC tensile force when pulled directly	1000 daN
Pre-load	220 daN
Material	PES - Polyester
Shape of the hook	Double pointed hook
Colour	Red
Standards	EN 12195-2

Design	Length (L)	Max. elongation lashing strap	Product certification	Art. no.	P. Qty.
	6 m			5713 988 003	1
Two-piece	6 m	5 %	GS certified safety	0713 92 332	1
Two-piece	8 m	5 %	GS certified safety	0713 92 333	1

In accordance with DIN EN 12195-2
GS-certified

Lashing straps with coloured belt strap are not 100 % colour-fast. Use in constant rain may result in slight staining.

Ratchet strap, one-piece with standard ratchet

An all-round system for small to medium loads in all sectors (e.g. tradespeople and industry)

Suitable for bundling loose pipes and rods

Design	One-piece
Width (B)	35 mm
Max. elongation lashing strap	5 %
Permitted tensile force LC in the strapping	2000 daN
Product certification	GS certified safety
Material	PES - Polyester
Colour	Red
Standards	EN 12195-2

Length (L)	Art. no.	P. Qty.
4 m	0713 92 330	1
6 m	0713 92 331	1

In accordance with DIN EN 12195-2
GS-approved

Lashing straps with coloured belt strap are not 100% colour-fast. Use in constant rain may result in slight staining.

Ratchet strap, two-piece, double-claw hook with safety catch

An all-round system for small to medium loads in all sectors (e.g. tradespeople and industry)

- Safety catch on the double-claw hook prevents accidental unhooking from the lashing point

Design	Two-piece
Width (B)	35 mm
Max. elongation lashing strap	5 %
Permitted tensile force LC in the strapping	2000 daN
Permissible LC tensile force when pulled directly	1000 daN
Pre-load	220 daN
Product certification	GS certified safety
Material	PES - Polyester
Shape of the hook	Double pointed hook with snap
Colour	Red
Standards	EN 12195-2

Length (L)	Art. no.	P. Qty.
4 m	0713 92 336	1
6 m	0713 92 337	1
8 m	0713 92 338	1

In accordance with EN 12195-2
GS-certified

Lashing straps with coloured belt strap are not 100 % colour-fast. Use in constant rain may result in slight staining.

Ratchet strap, one pcs With basic ratchet

For small loads

- Robust and durable basic ratchet

Design	One-piece
Width (B)	25 mm
Max. elongation lashing strap	5 %
Permitted tensile force LC in the strapping	700 daN
Product certification	GS certified safety
Material	PES - Polyester
Colour	Red
Standards	EN 12195-2

Length (L)	Art. no.	P. Qty.
2 m	5713 922 532	1
4 m	5713 922 533	1
6 m	5713 922 535	1

Continuation **Ratchet strap, one pcs With basic ratchet**

In accordance with EN 12195-2
GS-certified

Lashing straps with coloured belt strap are not 100% colour-fast

Ratchet strap, two-part With tailboard claw

For secure attachment of smaller loads to the tailboard

- Can also be used in combination with intermediate wall locks and clamping bars
- Fast lashing of goods and easy handling thanks to automatic clamping of the tailboard claw
- No lashing points or lashing rails required and no damage to the tailboard due to rubberised claw
- Pressure ratchet

Design	Two-piece
Width (B)	50 mm
Length (L)	3 m
Max. elongation lashing strap	5 %
Permitted tensile force LC in the strapping	500 daN
Permissible LC tensile force when pulled directly	250 daN
Product certification	GS certified safety
Material	PES - Polyester
Shape of the hook	board wall clamp
Colour	Red
Standards	EN 12195-2

Art. no. 5713 922 563

P. Qty.: 1

In accordance with EN 12195-2
GS-approved

Additionally, place the goods to be secured on non-slip mats

Lashing strap loose end with claw hook

Replacement tensioning belt with double J-hook for existing ratchet strap systems from Würth

No premature discard or wear due to inner label

Width	50 mm
Max. elongation lashing strap	5 %

Permissible LC tensile force when pulled directly	2500 daN
Product certification	GS certified safety
Shape of the hook	Double pointed hook
Colour	Red
Material	PES - Polyester

Loose end length	Art. no.	P. Qty.
7.5 m	0713 92 340	10
9.5 m	0713 92 341	10

In accordance with DIN EN 12195-2
GS-certified

Supplied without ratchet tool

Lashing chain, one-part

With lashing hook

- Ratchet spanner, eyelet screws on both sides with screw-out lock
- Chain quality class 8, black, dipped

Usable length	3.5 m
Material	Steel
Surface	Lacquered

In accordance with EN 12195-3

Locking beam SAM Profi

For optimum securing of stored goods in dry and refrigerated trailers, as well as vans

- Large, continuous adjustment range
- Patented clamping mechanism
- Telescopic brake
- Non-slip rubber feet for any surface
- Robust, long-lasting quality – can be recycled

Locking force	140 daN
Pipe diameter	54 mm
Mounting option	Horizontal, Vertical
Material	Aluminium

Min./max. adjustment range	Art. no.	P. Qty.
2100-2550 mm	0713 92 421	1
2400-2850 mm	0713 92 424	1

Load bar PAT one-piece

Load bar for securing heavy loads in vehicle interiors.

- Large adjustment range with adjustable clamping element and high-strength hook
- Easy and safe fitting and locking with the patented clamping/joint element.
- Made of reinforced aluminium pipe
- Stable, durable quality – recyclable

Mounting option	Horizontal
Material	Aluminium
Length x Width profile cross-section	65 x 49 mm

Locking force	Min./max. adjustment range	Suitable for min./max. dropside thickness	Suitable for dropside thickness	Art. no.	P. Qty.

Textbook for load securing

For training purposes and the instruction (statutory obligation to provide training) of employees

For securing loads on trucks, in vans, pick-up vehicles, passenger cars and passenger cars with trailers

Evidence card to document training sessions

Rules on load securing are translated and printed in six languages.

EN, HU, PL, IT, CZ, RU

Number of pages	192 PCS
DIN format	A5 h

Art. no. 5713 713 001

P. Qty.: 1

Due to the complexity of calculating restraint forces for load securing, the textbook for load securing prioritises easy-to-use calculation methods.

Lifting strap

Made from high-strength polyester

- Flat woven fabric, with crane loops at both ends
- Reinforced crane loops
- Various sling configurations are possible
- Protects surfaces
- Considerably lower risk of injury compared with conventional slings

High load-bearing capacity with low tare weight

Colour-coded load-bearing capacity designation

Material	PES - Polyester

Disposable lifting strap

In accordance with DIN 60005

Made from high-strength polyester

Extremely flexible sling

High load-bearing capacity

Width of band	48 mm
Usable length	0.6 m
Load-bearing capacity (single direct)	750 kg
Load-bearing capacity (single u-shape)	1500 kg
Load-bearing capacity (single noosed)	600 kg
Material	PES - Polyester

Art. no. 0713 50 390

P. Qty.: 50

Disposable lifting straps may only be used once and must be disposed of at the end of the transport chain!

Round sling

Ensures high load-bearing capacity despite low tare weight

Made from high-strength polyester with woven-in barrel strips

Endless loop

Colour-coded load-bearing capacity designation

Extremely flexible sling for loads of all kinds

- Protects surfaces
- Considerably lower risk of injury compared with conventional slings

In accordance with DIN EN 1492-2

GS-certified

Material	PES - Polyester

Expander

The expander with the extra-large hook can be used in many ways to tie and secure.

- For securing, fastening and adding to tarpaulin coverings
- Can be used individually or combined for versatility and universal use
- Extra-large hook

Material	PE - Polyethylene
Length	800 mm
Diameter	8 mm
Colour	Red

Art. no. 0880 240 185

P. Qty.: 4

Expander with shortening hook

Red expander cord with one plastic hook and one steel hook. Can be shortened to required length using shortening hook. Maximum: 800 mm.

- When under strain, the shortened expander cord tightens itself
- Quickly and easily adjustable to the desired length
- Polypropylene cord, natural rubber inner material
- Metal hook breaking load: 200 N, plastic hook breaking load: 500 N

Max. length	800 mm
Diameter	8 mm
Max. tensile force	200 N
Colour	Red

Art. no. 0880 240 190

P. Qty.: 4

Expander with locking device

For universal bundling of pipes, rods, channels, etc., as well as securing a wide variety of goods

- Bundling diameter can be adjusted to suit
- Infinitely extendible by connecting several expanders

Material	PES - Polyester
Length	1000 mm
Diameter	8 mm
Colour	Red

Art. no. 0880 240 195

P. Qty.: 2

Can also be used to tie umbrellas, rotary clothes dryers, rolls of material etc. together.

Vulcanised non-slip mat

Ideal for use in addition to lashing down and also prevents the penetration of consumables such as water, oil and dirt

- Secured friction coefficient of at least 0.6 μ
- Robust solid rubber reusable mat

Suitable for	Normal loads
Min. friction	0.6 μ
Material thickness	2 mm
Material	Rubber
Colour	Black
Width	250 mm
Length	5000 mm

Art. no. 0713 92 905

P. Qty.: 1

KAHO tested in line with VDI 2700 with a sliding friction coefficient of $\mu > 0.6$

Non-slip mat, granulate

Geeignet für Schwerlasten, normale Lasten

**Ideal addition when lashing down
Ensured sliding friction coefficient of at least 0.6 μ**

Precise calculations of lashing material requirements.

Suitable for	Heavy loads, Normal loads
Min. friction	0.6 μ
Material thickness	8 mm
Material	Rubber granules chemically bound with PUR
Colour	Black
Width	250 mm
Length	5000 mm

Art. no. 0713 92 915

P. Qty.: 1

Tested by the Fraunhofer Institute according to VDI 2700 Sheet 14 with a coefficient of sliding friction of $\mu > 0.6$

Intermediate wall lock

Suitable for blocking the load on the load surface

- By using several intermediate wall locks, the load surface can be divided into different zones
- Material: Aluminium
- Clamping element with additional slip protection

Min./max. grip range	2400-2700 mm
Material	Aluminium
Surface	Plain
Height	125 mm
Width	30 mm

Art. no. 0713 92 200

P. Qty.: 1

Rubber tensioning ring

For tarpaulin fixing

Diameter (D)	8 mm
Material	Rubber
Colour	Black

Length (L)	Art. no.	P. Qty.
200 mm	0880 150 5	25

6 mm	0880 155 300	25
8 mm	0880 155 3	25
10 mm	0880 155 301	25

Towbar Professional

2 pieces

- Towing capacity up to 3.2 t
- Absolutely jerk-free towing
- New joining technique with the help of locking pins

Max. loading weight	3.2 t
Length	1.8 m
Length (folded together)	0.96 m
Pipe diameter	30 mm
Surface	Zinc plated

Art. no. 0772 04 400

P. Qty.: 1

Znak jakości:

- Attest bezpieczeństwa TÜV, monitorowana produkcja
- Produkt sprawdzony pod względem bezpieczeństwa

When towing, always release the steering column lock and switch on the warning lights. The bar must remain straight between the vehicles. This may mean shifting to the side when driving if the eyelets/coupling are not attached to the vehicles centrally. The towing of vehicles with a defective brake system is not permitted on public roads. Do not drive faster than max. 50 kph. Always drive in the lane of the pulling vehicle.

09

BUILDING MATERIALS

	Page
Construction site equipment	2376
Roofing materials	2399
Wood connector	2431

Warning tape

To close off, secure and mark hazard zones, construction sites, construction pits, plots of land, paths etc.

- Extremely resistant to tearing
- Blocked red/white on both sides
- PVC and heavy metal free

Width	80 mm
Length	500 m

Art. no. 0899 615 002

P. Qty.: 2

Wall cassette with belt pull-out for barriers

Alternative to a bollard if a permanent barrier is required or space is limited.

- Space-saving solution for permanent barriers
- Secure belt return and flexible belt pull-out
- The barrier can be flexibly configured using bollard and wall clip

Material	Textile
Colour	Yellow-black
Width	50 mm

Length	Type description	Material of the housing	Art. no.	P. Qty.
3000 mm	A	Metal	0957 595 021	1
4000 mm	G	Metal	0957 595 020	1
8000 mm	G	Plastic	0957 595 025	1

- 0957 595 025 features a belt pull-out, no mounting of incoming belts.
- When combining different products from the range of barriers with belt pull-out, please ensure the same type designation.

Dispenser

Empty roller block for warning tape

Material	PE - Polyethylene
Suitable for strap dimension	500 m x 80 mm

Art. no. 0899 615 000

P. Qty.: 1

Plastic chain

For blocking off, securing and use as rain run-off chains

- Rustproof
- Non-magnetic
- High resistance to weathering

Length	25 m
Material	PE - Polyethylene
Min./max. temperature resistance	-70 to 100 °C

Diameter (Ø)	Colour	Number of chain links until the colour changes	Length of link (internal) (c)	External width (b)	Art. no.	P. Qty.
6 mm	Black-yellow	11 PCS	42 mm	20 mm	0899 610 613	1
6 mm	Red-white	11 PCS	42 mm	20 mm	0899 610 612	1

8 mm	Red-white	9 PCS	61 mm	25 mm	0899 610 812	1

Not suitable for suspending heavy parts

Delineator

BASf-tested delineator in accordance with technical specifications, with practical swivel adapter for safe direction of traffic in roadworks

- Sturdy bollard body with film protection and grip edge
- Internally reinforced lamp support, 40x40 mm, for beacon lamps
- Swivel adapter with protective edge to stop dirt and moisture penetrating the ratchet mechanism

Length x width x height	1320 x 295 x 55 mm
-------------------------	--------------------

Foil type	Art. no.	P. Qty.
RA1/A	0993 899 302	1
RA1/A	0993 899 303	1/72
RA2/B	0993 899 332	1
RA2/B	0993 899 333	1

Pointing to the right/left

Bollard base

BASf-tested base in accordance with technical specifications, for positioning delineators, fall arresters and traffic signs

- With swivel adapter mount, integrated battery compartment and two carry handles
- Extremely stable and non-slip
- Unbreakable, stackable and resistant to oil, frost and salt

Height	115 mm
Width	400 mm
Length	800 mm
Product weight (per item)	25 kg

Art. no. 0993 899 304

P. Qty.: 1/36

Routing cone

Traffic warning cone, orange (luminous red) with 2 white non-reflective stripes

- Routing cone base made from recycled material with tilt-prevention edges
- Cone body made from HDPE
- Day-glow paint with white painted rings

Min./max. diameter	40-610 mm
Height	500 mm

Product weight (per item)	1103 g
Colour	Red, White

Art. no. 0993 899 500

P. Qty.: 1

Not approved for use on public roads.

Routing cone

Temporary routing cone with outstanding level of stability, approved for use on roads

- High level of stability thanks to anti-tip edge
- Optimised stacking without getting stuck
- Recessed handle for easy handling even when wearing gloves

Colour	White, Red
Foil type	RA1/A

Height	Length x width	Product weight (per item)	Art. no.	P. Qty.
500 mm	325 x 325 mm	3050 g	0993 899 306	1
750 mm	445 x 445 mm	5150.3 g	0993 899 307	1

BAST-tested and in line with technical specifications

Not permitted on motorways

Cable bridge

Can be traversed with a wheel load of up to 9 tonnes

- Ducts: 1 x 40 mm diameter, 2 x 20 mm diameter

Max. loading weight	9 t
Number of openings	3 PCS
Length	1500 mm
Width	200 mm
Height	65 mm

Art. no. 0993 899 308

P. Qty.: 1

Stand-up display „Please keep your distance – min. 1.5 m“

Made of aluminium for flexible use inside and outside

Material	Aluminium
Colour	White
Product weight (per item)	200 g

Art. no. 0997 865 478

P. Qty.: 1

Tetrahedral warning sign „Dangerous electrical voltage“

With magnetic base

- According to DIN EN ISO 7010 W012
- Printed on 3 sides (pyramid)
- For self-assembly

Design	Dangerous electrical voltage
Length	150 mm
Width	170 mm
Height	150 mm
Material	Carton with foil coating
Colour	Yellow, Black

Art. no. 0967 933 501

P. Qty.: 5

Down pipe replacement film

Protects façades from soiling and structural damage.

Reliable façade protection

Easy to use

- Fast and easy to attach and remove.
- Practical dispenser simplifies fitting.

Cost-effective

Less expensive than plastic pipes

Universal use

Downpipe replacement can be used for all drain pipes up to 150 mm diameter.

Material	PE - Polyethylene
Foil thickness	0.14 mm
Diameter (Ø)	200 mm
Length of roll	150 m
Additional articles	Cable ties, art. prefix no. 0502 ...; Adhesive tapes, art. prefix no. 0992 ...; Blades, art. prefix no. 0715 ...

Art. no. 0818 070 150

P. Qty.: 1

Fibre concrete spacer with wire

Kiwa-tested spacer for simple attachment of several concrete covers depending on position

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Material	Fibre-reinforced concrete
Cutting width	24 mm

Length	Concrete cover	Product weight (per item)	Art. no.	P. Qty.
20 mm	20 mm, 25 mm, 30 mm	37 g	5396 240 201	20000
35 mm	35 mm, 40 mm, 50 mm	91 g	5396 240 351	10000
45 mm	45 mm, 55 mm, 60 mm	142 g	5396 240 451	6000

Fibre-reinforced concrete loop

Kiwa-approved spacers for horizontal reinforcement. The loop shape prevents the device from tipping over.

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Length	80 cm
Material	Fibre-reinforced concrete

Concrete cover	Product weight (per item)	Art. no.	P. Qty.
25 mm	620 g	5396 800 250	1200
30 mm	638 g	5396 800 300	1000
35 mm	876 g	5396 800 350	750
40 mm	1025 g	5396 800 400	600
45 mm	1169 g	5396 800 450	600
50 mm	1150 g	5396 800 500	500

Fibre concrete triangle surface spacer

Kiwa-approved spacer for horizontal reinforcement

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Length	100 cm
Material	Fibre-reinforced concrete

Concrete cover	Product weight (per item)	Art. no.	P. Qty.
20 mm	510 g	5396 100 200	1500
25 mm	820 g	5396 100 250	1000
30 mm	1194 g	5396 100 300	1000
35 mm	1530 g	5396 200 350	700
40 mm	2000 g	5396 100 400	600
45 mm	2575 g	5396 100 450	600

Fibre concrete spacer

Kiwa-tested spacer for the horizontal reinforcement of several concrete covers depending on position

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Material	Fibre-reinforced concrete
Cutting width	24 mm

Length	Concrete cover	Product weight (per item)	Art. no.	P. Qty.
20 mm	20 mm, 25 mm, 30 mm	36.5 g	5396 240 200	20000
35 mm	35 mm, 40 mm, 50 mm	89 g	5396 240 350	10000
45 mm	45 mm, 55 mm, 60 mm	140 g	5396 240 450	6000

Fibre concrete loop with burl

**Kiwa-approved spacers for horizontal reinforcement.
The loop shape prevents the device from tipping over.**

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Length	80 cm
Material	Fibre-reinforced concrete

Concrete cover	Product weight (per item)	Art. no.	P. Qty.
25 mm	638 g	5396 800 251	1200
30 mm	810 g	5396 800 301	1000
35 mm	876 g	5396 800 351	750
40 mm	1025 g	5396 800 401	600
45 mm	1169 g	5396 800 451	600
50 mm	1150 g	5396 800 501	500

Fibre-reinforced concrete T loop

**Kiwa-tested spacer with a particularly robust design
for horizontal reinforcement**

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Length	80 cm
Material	Fibre-reinforced concrete

Concrete cover	Product weight (per item)	Art. no.	P. Qty.
30 mm	617 g	5396 800 305	1000
35 mm	848 g	5396 800 355	750
40 mm	994 g	5396 800 405	600
50 mm	1108 g	5396 800 505	500

Fibre concrete short piece with hook

Kiwa-tested spacer for vertical reinforcement with steel hook for suspension in structural steel meshes

- Excellent material quality for compressive strength and fire resistance
- Does not soften and melt in the heat, does not become brittle in the cold
- Homogeneous bond between concrete and spacers
- Same expansion coefficient as concrete
- Fewer cracks form

Material	Fibre-reinforced concrete

Wheelbarrow

Highly stable propylene pan that is easy to clean and resistant to impact.

- UV-resistant pan
- Galvanised frame (pipe diameter 30 mm)

Colour	Red
Contents	100 l
Wheel diameter	400 mm

Design	Art. no.	P. Qty.
Includes hollow rubber wheel	0993 998 106	1
Includes pneumatic wheel	0993 998 100	1

Mortar bucket

Round

- Material: PE granulate
- Colour: black
- Recessed grips

Contents	Height	Art. no.	P. Qty.
65 l	340 mm	0993 997 025	1
90 l	380 mm	0993 997 021	1

LED Euro warning lamp

With automatic twilight function

- Can be used for long periods
- Option to switch between flashing or continuous light
- Lamp head diameter of 200 mm
- With suspension hook and integrated holder (also suitable for use on barriers)
- The lamp must not be removed from the tube or holder when the battery is being changed

Lamp-head diameter	200 mm
--------------------	--------

Art. no. 0827 830 002

P. Qty.: 12

RSA-tested (TL)

For two block batteries (not included). One lamp key included per packing unit

LED warning lamp

With automatic twilight function

- With changeover for flashing or continuous light
- Diameter lamp head 180 mm rotatable
- With suspension eye and integral holder

Lamp-head diameter	180 mm
--------------------	--------

Art. no. 0827 830 005

P. Qty.: 12

For two block batteries (not included) One lamp key included per packing unit

Warning and beacon lamp

BAST-tested lamp with shatter-proof housing and comfortable carry handle

- Only one LED per lighting direction, reducing power consumption
- Can be switched between flashing and continuous modes
- Effective light emission 180 mm

Lamp-head diameter	180 mm
IP protection class	IP 33

Colour of light	Art. no.	P. Qty.
Red	0993 899 300	1/12
Yellow	0993 899 301	1/12

Continuation **Warning and beacon lamp**

- BAST-tested, in line with technical specifications
- Corresponds to EN 12352 – L6

Supplied without batteries, lamp holder and lamp key

Lamp key

For LED Euro warning lamp and LED warning lamp

Material	PP - Polypropylene
----------	--------------------

Art. no. 0827 830 004

P. Qty.: 3

Block battery

For LED warning lamp

Rechargeable battery/battery designation	6 V block battery
Nominal voltage	6 V/DC

Rechargeable battery/battery capacity	Art. no.	P. Qty.
7 Ah	0827 000 001	1/20
50 Ah	0827 000 002	1/12

Reusable cover fleece

Offers universal protection for flooring during painting and renovation work

- Long service life; can be used multiple times
- Highly absorbent. Film coating means that leaks do not penetrate downwards
- Completely secure grip thanks to non-slip film on the underside

Material	60% cotton, 40% synthetic fibre
Colour	Grey flecked
Roll width	1 m
Length of roll	50 m
Coating weight per m ²	275 g
Thickness	1.9 mm

Art. no. 0818 050 100

P. Qty.: 50

Please consider the legal instruction at the beginning of this chapter.

Permeable cover fleece

Particularly for use on breathing surfaces or surfaces which need to be allowed to breathe.

- Vapour-permeable
- Light-coloured fleece is visually unobtrusive
- Long service life; can be used multiple times
- Provides a completely firm grip thanks to the non-slip coating on the underside
- Easy to lay out and cut

Material	100% regenerated fibres
Colour	Light multi coloured
Roll width	1 m
Length of roll	30 m
Coating weight per m ²	320 g
Thickness	1.8 mm

Art. no. 0818 030 112

P. Qty.: 30

Please consider the legal instruction at the beginning of this chapter.

The product should be positioned with the coated side of the fleece facing the floor. The vapour-permeability means there is no protection from liquid penetration. The surface must be clean, dry, dust-free, free of release agents and resistant to tension/compression. The product should always be tested for compatibility on site, as materials, surfaces and external influences can vary.

Single-use cover fleece

Offers universal protection for flooring during painting and renovation work

- Highly absorbent, film coating means that leaks do not penetrate downwards
- Completely firm grip due to non-slip film on the underside
- Easy to lay out and cut

Material	60% cotton, 40% synthetic fibre
Colour	Grey flecked
Roll width	1 m
Length of roll	50 m
Coating weight per m ²	200 g
Thickness	1.7 mm
Number of rolls per pallet	24 PCS

Art. no. 0818 050 090

P. Qty.: 50

Please consider the legal instruction at the beginning of this chapter.

The product should be positioned with the side of the fleece that is covered with a film facing the floor.

Universal cover fleece

Cover fleece with laminated, slip-resistant polyethylene film and two adhesive strips on the back

- Width suitable for many applications at 33 cm
- Rear adhesive strips ensure safe operation
- Non-slip and highly absorbent

Material	Fleece/polyethylene film
Colour	Grey flecked
Roll width	0.33 m
Length of roll	25 m
Coating weight per m ²	230 g

Art. no. 0818 050 165

P. Qty.: 2

Please consider the legal instruction at the beginning of this chapter.

The substrate must always be checked for suitability. Not suitable for natural stone and freshly coated surfaces.

UV protective fleece

Recommended for use with PVC roofing membranes to prevent plasticizers transferring to the roofing membrane.

Material	100% polyester
Thickness	4 mm

Length	Art. no.	P. Qty.
310 mm	0862 003 085	10
510 mm	0862 003 090	10

Self-adhesive cover fleece

White self-adhesive cover fleece for visually high-quality covering work

- Absorbent, white fleece useful side with high abrasion resistance
- Extremely tear-resistant

Material	Polyester/Propylene
Roll width	1 m
Length of roll	50 m
Coating weight per m ²	135 g
Number of rolls per pallet	25 PCS

Art. no. 0818 050 050

P. Qty.: 50

Please consider the legal instruction at the beginning of this chapter.

Continuation **Self-adhesive cover fleece**

Self-adhesive cover fleece is not suitable for freshly laid coverings as it is not breathable and can cause stains. The self-adhesive cover fleece can be removed completely without a residue on most surfaces. Due to the versatile conditions of the surfaces and the environmental influences, no general guarantee for this can be assumed, however.

Cover/construction film

Robust, tear-proof and watertight LDPE film for indoor and outdoor use

- For covering large areas of floors, components and facilities that need to be protected from moisture, dust, paint etc. during renovation and painting work.
- Suitable for indoor and outdoor use

Area	200 m ²
Length	50 m
Width	4 m

Foil type	Tolerance of material thickness	Design	Number of rolls per pallet	Foil thickness	Art. no.	P. Qty.
100	5 %	Translucent	46 PCS	80 µm	0818 002 100	200
150	5 %	Translucent	39 PCS	125 µm	0818 002 150	200

200	26 %	Opaque	39 PCS	120 µm	0993 818 200	200

Please consider the legal instruction at the beginning of this chapter.

Reinforced film

Robust cover film for multiple uses

- Snowproof, windproof and rainproof
- Semi-transparent film enables inspection

Foil type	90
Tolerance of material thickness	5 %
Width	2 m

Area	Length	Art. no.	P. Qty.
100 m ²	50 m	0818 011 090	100
200 m ²	100 m	0818 010 090	200

Please consider the legal instruction at the beginning of this chapter.

Tarpaulin with eyelets

Tarpaulin for reliable coverage

- Easy and secure mounting using eyelets
- Snow, wind and rain-proof
- UV and weather-resistant approximately 1.5 years in Central Europe

Foil type	90
Foil thickness	105 µm

Area	Length	Width	Length (folded)	Width (folded)	Art. no.	P. Qty.
12 m ²	3 m	4 m	45 cm	32 cm	0818 004 092	3
24 m ²	4 m	6 m	53 cm	34 cm	0818 004 091	3
48 m ²	8 m	6 m	35 cm	45 cm	0818 004 090	3

Please consider the legal instruction at the beginning of this chapter.

Cover/waxed paper

Robust cover material for a wide range of applications

- Withstands heavy loads, also making it suitable for use under scaffolding
- The double-sided PE film lamination makes the milk carton paper water resistant, dimensionally stable and tear resistant.

Width	1.3 m
Length	50 m
Area	65 m ²
Coating weight per m ²	300 g
Colour	White, Brown

Art. no. 0818 040 050

P. Qty.: 65

Please consider the legal instruction at the beginning of this chapter.

Floor protection panel

A honeycomb structure provides outstanding rigidity, compressive strength and durability

- The plates can be used several times depending on the contamination and the load
- Quick and simple to install
- Recyclable
- Resistant to UV, chemicals, acids and alkaline solutions

Thickness	4.5 mm
Max. loading weight	300 kg
Min. temperature resistance	-20 °C
Ultraviolet resistance	Yes
Material	Ethylene propylene copolymer
Width	800 mm

Continuation **Floor protection panel**

Length	1200 mm
Chemical resistance	Yes

Art. no. 0818 050 300

P. Qty.: 20/220

Please consider the legal instruction at the beginning of this chapter.

Exercise caution with damp or freshly laid floors. The floor protection panels are not moisture-permeable. As a result, water vapour cannot escape and the floor may be damaged.

For stress values of over 300 kg per panel, preliminary tests must be conducted and information obtained from Würth where necessary.

Fuel canister Rapidon 6

Sturdy plastic canister with double handle

- The liquid output and air supply are controlled by pressing a button
- Large filler opening
- Semi-circular tank neck
- Swivel-mounted tank neck
- Two-dimensional fill level gauge
- Sticker with contents description included in scope of delivery
- Resistant to petrol, petrol/oil mixtures and diesel
- Max. filling volume: 6 litres
- UN-approved

Material	HDPE - High density polyethylene
Colour	White
Contents	6 l
Width	150 mm
Length	435 mm
Height	262 mm
Resistance against	Petrol, Petrol-oil mixture, Diesel

Art. no. 0891 420 60

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Footfall sound insulation

Parquet and laminate floor underlay

- Footfall sound insulation and a vapour retarder combined in a single product
- Suitable for underfloor heating
- Can be used on both sides

Material	Polypropylene fleece
Length	30 m
Total thickness	2.5 mm
Length of roll	30 m

Width	1 m
Thickness	2.5 mm
Coating weight per m ²	300 g

Art. no. 0818 050 220

P. Qty.: 30

Please consider the legal instruction at the beginning of this chapter.

Decoupling fleece CERAfix® 205

For isolating stresses while laying tiles and natural stone or parquet, laminate flooring and carpets

Simple to use

- Easy to unroll and lay
- Can be laid with no folds
- Minimal lengthways and crosswise expansion

Favourable sound values thanks to a high degree of solidification

Suitable for new buildings and renovations

Material	PES - Polyester
Total thickness	0.8 mm
Length of roll	25 m
Roll width	1 m
Coating weight per m ²	0.16 kg

Art. no. 5875 100 205

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Dispose of CERAfix 205 as construction waste.

Fan heater

Compact fan heater with infinitely adjustable thermostat

- 2 heat settings (1000/2000 W)
- Cold setting (fan)
- With oscillating motion that can be switched off

Power rating	2000 W
Min./max. blower temperature	7 to 88 °C
Width	20 cm
Height	29 cm
Depth	14.5 cm
Cable length	1.2 m

Art. no. 9501 008 385

P. Qty.: 1

Submersible pump Easy-Sub 400W

Robust, reliable submersible waste water pump with mounted float switch

- Grain size up to 10 mm
- Cable length 20 m + safety plug
- Fully submersible to 3 bar
- Longitudinally water-tight cable entry protects the winding from water ingress
- Prevents the motor from overheating on rotor blocking, unequal phases, voltage fluctuations
- Low-wear F-impeller (free current vortex)
- Incl. Storz C-coupling

Max. feed quantity	220 l/min
Max. delivery height	11.5 m
Nominal voltage	230 V/AC
Nominal current	3.1 A
Motor output	0.4 kW
Weight of machine	13 kg
Connection thread	ET 2 inch
Connection coupling	Storz C
Min./max. temperature conditions	0 to 40 °C
Residual water height	88 mm

Art. no. 0993 702 80

P. Qty.: 1

Submersible pump Classic

Flat suction pump for extracting water up to 2 mm deep

- Aluminium housing with stove enamelling
- Oil-filled motor for continuous operation with overload protection
- Self-aspirating

Max. feed quantity	70 l/min
Max. delivery height	6 m
Nominal voltage	230 V/AC
Nominal current	1 A
Motor output	190 W
Weight of machine	5 kg
Connection thread	1/2 inch, 3/4 inch, 1 inch
Cable length	10 m
Residual water height	2 mm

Art. no. 0993 702 70

P. Qty.: 1

Submersible pump Type HS

Small and robust waste water pump, suitable for use in a broad range of applications

- Long-lasting, simple maintenance process
- Wear-resistant pump housing
- Newly developed motor
- Built-in thermal switch

Scope of delivery

- 1x cable 10 m with plug
- 1x 2" threaded connection, external thread, fixed Storz C coupling (2" internal thread)

Max. feed quantity	100 l/min
Max. delivery height	8 m
Nominal voltage	230 V/AC
Nominal current	2.6 A
Motor output	0.4 kW
Weight of machine	11 kg
Connection thread	ET 2 inch
Connection coupling	Storz C
Cable length	10 m
Min./max. temperature conditions	0 to 40 °C
Residual water height	90 mm
Max. grain size	7 mm

Art. no. 0993 702 60

P. Qty.: 1

Submersible pump Type N

Small and robust submersible waste water pump, suitable for use in a broad range of applications wherever water needs to be moved

- Pump suitable for prolonged use at low water level and 'snore mode'
- Fail-safe operation under the toughest conditions and over long periods of time
- No overheating of the motor

Max. feed quantity	240 l/min
Max. delivery height	11 m
Nominal voltage	230 V/AC
Nominal current	2.9 A
Motor output	0.4 kW
Weight of machine	12.1 kg
Connection thread	2 inch
Connection coupling	Storz C
Cable length	10 m
Min./max. temperature conditions	0 to 40 °C

Residual water height	50 mm
Max. grain size	7.5 mm

Art. no. 0993 702 85

P. Qty.: 1

Flat vacuum GDR

Makes it easy to suck up water to a level of 2 mm.

Even the smallest puddles can be extracted

- Pump suitable for prolonged use at low water level and ,sip mode'
- Fail-safe operation under the toughest conditions and over long periods of time
- No overheating of the motor

Max. feed quantity	240 l/min
Max. delivery height	11 m
Nominal voltage	230 V/AC
Nominal current	2.9 A
Motor output	0.4 kW
Weight of machine	13 kg
Connection thread	1 inch
Male thread	25.4 mm
Connection coupling	Storz C
Cable length	10 m
Min./max. temperature conditions	0 to 40 °C
Residual water height	2 mm
Max. grain size	3 mm

Art. no. 0993 702 95

P. Qty.: 1

Tying rope

For short-term securing and lashing of light loads

- Four-strand
- Bundled
- With clip
- Soft and flexible

Length	250 cm
Diameter (Ø)	8 mm
Max. loading weight	300 kg
Material	Hemp

Art. no. 0695 944 01

P. Qty.: 10

Scaffolding rope

Rot resistant, UV stabilised scaffolding weave for short-term securing and lashing of light loads.

- Four-strand
- Bundled
- With clip
- Soft and flexible
- Heat-resistant up to approx. 70°C

Length	250 cm
Diameter (Ø)	8 mm
Max. loading weight	550 kg
Material	PP - Polypropylene

Art. no. 0695 944 02

P. Qty.: 10

Vapour retarder WÜTOP® DB 2

Vapour-permeable, moisture-regulating, airtight and easy-to-install vapour retarder for interior renovations and attic conversions. To be used in conjunction with vapour-permeable underlay membranes and roof protection films

- Durable and tear-resistant thanks to embedded mesh fabric
- Prevents heat loss caused by unnecessary airflow
- Prevents moisture penetration of internal heat insulation and, therefore, the impairment of the insulating effect

DIN EN 13984

Coating weight per m ²	116 g
Length of roll	50 m

Roll width	Number of rolls per pallet	Width	Art. no.	P. Qty.
1.5 m	30 PCS	1.5 m	0681 000 145	75
1.5 m	46 PCS	1.5 m	0681 000 004	75
3 m	30 PCS	3 m	0681 000 144	150

WÜTOP® vapour retarder DB 20

Extremely resistant and vapour-permeable vapour retarder.

- Vapour-permeable, airtight vapour retarder that is particularly easy to install
- For interior renovations and attic conversions
- Extreme durability, tear resistance and puncture resistance.
- Prevents moisture penetration of internal heat insulation
- Three-ply vapour retarder with fabric reinforcement
- Environmentally friendly
- Universal use
- Saves time and money

Design	With fabric mesh
Coating weight per m ²	130 g
Length of roll	50 m
Material	Polyethylen/HDPE/PP Polypropylen

Roll width	Area	Number of rolls per pallet	Width	Art. no.	P. Qty.
1.5 m	75 m ²	50 PCS	1.5 m	0681 000 267	75

PE vapour barrier

PE vapour retarder/vapour barrier for use with screed.

Fire protection class E (formerly B2)

Coating weight per m ²	188 g
Length of roll	25 m
Roll width	1 m
Area	100 m ²
Number of rolls per pallet	46 PCS
Material	PE - Polyethylene
Width	4 m

Art. no. 0681 000 165

P. Qty.: 100

This vapour retarder is not stabilised against UV rays. This must be taken into consideration during storage, processing and while in use. When bonding the joints and connections, all grease, stresses and dust must be removed from the adhesive surfaces (e.g. with art. no.0899800880).

For production reasons, deposits such as release agents may be found on the PE vapour retarders.

Vapour retarder WÜTOP® DB 20 renovation 2SK

This vapour retarder can be applied to structures as both a sarking membrane and a freely suspended vapour retarder.

Design	With self-adhesive strips
Coating weight per m ²	170 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene
Width	1.5 m

Art. no. 0681 000 270

P. Qty.: 75

Moisture-variable vapour retarder WÜTOP® Vario SD

2-layer vapour retarder made from moisture-variable polyamide with stabilising PP fleece

For universal use

Saves time and money

Coating weight per m ²	85 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	50 PCS
Width	1.5 m

Art. no. 0681 000 148

P. Qty.: 75

Please refer to the current ZVDH [German Central Association of the Roofing Trade] directives and instructions for laying this product.

Not suitable for new buildings that have not yet dried out. An alternative option for an application of this type is WÜTOP Thermo Vario SD, art. no. 0681000147

Moisture-variable vapour retarder WÜTOP® Thermo Vario SD

Moisture-variable vapour retarder with the advantages of polyester technology

- WÜTOP Thermo Vario SD is a vapour-permeable, moisture-variable and airtight vapour retarder for the refurbishment of old buildings, interior renovations and loft conversions. When combined with WÜTOP® underlay membrane and roof protection films and EURASOL adhesive tapes, it can be used to create modern airtight and windproof structures that fulfil current energy saving regulations.
- Extremely resistant to weathering
- Can be used in roof, wall and floor applications

Coating weight per m ²	100 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	30 PCS
Width	1.5 m

Art. no. 0681 000 147

P. Qty.: 75

DIN EN 13984

Please refer to the current ZVDH [German Central Association of the Roofing Trade] directives and instructions for laying this product.

Connecting membrane Wütop® Anschlussfix 2SK

Self-adhesive connecting membrane for purlins and wood frame construction

- Diversity
- Technology
- Safety
- Saves time and money

Coating weight per m ²	170 g
Length of roll	24 m
Roll width	0.75 m
Area	18 m ²
Number of rolls per pallet	30 PCS
Width	0.75 m

Art. no. 0681 000 149

P. Qty.: 18

Airtight interiors

WÜTOP® DS 100 vapour barrier

WÜTOP DS 100 is a vapour and wind barrier with high sd value

- Prevents heat loss caused by unnecessary airflow.
- Prevents moisture penetration of internal heat insulation and, therefore, the impairment of the insulating effect.
- This vapour barrier is reflective due to the metallic coating on the inside. This boosts the insulating effect and creates a more efficient vapour barrier.
- Due to the embedded mesh fabric, WÜTOP DS 100 is extremely resilient and tear-resistant compared with conventional construction films.

Type description	WÜTOP vapour barrier DS 100
Coating weight per m ²	156 g
Length of roll	50 m
Roll width	1.5 m
Min. air layer thickness equivalent to water-vapour diffusion	100 m
Foil thickness	12 µm
Material	PE - Polyethylene

Art. no. 0681 000 006

P. Qty.: 75

FD Alu 1500SK vapour barrier

The sealing sheet (Sd value ≥ 1500 m) is a high-quality, cold-applied self-adhesive air and vapour barrier that is very quick to process. It consists of an aluminium film combined with an extremely tear-proof mesh to which an acrylic adhesive and a protective film are applied across the entire underside.

The vapour barrier sheet is especially suitable for laying on steel profile sheets/trapezoidal sheets in flat sloping roof areas $>2^\circ$ angle of inclination.

Type description	Vapour retarder, flat roof
Coating weight per m ²	150 g
Length of roll	100 m
Roll width	1.5 m
Min. air layer thickness equivalent to water-vapour diffusion	1500 m

Continuation **FD Alu 1500SK vapour barrier**

Foil thickness	0.2 mm
Material	Aluminium

Art. no. 0838 000 103

P. Qty.: 150

The membrane fulfils the requirement for combustible vapour barriers according to DIN 18234-1 „Structural fire protection of large roofs, exposure to fire from below“ with a required heat value/fire value of < 10,500 kJ/m². According to the Industrial Construction Directive, this applies to roofs over 2500 m² with a supporting deck made from trapezoidal steel profiles.

Joint seal **WÜTOP® Flex**

One-sided, self-adhesive, profiled aluminium roll for durable and secure sealing of typical roof junctions.

- Ideal alternative to sheet metal and lead flashing
- Material adapts perfectly to roof surface
- Paint-coated surface allows optimum adaptation to the respective tile

Length of roll	5 m
Roll width	280 mm
Length	10 m
Number of rolls	2 PCS

Colour	Art. no.	P. Qty.
Black	0681 018 032	10
Brown	0681 018 031	10

Red	0681 018 040	10

Joint seal Dachflex 3D

Three-dimensional Dachflex adhesive strips produced from aluminium (or copper) and butyl for complex connection work on rising building elements such as chimneys and roofs.

- Consists of weather and UV-resistant aluminium foil that has a complete butyl adhesive layer
- Aluminium flanged approx. 5 mm at the edges to avoid injuries during use
- Adheres to almost all surfaces
- Covered with a siliconised plastic film, split into two

Length of roll	5 m
Roll width	280 mm
Length	10 m
Number of rolls	2 PCS

Colour	Art. no.	P. Qty.
Black	0681 018 052	10

Red	0681 018 050	10

Please store product laying flat in a cool, dry location (under 30°C).

Valley sealing strips

For permanent seals between valley seals and roofing tiles

- For permanent seals between valley seals and roofing tiles
- Protects against driving rain and blowing snow

Colour	Black
Length	1000 mm
Width	60 mm
Height	30 mm

Art. no. 0681 004 3

P. Qty.: 200

Outlet vent connection

One part for diameters from 90 mm to 150 mm

Art. no. 0681 001 161

P. Qty.: 30

STAMISOL

Cable conduit connection

For producing cost-effective joint detailing (cable conduit d=15 mm) with Stamisol roof or façade membranes.

Min. diameter	15 mm
Max. diameter	22 mm
Length	160 mm
Width	160 mm

STAMISOL

Art. no. 0681 001 166

P. Qty.: 5/50

Ridge end cap

Ventilated end piece on dry ridge and hip

- Provides the necessary ventilation and enhances the appearance of the ridge.
- Matching ridge end cap for an appealing finish on dry ridge and burrs.

Material	PP - Polypropylene

WÜTOP® ridge and hip roll Uni-Roll

Universal ridge and hip roll for almost all conventional concrete tiles and clay tiles

- UV-stabilised and non-rotting PVC with aluminium sealing strips along sides
- Rounded edges prevent hand injuries
- Extremely flexible and easy to install
- Butyl rubber with excellent adhesive strength
- Ventilation cross-section in line with DIN 4108: approx. 160 cm², sufficient for approx. 16 m rafter length.

Length of roll	10 m
Roll width	300 mm
Number of rolls	2 PCS
Ventilation cross section	160 cm ²

WÜTOP® ridge and hip roll DV ridge

Universal applications for inlet and outlet ventilation of all pitched roof structures with non-flammable centre segment

- The middle, natural/fibreglass mixed fabric is UV-stable (at least 5 years) and non-flammable (flammability rating A2)
- Fire behaviour of aluminium B2 - flame retardant
- The tear-resistant middle section offers a high degree of protection against blown snow, insects and splash water ingress

Roll width	310 mm
Ventilation cross section	195 cm ²
Min./max. processing temperature	5 to 90 °C
Length	20 m

Underlay/roof protection film WÜTOP® 95

Lightweight, pale, vapour-permeable underlay membrane and roof protection film for pitched roofs

- PP top fleece protects the membrane from damage and reduces the risk of slipping
- Fire behaviour EN-13501-1 – class E
- Normally inflammable DIN 4102 – class B2
- Not suitable for slate roofs
- Fulfils the requirements of the German Central Association of the Roofing Trade product data sheet

Design	Without self-adhesive strips
Coating weight per m ²	95 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene

Art. no. 0681 001 015

P. Qty.: 75

DIN EN 13859-1

Underlay membrane and roof protection film Wütop® Trio Plus 2SK

The robust roof protection film in 2SK design.

Durability

A grammage of 195 g/m² and high tear strength make WÜTOP Trio Plus incredibly durable and robust

Technology

Three-layer, polypropylene-based roof protection film with monolithic functional membrane

Safety

PP top fleece reduces the risk of slipping and the membrane inside is protected thanks to its three-layer structure

Cost and time savings

Easy and fast installation thanks to integrated 2SK adhesive strips (single-sided fingerlift).

Especially for slate roofs

Suitable as temporary roofing for slate roofs according to German Central Association of the Roofing Trade

Design	With self-adhesive strips
Coating weight per m ²	195 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene

Art. no. 0681 001 085

P. Qty.: 75

DIN EN 13859-1

Please refer to the current ZVDH [German Central Association of the Roofing Trade] directives and instructions for laying this product

Underlay membrane and roof protection film WÜTOP Trio 2SK

All-round roof protection film

- 3-layer, polypropylene-based roof protection film with monolithic functional membrane
- PP top fleece reduces the risk of slipping and protects the membrane inside thanks to its 3-ply structure
- Easy and fast installation thanks to integrated adhesive strips (SK and 2SK)

Design	With self-adhesive strips
Coating weight per m ²	145 g
Length of roll	50 m
Roll width	1.5 m

Area	75 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene

Art. no. 0681 001 026

P. Qty.: 75

DIN EN 13859-1

- Please refer to the current ZVDH [German Central Association of the Roofing Trade] directives and instructions for laying this product.
- Please refer to the relevant technical data sheet for more information on the use of WÜTOP Trio 2SK as an airtight layer.

Underlay membrane and roof protection film WÜTOP® Trio

All-round roof protection film

- Available in 3 designs (without adhesive strip, with adhesive strip and with two adhesive strips).
- 3-layer, polypropylene-based roof protection film with monolithic functional membrane.
- PP top fleece reduces the risk of slipping and protects the membrane inside thanks to its 3-ply structure.

Design	Without self-adhesive strips
Coating weight per m ²	145 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene

Art. no. 0681 001 001

P. Qty.: 75

DIN EN 13859-1

Please refer to the current German Central Association of the Roofing Trade directives and instructions for laying this product.

Separating layer WÜTOP® Metall SK

WÜTOP Metall SK is a vapour-permeable, elastic and self-adhesive separating layer for non-self-supporting metal cladding.

Safety

- The laminated, approx. 8 mm thick nonwoven top layer reliably protects the membrane against corrosion and significantly reduces annoying drumming caused by rain or hail.
- The sd value of approx. 0.04 allows residual moisture present in the rafters or formwork to be released to the outside in a controlled manner.
- The adhesive strips are used to bond overlaps.

Design	With double-sided self-adhesive strips
Coating weight per m ²	450 g
Length of roll	24 m
Roll width	1.5 m
Area	36 m ²
Material	PP - Polypropylene

Art. no. 0681 001 072

P. Qty.: 36

Please refer to the current German Central Association of the Roofing Trade directives and instructions for laying this product

WÜTOP® underlay membrane and roof protection film

Basic roof protection film for ventilated and non-ventilated pitched roofs

- 3-layer, vapour-permeable, polypropylene roof underlay with a microporous membrane and double-sided adhesive strip
- 3-ply structure protects the internal membrane
- Easy and fast installation thanks to integrated adhesive strips

Design	Without self-adhesive strips
Coating weight per m ²	136 g
Length of roll	50 m
Roll width	3 m
Area	150 m ²
Number of rolls per pallet	20 PCS
Material	PP - Polypropylene

Art. no. 0681 001 087

P. Qty.: 150

DIN EN 13859-1

Windproof in external areas. Suitable for requirements classes 3 - 6 according to the German Central Association of the Roofing Trade

Certified resistance to driving rain

Meets the requirements according to the German Central Association of the Roofing Trade product data sheet for class UDB-A/USB-A

Please refer to the current ZVDH [German Central Association of the Roofing Trade] directives and instructions for laying this product.

Underlay membrane and roof protection film STAMISOL DW

Exceptionally durable membrane for demanding applications and extreme weather conditions on low-gradient pitched roofs $\geq 5^\circ$ or arched roofs

Extremely robust and durable

- Exceptionally long service life under all climatic conditions
- Lasting UV resistance and extremely high resistance to heat and moisture

Compression-resistant and walkable

Suitable for emergency roofing

Can be combined

Regulating

Underlay membrane and roof protection film WÜTOP® Thermo ND Plus

The perforation-proof polyester roof protection film

The WÜTOP Thermo ND Plus is a highly vapour-permeable polyester-based underlay membrane and roof protection film with a special coating. It is laid directly on the heat insulation or formwork of ventilated and non-ventilated pitched roofs.

- Secured against perforation in accordance with ETA-17/0206
Self-seals around nail punctures on pressure-resistant surfaces (tested at the Fraunhofer Institute for Building Physics).
- Safety
Polyester is an extremely weather-resistant material, offers excellent resistance against UV radiation, and is temperature resistant up to 120°C. The special coating is non-slip and can be securely bonded.
- Saves time and money
Self-seals around nail punctures saving huge amounts of time and money. Easy and fast installation thanks to integrated adhesive strips.

European Technical Assessment ETA-17/0206

UDB-A/USB-A

Meets the requirements specified in the German Central Association of the Roofing Trade product data sheet for class UDB-A/USB-A

Perforation-proof in accordance with ETA-17/0206

In accordance with the Technical University of Berlin test certificate and the Fraunhofer Institute for Building Physics test reports no. P-06-186-2015 and P-06-187-2015 (each based on DIN EN 13111; 2001-08), the product is classified as perforation-proof (nail-proof) and resistant to driving rain as defined by these test reports. Note: Both systems were tested for test reports P-6-186-2015 (without nail sealing tape) and P-6-187/2015 (with nail sealing tape). The Wütop Thermo ND Plus showed sufficient resistance to nail punctures. The following construction-related conditions must be met:

- Fasten counter battens (30/50) with min. 3.1 x 90 nails (smooth) or 2.8 x 80 (grooved)
- Install dry counter battens (S10, <20M%)
- No staples in the surface area of the strip; alternatively, these staple points can be sealed afterwards with a suitable adhesive tape

Design	With self-adhesive strips
Coating weight per m ²	230 g

P. Qty.: 75

Please consider the legal instruction at the beginning of this chapter.

Meets the requirements of the German Central Association of the Roofing Trade product data sheet for class UDB-A/USB-A.

Suitable for requirement classes 3 - 6 according to the German Central Association of the Roofing Trade.

Airtight and windproof cuff WÜTOP®

For rapid and permanent sealing of openings

- Powerful-bond, solvent-free adhesive with maximum ageing resistance
- Optimum compensation of component movements and pressure relief on the seal area
- Maximum safety with blower door tests

Guaranteed airtight seal according to DIN 4108-7, OVE guideline R7 and current EnEV.

Moisture resistance	No
Ultraviolet resistance	Max. 6 months
Min. processing temperature	5 °C

Outside corner		75 mm	75 mm	75 mm	0681 000 170	12

Please consider the legal instruction at the beginning of this chapter.

The WÜTOP airtight and windproof collar is ideal for bonding on WÜTOP roof underlay membrane and roof protection films, WÜTOP vapour retarders and vapour barriers and WÜTOP façade membranes and has been tested on these films. For this reason, we recommend using WÜTOP films to achieve optimum results.

The application surface must be dry and free from grease, chips and dust. Porous and absorbent surfaces, such as concrete, plaster, soft particle boards etc. must be pretreated with EURASOL AdhesionPlus or primer spray.

The sleeve must be selected according to the duct dimensions to ensure permanent airtightness and strain relief.

Sleeves are talc-powdered ex works. In the case of deficient sliding properties, please use the talcum powder sachet included and apply to the inner grommet or pipe.

Wütop Fix renovation strip

Art. no. 0681 000 140

P. Qty.: 162

Façade membrane WÜTOP® Thermo Façade 2SK

With self-adhesive edge for wind and rainproof façade constructions. The UV-stabilised façade membrane is suitable for all back-ventilated façade structures with closed and open claddings with an open joint portion of max 40% of the façade surface and clear joint widths of up to 50 mm.

- Windproof and rainproof
- Protects the insulation against driving rain and snow
- Joint proportion up to 40% of the façade area
- Processing temperature +5°C to +50°C

Coating weight per m ²	220 g
Length of roll	50 m
Roll width	1.5 m
Area	75 m ²
Number of rolls per pallet	20 PCS
Material	Polyester fleece

Design	Art. no.	P. Qty.
Without self-adhesive strips	0681 001 061	75
With self-adhesive strips	0681 001 060	75

DIN EN 13859-2

- The applicable standards, technical regulations and application instructions must be observed during application.
- DIN 18516-1 and DIN 1055 parts 1-4 must be adhered to during installation

Façade membrane STAMISOL FA 2Tape

Coloured membrane for façades with decorative joints, an open joint portion of max. 50% of the façade surface and clear joint widths of up to 50 mm.

Robust and durable

Lasting resistance to UV radiation, heat and moisture

Protection

The membrane provides walls with lasting protection from water and can withstand extremely windy conditions

Aesthetically more pleasing

Gives open façade cladding more contrast and depth

Breathable

The membrane prevents the risk of condensation and aids heat insulation

STAMISOL
FA

Design	With self-adhesive strips
Coating weight per m ²	290 g
Length of roll	26 m

Continuation **Façade membrane STAMISOL FA 2Tape**

Roll width	2.5 m
Area	65 m ²
Number of rolls per pallet	40 PCS
Material	Polyester fleece

Art. no. 0681 001 153

P. Qty.: 65

Stamisol roof protection films and façade membranes must only be combined with accessory products from the Stamisol system!

The mechanical properties specified in the product information are mean values with a tolerance of $\pm 10\%$.

Façade membrane STAMISOL FI 2Tape

Black membrane for closed or slightly open façades up to max. 15 mm

Robust and durable

Extremely resistant to UV radiation, heat and moisture

High degree of fire safety

Complies with EN 13501-1

Protection

The membrane provides walls with lasting protection from water and wind

Breathable

The membrane prevents the risk of condensation and aids heat insulation

STAMISOL
FI

Design	With self-adhesive strips
Coating weight per m ²	145 g
Length of roll	40 m
Roll width	2.5 m
Area	100 m ²
Number of rolls per pallet	16 PCS
Material	Polyester fleece

Art. no. 0681 001 102

P. Qty.: 100

Stamisol roof protection films and façade membranes must only be combined with accessory products from the Stamisol system!

The mechanical properties specified in the product information are mean values with a tolerance of $\pm 10\%$.

Façade membrane STAMISOL COLOR

Façade membrane in various colours for aesthetically pleasing sealing of perforated façades up to an open joint portion of max. 70% of the façade surface and clear joint widths of up to 10 cm.

- Robust and durable
- Aesthetic improvement
- Efficient heat insulation

STAMISOL
COLOR

Design	Without self-adhesive strips
Length of roll	26 m
Roll width	2.5 m

The design must meet the „recognised codes of practice“.

Stamisol roof protection films and façade membranes must only be combined with accessory products from the Stamisol system.

Roof underlay strip WÜTOP Full Protection SK

Fully adhesive vapour-permeable water-protection membrane for use in ceilings, walls and roofs

- Suitable for use on ceilings, walls and roofs
- Can remain permanently in the structure

Design	With self-adhesive strips
Coating weight per m ²	230 g
Length of roll	30 m
Roll width	1.5 m

Continuation **Roof underlay strip WÜTOP Full Protection SK**

Area	45 m²
Number of rolls per pallet	20 PCS
Material	Polypropylene fleece

Art. no. 0681 001 103

P. Qty.: 45

Façade membrane Stamisol Safe One

Non-combustible façade membrane in black, for use on façades with decorative joints, an open joint portion of max. 50% of the façade surface and clear joint widths of 50 mm

Non-combustible façade membrane Euro Class A2-s1,d0

Lasting resistance to UV radiation, heat and moisture

The membrane provides walls with lasting protection from water and can withstand extremely windy conditions

STAMISOL

Design	Without self-adhesive strips
Coating weight per m²	310 g
Length of roll	20 m
Roll width	265 cm
Area	53 m²
Number of rolls per pallet	25 PCS
Material	Fibre glass

Art. no. 0681 001 199

P. Qty.: 53

10-year Stamisol warranty

Stamisol façade membranes must only be combined with accessory products from the Stamisol Safe One system.

The mechanical properties specified in the product information are mean values with a tolerance of $\pm 10\%$.

Airtight and windproof cuff WÜTOP® Thermo

For openings in vapour retarders and roofing sheeting with high temperature requirements

- High thermal stability
- Ensures airtight sealing of openings
- Economic processing

Design	1-fold
Colour	White
Backing material	Tyvek®

Ultraviolet resistance	3 months

Vario ridge and hip batten bracket

Installation using all conventional sizes of Ø 6 mm screws (minimum length: 80 mm)

- Continuously height-adjustable, universal ridge and hip batten bracket
- Economically rapid and easy installation and adjustment of ridge/hip battens
- Versatile applications using various screw lengths
- Higher pull-out strength than conventional batten brackets
- Material: high-strength, UV-stabilised and weather-resistant polyamide

Material	PA - Polyamide
----------	----------------

Continuation **Vario ridge and hip batten bracket**

Securing of lath thickness	Art. no.	P. Qty.
24 x 48 upright, 30 x 50 upright	0681 014 40	100
30 x 50 horizontal, 40 x 60 upright	0681 014 60	100

According to ZVDH (German Central Association of the Roofing Trade) guidelines, manufacturers must verify the rated loads of ridge/hip batten brackets. The fasteners used must also be able to absorb a force of 0.6 kN per metre perpendicular to the position of the ridge or hip. When combined with Würth Assy screws, the Vario ridge and hip batten bracket achieves a strength of 0.6 kN per fastening point with a screw-in depth of just 40 mm.

Ridge/hip nail

For fixing ridge and hip battens to the ridge rafter

- Ridge and hip nails are simply hammered in where the rafters form the ridge.
- Quick adjustment by simply hammering in

Material	Steel
Surface	Zinc plated

Length	Width of U-profile	Art. no.	P. Qty.
210 mm	50 mm	0681 013 210	50
210 mm	60 mm	0681 013 211	50
260 mm	50 mm	0681 013 260	50

Valley/hip clip for flat tiles

Universal stainless steel retaining clip for quick installation of cut pantiles in hip and valley areas.

Stainless steel retaining clip (material 1.4310) with integrated 500 mm stainless steel binding wire
Clips can be clipped or hammered on easily for efficient use

Eliminates complex, time-consuming and wasteful drilling

Material	Stainless steel A2, 1.4310
----------	----------------------------

Art. no. 0681 420 100

P. Qty.: 25

Due to the many different roof tile models and different rebate designs, always check the suitability of the retaining clip for the individual tile type using a sample.

Valley/hip clip for head rebate roof tiles

Universal stainless steel retaining clip for quick installation of cut pantiles in hip and valley areas

Stainless steel retaining clip (material 1.4310) with integrated stainless steel wire

Clips are easily clipped or hammered on for efficient use

Equipped with 500 mm stainless-steel binding wire

Material	Stainless steel A2, 1.4310
----------	----------------------------

Art. no. 0681 420 110

P. Qty.: 25

Due to the many different roof tile models and different rebate designs, always check the suitability of the retaining clip for the individual tile type using a sample.

Pigeon deterrent spike

Base material: UV-resistant plastic

- The special pigeon deterrent spikes efficiently prevent birds from landing on window sills, cornices, terraces, roofs, beams, projections and many others.
- The modules consist of a UV-resistant polycarbonate base plate and spring rods made from rustproof V4A stainless steel. The various modules can be combined with each other as desired.
- Selected materials
- Time factor
- Predetermined breaking points

Module length	33 cm
Material of the wire	Stainless steel
Material	Polycarbonate - PC

Number of rows	Min./max. protected area	Art. no.	P. Qty.
2 PCS	6-10 cm	0681 020 002	20

Nail and screw sealing tape

Self-adhesive tape for sealing nail and screw holes

- Made from closed-cell and medium-hard foam
- Available in two versions

Material	PVC - Polyvinyl chloride
Adhesive base	Acrylic
Colour	Black
Width	70 mm
Total thickness	4.5 mm
Length	15 m

STAMISOL

Art. no. 0875 850 172

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Nail and screw sealing

For increased requirements

Adhesive STAMCOLL AS

Adhesive and sealant for bonding Stamisol overlaps and connecting to roofs and façades.

- Very good adhesion without primer on many substrates – even under water load
- Suitable for indoor and outdoor use
- Fast curing even with high layer thicknesses

Contents	310 ml
Chemical basis	MS hybrid polymer
Colour	Black
Min./max. curing time	0-0 s
Min./max. processing temperature	5 to 40 °C
Min./max. temperature resistance	-40 to +90 °C
Shelf life from production	9 Month

STAMISOL

Art. no. 0893 700 130

P. Qty.: 1/20

Please consider the legal instruction at the beginning of this chapter.

Before using the adhesive/sealant, the user should ensure that the materials in the contact area (solid, liquid and gaseous) are compatible with the adhesive/sealant and do not damage or change them (for example discolour). For construction materials that are subsequently processed in the area of the adhesive/sealant, the user should check in advance that their ingredients or vapours cannot lead to any impairments or changes (e.g. discolouration) of the adhesive/sealant. Where appropriate, the user should consult the respective manufacturer of the construction materials.

Adhesive STAMCOLL N55

Adhesive for bonding Stamisol overlaps and connecting to roofs and façades.

For use with Stamisol ECO, DW, PACK 500, FI, FA, Effect, Color

Chemical basis	Nitrile natural rubber
Colour	Transparent
Min./max. curing time	3-7 d
Min./max. processing temperature	5 to 35 °C
Min./max. temperature resistance	-40 to 80 °C
Shelf life from production	12 Month

European Technical Approval ETA-09/0021

Nail edge clearances in the post must be observed in line with EC5 when designing connections with biaxial loads!

The diameter of bolts/screws may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Joist hanger 2.0 mm

Two-piece flexible joist hanger for intermediate size beams and/or for renovation work with varying wood widths. Wood/wood, wood/concrete or wood/steel connection options for special structures and renovation work. Ideal for subsequent reinforcement of existing structures with tapered cross-sections.

- Variable width adjustment for flexibility
- Wings angled outwards
- Sheet metal hot-dip galvanised on both sides (S250GD +Z275), approx. 20 µm thickness 2.0 mm in line with EN 10326:2004

Please consider the legal instruction at the beginning of this chapter.

ETA-09/0105

The secondary beam can be mounted on the joist bracket attached to the main beam after the first dowel pin has been driven in to the uppermost hole in the secondary beam. To do this, the secondary beam with the uppermost dowel pin mounted in the slot area is hooked into the blade area of the joist bracket from above.

The secondary beam should be approx. 40 mm taller than the joist bracket. If the bracket is 90 mm in height, a secondary beam 100 mm in height can be used.

The diameter of the dowel pin may only be max. 0.5 mm (d = 8 mm) or 1.0 mm (d = 12 mm) smaller than the diameter of the hole.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Flat steel concrete anchor

Flat steel concrete anchors are ideal for simple tensile connections of pillars, posts and thresholds in timber structures. The tension anchor is embedded in concrete in the substrate.

- Versatile applications for simple tensile connections
- Easy height adjustment on uneven substrates
- Sheet metal hot-dip galvanised on both sides (S250GD + Z275 [approx. 20 µm]), thickness 4 mm in line with EN 10346:2009
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Please consider the legal instruction at the beginning of this chapter.

European Technical Approval ETA 14/0274

Distortion-free load application is expected.

The holes should be nailed starting from the end of the flat steel concrete anchor.

At least 4 should be used based on the structural analysis. The nails used must be of a diameter that fits the bore holes in the flat steel concrete anchor.

Rough edges are not permitted. The entire surface of the flat steel concrete anchor must lie against the wood.

The structural components must be thicker than the penetration depth of the nails.

The respective basic conditions of the applicable anchor approval must be observed

Steel failure under bending stress is decisive for flat steel concrete anchors that are fixed into concrete using 43 mm x 4 mm metal dowel pins and washers in line with EN ISO 7094.

Steel failure under tensile stress is decisive for embedded flat steel concrete anchors.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Concrete angle bracket Type P

Angle connector type P can be used to attach wood components, windows and façade elements to concrete. Installation tolerances can be compensated for using the slot in the base.

- Robust, solid design
- Sheet metal hot-dip galvanised on both sides (S235 + Z275 (approx. 20 µm))
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Diameter of hole (Ø)	14 mm

European Technical Approval ETA-09/217

The diameter of bolts/screws/anchors may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

EH anchor

Iron-wood anchors are used for attaching/securing against wind suction of wooden beams, battens or purlins on steel T-beams. They must be attached on both sides as position retainers to prevent disengagement and nailed in place beginning from the steel joists.

- Tensile strength $R_m \geq 330 \text{ N/mm}^2$
- Breaking elongation $A_{80} \geq 19\%$
- Sheet metal hot-dip galvanised on both sides (S250GD + Z275 (approx. 20 µm))
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Thickness	4 mm

CE marking in line with EN 14545:2009-02

Continuation **EH anchor**

The minimum timber width depends on the selected fasteners. Nail, screw and bolt edge clearance must be adhered to in line with EC5 or the corresponding approval. Diameter of bolts/screws may only be max. 2 mm smaller than the diameter of the hole.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Heavy-duty flat connector

Robust flat connector for narrow wood/wood joint connections for transferring high loads (e.g. timber frame or truss connections)

- High load-bearing capacity
- Narrow design
- Tensile strength $R_m \geq 295 \text{ N/mm}^2$
- Breaking elongation $A_{80} \geq 22\%$
- Sheet metal hot-dip galvanised on both sides (DX51D + Z275 [approx. 20 μm]) in line with EN 10346:2009
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

CE marking in line with EN 14545:2009-02

Can be used to secure against uplift loads in combination with threaded rods, bolts or ASSY 3.0 Combi screws. 2 perforated plates and identical wood widths must be used for each connection.

Allowance must be made for eccentricity in one-sided connections.

Nail edge clearances and bolt intervals must be observed in line with EC5.

The nails must be arranged symmetrically with the axis of the centrally applied force.

Diameter of bolts, screws and dowel pins may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Concealed beam connector

This innovative concealed beam connector with high load-bearing capacity and low installation depth is ideal for concealed wood/wood connections (visible areas) of secondary beams to main beams or posts

- High load-bearing capacity coupled with low installation depth (14 mm)
- Conical, swallow tail-style geometry for self-centring and gap-free contact pressure
- A high level of pre-fabrication can be conducted in the workshop, quick and easy on-site installation

Installation depth	14 mm
Diameter of hole	5.5 mm
Approval	ETA-09/0301
Thickness	3 mm
Material	Steel
Material designation	S250GD

ETA-09/0301

It is advisable to use the corresponding milling template set for easy and quick pre-assembly.

Screw into grain-cut timber at an angle of 35°. The screw angle is determined by the shape of the tabs.

The main beam's transverse strength must be verified separately. If necessary, the joint should be made using ASSY plus VG full-thread screws. For loads perpendicular to the secondary beam axis, the transverse strength must also be verified for the secondary beam. If the main beam is subject to torsion, it must be secured against twisting.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Comb nail / anchor nail

Galvanised steel, blue coated (A2K)

The tapered section below the nail head ensures that the nail fills the hole in the wood connector ensuring an exact transfer of force.

Diameter	4 mm
Head diameter	8 mm

121 mm	121 x 120 mm	0681 121 000	5
141 mm	141 x 120 mm	0681 141 000	5

European Technical Approval ETA-13/1063

Diameter of bolts/screws may only be max. 1 mm smaller than the diameter of the hole.

Secure anchorage of the post support bracket in the substrate or ground must be verified separately.

Post support bracket BD-D/TZN

One-piece post anchor suitable for concrete with pin mount and 250 or 400 mm corrugated dowel. Ideal for lightweight structures with higher aesthetic requirements.

- Concealed inner pin mount
- Suitable for concrete, adjustable height compensation using long corrugated dowel
- Improved structural wood preservation
- Pin material: Steel, d = 24 mm
- Corrugated dowel material: reinforcing steel, d = 20 mm
- Surface: completely hot-dip galvanised
- Utilisation class: application in utilisation classes 1, 2 and 3

Holder plate dimensions	100 x 100 x 8 mm
Length of rowlock (wood)	120 mm
Diameter of rowlock (wood)	24 mm
Diameter of hole	11 mm

Continuation **Post support bracket BD-D/TZN**

Required steel dowels	1 piece, diameter 10 mm
Suitable for min. post cross-section	100 x 100 mm
Diameter of rowlock (concrete)	20 mm

Length	Length of rowlock (concrete)	Art. no.	P. Qty.
378 mm	250 mm	0681 491 025	6
528 mm	400 mm	0681 491 040	6

CE marking in line with EN 1090 pending.

Diameter of dowel pin/screws may only be max. 1 mm smaller than the diameter of the hole.

Post support bracket D-S-H/TZN

Robust, height-adjustable post support bracket with anchor bolts and blade mount. Ideal for medium- to heavy-duty structures in outdoor areas and high aesthetic requirements.

- Height-adjustable post support bracket with dowels and concealed blade mount for extremely high aesthetic requirements.
- Height adjustment range 110–160 mm (also in installed state)
- Long service life through additional hot-dip galvanisation
- Bracket material: steel
- Surface: completely hot-dip galvanised
- Utilisation class: application in utilisation classes 1, 2 and 3

Width of bracket (A)	100 mm
Strut dimensions	70 x 110 x 8 mm
Holder plate dimensions	100 x 80 x 8 mm
Unextended height	110 mm
Min./max. height (H)	110-160 mm
Required steel dowels	4 piece, diameter 8 mm
Suitable for min. post cross-section	100 x 80 mm
Baseplate format	70 x 160 x 8 mm

Art. no. 0681 490 160

P. Qty.: 10

CE marking in line with EN 1090 pending

Diameter of dowel pin may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:

Load tables and detailed processing instructions can be found on the service page [www.wuerth.de/holzverbinder](http://eshop.wuerth.de/holzverbinder).

Post support bracket D-G-H/TZN

Robust, height-adjustable post support bracket with anchor bolts and adjustable fork width. Ideal for structures with high load requirements.

- Adjustable height (135 to 200 mm) and width (80 to 160 mm)
- Robust design for heavy loads
- Bracket material: steel S 235 JR in line with EN 10025:2004
- Surface: completely hot-dip galvanised in line with DIN EN 1461, coat thickness 55 µm
- Utilisation class: application in utilisation classes 1, 2 and 3.

Min./max. width of bracket	80-160 mm
Unextended height	110 mm
Min./max. height (H)	110-155 mm
Suitable for min. post cross-section	80 x 110 mm
Baseplate format	100 x 180 x 6 mm

Art. no. 0681 480 120

P. Qty.: 8

European Technical Approval ETA-13/1063

Diameter of screws and bolts may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Post support bracket BD-S/TZN with corrugated dowel

One-piece post anchor suitable for concrete with blade mount (T shape) and 250 mm grooved dowel pin. For lightweight structures such as shelters or carports.

- Suitable for concrete, adjustable height compensation with 250 mm corrugated dowel
- Concealed post connection with inner blade mount
- Long service life through hot-dip galvanisation
- Blade material: S 235 JR in line with EN 10025:2004
- Corrugated dowel material: B 500 SP
- Surface: completely hot-dip galvanised, coat layer approx. 55 µm in line with DIN EN 1461
- Utilisation class: application in utilisation classes 1, 2 and 3

Strut dimensions	70 x 110 x 8 mm
Holder plate dimensions	80 x 100 x 8 mm
Length	368 mm
Height	250 mm
Required steel dowels	4 piece, diameter 10 mm
Suitable for min. post cross-section	100 x 80 mm
Length of rowlock (concrete)	250 mm
Diameter of rowlock (concrete)	20 mm

Continuation **Post support bracket BD-S/TZN with corrugated dowel**

Art. no. 0681 080 110

P. Qty.: 10

European Technical Approval ETA-13/1063

Diameter of bolt/dowel pin may only be max. 1 mm smaller than the diameter of the hole.

Post support bracket BP-S/TZN

One-piece post anchor suitable for concrete with blade mount (T shape) and 300 mm tubular dowel pin with pressure plate for medium-duty structures with higher splash protection requirements such as carports, balcony posts.

- Concealed post connection with inner blade mount
- High load-bearing capacity with large 60 x 60 x 4 mm pressure plate
- Large height compensation adjustment range and long support length with 3.25 mm thick 300 x 42 mm long tubular dowel pin and pressure plate
- Long service life through additional hot-dip galvanisation
- Blade material: steel S 235 JR in line with EN 10025:2004
- Surface: completely hot-dip galvanised, coat layer approx. 55 µm in line with DIN EN 1461
- Utilisation class: application in utilisation classes 1, 2 and 3

Strut dimensions	70 x 110 x 8 mm
Holder plate dimensions	100 x 80 x 8 mm
Length	410 mm
Diameter of hole	9 mm
Required steel dowels	4 piece, diameter 8 mm
Suitable for min. post cross-section	100 x 80 mm
Baseplate format	70 x 70 x 5 mm
Length of rowlock (concrete)	300 mm
Diameter of rowlock (concrete)	42 mm

Art. no. 0681 070 110

P. Qty.: 10

CE marking in line with EN 1090 pending.

Diameter of bolt/dowel pin may only be max. 1 mm smaller than the diameter of the hole.

Post support bracket BP-H/TZN

Extra-robust, one-piece post support bracket with fixed H-shaped mount. For embedding in concrete. Ideal for heavy-duty structures.

- High corrosion protection and steel bonding with circumferential 5 mm welded seam
- Robust design, 6 mm thick
- Material: steel S 235 JR in line with EN 10025:2004
- Surface: completely hot-dip galvanised, coat layer approx. 55 µm in line with DIN EN 1461
- Utilisation class: application in utilisation classes 1, 2 and 3

Height	600 mm
Diameter of hole	11 mm

141 mm	141 x 60 x 6 mm	141 x 100 mm	141 x 60 x 6 mm	0681 488 141	1

European Technical Approval ETA-13/1063

Diameter of dowel pin/screws may only be max. 1 mm smaller than the diameter of the hole.

Secure anchorage of the post support bracket in the substrate or ground must be verified separately.

Post support bracket D-F/TZN

Robust post support bracket with anchor bolts and flat carrier plate mount. Ideal for heavy-duty structures with high aesthetic requirements and improved wood preservation.

- Concealed post bracket mount with improved wood preservation
- Anchor bolt with a fixed height of 100 mm
- Robust 48 mm thickness pressure pipe and large base plate
- Long service life through additional hot-dip galvanisation
- Material: steel
- Surface: completely hot-dip galvanised
- Utilisation class: application in utilisation classes 1, 2 and 3

Holder plate dimensions	100 x 100 x 6 mm
Height	100 mm
Diameter of hole	13 mm
Suitable for min. post cross-section	100 x 100 mm
Baseplate format	150 x 150 x 5 mm

Continuation **Post support bracket D-F/TZN**

Art. no. 0681 550 150

P. Qty.: 10

CE marking in line with EN 1090 pending.

Diameter of screw dowel pin may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Post support bracket BP-D-H/TZN

Extra-robust and height-adjustable post support bracket with blade mount. For embedding in concrete. Pin mount.

- Ideal for heavy-duty structures with high aesthetic requirements and/or high ground clearance for improved wood preservation.
- Height adjustable in installed state
- Extra-long, robust 48 mm tubular dowel pin (base height 400 mm) and large pressure plate
- Concealed post connection with inner dowel mount
- For embedding in concrete
- Long service life through additional hot-dip galvanisation
- Material: steel
- Surface: completely hot-dip galvanised
- Utilisation class: application in utilisation classes 1, 2 and 3

Holder plate dimensions	100 x 100 x 8 mm
Length of rowlock (wood)	120 mm
Diameter of rowlock (wood)	24 mm
Unextended height	400 mm
Diameter of hole	11 mm
Required steel dowels	1 piece, diameter 10 mm
Suitable for min. post cross-section	100 x 100 mm
Baseplate format	70 x 70 x 4 mm
Length of rowlock (concrete)	370 mm
Diameter of rowlock (concrete)	48 mm

Art. no. 0681 491 400

P. Qty.: 6

CE marking in line with EN 1090 pending.

Diameter of dowel pin may only be max. 1 mm smaller than the diameter of the hole.

Secure anchorage of the post support bracket in the substrate or ground must be verified separately.

Post support bracket D-D-H/TZN

Solid, height-adjustable post support bracket with anchor bolts and pin mount. Ideal for medium to heavy structures in outdoor areas with high aesthetic requirements

- Height-adjustable post support bracket with concealed pin mount for high aesthetic requirements
- Height adjustment range 130–200 mm or 180–250 mm (also in installed state)
- Rotating carrier plate and solid construction
- Long service life through additional hot-dip galvanisation
- Bracket material: steel
- Surface: completely hot-dip galvanised
- Utilisation class: application in utilisation classes 1, 2 and 3

Holder plate dimensions	100 x 100 x 8 mm
Length of rowlock (wood)	120 mm
Diameter of rowlock (wood)	24 mm
Required steel dowels	1 piece, diameter 10 mm
Baseplate format	100 x 180 x 5 mm

Unextended height	Min./max. height (H)	Art. no.	P. Qty.
130 mm	130-200 mm	0681 491 130	6
180 mm	180-250 mm	0681 491 180	6

Please consider the legal instruction at the beginning of this chapter.

CE marking in line with EN 1090 pending

Diameter of screws/dowel pins may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Post support bracket D-D-H/A2K

Robust, height-adjustable post support bracket with anchor bolts and pin mount. Ideal for medium-duty structures in dry areas and extremely high aesthetic requirements.

- Height-adjustable post support bracket (min. 130 x 130 mm) with concealed pin mount and cover sleeve for base thread for extremely high aesthetic requirements
- Height adjustment range 140 mm to 200 mm (also in installed state)
- Thread with cover sleeve for elegant appearance
- Bracket material: Steel
- Surface: A2K, blue passivated
- Utilisation class: Application in utilisation class 1

Holder plate dimensions	100 x 100 x 8 mm
Length of rowlock (wood)	120 mm
Diameter of rowlock (wood)	24 mm
Unextended height	140 mm

Continuation **Post support bracket D-D-H/A2K**

Min./max. height (H)	140-200 mm
Required steel dowels	1 piece, diameter 10 mm
Baseplate format	100 x 160 x 8 mm

Art. no. 0681 491 140

P. Qty.: 6

Please consider the legal instruction at the beginning of this chapter.

CE marking in line with EN 1090 pending

Diameter of screw may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Post support bracket D-F-H/R3R

Robust, height-adjustable post support bracket with anchor bolts and flat carrier plate mount

- Ideal for heavy structures with dark timbers in dry areas with extremely high aesthetic requirements.
- Concealed post support bracket with carrier plate mount and cover sleeve for base thread for extremely high aesthetic requirements
- Height adjustment range 145 mm to 210 mm (also in installed state)
- High-quality, dark zinc-iron coat with high resistance to ageing and weather
- Bracket material: steel S 235 JR in line with EN 10025-2:2005-04
- Base material: steel S195T in line with EN 10255:2007
- Surface: high-quality zinc-iron coat (R3R); coat thickness 8 µm
- Utilisation class: application in utilisation classes 1 and 2

Holder plate dimensions	80 x 80 x 6 mm
Unextended height	135 mm
Min./max. height (H)	135-200 mm
Suitable for min. post cross-section	130 x 130 mm
Baseplate format	160 x 80 x 6 mm

Art. no. 0681 492 001

P. Qty.: 6

European technical approval ETA 13/0026

ETA 13/0029 specifications must be observed.

Diameter of bolt may only be max. 1 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Post support bracket D-U/TZN

Simple post support bracket with anchor bolts and fixed fork width. Ideal for non-load-bearing secondary structures in outdoor areas.

- Anchor bolt
- Bracket material: steel
- Surface: completely hot-dip galvanised
- Application in utilisation classes 1, 2 and 3

Height	200 mm
--------	--------

Width of bracket (A)	Baseplate format	Art. no.	P. Qty.
71 mm	151 x 60 x 6 mm	0681 482 071	10

121 mm	201 x 60 x 6 mm	0681 482 121	10

Please consider the legal instruction at the beginning of this chapter.

Diameter of screw may only be max. 1 mm smaller than the diameter of the hole.

Post support bracket D-G-H/R3R

Robust, height-adjustable post support bracket with anchor bolts and adjustable fork width. Ideal for medium- to heavy-duty structures with dark timbers in dry areas with extremely high aesthetic requirements.

- Post support bracket with width-adjustable yoke connection and cover sleeve for base thread for extremely high aesthetic requirements
- Height can be adjusted even when in an installed condition
- Thread with cover sleeve for elegant appearance
- High-quality dark zinc-iron coating with high resistance to ageing and weathering
- Carrier material: Steel S 235 JR in line with EN 10025-2:2005-04
- Base material: Steel S195T in line with EN 10255:2007
- Surface: High-quality zinc-iron coat (R3R); coat thickness 8 µm
- Utilisation class: application in utilisation classes 1 and 2

Min./max. width of bracket	70-170 mm
Min./max. height (H)	135-200 mm
Suitable for min. post cross-section	80 x 140 mm, 80 x 160 mm
Baseplate format	160 x 80 x 6 mm

Art. no. 0681 492 002

P. Qty.: 6

European technical approval ETA 13/0026

Continuation **Post support bracket D-G-H/R3R**

Profile anchor

For attaching/securing against wind suction of wooden beams, battens or purlins to profile rails (e.g. Halfen rails)

- Tensile strength $R_m \geq 330 \text{ N/mm}^2$
- Breaking elongation $A_{80} \geq 19\%$
- Sheet metal hot-dip galvanised on both sides (S250GD + Z275 [approx. 20 μm])
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Height x width (H x B)	Thickness	Rail type	Number of D 5 mm holes	Number of D 13 mm holes	Art. no.	P. Qty.
108 x 35 mm	3 mm	28/15	6 PCS		0681 108 35	100

159 x 35 mm	4 mm	38/17 (40/42)	8 PCS	1 PCS	0681 159 35	50
198 x 35 mm	3 mm	28/15	15 PCS		0681 198 35	50

CE marking in line with EN 14545:2009-02

Attach on both sides. If arranged on one side only, a reduction in permissible load must be expected unless the beam is secured against twisting.

The minimum timber width depends on the selected fasteners. It should be at least 80 mm when using nails with a standard length of 40 mm. Nails should be distributed across the entire surface. Nail and bolt edge clearance must be adhered to in line with EC5 or the corresponding approval. Diameter of bolt/screw may only be max. 2 mm smaller than the diameter of the hole.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Rafter nail

Self-hardening, galvanised, blue coated (A2K)

High transfer of shear force
High extraction values

For all nail lengths with the same insertion depth thanks to uniform 80 mm barbed hook thread

Labelled heads

The lengths are indicated on the heads so that the nail length can be checked after insertion

Shaft diameter (dn)	6 mm
Length of barbed thread (l1)	80 mm

Continuation **Rafter nail**

Diameter (d1)	6.5 mm

CE marking in line with EN 14592

Install dowel pin flush with the timber surface. The hole in the wood must be no larger than the bar dowel diameter.

The inner sheet steel element in sheet steel to wood connections should be at least 3 mm thick as the minimum edge distances are determined exclusively from the edge distances in the wooden component from this thickness upwards.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Chair and box angle bracket

Ideal for non-structural wood to wood connections.

Countersunk bores on either side for neat head connections.

- Holes countersunk and offset on either side for optimised mounting
- For arm lengths up to 75 mm: 2 bore holes
- For arm lengths from 90 mm: 3 bore holes
- Sheet steel galvanised on both sides (St37 + A2K)
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Limb length x limb length 2	Width of side	Thickness	Number of holes in sub-carrier nJ + main carrier nH	Diameter of hole	Art. no.	P. Qty.

Wind brace band WZ

Fir diagonal bracing of roof and wall structures (as tie bar for wood to wood connections)

- Deeper embedding of fastener in wooden substrate for higher bearing loads
- 25% lower weight for easier installation
- Patented edge shaping and high-quality steel for higher tensile strength
- Sheet metal hot-dip galvanised on both sides (S350DG + Z275MAC (approx. 275 g both sides)) in line with EN 10346:2009-07, thickness 1.5 mm
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

CE marking in line with EN 14545:2009-02

Angle connector Type B1

Solid 3 mm angle connector for timber structures. For high-quality connections in load-bearing wood/wood or wood/concrete structures.

- Minimal misalignment between wooden structure and concrete anchor
- Low bulk, slim design
- Sheet metal hot-dip galvanised on both sides (DX51D + Z275 [approx. 20 µm]), thickness 3.0 mm in line with EN 10327:2004
- Application in utilisation classes 1 and 2 in line with EN 1995:2013
- It is advisable to use reinforced angle connectors or tension anchors for more demanding requirements

Width x height x depth	40 x 160 x 40 mm
Thickness	3 mm
Design	Without bar
Number of D 5 mm holes in sub-carrier nJ + main carrier nH	12 + 4 PCS
Number of D 13 mm holes in subcarrier nJ/main carrier nH	2 + 1 PCS
Material	Steel
Surface	Hot dip galvanized

Art. no. 0681 050 160

P. Qty.: 50

European technical approval ETA-09/216

The diameter of bolts/screws/anchors may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Angle connector type B2

Short, solid 3 mm angle connector for timber structures. For high-quality connections in load-bearing wood/wood or wood/concrete structures. It is advisable to use rib-reinforced angle connectors for more demanding requirements.

- Minimal misalignment between wooden structure and concrete anchor
- Low bulk, slim design
- Sheet metal hot-dip galvanised on both sides (DX51D + Z275 [approx. 20 µm]) in line with EN 10327:2004
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Width x height x depth	40 x 90 x 42 mm
Thickness	3 mm
Design	Without bar

Continuation **Angle connector type B2**

Number of D 5 mm holes in sub-carrier nJ + main carrier nH	8 + 4 PCS
Number of D 13 mm holes in subcarrier nJ/main carrier nH	2 + 1 PCS
Material	Steel
Surface	Hot dip galvanized

Art. no. 0681 035 90

P. Qty.: 50

Please consider the legal instruction at the beginning of this chapter.

ETA-09/216

The diameter of bolts/screws/anchors may only be max. 2 mm smaller than the diameter of the hole. The respective basic conditions of the applicable anchor approval must be observed.

Angle connector type HS

For high-quality load-bearing wood/wood or wood/concrete connections (it is advisable to use a beaded type for higher load transfers). Solid 3 mm type for universal use in timber construction.

- Robust design, versatile applications
- Sheet metal hot-dip galvanised on both sides (DX51D + Z275 [approx. 20 µm]), 3 mm thick in line with EN 10327:2004
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Thickness	3 mm
Material	Steel
Surface	Hot dip galvanized

Please consider the legal instruction at the beginning of this chapter.

European Technical Approval ETA 09/0133

The comb/ribbed nails should be driven in as close to the deflection curve in the load-bearing joist as possible. This also applies to the bolts used if angle connectors are used to attach wood to e.g. concrete.

The diameter of bolts/screws/anchors may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:
 Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Angle connector Type A

The angle connector A without reinforcement rib is ideal for high-quality load-bearing wood/wood connections in timber construction. Universally suitable for standard connections such as intersecting timbers.

- Sheet metal hot-dip galvanised on both sides (DX51D + Z275 [approx. 20 µm]) in line with EN 10327:2004
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Design	Without bar

European Technical Approval ETA-08/0183

The transverse load of the connected timbers must be observed and verified where necessary. Transverse reinforcement can be added using ASSY plus VG full-thread screws. The respective basic conditions of ETA08/0183 must be observed

Angle connector Type V slot

Special reinforced angle connector for load-bearing wood/wood and wood/concrete joints for base anchorage in timber structures. The slot in the base plate enables optimum adjustment during construction.

- Very high load-bearing capacities
- Versatile applications
- Sheet metal hot-dip galvanised on both sides (D11 + Z275) in line with EN 10111:1998, thickness 4 mm with subsequent thermal hot-dip galvanisation (55µm)
- Application in utilisation classes 1, 2 and 3 in line with EN 1995:2013

Thickness	4 mm

90 x 105 x 105 mm	3 mm	14 + 10 PCS	1 + 3 PCS	0681 100 990	25

Angle connector Type A, 1.5 mm

With reinforcement rib, ideal for high-quality load-bearing wood/wood, wood/steel and wood/concrete connections in timber construction. Universally used for standard connections such as intersecting timbers.

- Higher load-bearing capacities in comparison to standard angle with greater sheet thickness through reinforcing edge embossing
- Environmentally friendly and resource conserving thanks to high material savings

Thickness	1.5 mm
Design	With bar
Material	Aluzinc structural steel, 1.0242
Surface	Hot dip galvanized

Width x height x depth	Number of D 5 mm holes in subcarrier nJ + main carrier nH	Number of D 11 mm holes in subcarrier nJ + main carrier nH	Number of D 13 mm holes in subcarrier nJ/ main carrier nH	Art. no.	P. Qty.

90 x 105 x 105 mm	16 + 10 PCS		1 + 3 PCS	5390 202 105	25

European Technical Approval ETA-08/0183

Angle connector type A 1.5 mm can be fully nailed or attached with partial nailing. The nail or screw pattern for partial or full nailing must correspond to the specifications of ETA-08/0183

Suitable fasteners:

- Comb/ribbed nail in line with EN 14592: 4.0 x 40 mm or 4.0 x 60 mm
- ASSY 3.0 combination screw in line with ETA 11/0190: d = 10 or 12 mm
- Bolts and metal anchors according to manufacturer specification: d = 10 or 12 mm
- Recommended dowels for anchoring in concrete: W-BS; W-FAZ; W-VIZ; WIT-VM 250; WIT-UH 300

For edge spacings of fasteners parallel and vertical to the fibres, the regulations according to EN1995-1-1, Section 8.3.1.2, Table 8.2 must be applied unless specified otherwise

The transverse load of the connected timbers must be observed and verified if applicable. Transverse reinforcement can be added using ASSY plus VG full-thread screws.

Diameter of bolt/screw/metal anchor may only be max. 2 mm smaller than the diameter of the hole.

The respective basic conditions of the applicable anchor approval must be observed.

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Tension anchor HTA

Single-piece or two-piece, high-load-bearing tension anchor system for anchoring the base of wood elements in wood, steel or concrete substructures.

- Extremely high load-bearing capacities
- Compact design with small base plate for confined spaces
- Indirect mounting (max. 26 mm) via an intermediate layer (e.g. OSB)
- Extra-long back panel for optimum placement of the required number of screws/nails whilst complying with the requisite edge clearance on the wooden frame
- Sheet metal 12-µm hot-dip galvanised on both sides (S355 MC + Fe Zn 12c) in line with EN 10025-2:2004 3.0 mm in thickness
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Thickness	3 mm

CE labelling as per European Technical Approval ETA-14/0274

Dowel mounting: The respective basic conditions of the applicable anchor approval must be observed.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Tension anchor V plus

Single-piece, high-load carrying tension anchor system for anchoring bases in wood, steel or concrete substructures.

- Extremely high load-carrying capacities
- Large base plate for optimised force initiation into the floor
- Indirect mounting (max. 26 mm) via an intermediate layer (e.g. OSB)
- Extra-long back panel for optimum placing of the number of screws/nails required, while complying with the requisite edging on the wooden stand
- Sheet metal hot-dip galvanised on both sides (DD11+ Z 275) in line with EN 10025-2:2004 3.0 or 4.0 mm in thickness
- Application in utilisation classes 1 and 2 in line with EN 1995:2013

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Double-sided tooth plate connector Type C1

Double-sided tooth plate connectors (type C1) are used for wood-wood connections (softwood) in combination with bolts or wood screws to absorb shear forces. The bolts or screws subject to load absorb the clamping and tensile forces in the bolt axis.

- In line with DIN EN 912:2011-09
- 2 nail holes, d = 3.5 mm
- Material: St 1203 or DC 01 + C390 steel in line with DIN EN 10139
- Surface: Sendzimir galvanised
- Application in utilisation classes 1 and 2

Type	C1
Material	Sheet steel
Surface	Hot dip galvanized

Nominal diameter	Diameter of hole	Art. no.	P. Qty.
50 mm	17 mm	0451 021 50	200
62 mm	21 mm	0451 021 62	200
75 mm	26 mm	0451 021 75	100

CE marking in line with EN 912

Transverse load in the compressed surfaces should not be higher than 2.5 N/mm² for solid wood or 3 N/mm² for laminated wood. Alternatively, double-shear connections can also be made using ASSY plus full-thread screws in combination with wheel head screws.

Single-sided tooth plate connector Type C2

Single-sided tooth plate connectors (type C2) are used for metal-wood or wood-wood connections (softwood) in combination with bolts or wood screws to absorb shear forces. The bolts or screws subject to load absorb the clamping and tensile forces in the bolt axis.

- In line with DIN EN 912:2011-09
- 2 nail holes, d = 3.5 mm
- Material: St 1203 or DC 01 + C390 steel in line with DIN EN 10139
- Surface: Sendzimir galvanised
- Application in utilisation classes 1 and 2

Type	C2
Material	Sheet steel
Surface	Hot dip galvanized

Nominal diameter	Diameter of hole	Art. no.	P. Qty.
50 mm	12.4 mm	0451 011 50	300
62 mm	12.4 mm	0451 011 62	100
75 mm	16.4 mm	0451 011 75	100

CE marking in line with EN 912 pending.

Transverse load in the compressed surfaces should not be higher than 2.5 N/mm² for solid wood or 3 N/mm² for laminated wood.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Single-sided tooth plate connector Type C11

Single-sided tooth plate connectors (type C11) are used for metal-wood or wood-wood connections (softwood) in combination with bolts or wood screws to absorb shear forces. The bolts or screws subject to load absorb the clamping and tensile forces in the bolt axis.

- In line with DIN EN 912:2011-09
- Material: Malleable iron EN-GJMB-350-10 in line with DIN EN 1562
- Surface: Galvanised, A4K
- Application in utilisation classes 1 and 2

Type	C11
Material	Malleable cast iron
Surface	Zinc plated

Continuation **Single-sided tooth plate connector Type C11**

Nominal diameter	Diameter of hole	Art. no.	P. Qty.
50 mm	12.5 mm	0451 031 50	50
65 mm	16.5 mm	0451 031 65	50
80 mm	20.5 mm	0451 031 80	25
95 mm	24.5 mm	0451 031 95	25

CE marking in line with EN 14545:2008

Transverse load in the compressed surfaces should not be higher than 2.5 N/mm² for solid wood or 3 N/mm² for laminated wood.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Double-sided tooth plate connector Type C10

Double-sided tooth plate connectors (type C10) are used for wood-wood connections (softwood) in combination with bolts or wood screws to absorb shear forces. The bolts or screws subject to load absorb the clamping and tensile forces in the bolt axis.

- In line with DIN EN 912:2011-09
- Material: Malleable iron EN-GJMB-350-10 in line with DIN EN 1562
- Surface: Galvanised, A4K
- Application in utilisation classes 1 and 2

Type	C10
Material	Malleable cast iron
Surface	Zinc plated

Nominal diameter	Diameter of hole	Art. no.	P. Qty.
50 mm	30.4 mm	0451 041 50	50
65 mm	35 mm	0451 041 65	50
80 mm	50 mm	0451 041 80	25
95 mm	66 mm	0451 041 95	25

CE marking in line with EN 14545:2008

Transverse load in the compressed surfaces should not be higher than 2.5 N/mm² for solid wood or 3 N/mm² for laminated wood. Alternatively, double-shear connections can also be made using ASSY plus full-thread screws in combination with washer head screws.

Available work documents:

Load tables and detailed processing instructions can be found on the service page www.wuerth.de/holzverbinder.

Plug-in connector, wood/wood

Ideal for concealed or visible connections, the plug-in connectors enable a high degree of pre-fabrication and hence a considerable reduction in assembly times

- Rapid assembly of load-bearing wood/wood connections
- Significant reduction in assembly time due to high degree of pre-fabrication
- Multiple dimensions for tailor-made and reliable solutions

Material	Aluminium

The required wood dimensions can be found in the table below. The recommended cutting depth for the XS-M series should be at least 1 mm less deep than the total thickness of both plates together, and at least 3 mm less deep for the L-XXL series. Please note that longer bolts should be screwed into the end grain.

Depending on the connector type, the appropriate type of special system screws should be used as per ETA-12/0067 approval in order to guarantee the specified characteristic load-bearing values.

Two connector plates can be secured against lifting (if required) through the use of self-tapping, locking system screws.

Base element for tension anchors, two pieces

Ideal for connecting wooden structures to concrete, steel and wood substructures

- Ideal for a range of installation situations due to a variety of combination possibilities with the respective backplate
- Covers various requirements for load removal or bolt hole spacing due to different geometries
- Pre-production in factory possible, such as assembly of the backplate or complete panelling and completion of internal walls

Approval	ETA-14/0274

CE labelling as per European Technical Assessment ETA-14/0274

No damage to wall elements during transport and reduced risk of injury from non-protruding parts

Backplate for tension anchors, two pieces

Ideal for connecting wooden structures to concrete, steel and wood substructures

- Ideal for a range of installation situations due to a variety of combination possibilities with the respective base element
- Pre-production in factory possible, such as assembly of the backplate or complete panelling and completion of internal walls
- High tensile capacities

Thickness	3 mm
Diameter of hole	5.1 mm
Approval	ETA-14/0274

CE labelling as per European Technical Assessment ETA-14/0274

No damage to wall elements during transport and reduced risk of injury from non-protruding parts

Floor connector for tension anchors, two pieces

Specially developed for tension anchoring at ground level with timber frame construction or timber panel construction

- Optimum absorption of tensile forces at ground level in connection with 2 backplates
- Pre-production in factory possible, such as assembly of the backplate or complete panelling and completion of internal walls
- High tensile capacities

Width	40 mm
Height	353 mm
Thickness	3 mm
Number of holes	8 PCS
Diameter of hole	6.5 mm
Approval	ETA-14/0274

Art. no. 5392 000 310

P. Qty.: 10

CE labelling as per European Technical Assessment ETA-14/0274

Transportation anchor

With chain link and stop on the cross bar. An expert opinion is available for the transport anchor system with the ASSY 4 Combi T transport anchor bolt or ASSY 3.0 combination screw.

The ASSY transport anchor enables all types of wooden components to be lifted safely and easily

Max. load capacity	1.3 t
Surface	Zinc plated
Length of stirrup piece (c)	165 mm
Internal width (f)	40 mm

Art. no. 0184 000 13

P. Qty.: 2

Please consider the legal instruction at the beginning of this chapter.

Please consider the legal instruction at the beginning of this chapter.

Complies with the machinery directive (89/392/EEC) in version 93/44/EEC.

Maintenance:

- The transportation anchor must be inspected by an expert/safety representative of the company using the product at least once a year. In addition to damage of any kind, the degree of wear must also be determined in particular.
- Modifications and repairs, in particular those involving welding elements to the transportation anchor, are not permitted!
- For safety reasons, the screws must only be used once.

Sling swivel with joint

Attachment point for lifting loads

- Safety factor 4 in all load directions, 180°
- Crack tested to 100%
- Quality class 10

Material	Steel
Surface	Plain
Internal drive (is)	HS17

Thread type x nominal diameter (d1)	Thread length (l1)	Internal diameter (d2)	Bracket width (d3)	Body height (h3)	Art. no.	P. Qty.
M33	50 mm	85 mm	150 mm	80 mm	5162 144 33	1

M45	63 mm	100 mm	176 mm	90 mm	5162 144 45	1

- Suitable for secure raising of loads according to Machinery Directive 2006/42/EC
- Constructed, tested and certified according to GS-OA 15-04 - EN 1677
- Designed for a load of 20,000 load changes

The sling swivel must always be fully screwed into the component. With axial tension, a deviation of +/-5° with a reduction in load-bearing capacity by 10% is permitted.

Weld-on sling swivel

Attachment point for lifting loads

- Safety factor 4 in all load directions, 180°
- Crack tested to 100%
- Quality class 10

Thread type x nominal diameter (d1)	M0
Thread length (l1)	0 mm

- Suitable for secure raising of loads according to Machinery Directive 2006/42/EC
- Constructed, tested and certified according to GS-OA 15-04 - EN 1677
- Designed for a load of 20,000 load changes

The sling swivel must always be fully screwed into the component. With axial tension, a deviation of $\pm 5^\circ$ with a reduction in load-bearing capacity by 10% is permitted.

1-strand chain-lift QC 8

Lifting chain with fork head loading hooks and shortening

- Chain-lift in accordance with EN 818-4
- Chain painted black and chain attachments in red
- Chain components have prescribed H-stamps; each chain-lift receives a traceable chain number with a corresponding chain index card and a UVV label so that recurring inspections can be tracked.

Usable length	2 m
Material	Steel
Quality class	8
Shape of the hook	Fork head hook

Nominal diameter	Load capacity	Product weight (per item)	Gimbal height	Gimbal width	Art. no.	P. Qty.
6 mm	1120 kg	2805 g	110 mm	60 mm	5162 608 612	1
8 mm	2000 kg	3500 g	110 mm	60 mm	5162 608 812	1
10 mm	3150 kg	5200 g	135 mm	75 mm	5162 608 112	1

Further chain configurations can be performed at the customer's request.

1-strand chain-lift QC 10

Lifting chain with fork head loading hooks and shortening

- Chain-lift in accordance with EN 818-4
- Chain painted brown and chain attachments in red
- Chain components have prescribed H-stamps; each chain-lift receives a traceable chain number with a corresponding chain index card and a UVV label so that recurring inspections can be tracked.

Usable length	2 m

IP protection class	IP 65
Impact resistance	IK07
Nominal voltage	690 V/AC
Min./max. temperature conditions	-25 to 40 °C
Material	PS - Polystyrene
Halogen-free	Yes
Silicone-free	Yes

Design	Colour	Art. no.	P. Qty.
Empty	Light grey, similar to RAL 7035	0975 050 120	3
Empty, with external connection tabs	Light grey, similar to RAL 7035	0975 050 122	3
Empty, with red cover	Light grey, similar to RAL 7035, Red	0975 050 123	3

According to DIN EN 60670 (VDE 0606)

VDE cable junction box WFK 3

Metric knockouts

- Large connection area
- Very robust (impact-resistant and unbreakable)
- Plastofast stainless steel screws for a secure cover fit

Max. cable cross section	6 mm ²
Length x width x height	110 x 110 x 64 mm
Number of cable entries	7 PCS
Number of cable entries floor	2 PCS
IP protection class	IP 65/IP 54
Impact resistance	IK07
Nominal voltage	690 V/AC
Min./max. temperature conditions	-25 to 40 °C
Colour	Light grey, similar to RAL 7035
Material	PS - Polystyrene
Halogen-free	Yes
Silicone-free	Yes

Design	Art. no.	P. Qty.
Empty	0975 050 130	2
With raised screw terminal, 5-pins	0975 050 131	2

According to DIN EN 60670 (VDE 0606)

VDE cable junction box WFK 4

Metric knockouts

- Large connection area
- Very robust (impact-resistant and unbreakable)
- Plastofast stainless steel screws for a secure cover fit

Max. cable cross section	10 mm ²
Length x width x height	140 x 140 x 75 mm
Number of cable entries	10 PCS
Number of cable entries floor	2 PCS
IP protection class	IP 65/IP 54
Impact resistance	IK07
Nominal voltage	690 V/AC
Min./max. temperature conditions	-25 to 40 °C
Colour	Light grey, similar to RAL 7035
Material	PS - Polystyrene
Halogen-free	Yes
Silicone-free	Yes

Design	Art. no.	P. Qty.
Empty	0975 050 140	2
With raised screw terminal, 5-pins	0975 050 141	2

According to DIN EN 60670 (VDE 0606)

VDE cable junction box 2K-W12

Quick assembly thanks to soft membranes — no tools required to open the cable entries

- With external fastening tabs (cross hole and slotted hole for later corrections)
- Assembly possible by means of cable ties (e.g. on cable channels)
- For cables up to 5x 2.5 mm²
- Made in Germany

Length x width x height	80 x 80 x 37 mm
Number of cable entries	12 PCS
Number of cable entries floor	2 PCS
IP protection class	IP 55
Nominal voltage	400 V/AC
Min./max. temperature conditions	-25 to 35 °C
Colour	Light grey
Material of the bottom section	PP - Polypropylene
Material of the top section	Polyethylene
Halogen-free	Yes
Silicone-free	Yes

Art. no. 0975 050 410

P. Qty.: 10

ELMO® AP damp-room universal switch

Off/toggle

- Including lighting
- Including labelling field
- Inlet openings on all four sides of the housing
- Screwless terminals for line cross-sections up to 2.5 mm²
- Large, installation-friendly wiring area

Nominal voltage	250 V/AC
Nominal current	10 A

Continuation **ELMO® AP damp-room universal switch**

IP protection class	IP 44
Width	78 mm
Height	78 mm
Depth	61 mm
Min./max. temperature conditions	-20 to 110 °C
Material	Polycarbonate - PC
Halogen-free	Yes
PVC-free	Yes

Colour	Art. no.	P. Qty.
Anthracite	0978 802 001	6
Arctic white	0978 801 001	6
Grey	0978 800 001	6

Elmo® AP damp-room button

Changeover

Including lighting

No expensive retrofitting necessary

Including labelling field

Inlet openings on all four sides of the housing

Through-wiring possible in all directions (vertical and horizontal)

Screwless terminals for line cross-sections up to 2.5 mm²

Large, installation-friendly wiring area

Saves time during installation

Nominal voltage	250 V/AC
Nominal current	10 A
IP protection class	IP 44
Width	78 mm
Height	78 mm
Depth	61 mm
Min./max. temperature conditions	-20 to 110 °C
Material	Polycarbonate - PC
Halogen-free	Yes
PVC-free	Yes

AP damp-room intermediate switch

Screwless terminals for conductor cross-sections up to 2.5 mm²

Installation friendly wiring space saves time during installation

Colour	Grey
Nominal voltage	250 V/AC
Nominal current	10 A
IP protection class	IP 44
Material	Thermoplast
Halogen-free	Yes

Art. no. 0978 804 002

P. Qty.: 6

ELMO® AP damp-room universal switch/socket, vertical

Screwless terminals for conductor cross-sections up to 2.5 mm²

- Includes lighting: cost-saving as expensive retrofitting is unnecessary
- With labelling field
- Entry openings on all four sides of the housing make wiring in all directions possible (vertical and horizontal)
- Large, installation-friendly wiring space saves time during installation

Nominal voltage	250 V/AC
Nominal current of switch	10 A
Nominal current of socket	16 A
IP protection class	IP 44
Height	158.5 mm
Width	78 mm
Depth	61 mm
Min./max. temperature conditions	-20 to 110 °C
Material	Polycarbonate - PC
Halogen-free	Yes
PVC-free	Yes

Cavity wall device box

Integrated cable retainer for NYM conductors to DIN 60670/DIN 49073

- Self-locking of the pipes
- Break-out openings for corrugated pipes, NYM conductors and low-voltage conductors

Depth	47 mm
Milled-hole diameter	68 mm
Suitable for plate thickness	7 - 40 mm
Connection variants	NYM and extra-low voltage lines, 2 pipes EN 20
Number of line entries	6 PCS
Number of connection pieces	7 PCS
Halogen-free	No
Air-tight in accordance with German Energy Saving Ordinance (EnEV)/Building Energy Act (GEG)	No
Flame-retardant	850 °C
IP protection class	IP 30
Material	PP - Polypropylene

		Art. no.	P. Qty.
		0975 030 70	20
		0975 030 700	250

Fire protection cavity wall appliance socket with sound protection function

Milling hole-Ø 68 mm for quick and easy installation without additional rework

- Fire resistance class to EI120 and EI30 to EI60 without insulation wool
- Tool-free pipe and cable routing (with cable retainer in accordance with DIN EN 60670)
- Meets sound protection requirements in accordance with DIN EN ISO 10 140 (maintains sound protection function of the wall)

Depth	50 mm
Milled-hole diameter	68 mm
Suitable for plate thickness	5 - 40 mm
Connection variants	NYM and extra-low voltage lines, 2 pipes EN 25
Number of line entries	4 PCS
Number of connection pieces	5 PCS
Halogen-free	Yes

Air-tight in accordance with German Energy Saving Ordinance (EnEV)/Building Energy Act (GEG)	Yes
Flame-retardant	850°C
IP protection class	IP 30
Material	PP - Polypropylene

Art. no. 0975 033 70

P. Qty.: 10

Cavity wall appliance socket LAN

Air-tight design

- For professional installation (maintenance of bending radii) of network cables in accordance with DIN EN 50173

Depth	60 mm
Milled-hole diameter	68 mm
Suitable for plate thickness	5 - 25 mm
Connection variants	3 cable entries
Number of line entries	3 PCS
Halogen-free	No
Air-tight in accordance with German Energy Saving Ordinance (EnEV)/Building Energy Act (GEG)	Yes
Flame-retardant	850°C
IP protection class	IP 30
Material	PP - Polypropylene

Art. no. 0975 032 70

P. Qty.: 10

Cavity wall device connection box

Integrated cable retainer for NYM conductors to DIN 60670/DIN 49073

- Self-locking of the pipes
- Break-out openings for corrugated pipes, NYM conductors and low-voltage conductors

Depth	61 mm
Milled-hole diameter	68 mm
Suitable for plate thickness	7 - 40 mm
Connection variants	NYM and extra-low voltage lines, 4 pipes EN 20
Number of line entries	8 PCS
Number of connection pieces	7 PCS
Halogen-free	No

Universal 10 in 1 wrench

With innovative rotation mechanism

- Eight different lock heads
- 2-way rotation mechanism
- Can be used in pistol grip version or connected together

Profiles

- Square drive: 5 / 6-7 / 8-9 mm / 2 x 1/4 inch
- Triangular drive: 5-6 / 6-7 / 8-9 mm
- Hexagon socket: 1/4 inch
- Two-wing: 3-5 mm

Width	38 mm
Length	130 mm
Height	38 mm

Art. no. 0715 16 30

P. Qty.: 1

Standard cable connector with plastic latch

For quick, problem-free and reliable bundling of cables, cable harnesses, hoses etc.

- Good recycling properties
- No additional assembly tools required
- Resistant to bases, oils, greases and motor vehicle fuels

Material	PA - Polyamide
Min./max. temperature resistance	-40 to 85 °C
Min./max. processing temperature	-10 to 85 °C
Silicone-free	Yes
Halogen-free	Yes

Cable ties KBL 2 black with plastic latch

For quick organisation and bundling of industrial-quality cables, wires etc. for indoor and outdoor use

- Quick installation and easy processing thanks to the slightly uncoiled, pointed tie end and one-piece wedge closure
- No damage to the insulation of e.g. cables caused by sharp edges due to the rounded and smooth exterior
- High degree of resistance to UV and weathering

Material	PA - Polyamide
Colour	Black
Min./max. temperature resistance	-40 to +85 °C
Min./max. processing temperature	-20 to +85 °C
Ultraviolet resistance	Yes
Silicone-free	Yes
Halogen-free	Yes
RoHS-compliant	Yes
Flammability	Self-extinguishing in accordance with UL94 V2

Cable tie, black assortment

250-piece in system case

Scope of delivery:

- 50 x cable ties 2.5 x 100
- 50 x cable ties 3.6 x 140
- 100 x cable ties 4.8 x 178
- 25 x cable ties 4.8 x 280
- 25 x cable ties 4.8 x 360

Number of pieces in assortment/set	250 PCS
Material	PA - Polyamide
Silicone-free	Yes
Min./max. temperature resistance	-40 to 85 °C

Art. no. 5964 050 200

P. Qty.: 1

Standard cable connector with metal latch

For quick, problem-free and reliable bundling of cables, cable harnesses and hoses etc., with elevated requirements around minimum tensile strength.

- Corrosion-resistant, anti-magnetic metal closure
- Hand operable
- Increased safety for the user

Min./max. temperature resistance	-40 to 85 °C
Material	PA - Polyamide
Silicone-free	Yes
Halogen-free	Yes

UV-resistant cable ties with metal latch fastening

For quick, problem-free and reliable bundling of cables, cable harnesses and hoses etc., at elevated requirements of minimum tensile strength.

- Corrosion-resistant, anti-magnetic metal latch fastening
- Can be fixed by hand
- Convenient looping
- Increased user safety

Min./max. temperature resistance	-40 to 105 °C
Material	PA - Polyamide

UL authorisation E49405

Cable tie for single-hole mounting

With moulded, moveable locking head for 90° insertion of the tie

Special cable tie with 90° tie insertion

- Single-hole mounting possible without screws or adhesive
- No costs for additional mounting parts

Safely bundled cables

Tie with inner teeth

Quick and simple threading

Bent-up cable tie ends

No additional assembly tool required

Can be fixed by hand

Continuation **Cable tie for single-hole mounting**

Material	PA - Polyamide
Min./max. temperature resistance	-40 to 85 °C

Detectable cable connector with metal latch

Retrievable using detection devices such as metal detectors, x-ray devices or visual detection systems

- Strong colouring
- Helps when implementing the HACCP EC Directive
- Dimpling on the inside of the tie for a firm fit
- Tie end curved upwards for easy threading into cable tie head
- Halogen-free
- Operating temperature: -40°C to +85°C

Design	Metal latch
Material	PA - Polyamide
Min./max. temperature resistance	-40 to 85 °C
Halogen-free	Yes

Continuation **Detectable cable connector with metal latch**

Cable Tie Fix

Complete with 15-m cable tie and 200 locks

- Cable bundle load: approx. 25 kg
- Material: PA 6.6
- Cable tie width: 4.5 mm
- UV-resistant
- Halogen- and silicone-free

Material	PA - Polyamide
Silicone-free	Yes
Halogen-free	Yes
Ultraviolet resistance	Yes
Min./max. temperature conditions	-40 to 85 °C
Included in delivery (Lieferumfang)	15 m cable tie and 200 locks

Art. no. 0502 100

P. Qty.: 1

Base Self-adhesive

For securing cable ties to any dust- and grease-free surfaces, for example metal, paint, plastic, wood, plaster, paper etc.

Material	PA - Polyamide
Colour	Natural
Min./max. temperature conditions	5 to 50 °C

Suitable for cable ties	Length x width	Art. no.	P. Qty.
2.5 mm	25 x 25 mm	0502 625	50
3.6 mm	19 x 19 mm	0502 636	50
4.8 mm	28 x 28 mm	0502 648	50
6.5 mm	25 x 25 mm	0502 665	50

Cable tie roll for cable tie fix

Plastic roller with 15 m cable tie

- Cable bundle load: approx. 25 kg
- Material: PA 6.6
- Operating range: -40°C to +85°C
- Cable tie width: 4.5 mm
- UV-resistant
- Halogen- and silicone-free

Material	PA - Polyamide
Halogen-free	Yes
Silicone-free	Yes
Length	15 m

Colour	Ultraviolet resistance	Art. no.	P. Qty.
Black	Yes	0502 102	2
Natural		0502 102 1	2

Lock for cable tie fix

- 10 cassettes of 20 locks = 200 locks

Material	PA - Polyamide
Number of locks	200 PCS
Included in delivery (Lieferumfang)	10 cassettes of 20 locks = 200 locks
Halogen-free	Yes
Silicone-free	Yes

Colour	Ultraviolet resistance	Art. no.	P. Qty.
Black	Yes	0502 103	1
Natural		0502 103 1	1

Hole Mounting for Cable Tie Fix

For the mounting of cable tie bundles in:

- Wood
- Stone
- Metal
- Chipboard
- Concrete

Colour	Black
Ultraviolet resistance	Yes

Art. no. 0502 110 4

P. Qty.: 200

Ribbon cable holder, self-adhesive

Adheres to all dust-free and grease-free surfaces, e.g. metal, paintwork, plastic, wood, plaster, paper etc.

- Material: PVC
- Does not damage insulation

Material	PVC - Polyvinyl chloride
----------	--------------------------

Length x width x height	Art. no.	P. Qty.
20 x 26 x 6.5 mm	0502 70 1	100
30 x 26 x 6.5 mm	0502 70 2	50

Self-adhesive cable fastener Cord Clips

Well-suited for use even in restricted spaces

- Polyamide 6.6.
- Adheres to all dust-free and grease-free surfaces, e.g. metal, paintwork, plastic, wood, plaster, paper etc.
- Great time-saving solution as eliminates the need for drilling, screwing, riveting etc.
- No damage to paintwork
- Variable base areas

Material	PA - Polyamide
----------	----------------

Suitable for cable diameter	Length x width x height	Colour	Art. no.	P. Qty.
2 x 6 mm	25 x 12.7 x 16 mm	White	0502 761	25

Cable ties KBLU

For quick mounting of e.g. nets, tarpaulins, suspensions, information signs and for organising and bundling pipes and rods indoors and outdoors

- For temporary fixings
- Quick and easy handling when closing
- Quick removal with knife, scissors, pliers, etc.

Material	PA - Polyamide
Colour	Black
Min./max. temperature resistance	-40 to 85 °C
RoHS-compliant	Yes

Width	Length	Min./max. bundle diameter (Bündel-Ø min./max.)	Min. tensile force	Art. no.	P. Qty.

Cable gland, polyamide

Metric in line with EN 60423/EN 62444

- Integrated strain relief
- Large sealing and clamping range
- Easy to install
- Made in Germany

Min./max. temperature conditions	-20 to 100 °C
IP protection class	IP 68
Max. pressure	5 bar
Material	PA 6 V-2 - Polyamide
Halogen-free	Yes
Silicone-free	Yes
Material of the sealing ring	Polychloroprene nitrile rubber CR/NBR, halogenic

Colour	Connection thread	Min./max. cable diameter	Thread length (metric thread)	Width across flats (SW)	Art. no.	P. Qty.

Fix cable gland, polyamide

Problem-free fitting and removal from one side

Problem-free fitting and removal from one side

Lock nut no longer required

Saves time and money

No special tool required

Optimally suited for hard-to-reach places

Colour	Light grey RAL 7035
Min./max. wall thickness	1-4 mm
Min./max. temperature conditions	-20 to 100 °C
IP protection class	IP 68
Max. pressure	5 bar
Material	PA - Polyamide
Halogen-free	Yes
Silicone-free	Yes
Material of the sealing ring	Polychloroprene nitrile rubber CR/NBR, halogenic
Material of the profile sealing ring	Nitrile rubber polytetrafluoroethylene NBR/PTFE, halogenated

Connection thread	Min./max. cable diameter	Min./max. hole diameter	Width across flats (SW)	Art. no.	P. Qty.

- UL
- Fork shape in accordance with DIN 46237/C

Crimp cable lug, butt connector

Polyamide insulated

Expanded insulating sleeve

Harmonised conductors with stronger cable core insulation can be processed without a problem.

„Easy Entry“ insertion

Easy, fast and safe insertion of the conductor

High-quality polyamide

Suitable for use in situations involving changing loads and temperature fluctuations

Max. nominal voltage	600 V/AC
Max. temperature conditions	105 °C
Material	Copper
Surface	Tin plated
Insulating material	Nylon
Halogen-free	Yes
Silicone-free	Yes

Min./max. wire cross section	Colour	Length	Art. no.	P. Qty.

Terminal block with wire guard

Improved terminal shape for easy conductor entry

- Easy to disconnect
- High torque capacity
- High flexibility

Nominal voltage	450 V
Flame-retardant	850 °C
Number of electrical poles	12 PCS
Colour	Natural
Material of the housing	PA 6.6 - Polyamide 6.6

Min./max. wire cross section	Nominal current	Max. ambient temperature	T identification according to EN 60998	Art. no.	P. Qty.

Terminal block without wire guard

Improved terminal shape for easy conductor entry

- Easy to disconnect
- High torque capacity
- High flexibility

Nominal voltage	450 V
Max. ambient temperature	80 °C
T identification according to EN 60998	T80
Flame-retardant	850 °C
Number of electrical poles	12 PCS
Colour	White
Material	PP - Polypropylene

Wago Micro push-wire connector, screwless

Stackable

- Testing port for voltage tester

Min./max. wire diameter	0.6-0.8 mm
Min./max. wire-stripping length	5-6 mm
Nominal current	6 A
Nominal voltage	100 V
Max. ambient temperature	60 °C
Flammability	Self-extinguishing in accordance with UL94 V0
Material of the housing	PA 6.6 - Polyamide 6.6

Number of ladders	Colour	Art. no.	P. Qty.
4 PCS	Dark grey	0556 004	100

8 PCS	Red	0556 006	100
8 PCS	Yellow	0556 005	100

Wago screwless connection terminal

For all types of copper wire

- Clamping range for fine-wire conductors: 0.08–4.0 mm² (rated current 32 A)
- Clamping range for single-wire and multi-wire conductors: 0.08–2.5 mm² (rated current 24 A)
- Test opening for voltage testers

Min./max. wire cross section	0.08-4 mm ²
Nominal current	32 A
Min./max. wire-stripping length	9-10 mm
Nominal voltage	400 V
Max. ambient temperature	40 °C
T identification according to EN 60998	T85
Flammability	Self-extinguishing in accordance with UL94 V2
Material of the housing	PA 6.6 - Polyamide 6.6
Colour	Dark grey

Number of ladders	Art. no.	P. Qty.
2 PCS	0556 100 002	100
3 PCS	0556 100 003	50
5 PCS	0556 100 005	50

2-wire lamp clamp, screwless

For single-wire and multi-wire copper conductors

- Testing port for voltage tester

Number of ladders	3 PCS
Wire cross section rigid min./ max.	0.75-2.5 mm ²
Wire cross section flexible min./ max.	0.5-2.5 mm ²
Nominal current	24 A
Min./max. wire-stripping length	9-11 mm
Nominal voltage	450 V
Max. ambient temperature	110 °C
T identification according to EN 60998	T110
Flammability	Self-extinguishing in accordance with UL94 V2
Material of the housing	PA 6.6 - Polyamide 6.6
Colour	White

Art. no. 0556 500 5

P. Qty.: 100

Plug-in screw terminal strip

For single-wire and multi-wire copper conductors

- Testing port for voltage tester

Screw connection	0.5 - 4 mm ²
Plug connection	4 x 0.5 - 1.5 mm ²
Nominal current	17.5 A
Nominal voltage	450 V
Max. ambient temperature	85 °C
Identification according to EN 60998	T85
Flammability	Self-extinguishing in accordance with UL94 V2
Number of electrical poles	12 PCS
Material of the housing	PA 6.6 - Polyamide 6.6
Colour	White

Art. no. 0556 515

P. Qty.: 10

ELMO® connection terminal, screwless Compact

For single-wire copper conductors

- With coloured cover coding
- Grooved surface for improved grip for more user comfort
- Testing port for voltage tester

Min./max. wire cross section	0.5-2.5 mm ²
Nominal current	24 A
Wire-stripping length	11 mm
Nominal voltage	450 V
Max. ambient temperature	60 °C
Identification according to EN 60998	T60
Flammability	Self-extinguishing in accordance with UL94 V2
Material of the housing	Polycarbonate

Number of ladders	Colour	Art. no.	P. Qty.
2 PCS	Transparent, White	0556 111 2	100
3 PCS	Transparent, Orange	0556 111 3	100
4 PCS	Transparent, Red	0556 111 4	100
5 PCS	Transparent, Yellow	0556 111 5	100
8 PCS	Transparent, Black	0556 111 8	100

ELMO® connection terminal, screwless Mini Plus

Smallest (most space-saving) lever clamp

- Ideal for use with UP/HW device junction boxes
- Better grip
- Testing port for voltage tester

Wire cross section rigid min./ max.	0.2-2.5 mm ²
Wire cross section flexible min./ max.	0.2-2.5 mm ²
Nominal current	24 A
Wire-stripping length	11 mm
Nominal voltage	450 V
Max. ambient temperature	85 °C
T identification according to EN 60998	T85
Flammability	Self-extinguishing in accordance with UL94 V2
Material of the housing	Polycarbonate

Number of ladders	Length x width x height	Colour	Art. no.	P. Qty.
2 PCS	17 x 11 x 9.2 mm	Transparent, Red	0556 118 2	100
3 PCS	17 x 15.5 x 9.2 mm	Transparent, Orange	0556 118 3	100
5 PCS	17 x 24.8 x 9.2 mm	Transparent, Yellow	0556 118 5	100

ELMO® connection terminal, screwless Compact plus

Rigid copper wires can be inserted without opening the more user-friendly activation lever.

- Grooved surface for improved grip for more user comfort
- Test openings for voltage testers

Wire cross section rigid min./max.	0.2-4 mm ²
Wire cross section flexible min./max.	0.34-4 mm ²
Nominal current	32 A
Wire-stripping length	11 mm
Nominal voltage	450 V
Max. ambient temperature	85 °C
Identification according to EN 60998	T85
Flammability	Self-extinguishing in accordance with UL94 V2
Material of the housing	Polycarbonate

Bathroom earth terminal for one line

With M6 connecting screw and M5 clamping screw
Connection options

Single or multi-wire conductors from 2.5-16 mm², fine-wire conductors from 2.5-10 mm²

Washer, nut and screw material: Iron, galvanised and chromated

Min./max. wire cross section	2.5-16 mm ²
Material	Brass/steel

Art. no. 0969 102 201

P. Qty.: 50

Earthing strap clamp

Earthing strap clamp for pipes made of copper or zinc-plated steel

- For conductor cross-sections from 2.5 to 16 mm²
- Stainless steel strap, steel clamp, galvanised

Min./max. pipe diameter	Min./max. pipe diameter in inches	Art. no.	P. Qty.
8-165 mm	1/8-6 in	0969 101 304	10
8-114 mm	1/8-4 in	0969 101 303	10
8-50 mm	1/8-1-1/2 in	0969 101 302	10
8-18 mm	1/8-3/8 in	0969 101 301	10

For potential equalization in accordance with DIN VDE 0100 and DIN VDE 0190

Earthing strap clamp, stainless steel

- For conductor cross-sections from 2.5 to 16 mm²
- Stainless steel strap and clamp

Min./max. pipe diameter	Min./max. pipe diameter in inches	Art. no.	P. Qty.
8-165 mm	1/8-6 in	0969 101 404	10
8-114 mm	1/8-4 in	0969 101 403	10
8-50 mm	1/8-1-1/2 in	0969 101 402	10
8-18 mm	1/8-3/8 in	0969 101 401	10

For potential equalization in accordance with DIN VDE 0100 and DIN VDE 0190

Earth pipe clamp, copper

For conductor cross-sections up to max. 16 mm²

Material: Nickel-plated copper

- Sleeve clamp: Brass, nickel-plated
- Screws: Steel, zinc-plated and chromated

Continuation **Earth pipe clamp, copper**

Min./max. pipe diameter	Pipe diameter in inches	Art. no.	P. Qty.
8-10 mm	1/8 in	0969 103 001	10
10-13.5 mm	1/4 in	0969 103 002	10
15-18 mm	3/8 in	0969 103 003	10

24-28 mm	3/4 in	0969 103 005	5
30-36 mm	1 in	0969 103 006	5

For potential equalization in accordance with DIN VDE 0100 and DIN VDE 0190

Bathroom earthing rail with cover

Bathroom earthing rail in plastic housing

Connection options:

- 1 x 6-25 mm²
- 5 x 1.5-6 mm²

Min./max. wire cross section	1.5-25 mm ²
Number of connections	6 PCS
Material of the contact bar	Brass
Material of the top section	Polypropylene, highly impact-resistant
Material of the bottom section	Polypropylene, highly impact-resistant

Art. no. 0969 102 200

P. Qty.: 10

For potential equalization in accordance with VDE 0190

ELMO® VDE potential equalization rail

25 mm² clamping point: 2 conductors clamped with just one screw

Connection options:

- 1 strip 30 x 4 mm or 1 circular cable 8-10 mm
- 1 circular cable 50 mm²
- 1 circular cable 2.5-6 mm²
- 6 circular cables 6-25 mm²

Time needed to connect the conductor reduced to 20%

Clamps are open on delivery

Cover swings in both directions and can be locked open at an angle of 60° or 120°.

Min./max. wire cross section	6-25 mm ²
Number of connections	9 PCS
Material of the contact bar	Brass
Material of the top section	Polypropylene, highly impact-resistant
Material of the bottom section	Polypropylene, highly impact-resistant

Art. no. 0969 102 110

P. Qty.: 10

In accordance with VDE 0618 part 1, VDE 0100 part 540, for potential equalization in accordance with VDE 0190

Potential equalization rail

For indoor use

Connection options:

- 1 strip 30 x 4 mm or 1 circular cable 8-10 mm
- 1 circular cable 50 mm²
- 7 circular cables 6-25 mm²

Min./max. wire cross section	6-25 mm ²
Number of connections	9 PCS
Material of the contact bar	Brass
Material of the top section	ABS, highly impact-resistant
Material of the bottom section	ABS, highly impact-resistant

Art. no. 0969 102 100

P. Qty.: 10

In accordance with VDE 0618 part 1, for potential equalization in accordance with VDE 0190

Crimp cable lug, butt connector

Cable ties, stainless steel AISI 304 with ball lock

Can be used anywhere where plastics cannot be used, e.g. under high ambient temperatures or strong chemical influences

- For quick, problem-free and reliable bundling of cables, cable harnesses and hoses etc.
- Incredibly robust material (100% stainless steel)
- No abrasion of the cable insulation
- Suitable for use at extreme temperatures and in aggressive environments

Thickness	0.25 mm
Material	Stainless steel, AISI 304
Surface	Plain
Min./max. temperature resistance	-80 to 538 °C
RoHS-compliant	Yes

Width	Length	Min./max. bundle diameter (Bündel-Ø min./max.)	Max. tensile force	Art. no.	P. Qty.

Flexible electrical conduit WFKuS-EM-F-105-H0 ComfortXQ®

With high-sliding inner coating

- PVC-free
- Time saved when pulling in or sliding in cables and lines
- Enables easy cable pulling, even over longer distances

VDE 0605 and DIN EN 61386-22

Classification code for electrical conduit	33332
Load force at 5 cm	750 N
Impact resistance at 100 mm	2 kg
Min./max. temperature conditions	-15 to 105 °C
Material	Polyolefin
Flame-retardant	Yes
Halogen-free	Yes
Silicone-free	Yes
Ultraviolet resistance	No

Rigid electrical installation pipe W-IS-EL-F

With formed-on sleeve on one side

Classification code for electrical conduit	2221
Load force at 5 cm	320 N
Impact resistance at 100 mm	1 kg
Min./max. temperature conditions	-5 to 60 °C
Length of rod	3 m

Continuation **Rigid electrical installation pipe W-IS-EL-F**

Design	With formed-on sleeve on one side
Colour	Grey
Material	Polyvinyl chloride - PVC hard
Flame-retardant	Yes
Halogen-free	No

Outer diameter	Internal diameter	Art. no.	P. Qty.
16 mm	14.3 mm	0975 244 016	111
20 mm	18.3 mm	0975 244 020	111
25 mm	22.6 mm	0975 244 025	57

VDE 0605 and DIN EN 61386-21

Rigid electrical installation pipe WPKu-EM-F-H0

With formed-on sleeve on one side

Halogen-free

No toxic and corrosive gases are produced in the event of a fire

Classification code for electrical conduit	3342
Load force at 5 cm	750 N
Impact resistance at 100 mm	2 kg
Min./max. temperature conditions	-25 to 90 °C
Length of rod	3 m
Design	With formed-on sleeve on one side
Colour	Grey
Material	Special plastics
Flame-retardant	Yes
Halogen-free	Yes

Double pipe clamp

Drill, insert and finished

- Suitable for concrete, solid sand/lime brick, lightweight concrete, solid clinker and natural stone
- High pull-out values (to 40 kg)

Min./max. grip range	4-12 mm
Drill hole diameter	6 mm
Max. loading weight	40 kg
Min./max. temperature resistance	-20 to 85 °C
Material	PP - Polypropylene
Halogen-free	Yes
Silicone-free	Yes
Colour	Light grey RAL 7035

Art. no. 0971 100 412

P. Qty.: 200

Bracket clamp

Drill, insert and finished

- Suitable for concrete, solid sand/lime brick, lightweight concrete, solid clinker and natural stone
- High pull-out values (to 40 kg)

Drill hole diameter	6 mm
Max. loading weight	40 kg
Min./max. temperature resistance	-20 to 85 °C
Material	PP - Polypropylene
Halogen-free	Yes
Silicone-free	Yes
Colour	Light grey RAL 7035

Min./max. grip range	Art. no.	P. Qty.
3-13 mm	0971 100 313	200

Cable tidy holder All-rounder

Has high mechanical strength and thus offers durability and safety in case of fire.

- 2 - 3 multiple cable holders (depending on load) mounted below one another
- 2 multiple cable holders can be combined back-to-back using a coupling piece
- Can be mounted with optional quick-mount clip

Cable type	NYM 3 x 1.5 mm ²
Diameter of hole	6 mm
Min./max. temperature resistance	-30 to 80 °C

Flame-retardant	Yes
Halogen-free	Yes
Silicone-free	Yes

48-52 mm	0971 048	50
52-56 mm	0971 052	50
56-60 mm	0971 056	50

Function integrity class E30 and E90. Standard installation system as per DIN 4102 Part 12.

Nail plate

Rectangular design 34 x 27 mm for easier storage and reduced costs

- Extremely flat design makes plastering over easy
- Plaster openings and roughened surfaces ensure perfect plaster hold

Length of plate x width of plate	34 x 27 mm
Min./max. temperature resistance	-30 to 80 °C
Material of the washer	PE - Polyethylene
Halogen-free	Yes
Silicone-free	Yes

Diameter of nail x length of nail	Art. no.	P. Qty.
2 x 40 mm	0478 25 002	200
2 x 50 mm	0478 25 003	150
2 x 60 mm	0478 25 004	150
3.3 x 40 mm	0478 25 010	150
3.3 x 50 mm	0478 25 006	100
3.3 x 60 mm	0478 25 007	100

3.3 x 85 mm	0478 25 008	100

Nail plate box

Rectangular design 34 x 27 mm for simplified storage and reduced costs.

- For easy cable and pipe fixing in masonry channels, mounting paths and on walls and ceilings.
- Extremely flat design makes plastering over easy
- Retaining collars prevent cables from slipping out
- Plaster openings and roughened surfaces ensure perfect plaster hold

Length of plate x width of plate	34 x 27 mm
Min./max. temperature resistance	-30 to 80 °C
Material of the washer	PE - Polyethylene
Halogen-free	Yes
Silicone-free	Yes

Diameter of nail x length of nail	Number of pieces	Art. no.	P. Qty.
2 x 40 mm	2250 PCS	0478 25 102	1
3.3 x 50 mm	1750 PCS	0478 25 106	1

Nail clamp

Nail is guided - high stability during assembly (knocking in nail).

- Wide base
- Knock-in stop

Diameter of nail	2 mm
Colour	Light grey (bright grey)
Min./max. temperature resistance	-40 to 100 °C
Material of the clamp	Polyethylene highly impact-resistant
Material of the nail	Steel, specially hardened
Surface	Zinc plated
Halogen-free	Yes
Silicone-free	Yes

Grip range	Length of nail	Art. no.	P. Qty.

10-14 mm	35 mm	0593 710 14	100
14-20 mm	35 mm	0593 714 20	50

Multi-range clamp

In practical box with li

- Laying of individual cables: surface-mounted or in cable slots
- Nail is guided
 - High stability during assembly (knocking in nail).
- Claws
 - Slip protection for cable (axial fixing to utilise the full clamping range)

Min./max. grip range	7-12 mm
Diameter of nail	2 mm
Length of nail	35 mm
Number of pieces	5000 PCS
Colour	Light grey (bright grey)
Min./max. temperature resistance	-40 to 100 °C
Material of the clamp	Polyethylene
Material of the nail	Steel, specially hardened
Surface	Zinc plated
Halogen-free	Yes
Silicone-free	Yes

Art. no. 0593 977 2

P. Qty.: 1

Profile rail, perforated, for cable clamp type AC

For laying cable clamps type AC

Profile rail 40x22 mm, perforated

Width x height	40 x 22 mm
Thickness	1.5 mm
Slot width	18 mm
Elongated hole width	11 mm
Elongated hole length	30 mm
Conditions for max. load force	in concrete B 25 for 250-mm spacing
Max. hook-point load	5 kN
Hook-point load conditions	at 250-mm spacing for fastening clearance of 250 mm
Profile cross section	1.55 cm ²
Transverse moment of inertia	1.08 cm ⁴
Longitudinal moment of inertia	3.39 cm ⁴
Transverse section modulus	0.89 cm ³
Longitudinal section modulus	1.7 cm ³
Transverse radius of inertia	0.83 cm
Longitudinal radius of inertia	1.48 cm
EN standard	60715
Material	Steel
Surface	Sendzimir galvanized

Art. no. 0971 060 200

P. Qty.: 8

Function integrity class E30 and E90. Standard installation system as per DIN 4102 Part 12.

Profile rail, perforated, for cable clip type H

For laying cable clamps type H

Profile rail 30x15 mm, perforated

Width x height	30 x 15 mm
Thickness	1.5 mm
Slot width	16 mm
Elongated hole width	7 mm
Elongated hole length	35 mm
Conditions for max. load force	in concrete B 25 for 250-mm spacing
Max. hook-point load	2 kN
Hook-point load conditions	at 250-mm spacing for fastening clearance of 250 mm
Profile cross section	1.02 cm ²
Transverse moment of inertia	0.32 cm ⁴
Longitudinal moment of inertia	1.36 cm ⁴
Transverse section modulus	0.35 cm ³
Longitudinal section modulus	0.9 cm ³
Transverse radius of inertia	0.56 cm
Longitudinal radius of inertia	1.15 cm
EN standard	60715

Material	Steel
Surface	Sendzimir galvanized

Art. no. 0971 060 100

P. Qty.: 8

Function integrity class E30 and E90. Standard installation system as per DIN 4102 Part 12.

Quick-mounting clip for all-rounder cable tidy holder

Optimum access saves time and money

Min./max. temperature resistance	-30 to 80 °C
Flame-retardant	Yes
Halogen-free	Yes
Silicone-free	Yes

Flame-retardant conditions	Colour	Material	Art. no.	P. Qty.
at 700 °C	Light grey RAL 7035	PA - Polyamide	0971 651 080	50
by glow-wire test at +960 °C, V0	Stone grey RAL 7030	PA 6 V-0 - Polyamide	0971 651 180	50

Quick-mounting clip for all-rounder cable tidy holder

In conjunction with DIGA CS-1 and CS-2 Power

Min./max. temperature resistance	-30 to 80 °C
Flame-retardant	Yes
Flame-retardant conditions	at 700 °C
Colour	Light grey RAL 7035
Material	PA - Polyamide
Halogen-free	Yes
Silicone-free	Yes

Art. no. 0971 651 081

P. Qty.: 100

ETA-18/0957 in conjunction with ETA-12/0452

Long tray for cable clamps type H and AC

For improved cable support

Cable Unwinder KAW 1

- Ball-bearing-mounted wheels, use spring fastener to adjust
- Simple rolling up and positioning of the cable drum thanks to angled roll-up ramp
- Non-slip contact surface

Type description	KAW 1
Length	530 mm
Width	550 mm

Height	100 mm
Load capacity	120 kg
Weight	9 kg
Surface	Powder-coated
Colour	Traffic red RAL 3020

Art. no. 0975 810 1

P. Qty.: 1

Unwinder KAW 2

Base frame for spindle 1 (cable coils and flexible electrical conduits) or spindle 2 (cable drums)

- Ball-bearing-mounted, smooth-running rotary disc
- Anti-slip four-foot support

Length	560 mm
Width	560 mm
Height	80 mm
Load capacity	50 kg
Weight	7 kg
Surface	Powder-coated
Colour	Black, Traffic red RAL 3020

Art. no. 0975 810 2

P. Qty.: 1

ELMO® cable unwinder, KAW

The light version in aluminium

- Long run-out, roll-up ramps
- Lateral guide
- Optimum adjustment to respective cable drum size
- Non-slip contact surface

Min./max. diameter	200-700 mm
Length	700 mm
Height	100 mm
Material	Aluminium
Colour	Aluminium coloured

Type description	Width	Load capacity	Weight	Art. no.	P. Qty.
KAW 3	515 mm	200 kg	8.6 kg	0975 811 001	1
KAW 4	670 mm	250 kg	10.3 kg	0975 811 002	1

Cable unwinder XB300

Particularly suitable for damaged cable drums.

Load-bearing capacity up to 300 kg

- The compact cable dispenser with a light and flat design
- 6 rubberised feet for a secure, non-slip footing
- Removable central mandrel for the various hole sizes of a cable drum

Type description	XB300
Length	300 mm
Width	300 mm
Height	105 mm
Load capacity	300 kg
Weight	1300 g
Material	Plastic

Art. no. 0975 811 300

P. Qty.: 1

Cable unwinder XB500

Particularly suitable for damaged cable drums.

Load-bearing capacity up to 800 kg

- Compact cable dispenser with a light and flat design
- Removable central mandrel for the various hole sizes of a cable drum
- For small and medium-sized cable drums, cable rings, flexible electrical installation pipes, rope drums, etc.

Type description	XB500
Length	500 mm
Width	500 mm
Height	133 mm
Load capacity	800 kg
Weight	6350 g
Material	Plastic

Art. no. 0975 811 500

P. Qty.: 1

Unwinding rails WS900

High-quality, maintenance-free, heavy-duty rollers with ball bearings

- Sturdy stainless steel aluminium construction
- With a winding brake for changing the cable drum quickly and easily
- For safe unwinding of heavy cable drums from Ø 450 mm to Ø 2000 mm

Type description	WS900
Length	900 mm
Width	152 mm
Height	100 mm
Load capacity	850 kg
Weight	11400 g
Material	Stainless steel A2, 1.4301/aluminium

Art. no. 0975 811 900

P. Qty.: 2

Cable pulling system CPS 2

Time and cost savings thanks to simple and quick retraction and extension of the tape.

- Fibreglass rod Ø 3 mm in plastic housing
- Optimum user comfort thanks to unique design (practical strap)

Diameter	3 mm
Tensile load	120 kg
Connection thread	M6
Material	Fibre glass
Colour	Red
Material of the housing	Plastic

Length	Art. no.	P. Qty.
20 m	0975 852 020	1
30 m	0975 852 030	1

Cable pulling system CPS 3

Time and cost savings thanks to Powerglider

Fibreglass rod Ø 3 mm in plastic housing

Diameter	3 mm
Tensile load	120 kg
Connection thread	M6
Material	Fibre glass
Colour	Yellow
Material of the housing	Plastic

Length	Art. no.	P. Qty.
20 m	0975 853 020	1
30 m	0975 853 030	1
50 m	0975 853 050	1

Cable pulling system CPS 4.5

Time and cost savings thanks to Powerglider

- Quick run with rollers
- Automatic run-out brake
- Reel with side locking brake

Diameter	4.5 mm
Suitable for pipe diameter	30 - 80 mm
Tensile load	220 kg
Connection thread	M6
Material	Fibre glass
Colour	Yellow
Material of the housing	Steel
Surface of the housing	Zinc plated

Length	Art. no.	P. Qty.
50 m	0975 855 050	1
60 m	0975 855 060	1
80 m	0975 855 080	1

Cable pulling system CPS 6.0

Time and cost savings thanks to Powerglider

Dual run-out system

- Fast running with bearing-mounted runners
- Automatic run-out brake

Reel with side locking brake

Diameter	6 mm
Suitable for pipe diameter	40 - 100 mm
Tensile load	320 kg
Connection thread	M6
Material	Fibre glass
Colour	Yellow
Material of the housing	Steel
Surface of the housing	Zinc plated

Length	Art. no.	P. Qty.
50 m	0975 856 050	1
60 m	0975 856 060	1
80 m	0975 856 080	1

Guide head

For CPS cable feed systems (apart from CPS 1)

Repair set

For cable pulling system CPS 6.0

Includes:

- 2 x starting sleeve M6
- 1 x connection sleeve

Connection thread	M6
Material	Stainless steel
Included in delivery (Lieferumfang)	2 x starting sleeves, 1 x connection sleeve

Art. no. 0975 856 200

P. Qty.: 1

Cable grip with swivel

For CPS cable feed devices

Tensile load	150 kg
Connection thread	M6
Material of the wire	Stainless steel

Min./max. diameter	Art. no.	P. Qty.
4-6 mm	0975 850 160	1
6-9 mm	0975 850 161	1
9-13 mm	0975 850 162	1

Cable grip with loop and swivel

For CPS cable feed devices

Tensile load	180 kg
Connection thread	M6
Material of the wire	Stainless steel

Min./max. diameter	Art. no.	P. Qty.
9-15 mm	0975 850 172	1
15-19 mm	0975 850 173	1
19-25 mm	0975 850 174	1
25-31 mm	0975 850 175	1

Cable pulling loop with protective cap

Possible to pull in cables with plug without damage

- Flexible loop made of stainless steel with Ø 1.5 mm
- Easy to attach the cable to the loop
- With integrated swivel

Suitable for pipe (EN)	EN 40, EN 32, EN 25, EN 20
Tensile load	120 kg
Material of the wire	Stainless steel

Connection thread	Design	Art. no.	P. Qty.
	With hook	0975 850 180	1
M6		0975 850 181	1

Polyester coils, 5.3 mm, wound

3-way twisted with Powerglider

With two-sided Powerglider for the narrowest of radii for laying cables

- Masters radii and narrow areas that conventional pulling coils cannot.
- No change of head required
- Large metal eyelet for simple cable holding

Polyester coil

- No breaking or tearing of the coil – no time-consuming repairs required
- 50% less friction than with conventional cable pulling coils

Diameter (Ø)	5.3 mm
Tensile load	300 kg
Material	PES - Polyester
Colour	Black

Length	Design	Art. no.	P. Qty.
20 m	With dispenser	0975 850 420	1
20 m	Without dispenser box	0975 850 520	1
30 m	With dispenser	0975 850 430	1
30 m	Without dispenser box	0975 850 530	1
40 m	Without dispenser box	0975 850 540	1

Polyester coil, 4.5 mm, welded

In practical dispenser

- Coil does not break or tear – no time-consuming repairs necessary
- 50% less friction than conventional cable feed coils
- Considerably easier to use than fibre glass or plastic coils
- Greater pulling forces than fibre glass or plastic coils

Design	With dispenser
Diameter (Ø)	4.5 mm

Tensile load	250 kg
Thread diameter	6 mm
Material	PES - Polyester
Colour	Traffic black RAL 9017

Length	Art. no.	P. Qty.
20 m	0975 850 620	1
30 m	0975 850 630	1

Powerglider with special eye head

With integrated compensation of twist

- Cable organiser of max. 7 x 2.5 mm²
- Allows you to manage very tight radii
- Maximum resistance to tearing
- No change of head required

Connection thread	M6
Length	120 mm

Art. no. 0975 813 120

P. Qty.: 1

Push rod professional set

Basal technology enables extreme bending radii, a high degree of shape stability and is virtually unbreakable

Stainless steel connecting elements

No abutting edges or thread crossovers

19-piece set, in a practical storage bag

- 2 x yellow push rod Ø 4.6 mm 1,000 mm M6
- 3 x black push rod Ø 5.6 mm 1,000 mm M6
- 5 x red push rod Ø 7.6 mm 1,000 mm M6
- 1 x sliding hook with tip function M6
- 1 x LED light M6 (1 x Micro / AAA / LR03 – not included in scope of delivery)
- 1 x Powerglider M6
- 1 x magnet M6
- 1 x ball chain 0.5 m M6
- 1 x eyelet with ring M6
- 1 x catch hook M6
- 1 x connecting thread M6
- 1 x storage bag

Number of pieces in assortment/set	19 PCS
------------------------------------	--------

Art. no. 0975 813 100

Wall duct BR 80

80-mm cover inlay width (no device panels required) and perforated base

- Visible surfaces covered with protective film for optimum protection against dirt and scratches
- Design: 2 DIN mounting rails 35 mm for mounting device boxes and separating rails

Height	62 mm
Lid width	80 mm
Colour	Pure white RAL 9010
Length of duct	2 m
Material	Polyvinyl chloride - PVC hard
Flammability	Flame-retardant, self-extinguishing

Line routing duct, LFK

Full upper part (lid) and perforated base

- From LFK 40 x 60 including 4 retaining clamps (per 2 m duct)
- Base holes single row up to LFK 40 x 40, double row from LFK 40 x 60
- From LFK 60 x 60 with a continuous mounting rail for mounting separating rails

Length of duct	2 m
Material	PVC - Polyvinyl chloride
Flammability	Flame-retardant, self-extinguishing

Type description	Height	Width	Colour	Art. no.	P. Qty.

Line routing duct Mini-Clip

With double-sided adhesive tape and film hinge cover

- For unobtrusive installation of individual cables (e.g. aerial lines, bell lines, telephone cables)

Type description	7 x 12
Height	7 mm
Width	12 mm
Colour	Pure white RAL 9010
Length of duct	2 m

Material	Polyvinyl chloride - PVC hard
Flammability	Flame-retardant, self-extinguishing

Art. no. 0973 607 12

P. Qty.: 50

Line routing duct Mini

With single-row base holes and cover

- For unobtrusive installation of cables (e.g. aerial lines, bell lines, telephone cables, NYM cable)

Length of duct	2 m
Material	Polyvinyl chloride - PVC hard
Flammability	Flame-retardant, self-extinguishing

3.4 x 80 mm	0478 45 348	250

Aerated concrete spikes

High retaining forces — the arms spread in aerated concrete

Knock in without pre-drilling

Saves time and money

Arm length can be adapted to width of slot

Predetermined breaking point

Diameter x length (Ø d x L)	6.2 x 68.5 mm
Limb length	44.5 mm
Min./max. temperature resistance	-30 to 80 °C
Material	PA - Polyamide
Halogen-free	Yes
Silicone-free	Yes

Art. no. 0593 520 100

P. Qty.: 100

Flush-mounted fixing clamp

Rapid and tool-free pipe attachment in masonry slots up to 45 mm wide

- Does not show through plaster
- No damage to the pipes
- Simple installation

Min./max. slot width	12-45 mm
Length (a)	60 mm
Height (c)	45 mm
Min./max. temperature resistance	-20 to 75 °C
Colour	Light grey, similar to RAL 7035
Material	PA - Polyamide

Continuation **Flush-mounted fixing clamp**

Halogen-free	Yes
Silicone-free	Yes

Art. no. 0971 300 910

P. Qty.: 200

Fabric mounting tape, indoor and outdoor

Rust-proof, no sharp edges

Easy to cut by using scissors or a utility knife

Width	15 mm
Material thickness	1.1 mm
Min./max. temperature resistance	-40 to 170 °C
Max. load force	2700 N
Material	PES - Polyester
Ultraviolet resistance	Yes
Colour	Black
Length of roll	25 m

Art. no. 0972 325

P. Qty.: 125

Fabric mounting tape, indoor use

Rust-proof, no sharp edges

Easy to cut by using scissors or a utility knife

Width	15 mm
Material thickness	1 mm
Min./max. temperature resistance	-10 to 120 °C
Max. load force	1700 N
Material	PP - Polypropylene
Ultraviolet resistance	No
Colour	White, Red
Length of roll	25 m

Art. no. 0972 315

P. Qty.: 125

Plastic-coated punched mounting strip

Welded: Plastic coating will not slip

Material thickness	2.6 mm
Max. temperature resistance	80 °C
Material	Hot-galvanised steel sheet, 1.0226
Halogen-free	Yes
Silicone-free	Yes

Width	Diameter of hole	Hole distance	Max. load force	Art. no.	P. Qty.
14 mm	5.2 mm	9 mm	1250 N	0972 010 314	10
19 mm	6.5 mm	15 mm	1500 N	0972 010 319	10
27 mm	8.5 mm	15 mm	2500 N	0972 010 327	10

Punched mounting strip, no marginal perforations

In practical plastic roller box

Material thickness	0.7 mm
Material	Hot-galvanised steel sheet, 1.0226
Length	10 m

Continuation **Punched mounting strip, no marginal perforations**

Width	Diameter of hole	Hole distance	Max. load force	Art. no.	P. Qty.
12 mm	5.2 mm	9 mm	1300 N	0972 010 012	10
17 mm	6.5 mm	15 mm	1600 N	0972 010 017	10
25 mm	8.5 mm	15 mm	2400 N	0972 010 025	10

Punched mounting strip with marginal perforations

For mounting electrical/sanitary pipes, cables and lines on unfinished concrete

Material thickness	0.7 mm
Hole distance	15 mm
Hole distance of holes on the edges	15 mm
Material	Hot-galvanised steel sheet, 1.0226
Length	25 m

Width	Diameter of hole	Marginal-hole diameter	Max. load force	Art. no.	P. Qty.
17 mm	6.8 mm	3.2 mm	1500 N	0972 010 217	25
25 mm	8.5 mm	4 mm	2800 N	0972 010 225	25

Crimped punched mounting strip without perforated edge

Material thickness	0.7 mm
Material	Hot-galvanised steel sheet, 1.0226
Length	10 m

Width	Diameter of hole	Hole distance	Max. load force	Art. no.	P. Qty.
12 mm	4.8 mm	14 mm	800 N	0972 010 112	10
17 mm	6.8 mm	20 mm	1400 N	0972 010 117	10

Plastic-coated assembly tape

For pin drivers and high-performance gas devices

Without holes – for direct mounting by gun nails and bolts

Width	14 mm
Material thickness	2.6 mm
Max. temperature resistance	80 °C
Max. load force	1250 N
Material	Hot-galvanised steel sheet, 1.0226
Halogen-free	Yes
Silicone-free	Yes

Art. no. 0972 010 414

P. Qty.: 10

Aluminium clip

For routing (single-point attachment) rigid aluminium pipes Alu-Steck-WES or Alu-Gewinde-WES

With connection mechanism (vertical)	No
Elongated hole width	6.5 mm
Min./max. temperature resistance	-45 to 250 °C
Material	Aluminium
Halogen-free	Yes
Silicone-free	Yes

Nominal size	Elongated hole length	Art. no.	P. Qty.

50	12 mm	0971 557 150	25
63	12 mm	0971 557 163	15

Beam clamp Type SCT

- Fastener used for suspension (e.g. lights)
- With threaded pin M6 x 16 mm
- Lock nut included in delivery

Material thickness	1.5 mm
Max. loading weight	22 kg
Suitable for nominal width (A)	25 mm
Material	Steel
Surface	Flake zinc

Art. no. 0971 822 101

P. Qty.: 100

Flange beam Type LCW

For direct mounting of flat-leaf screws in the threaded holes, for example

- Fastener used for suspension via threaded rods
- Increased safety thanks to toothed clamp surface

Min./max. grip range	2-18 mm
Max. loading weight	45 kg
Clamp in depth (D)	17 mm
Through-hole diameter (ØA)	10.7 mm
Marginal-hole diameter (C)	6.3 mm
Material	Steel
Surface	Flake zinc

Continuation **Flange beam Type LCW**

Art. no. 0971 819 101

P. Qty.: 25

Beam clamp Type SCZ

Mounting element for suspensions by means of screws and threaded rods

Fastenings for cables using cable ties up to 7.8 mm in width

Max. loading weight	45 kg
Suitable for threaded rods (Ø)	M6
Insertion depth (B)	33 mm
Material	Steel
Surface	Flake zinc

Min./max. grip range	Design	Thread type x nominal diameter x length of set screw	Art. no.	P. Qty.
3-8 mm	With set screw	M 6 x 10 mm	0971 809 101	25
3-8 mm	With through-hole 7 mm		0971 809 201	25
8-14 mm	With set screw	M 6 x 10 mm	0971 809 102	25
8-14 mm	With through-hole 7 mm		0971 809 202	25
14-20 mm	With set screw	M 6 x 10 mm	0971 809 103	25
14-20 mm	With through-hole 7 mm		0971 809 203	25

Beam clamp Type SRZ

Open model

- Fastener for horizontal suspension of pipes
- Including two M6 openings for threaded rods
- Pipe clip rotatable through 360°

Max. loading weight	11 kg
Material	Steel
Surface	Flake zinc

Min./max. grip range	Min./max. pipe diameter (Ø)	Suitable for pipe (PG)	Art. no.	P. Qty.

Beam clamp Type SKX

Fastener for cable fastening inside steel beams

Insertion depth (A)	58 mm
Material	Steel
Surface	Flake zinc

Min./max. grip range	Art. no.	P. Qty.
3-8 mm	0971 808 101	25
8-14 mm	0971 808 102	25
14-20 mm	0971 808 103	25

Beam clamp Type SCW

Fastener for suspension via chains

Max. loading weight	90 kg
Diameter of hole (Ø)	6.5 mm
Insertion depth (B)	20.3 mm
Material	Steel
Surface	Flake zinc

Min./max. grip range	Distance between support and centre of hole (A)	Art. no.	P. Qty.
3-8 mm	18 mm	0971 801 101	50
8-14 mm	26 mm	0971 801 102	50
14-20 mm	30 mm	0971 801 103	50

Wiring duct Flexible

Rectangular shape gives approx. 30% more capacity compared to round models

- Outstanding installation characteristics for integrating movable components (e.g. doors etc.)
- Double-sided adhesive tape on the duct base
- Simple cable insertion without additional tools
- Single-row base holes (slotted holes 4.5 x 8 mm)

Length of duct	0.5 m
Max. temperature resistance	80 °C
Colour	Window grey, similar to RAL 7040
Material	PVC - Polyvinyl chloride
Flammability	Self-extinguishing in accordance with UL94 V2

Type description	Height	Width	Art. no.	P. Qty.
20 x 20	20 mm	20 mm	0973 420 20	36
30 x 30	30 mm	30 mm	0973 430 30	16

5500 N	29 mm	17 mm	58 mm	57.5 mm	0862 200 008	10

VARIFIX® beam clamp Compact

With threaded hole

- VdS certified and authorised for use in construction of stationary fire extinguishing systems.
- With hexagonal adjustment screw DIN933/8.8; end of screw has a ring cutter
- With reduced dimensions for electrical installation

Material	Malleable cast iron
Surface	Zinc plated
Permissible load	1200 N
Thread type x nominal diameter (G)	M8
Grip height (H _K)	19 mm
Length (L)	38.5 mm
Height (H)	36.4 mm
Width (B)	19 mm
Max. grip range	18 mm
Product weight (per item)	84 g

Art. no. 0862 200 015

P. Qty.: 25

Set stud with M6 thread

Material	Steel
Surface	Zinc plated
Connection thread	M6
Collar diameter (D)	8.8 mm

Length (L)	Art. no.	P. Qty.
13.5 mm	0232 6 15	100/1000
16.5 mm	0232 6 18	100/1000
23.5 mm	0232 6 25	100/1000

Manual drive-in stud with large collar

Material	Steel
Collar diameter (D)	10 mm

Length (L)	Max. thickness of mounting material	Art. no.	P. Qty.
14 mm	2 mm	0232 104 14	100/1000
18 mm	6 mm	0232 104 18	100/1000
22 mm	10 mm	0232 104 22	100/1000

Manual drive-in stud with small collar

Material	Steel
Collar diameter (D)	8 mm

Length (L)	Max. thickness of mounting material	Art. no.	P. Qty.
14 mm	2 mm	0232 4 14	100/1000
18 mm	6 mm	0232 4 18	100/1000
22 mm	10 mm	0232 4 22	100/1000

Nail setting tool for manual drive-in stud

With bolt holder and impact protection

Art. no. 0232 4

P. Qty.: 1

Two-pin voltage tester Multi-Tester Pro II LCD

Overvoltage category CAT IV (1000 V) — suitable for use in electrical installation and servicing work, and for testing hybrid and electric vehicles and photovoltaic systems

- Displays voltages from approx. 45 V/AC and 110 V/DC
- FI/RCD test with two keys
- Improved hold in safety socket and CEE socket
- Suitable for narrow test openings

Length	300 mm
Display	LCD
Min./max. voltage range AC	3-1000 V/AC
Min./max. voltage range DC	4-1400 V/DC
Min./max. frequency	0/500 Hz
Continuity testing, min./max. electrical resistance	0-5 kOhm
Min. voltage for phase testing	100 V/AC
Switchable load	30 mA at 230V/AC
Diode testing	Yes
Polarity testing	Yes (- in LCD)
PELV display	Visual, Vibrating
Display min./max. electrical resistance display	10-199.9 kOhm
Min./max. frequency display	0-500 Hz
IP protection class	IP 65

Overvoltage protection category	CAT IV/1000 V
Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS
Length x width x depth	300 x 75 x 20 mm

Art. no. 0715 53 175

P. Qty.: 1

Two-pin voltage tester Multi-Tester Pro II LED

Overvoltage category CAT IV (1000 V) — suitable for use in electrical installation and servicing work, and for testing hybrid and electric vehicles and photovoltaic systems

- Test equipment with maximum safety level
- Displays voltages from approx. 45 V/AC and 110 V/DC
- FI/RCD test with two keys
- Improved hold in safety socket and CEE socket
- Suitable for narrow test openings

Length	300 mm
Display	Optical, LEDs
Min./max. voltage range AC	6-1000 V/AC
Min./max. voltage range DC	6-1400 V/DC
Min./max. frequency	0/1000 Hz
Continuity testing, min./max. electrical resistance	0-200 kOhm
Min. voltage for phase testing	100 V/AC
Switchable load	30 mA at 230V/AC
Diode testing	Yes
Polarity testing	Yes (+/- LED)
PELV display	Visual, Vibrating
IP protection class	IP 65
Overvoltage protection category	CAT IV/1000 V
Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS
Length x width x depth	300 x 75 x 20 mm

Art. no. 0715 53 165

P. Qty.: 1

Continuity tester Beeper Plus

For continuity testing of wires, fuses, light bulbs etc.

External voltage-proof to 300 V/a warning lamp comes on for safety.

Torch function with LED technology

Contact-free detection of voltage sources, hence no current flow required.

Display from 110–300 V alternating voltage

Testing with buzzer and can be used as a pocket torch at the same time

Test display via

- Buzzer and LED (0–30 Ω)
- Or LED pocket torch (0–250 Ω)

Min. voltage measuring range	110 V/AC
Max. voltage measuring range	300 V/AC
IP protection class	IP 20
EN standard	61010
Number of rechargeable batteries/batteries	3 PCS
Rechargeable battery/battery designation	Mignon AA
Rechargeable battery/battery permanently installed	No

Art. no. 0715 53 315

P. Qty.: 1

Tested to EN 61010/DIN VDE 0100-410/IEC 1010

Mini digital multimeter

Small meter for measuring direct and alternating current, resistance testing, continuity testing, diode testing and contactless voltage testing.

- The test leads can be fastened to the rear of the device; this protects them from damage and prevents injury from the measuring tips
- Permanently attached test leads, data hold, diode testing, continuity testing, integrated LED pocket torch and automatic range detection
- With robust, splash-proof rubber housing and membrane keyboard

Display	LCD, 2000 digits
Min./max. voltage measuring range	0.5 V/AC-600 V/AC
Min./max. voltage measuring range 2	0.5 V/DC-600 V/DC
Min./max. electrical-resistance measuring range	0 Ohm-20 MOhm
Overvoltage protection category	CAT III/1000 V
IP protection class	IP 54

Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 0715 53 370

P. Qty.: 1

Digital multimeter MM 600 TRMS

Modern, digital multimeter with effective value measurement (TRMS), cable break detector and LED pocket torch for professional use in trade and industry.

- Suitable for measuring AC/DC current, AC/DC voltage, resistance, continuity and diodes
- Can be used for AC/DC voltage up to 600 V, and also AC/DC current up to 10 A
- Resistance measurement up to 20 MΩ

Display	2000 digits, LCD
Min./max. voltage measuring range	1 mV/AC-600 V/AC
Min./max. voltage measuring range 2	0.1 mV/DC-600 V/DC
Min./max. current measuring range	0.1 µA/AC-10 A/AC
Min./max. current measuring range 2	0.1 µA/AC-10 A/DC
Min./max. electrical-resistance measuring range	0.1 Ohm-20 MΩ
Overvoltage protection category	CAT IV/600 V
IP protection class	IP 20
Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 0715 53 415

P. Qty.: 1

Digital multimeter Professional

Versatile TRMS multimeter, provides the most important functions for daily use in skilled trades, business and industry. For maintenance, installation, service. Robust due to shock-proof cover.

- Measurement of voltage: AC, DC
- Measurement of current: AC, DC, from as little as 10 µA
- Measurement of resistance, capacitance, temperature

Display	6000 digits
Min./max. voltage measuring range	0.6 V/AC-750 V/AC
Min./max. voltage measuring range 2	0.6 V/DC-1000 V/DC

Continuation **Digital multimeter Professional**

Min./max. current measuring range	10 µA/AC/DC-10 A/AC/DC
Min./max. electrical-resistance measuring range	1 Ohm-60 MOhm
Min./max. capacity measuring range	1 nF-100 mF
Min./max. temperature measuring range	-55 to 1200 °C
Overvoltage protection category	CAT III/600 V
IP protection class	IP 54
Rechargeable battery/battery designation	1.5 V LR6 AA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 0715 58 550

P. Qty.: 1

Voltage tester Test Plus

Contactless voltage tester with torch function (LED)

- No current flow required
- Detects live wires, cable breakages, faults at switches, etc.
- Identifies blown fuses, defective lamps in chains of lights without direct metallic contact

Min./max. voltage range AC	12-1000 V/AC
IP protection class	IP 40
Overvoltage protection category	CAT III/1000 V
Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 0715 53 100

P. Qty.: 1

TÜV-/GS-tested to EN 61010/DIN VDE 0100-410/IEC 1010

Socket tester A with FI/RCD tripping

Quick and reliable testing of all potentially fatal connection faults in the Schuko sockets.

- Handy tester
- No presetting required
- Compact, lightweight design
- Fast and reliable testing of sockets
- Power supply across socket being tested
- Housing made from fibreglass-reinforced polyamide
- Equipped with additional FI/RCD test circuit

Min./max. voltage range AC	85-230 V/AC
Min./max. frequency	50/60 Hz

Switchable load	30 mA at 230V/AC
IP protection class	IP 40
Overvoltage protection category	CAT II/300 V

Art. no. 0715 53 001

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Manufactured and certified to IEC/EN 61010-1 (DIN VDE 0411)

Magnet tester

Test tip lights up without metallic contact as soon as a magnetic field is present – it reacts to magnetic fields, excited by direct voltage, alternating voltage or permanent magnets

Number of rechargeable batteries/batteries	2 PCS
--	-------

Art. no. 0715 53 150

P. Qty.: 1

AC/DC multimeter measuring calliper

Current measuring calliper with all the features of a fully-fledged multimeter. Perfect even in confined spaces due to the handy, compact construction.

Multimeter measuring calliper for measuring electrical and physical variables, encompasses the following functions:

- AC/DC voltage measurement
- AC/DC current measurement
- Resistance measurement
- Audible continuity testing

Display	6000 digits
Enclosure diameter	30 mm
Min./max. current measuring range	50 mA/AC-400 A/AC
Min./max. current measuring range 2	100 mA/DC-400 A/DC
Min./max. voltage measuring range	0.05 V/AC-600 V/AC
Min./max. voltage measuring range 2	0.3 V/DC-600 V/DC
Min./max. electrical-resistance measuring range	0.2 Ohm-600 Ohm

Continuation **AC/DC multimeter measuring calliper**

Overvoltage protection category	CAT III/600 V
IP protection class	IP 30
Length x width x height	199 x 75 x 36 mm
Rechargeable battery/battery designation	1.5 V Micro AAA
Number of rechargeable batteries/batteries	2 PCS

Art. no. 0715 58 710

P. Qty.: 1

Digital clip-on ampere meter AM 600 AC/DC

Digital clip-on ampere meter with extensive measuring options, effective value measurement (TRMS), auto-range function and LED measuring point illumination for professional use in trade and industry.

The Würth AM 600, certified for safe use in CAT III 600 V environments, offers essential functions for the detection of malfunctions and numerous problems in electrical and electronic systems.

Display	6000 digits
Enclosure diameter	23 mm
Min./max. current measuring range	10 mA/AC-600 A/AC
Min./max. current measuring range 2	10 mA/DC-600 A/DC
Min./max. voltage measuring range	1 mV/AC-600 V/AC
Min./max. voltage measuring range 2	1 mV/DC-600 V/DC
Min./max. electrical-resistance measuring range	0.1 Ohm-60 MOhm
Overvoltage protection category	CAT III/600 V
IP protection class	IP 20
Length x width x height	210 x 80 x 35 mm
Number of rechargeable batteries/batteries	3 PCS

Art. no. 0715 53 715

P. Qty.: 1

Multi-purpose current clamp Professional

The ideal tool for any use on site. Contains all necessary measuring functions in one compact device. A measuring instrument for all cases.

- Current measurement: AC, DC, AC+DC
- Voltage measurement: AC, DC, AC+DC
- Power measurement: Active power, apparent power, reactive power, power factor (single phase and three phase total)
- Resistance, frequency measurement
- Acoustic continuity testing, diode testing
- Determination of the phase sequence of the external conductors
- Innovative TRUE INRUSH function for the start-up current measurements.
- Many other functions
- HOLD, MIN/MAX/PEAK, ΔREL, THD (harmonic)
- Large, backlit LCD display for optimum readability
- 6000 count resolution for high levels of accuracy
- Automatic range selection, AC/DC – detection, auto power off
- Clearly assigned function keys, 1 key = 1 function
- Ergonomic „single-handed operation“ thanks to optimally placed rotary switch

Display	6000 digits
Enclosure diameter	34 mm
Min./max. current measuring range	0.15 A/AC-600 A/AC
Min./max. current measuring range 2	0.15 A/DC-900 A/DC
Min./max. current measuring range 3	0.15 A/AC/DC-600 A/AC/DC
Min./max. voltage measuring range	0.15 V/AC-1000 V/AC
Min./max. voltage measuring range 2	0.15 V/DC-1400 V/DC
Min./max. voltage measuring range 3	0.15 V/AC/DC-1000 V/AC/DC
Min./max. effective power measuring range	1 W-600 kW
Min./max. reactive power measuring range	1 var-600 kvar
Min./max. apparent power measuring range	1 VA-600 kVA
Min./max. electrical-resistance measuring range	0.1 Ohm-59.99 kOhm
Overvoltage protection category	CAT IV/600 V
IP protection class	IP 40
Length x width x height	220 x 80 x 34 mm
Rechargeable battery/battery designation	9 V 6LR61
Number of rechargeable batteries/batteries	1 PCS

Art. no. 0715 58 770

P. Qty.: 1

Safety test lead with restrictable test tips

Conforms to requirements of IEC/EN 61010-2-031

- 4 mm safety plug with contact lamellae
- Resealable packaging for dustproof storage.
- Leads: Double-insulated, highly-flexible silicone leads with extra-fine wire, cross-section 1 mm²
- Length: 1.2 m
- Rated voltage/current: 1000 V/CAT III, 20 A

Plug-connector diameter	4 mm
Wire cross section	1 mm ²
Length	1.2 m
Max. nominal current	20 A
Max. nominal voltage	1000 V/AC/DC
Overvoltage protection category	CAT II/1000 V, CAT III/1000 V

Art. no. 0715 53 811

P. Qty.: 1

Safety dolphin clamp, fully-insulated

Conforms to requirements of IEC/EN 61010-2-031

The products illustrated are fitted with a bushing for a 4 mm safety plug and supplied in resealable blister packaging for dust-proof storage.

- Clamping width: 30 mm.
- Rated current/voltage: 32 A/1000 V CAT III.
- 4 mm safety socket in insulated body.
- Supply scope: one red and one black dolphin clamp.

Connecting socket diameter	4 mm
Max. nominal current	32 A
Max. nominal voltage	1000 V/AC/DC
Overvoltage protection category	CAT III/1000 V
Max. grip range	30 mm

Art. no. 0715 53 830

P. Qty.: 1

Safety test lead set Automotive

Contents:

- 4 mm safety test leads, silicone-insulated, $l = 1 \text{ m}$; cross-section 1.0 mm^2 ; rated current 19 A; temperature-resistant from -80°C to $+150^\circ\text{C}$. One side with straight safety plug, opposite side with angled 4 mm safety plug.
- Safety dolphin clamp, fully-insulated
- Attachable safety test tips, stainless steel, rigid, with tip protective cap for tapping at individual ICs (2.54 mm spacing)
- Attachable safety claw tapper with strong outer insulated claws. Rated current/voltage: 16 A/1000 V CAT III
- Scope of delivery: one red and one black version

Art. no. 0715 53 870

P. Qty.: 1

Moisture measuring unit

Compact wood moisture measuring unit for all applications (with a mean calibration for European woods)

- Measuring principle: electrical resistance
- With measuring cap for non-destructive measuring
- Electrodes are integrated and interchangeable

Min./max. wood humidity measuring range	6-44 %
Min./max. temperature conditions	0 to 40°C
Included in delivery (Lieferumfang)	Case, 2 spare tips

Art. no. 0715 53 180

P. Qty.: 1

Easy-Finder Set

Contactless cable locator

The cable finder allows any technician to find any kind of cable, wire or wire pair in the shortest possible time without contact and without time-consuming stripping work.

Transmission power (in dBm) at 600 Ohms	12 dBm
Transmission power (in dBm) at 50 Ohms	10.5 dBm
Output voltage	9 V/DC
Length of test cable	25 cm
Length of test cable 2	10 cm
Material of the housing	ABS, splash water protected
Number of rechargeable batteries/batteries	2 PCS

Continuation **Easy-Finder Set**

Rechargeable battery/battery permanently installed	No
Included in delivery (Lieferumfang)	Transmitter, receiver, bag

Art. no. 0715 53 750

P. Qty.: 1

Ink marker Premium ink

Also for coated surfaces (nano-coating)

- Waterproof and abrasion-resistant
- Light-resistant and weatherproof

Colour	Black
Design	Permanently waterproof
Shape of tip	Round tip
Material of the housing	Plastic

Line thickness	Art. no.	P. Qty.
0.4 mm	0967 909 101	4
0.6 mm	0967 909 201	4
1 mm	0967 909 301	4

Ink marker Standard Ink

Waterproof and abrasion-resistant

- Ideal for use in the automotive sector, industry and trade businesses.
- Light and weather-resistant

Min./max. line thickness	1.5-3 mm
Design	Permanently waterproof
Shape of tip	Round tip
Material of the housing	Plastic
Silicone-free	Yes

Colour	Art. no.	P. Qty.
Black	0967 915 301	5
Red	0967 915 302	5
Blue	0967 915 303	5

Drill hole marker

For marking where access is restricted

Waterproof and abrasion-resistant

Line thickness	1 mm
Colour	Black
Design	Permanently waterproof
Shape of tip	Round tip
Material of the housing	Plastic
Silicone-free	No

Art. no. 0967 909 901

P. Qty.: 5

Paint marker

All colours are heat-resistant up to 400 °C. The colour white is still visible up to 1000 °C.

- Also for dark and transparent surfaces
- Waterproof and abrasion-resistant
- Light-resistant and weather-resistant after drying

Design	Permanently waterproof
Shape of tip	Round tip
Material of the housing	Aluminium
Silicone-free	No

Min./max. line thickness	Colour	Max. temperature resistance	Art. no.	P. Qty.

Paste marker Painter

Also ideal for surfaces with poor adhesion properties

- No sharpening
- With twist mechanism
- Can be used under water
- High-coverage, extra-permanent colour paste (also suitable for dark surfaces)
- Light-resistant and weatherproof after drying

Line thickness	10 mm
Design	Permanently waterproof
Shape of tip	Round tip
Material of the housing	Plastic
Silicone-free	Yes

Colour	Art. no.	P. Qty.
Black	0967 911 101	5
Red	0967 911 102	5
White	0967 911 103	5

Uni marker set

Stable metal design with practical retaining clip

Integrated sharpener in the screw-off cap for the graphite lead

Included in delivery (Lieferumfang)	2 x Uni markers
Number of pieces in assortment/set	19 PCS
Material of the housing	Metal
Silicone-free	Yes

Art. no. 0967 911 401

P. Qty.: 1

Contents for art. no. 0967 911 401		
Designation	Art. no.	Quantity
Graphite refill for uni marker Grey	0967 911 403	6
Refill All-purpose lead for uni marker Red	0967 911 404	6
Refill All-purpose lead for uni marker Yellow	0967 911 405	5

Deep-hole marker set

For marking where access is restricted

- Sturdy metal design with practical retaining clip
- Integrated sharpener in the cap

Included in delivery (Lieferumfang)	1 x deep hole marker
Number of pieces in assortment/set	8 PCS
Min./max. line thickness	0.5-1.5 mm

Continuation **Deep-hole marker set**

Suitable for lead	2,8 mm
Material of the housing	Metal
Silicone-free	Yes

Art. no. 0967 911 201

P. Qty.: 1

Contents for art. no. 0967 911 201		
Designation	Art. no.	Quantity
Graphite lead for deep-hole marker set	0967 911 203	7

Deep-hole drill hole marker set

9 pieces For marking where access is restricted

- With permanent black ink
- Line thickness 1 mm

Included in delivery (Lieferumfang)	1 x deep hole marker, 1 x drill hole marker, 7 x graphite lead
Number of pieces in assortment/set	9 PCS

Art. no. 0967 911 222

P. Qty.: 1

2-in-1 mechanical pencil and deep-hole marker set

Removable cap – can be used as a mechanical pencil or as a deep-hole marker

- For marking where access is restricted
- Sturdy design with practical retaining clip
- Integrated tip in the cap

Number of pieces in assortment/set	8 PCS
Min./max. line thickness	0.5-1.5 mm
Suitable for lead	2,8 mm
Material of the housing	Plastic
Silicone-free	Yes

Art. no. 0967 911 200

P. Qty.: 1

Graphite lead for deep-hole marker set

- Non-permanent
- Good alternative to conventional carpenter pencil

Length	120 mm
Diameter	2.8 mm

Min./max. line thickness	0.5-1.5 mm
Colour	Grey
Silicone-free	Yes

Recommended surfaces	Art. no.	P. Qty.
Porous, Rough	0967 911 202	6
Smooth	0967 911 203	6

All-purpose lead for deep-hole marker

- Non-permanent
- Paste marker for wet and dry surfaces

Length	120 mm
Diameter	2.8 mm
Min./max. line thickness	0.5-1.5 mm
Silicone-free	Yes
Recommended surfaces	Smooth, Porous, Rough

Colour	Art. no.	P. Qty.
White	0967 911 207	6
Red	0967 911 204	6
Yellow	0967 911 205	6

Write-on cable markers

For marking cables

Resistance

Good resistance to dirt, water, alcohol, greases, weak acids, caustic solutions, petroleum-based oils

Material thickness	0.08 mm
Min./max. temperature conditions	-30 to 120 °C
Colour	White
Material	PVC - Polyvinyl chloride
Ultraviolet resistance	Limited

Length x width	Max. cable diameter	Included in delivery (Lieferumfang)	Art. no.	P. Qty.
75 x 25 mm	14 mm	120 pieces per PU	0967 975 25	120
150 x 25 mm	38 mm	60 pieces per PU	0967 950 25	60

Write-on adhesive label

Resistance

Good resistance to water, seawater, low-aliphatic alcohols, methanol, gasoline and engine oils

Material thickness	0.16 mm
Min./max. temperature conditions	-29 to 80 °C

Continuation **Write-on adhesive label**

Colour	Black, Yellow
Material	Polyvinyl chloride - fibre-reinforced PVC
Ultraviolet resistance	Limited

Length x width	Included in delivery (Lieferumfang)	Art. no.	P. Qty.
19 x 11 mm	880 pieces per PU	0967 911 19	880
38 x 11 mm	440 pieces per PU	0967 911 38	440

Safety and warning sign — dangerous electrical voltage

Self-adhesive

Material thickness	0.07 mm
Min./max. temperature conditions	-30 to 120 °C
Colour	Black, Yellow
Material	PVC - Polyvinyl chloride

Limb length	Art. no.	P. Qty.
25 mm	0967 933 01	100
50 mm	0967 933 02	50
100 mm	0967 933 03	50

Permanent marker set

Quick-drying, resistant to smearing, waterproof, suitable for almost all surfaces

Colour	Black
Shape of tip	Round tip
Number of cable markers	3 PCS

Design	Line thickness	Art. no.	P. Qty.
Ultra-fine	0.4 mm	0967 910 1	3
Extra fine	1 mm	0967 910 2	3

Gel connection/branch sleeve WGM 0.6/1 kV

Double seal for increased reliability

Advantages of gel technology:

- No special tools (crimping pliers, soldering torch etc.) required
Saves on costs
- No curing, ready to use immediately
Saves time
- No open flame required
- No expiration date
Can therefore be stored for an unlimited period
- No mixing required

DIN EN 50393

Min./max. temperature resistance	-40 to 70 °C
Ultraviolet resistance	Yes
Halogen-free	Yes

PVC insulating hose

Very good UV, ozone, hydrolysis and microbe resistance

Flame-retardant, self-extinguishing

Min./max. temperature resistance	-40 to 90 °C
Flammability	Self-extinguishing in accordance with UL94 V2
Dielectric strength	10 kV/mm
Colour	Black
Material	PVC - Polyvinyl chloride
Silicone-free	Yes

In accordance with EN 60684

Pipe bushing Vario

Universal seal in stainless steel for pipes and cables. Stainless steel with super-segment ring technology in robust rubber. Seals off new pipes/cables to be installed as well as those already installed.

- Universal application and easy to adjust thanks to super-segment ring technology
- Integrated torque check
- U-profile for maximum stability
- Segments linked with membrane skin.
- Tear-off edge for simple segment removal
- Blind plug included

Max. pressure	1 bar
Material of the profile	Stainless steel A2
Material of the screw	Stainless steel A2
Material of the rubber profile	EPDM

Suitable for pipe diameter	Suitable for core-drilled holes/ pipe linings	Art. no.	P. Qty.

Test for water tightness

(Kiwa test report A 9091-7a/2010) and impermeability to gas

(Kiwa test report A 9026-2 / 2011).

LED working lamp Powerquad

Soft, pleasant and low-shadow light for effortless work.

- LED panel with highly efficient SMD LEDs (> 130 lm/W)
- Wide-beam glare-reduced light thanks to opal cover
- 6-way adjustable beam angle
- Made in Germany

Design	Light switch, 2 sockets (max. 3 kW)
Colour temperature	5000 K
IP protection class	IP 54
Impact resistance	IK08
Cable type	H07BQ-F3G1.5 mm ²
Power-lead length	5 m

Luminous flux	Lamp light power	Art. no.	P. Qty.
4000 lm	5300 lm	0981 180 501	1
8000 lm	10600 lm	0981 180 502	1

LED work lamp MINI

Soft, pleasant and low-shadow light for effortless work

- LED panel with highly efficient SMD LEDs (> 90 lm/W)
- Low power consumption
- No warm-up and pre-heating time
- Made in Germany

Luminous flux	2800 lm
Lamp light power	3100 lm
Colour temperature	5000 K
IP protection class	IP 54
Impact resistance	IK08
Power-lead length	2.5 m

Design	Cable type	Art. no.	P. Qty.
	H07BQ-F2x1 mm ²	0981 180 020	1
Light switch, 2 sockets (max. 2 kW), pressure compensating valve	H07BQ-F3G1.5 mm ²	0981 180 021	1

LED work lamp, 360°

Soft, pleasant and low-shadow light for effortless work.

- LED panel with highly efficient SMD LEDs (> 130 lm/W)
- Low power consumption
- No warm-up and pre-heating time
- Made in Germany

Design	1 socket (max. 3 kW)
Luminous flux	3600 lm
Lamp light power	4200 lm
Colour temperature	5000 K
IP protection class	IP 54
Impact resistance	IK08
Cable type	H07BQ-F3G1.5 mm ²
Power-lead length	5 m

Art. no. 0981 180 900

P. Qty.: 1

LED Flashpad Step

The **FLASHPAD STEP** ground light panel uses cutting-edge LED light technology. The ground light panel is primarily used for working on cars on a lifting platform.

- Luminous flux can be optimally adapted to the respective working conditions (infinitely variable brightness control)
- Glare- and shadow-free work light for increased work safety and fatigue-free work
- Made in Austria

Luminous flux	9000 lm
Colour temperature	6000 K
IP protection type, lamp	IP 67
IP protection type, control unit	IP 65
Cable type	H05VV-F3G1.5 mm ²
Cable type 2	Special-TPE 2x0,5 mm ²
Power-lead length	5 m

Art. no. 0981 300 010

P. Qty.: 1

LED work lamp DCM

Daylight lamp – switch the colour temperature from **warm white (4,500 Kelvin)** for light surfaces, to **cold white (6,500 Kelvin)** for dark surfaces

- 5-level lighting: 500-5000 lumen
- COB LED technology
- Adjustable beam angle, for use with roller stand

Min. colour rendering index (CRI)	96
Luminous flux	5000 lm
Colour temperature	4500 K
Colour temperature 2	6500 K
IP protection class	IP 67
Cable type	H05RN-F3G1 mm ²
Power-lead length	5 m

Art. no. 0981 181 119

P. Qty.: 1

CRI+ colour rendering index (average of all 15 R values) for precise and reliable colour rendering

POWERDISK LED wide-area light 360° 50,000 lumen

Downward and upward lighting (ceiling lighting) possible. Infinitely adjustable dimming.

- Opalescent cover for a comfortable brightness level with reduced glare
- Passive, non-wearing cooling technology (maintenance free)
- Housing: aluminium/stainless steel, cover: polycarbonate

Design	Taster dimmer infinitely variable (1-100 %)
Luminous flux	50000 lm
Lamp light power	62000 lm
Colour temperature	5000 K
IP protection class light exit downwards	IP 65
IP protection class light exit to the top	IP 63
Impact resistance	IK10
Cable type	H07BQ-F3G1,5 mm ² /5G1 mm ²
Power-lead length	10 m

Art. no. 0981 180 801

P. Qty.: 1

LED wide-area light WGL 2 360° 80,000 lumen

Light segments can be switched on and off individually (360°/180°). Infinitely adjustable dimming.

- LED panel with 4 highly efficient Xpect2 LED modules (approx. 140 lm/W)
- Quick one-man assembly
- Low wind load

Design	Switchbox (1-100%)
Luminous flux	80000 lm
Lamp light power	90000 lm
Colour temperature	5000 K
IP protection type, lamp	IP 67
IP protection type, control unit	IP 65
Impact resistance	IK10
Cable type	Ölflex 540 P 3G1,5 mm ² /7G0,75 mm ²
Power-lead length	8 m

Art. no. 0981 180 851

P. Qty.: 1

WGL 1 LED wide-area light 360° 40000 lumen

Light segments can be switched on and off individually (360°/180°). Infinitely adjustable dimming.

- LED panel with 4 highly efficient Xpect2 LED modules (approx. 140 lm/W)
- Quick one-man assembly
- Low wind load

Design	Switchbox (1-100%)
Luminous flux	40000 lm
Lamp light power	45000 lm
Colour temperature	5000 K
IP protection type, lamp	IP 67
IP protection type, control unit	IP 65
Impact resistance	IK10
Cable type	Ölflex 540 P 3G1,5 mm ² /7G0,75 mm ²
Power-lead length	8 m

Art. no. 0981 180 841

P. Qty.: 1

Tripod for work lamps

With two-way, continuous height adjustment

- Three legs for stable, firm positioning
- Folding and telescopic

Min./max. height	100-240 cm
Material	Steel pipe

Art. no. 0981 100 1

P. Qty.: 1

Elevator tripod for work lamps

Self-braking coupling, folding crank handle

- For accommodating 16- and 28-mm pins
- Height infinitely adjustable
- Can slide or fold together, stable and secure footing thanks to three legs (one foot is adjustable to compensate for uneven terrain)

Min./max. height	174-380 cm
Material	Steel pipe

Art. no. 0981 102 1

P. Qty.: 1

LED hand-held lamp WLH 20

Soft, pleasant and low-shadow light for effortless work

- No need to change the bulb
- Lower power consumption
- No warm-up and pre-heating time
- Resistant to oil, petrol and UV radiation
- Made in Germany

Luminous flux	620 lm
IP protection class	IP 64
Impact resistance	IK08
Protection class	Protection class II/protective insulation
Min./max. nominal voltage	220/240 V/AC
Min./max. frequency	50/60 Hz
Cable type	H05BQ-F2x1 mm ²
Power-lead length	5 m

Art. no. 0981 742

P. Qty.: 1

LED hand-held lamp WLH 6

Soft, pleasant and low-shadow light for effortless work

- No warm-up and pre-heating time
- Resistant to oil, petrol and UV radiation
- Made in Germany

Luminous flux	500 lm
IP protection class	IP 64
Impact resistance	IK07
Protection class	Protection class II/protective insulation
Min./max. nominal voltage	220/240 V/AC
Min./max. frequency	50/60 Hz
Cable type	H05BQ-F2x1 mm ²
Power-lead length	5 m

Art. no. 0981 736

P. Qty.: 1

LED electronic engine compartment hand-held lamp

With self-clamping, quick-fastening attachment

- Suitable for bonnets 110 - 190 cm wide
- Optimum protection against cable breakage
- Resistant to oil and petrol

Luminous flux	1590 lm
IP protection class	IP 64
Impact resistance	IK08
Protection class	Protection class II/protective insulation
Min./max. nominal voltage	220/240 V/AC
Min./max. frequency	50/60 Hz
Cable type	H05BQ-F2x1 mm ²
Power-lead length	5 m

Art. no. 0981 750

P. Qty.: 1

Rechargeable work lamp and emergency power lamp EX SLE 15

Continuous, flashing and emergency lamp function

- With emergency light function
- 110° swivelling lamp head
- Robust and impact-resistant plastic housing

Luminous flux	60 lm
Lighting range	200 m
Lamp type of main lamp	Xenon
Luminous period of main light	4 h
Lamp type of pilot lamp	LED
Luminous period of pilot light	85 h
Charging time	15 h
IP protection type, lamp	IP 64
IP protection type charger	IP 20

Art. no. 0827 820 110

P. Qty.: 1

Ex II 2 G Ex ib II CT4 / II 2 D Ex ibD 21 T 135 °C

Battery-powered LED hand-held lamp, WLH 30 Premium

Stripe LED 2.5 W

State-of-the-art lithium polymer battery technology

Short charging time; lamp can be used for long periods

Number of LEDs

- 1 x 2.5-W LED strip
- 1 x indicator light – shows when the lamp needs to be charged

Luminous flux	200 lm
Luminous period	5 h
Charging time	3 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	7.4 V/DC
Rechargeable battery/battery capacity	2200 mAh

Art. no. 0827 940 130

P. Qty.: 1

Battery-powered LED hand-held lamp, WLH 1+1 Premium

Stripe LED 1.2 W

State-of-the-art lithium polymer battery technology

Short charging time; lamp can be used for long periods

Number of LEDs

- 1 x 1.2-W LED strip
- 1 x 1-W LED (for torch function)
- 1 x indicator light – shows when the lamp needs to be charged

Luminous flux main light	90 lm
Luminous flux side light	80 lm
Luminous period of main light	5 h
Luminous period of secondary light	5.5 h
Charging time	3 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	1800 mAh

Art. no. 0827 940 111

P. Qty.: 1

Cordless LED hand-held lamp WLH 1.2

Slimline design for confined spaces

Latest lithium polymer battery technology for short charging times and long-lasting performance

Number of LEDs

- 1 x COB LED 1.2 W
- 1 x LED (torch function)
- 1 x indicator light – shows when the lamp needs to be charged

Luminous flux main light	100 lm
Luminous flux side light	15 lm
Luminous period of main light	3 h
Luminous period of secondary light	24 h
Charging time	2.5 h
Impact resistance	IK07
IP protection type, lamp	IP 20
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	1000 mAh

Art. no. 0827 940 112

P. Qty.: 1

Battery-powered hand-held lamp HL12-A

Small and very practical lithium-ion battery-powered hand-held lamp with high-performance LED. Battery capacity can be selected freely thanks to PICK YOUR POWER.

- 1 W power LED
- Light duration up to 350 min/Ah
- Ergonomic handling thanks to soft grip
- Quick and easy mounting thanks to belt clip
- Lithium-ion technology
- Compatible with all 10.8 V and 12 V battery-powered system products

Luminous period	350 min
Charging time	35 min
Nominal voltage	12 V/DC

Art. no. 5700 119 0

P. Qty.: 1

Battery-powered LED hand-held lamp WLH 1.3

Slimline design for confined spaces

State-of-the-art lithium polymer battery technology

Short charging time; lamp can be used for long periods

Number of LEDs

- 1 x COB LED 3 W
- 1 x LED (torch function)

Luminous flux main light	350 lm
Luminous flux side light	110 lm
Luminous period of main light	1.75 h
Luminous period of secondary light	4.5 h
Charging time	2 h
Impact resistance	IK07
IP protection type, lamp	IP 44
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	1100 mAh

Art. no. 0827 940 113

P. Qty.: 1

Cordless LED hand-held lamp WLH 1.4

SMD LED 0.5 W

State-of-the-art lithium polymer battery technology

Short charging time; lamp can be used for long periods

Number of LEDs

- 6 x SMD-LED 0.5 W
- 1 x indicator light – shows when the lamp needs to be charged

Luminous flux	250 lm
Luminous period	5 h
Charging time	4 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	2000 mAh

Art. no. 0827 940 114

P. Qty.: 1

WLH 1.5 cordless LED hand-held lamp

Slimline design for confined spaces. COB LED 5 W

State-of-the-art lithium polymer battery technology

Short charging time; lamp can be used for long periods

Number of LEDs

- 1 x COB LED 5 W
- 1 x 3-W LED (for torch function)
- 5 x green LEDs (remaining capacity display)

Luminous flux main light	600 lm
Luminous flux side light	120 lm
Luminous period of main light	2 h
Luminous period of secondary light	10 h
Charging time	4 h
Impact resistance	IK07
IP protection type, lamp	IP 54
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	2600 mAh

Art. no. 0827 940 115

P. Qty.: 1

Battery-powered LED hand-held lamp WLH 1+1 AC/R

Rechargeable (R) lamp can be charged during mains operation (AC).

- Light can remain permanently connected to the mains
State-of-the-art lithium-ion battery technology and built-in overload protection enable simultaneous charging and operation.
- The light can be quickly and easily disconnected from the mains using a push button
Quick-release function

Luminous flux main light	365 lm
Luminous flux side light	150 lm
Colour temperature	6000 K
Luminous period of main light	4 h
Luminous period of secondary light	7 h
Charging time	3.5 h
Impact resistance	IK07
IP protection type, lamp	IP 54
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	2600 mAh

Art. no. 0827 940 116

P. Qty.: 1

LED head lamp SL1

2 light functions (power, low power)

- 90° swivelling lamp head
- Infinitely dimmable light intensity and focussing

Min./max. luminous flux	5/120 lm
Lighting range min./max.	20/100 m
Min./max. luminous period	6-60 h
IP protection class	IP X4
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	3 PCS

Art. no. 0827 809 100

P. Qty.: 1

LED head lamp Z0

Meets all ATEX requirements (2014/34/EU)

- ATEX category 1/CENELEC classification zone 0
- 3 light programs (low power, power, flash)
- Swivelling lamp head

Min./max. luminous flux	58/115 lm
Adjustable focus	No
Lighting range min./max.	43/61 m
Min./max. luminous period	8-16 h
IP protection class	IP 54
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	3 PCS

Art. no. 0827 809 510

P. Qty.: 1

EX II 1 G Ex ia op is IIC T4...T3 Ga

LED head lamp High-Power SL2

2 light functions (power, low power)

- 90° swivelling lamp head
- Infinitely dimmable light intensity and focussing

Min./max. luminous flux	5/200 lm
Lighting range min./max.	20/120 m
Min./max. luminous period	4-60 h
IP protection class	IP X4
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	3 PCS

Art. no. 0827 809 120

P. Qty.: 1

LED head lamp High-Power SL4

4 light functions (power, low power, boost, blink)

- 90° swivelling lamp head
- Infinitely dimmable light intensity and focussing
- 5 light functions
- Transportation lock
Prevents accidental activation of the light

Min./max. luminous flux	20/250 lm
Lighting range min./max.	50/160 m
Min./max. luminous period	5-30 h
IP protection class	IP X6
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	4 PCS

Art. no. 0827 809 140

P. Qty.: 1

Battery-powered LED work lamp WLA 18.0

With two high-performance LED arrays for Würth machine batteries 18 V 4.0 Ah / 5.0 Ah.

- 2 x 10 W high-performance LED arrays
- Compact, robust design

Luminous flux	2750 lm
IP protection class	IP 20
Nominal voltage	230 V/AC
Rechargeable battery/battery capacity	4 Ah

Art. no. 0827 981 180

P. Qty.: 1

Battery-powered LED work lamp WLA 18.0 Compact

With one high-performance LED array for Würth machine batteries 18 V 4.0 Ah / 5.0 Ah.

- 1 x 10 W high-performance LED array
- Compact, robust design

Luminous flux	1200 lm
IP protection class	IP 20
Nominal voltage	230 V/AC
Rechargeable battery/battery capacity	4 Ah

Art. no. 0827 981 170

P. Qty.: 1

Battery-powered LED work lamp DCM

Daylight lamp — switch the colour temperature from warm white (4,500 Kelvin) for light surfaces, to cold white (6,500 Kelvin) for dark surfaces

- 2-in-1 dual system
can be powered with or without a charging cable (mains connection).
- Lithium-ion battery technology
Short charging time; lamp can be used for long periods

CRI+ colour rendering index (average of all 15 R values) for precise and reliable colour rendering

Min. colour rendering index (CRI)	96
Min./max. luminous flux	250/2500 lm
Colour temperature	4500 K
Colour temperature 2	6500 K
Min./max. luminous period	1-14 h
Charging time	2 h
Impact resistance	IK07
IP protection type, lamp	IP 67
IP protection type charger	IP 20
Nominal voltage	11.1 V/DC
Rechargeable battery/battery capacity	4400 mAh

Art. no. 0827 981 119

P. Qty.: 1

Cordless LED work lamp Sound

Small and compact work lamp with built-in speaker

- Lithium-ion battery technology
Short charging time; lamp can be used for long periods
- Wireless function
Simply connect the devices wirelessly and control the music from your mobile phone.

Min./max. luminous flux	300/600 lm
Colour temperature	6000 K
Min./max. luminous period	2.5-5 h
Charging time	5 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	5200 mAh

Art. no. 0827 981 800

P. Qty.: 1

Cordless LED work lamp

Rechargeable (R) lamp can be charged during mains operation (AC). 5-level lighting: 200–4000 lumens

State-of-the-art lithium-ion battery technology and built-in overload protection enable simultaneous charging and operation

- Light can remain permanently connected to the mains
- The mains connection line can be quickly and easily disconnected from the light

Made in Germany

Min./max. luminous flux	200/4000 lm
Colour temperature	5000 K
Min./max. luminous period	1-10 h
Charging time	5 h
Impact resistance	IK08
IP protection type, lamp	IP 54
IP protection type charger	IP 44
Nominal voltage	10.8 V/DC
Rechargeable battery/battery capacity	2500 mAh

Art. no. 0827 981 501

P. Qty.: 1

Rechargeable LED head lamp High-Power SL4R

Dimmable and focusable

- 4 light programs
Low Power, Power, Boost, Blink
- 5 light functions
- 90° swivelling lamp head

Min./max. luminous flux	20/300 lm
Lighting range min./max.	50/160 m
Min./max. luminous period	4-30 h
Charging time	5 h
IP protection type, lamp	IP 56
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/battery capacity	1400 mAh

Art. no. 0827 809 141

P. Qty.: 1

Battery-powered LED head lamp DCM

Daylight lamp — switch the colour temperature from warm white (4,500 Kelvin) for light surfaces, to cold white (6,500 Kelvin) for dark surfaces

- Sensor-controlled on/off
- 2-level lighting: 50% (80 lumens) and 100% (160 lumens)
- Wide beam

Min. colour rendering index (CRI)	96
Luminous flux	160 lm
Colour temperature	4500 K
Colour temperature 2	6500 K
Luminous period	2.5 h
Charging time	3 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	3.8 V/DC
Rechargeable battery/battery capacity	1600 mAh

Art. no. 0827 809 119

P. Qty.: 1

CRI+ colour rendering index (average of all 15 R values) for precise and reliable colour rendering

Pre-charged NiMH battery

The advantages of NiMH batteries combined with the benefits of primary batteries

- Can be left for long standby periods of more than one year without recharging
- Suitable for use in devices with high and low power requirements (e. g. digital camera or wall clock)
- Not affected by weather conditions

Type of rechargeable battery/ battery	NiMH
--	------

Rechargeable battery/battery designation	Nominal voltage	Rechargeable battery/battery capacity	Art. no.	P. Qty.
Micro AAA; R03; UM4	1.2 V/DC	800 mAh	0827 311	4
Mignon AA; R6; UM3	1.2 V/DC	2400 mAh	0827 312	4
Baby C; R14; UM2	1.2 V/DC	4500 mAh	0827 313	2
Mono D; R20; UM1	1.2 V/DC	8500 mAh	0827 314	2
E-Block; PP3; R22	8.4 V/DC	200 mAh	0827 315	1

Battery High Power

Battery power for energy-intensive applications

- High capacity combined with a long service life
- High-performance
- Very low level of self-discharge with a shelf life of five years

Type of rechargeable battery/ battery	Alkali
--	--------

Rechargeable battery/battery designation	Nominal voltage	Art. no.	P. Qty.
Micro AAA; LR03; AM4	1.5 V/DC	0827 111	4/60
Mignon AA; LR6; AM3	1.5 V/DC	0827 112	4/40
Baby C; LR14; AM2	1.5 V/DC	0827 113	2/10
Mono D; LR20; AM1	1.5 V/DC	0827 114	2/10
9 V block; E-block; 6LR61; 6AM6	9 V/DC	0827 115	1/20

Please consider the legal instruction at the beginning of this chapter.

Button cell Lithium 3V

Low level of self-dischargeLong shelf life of 10 years

Nominal voltage	3 V/DC
Type of rechargeable battery/ battery	Lithium

IEC designation for button-cell batteries	Diameter x height	Art. no.	P. Qty.
CR 1220 (DL 1220)	12.5 x 2 mm	0827 081 220	10/100
CR 1616 (DL 1616)	16 x 1.6 mm	0827 081 616	10/100
CR 1620 (DL 1620)	16 x 2 mm	0827 081 620	10/100
CR 1632 (DL 1632)	16 x 3.2 mm	0827 081 632	10/100
CR 2016 (DL 2016)	20 x 1.6 mm	0827 082 016	10/100
CR 2025 (DL 2025)	20 x 2.5 mm	0827 082 025	10/100
CR 2032 (DL 2032)	20 x 3.2 mm	0827 082 032	10/100
CR 2430 (DL 2430)	24 x 3 mm	0827 082 430	10/100
CR 2450 (DL 2450)	24 x 5 mm	0827 082 450	10/100

Please consider the legal instruction at the beginning of this chapter.

Button cell Alkaline manganese 1.5 V

Low level of self-dischargeLong shelf life of 3 years

Nominal voltage	1.5 V/DC
Type of rechargeable battery/ battery	AlMn

IEC designation for button-cell batteries	Diameter x height	Art. no.	P. Qty.
SR 41/LR 41 (V392;D392;A63)	7.9 x 3.6 mm	0827 08 392	10/100
SR 44/LR 44 (V 13 GS(V13 GA); V357; A76	11.6 x 5.4 mm	0827 08 13	10/100

Please consider the legal instruction at the beginning of this chapter.

Battery Alkaline manganese 12 V

Low level of self-discharge and long shelf life – of 3 years

Less temperature-sensitive and can be used for longer and under greater load without resulting in significant loss of voltage.

Nominal voltage	12 V/DC
Type of rechargeable battery/battery	AlMn

Art. no. 0827 08 23

P. Qty.: 10/100

Please consider the legal instruction at the beginning of this chapter.

Lithium battery

Can be used in virtually any device requiring a long operating period or high current drain (high current applications).

- Can be operated from -40°C to +60°C at full efficiency
- Extremely leak-proof
- 30% lighter than standard alkaline batteries
- Minimum self-discharge (excellent shelf life of over 10 years)
- Higher energy density for longer service life
- Very high current output

Type of rechargeable battery/battery	Lithium
--------------------------------------	---------

Rechargeable battery/battery designation	Nominal voltage	Art. no.	P. Qty.
3,0V CR123 A	3 V/DC	0827 08 123	10/100
Micro AAA; L92; FR03	1.5 V/DC	0827 000 010	2/40
Mignon AA; L91; FR6	1.5 V/DC	0827 000 020	2/28

Please consider the legal instruction at the beginning of this chapter.

Battery charger PRO 4

Includes pre-charged NiMH batteries (4 x AAA and 4 x AA)

- Enhanced safety for the user
- Suitable for use with conventional batteries
- Suitable for use on the go, wherever you are

Min./max. input voltage	100-240 V/AC
Input voltage 2	12 V/DC
Charging voltage per battery	1.45 V/DC
Zero-watt technology	No
Charging current at USB output	1000 mA
Maximum number of charging slots for AAA batteries	4 PCS

Charging current for AAA battery	450 mA
Maximum number of charging slots for AA batteries	4 PCS
Charging current for AA battery	450 mA
Safety timer	Yes
Display	LCD
Individual slot monitoring	Yes
Overload protection (trickle charging)	Yes
Rechargeable battery defect detection	Yes
Temperature monitoring	No
Automatic refresh function	No
Quick test for capacity	No
Length x width x height	105 x 65 x 27 mm
Voltage shutdown	Yes
Product weight (per item)	487 g
IP protection class	IP 20
Included in delivery (Lieferumfang)	4 x pre-charged NiMH batteries (AAA), 4 x pre-charged NiMH batteries (AA), 1 power plug 100-240 V/AC, 1 x vehicle power plug 12 V/DC, operating instructions

Art. no. 0827 405

P. Qty.: 1

Multifunctional charger Pro 5

This quick charger with up to 1,800 mA charging current is the perfect combination of charger and test station.

- USB charging function with an output of 5 V/1000 mA
- Individual battery charge level monitoring (individual bay monitoring)
- Multiple battery overcharge protections and battery care feature

Min./max. input voltage	100-240 V/AC
Input voltage 2	12 V/DC
Charging voltage per battery	1.45 V/DC
Zero-watt technology	No
Charging current at USB output	1000 mA
Maximum number of charging slots for AAA batteries	4 PCS
Charging current for AAA battery	450 mA
Maximum number of charging slots for AA batteries	4 PCS
Charging current for AA battery	450 mA
Maximum number of charging slots for C batteries	4 PCS
Charging current for C battery	400 mA
Maximum number of charging slots for D batteries	4 PCS
Charging current for D battery	400 mA

Continuation **Multifunctional charger Pro 5**

Maximum number of charging slots for 9-V block batteries	1 PCS
Charging current for 9-V block battery	15 mA
Safety timer	Yes
Display	LCD
Individual slot monitoring	Yes
Overload protection (trickle charging)	Yes
Rechargeable battery defect detection	Yes
Temperature monitoring	Yes
Automatic refresh function	Yes
Quick test for capacity	Yes
Length x width x height	170 x 140 x 55 mm
Voltage shutdown	Yes
Product weight (per item)	520 g
IP protection class	IP 20
Included in delivery (Lieferumfang)	1 x power plug 100-240 V/AC, 1 x vehicle power plug 12 V/DC, operating instructions

Art. no. 0827 400 5

P. Qty.: 1

LED pen light

Includes retaining clip

Flash light

Switched on via the retaining clip

Continuous light

Switched on via the rotary switch

Adjustable focus	No
IP protection class	IP 20
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	2 PCS
Material of the housing	Aluminium

Art. no. 0827 500 006

P. Qty.: 1

Work lamp, mini

Switches on automatically when the lamp is unfolded

- Ultra compact: 19 x 6 x 3 cm when unfolded
- 18 LEDs
- Various attachment options
 - Magnetic clamp on the back
 - Folding hook that can be rotated 360°

Luminous flux	30 lm
IP protection class	IP 22
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	3 PCS
Material of the housing	ABS
Length (opened out)	19 cm
Height (opened out)	3 cm
Width (opened out)	6 cm

Art. no. 0827 500 018

P. Qty.: 1

LED pocket torch 4AA ELED ZOOM Z0

Meets ATEX requirements (2014/34/EU)

- Robust design
- Consistent lighting capacity for 80% of the battery operating time
- ATEX category 1/CENELEC classification zone 0
 - Explosive atmosphere is frequently present (10–1000 hours per year)

Luminous flux	77 lm
Adjustable focus	No
Lighting range	100 m
IP protection class	IP 67
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	4 PCS
Material of the housing	Plastic
Length x width x height	170 x 40 x 35 mm

Art. no. 0827 870 324

P. Qty.: 1

II 1G Ex ia op is IIC T4 Ga, II 1D Ex ia op is IIIC T75°C Da

LED pocket torch 2AAA Z1

Meets ATEX requirements (2014/34/EU)

- Robust and compact design
- ATEX category 2/CENELEC classification zone 1
Explosive atmosphere is frequently present (10-1000 hours per year)

Luminous flux	35 lm
Adjustable focus	No
Lighting range	60 m
IP protection class	IP 67
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	2 PCS
Material of the housing	Plastic
Length x width x height	132 x 24 x 22 mm

Art. no. 0827 870 312

P. Qty.: 1

II 2G Ex ib IIB T4 Gb, II 2D Ex ib IIIC T60°C Db

LED torch, standard

With magnetic retainer

Luminous flux	15 lm
Adjustable focus	No
Lighting range	25 m
IP protection class	IP 40
Rechargeable battery/battery designation	Mono D; LR20; AM1
Number of rechargeable batteries/batteries	2 PCS
Material of the housing	Aluminium/plastic
Length x width x height	185 x 58 x 58 mm

Art. no. 0827 750

P. Qty.: 1

High-end power LED pocket torch WX1

25 m light range

- Reflector lens technology
Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	25 lm
Adjustable focus	Yes
Lighting range	25 m
IP protection class	IP 54
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	1 PCS
Material of the housing	Aluminium

Art. no. 0827 806 501

P. Qty.: 1

High-end power LED torch WX2

25 m light range

- Reflector lens technology
Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	25 lm
Adjustable focus	Yes
Lighting range	25 m
IP protection class	IP 54
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	2 PCS
Material of the housing	Aluminium

Art. no. 0827 806 502

P. Qty.: 1

High-end power LED pocket torch WX3

110 m light range

- One-handed sliding focusing mechanism
- Reflector lens technology
 - Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	120 lm
Adjustable focus	Yes
Lighting range	110 m
IP protection class	IP 54
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	1 PCS
Material of the housing	Aluminium

Art. no. 0827 806 503

P. Qty.: 1

High-end power LED pocket torch WX4

150 m light range

- One-handed sliding focusing mechanism
- Reflector lens technology
Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	210 lm
Adjustable focus	Yes
Lighting range	150 m
IP protection class	IP 54
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	3 PCS
Material of the housing	Aluminium

Art. no. 0827 806 504

P. Qty.: 1

High-end power LED pocket torch WX5

180 m light range

- One-handed sliding focusing mechanism
- Power switch technology
Power mode 100% + power-saving mode 15%
- Reflector lens technology
Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	300 lm
Adjustable focus	Yes
Lighting range	180 m
IP protection class	IP 54
Rechargeable battery/battery designation	Micro AAA; LR03; AM4
Number of rechargeable batteries/batteries	4 PCS
Material of the housing	Aluminium

Art. no. 0827 806 505

P. Qty.: 1

High-end power LED pocket torch WX6

220 m light range

- One-handed sliding focusing mechanism
- Power switch technology
Power mode 100% + power-saving mode 15%
- Reflector lens technology
Reflector + lens = a reflector lens for maximum light efficiency
- Hard-gold-plated contacts

Luminous flux	410 lm
Adjustable focus	Yes
Lighting range	220 m
IP protection class	IP 54
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	4 PCS
Material of the housing	Aluminium

Art. no. 0827 806 506

P. Qty.: 1

High-end power LED pocket torch WX7

3 light modes: Boost (1000 lumens), Power (400 lumens) and Low Power (100 lumens)

- One-handed sliding focusing mechanism
- Reflector lens technology
- Hard-gold-plated contacts

Min./max. luminous flux	100/1000 lm
Adjustable focus	Yes
Lighting range min./max.	45/450 m
IP protection class	IP 54
Rechargeable battery/battery designation	Mono D; LR20; AM1
Number of rechargeable batteries/batteries	3 PCS
Material of the housing	Aluminium
Length x width x height	324 x 53 x 53 mm

Art. no. 0827 806 507

P. Qty.: 1

LED pocket torch 4AA RFL Z0

Meets ATEX requirements (2014/34/EU)

ATEX category 2/CENELEC classification zone 1

Explosive atmosphere is frequently present (10–1000 hours per year)

- Robust design
- Maximum safety and reliability

Luminous flux	225 lm
Adjustable focus	No
Lighting range	200 m
IP protection class	IP 67
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	4 PCS
Material of the housing	Plastic
Length x width x height	158 x 36 x 41 mm

Art. no. 0827 870 326

P. Qty.: 1

II 1G Ex ia op is IIC T4 Ga, II 1D Ex ia op is IIIC T75°C Da

LED pocket torch 4AA SUREFOOT Z0

Meets ATEX requirements (2014/34/EU)

ATEX category 2/CENELEC classification zone 1

Explosive atmosphere is frequently present (10–1000 hours per year)

Luminous flux	170 lm
Adjustable focus	No
Lighting range	200 m
IP protection class	IP 67
Rechargeable battery/battery designation	Mignon AA; LR6; AM3
Number of rechargeable batteries/batteries	4 PCS
Material of the housing	Plastic
Length x width x height	154 x 36 x 41 mm

Art. no. 0827 870 327

P. Qty.: 1

II 1G Ex ia op is IIC T4 Ga, II 1D Ex ia op is IIIC T75°C Da

LED battery-powered torch, T45

Robust plastic design

Cannot be overcharged

For vehicle sockets and cigarette lighters

Clearly defined, uniform light cone

thanks to the special lens

Light intensity	30 cd
Adjustable focus	No
Luminous period	1 h
Charging time	15 h
IP protection class	IP 20
Protection class lamp	Protection class III/safety extra-low voltage
Type of rechargeable battery/battery	NiMH

Art. no. 0827 800 1

P. Qty.: 1

LED battery-powered torch, T600

- Robust plastic design
- Cannot be overcharged
- High luminosity thanks to the 4 LEDs with focused lenses

Light intensity	120 cd
Adjustable focus	No
Lighting range	50 m
Luminous period	12 h
Charging time	14 h
IP protection class	IP 54
Protection class lamp	Protection class II/protective insulation
Type of rechargeable battery/battery	NiMH

Art. no. 0827 802 11

P. Qty.: 1

Xtreme Power XP5 LED lamp

Rechargeable, dimmable and focusable

- Xtreme Power battery (LiFePo4)
- 6 light programmes
- Emergency light function in the event of a power failure
- Energy management system indicates the current battery level

Min./max. luminous flux	100/1000 lm
Lighting range min./max.	150/450 m
Min./max. luminous period	8-60 h
Charging time	2.5 h
IP protection type, lamp	IP 54

IP protection type charger	IP 20
Protection class lamp	Protection class III/safety extra-low voltage
Protection class charger	Protection class II/protective insulation
Type of rechargeable battery/battery	Li-FePO4

Art. no. 0827 806 005

P. Qty.: 1

LED ceiling and wall lamp Building site

The robust light for damp areas features highly efficient lighting technology for lighting on construction sites and industrial plants

- Characterised by ease of installation and quick assembly
Includes 2 mounting clips made of metal and a quick-closure
- Fitted with through-wiring as standard
- For wall and ceiling mounting

Min. colour rendering index (CRI)	80
Colour temperature	5000 K
IP protection class	IP 65

Luminous flux	Art. no.	P. Qty.
4000 lm	0993 981 600	1
6000 lm	0993 981 610	1

Electrical cable winder

Innovative safety locking mechanism prevents uncontrolled unwinding of the cable

- Rotatable wall bracket with locking mechanism
- Rugged plastic housing
- Drum mounted on ball bearings on both sides
- Thermal circuit breaker prevents overloading

Cable length (rolled up)	12 m
Cable type	H07RN-F3G1.5 mm ²
IP protection class	IP 44
Nominal voltage	250 V/AC
Power (with cable rolled up)	1380 W
Power (with cable unrolled)	2300 W
Min./max. temperature conditions	0 to 50 °C
Length x width x height	350 x 170 x 315 mm

Art. no. 0774 12

P. Qty.: 1

Plastic cable drum 250 V

K2 in line with BGI 600

- Drum body made from special plastic
- Large, swivelling crank handle
- New type of plug mounting
- RN cable approved for use in difficult construction conditions in line with VDE 0100 Part 704
- Complies with BGI 608
- Tested in accordance with EN standard 61242

Cable type	H07RN-F3G1.5 mm ²
Design	3 grounding-contact sockets, 16 A, 250 V
Plug connector	1 Schuko plug, 16 A
Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP X4
Protection class	Protection class II/protective insulation
Length x width x height	290 x 210 x 395 mm
Plug type	F
Standards	EN 61242
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Cable length	Art. no.	P. Qty.
25 m	0774 125 315	1
40 m	0774 140 315	1

Plastic cable drum Compact 250 V

Also suitable for outdoor use

- RN cable approved for use in difficult construction conditions in line with VDE 0100 Part 704
- Made in Germany

Cable length	10 m
Cable type	H07RN-F3G1.5 mm²
Design	3 grounding-contact sockets, 16 A, 250 V
Plug connector	1 Schuko plug, 16 A
Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 44
Protection class	Protection class II/protective insulation
Length x width x height	190 x 155 x 255 mm
Plug type	F
Standards	EN 61242
Overheating protection	Thermal circuit-breaker

Art. no. 0774 101 010

P. Qty.: 1

- Complies with BGI 608
- Tested according to EN standard 61242

Sheet steel cable drum

H07RN-F3G1.5 mm²

- Made in Germany
- Innovative plug mounting
- Locking brake with „Open/Close switch“
- RN cable is approved for difficult construction conditions according to VDE 0100 Part 704

Cable length	40 m
Cable type	H07RN-F3G1.5 mm²
Design	3 grounding-contact sockets, 16 A, 250 V
Nominal current	16 A
Nominal voltage	230 V/AC
IP protection class	IP 44
Protection class	Protection class I/protective grounding
Length x width x height	290 x 243 x 393 mm
Plug type	F

Continuation **Sheet steel cable drum**

Power (with cable unrolled)	3500 W
Power (with cable rolled up)	1100 W
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Art. no. 0774 040 315

P. Qty.: 1

Tested in accordance with EN standard 61242

Sheet steel cable drum

H05VV-F3G1.5 mm²

- Shock-absorbing, bright galvanised steel tube frame
- Thermal circuit breaker with restarting protection as per VDE 0620
- H05VV-F plastic cable for use in dry rooms, sensitive to cold

Cable length	50 m
Cable type	H05VV-F3G1.5 mm ²
Design	3 grounding-contact sockets, 16 A, 250 V
IP protection class	IP 20
Length x width x height	285 x 190 x 360 mm
Plug type	F
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Art. no. 0774 50 11

P. Qty.: 1

Sheet steel cable drum

H05RR-F3G1.5 mm²

- Shock-absorbing, bright galvanised steel tube frame
- Thermal circuit breaker with restarting protection as per VDE 0620
- H05RR-F rubber cable for use in dry rooms, largely cold-resistant

Cable length	50 m
Cable type	H05RR-F3G1.5 mm ²
Design	3 grounding-contact sockets, 16 A, 250 V
IP protection class	IP 20
Length x width x height	285 x 190 x 360 mm
Plug type	F
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Art. no. 0774 50 1

P. Qty.: 1

Plastic cable drum

3 250 V shockproof sockets with hinged safety covers

- Drum housing made of special plastic
- Generously dimensioned, swivelling rotary crank handle
- Innovative plug mounting
- Locking brake with „Open/Close switch“
- Made in Germany

Cable type	Unpopulated (only designed for 1.5 mm ²)
Design	3 grounding-contact sockets, 16 A, 250 V
Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	Dependent on the cable installed
Protection class	Protection class II/protective insulation
Length x width x height	290 x 210 x 395 mm
Plug type	F
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Art. no. 0774 100 000

P. Qty.: 1

Plastic cable drum CEE 400 V

K2 in compliance with DGUV Information 203-005 (formerly BGI 600)

- Drum body made from special plastic
- Large, swivelling crank handle
- RN cable approved for use in difficult construction conditions in line with VDE 0100 Part 704
- Made in Germany

Cable length	25 m
Cable type	H07RN-F5G2.5 mm ²
Design	2 grounding-contact sockets, 16 A, 250 V, 1 CEE electrical outlet, 5-pole, 16 A, 400 V
Plug connector	1 CEE plug 3P+N+E, 16 A
Nominal current	16 A
Nominal voltage	400 V/AC
IP protection class	IP X4
Protection class	Protection class II/protective insulation
Length x width x height	290 x 210 x 395 mm
Plug type	F
Standards	EN 61316
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Art. no. 0774 125 525

P. Qty.: 1

- Complies with DGUV Information 203-006 (formerly BGI 608)
- Tested in compliance with EN standard 61316

Continuation **Plastic cable drum CEE 400 V**

Plastic cable drum 250 V

K2 in compliance with DGUV Information 203-005 (formerly BGI 600)

- Complies with DGUV Information 203-006 (formerly BGI 608)
- Tested in compliance with EN standard 61242
- RN cable approved for use in difficult construction conditions in line with VDE 0100 Part 704
- Made in Germany

Cable type	H07RN-F3G2.5 mm ²
Design	3 grounding-contact sockets, 16 A, 250 V
Plug connector	1 Schuko plug, 16 A
Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP X4
Protection class	Protection class II/protective insulation
Length x width x height	290 x 210 x 395 mm
Plug type	F
Standards	EN 61316
Overheating protection	Thermal circuit-breaker with restarting protection as per VDE 0620

Cable length	Art. no.	P. Qty.
25 m	0774 125 325	1
33 m	0774 133 325	1

- Complies with DGUV Information 203-006 (formerly BGI 608)
- Tested in compliance with EN standard 61242

Safety distributor PRCD-S+

1-button operation – conventional “test” button is not required

- Portable residual current device with differentiated measuring current ≤ 30 mA for alternating currents, pulsating direct fault currents and phased fault currents
- Intermediate in-line device for direct connection in the line
- Fully automatic testing of correct connection conditions

Cable type	H07RN-F3G1.5 mm ²
Length	3000 mm

Nominal current	16 A
Frequency	50 Hz
Nominal residual current	30 mA
Nominal voltage	230 V/AC
IP protection class	IP 44
Cable connection	Solid rubber plug
Min./max. operating temperature	-25 to 45 °C

Cable outlet	Art. no.	P. Qty.
Solid-rubber connector with 3 m cable	0774 610 002	1
Triple solid-rubber connector with 3 m cable	0774 610 003	1

H07RN-F CEE extension

For indoor and outdoor use

With phase changing switch	No
Nominal voltage	400 V/AC
IP protection class	IP 44

Cable length	Cable type	Max. current	Nominal current	Art. no.	P. Qty.

Mobile plastic upright distributor

Portable, compact and robust design

- Impact and weather-resistant plastic housing
- For indoor and outdoor use.
- Portable socket distributors as a special supply point in accordance with DIN VDE 0100 Part 704 for connecting AC and three-phase power consumers on construction sites downstream of a connection distributor cabinet or a distributor/end distributor cabinet.

IP protection class	IP 44
Min./max. temperature conditions	-25 to 40 °C
Material	PA - Polyamide
Length x width x height	250 x 250 x 245 mm

Output	Input	Cable type	Cable length	Main fuse	Art. no.	P. Qty.

In accordance with IEC 60309, EN 60309 and VDE 0623

CEE reducer plug adapter

With phase inverter

- Input: CEE phase converter, 32 A, 5P, 400 V
- Output: CEE socket, 16 A, 5P, 400 V (protected by circuit breaker, 16 A, 3P, C)
- Nickel-plated contacts

Number of connections	2 PCS
Nominal current	16 A
Nominal voltage	400 V/AC
Main fuse	CEE 16 A - 1LS 16 A 3P C
Colour	Grey, Red
IP protection class	IP 44
Material of the housing	PA - Polyamide
Material of the contacts	Brass nickel-plated
Length x width x height	281 x 80 x 98 mm

Art. no. 0969 780 101

P. Qty.: 1

In accordance with IEC 60309, EN 60309 and VDE 0623

Grounding contact 3-way coupling with self-closing lid

For cables up to 3G 2.5 mm²

- With suspension fixture
- Time saving due to screwless tension relief
- For indoor and outdoor use

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 44
Max. cable diameter	13 mm
Design	With self-closing spring covers
Material	Rubber
Colour	Black

Art. no. 0969 303 301

P. Qty.: 1/5

2-component grounding contact coupling

With voltage display

- For cables up to 3G 2.5 mm²
- For very high mechanical loads, can be rolled over with up to 4 tonnes
- Resistant to UV, heat and cold

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 54
Max. cable diameter	13 mm
Design	With lid
Material	Plastic
Colour	Grey, Black, Red

Art. no. 0969 305 200

P. Qty.: 1/5

DIN 49440/441

Grounding contact coupling with self-locking flip lid

For cables up to 3G 2.5 mm²

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 54
Max. cable diameter	13 mm
Design	With self-closing spring cover
Material	Rubber plastic
Colour	Black, Grey, Red

Art. no. 0969 301 421

P. Qty.: 1/10

Grounding contact coupling with lid

For cables up to 3G 2.5 mm²

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 54
Max. cable diameter	13 mm
Design	With lid

Continuation **Grounding contact coupling with lid**

Material	Rubber plastic
Colour	Black, Grey, Red

Art. no. 0969 301 411

P. Qty.: 1/10

Grounding contact coupling

For cables up to 3G 2.5 mm²

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 20
Max. cable diameter	13 mm
Design	Without lid
Material	Rubber plastic
Colour	Black, Grey

Art. no. 0969 301 401

P. Qty.: 1/10

Grounding contact plug

For cables up to 3G 2.5 mm²

Nominal current	16 A
Nominal voltage	250 V/AC
IP protection class	IP 54
Max. cable diameter	13 mm
Material	Rubber plastic
Colour	Black, Grey

Art. no. 0969 300 401

P. Qty.: 1/20

2-component grounding contact plug

For cables up to 3G 2.5 mm²

- With double earthing system according to German and Belgian/French standard
- For very high mechanical loads, can be rolled over with up to 4 tonnes
- Resistant to UV, heat and cold

Nominal current	16 A
Nominal voltage	250 V/AC

Continuation **2-component grounding contact plug**

IP protection class	IP 54
Max. cable diameter	13 mm
Material	Plastic
Colour	Grey, Black, Red

Art. no. 0969 305 100

P. Qty.: 1/5

DIN 49440/441

Plastic spacer bolts

With female/female thread

Thread type x nominal diameter	M3
Width across flats (SW)	6 mm
Material	Plastic
Colour	Black

Length (L)	Female-thread length (c)	Art. no.	P. Qty.
10 mm	5 mm	0968 200 610	100
15 mm	7.5 mm	0968 200 615	100

For FLEXEN® heating rubber S2, cold rubber plus, cold rubber, PE, PE stable, eccentric block, compact

Container	Contents	Art. no.	P. Qty.
Brush box	260 ml	0892 100 062	1/24
Can	790 ml	0892 100 063	1/20
Canister	2600 ml	0892 100 064	1/6

Blade, smooth

Ideal for cutting various insulating materials.

- Includes artificial leather sheath
- Robust, handy handle with finger guard

Material	Steel
Material of the grip handle	1-component plastic
Blade length	28 cm
Design	Single-edged, straight

Art. no. 0874 110 001

P. Qty.: 1

Blade, serrated

Double serrated blade

- Includes artificial leather sheath
- Double-edge blade
- Robust, handy wood handle with finger guard

Material	Steel
Material of the grip handle	Wood
Blade length	27.5 cm
Design	Double-edged, corrugated

Art. no. 0874 110 004

P. Qty.: 1

PVC sheathing system, 90° bend Ideal for protecting and coating pipes.

Impact-resistant and water-repellent

Material	Polyvinyl chloride hard film
Foil thickness	350 µm
Colour	Light grey

Diameter	Suitable for pipe diameter x insulation thickness	Art. no.	P. Qty.

FLEXEN® packing wool

Loose rock wool in 10 kg sack

Material	Mineral wool
Building material class/conditions	A1 - Non-flammable/in accordance with DIN 4102
Min. melting temperature	1000 °C
Conditions for melting point	in accordance with DIN 4102

Art. no. 0874 110 014

P. Qty.: 1

Winding wire

Material	Steel
Surface	Zinc plated
Wire diameter	0.8 mm
Weight	100 g
Wire length	25 m

Art. no. 0874 111 100

P. Qty.: 25

PVC sheathing system, endless roll

- Impact-resistant and water-repellent
- Curled

Material	Polyvinyl chloride hard film
Foil thickness	350 µm
Colour	Light grey (bright grey)
Width	1 m
Length of roll	25 m

Art. no. 0874 203 001

P. Qty.: 25

FLEXEN® eccentric block compact

Mainly made of renewable raw materials. Especially suitable for installation on unfinished concrete floors.

Environmentally friendly, sustainable, CO2 neutral

Polyethylene from sugar cane instead of oil

Prevents weak points in the screed and guarantees footfall sound insulation for the screed substructure

Square, narrow shape, fits perfectly in the screed foundation

Less material for screed foundation, lower build height for overall structure

Low installation height

Material	Closed cell polyethylene
Material of outer layer	Polyethylene, coextruded

Colour	Application range according to GEG	Insulation thickness x pipe diameter	Art. no.	P. Qty.

FLEXEN® PUR

With self-seal technology

Self-seal technology with adapted curling

- Guarantees long-lasting attachment of the longitudinal seam and a flawless appearance
- Even quicker and easier to lay thanks to the self-seal technology

Particularly well-suited to insulation in visible areas due to the easy-to-clean PVC Isogenopak film

Vapour-retardant properties thanks to the PVC outer surface

Rot and decay resistant

Material	Polyurethane foam
Material of outer layer	PVC - Polyvinyl chloride
Colour	Grey
Adhesive system	Self-adhesive, overlapped

Insulating-material thickness	9 mm

DN nominal width	Art. no.	P. Qty.
DN 50	0873 100 050	10/90
DN 70	0873 100 070	10/70
DN 90	0873 100 090	10/40
DN 100	0873 100 100	10/40
DN 125	0873 100 125	10/40

Noise protection tested in accordance with DIN 4109/VDI 4100

White fabric adhesive tape

Suitable for pre-insulated copper pipe

Colour	White
Width	50 mm
Length	50 m

Art. no. 0874 100 210

P. Qty.: 1/24

Please consider the legal instruction at the beginning of this chapter.

Rubber wrapping tape, black

For FLEXEN cold rubber plus/FLEXEN cold rubber

Colour	Black
Adhesive system	Self-adhesive
Width	50 mm
Thickness	3 mm
Length of roll	15 m

		Art. no.	P. Qty.
		0874 105 020	1/12
		0874 105 021	1/8

Noise protection, wrapping tape

For FLEXEN noise protection

Design	With film
Width	70 mm
Thickness	6 mm
Length	5 m

Adhesive system	Art. no.	P. Qty.
	0874 105 050	10
Self-adhesive	0874 105 051	10

Rubber wrapping tape, grey

For FLEXEN® heating rubber S2

Colour	Grey
Adhesive system	Self-adhesive
Width	50 mm
Thickness	3 mm
Length of roll	15 m

Art. no. 0874 105 010

P. Qty.: 1/12

PE wrapping tape

Suitable for FLEXEN® PE protective hose

Design	With film on one side
Width	70 mm
Thickness	2 mm
Length	5 m

Adhesive system	Art. no.	P. Qty.
	0874 105 060	20
Self-adhesive	0874 105 061	20

Fleece wrapping tape B2

Suitable for FLEXEN fleece protective hose B2

Design	With film
Width	70 mm
Thickness	2 mm
Length	5 m

Adhesive system	Art. no.	P. Qty.
	0874 105 070	20
Self-adhesive	0874 105 071	20

Fleece wrapping tape

Width	70 mm
Thickness	2 mm
Length	5 m

Design	Adhesive system	Art. no.	P. Qty.
Without film	Self-adhesive	0874 105 040	20
With film		0874 105 041	20
With film	Self-adhesive	0874 105 042	20

Metric copper pipe Pre-insulated

Single pipe certified according to DIN EN 12735-1 with an insulation of polyethylene with tear-resistant outer skin

- Tear-resistant outer skin
- UV-resistant

Pipe-wall thickness	1 mm
Length	25 m

Outer diameter of pipe	Art. no.	P. Qty.
6 mm	0868 510 006	25
10 mm	0868 510 010	25
12 mm	0868 510 012	25
16 mm	0868 510 016	25
18 mm	0868 510 018	25
22 mm	0868 510 022	25

Metric copper pipe Pre-insulated

Double pipe certified according to DIN EN 12735-1 with an insulation of polyethylene with tear-resistant outer skin

- Tear-resistant outer skin
- UV-resistant
- Double pipe can be easily separated into two individual pipes without damaging the insulation

Pipe-wall thickness	1 mm
Length	20 m

Outer diameter of pipe	Outer diameter of pipe 2	Art. no.	P. Qty.
6 mm	10 mm	0868 510 610	20
6 mm	12 mm	0868 510 612	20

Ventilation duct sealing tape

One-sided self-adhesive, without cover film

- For sealing ventilation ducts and exhaust air systems
- Silicone-free

Material	Closed cell polyethylene
Colour	Grey
Min./max. temperature conditions	-30 to 80 °C
Shelf life from production	12 Month

Thickness	Width	Length of roll	Art. no.	P. Qty.
4 mm	9 mm	20 m	0876 909 04	100

Please consider the legal instruction at the beginning of this chapter.

Butyl sealing tape

Butyl rubber-based double layered tape

The film can take mechanical loads and is tear-proof

Screw heads can be covered without difficulty

The adhesive is odourless and contains no solvents, chlorinated hydrocarbons or aromatic hydrocarbons

No unpleasant odour during application or during subsequent operation of the plant

Adhesive base	Butyl natural rubber
Colour	Silver grey (base material)
Length	15 m
Width	50 mm
Total thickness	0.6 mm
Min./max. processing temperature	5 to 40 °C
Min./max. temperature resistance	-30 to 80 °C

Art. no. 0874 100 401

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Rapid repair tape HR

Highly resistant, self-fusing silicone tape for immediate repairs and sealing tasks

- Resistant to many media
- Water and air-tight in seconds
- Very versatile
- Very simple and fast application
- Also works on wet or oily surfaces and under water
- Removable without residue
- Permanently elastic

Backing material	Silicone
Width	25 mm
Length	3.65 m
Total thickness	0.5 mm
Min./max. processing temperature	-50 to 260 °C
Min./max. temperature resistance	-60 to 260 °C
Ultraviolet resistance	Yes
Moisture resistance	Yes

Colour	Product weight (per item)	Art. no.	P. Qty.
Black	74 g	0985 077 230	1
Red	64 g	0985 077 231	1
Transparent	67 g	0985 077 232	1

Please consider the legal instruction at the beginning of this chapter.

Cold-shrink tape

Butyl rubber-based double layered tape

- Highly flexible and adaptable polyethylene film
- The film can take mechanical loads and is tear-proof
- The adhesive is odourless and contains no solvents, chlorinated hydrocarbons or aromatic hydrocarbons
- The cold-shrink tape is UV-resistant when applied in a double layer

Backing material	PE film
Colour	Grey (base material)
Adhesive base	Active butyl natural rubber
Barrier layer	Foil
Width x length	50 mm x 15 m

Art. no. 0874 100 400

P. Qty.: 1/27

Please consider the legal instruction at the beginning of this chapter.

UV adhesive tape, Black

For installing the end sleeve and for insulation joints

- Waterproof
- Weather-resistant and UV-resistant

Backing material	Aluminium foil
Colour	Black
Width	50 mm
Length	25 m
Min./max. temperature resistance	-20 to 150 °C

Art. no. 0874 100 350

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Step wrench

For applications in sanitary facilities

- Drive: Square mount 1/2 inch
- Material: Chrome-vanadium steel
- Surface: matt chrome-plated
- Design: with cam, hexagon socket and bi-hexagon socket drives.

Drive	1/2 inch
-------	----------

Length (L)	Width across flats	Art. no.	P. Qty.
90 mm	3/8 inch, 3/4 inch, 1 inch, 1/2 inch, 12 mm	0715 43 009	1
110 mm	1 inch, 3/4 inch, 14 mm, 1/2 inch, 12 mm, 3/8 inch, 9.5 mm, 8 mm	0715 43 007	1

Pipe cutter

Easy cutting of aluminium, copper and thin-walled metal pipes

- Body, slide and turning knob made from high-pressure die-cast zinc
- Steel spindle bearings for smoother carriage movement
- Four guide rollers for optimum pipe grip during cutting
- Longer turning knob sits deep in the hand for effective power transmission
- Tool-free cutting wheel change

Min./max. cutting capacity in steel pipe	Art. no.	P. Qty.
3-45 mm	0714 551 345	1
3-35 mm	0714 551 236	1
3-35 mm	0714 551 331	1

Multi-functional installation wrench

For lavatory seats

- In robust and very high-quality plastic (ABS)
- Universal application, reversible
- Universal swivel head
- Tool produced entirely from plastic

Art. no. 0715 443 10

P. Qty.: 1

Screw retainers

Made of sendzimir-galvanized sheet steel, includes plastic cap

Many attachment options with

- Set screws
- Stud bolts
- Screws
- Plumbing pipe clamps
- Drive-in pins

Material	Steel
Surface	Sendzimir galvanized
Connection thread	M8
Length	102 mm
Width	52 mm

Art. no. 0877 100 002

P. Qty.: 25

Tensioning strap retainer

Made of sendzimir-galvanized sheet steel, complete with plastic cap and galvanized tensioning strap

- Attachments over 2 1/2" are also possible with the tensioning strap from the 5 m roll
- No drilling or welding required
- Suitable for all pipe materials
- No-rotation mounting

Material	Steel
Surface	Sendzimir galvanized
Length	102 mm
Width	52 mm

Art. no. 0877 100 001

P. Qty.: 25

Screw connection seal

- High pressure resistance
- High thermal stability
- DVGW-approved
- KTW-approved

Material	Raw material combination consisting of high-quality aramide fibres, special filling materials and elastomers
Colour	Green

Internal diameter x external diameter x thickness (d1 x d2)	Suitable for steel pipe (imperial)	Art. no.	P. Qty.

Installation putty

Non-hardening sealing compound with plastic base

Container	Can
Weight of content	500 g
Max. temperature resistance	100 °C

Art. no. 0892 756

P. Qty.: 1

PTFE thread-sealing tape

Used to seal thread connections

- Resistant to all aggressive media
- Does not stick or swell
- Alignment of the thread connection, which includes limited turn-back, is permissible

Material	Polytetrafluoroethylene
Width	12 mm
Length	12 m
Min./max. temperature resistance	-240 to 240 °C
Max. pressure	25 bar
Silicone-free	Yes

Coating weight per m ²	Thickness	Approval mark	Suitable for	Art. no.	P. Qty.
60 g	0.1 mm	DVGW	Fine thread max. nominal diameter 10	0985 030 160	10

25 g	0.08 mm			0985 030 165	10

Thread sealing tape

Universal thread sealant for sealing metal or plastic threaded connections

- Simple alignment and adjustment is possible
- No additional pastes required

DVGW-tested for gas, drinking water (cold/hot) and heating pipes in accordance with approval NV-S142BP7097 Class ARp

Material	PA - Polyamide
Coating	Silicone-containing, inert paste
Colour	White
Length	160 m
Min./max. temperature conditions	-20 to 130 °C
Approval mark	DVGW

Art. no. 0985 031 160

P. Qty.: 1/20

Universal stainless steel corrugated pipe

Can be bent by hand, though still robust and kink-resistant

- Easy and secure creation of a connection with plug-in screw connection or shaping device
- Tested safety with DVGW system certification (stainless steel corrugated pipe, fitting, union nut, seal)
- On rolls. Can be shortened to individual lengths, less wastage

Material	Stainless steel A4, 1.4404

Special lubricant

For HT pipes

- Environmentally friendly as completely biodegradable
- Free from chlorine, formaldehyde and polycyclic aromatics
- Free from substances detrimental to health
- Kind to the skin
- Colourless
- Silicon-free
- Water-soluble

Contents	250 ml
Container	Tube
Colour	Light green

Art. no. 0893 126

P. Qty.: 1/12

Plumbing mounting profile

Strips, self-adhesive on one side

- Can be used universally for all ceramic forms
- Reduces transmission of structure-borne noise
- Reduces ceramic breakage when screwing on

Material	PE - Polyethylene
Colour	Transparent
Length	0.5 m
Width	20 mm
Thickness	2 mm

Art. no. 0905 900 030

P. Qty.: 30

Sound-absorbing strips Universal

Self-adhesive and for universal use with all ceramic shapes

- Reduces transmission of structure-borne noise
- Prevents ceramic breakage when screwing on
- Thanks to its high flexibility, the sound-absorbing strips adapt perfectly to the ceramic, even in the narrowest radii

Material	PE - Polyethylene
Colour	White
Length	45 m
Width	18 mm
Thickness	2.5 mm

Art. no. 0888 001 011

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Tap extension

Pursuant to DIN 3523 for drinking water installations, made from hot-pressed brass pursuant to DIN EN 12164, with inner square, thermally relaxed

Material	Brass
Connection thread	ET 1/2 inch

Length	Art. no.	P. Qty.
15 mm	0886 000 001	10
20 mm	0886 000 002	10
25 mm	0886 000 003	10

Shower channel Mounting feet

With soundproof, height-adjustable mounting feet

One-piece, three-dimensional sealing collar with overlap

- 100% watertight
- Easy, reliable connection to the second sealing layer
- No additional sealing strips required

Sealing collar is only installed after the screed has been applied using the butyl sealing tape

- Edge of channel support can be used as a smoothing gauge.

- No damage to sealing collar during construction phase

Soundproof mounting feet, height adjustable from above (Allen key)

Easy, quick and accurate alignment of channel body

Second drainage line in accordance with DIN 18195-5

Prevents build-up of standing water on compound sealant and the associated damage

Can also be mounted on the wall itself

Flexible to use

Height of channel tray can be adjusted in situ

For universal use with covers from 3–12 mm (21 mm*)

Includes securing lugs and nail anchors

For fixing the shower channel to the surface

Min./max. height (H)	88-123 mm
Min./max. installation height with outlet horizontal 5273 320 021	88-123 mm
Min./max. installation height with outlet horizontal 5273 320 022	108-123 mm
Min./max. installation height with outlet horizontal 5273 320 023	108-123 mm
Min./max. installation height with outlet vertical with feet 5273 320 025	88-123 mm
Min. installation height with outlet vertical without feet 5273 320 025	60 mm
Channel-support material	Steel
Surface of the channel support	Zinc plated
Material of sealing collar	PP- Polypropylene
Channel-tray material	Stainless steel

Length x width (L x B)	Art. no.	P. Qty.
630 x 130 mm	5273 300 060	1

Tile recess Line

For linear shower pan, shower channel mounting feet, shower channel assembly block

Made from a single material — no separate installation clips/supports

- Nothing to break off/go missing
- Very easy to clean

Material	Stainless steel
Load class	K3 (up to 300 kg)

Length x width x height	Art. no.	P. Qty.
600 x 60 x 15 mm	5273 336 060	1

Shower pan Line

Floor-level shower unit with channel drain, sloping on one side.

Bonded sealing membrane with 7 cm overlap

- 100% watertight
- Easy, reliable connection to the second sealing layer
- No additional sealing strips required

General construction authority test certificate (ABP) relating to leak tightness

Safety tested for the overall system, i.e. shower pan, tile adhesive, sealing membrane, corner seals etc.

Height of channel tray can be adjusted in situ

For universal use with covers from 3–12 mm (21 mm²)

High strength

Suitable for barefoot and wheelchair use with a tile size of 2 x 2 cm or above

Min. installation height with outlet horizontal 5273 320 021	108 mm
Min. installation height with outlet horizontal 5273 320 022	128 mm

Shower channel Super flat

With integral drain

Very low installation height

Sealing collar with overlap

- 100% watertight
- Easy, reliable connection to the second sealing layer
- No additional sealing strips required

General construction authority test certificate (ABP) relating to leak tightness

Safety tested for the overall system, i.e. shower channel, tile adhesive, sealing membrane, corner seals etc.

Sealing collar is only installed after the screed has been applied using the butyl tape

No damage to sealing collar during construction phase

Can also be mounted on the wall itself

Flexible to use

Fully removable siphon

- Extremely easy to clean
- Suitable for pipe cleaning spirals

Height (H)	53 mm
Assembly block material	EPS rigid foam
Material of sealing collar	PP - Polypropylene
Channel-tray material	Stainless steel
Gutter width (B _g)	65 mm
Flange width (X)	15 mm

Drain rate	0.5 l/s
Water-trap height	25 mm
Nominal width of DN outflow	DN 40 horizontal

1240 x 102 mm	1200 mm	5273 304 120	1

Installation box, standard washbasin, masonry

Hot and cold water, connection dimensions: 150 mm

- Special plaster base board guarantees premium quality in the event of pressure or temperature fluctuations
- Easy height adjustment
- Pre-insulation
- Huge time savings through tension-free pre-mounted and ready-to-connect pipe feedthroughs
- Drywall can be sealed immediately
- Stable subsurface
- Optimum insulation

Installation box, washbasin, masonry

Cold water connection only

- Only cold-water connection
- Special plaster base board guarantees optimum quality in the event of pressure fluctuations or temperature fluctuations
- Angled corners for easier installation
- Easy height adjustment
- Pre-insulation
- Huge time savings, since pipe feedthroughs are pre-mounted without tension and ready for connection
- Drywall can be sealed immediately
- Support plate offers a permanently stable subsurface
- Optimum insulation

Box width	160 mm
Box height	270 mm

Installation box shower tray flush-mounted mixer masonry

Completely pre-installed box for rapid mounting and problem-free pipe feedthroughs

- Special plaster base board guarantees optimum quality in the event of pressure fluctuations or temperature fluctuations
- Angled corners for easier installation
- Easy height adjustment
- Pre-insulation
- Huge time savings, since pipe feedthroughs are pre-mounted without tension and ready for connection
- Drywall can be sealed immediately
- Base board offers a permanently stable subsurface
- Optimum insulation

Box width	365 mm
Box height	330 mm
Box depth	70 mm
DN tube connection	DN.. 20..
Pipe length	1500 mm
Material of the box	Closed-cell polyurethane foam
Material of the pipe	Polyethylene polymerised
Colour	Red

Installation box, shut-off valve, masonry

Completely pre-installed box for rapid mounting and problem-free pipe feedthroughs

- Special plaster base board guarantees premium quality in the event of pressure or temperature fluctuations
- Easy height adjustment
- Pre-insulation
- Huge time savings through tension-free pre-mounted and ready-to-connect pipe feedthroughs
- Drywall can be sealed immediately
- Base board offers a permanently stable subsurface
- Optimum insulation

Box height	180 mm
Box depth	70 mm
Pipe length	500 mm

Installation box water meter masonry

Includes shut-off valve 3/4 inch

- Firmly attached mounting with millimetre precision for optimum soundproofing
- Fast mounting with no need for screwing
- Huge time savings, since pipe feedthroughs are pre-mounted without tension and ready for connection
- Drywall can be sealed immediately
- Base board offers a permanently stable subsurface
- Optimum insulation

Radiator installation box, dry walling

Free choice of pipe system. Completely pre-installed box for rapid mounting and problem-free pipe feedthroughs.

- For millimetre-precise and firm installation so as to ensure optimal sound insulation
- Easy to install without screw connections
- Huge time savings through tension-free pre-mounted and ready-to-connect pipe feedthroughs

Material of the box	Closed-cell polyurethane foam
Box height	200 mm
Box width	100 mm
Box depth	50 mm
Distance centre of pipe to centre of pipe	50 mm
Pipe length	420 mm
Colour	Red

Bottom clamp

With two pre-mounted clamp studs (2.8 x 25, scaled)

Material	Stainless steel A2, 1.4301
----------	----------------------------

Art. no. 0868 100 1

P. Qty.: 100

No. 5 fixed clamp

- Rounded corners
- Pre-punched holes

Material	Stainless steel A2, 1.4301
Thickness	0.4 mm
Diameter of hole	4 mm

Height (H)	Art. no.	P. Qty.
25 mm	0868 100 2	500
28 mm	0868 100 228	500

No. 6 sliding clamp

Rounded corners reinforced by punch holes

No raising of corners, i.e. sheet metal panels, structured separating layers and sealing tapes are not damaged

Pre-punched holes

Consisting of bottom and top part, fully assembled

Material	Stainless steel A2, 1.4301
Thickness	0.4 mm
Width (B)	90 mm
Sliding area (SB)	55 mm

Height (H)	Art. no.	P. Qty.
25 mm	0868 100 3	500
28 mm	0868 100 328	500

Pipe clamp TIPP® Smartlock GS

Standard hinged and jointed clamp. With exclusive Würth quick-action closure for secure, fast mounting.

- Continuous clamping ranges from 15–115 mm
- Spring steel clip secured against turning
- Screw head can be lowered into the clamp strap thanks to the recess

Min./max. temperature resistance	-40 to 120 °C
Material	Steel
Surface	Zinc plated
Silicone-free	Yes
Halogen-free	Yes

Pipe clamp TIPP® Smartlock stainless steel

The standard hinged and jointed clamp. With exclusive Würth quick-action closure for secure, fast mounting

- Saves time and aids mounting thanks to new closure mechanism
- Profile rubber, excellent sliding properties of pipes during pre-mounting
- Noise insulation in line with DIN 4109
- Ageing- and weather-resistant in accordance with DIN 53508 and DIN 53509
- Safety catch to prevent screws being lost

Min./max. temperature resistance	-40 to 110 °C
Material	Stainless steel A4, 1.4578
Silicone-free	Yes
Profile rubber thickness	3.5 mm

Cold pipe clamp K

Pipe clamp with a permanently integrated damping insert, consisting of a hard-foam core with a load distribution panel and rubber cladding

- The damping insert cannot be detached from the clamp body
- Self-adhesive seal
- Rubber cladding
- Load distribution panel
- Cropped locking tab
- Locking screw with self-locking bolt

Cold pipe clamp K Plus

Pipe clamp with separate insulating component, consisting of a hard foam core with rubber on the end faces and a solid outer skin with self-adhesive overlapping

- Separate pipe clamp and insulating part
- Designed to match the insulation layer thicknesses of our pipe insulation FLEXEN® cold rubber plus
- Rubber front side
- Solid exterior skin with self-adhesive overlap

Material of insulation	Polyiso rigid foam
Volumetric weight	120 kg/m³

Cold pipe clamp PUR 250 type 170

With external connecting tabs (without screws), a permanent PUR hard foam coating and rubber shell on the contact surfaces

Contact surfaces of both half shells coated with rubber

No application of sealant required

Insulating-material thickness (DS)	60 mm
Material of insulation	Polyurethane
Volumetric weight	250 kg/m ³
Min./max. temperature conditions	-160 to 130 °C

Ventilation pipe clamp TIPP® Aero

For fastening sheet metal air ducts and fittings with circular cross-sections in accordance with DIN EN 1506, ventilation for buildings

- Glued-in profile, rubber
- Resistant to diluted acids and alkalis at room temperature and to solutions containing alcohol
- Not resistant to oils, greases and fuels

Connection thread (G)	M8 x M10
Metal-band width (B _M)	25 mm
Min./max. temperature resistance	-30 to 100 °C
Material	Steel
Material of the rubber profile	EPDM
Silicone-free	Yes
Chlorine-free	Yes
Halogen-free	Yes

Pipe clamp TIPP® silicone

Two-part pipe clamp with silicone-based red rubber insert

- Sealing plug, secured against loss
- Silicone insert
- Rubber insert in line with DIN 4109

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of applications for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Connection thread (G)	M8 x M10

Pipe clamp TIPP® Smartlock 2 GS

With exclusive Würth quick-action closure for secure, fast mounting

- 2 screw-in nuts for improved adjustment to pipe dimensions
- Locking notches on both sides to prevent screws being lost
- Hexagon-head clamping screws (size 10) and additional inside drive
- Profile rubber, excellent sliding properties of pipes during pre-mounting
- Combination nut connection M8/M10 size 13, welded at 4 points
- Sound insulation in line with DIN 4109

Connection thread (G)	M8 x M10
Min./max. temperature resistance	-40 to 120 °C
Material	Steel
Surface	Zinc plated
Fire protection certified	Yes

Pipe clamp TIPP® Smartlock GS

Without rubber inserts, for mounting pipes where noise protection is not required

- Proven SMARTLOCK fastening for fast, economical fastening of pipes
- Pipe clamp can be opened wide, allowing fast and easy pipe insertion, especially when working overhead
- Safety catch to prevent screws being lost
- M8/M10 combination nut connection

Connection thread (G)	M8 x M10
Material	Steel
Surface	Zinc plated

Sprinkler clamp Tipp® VDS

Two-screw clamp similar to pipe clamp TIPP® Robust, but without insert for the attachment of sprinkler lines in fixed water-based fire extinguishing systems according to VdS guidelines

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Material	Sheet steel
Surface	Zinc plated

SML connector Rapid

For connecting sleeveless waste water pipes and cast iron moulded parts in accordance with DIN EN 877 and DIN 19 522

- Fast, safe connection with only one screw-in nut
- Simple mounting of the connector thanks to pre-mounted, slip-proof EPDM sealing insert
- Pre-assembly of pipes and moulded parts requires no effort due to powerful clamping effect
- No tightening torque required, as block tightening is used (both clamping jaws must strike each other)

Material of the sealing ring	Ethylene propylene diene terpolymer rubber EPDM
Material of the sheet-metal ring covering	Chrome steel
Material of the fastener	Steel

DN nominal width (øD)	Width across flats	Working pressure	Height (H)	Width (B _M)	Art. no.	P. Qty.

Combination locking claw

Longitudinally non-positive safety clamp for SML lines and moulded parts in accordance with DIN EN 877 and 19522

- For single and two-screw connectors
- For interior pressure loads up to 10 bar for DN 50 – DN 100 (DN 125 – 150 5 bar, DN 200 3 bar)
- Suitable for all Rapid (except DN 250) connectors and all CV + CE two-screw connectors
- DN 250 for CV connectors only

Material designation	S235JR
DIN	912

Wire cable kit standard with closed hook

Earthquake-proof solutions. For non-load-bearing building components

- Ready-to-use system for the prevention of earthquake damage
- Installed up to 10 times quicker
- No tools required
- Coloured markings for a better overview
- Designed for new buildings or for retrofitting

Wire cable length	4.5 m
Material	Steel
Surface	Zinc plated

Wire cable kit retrofit with open hook

Earthquake-proof solutions. For non-load-bearing building components

- Ready-to-use system for the prevention of earthquake damage
- Installed up to 10 times quicker
- No tools required
- Coloured markings for a better overview
- Designed for new buildings or for retrofitting

Wire cable length	4.5 m
Material	Steel
Surface	Zinc plated
Number of pieces	2 PCS

Wire cable diameter	Load capacity	Hook diameter	Eyelet diameter	Product weight (per item)	Art. no.	P. Qty.

VARIFIX® c-assembly rail 41/86 non-perforated

Various mounting options with extensive system components

- Unique geometry with new clinch connection
- Stamped toothing
- Visually clean solution with no sharp edges
- Easier alignment of the rails
- Noise insulation elements for every rail size
- Heavy load
- Option to insert a C-profile 41/22 or 41/41, with double profiles with through hole

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of applications for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

VARIFIX® multiprofile

Enables universal application in pre-installation or installation of all profile frameworks by simply riveting or screwing on (Zebra pias®).

- The rail is suitable for all sizes of holes due to being punched with three separate rows of holes
- Can be used for all common sanitary bore gauges

Length	2000 mm
Surface	Zinc plated
Width	50 mm
Thickness	3 mm
Product weight (per item)	830 g

Art. no. 0862 090 000

P. Qty.: 10

VARIFIX® bracket 26/18

Universal wall bracket for mounting piping etc.

- Rail end plug included in scope of delivery
- Units with clamping amplitude $\leq 26 \text{ N/mm}^2$

Base plate height (H)	120 mm
Base plate width (B)	40 mm

Base plate thickness (t)	4 mm
Profile height (H _p)	18 mm
Profile width (B _p)	26 mm

VARIFIX® bracket set

For vibration-free mounting. Quick, time-saving mounting of refrigerators and air conditioning units.

Time-saving mounting

Simple snapping together/engaging of parts

Easy alignment

Integrated spirit level

Vertical struts can be adjusted to various positions along the horizontal strut

Surface	Epoxy coating
Material	Steel
Vertical-section length	400 mm
Material thickness	2 mm

Support-arm length	Max. loading weight	Horizontal-section length	Product weight (per item)	Art. no.	P. Qty.

VARIFIX® connection bracket, 90°

With 3 round holes

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Limb length (L ₁)	46.5 mm
Limb length 2 (L ₂)	91 mm
Hole distance (LA)	35 mm
Surface	Zinc plated
Material	Steel

Suitable for mounting rail	Width of side (B)	Thickness (t)	Round hole diameter (RL)	Weight	Art. no.	P. Qty.
36 x 36 mm	35 mm	4 mm	11 mm	0.13 kg	0862 005 241	25
41 x 22 mm, 41 x 41 mm, 41 x 44 mm, 41 x 62 mm, 41 x 82 mm, 41 x 124 mm, 41 x 128 mm, 41 x 86 mm	40 mm	6 mm	13 mm	0.22 kg	0862 005 242	25

VARIFIX® connection bracket for power button system - C2C

With 4 round holes. Can be used with all 41-range VARIFIX® rails in conjunction with VARIFIX® power button

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Suitable for mounting rail	41 x 82 mm, 41 x 44 mm, 41 x 124 mm, 41 x 62 mm, 41 x 41 mm, 41 x 22 mm, 41 x 86 mm, 41 x 128 mm
Limb length (L ₁)	120 mm
Width of side (B)	40 mm
Thickness (t)	6 mm
Round hole diameter (RL)	24 mm
Elongated hole length (LL ₁)	36 mm
Elongated hole width (LB ₁)	20 mm
Hole distance (LA)	48.5 mm
Surface	Zinc plated
Material	Structural steel, 1.0037 previously S235 JR
Weight	300 g

Art. no. 0862 004 072

P. Qty.: 20

Rail end plugs

Suitable for C-mounting rails

Material	PE - Polyethylene
Colour	Black

Suitable for mounting rail	Art. no.	P. Qty.

VARIFIX® angle connector, 90°

With 8 slotted holes

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Suitable for mounting rail	41 x 62 mm, 41 x 44 mm, 41 x 41 mm, 41 x 22 mm
Length (L)	117 mm
Thickness (t)	6 mm
Limb length (L _s)	47 mm
Elongated hole length (LL)	40 mm
Elongated hole width (LB)	15 mm
Hole distance (LA)	62.5 mm
Weight	0.78 kg
Surface	Zinc plated
Material	Steel

Art. no. 0862 005 317

P. Qty.: 5

VARIFIX® angle connector, 90° with 8 slotted holes

For attaching C-assembly rails in conjunction with Pow-erknopf

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Suitable for mounting rail	41 x 82 mm, 41 x 44 mm, 41 x 124 mm, 41 x 62 mm, 41 x 41 mm, 41 x 22 mm, 41 x 128 mm, 41 x 86 mm
Length (L)	117 mm
Thickness (t)	6 mm
Limb length (L _s)	47 mm
Elongated hole length (LL)	36 mm
Elongated hole width (LB)	20 mm
Hole distance (LA)	62.5 mm
Weight	662 g
Surface	Zinc plated
Material	Steel

Art. no. 0862 004 051

P. Qty.: 5

VARIFIX® angle connector, 90° with 4 slotted holes - C2C

**For attaching C-assembly rails in conjunction with Pow-
erknopf**

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of application for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Suitable for mounting rail	41 x 82 mm, 41 x 44 mm, 41 x 124 mm, 41 x 62 mm, 41 x 41 mm, 41 x 22 mm, 41 x 128 mm, 41 x 86 mm
Length (L)	55 mm
Thickness (t)	6 mm
Limb length (L _s)	47 mm
Elongated hole length (LL)	36 mm
Elongated hole width (LB)	20 mm
Weight	325 g
Surface	Zinc plated
Material	Steel

Art. no. 0862 004 050

P. Qty.: 5

VARIFIX® rail connector, pre-mounted

Secure plug-in assembly

- Reduces working time
- No individual parts

Material	Steel
Surface	Zinc plated

Suitable for mounting rail	Length (L ₁)	Width (B ₁)	Width 2 (B ₂)	Thickness (t ₁)	Art. no.	P. Qty.

VARIFIX® combination sliding nut 36/41

Fits all rails of type 36 and 41, sizes M8–M16

Stainless steel A4

Suitable for mounting rail	36 x 36 mm, 41 x 41 mm, 41 x 62 mm
Width (B)	29 mm
Length (L)	33 mm
Thickness (t)	6 mm
Surface	Plain
Material	Stainless steel A4

VARIFIX® quick fastener Systemfix 41

For assembly connection of all Varifix® mounting rails in the 41 range. The Systemfix 41 is available in M6 (not pre-installed), M8, M10 and M12 sizes.

- Immediately fixed with a 1/4 rotation
- Friction-locked connection with the rail
- One-handed assembly possible

Length (L)	38 mm
Width (B)	38 mm
Material thickness (t ₁)	3 mm
Suitable for mounting rail	41 x 22 mm, 41 x 41 mm, 41 x 62 mm, 41 x 124 mm, 41 x 44 mm, 41 x 82 mm, 41 x 128 mm, 41 x 86 mm
Min./max. temperature resistance	-40 to 90 °C
Material	Steel
Surface	Zinc plated
Material of the connecting component	POM - Polyoxymethylene

Thickness (t ₂)	Thread type x nominal diameter (G)	Weight	Art. no.	P. Qty.
6 mm	M6	53 g	0862 104 000	25
6 mm	M8	55 g	0862 104 001	25
8 mm	M10	61 g	0862 104 002	25
9 mm	M12	64 g	0862 104 003	25

VARIFIX® quick fastener Systemfix

For assembly connection of all VARIFIX® 26/18; 26/26; 28/28 and 36/36 mounting rails

Immediately fixed with a 1/4 rotation
Friction-locked connection with the rail

Precise fit in the mounting rail - alignment in the rail possible

One-handed assembly possible

Easier assembly, particularly when working on ladders

For all Systemfix models

Optimal suspension possible with threaded rods for long lengths

Width (B)	30 mm
Material thickness (t ₁)	2.5 mm
Thickness (t ₂)	5 mm
Min./max. temperature resistance	-40 to 90 °C
Material	Steel
Surface	Zinc plated
Material of the connecting component	POM - Polyoxymethylene

VARIFIX® wing nut, profile 41

For assembly connection of all VARIFIX® C-assembly rails in the 40 and 41 ranges.

- Quick assembly in contrast to sliding nut/combination sliding nut
- The Varifix wing nut does not need to be held in place

Width (B)	36 mm
Suitable for mounting rail	41 x 124 mm, 41 x 22 mm, 41 x 41 mm, 41 x 44 mm, 41 x 62 mm, 41 x 82 mm, 41 x 128 mm, 41 x 86 mm
Material	Steel
Surface	Zinc plated
Material of the connecting component	PP - Polypropylene

Screwing tool for stud screws

No screwing in or additional adjustment of screw-in parts into nut required

- The three threaded rollers automatically grip positively into thread when screwing in. When unscrewing, the threaded rollers open automatically and release the thread
- Can be used with 1/2" square drive for a ratchet screwdriver or with an adapter for an electric screwdriver

Fixed-point attachment TIPP® with plastic panelling

Noise dampening and easy fixed-point attachment up to DN 150.

- Structure-borne noise dampening according to DIN 4109 via EPDM rubber strip
- Double steel mounting plate with welded fastening pins
- Rubber-cushioned

Metal-band width (B _M)	30 mm
Metal belt thickness (t _M)	3 mm
Surface	Zinc plated

Trapezoidal plate hook

Quick anchoring to profile plates.

Permissible load with 1-mm profile plate thickness	0.5 kN
Permissible load with 0.75-mm profile plate thickness	0.3 kN

Length (L)	Hook diameter (ØD)	Internal diameter of hook (ØD _i)	Width (B)	Nominal diameter (G)	Art. no.	P. Qty.
60 mm	5.2 mm	13 mm			0862 550 0	100
68 mm	5.2 mm		21.5 mm		0862 551 0	100
80 mm	5.2 mm			6 mm	0862 552 0	100
95 mm	7 mm			8 mm	0862 553 0	100

Trapezoidal mount

Without sound protection

- Secure to trapezoidal plate by means of rivets or Zebra pins screws
- Easy adjustment to different trapezoidal plate profiles thanks to specified bending points
- Slots in leg ends enable installation with threaded rods or hex screws

Surface	Zinc plated
Width (B)	30 mm
Limb length (L _s)	105 mm
Material thickness (t)	2 mm
Round hole diameter (RL)	4.2 mm
Round hole diameter 2 (RL ₂)	8.5 mm
Elongated hole length (LL ₁)	20 mm
Elongated hole width (LB ₁)	8.5 mm
Elongated hole length 2 (LL ₂)	8 mm
Elongated hole width 2 (LB ₂)	4 mm
Permissible load	1500 N
Material	Steel

Suitable for threaded rods	Art. no.	P. Qty.
M8	0862 514 0	100
M10	0862 515 0	100

Trapezoidal mount

With welded-in nut

- Fastening by means of push-through mounting with M8 threaded rod
- Also possible with 4.0 mm AlMg 5 sealing rivets (DIN 1725) or 4.2 mm drilling screws made from case-hardened steel
- Easy adjustment to different trapezoidal plate profiles thanks to specified bending points
- Sendzimir zinc-plated - continuous sheet-zinc-plated material

Surface	Sendzimir galvanized
Width (B)	25 mm
Limb length (L _s)	94 mm
Material thickness (t)	2.5 mm
Round hole diameter (RL)	9.5 mm
Round hole diameter 2 (RL ₂)	4.2 mm
Permissible load	800 N
Material	Steel

Suitable for threaded rods	Weight	Art. no.	P. Qty.
M8	105 g	0862 514 001	50
M10	100 g	0862 515 001	50

VdS certification no. G 4021037

Trapezoidal mount

With knurled nut for height adjustment

- Fastening by means of push-through mounting with M8 x 100 threaded rod or M8 x 100 hex screw
- Also possible with 4.0 mm AlMg 5 sealing rivets (DIN 1725) or 4.2 mm drilling screws made from case-hardened steel (no VdS approval)
- Easy adjustment to different trapezoidal plate profiles thanks to specified bending points

Surface	Zinc plated
Width (B)	25 mm
Material thickness (t)	2.5 mm
Round hole diameter (RL)	11 mm
Round hole diameter 2 (RL ₂)	4.2 mm
Elongated hole length (LL ₁)	16 mm
Elongated hole width (LB ₁)	8 mm
Permissible load	800 N
Material	Steel

Suitable for threaded rods	Art. no.	P. Qty.
M8	0862 514 002	50
M10	0862 515 002	50

VdS certification no. G 410036

Trapezoidal mount

With noise protection

- Secure to trapezoidal plate by means of rivets or Zebra pins screws
- Easy adjustment to different trapezoidal plate profiles thanks to specified bending points
- Slots in leg ends enable installation with threaded rods or hex screws

Surface	Zinc plated
Width (B)	30 mm
Limb length (L _s)	107 mm
Material thickness (t)	2 mm
Round hole diameter (RL)	4.2 mm
Round hole diameter 2 (RL ₂)	8.5 mm
Elongated hole length (LL ₁)	20 mm
Elongated hole width (LB ₁)	8.5 mm
Elongated hole length 2 (LL ₂)	8 mm
Elongated hole width 2 (LB ₂)	4 mm
Permissible load	1500 N
Material	Steel

Suitable for threaded rods	Weight	Art. no.	P. Qty.
M8	108 g	0862 516 0	50
M10	110 g	0862 517 0	50

Trapezoidal hole punch

- For screwing on trapezoidal plates up to a diameter of 10 mm.
- Opening angle from min. 25 mm up to max. 90 mm

Min. width of mouth	25 mm
Max. width of mouth	90 mm
Max. material thickness	1.5 mm

Art. no. 0862 500 010

P. Qty.: 1

Sliding piece

For the absorption of temperature-based changes in length of pipelines and components (axial shifting)

- Allows pendulum motion
- Individually suspended directly from the ceiling or a mounting rail
- Prevents tensile forces on the pipe attachment
- Combination nut ensures connection of a variety of threads, i.e. M8/M10

Permissible load	1.3 kN
Connection thread (G)	M10
Outlet thread (AG)	M8/M10
Sliding length (X)	35 mm
Thread length (L _G)	17 mm
Width (B)	30 mm
Length (L)	60 mm
Height (H)	48 mm
Material	Steel
Surface	Zinc plated
Product weight (per item)	192.1 g

Art. no. 0862 049 010

P. Qty.: 10

Pendular suspension

For the suspension of pipelines and components with threaded rods. Suspended attachment to angled ceilings (roof area).

- Prevents uncontrolled tension forces on the mounting
- Flexible oscillation effect 2 x 20° on all sides
- Inspection opening ensures secure mounting

Permissible load	3 kN
Surface	Zinc plated
Material	Steel
Width across flats (SW)	13 mm
Fire protection certified	Yes

Outlet thread (IG)	Connection thread (AG)	Length (L)	Design	Width across flats 2	Art. no.	P. Qty.

M10	M10	79 mm	Long	12 mm	0862 048 110	50

VARIFIX® pushing slide Type GK-1

With double support to prevent slipping out of the guide

- Large sliding distance of up to 60 mm
- Low overall height
- Secured from tipping and falling over through support via two clamps

Carriage length (L _s)	180 mm
Carriage width (B _s)	40 mm
Carriage height (H _s)	25 mm
Length (L)	46 mm
Width (B)	108 mm
Height (H)	33 mm
Hole distance (LA ₁)	78 mm
Hole distance on carriage (LA ₂)	120 mm
Elongated hole length (LL)	13 mm
Elongated hole width (LB)	11 mm
Permissible load	1500 N
Min./max. temperature resistance	-40 to 100 °C

Sliding length (X)	Connection thread (G)	Product weight (per item)	Art. no.	P. Qty.
53 mm	M12	505.65 g	0862 700 104	1

60 mm	M8	498.4 g	0862 700 102	1

VARIFIX® pushing slide W1

Static friction coefficient: $\mu_0 = 0.18$

Sliding friction coefficient: $\mu = 0.14$

**The sliding element cannot slide out
Slots punched out at 90° to each other**

Guaranteed improvement in ease of assembly

Cradle to Cradle®-certified

- Upgrading the building using non-hazardous materials
- Wider range of applications for GreenBuilding and building certification in accordance with LEED®, BREEAM® and DGNB

Carriage length (L _s)	75 mm
Carriage width (B _s)	47.5 mm
Carriage height (H _s)	11 mm

Continuation **VARIFIX® pushing slide W1**

Material thickness (t)	4 mm
Length (L)	200 mm
Width (B)	130 mm
Sliding length (X)	100 mm
Hole distance (LA ₁)	96 mm
Elongated hole length (LL)	21 mm
Elongated hole width (LB)	11 mm
Min./max. temperature resistance	0 to 120 °C
Surface	Zinc plated

Varifix Mounting rail foot

Particularly suitable for mounting on flat roofs

Quick mounting without bore holes

Varifix profile 41/41 is inserted into the foot

Height (H)	120 mm
Profile length (L _p)	42 mm
Profile width (B _p)	42 mm
Profile height (H _p)	85 mm
Min./max. temperature resistance	-30 to 110 °C
Suitable for mounting rail	41 x 41 mm
Material	HDPE - High density polyethylene

Length (L)	Width (B)	Permissible load	Product weight (per item)	Art. no.	P. Qty.
305 mm	305 mm	3500 N	3830 g	0862 003 060	1
500 mm	500 mm	4500 N	8500 g	0862 003 065	1

Universal trap

With rigid outlet (90°) and hose adapter

- High-quality plastic, robust and break-proof
- Secure tightening (by hand) thanks to robust, workman-friendly union nut
- Practical pre-assembly
- Smooth, non-porous surfaces

Material	PP - Polypropylene
Colour	White
Connection thread	1 1/2 inch
Design of the outlet	Steep (0-90°)

Nominal width of DN outflow	Art. no.	P. Qty.
DN 40	0888 800 402	1
DN 50	0888 800 401	1

Universal trap

With rigid outlet (0–90°) and hose adapter

- High-quality plastic, robust and break-proof
- Secure tightening (by hand) thanks to robust, workman-friendly union nut
- Practical pre-assembly
- Smooth, non-porous surfaces

Material	PP - Polypropylene
Colour	White
Connection thread	1 1/2 inch
Design of the outlet	Steep (0-90°)

Nominal width of DN outflow	Art. no.	P. Qty.
DN 40	0888 800 303	1
DN 50	0888 800 302	1

Universal trap

With flexible outlet and hose adapter

- High-quality plastic, robust and break-proof
- Secure tightening (by hand) thanks to robust, workman-friendly union nut
- Practical pre-assembly
- Smooth, non-porous surfaces

Material	PP - Polypropylene
Colour	White
Connection thread	1 1/2 inch
Nominal width of DN outflow	DN 50, DN 40
Design of the outlet	Flexible

Art. no. 0888 800 400

P. Qty.: 1

Space-saving combination

Standard drain trap including space-saving elbow (L = 280 mm) and hose adapter, for more space under the sink

- High-quality plastic, robust and break-proof
- Secure tightening (by hand) thanks to robust, workman-friendly union nut
- Practical pre-assembly
- Smooth, non-porous surfaces

Material	PP - Polypropylene
Colour	White
Connection thread	1 1/2 inch
Nominal width of DN outflow	DN 50
Design of the outlet	Steep (0-90°)

Art. no. 0888 800 404

P. Qty.: 1

Standard pipe trap, chrome-plated

Material	Brass
Surface	Chrome plated
DN nominal width	DN 32
Connection thread	1 1/4 inch
Wall-tube length	165 mm
Dip-tube length	120 mm

Art. no. 0888 800 607

P. Qty.: 1

Long pipe trap, chrome-plated

Material	Brass
Surface	Chrome plated
DN nominal width	DN 32
Connection thread	1 1/4 inch
Wall-tube length	220 mm
Dip-tube length	120 mm

Art. no. 0888 800 608

P. Qty.: 1

Shower hose

Premium model

- Shower side with rotating cone
- Smooth, attractive, easy-to-clean outer side
- Highly flexible, robust and tear-proof
- Self-sealing, as seals are captive mounted in connections

Material	Plastic
Approval mark	DVGW

Connection thread	Length	Art. no.	P. Qty.
1/2 inch cone, 1/2 inch swivel cone	1.25 m	0888 906 125	1/4
1/2 inch swivel cone, 1/2 inch cone	1.6 m	0888 906 160	1/4
1/2 inch swivel cone, 1/2 inch cone	2 m	0888 906 200	1/4

Plastic shower hose

Economy model

- Highly flexible, robust and tear-proof
- Self-sealing, as seals are captive mounted in connections.

Material	Plastic
----------	---------

Connection thread	Length	Art. no.	P. Qty.
1/2 inch cone, 1/2-inch knurled nut	1.6 m	0888 900 160	5
1/2 inch cone, 1/2-inch knurled nut	2 m	0888 900 200	5
1/2-inch knurled nut, 1/2 inch cone	1.25 m	0888 900 125	5

Metal shower hose

Robust model

- Long-life, robust safety shower hose
- Especially well-suited for extreme loads thanks to its S-shaped winding
- Self-sealing, as seals are captive mounted in connections

Material	Metal
Connection thread	1/2 inch cone, 1/2-inch knurled nut

Length	Art. no.	P. Qty.
1.25 m	0888 901 125	5
1.6 m	0888 901 160	5
2 m	0888 901 200	5

Flexible hose 3/8 inch crimp connection x 3/8 inch union nut

For flexible cold and hot water connections

DVGW-tested

- W543
- W270
- KTW-A

DN nominal width	DN 8
Connection	3/8 inch (crimp) x 3/8 inch (UN)

- W270
- KTW-A

DIN regulating angle valve, 1/2"

- DVGW-tested in accordance with DIN 3227
- Noise class I, test mark P-IX 723/IA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm

Art. no. 0888 902 113

P. Qty.: 1/10

Combination corner valve, 1/2"

With non-return valve

- Noise test, test mark P-IX 718/IIA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm
Screw fitting for hose	3/4 inch

Art. no. 0888 902 122

P. Qty.: 1

Combination corner valve, 1/2 inch, self-sealing

With non-return valve

- With self-sealing connecting thread
- Noise test, test mark P-IX 718/IIA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm
Screw fitting for hose	3/4 inch

Art. no. 0888 902 123

P. Qty.: 1

DIN regulating angle valve, 1/2", self-sealing

With self-sealing connecting thread

- With self-sealing connection thread
- DVGW-tested in accordance with DIN 3227
- Noise class I, test mark P-IX 723/IA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm

Art. no. 0888 902 114

P. Qty.: 1/10

Combination corner valve, 1/2 inch, with pipe ventilator

With non-return valve and pipe ventilator in accordance with DIN 3266 as a HP safeguard combination in accordance with DIN 1988, Part 4 and DIN EN 1717 (RV and RB)

- Noise test, test mark P-IX 718/IIA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm
Screw fitting for hose	3/4 inch

Art. no. 0888 902 126

P. Qty.: 1

Combination corner valve, 1/2 inch with pipe ventilator, self-sealing

With non-return valve and pipe ventilator in accordance with DIN 3266 as a HP safeguard combination in accordance with DIN 1988, Part 4 and DIN EN 1717 (RV and RB)

- Noise test, test mark P-IX 718/IIA
- Screw fitting with length compensation
- Long shaft with sliding rosette
- Made in Germany

Material	Brass
Surface	Chrome plated
Connection thread	1/2 inch
Compression fitting	3/8 inch x 10 mm
Screw fitting for hose	3/4 inch

Art. no. 0888 902 127

P. Qty.: 1

Appliance angle seat valve, 1/2" with pipe ventilator

With non-return valve and pipe ventilator in accordance with DIN 3266 as a HP safeguard combination in accordance with DIN 1988, Part 4 and DIN EN 1717 (RV and RB)

Made in Germany

Material	Brass
Surface	Chrome plated
Screw fitting for hose	3/4 inch

Art. no. 0888 902 132

P. Qty.: 1

Appliance connecting valve, 3/8"

With non-return valve

- Noise test, test mark PA-IX 8349/I
- Made in Germany

Material	Brass
Compression fitting	3/8 inch x 10 mm
Surface	Chrome plated
Screw fitting for hose	3/4 inch

Art. no. 0888 902 141

P. Qty.: 1

Single rosette

- Simple, fast and secure assembly with safety clip locking
- A clean fit thanks to centring slats and invisible closure

Material	PP - Polypropylene
Colour	White

Internal diameter (d)	Outer diameter (D)	Art. no.	P. Qty.
12 mm	40 mm	0876 111 2	100
15 mm	49 mm	0876 111 5	100
16 mm	49 mm	0876 111 016	100
18 mm	49 mm	0876 111 8	100
22 mm	55 mm	0876 112 2	100

35 mm	70 mm	0876 113 5	25

Hand-held sprinkler

Dual-jet (Rain, Jet)

- Reduces water consumption
- Silicone ring prevents damage
- Easy to clean thanks to anti-limescale nozzles
- Ideal spray pattern
- Tested by German Technical and Scientific Association for Gas and Water (DVGW)

Material	ABS
Surface	Chrome plated
Number of spray types	2
Anti-limescale system	Yes
Shock protection	Yes
Suitable for continuous heater	Yes
Connection thread	G 1/2 inch
Shower head diameter	100 mm
Flow capacity	5.7 l/min
Min. pressure	1 bar
Approval mark	DVGW

Art. no. 0888 600 202

P. Qty.: 1

Toilet seat

With stainless steel brackets

- Solid, unbreakable
- Warm seat
- Adjustable stainless steel brackets with fast-action fastening
- Easy-to-clean thanks to straight underside
- 4-point top

Colour	White
Material	Thermoplast

Art. no. 0888 600 510

P. Qty.: 1/5

Tested in line with DIN 19516

Water hose Professional

Multi-layer high-quality PVC water hose with high-strength polyester fabric lining

- Kink-proof and abrasion-resistant
- Cannot be twisted
- Cold-resistant and heat-resistant

Material	PVC - Polyvinyl chloride
Colour	Yellow
Material of the mesh	Polyester
Min./max. temperature resistance	-15 to 60 °C

Internal diameter in inches	Internal diameter	Wall thickness	Hose length	Operating pressure/conditions	Art. no.	P. Qty.
1/2 in	12.5 mm	2.55 mm	50 m	10 bar/at 23°C	0886 001 200	50
1/2 in	12.5 mm	2.55 mm	30 m	10 bar/at 23°C	0886 001 201	30
3/4 in	18.8 mm	3.3 mm	50 m	9 bar/at 23°C	0886 001 210	50

1 in	25 mm	3.65 mm	50 m	8 bar/at 23°C	0886 001 220	50

Construction hose

Extremely light and flexible

- Resistant to ageing and ozone
- Resistant to rot and mould

Material of the outer weave	High-strength polyester yarn, circular woven
Material of inner core layer	TPR-PVC mix
Length	20 m

Connection coupling	Inner hose diameter	Art. no.	P. Qty.
Storz B	75 mm	0886 001 526	1
Storz C	52 mm	0886 001 525	1

Construction and industrial hose

Made in Germany

Very light and flexible

even at very low temperatures

Ageing and ozone-resistant

Non-rotting and non-perishing

Material of the outer weave	High-strength polyester yarn, circular woven in twill weave
Material of inner core layer	High-quality EPDM
Length	20 m

Connection coupling	Inner hose diameter	Art. no.	P. Qty.
Storz B	75 mm	0886 001 521	1
Storz C	52 mm	0886 001 520	1

Transition coupling

Aluminium, industrial version (cast couplings)

Material	Aluminium diecasting
----------	----------------------

Connection	Art. no.	P. Qty.
Storz A - Storz B	0886 001 438	1
Storz B - Storz C	0886 001 436	1
Storz C - Geka 1 inch	0886 001 432	1

2-way tap

Outlets can be shut off separately using upper valve sections

Material	Pressed brass
Gasket material	Nitrile butadiene rubber (NBR)

Art. no. 0886 001 080

P. Qty.: 1

Hose coupling hose piece

Material	Pressed brass
Gasket material	Nitrile butadiene rubber (NBR)

Connection	Art. no.	P. Qty.

IT 1 1/4 inch	0886 001 034	5

Spray nozzle

Heavy-duty design

Material	Pressed brass
Gasket material	Nitrile butadiene rubber (NBR)
Connection	3/4 inch

Art. no. 0886 001 042

P. Qty.: 1

Professional cleaning gun

High quality, rugged cleaning gun with rubber jacket

- All parts approved for drinking water
- Forged, robust brass/stainless steel combination
- High-quality pure EPDM rubber coating to protect against damage as well as cold and warm pipes for flowing water
- Easy to operate with one hand. Radiant intensity can be infinitely adjusted from a concentrated jet to fine spray mist by pressing the handle
- The shape of the jet can be adjusted using a coin on the adjusting screw
- Locating clip for the operating lever allows continuous operation

Material	Brass/stainless steel, ethylene propylene diene terpolymer rubber outer sleeve
Colour	Blue
Connection thread	IT 1/2 inch
Max. temperature resistance	50 °C

Art. no. 0886 001 040

P. Qty.: 1

Electrical brake bleeder

Especially sturdy, high-quality device. For bleeding passenger car brakes and lorry clutches. Easy to use and easy to service. Suitable for electro-hydraulic brakes.

- Pressure continuously adjustable from 0.4 to 4 bar
- Works from the original canister up to 12 litres
- Switches off when canister is empty to prevent air from being drawn in
- Additional low-pressure test
- Mobile device with controls at working height
- Especially resistant to brake fluid

Scope of delivery:

- Cart with adapter storage compartment
- Universal cone for canister seal
- Suction device for preliminary draining
- Euro adapter art. no. 071455 301 (E 20 for many European passenger vehicles)

Max. contents	12 l
Min./max. working pressure	0.4-4 bar
Length of feed hose	350 cm
ABS-compliant	Yes
Suitable for electro-hydraulic brakes	Yes

Art. no. 0714 556 24

P. Qty.: 1

Electrical brake bleeder

For all passenger and commercial vehicles (couplings) and all motorcycles

- Working pressure 2 bar (not adjustable)
- Works from original canister up to 5 litres
- Switches off when canister is empty to prevent air from being drawn in
- Depressurised uncoupling from vehicle
- Especially resistant to brake fluid

Scope of delivery:

- Device with canister mount and 3 rubber cones
- Euro adapter art. no. 071455 301 (E 20 for almost all European passenger vehicles)

Max. contents	5 l
Length of feed hose	350 cm
ABS-compliant	Yes

Art. no. 0714 556 25

P. Qty.: 1

Use only mineral oil-free brake fluids

Electrical brake bleeder

For bleeding passenger car brakes and lorry clutches with brake fluid. Suitable for container sizes up to 60 litres and for electro-hydraulic brakes.

- Pressure continuously adjustable from 0.4 to 3.5 bar
- Works from the original barrel up to 60 litres
- Switches off when barrel is empty to prevent air from being drawn in
- Additional low-pressure test
- Mobile device with controls at working height
- Resistant to brake fluid

Scope of delivery

- Barrel device with adapter storage compartment
- Barrel sealing cap with intake pipe
- Euro adapter art. no. 071455 301 (E 20 for almost all European passenger vehicles)
- Chain sling for securing barrel

Max. contents	60 l
Min./max. working pressure	0.4-3.5 bar
Length of feed hose	350 cm
ABS-compliant	Yes
Suitable for electro-hydraulic brakes	Yes

Art. no. 0714 556 22

P. Qty.: 1

Use only mineral oil-free brake fluids

Collecting bottle

For brake fluid

1 litre bottle with screw cap and zinc-plated hanging hook

For collecting old fluid

Elastic silicone hose, resistant to yellowing

Ensures optimum visual inspection

Contents	1 l
Product weight (per item)	114 g

Art. no. 0714 556 212

P. Qty.: 1

Adapter case with 4 special adapters

The optimal adapter addition for independent workshops and tire services

Product weight (per item)	1070 g
---------------------------	--------

Art. no. 0714 55 325

P. Qty.: 1

Bayonet adapter BS 35

For brake bleeder

Product weight (per item)	166 g
---------------------------	-------

Art. no. 0714 55 310

Art. no. 0714 55 319

P. Qty.: 1

Brake fluid tester

Test water content in all polyglycol-based brake fluids (DOT3/DOT4 and DOT5.1) easily, quickly and precisely

- Practical test pen with clip
- One push button for quick test and switching
- Compact, lightweight design
- Rapid and precise measurement
- Self-test
- Acid and alkali resistant, impact and break-proof
- Automatic switch-off
- LED light

Included in delivery (Lieferumfang)	2 x Micro 1.5 V AAA
--	---------------------

Art. no. 0715 53 220

P. Qty.: 1

Manufactured and certified in line with IEC/EN 61010-1 standard

Batteries must be disposed of separately, not in household waste.

Brake calliper brush

Narrow steel wire brush with plastic handle

Length	225 mm
Material	Plastic

Art. no. 0715 55 26

P. Qty.: 1

Brake calliper file

For removing brake dust, rust and dirt from brake calliper shaft

- Plastic handle
- Slanted tothing on one side

Length	260 mm
--------	--------

Art. no. 0714 61 79

P. Qty.: 1/6

Portable universal flanging tool kit

10 pieces. For universal use, including directly on vehicles.

- Pressure force of 2.5 t
- Allows the flanging to be performed directly on the vehicle
- Tool-less locking of manual hydraulic unit and base element
- Simple operation of manual hydraulic unit
- Precise fabrication of clamping jaws
- No ribbing on clamping jaw inside surfaces

Art. no. 0714 91 001

P. Qty.: 1

Flanging types: SAE (convex), DIN flare E, DIN (convex), DIN flare F, SAE/DIN (double flange)

Brake piston resetting tool set

Comprehensive brake piston resetting tool set for rapid brake pad replacement on all commercially available passenger vehicles

- Contains adapters for all commercially available passenger vehicles
- Magnetic adapter plate attachment
- Perfectly fitting, specially designed adapter plates

Art. no. 0715 55 200

P. Qty.: 1

MacPherson spring strut compressor set

Basic unit with four clamping plates for removing and mounting screw springs when replacing shock absorbers on MacPherson spring struts.

- Suitable for use with impact screwdrivers
- Die-forged, easily replaceable clamping plates
- Powder-coated clamping plates
- High clamping force of 18,000 N
- Special clamping plates for conical and spherical springs

Tension force	18000 N
Min./max. spring diameter	80-195 mm

Art. no. 0713 525 20

P. Qty.: 1

Contents for art. no. 0713 525 20		
Designation	Art. no.	Quantity
MacPherson spring strut compressor	0713 525 21	1
Clamping plate III Min./max. spring diameter 80-145 mm	0713 525 01	2
Clamping plate V Min./max. spring diameter 145-195 mm	0713 525 02	2

Tyre inflator

Portable device without hose connection - calibrated design

- Automatic refilling by means of filling socket with filling valve (counterpart)
- Can be attached on both sides
- Easy two-button operation
- Clear view of the scale
- Rubber buffer to protect the manometer

Min./max. pressure measuring range	0-10 bar
Pressure conditions for measuring accuracy	< 0.08 bar: 0-4 bar, < 0.16 bar: 4-10 bar, < 0.25 bar: > 10 bar
Max. working pressure	16 bar
Min./max. temperature conditions	-10 to 40 °C
Medium that can be measured	Air
Manometer diameter	160 mm
Hose length	800 mm
Connection thread	1/4 inch
Volumetric capacity	6 l
Product weight (per item)	6987 g
Material of the housing	Plastic

Art. no. 0715 93 92

P. Qty.: 1

EU type-approval

Analogue tyre inflator, conformity assessed

Precise measurements from well protected manometer

- Shock-absorbed connection nipple effectively cushions unwanted impact.
- Built-in metal filters sift out dirt particles without reducing air flow.
- Measuring device protected with integrated safety mechanisms.
- The large dial provides enough space for the scale chart.

Min./max. pressure measuring range	0-12 bar
Pressure conditions for measuring accuracy	< 0.08 bar: 0-4 bar, < 0.16 bar: 4-10 bar, < 0.25 bar: > 10 bar
Max. working pressure	16 bar
Min./max. temperature conditions	5 to 40 °C
Medium that can be measured	Air, Nitrogen
Manometer diameter	80 mm
Hose length	500 mm
Connection thread	M18 x 1.5
Product weight (per item)	1057.25 g

Art. no. 0715 54 05

P. Qty.: 1

Digital tyre inflator

Precise, fast digital display with test routine

- Reliable, precise pressure sensor delivers values to display in 0.2 seconds
- Test routine indicates whether all numeric segments are operable
- Compact, impact-protected design protects digital display and pressure sensor
- Universal lever for filling and draining
- Large, easy-to-read LCD display
- Extra-large hanging eye on housing
- Filling hose with quick-connect nipple
- Light, functional design

Min./max. pressure measuring range	0-12 bar
Pressure conditions for measuring accuracy	< 0.08 bar: 0-4 bar, < 0.16 bar: 4-10 bar, < 0.25 bar: > 10 bar
Max. working pressure	15 bar
Min./max. temperature conditions	-10 to 50 °C
Medium that can be measured	Air
Hose length	800 mm
Connection thread	1/4 inch
Product weight (per item)	556 g
Material of the housing	Rubber
IP protection class	IP 54
Pressure measuring accuracy	0.05 bar

Art. no. 0715 54 055

P. Qty.: 1

BGI (BG information) 884 recommends maintaining a safety distance of 2.5 m to protect against parts thrown off or the blast wave generated when a tyre bursts. For this purpose, the hose length from the push-fit nipple to the filling device must be at least 2.5 m.

Digital tyre inflator with calibration certificate

Issued for serial number

Min./max. pressure measuring range	0-12 bar
Pressure conditions for measuring accuracy	< 0.08 bar: 0-4 bar, < 0.16 bar: 4-10 bar, < 0.25 bar: > 10 bar
Max. working pressure	15 bar
Min./max. temperature conditions	10 to 50 °C
Medium that can be measured	Air, Nitrogen
Hose length	800 mm
Connection thread	1/4 inch
Product weight (per item)	560 g
Material of the housing	Rubber
IP protection class	IP 54
Pressure measuring accuracy	0.05 bar
Design	With conformity certificate to the serial number issued.

Art. no. 0715 54 058

P. Qty.: 1

Tyre bag

Protects luggage compartment and vehicle interior against dirt when transporting tyres

- Rolls
- White, oil and water-resistant PE film
- Particularly robust thanks to high material thickness

Width	700 mm
Roll width	720 mm
Number of tear-offs	100 PCS

Length	Art. no.	P. Qty.
1000 mm	0899 500 300	1
1200 mm	0899 500 302	1

Spare silicone hose

For collection bottle

- 1 m total length
- Inner diameter 5 mm, outer diameter 8 mm

Product weight (per item)	38 g
---------------------------	------

Art. no. 0714 556 213

P. Qty.: 1

Vulcanising cement

High-strength. For self-vulcanising repair systems for tyre and hose repairs.

Contents	235 ml
Container	Can
Chemical basis	Naphtha
Colour	Beige
Density	0.74 g/cm ³
Shelf life from production	12 Month

Art. no. 0890 100 017

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Continuation **Vulcanising cement**

Excerpt from: § 36 German road traffic licensing regulations (StVZO) guidelines for assessing and repairing tyre damage to pneumatic tyres dated 8 February 2001

Combination repair kits

- Repair part, comprising hole filling and repair patch.

3. General requirements

3.1 Each tyre must be removed from the rim prior to repair work to assess the damage and perform the repairs. The exception is those tyres with damage that is clearly just external damage to the tyre...

3.4 The damaged area must be exposed and cleaned with an appropriate tool.

3.5 Damage to the tyre that was treated with emergency repair equipment cannot be repaired.

3.6 It is not permitted to insert a hose without rectifying the damage to the tyre.

4. Performing the repair work

As standard, the damaged duct is filled with raw rubber that is vulcanised using hot or warm vulcanisation. A repair patch is then positioned inside the tyre. A pre-vulcanised rubber body can be used in conjunction with a repair patch to fill the punctured hole caused by stitch damage to the running surface.

The following applies to:

Motorbike tyres

On motorbike tyres, puncture repairs are permitted for damaged areas up to a maximum of 6 mm using combination repair equipment. All tyre repairs outside of the running surface are not permitted on motorbike tyres.

Tyres on passenger cars and trailers

On running surfaces, puncture repairs are permitted for damaged areas up to a maximum of 6 mm using combination repair equipment. Rubber repairs are only permitted in the bead area if the reinforcing materials have not been affected.

C-tyres and tyres with a load-bearing capacity figure < 122 on commercial vehicles and their trailers

On running surfaces, puncture repairs are permitted for damaged areas up to a maximum of 6 mm using combination repair equipment. Rubber repairs are only permitted in the bead area if the reinforcing materials have not been affected.

Tyres with a load-bearing capacity figure ≥ 122 on commercial vehicles and their trailers

On running surfaces, puncture repairs are permitted for damaged areas up to a maximum of 10 mm using combination repair equipment. Rubber repairs are only permitted in the bead areas when the reinforcing materials (carcass or ply end) have not been affected.

Roll-head pry bar

Material: Chrome vanadium

Length	400 mm
Shaft diameter (Ø)	14 mm
Material	Chrome-vanadium steel

Art. no. 0715 74 46

P. Qty.: 1

Hose with quick-connect nipple

For manual tyre inflator

Connection thread	M18 x 1.5
Length	500 mm
Inner hose diameter	6 mm

Art. no. 0715 54 08

P. Qty.: 1

Filling station connector with handle

For manual tyre inflator

Length	350 mm
Suitable for hose internal diameter	6 mm

Art. no. 0715 54 07

P. Qty.: 1

Quick-connect nipple

For quick connection of the manual tyre inflator to the tyre valve.

- Fast sealing with a slight twist of the plug-in nipple

Suitable for hose internal diameter	6 mm
-------------------------------------	------

Art. no. 0715 54 061

P. Qty.: 1

Lever valve plug

For exceptionally high retention force when connecting the manual tyre inflator to the tyre valve.

- Turning the valve lever makes the valve plug particularly suitable for high-pressure operation.

Suitable for hose internal diameter	6 mm
-------------------------------------	------

Art. no. 0715 54 06

P. Qty.: 1

Filling hose with quick-connect nipple

Length	800 mm
Design	With quick-action nipple
Colour	Black

Art. no. 0715 54 057

P. Qty.: 1

Tyre iron with plastic casing

- For damage-free tyre fitting on steel and aluminium rims
- Bolted and replaceable plastic casing

Length	500 mm
Design	Chrome vanadium steel, chrome-plated

Art. no. 0695 326 436

P. Qty.: 1

Tyre iron

Handy, robust and lightweight tyre iron made from chromium-vanadium

Design	Chrome-plated
--------	---------------

Length	Art. no.	P. Qty.
200 mm	0695 325 874	1/5
300 mm	0695 326 061	1/10
400 mm	0695 326 248	1/10
500 mm	0695 326 435	1/10
600 mm	0695 326 622	1/5

Tyre iron

- Material: Chrome vanadium
- Special curved shape for commercial vehicles

Length	600 mm
Design	Chrome vanadium steel, chrome-plated

Art. no. 0695 326 809

P. Qty.: 1

1/2 inch impact socket wrench insert

For gentle installation of alloy rims. Long version with colour coding system. Standard: DIN 3121/ISO 1174

- Version: forged, burnished
- Drive: 1/2 inch, hole for locking pin and groove for O-ring
- Tip: Hexagon, metric, Powerdriv
- Geometry: long
- Plastic sleeve
- Plastic stop inside the socket wrench insert
- Plastic sleeve with colour coding system

POWERDRIV

Drive	1/2 inch
Drive type	Internal square
Tip type	For outer hexagon
Length (L1)	85 mm
Socket wrench depth (t)	22 mm
Design	Forged
Material	Steel
Surface	Burnished
Standards	ISO 1174 DIN 3121

Width across flats	Socket wrench external diameter (D1)	Sleeve inside diameter (d2)	Sleeve outside diameter (d3)	Art. no.	P. Qty.

1/2 inch impact socket wrench insert power set

3-piece set comprising impact socket wrench inserts in sizes 17/19/21 with integral reinforcement ring for a longer service life

- Standard: DIN 3121/ISO 1174
- Drive: Hole for locking pin and groove for O-ring
- Geometry: long
- Reinforcement ring for long service life
- Replaceable plastic sleeve to protect aluminium rims
- Colour-coded socket wrenches

Width across flats	17 x 19 x 21 mm
Number of pieces in assortment/set	3 PCS

Art. no. 0714 134 30

P. Qty.: 1

1/2 inch impact socket wrench insert, extra long set

3 pieces Consisting of the impact socket wrench inserts SW 17/19/21 mm in extra long design.

Width across flats	17 x 19 x 21 mm
Number of pieces in assortment/set	3 PCS

Art. no. 0714 130 300

P. Qty.: 1

Cutting pliers

For plastic pipes up to Ø 22 mm

Max. cutting capacity in plastic hose	22 mm
Length	140 mm

Art. no. 0885 20 02

P. Qty.: 1

Spare blade

For cutting pliers

1/4-inch dynamometric screwdriver

Torque screwdriver for controlled clockwise tightening

- Trigger accuracy: $\pm 6\%$ of the set value according to DIN EN ISO 6789:2003, Type II, Class D
- Simple, fast setting of the torque scale without additional tools
- Soft component grip with 1/4-inch square mount at end of grip

Tip size	1/4 inch
Suitable for left-hand tightening	No
Suitable for right-hand tightening	Yes
Length	192 mm

Min./max. torque measuring range	Art. no.	P. Qty.
1-3.5 Nm	0714 71 91	1
4-9 Nm	0714 71 92	1

With calibration certificate and operating instructions, supplied in a plastic box

Tyre pressure monitoring system, tool set

Complete TPMS tool set for correct assembly of tyre-pressure sensors.

For almost all sensors available on the market

Customised tool set

High-precision torque tools

Cover the entire measuring range of 0.25 Nm and 1.0 - 9.0 Nm

Rubber seal tool

No seal damage thanks to gentle tool insert

Number of pieces in assortment/set	14 PCS
------------------------------------	--------

Art. no. 0714 71 900

Automatic coupling head

With valve

- The ball head is fitted with a valve, which opens when there is pressure on the seal (when coupling). The line is opened and air can flow. When releasing the connection, the line closes again.

Type description	Colour	Thread type x nominal diameter x pitch	Comparison number	Art. no.	P. Qty.
Brake	Yellow	M16 x 1.5	Wabco 952 200 222 0	0885 32 05	1/10

Coupling head Standard

- If a brake circuit fails or is defective (e.g. fracture of the line or of the connection), the trailer brake closes - braking is initiated
- Faulty or worn seals can be replaced
- Often used in conjunction with a shut-off valve

Air spiral line, universal

Universal adapter coil system suitable for all vehicles

- Universal coil with adapter system as assortment
- 95% market coverage with 5 adapters
- Easy to connect thanks to connections with moveable union nut
- Longer service life thanks to pressed-in connections
- With weather-resistant plastic anti-kink protection
- Complete with plastic retaining eye for correct mounting of the spiral wire for journeys without trailer
- Colour coding (yellow, red) for black coils to prevent confusion when connecting supply and brake lines

Material	PA - Polyamide
Diameter	110 mm
Connection thread	M18 x 1.5

Straight plug connector

For commercial vehicles

- Quick and easy pipe/hose installation and removal
- Reduced risk of leaks due to fewer components
- Corrosion-resistant brass design
- Saves money thanks to reduction in installation and repair times
- Complies with the international DIN, DOT and SAE regulations
- Operating medium: Compressed air
- Maximum operating pressure and hoses comply with DIN 74324
- Operating temperature: -40°C* to +100°C (* at temperatures below +2°C please observe the air quality)

Material	Brass
----------	-------

Outer diameter of pipe (T)	Length (L)	Art. no.	P. Qty.
6 mm	35.6 mm	0885 01 6	5/10
8 mm	37.6 mm	0885 01 8	5/10

15 mm	61.5 mm	0885 01 15	5/10
16 mm	61.5 mm	0885 01 16	5/10

- Screw connectors meet the requirements of DIN 74324
- Screw connectors meet the requirements of the Department of Transport Federal Motor Vehicle Safety Standard (DOT FMVSS 106) and the Society for Automotive Engineers (SAE J1131)
- Screw connectors are TÜV tested and approved for use in pneumatic brake systems
- on commercial vehicles

Above a certain length, pipes „vibrate“, irrespective of whether they are made of steel, copper or plastic. Therefore, all brake line piping (5–16 mm diameter) should be secured on the body or on the frame using pipe clamps, rubberised if possible, wherein the distance should be 1 m and must not exceed 1.20 m.

T-connector

For commercial vehicles

- Quick and easy pipe/hose installation and removal
- Reduced risk of leaks due to fewer components
- Corrosion-resistant brass design

- Mixing designs (e.g. steel polyamide with copper-nickel alloy) is not allowed!

Universal axle sleeve installation set, short

Repair time reduced by up to 50%

Installation without dismantling the cardan and axle joints

Resistant to oil and grease

Easy, cost-saving storage

Bellows with smooth inner surface

Scope of delivery:

- 1 universal axle sleeve
- 1 universal hose clamp, 7.0 x 178 mm
- 1 universal hose clamp, 7.0 x 368 mm
- 1 high-temperature joint grease

Outer diameter	80 mm
Outer diameter 2	20 mm
Length	128 mm
Included in delivery (Lieferumfang)	Universal axle boot, universal hose clamp 7.0x178 mm, universal hose clamp 7.0x368 mm, high-temperature joint grease

Art. no. 0820 550

P. Qty.: 1

Adjustable clamp

For neoprene bellows or other soft materials

- Clamp adjustable to several diameters
- Quick and easy axial or radial mounting

Width	7 mm
Material	Stainless steel

Length	Min. diameter	Max. diameter	Art. no.	P. Qty.
178 mm	25 mm	50 mm	0820 6 50	50
368 mm	40 mm	110 mm	0820 6 110	50

Steel adhesive weight for car aluminium rims

Fingerlift (protrusion on protective film) enables the protective film to be gripped and removed easily, even when wearing gloves.

- No cutting edges on the weight body
Individually detachable weights
- Powder coating
High level of corrosion protection

Weight of balance weight	60 g
Surface	Powder-coated
Suitable for rim type	Aluminium
Length	153 mm
Width	19 mm

60 g	Zinc	Powder-coated	56.658 g	0830 75 60	50

Safety spoke weights are supplied without springs. The springs must be ordered separately depending on the application (steel or aluminium rims).

Please note: 2-piece safety spoke weights are not approved on all aluminium rims. If adhesive weights are prescribed, we recommend the use of art. no. 0830 912...

Spring DC steel wheel

For safety spoke weights made from zinc for Mercedes-Benz steel rims, coated

Franken comparison no.: 75-2

Material	Spring steel
Surface	Powder-coated
Suitable for rim type	Steel
Colour	Black
Product weight (per item)	3.098 g

Art. no. 0830 75 02

P. Qty.: 100

Zinc impact balance weight for car steel rims

With black powder coating for black steel rims

Type 84 B

Universal application on almost all steel rims

thanks to the special shape of the weight.

Clear differentiation

possible for impact weights for car aluminium rims

Material	Zinc
Surface	Powder-coated
Suitable for rim type	Steel
Colour	Black

Weight of balance weight	Length	Product weight (per item)	Art. no.	P. Qty.
5 g	17 mm	4.96 g	0830 85 05	100
10 g	21 mm	10.06 g	0830 85 10	100
15 g	33 mm	14.86 g	0830 85 15	100

Adhesive weights for car light metal rims

1000 steel adhesive weights on the roller for cutting off

- No need to search and sort out single weights
- Adhesive tape with fingerlift for rapid release of single weights
- Zinc plated and additionally powder-coated surface

Weight of balance weight	5 g
Material	Steel
Surface	Powder-coated
Suitable for rim type	Aluminium
Length	12.75 m
Width	19 mm
Height	3.8 mm
Colour	Black
Max. temperature resistance	180 °C
Design	Roll
Product weight (per item)	5 kg

Art. no. 0830 14 445

P. Qty.: 1

Tyre profile depth gauge

- Sturdy design
- Fast and precise measurement of the profile depth

Min./max. length measuring range	0-30 mm
Vernier scale	1/10 mm
Material	Brass
Product weight (per item)	44 g

Art. no. 0879 999

P. Qty.: 1

Car rubber valve snap-in

With laser-marked manufacture date on the valve stem

Manufactured in accordance with DIN 7780

100% leak tested by manufacturer

Example of laser-marked manufacturing date on valve body:

W4511 stands for Würth, calendar week 45 in 2011

Continuation **Car rubber valve snap-in**

Length (L)	Suitable for rim-hole diameter	Suitable for min. rim thickness	Suitable for max. rim thickness	Max. air pressure	Art. no.	P. Qty.
33 mm	11.3 mm	1.8 mm	4 mm	4.5 bar	0879 412	100
42.5 mm	11.3 mm	1.8 mm	4 mm	4.5 bar	0879 413	100
42.5 mm	15.7 mm				0879 415	100
48.5 mm	11.3 mm	1.8 mm	4 mm	4.5 bar	0879 414	100
61.5 mm	11.3 mm	1.8 mm	4 mm	4.5 bar	0879 418	100

When stored in accordance with DIN 7716, we recommend installing the rubber valves within 24 months of manufacture. It is essential to ensure correct installation with a suitable tool (valve mounting lever, art. no. PR01_071554_04) and sufficient lubrication (tyre mounting paste, art. no. PR01_08901241 or art. no. PR01_08901221)

Speed restriction:

- For tyres without inner tubes on cars, at speeds of >210 km/h (V, W, Y or ZR) metal valves (clamp-in) or valve supports should be used to restrict the valve deflection to a max. angle of 25°.
- In a few cases, the rim design already ensures that the max. valve deflection is not exceeded. (This must be checked in each individual case by the user).

Car rubber valve, snap-in eco

With laser-marked manufacture date on the valve stem

- Manufactured in line with E.T.R.T.O. (European Tyre and Rim Technical Organisation)
- Example of a lasered manufacturing date on valve body: 4511 stands for calendar week 45 in 2011
- Partial assembly (TM) saves time and money
- Additional seal created by nickel-plated brass valve cap with seal (MK)

Suitable for rim-hole diameter	11.3 mm
Suitable for min. rim thickness	1.8 mm
Suitable for max. rim thickness	4 mm
Max. air pressure	4.5 bar
Max. speed	210 km/h

Length (L)	Material	Art. no.	P. Qty.

61.5 mm		0879 041 83	1000
61.5 mm	Rubber	0879 041 8	100

When stored in accordance with DIN 7716, we recommend installing the rubber valves within 24 months of manufacture. It is essential to ensure correct installation using a suitable tool (valve mounting lever, art. no. PR01_071554_04) and sufficient lubrication (tyre mounting paste, art. no. PR01_08901241 or art. no. PR01_08901221)

Speed restriction:

- On tyres without inner tubes on cars driving at speeds of >210 km/h (V, W, Y or ZR), metal valves (clamp-in) or valve supports must be used to restrict valve deflection to a max. angle of 25°.
- In some cases, rim construction already ensures that the max. valve deflection is not exceeded. (This must be checked in each individual case by the user).

Transporter valve

High pressure load-bearing capacity - fits in almost every rim

Highly flexible sealing lip

- Reliable seal

Patented pressure disc with predetermined breaking point

- No special tools required for dismantling
- Prevention of rim damage

Combines the benefits of rubber and metal valves

- Increased pressure load (up to 7 bar)
- Savings of time and effort

Temperature resistant from -40°C to +130°C

Suitable for rim-hole diameter	11.3 mm
Suitable for min. rim thickness	1.8 mm
Suitable for max. rim thickness	4 mm
Max. air pressure	7 bar
Max. speed	210 km/h

Length (L)	Art. no.	P. Qty.
40 mm	0879 60 40	50

Universal car tyre valve

Suitable for all common LM wheels

Length (L)	42 mm
Suitable for rim-hole diameter	11.3 mm
Suitable for min. rim thickness	1.8 mm
Suitable for max. rim thickness	4 mm
Width across flats (SW)	11 mm
Material	Brass
Surface	Nickel plated
Min./max. recommended tightening torque	4-6 Nm
Material of the washer	PA - Polyamide

Art. no. 0879 563 1

P. Qty.: 10/100

Universal car tyre valve Eco

Suitable for all common LM wheels

With PA disc

Length (L)	42 mm
Suitable for rim-hole diameter	11.3 mm
Suitable for min. rim thickness	1.8 mm
Suitable for max. rim thickness	4 mm
Width across flats (SW)	11 mm
Material	Brass
Surface	Nickel plated

Art. no. 0879 563 10

P. Qty.: 100

Recommended tightening torque 4–6 Nm

Aluminium car tyre valve

Improved material compatibility for aluminium wheels

65% weight saving compared with conventional metal valves

Length (L)	42 mm
Suitable for rim-hole diameter	11.3 mm
Suitable for min. rim thickness	1.8 mm
Suitable for max. rim thickness	4 mm
Width across flats (SW)	11 mm
Material	Aluminium

Colour	Surface	Art. no.	P. Qty.

Snow chain ICE Cargo

Pattern chain for use with medium to heavy trucks

- Diamond pattern chain
- Hardened, galvanized snow chain with D-shaped cross-section
- Tensioned with side chain and tightening lever
- Side rings simplify guiding the tensioning chain
- Approved and certified in line with Austrian standard 5119 and TÜV

Type description	Ice Cargo
Diameter	7.5 mm
Material	Steel

Size	Product weight (per item)	Art. no.	P. Qty.
295	14000 g	5215 029 580	1
315	14100 g	5215 031 570	1
315	15200 g	5215 031 580	1
385	16300 g	5215 038 565	1

- Maximum speed with snow chains 50 km/h
- Winter equipment requirements for trucks: Winter tires from 01/11 to 15/4.
- Snow chain requirements: From 01/11 to 15/4.

Snow chain ICE Cargo Profi

Individual cross connector for easy and light installation.

- Attachment system with interior side chain for reliable operation even in the toughest of conditions
- Diamond pattern chain
- D-shape, hardened, galvanized snow chain
- Tensioning with side chain and tightening lever
- Approved and certified in line with Austrian standard 5119 and TUV

Type description	Ice Cargo Profi
Diameter	7.5 mm
Material	Steel

Size	Product weight (per item)	Art. no.	P. Qty.
315	15200 g	5215 131 580	1
315	20000 g	5215 131 570	1
385	16300 g	5215 138 565	1

- Maximum speed with snow chains 50 km/h
- Winter equipment requirements for trucks: Winter tires from 01/11 to 15/4.
- Snow chain requirements: From 01/11 to 15/4.

Plastic extension for tyre valve

Length	115 mm
Comparison number	38.2605, 2190-115
Material	Plastic
Max. length	97.5 mm

Art. no. 0879 74

P. Qty.: 10

Tyre valve extension

Shatterproof and pressure-free for trucks, transporters and buses

- Pressure-free thanks to remote actuation
- Flexible and shatterproof thanks to a multi-layer design (can be used without rim clamps)
- No need to remove hub caps on single wheels
- Used by Daimler as an aftersale product

No damage caused by breaking off or wearing through and becoming porous when shatterproof and pressureless extensions are used

- Less tire wear and fuel consumption
- Lower risk of accidents
- Shorter repair times

Length	Art. no.	P. Qty.
75 mm	0879 66 75	10
105 mm	0879 66 105	10
145 mm	0879 66 145	10
185 mm	0879 66 185	10

Safety:

- For vehicles with hub caps, the hub caps must be removed in order to check the tyre pressure. This leads to the tyre pressure of such vehicles not being checked very often
- For vehicles with twin tyres, regular and safety-relevant pressure checking often cannot be performed on inner twin tires due to a broken plastic extension, loose hose extension or even missing valve extension. This results in a greater risk of accidents and increased tyre wear.

Costs:

Did you know that loss in pressure of just 0.5 bar in tyres driven 100,000 km results in an additional consumption of 875 litres and reduces the service life of tyres by more than a third?

Service life:

A deviation of just 0.6 bar from the ideal air pressure reduces the service life of tyres by 45%. In this case, the vehicle must have its tyres changed at a workshop almost twice as often as is actually necessary. If accidents occur due to insufficient tyre pressure, this translates to even longer downtimes.

Conclusion:

The new tyre valve extension solves the problems described here! They are extremely stable, flexible, shatterproof and can be used on almost any vehicle. Tyre pressure checking is streamlined as a result, which means they pay for themselves after just a few kilometres of driving.

Short valve insert

Resistant to high temperatures

Length	19 mm
--------	-------

Art. no. 0879 44

P. Qty.: 100

Label sleeve For tyre tags

Suitable for storing wheels upright and on sides.

Colour	Transparent
Length	177 mm
Width	139 mm
Material	Plastic

Art. no. 0824 010 110

P. Qty.: 100

Insertion sleeves

For reinforcing tube walls if they are too thin.

Material	Brass
----------	-------

Suitable for	Suitable for hose internal diameter	Art. no.	P. Qty.
Pipe diameter 4 x 0.85 mm	2.3 mm	0884 604 603	25/100/500
Pipe diameter 6 x 1.25 mm	3.5 mm	0884 606 613	25

Straight connector, insertable

For central lubrication unit

Material	Brass
Surface	Nickel plated

Suitable for hose external diameter	Art. no.	P. Qty.
4 mm	0884 604 110	10
6 mm	0884 606 110	10

The straight connectors for 4-mm and 6-mm pipe diameters are suitable for use in the low-pressure range only.

Freely rotatable joint, insertable

For central lubrication unit

- The screw-in threads are tapered and thus self-sealing.
- The size of screw-in thread depends on the lubrication point/manifold point.

Suitable for hose external diameter	6 mm
Material	Brass
Surface	Nickel plated

Connection thread (d2)	Art. no.	P. Qty.
M6 x 1 tapered	0884 600 113	10
M8 x 1 tapered	0884 600 114	10
M10 x 1 tapered	0884 600 115	10
R 1/8 inch tapered	0884 600 116	10

The rotary joints for 4-mm and 6-mm pipe diameters are suitable for use in the low-pressure range only.

Tyre repair system Pneusil

Quick and easy repair means the tyre can be re-used immediately

- Mushroom-shaped repair unit suitable for radial and diagonal tyres with or without tubes (tubeless)
- Can be used up to and including speed code „V“ (up to 240 km/h)
- The repair units are processed in conjunction with high-strength vulcanising cement
- Repair from the inside alone offers maximum levels of quality, reliability and safety

Type	Max. hole diameter	Shaft diameter	Disc diameter	Art. no.	P. Qty.
WP3	3 mm	4 mm	20 mm	0879 92 03	40
WP6	6 mm	7 mm	40 mm	0879 92 06	24
WP10	10 mm	12 mm	90 mm	0879 92 10	10

Please consider the legal instruction at the beginning of this chapter.

Continuing to drive with a flat tyre until the vehicle comes to a complete standstill can cause considerable damage to the structure of the tyre. Only specialist checking of the inner tyre can enable an assessment to be made as to whether the tyre can be repaired and, if so, with which repair system. The tyre must therefore always be removed from the rim - safety depends on this!

Pneusil repair set

Cabinet dimensions: 495 x 355 x 195 mm

Content:

- 40 Pneusil WP 3
- 48 Pneusil WP 6
- 1 HM cutter 3 mm
- 1 HSS cutter 6 mm
- 1 sanding block
- 1 press-on roller
- 1 vulcanising cement

Number of pieces in assortment/set	93 PCS
------------------------------------	--------

Art. no. 0964 879

P. Qty.: 1

Contents for art. no. 0964 879		
Designation	Art. no.	Quantity
Tyre repair system Pneusil	0879 92 03	40

Tyre pressure monitoring system EZ sensor® 2.0 with rubber valve

Programmable tyre pressure monitoring sensor, covers almost all original sensors

- Reduced purchasing cost and optimised storage
- Supports the position-dependent pressure value display in the vehicle, thus fully compatible with the latest OE sensor position determination
- Fulfils OEM requirements (developed according to the quality and functional standards of original equipment manufacturers)
- Developed and tested for the majority of aluminium and steel rims from OEMs and aftermarket

Electronic ID can be copied from an original sensor to the spare sensor in connection with iQ 50

No need for repeated learning-in on the vehicle in the case of complete wheels (winter tyre set)

Sensor can be programmed as often as required

Remote programming thanks to wheels that are already fitted using iQ 50, enabling a „neutral“ preparation of complete wheels

Valve angle	10 Degree
Material of the valve	Rubber
Suitable for valve-hole diameter	11.3 mm
Transmission frequency	433.92 MHz
Max. speed	210 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm
Min./max. pressure measuring range	0-5.5 bar
Type of rechargeable battery/battery	Lithium
Number of rechargeable batteries/batteries	1 PCS
Rechargeable battery/battery permanently installed	Yes

Art. no. 0879 960 021

P. Qty.: 1

For each tyre change, use a new rubber valve and valve insert and screw, and keep to the specified tightening torques.

Works with the programming and diagnostics tool iQ 50 from WOW!.

Tyre pressure monitoring system EZ-Sensor® 2.0 with aluminium valve, fixed

Programmable tyre pressure monitoring sensor, covers almost all original sensors

- Reduced purchasing cost and optimised storage
- Supports the position-dependent pressure value display in the vehicle, thus fully compatible with the latest OE sensor position determination
- Fulfils OEM requirements (developed according to the quality and functional standards of original equipment manufacturers)
- Developed and tested for the majority of aluminium and steel rims from OEMs and aftermarket

Electronic ID can be copied from an original sensor to the spare sensor in connection with iQ 50

No need for repeated learning-in on the vehicle in the case of complete wheels (winter tyre set)

Sensor can be programmed as often as required

Remote programming thanks to wheels that are already fitted using iQ 50, enabling a „neutral“ preparation of complete wheels

Valve angle	10 Degree
Material of the valve	Aluminium
Suitable for valve-hole diameter	11.3 mm
Transmission frequency	433.92 MHz
Max. speed	250 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm
Min./max. pressure measuring range	0-7.5 bar
Type of rechargeable battery/battery	Lithium
Number of rechargeable batteries/batteries	1 PCS
Rechargeable battery/battery permanently installed	Yes

Art. no. 0879 960 022

P. Qty.: 1

For each tyre change, use a new rubber valve and valve insert and screw, and keep to the specified tightening torques.

Works with the programming and diagnostics tool iQ 50 from WOW!.

Tyre pressure monitoring system EZ-Sensor® 2.0 with aluminium valve, variable

Programmable tyre pressure monitoring sensor, covers almost all original sensors

- Reduced purchasing cost and optimised storage
- Supports the position-dependent pressure value display in the vehicle, thus fully compatible with the latest OE sensor position determination
- Fulfils OEM requirements (developed according to the quality and functional standards of original equipment manufacturers)
- Developed and tested for the majority of aluminium and steel rims from OEMs and aftermarket

Electronic ID can be copied from an original sensor to the spare sensor in connection with iQ 50

No need for repeated learning-in on the vehicle in the case of complete wheels (winter tyre set)

Sensor can be programmed as often as required

Remote programming thanks to wheels that are already fitted using iQ 50, enabling a „neutral“ preparation of complete wheels

Min. valve angle	0 Degree
Max. valve angle	40 Degree
Material of the valve	Aluminium
Suitable for valve-hole diameter	11.3 mm
Transmission frequency	433.92 MHz
Max. speed	300 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	0 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm
Min./max. pressure measuring range	0-7.5 bar
Type of rechargeable battery/battery	Lithium
Number of rechargeable batteries/batteries	1 PCS
Rechargeable battery/battery permanently installed	Yes

Art. no. 0879 960 023

P. Qty.: 1

For each tyre change, use a new rubber valve and valve insert and screw, and keep to the specified tightening torques.

Works with the programming and diagnostics tool iQ 50 from WOWI.

Tyre pressure monitoring system sensor sens.it RS3

Programmable tyre pressure monitoring sensor, covers almost all original sensors

- Reduced purchase cost and optimised storage
- Used in almost all steel and aluminium wheels thanks to patented ball joint design

Electronic ID can be copied from an original sensor to the sens.it sensor in connection with iQ 50

No need for repeated teach-in on the vehicle in the case of complete wheels (winter tyre set)

Sensor can be programmed as often as required

Remote programming thanks to wheels that are already fitted using iQ 50, enabling a „neutral“ preparation of complete wheels

Min. valve angle	12 Degree
Max. valve angle	40 Degree
Suitable for valve-hole diameter	11.3 mm
Transmission frequency	433.92 MHz
Max. speed	250 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	3.3 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	3.3 Nm
Min./max. pressure measuring range	0-8 bar
Type of rechargeable battery/battery	Lithium
Number of rechargeable batteries/batteries	1 PCS
Rechargeable battery/battery permanently installed	Yes

Art. no. 0879 962 003

P. Qty.: 1

Sensor supplied without valve. For each tyre change, replace the valve and adhere to the manufacturer's specified tightening torques. Works with the programming and diagnostics tool iQ50 from WOW!

Valve for spare sensor (EZ sensor®) with metal valve

Material of the valve	Brass
Max. speed	250 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm
Included in delivery (Lieferumfang)	Tightening screw, valve body, union nut, sealing ring, valve cap, valve insert

Continuation **Valve for spare sensor (EZ sensor®) with metal valve**

Suitable for	Art. no.	P. Qty.
EZ-sensor with metal valve 10 degree	0879 961 002	10
EZ-sensor with metal valve 20 degree	0879 961 004	10

Valve for EZ sensor® 2.0 with aluminium valve

Material of the valve	Aluminium
Suitable for	EZ-sensor 2 with metal valve
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm

Max. speed	Tightening torque – screw according to manufacturer's specifications incl. tolerance	Included in delivery (Lieferumfang)	Art. no.	P. Qty.
250 km/h	1.4 Nm	Tightening screw, valve body, union nut, sealing ring, valve cap, valve insert	0879 961 022	10
300 km/h	0 Nm	Valve body, union nut, sealing ring, valve cap, valve insert	0879 961 023	10

Aluminium valve

For sens.it sensor, RS3 433 MHz

Proven quality as used for original equipment.

Patented ball joint design

Allows this valve/sensor version to be used in almost all steel and aluminium wheels available on the market

Aluminium alloy with permanent corrosion protection

Additional anodised coating

Equivalent to today's original sensors in terms of functionality and quality

Material of the valve	Aluminium
Max. speed	250 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	3.3 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	3.3 Nm
Included in delivery (Lieferumfang)	Valve body with seal, hex. nut, valve cap, M5 screw, mounting pin

Colour	Art. no.	P. Qty.
Silver, Aluminium coloured	0879 963 001	1
Black	0879 963 002	1

Vehicle battery charger

High-performance battery charger with active inverter technology. Expert 12/24 V - 35 A

- Powerful and compact battery charger with active inverter technology for use in workshops
- Automatic voltage detection
- Robust metal housing with rubber edge protection

Min. charging voltage	12 V/DC
Max. charging voltage	24 V/DC
Charging current	35 A
Min./max. rechargeable battery/battery capacity	45-200 Ah
Power rating	1120 W
Charging characteristics	IUoU
IP protection class	IP 40/IP 44
Length (battery charging cable with terminals)	5 m
Length x width x height	270 x 168 x 100 mm
Product weight (per item)	4217 g
Colour	Silver coloured

Art. no. 0510 955 604

P. Qty.: 1

Vehicle battery charger

Powerful battery charger with active inverter technology for use during diagnostics and software updates.
Professional 6/12/24 V - 35 A

- Powerful battery charger with active inverter technology for use in workshops during diagnostics and software updates.
- Animated LCD
- Automatic voltage detection

Min. charging voltage	6 V/DC
Max. charging voltage	24 V/DC
Charging current	35 A
Min./max. rechargeable battery/battery capacity	3-350 Ah
Charging characteristics	IUoU
IP protection class	IP 40/IP 44
Length (battery charging cable with terminals)	2.5 m
Cable cross section	10 mm ²
Length x width x height	270 x 168 x 100 mm
Product weight (per item)	3695 g

Art. no. 0510 955 607

P. Qty.: 1

Recommended charging technology and used by well-known automotive manufacturers: Porsche, Mercedes-Benz (cars+trucks), Hyundai, Opel/GM, Fiat Group, Renault trucks, Volvo trucks, Scania, DAF, MAN

Battery charger, 12 V, 100 A, 20–1200 Ah

Multi-function device for battery and vehicle electrical system voltage support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system voltage.

Suitable for vehicles with 12 V batteries

Motorcycles, passenger cars, vans, agricultural machinery, emergency vehicles, construction machinery

Revives severely discharged batteries

>2V (automatic SOS recovery)

Carries out automatic cell balancing

Frequency	50 Hz
Max. charging voltage	14.8 V/DC
Charging current	100 A
Min./max. rechargeable battery/battery capacity	20-1200 Ah
Power rating	1600 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 21
Cable length	2.5 m
Fully insulated charging terminals	Yes

Length (battery charging cable with terminals)	5 m
Cable cross section	16 mm ²
Product weight (per item)	8340 g
Colour	Silver coloured, Light grey, similar to RAL 7035
Spark protection	Yes
Reverse-polarity protection	Yes

Art. no. 0510 955 710

P. Qty.: 1

Charging curves

- 4 pre-programmed charging curves
- Own/vehicle manufacturers load curve can be configured and entered.

Battery charger, 12 V, 25 A, 30–500 Ah

Multi-function device for workshop use. Supports battery and vehicle electrical system, also for charging and recharging starter batteries without disconnecting from the vehicle electrical system

Suitable for vehicles with 12 V lead-acid batteries

For example: Motorcycles, passenger cars, vans, agricultural machinery, emergency vehicles, construction machinery

Revives severely discharged batteries with a residual voltage > 2 V

Removable rubberised mounting hook for flexible and safe use on the vehicle

Frequency	50 Hz
Power supply voltage	13.7 V
Min. charging voltage	2 V
Max. charging voltage	14.7 V
Charging current	25 A
Min./max. rechargeable battery/battery capacity	30-500 Ah
Power rating	412 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	7-step fully automatic charging characteristic
IP protection class	IP 20
Cable length	2.5 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	3 m
Cable cross section	5.3 mm ²
Length x width x height	53 x 98 x 202 mm
Product weight (per item)	2200 g
Colour	Traffic black RAL 9017
Reverse-polarity protection	Yes

Continuation **Battery charger, 12 V, 25 A, 30–500 Ah**

Art. no. 0510 955 750

P. Qty.: 1

Battery charger, 12 V, 32 A, 30–600 Ah BLG 12-32 Showroom

Multi-function device for battery and vehicle electrical system support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system. For the professional presentation of vehicle features in showroom mode.

Suitable for vehicles with 12 V lead-acid batteries

For example: Motorcycles, passenger cars, vans, agricultural machinery, emergency vehicles, construction machinery

Maximises the service life and performance of the battery

Fully-automatic, seven-stage charging cycle avoids battery sulphation and does not require monitoring

Fanless design allows noise-free presentation

Frequency	50 Hz
Power supply voltage	13.7 V
Min. charging voltage	2 V
Max. charging voltage	14.4 V
Charging current	32 A
Min./max. rechargeable battery/battery capacity	30-600 Ah
Power rating	560 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	7-step fully automatic charging characteristic
IP protection class	IP 40
Cable length	5 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	2.5 m
Cable cross section	8 mm ²
Length x width x height	227 x 125 x 62 mm
Product weight (per item)	1700 g
Colour	Traffic black RAL 9017
Reverse-polarity protection	Yes

Art. no. 0510 955 800

P. Qty.: 1

Battery charger, 12/24 V - 15 A, 10–255 Ah

Multi-function device for battery and vehicle electrical system support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system

- Automatic voltage detection
- Suitable for vehicles with 12-V and 24-V lithium and lead-acid batteries
- Charges batteries with a residual voltage of > 1.5 V at 12-V vehicle electrical system voltage and 3.0 V at 24-V vehicle electrical system voltage

Frequency	50 Hz
Charging voltage max. at 12 V	14.4 V
Charging voltage max. at 24 V	28.8 V
Charging current at 12 V	15 A
Charging current at 24 V	15 A
Min./max. rechargeable battery/battery capacity	10-255 Ah
Power rating	450 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 12 V lithium ion battery (LiFePO ₄), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 21
Cable length	2 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	2 m
Cable cross section	1.5 mm ²
Length x width x height	115 x 180 x 70 mm
Product weight (per item)	8340 g
Colour	Traffic black RAL 9017
Spark protection	Yes
Reverse-polarity protection	Yes

Art. no. 0510 955 821

P. Qty.: 1

Battery charger 12/24 V–35 A, 10–655 Ah

Multi-function device for battery and vehicle electrical system support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system

- Automatic voltage detection
- Suitable for vehicles with 12-V and 24-V lithium and lead-acid batteries
- Charges batteries with a residual voltage of > 1.5 V at 12-V vehicle electrical system voltage and 3.0 V at 24-V vehicle electrical system voltage

Frequency	50 Hz
Charging voltage max. at 12 V	14.4 V
Charging voltage max. at 24 V	28.8 V
Charging current at 12 V	35 A
Charging current at 24 V	35 A
Min./max. rechargeable battery/battery capacity	10-655 Ah
Power rating	1000 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 12 V lithium ion battery (LiFePO4), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 21
Cable length	2 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	2.5 m
Cable cross section	6 mm ²
Product weight (per item)	8340 g
Colour	Traffic black RAL 9017
Spark protection	Yes
Reverse-polarity protection	Yes

Art. no. 0510 955 841

P. Qty.: 1

Battery charger, 12/24 V–50 A, 10–850 Ah

Multi-function device for battery and vehicle electrical system support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system

- Suitable for vehicles with 12 and 24 V lithium and lead-acid batteries
- Automatic battery and battery voltage detection
- Multi-resonance converter technology for everyday professional workshop use, desulphation mode for refreshing sulphated batteries

Frequency	50 Hz
Charging voltage max. at 12 V	14.8 V
Charging voltage max. at 24 V	29.2 V
Charging current at 12 V	50 A
Charging current at 24 V	50 A
Min./max. rechargeable battery/battery capacity	10-850 Ah
Power rating	1600 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 12 V lithium ion battery (LiFePO ₄), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 21
Cable length	2 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	5 m
Cable cross section	10 mm ²
Product weight (per item)	7099 g
Colour	Traffic black RAL 9017
Spark protection	Yes
Reverse-polarity protection	Yes

Art. no. 0510 955 850

P. Qty.: 1

Battery charger, 12/24 V–120 A, 20–1500 Ah

Multi-function device for battery and vehicle electrical system support, as well as for charging and recharging starter batteries without disconnecting from the vehicle electrical system

- Suitable for vehicles with 12 and 24 V lithium and lead-acid batteries
- Automatic battery and battery voltage detection
- Multi-resonance converter technology for everyday professional workshop use, desulphation mode for refreshing sulphated batteries

Frequency	50 Hz
Charging voltage max. at 12 V	14.8 V
Charging voltage max. at 24 V	29.2 V
Charging current at 12 V	120 A
Charging current at 24 V	60 A
Min./max. rechargeable battery/battery capacity	20-1500 Ah
Power rating	3300 W
Rechargeable battery/battery designation	12 V lead-acid batteries (open and maintenance-free, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 12 V lithium ion battery (LiFePO ₄), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 21
Cable length	5 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	5 m
Cable cross section	25 mm ²
Product weight (per item)	14991 g
Colour	Traffic black RAL 9017
Spark protection	Yes
Reverse-polarity protection	Yes

Art. no. 0510 955 870

P. Qty.: 1

Vehicle battery charger, 12/24 V 8 A Lithium/lead 10–240 Ah

Fully automatic battery charger for charging 12–24 V lead batteries and 12.8 V lithium batteries

- Compact and robust device with dust-proof, splash-proof and UV-resistant housing
- Includes repair mode to recover deeply discharged, sulphated or reduced capacity batteries
- Power supply function for disconnecting the battery from the vehicle without losing important configurations, automatic battery detection and selection of 8 charging modes

Min./max. input voltage	220-240 V
Frequency	50 Hz
Charging voltage max. at 12 V	14.7 V
Charging voltage max. at 24 V	29.4 V
Charging current at 12 V	7.5 A
Charging current at 24 V	3.75 A
Min./max. rechargeable battery/battery capacity	10-240 Ah
Power rating	105 W
Rechargeable battery/battery designation	12 V lithium ion battery (LiFePO ₄), 12 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 65
Cable length	1.8 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	1.8 m
Cable cross section	1.3 mm ²
Length x width x height	234 x 104 x 64 mm
Product weight (per item)	1080 g
Colour	Black, Anthracite grey
Spark protection	Yes
Reverse-polarity protection	Yes
Approval mark	CE, GS certified safety

Art. no. 0510 955 908

P. Qty.: 1

- Wintering: Special 12 and 24-V charging mode in cold outdoor temperatures
- Storage, exhibition and vehicle handover: Automatic switching to trickle charging with pulsed maintenance charging currents when the battery is charged (12 and 24 V)
- Battery change: Power supply function for battery replacement without data loss

Vehicle battery charger, 12/24 V 15 A Lithium/lead 25-400 Ah

Fully automatic battery charger for charging 12-24 V lead batteries and 12.8 V lithium batteries

- Compact and robust device with dust-proof, splash-proof and UV-resistant housing
- Includes repair mode to recover deeply discharged, sulphated or reduced capacity batteries
- Jump start function for starting an engine with (deeply) discharged batteries

Min./max. input voltage	220-240 V
Frequency	50 Hz
Charging voltage max. at 12 V	14.7 V
Charging voltage max. at 24 V	29.4 V
Charging current at 12 V	15 A
Charging current at 24 V	7.5 A
Power supply voltage	13.6 V
Min./max. rechargeable battery/battery capacity	25-400 Ah
Power rating	200 W
Rechargeable battery/battery designation	12 V lithium ion battery (LiFePO ₄), 24 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+), 12 V lead-acid batteries (open, MF, calcium, VRLA, GEL, AGM fleece, EFB, EFB+)
Charging characteristics	IUoU
IP protection class	IP 44
Cable length	1.8 m
Fully insulated charging terminals	Yes
Length (battery charging cable with terminals)	1.8 m
Cable cross section	3.18 mm ²
Length x width x height	272 x 117 x 72 mm
Product weight (per item)	2164 g
Colour	Black, Anthracite grey
Spark protection	Yes
Reverse-polarity protection	Yes
Approval mark	CE, GS certified safety

Art. no. 0510 955 915

P. Qty.: 1

- Wintering: Special 12 and 24-V charging mode in cold outdoor temperatures
- Storage, exhibition and vehicle handover: Automatic switching to trickle charging with pulsed maintenance charging currents when the battery is charged (12 and 24 V)
- Battery change: Power supply function for battery replacement without data loss

Semi-automatic starter

For petrol and diesel engines up to 2200 cm³ displacement

- Correct polarity indication by LEDs and separate ON/OFF switch lever (semi-automatic)
- Protection against power surges
- Short circuit/overload protection
- Fully insulated, angled solid clamps with highly flexible fully rubberised lines
- Deenergised connection to and disconnection from the vehicle's power system
- LED battery status indicator

Nominal voltage	12 V/DC
Nominal current	600 A
Max. current	1500 A
Rechargeable battery/battery capacity	16 Ah
Wire cross section	35 mm ²
Suitable for max. cubic capacity	2200 cm ³
Cable length	120 cm
Material of the housing	Plastic
Weight	10 kg
Height	430 mm
Width	200 mm
Depth	230 mm

Art. no. 0772 121

P. Qty.: 1

Dekra-tested

Semi-automatic starter

For mobile, mains-independent jump starting of cars with a 12-V electrical system.

- Correct polarity indication by LEDs and separate ON/OFF switch lever (semi-automatic)
- Short circuit/overload protection, protection against power surges
- LED battery status indicator

Nominal voltage	12 V/DC
Nominal current	1200 A
Max. current	3100 A
Rechargeable battery/battery capacity	32 Ah
Wire cross section	35 mm ²
Cable length	120 cm
Material of the housing	Plastic
Weight	18 kg
Height	430 mm
Width	200 mm
Depth	230 mm

Art. no. 0772 122

P. Qty.: 1

Dekra-tested

Not for US trucks

Automatic jump starter

Automatic start function. Starting power not summoned until needed, which means greater starting power.

- For mobile, mains-independent jump starting of cars and light commercial vehicles with a 12-V or 24-V electrical system.
- Fully insulated, angled solid clamps with highly flexible fully rubberised lines
- Deenergised connection to and disconnection from the vehicle's power system

Type description	Jump starter
Min. nominal voltage	12 V/DC
Max. nominal voltage	24 V/DC
Nominal current	1400 A
Max. current	3100 A
Rechargeable battery/battery capacity	32 Ah
Rechargeable battery/battery permanently installed	Yes
Wire cross section	50 mm ²
Suitable for max. cubic capacity	4000 cm ³
Display	LED
Cable length	120 cm
Material of the housing	ABS
Weight	18 kg
Height	430 mm
Width	230 mm
Depth	230 mm

Art. no. 0772 122 42

P. Qty.: 1

Dekra-tested

Automatic jump starter

Automatic start function. Starting power not summoned until needed, which means greater starting power.

- For mobile, mains-independent jump starting of cars and light commercial vehicles with a 12-V or 24-V electrical system
- Automatic polarity reversal protection
- Automatic voltage selection 12 V/24 V (manual voltage selection also possible)

Dekra-tested

Type description	Jump starter
Min. nominal voltage	12 V/DC
Max. nominal voltage	24 V/DC
Rechargeable battery/battery capacity	64 Ah
Rechargeable battery/battery permanently installed	Yes
Wire cross section	50 mm ²
Suitable for max. cubic capacity	12000 cm ³
Display	LED
Cable length	140 cm
Material of the housing	ABS
Weight	38 kg
Height	1000 mm

Width	470 mm
Depth	400 mm

Art. no. 0772 122 44

P. Qty.: 1

Starter cable 25 mm²

Including overload protection

- Fully-insulated plastic clamps up to max. 350-A load
- For petrol engines up to max. 5500 cm³
- For diesel engines up to max. 3000 cm³
- Meets DIN
- With two start-safe boxes (protection against overvoltage, no reverse polarity protection)

Colour	Red, Black
Cable cross section	25 mm ²
Cable length	3.5 m
Max. current	350 A

Art. no. 0772 025 350

P. Qty.: 1

Please observe the enclosed operating instructions.

Starter cable 35 mm²

Including overload protection

- With two start-safe boxes in tough plastic housing
- For petrol engines up to max. 7000 cm³
- For diesel engines up to max. 4000 cm³
- Weight: 4.7 kg
- Fully insulated sheet steel clamps for loads up to max. 600 A
- Complies with DIN
- Comes in a hard-wearing, tear-resistant textile bag

Colour	Red, Black
Cable cross section	35 mm ²
Cable length	4.5 m
Max. current	600 A

Art. no. 0772 035 521

P. Qty.: 1

Please observe the enclosed operating instructions

Truck starter cable 50 mm²

Including overload protection

- With two start-safe boxes in tough plastic housing
- For all HGV engines
- Highly flexible individual lines

Colour	Red, Black
Cable cross section	50 mm ²
Cable length	5 m
Max. current	1000 A

Art. no. 0772 035 520

P. Qty.: 1

Please observe the enclosed operating instructions

Starter cable 35 mm²

Comes in a hard-wearing, tear-resistant textile bag

For petrol engines

up to max. 7000 cm³

For diesel engines

up to max. 4000 cm³

Weight: 4.7 kg

Fully insulated sheet metal clamps for loads up to max. 600 A

In line with DIN

Colour	Red, Black
Cable cross section	35 mm ²
Cable length	4.5 m
Max. current	600 A

Art. no. 0772 035 450

P. Qty.: 1

Please observe the enclosed operating instructions

Loading ramp

For vehicle lifting platforms

Material	Rubber
----------	--------

Height	Product weight (per item)	Art. no.	P. Qty.
30 mm	13600 g	0715 544 139	1
40 mm	16900 g	0715 544 140	1

Polyester fabric adhesive tape

Excellent ageing and chemical resistance

- Abrasion and tear resistant
- PVC-compatible

Width	19 mm
Thickness	0.27 mm
Min./max. temperature resistance	-40 to 150 °C
Length	25 m
Colour	Black
Min. longitudinal resistance to tearing	200 N/cm
Elongation at break	20 %
Backing material	Polyester
Adhesive base	Acrylate

Art. no. 0771 100 119

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Polyester fleece adhesive tape

Dampens noise

- High adhesive strength
- Ageing-resistant
- PVC-compatible
- Solvent-free

Width	19 mm
Thickness	0.5 mm
Min./max. temperature resistance	-40 to 105 °C
Length	10 m
Colour	Black
Min. longitudinal resistance to tearing	30 N/cm
Elongation at break	10 %
Backing material	Woven polyester fleece
Adhesive base	Synthetic natural rubber

Art. no. 0771 100 219

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Insulated corrugated pipe

Provides protection against heat, UV radiation, moisture and chemicals.

Resistant to alcohols, greases, mineral oils, diesel fuels and petrol

Colour	Black
Flammability	Self-extinguishing as per UL94 HB
Min./max. temperature conditions	-40 to 120 °C
Material	PA - Polyamide
Halogen-free	Yes
Ultraviolet resistance	Yes

Nominal width	Outer diameter	Internal diameter	Art. no.	P. Qty.
4.5 mm	7.1 mm	5 mm	0771 990 04	100

Flexible electrical conduit WFKUS-EM-F-105-H0 Comfort XQ®+

With high-slide inner coating and plastic sheath

- PVC-free
- Time saved when pulling in or sliding in cables and lines
- Enables easy cable pulling, even over longer distances
- One-man installation
- Reduced costs thank to quicker installation times

Colour	Red
Design	Coated
Classification code for electrical conduit	33432
Load force at 5 cm	750 N
Impact resistance at 100 mm	2 kg
Min./max. temperature conditions	-25 to 105 °C
Material	Polyolefin
Flame-retardant	Yes
Halogen-free	Yes
Silicone-free	Yes
Ultraviolet resistance	No

Outer diameter	Internal diameter	Art. no.	P. Qty.

32 mm	23.7 mm	0975 259 732	25

VDE 0605 and DIN EN 61386-22

Continuation **Flexible electrical conduit WFKUS-EM-F-105-H0**

Comfort XQ®+

Film packaging for quicker removal.

Insulated closable corrugated pipe, slit

Preassembled cable harnesses can be retrofitted in a quick and simple process.

Precise overlap of the pipe slitting

- In contrast to the basic slit insulated corrugated pipe.
- No gaps at bends

Wires and conductors remain clean and protected

Resistant to alcohols, greases, mineral oils, diesel fuels and petrol

Colour	Black
Design	Slitted
Flammability	Self-extinguishing in accordance with UL94 V2
Min./max. temperature conditions	-40 to 105 °C
Material	PP - Polypropylene
Halogen-free	Yes
Ultraviolet resistance	Yes

Chassis tie

Round head (outer diameter 25 mm) and hole centring (drill 11–12 mm)

- Can be released again if only tied loosely
- Can be closed on both sides as both sides are toothed
- Weather-resistant, suitable for use outdoors and in sunny locations

Width	7.6 mm
Length (L)	375 mm
Min./max. drill hole diameter	11-12 mm
Material	PA - Polyamide
Min./max. temperature resistance	-40 to 105 °C
Ultraviolet resistance	Yes
Colour	Black

Continuation **Chassis tie**

Art. no. 0502 510

P. Qty.: 100/250

Chassis clamp

Width (B)	12 mm
Material	Spring steel

Visual anti-freeze, battery and Ad Blue tester

For reliable testing of coolant anti-freeze, battery acid and AD Blue in one unit

- Simple way to test display accuracy with distilled water
- Automatic temperature compensation between 10°C–30°C
- The exact measuring result is determined by the principle of optical refraction

Min. temperature conditions	-50 °C
-----------------------------	--------

Art. no. 0704 510

P. Qty.: 1

Cooling system tester with inflatable sealing bladder

Universal application for pressure testing on radiator systems thanks to unique sealing system.

- Inflatable sealing bladder for very high coverage of radiator systems
- Universal applications for water-cooled engines
- Securing rings for testing on running engines

Min./max. recommended testing pressure	1-1.6 bar
Max. pressure of bladder	1.7 bar
Max. testing pressure	2 bar
Min./max. radiator opening	20-48 mm

Art. no. 0853 52

P. Qty.: 1

There is a risk of damaging the sealing bladder on extremely sharp-edged radiator necks. Check radiator neck for sharp edges before insertion.

Release tool

For connectors and housings with locking lug

Continuation Release tool

Contact gauge	Width of knife blade	Contact design	Art. no.	P. Qty.

Surface	Burnished
Material of the grip handle	2-component plastic

Connector type	Min./max. wire cross section	Number of crimping points	Art. no.	P. Qty.
Isolated crimp cable lugs	0.5-6 mm ²	3 PCS	0714 106 111	1
Isolated crimp cable lugs	10-16 mm ²	2 PCS	0714 106 112	1
Heat shrink crimp connectors	0.5-6 mm ²	3 PCS	0714 106 121	1

Crimping tool for uninsulated flat connectors

Premium manual crimping tool made in Germany

- Compact, lightweight design
- With force stop function for reliable crimping (unlockable)
- High crimping force due to efficient transmission ratios
- Ergonomically shaped 2-component handles

Locator	No
Length (L)	215 mm
Material	Tool steel
Surface	Burnished
Material of the grip handle	2-component plastic

Connector type	Min./max. wire cross section	Number of crimping points	Art. no.	P. Qty.
Uninsulated plug connectors	0.1-2.5 mm ²	4 PCS	0714 104 121	1
Uninsulated plug connectors	0.5-6 mm ²	3 PCS	0714 104 122	1
Rolled connectors	0.14-1.5 mm ²	3 PCS	0714 104 131	1
Modular plug	0.5-2.5 mm ²	4 PCS	0714 104 141	1

Crimping tool Qu 25

For uninsulated cable connectors

- Crimping of uninsulated cable connectors 0.5–2.5 mm²
- Shortening of screws M2.6–M5
- Stripping of cables 0.75–6.0 mm²
- Crimping of ignition line connectors
- Wire cutting function

Min./max. wire cross section	0.5-2.5 mm ²
Length (L)	225 mm
Material	Tool steel
Surface	Burnished
Material of the grip handle	2-component plastic

Art. no. 0714 101 121

P. Qty.: 1

Crimping tool QI 60

For insulated and uninsulated cable connectors

- Crimping of insulated and uninsulated cable connectors 0.5–6.0 mm²
- Shortening of screws M2.6–M5
- Stripping of cables 0.75–6.0 mm²

Min./max. wire cross section	0.5-6 mm ²
Length (L)	235 mm
Material	Tool steel

Surface	Burnished
Material of the grip handle	2-component plastic

Art. no. 0714 101 111

P. Qty.: 1

Crimping tool 360° insertion

For insulated and non-insulated wire end ferrules

- Made in Germany
- 360° pivoting crimp insert with 8 fixing positions
- Large range of cross sections without adjusting the pliers

Type description	16/4/360
Min./max. wire cross section	0.14-16 mm ²
Number of crimping points	1 PCS
Profile shape	Square
Design	360° insertion
Length (L)	190 mm
Material	Tool steel
Surface	Chrome plated
Material of the grip handle	2-component plastic

Art. no. 0714 107 183

P. Qty.: 1

Automatic test lamp

Heavy-duty brass design with test probe and protective cap

- With cable (750 mm) and crocodile clip
- Made in Germany

Min./max. voltage range DC	6-24 V/DC
----------------------------	-----------

Art. no. 0695 002 24

P. Qty.: 1/10

Multi-function test lamp

Continuity test and polarity measurement

- Function test of components
- Short-circuit-proof

Min./max. voltage range DC	6-24 V/DC
----------------------------	-----------

Art. no. 0715 53 08

P. Qty.: 1

Car tester

With voltage testing and polarity determination (+/-)

- Four LEDs for voltage and polarity display
- Built-in piercing probe facilitates testing on cables

Length	150 mm
Display	LED
Min./max. voltage range DC	6-48 V/DC
IP protection class	IP 20

Art. no. 0715 53 07

P. Qty.: 1

Not suitable for ABS and airbag

Insulated tapping clips for test leads

Suitable for cable diameters to Ø 4 mm

100% check of penetration depth with centrally-mounted control knob

- Minimum insulation damage
- One-handed operation with no rolling/twisting of the test leads

With 4 mm socket

Permits use of 4 mm test leads

Rated voltage <50 V

Test needle made from stainless steel

Connecting socket diameter	4 mm
Material	Plastic/metal
Max. nominal voltage	50 V/AC/DC

Art. no. 0715 531 011

P. Qty.: 1

Test tips, vehicle, for test leads

- Needle-shaped test tips from spring steel, suitable for making contacts at closed plug connectors from the rear (cable inlet) through the grommet or heat-shrink tubing, hence permitting testing in a connected state or when leads are in operation.
- Test tips are compatible with all 4-mm test leads
- Rated voltage 1000 V CAT II 10 A

Connecting socket diameter	4 mm
Max. nominal current	20 A
Max. nominal voltage	1000 V/AC/DC
Overvoltage protection category	CAT II/1000 V

Art. no. 0715 531 001

P. Qty.: 1

Spiral wire 7-pin 24V

With plastic connector

Increased protection against contamination and water ingress

thanks to moulded plastic connector

Complete with connector

- Wire cross sections: 6 x 1.0 mm², 1 x 1.5 mm²

Working length	3500 mm
Coil diameter	40 mm
Material	Polyurethane
Material of the plug connector	Plastic
Cable type	2 x 7-pin 24 V
Nominal voltage	24 V/DC

Design	ISO	Art. no.	P. Qty.
Type N	3731, 1185	0510 956 05	1
Type S	1185, 3731	0510 956 06	1

Complies with ISO 1185 or ISO 3731

Spiral wire 15-pin 24 V

Complete with connector

Nominal voltage	24 V/DC
ISO	12098

Working length	Coil diameter	Material	Art. no.	P. Qty.
4000 mm	60 mm	Polyurethane	0510 950 286	1
4500 mm	100 mm	PA - Polyamide	0510 950 285	1

ADR-approved

TÜV-certified

Complies with ISO 12098

Adaptor 15-pin to 2 x 7-pin Standard 24V

2 x 7-core spiral wire polyurethane (PU)
7-pin connector N and S-version, moulded plastic, watertight

9 crimp contacts on 15-pin end

Wire cross sections per spiral: 6 x 1.0 mm², 1 x 1.5 mm²

Connection

- On towing vehicle/trailer
 - 15-pin socket
 - 2x7-pin socket

Working length	4000 mm
ISO	12098

Art. no. 0510 950 280

P. Qty.: 1

Contact assignment according to ISO 12098

EBS spiral wire 7-pin 24V

For brake systems

Complete with connector

Cable type	2 x EBS 7-pole 24 V
Nominal voltage	24 V/DC
ISO	7638

Working length	Coil diameter	Material	Art. no.	P. Qty.
4000 mm	60 mm	Polyurethane	0510 950 71	1
4500 mm	100 mm	PA - Polyamide	0510 950 70	1

ADR-approved

TÜV-certified

Complies with ISO 7638

13-pin socket 12V

With cut-off contact for rear fog light

Delivery includes rubber base

13-pin system

- Bayonet connector system
- Operating temperature: -40°C to +85°C
- Current rating: max. 25 A (with 2.5 mm² wire)
- Marking of contacts complies with ISO 11446
- Screw contacts resistant to higher pulling loads

Material	Plastic
Contact design	Screw contact
Material of the contacts	Copper-zinc alloy
Max. current	25 A

IP protection class	IP 54
ISO	11446

Art. no. 0555 313 1

P. Qty.: 2

Complies with ISO 11446

Protection class IP 54

13-pin connector 12V

Threaded connection with rubber seal

Offers protection against water splashes and dirt

A threaded connection is suitable for 9.0 mm to 11.5 mm diameter cables

With bayonet connector system

Marking of contacts complies with ISO 11446

Screw contacts resistant to higher pulling loads

Operating temperature: -40°C to +85°C

Current rating: Max. 25 A (with 2.5 mm² wire)

Material	Plastic
Contact design	Screw contact
Material of the contacts	Copper-zinc alloy
Max. current	25 A
Min./max. cable diameter	9-11.5 mm
ISO	11446

Art. no. 0555 313 0

P. Qty.: 2

Complies with ISO 11446

Short adapter Mini 13-pin to 7-pin 12V

Simple, quick and clean solution

Lower weight burden from sockets and connectors

Connection

- 13-pin socket on towing vehicle
- 7-pin connector on trailer

Length	6 cm
Nominal voltage	12 V/DC
IP protection class	IP 54
ISO	1724, 11446

Art. no. 0555 313 4

P. Qty.: 1

Protection class in fitted state: IP 54

7-pin end complies with ISO 1724 respectively

13-pin end complies with ISO 11446 respectively

Only the functions 1 to 7 that comply with ISO 1724 or ISO 11446 can be connected

7-pin socket 12 V

With cut-off contact for rear fog light

Rear fog light is switched off on the towing vehicle as soon as a trailer is hitched up

7-pin system:

- The recess in the cover holds the connector in the socket
- Screw contacts resistant to higher pulling loads
- Operating temperature: -25°C to +75°C
- Marking of contacts complies with ISO1724
- Current rating: Max. 25 A (with 2.5 mm² wire)

Contact design	Screw contact
Material of the contacts	Copper-zinc alloy
ISO	1724

Material	Art. no.	P. Qty.
Aluminium	0555 305 118	5
Plastic	0555 405 118	5

Complies with ISO 1724 (N-version)

7-pin connector 12 V

Threaded connection with rubber seal provides protection against splash water and dirt

A threaded connection is suitable for 9.2 mm to 11.5 mm diameter cables

Aluminium version with cable pull load relief

7-pin system:

- The recess in the cover holds the connector in the socket
- Screw contacts resistant to higher pulling loads
- Operating temperature: -25°C to +75°C
- Marking of contacts complies with ISO1724
- Current rating: Max. 25 A (with 2.5 mm² wire)

Contact design	Screw contact
Material of the contacts	Copper-zinc alloy
ISO	1724

Material	Art. no.	P. Qty.
Aluminium	0555 305 517	5
Plastic	0555 405 517	5

Complies with ISO 1724 (N-version)

7-pin socket 24V

General data:

- N-version complies with ISO 1185
- S-version complies with ISO 3731
- Marking of contacts complies with ISO 1185 or ISO 3731
- Contact no. 1/31 as bush or pin prevents interchanging of N and S-version

Current rating max.: 25 A (with 2.5 mm² wire), 16 A (with 1.5 mm² wire)

Delivery includes rubber grommet

Material of the housing	Plastic
Material of the lid	Aluminium
Material of the contacts	Copper-zinc alloy
Nominal voltage	24 V/DC

Contact design	Design	Colour	Contact type number (1/31)	ISO	Art. no.	P. Qty.
Push-on contact	Type N	Black	Pin	1185	0555 306 287	1
Push-on contact	Type S	White	Sleeve	3731	0555 306 288	1
Screw contact	Type N	Black	Pin	1185	0555 506 411	1
Screw contact	Type S	White	Sleeve	3731	0555 506 412	1

7-pin connector 24 V

With additional pull load relief

- Marking of contacts as per ISO 1185 or ISO 3731
- Contact no. 1/31 as bush or pin prevents the interchanging of the N and S versions
- Grommets are suitable for cables from 9.5 mm² in diameter
- Current rating max.: 25 A (with 2.5 mm² wire), 16 A (with 1.5 mm² wire)

Contact design	Screw contact
Material of the contacts	Copper-zinc alloy
Nominal voltage	24 V/DC

Material of the housing	Design	Colour	Contact type number (1/31)	ISO	Art. no.	P. Qty.
Aluminium	Type N	Black	Sleeve	1185	0555 305 587	1
Aluminium	Type S	White	Pin	3731	0555 305 588	1
Plastic	Type N	Black	Sleeve	1185	0555 305 687	1
Plastic	Type S	White	Pin	3731	0555 305 688	1

Short adapter 15-pin to 2 x 7-pin 24V

**Contact assignment: 15-pin complies with ISO 12098
/ 7-pin complies with ISO 1185 and 3731**

Straight version

Connection

- On towing vehicle/trailer
 - 15-pin socket
 - 2x7-pin socket

Design	Straight
Length	155 mm
ISO	12098, 1185, 3731

Art. no. 0510 950 290

P. Qty.: 1

Standard cable connecting socket

Version with 4 inlets/outlets, complete with fittings

- Waterproofed housing
- Closing mechanism: 2 clamping bars
- Connection: 2 x cable grommets 1-hole, 2 x cable grommets 2-hole
- Fastening: 2 holes, 5.5 mm, axle spacing 90 mm

Material of the housing	Plastic
Material of the lid	Aluminium
Length	150 mm
Width	93 mm
Height	45 mm

Art. no. 0510 960 01

P. Qty.: 2

15-pin repair socket Easy 24V

Quick and easy installation

Contacts feature screw-type connection for easy attachment and release

No risk of interchanging

No additional instructions needed thanks to marking with standardised cable colours

Contact insert as complete component

- No loss of individual contacts
- No special tools needed for assembly and removal

Suitable for cable diameter	18 mm
Contact design	Screw contact
Design	Lamellar cap
Material of the contacts	Copper alloy
ISO	12098

Art. no. 0510 950 269

P. Qty.: 1

ADR-approved, TÜV-certified, complies with ISO 12098

The requirements according to ADR demand the use of wire end ferrules with screw contacts.

15-pin repair connector Easy 24V

Quick and easy installation

Contacts feature screw-type connection for easy attachment and release

No risk of interchanging

No additional instructions needed thanks to marking with standardised cable colours

Contact insert as complete component

- No loss of individual contacts
- No special tools needed for assembly and removal

Suitable for cable diameter	18 mm
Contact design	Screw contact
Design	Lamellar cap
Material of the contacts	Copper alloy

P. Qty.: 1

ADR-approved, TÜV-certified, complies with ISO 7638

The requirements according to ADR require the use of wire end ferrules with screw contacts.

ADR cable connecting socket

ADR-version with 16 inlets/outlets, complete with fittings

Housing material: water-resistant, plastic

Connection: 10 PG 9 threaded connections, 5 PG13.5 threaded connections, 1 PG16 threaded connection (4 holes can be drilled wider from PG 9/PG13.5 to PG16)

Closing mechanism: 2 spring clips or 4 screws

Fastening: 4 holes 5.5 mm, axis distance 65/110 mm

Included:

- Sealing locks 4 x PG 9, 2 x PG 13.5, 1 x PG 16
- 1 multiple sealing insert
- 4 screws 4 x 20, A2

Material of the lid	Plastic
Material	Plastic
Length	167 mm
Width	157 mm
Height	99 mm
IP protection class	IP 69K

Art. no. 0510 961 16

P. Qty.: 1

Contact pin

With crimp connector

Test box Combi 12V

Checking of trailer connectors and towing vehicle sockets

Overload protection

LED in centre of test box indicates whether test can be performed or whether there is an overload

Operating voltage

12 volt DC / 3 volt DC

Scope of delivery

- Test box with 4.5 m cable and combi-connector
- Short adapter for testing 7-pin trailer connectors
- Lithium button cell 3V CR 2032
- Supplied in practical storage case

Cable length	4.5 m
Min. working temperature	5 °C
Max. working temperature	40 °C
Min. nominal voltage	3 V/DC
Max. nominal voltage	12 V/DC

Continuation **Test box Combi 12V**

Art. no. 0555 772 123

P. Qty.: 1

Complies with ISO 1724, ISO 11446 and ISO 3732

Rubber seal for 7-pin sockets 12V

Material	Rubber
Max. grommet	8 mm

Art. no. 0555 281 061

P. Qty.: 5

Starter battery DURACELL® EXTREME AGM

Start/Stop specialist

- 3x cycle stability compared to starter batteries
- Entirely maintenance free
- Leak-proof
- Maximum start performance due to low internal resistance
- Maximum vibration resistance V3 (EN 50342-1)
- Installation possible up to max. 90° angle of inclination
- Product identification with UK number and EN/SAE cold cranking amps
- With handle (mG design)

Width	175 mm
Crate height	190 mm
Height	190 mm
Switching	0
Battery design	mG
Floor strip	B13
Terminal	1
Nominal voltage	12 V/DC

Starter battery DURACELL® ADVANCED

More power and maximum durability

- Optimised cold-start values, maximum starting power
- Entirely maintenance free
- Supports high on-board electrical system currents
- Maximum leak resistance, back ignition and ESD safety
- Vibration-proof thanks to ground bonding of electrodes
- Product identification with UK number and EN/SAE cold cranking amps
- With handle and central degassing (mGGA design)

Starter battery DURACELL® STARTER

Reliable and high-quality

- Reliable cold start behaviour
- 4-chamber flat lid with integrated backfire protection
- Completely maintenance-free
- Optimum price-quality ratio
- Product identification with UK no. and EN/SAE cold start current
- With handle and central degassing

Terminal	1
Nominal voltage	12 V/DC

Flashing warning lamp, LED, round

LED warning lamp with 16 LEDs. Can be used as a universal all-purpose signal light.

Lithium ion long-life battery

Scope of delivery:

- 100 - 240 V AC charging adapter
- 12 - 24 V DC charging adapter
- USB cable and magnetic mount
- Art. no. 0827559000 red LEDs

9 different operating modes

Power rating	2.6 W
Rechargeable battery/battery designation	Li-Ion
Number of rechargeable batteries/batteries	1 PCS
Length x width x height	105 x 35 x 35 mm

Art. no. 0827 559 000

P. Qty.: 1

The device must not be tampered with. If the lamp is incorrectly assembled, this can affect its watertightness and damage the device.

Turn signal LED 24 V

Universal, with waterproof and dustproof diode block

Long service life

LED technology

Resistant to vibrations

Includes 12 cm cable

Length	136 mm
Width	113 mm
Height	20 mm
Drill hole	6.5 mm
Cable length	12 cm

Art. no. 0812 43 111

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

LED work light

- Far-ranging illumination
- Robust diffusing lens and die-cast aluminium housing

Form	Square
Lamp type	LED
Min./max. nominal voltage	10/50 V/DC
Luminous flux	1300 lm
Cable connection	With cable
Cable length	1.5 m
Power rating	15 W
Length	100 mm
Length x width x height	100 x 100 x 74 mm
Approval mark	ADR
IP protection class	IP 68

Art. no. 0812 45 321

P. Qty.: 1

LED work light MIDI 12V/36V

High-performance headlight with a compact design

Ideal for close-range illumination over a wide area

Up to approx. 50 metres

Outstanding protection against water and dirt

Form	Oval
Lamp type	LED
Min./max. nominal voltage	12/36 V/DC
Luminous flux	1800 lm
Design	Includes bracket and cable 0.5 m
Cable connection	With cable

Cable length	0,5 m
Power rating	20 W
Length	89 mm
Length x width x height	89 x 69 x 78 mm
Included in delivery (Lieferumfang)	Incl. bracket
Approval mark	ADR
IP protection class	IP 6K9K

Art. no. 0812 45 330

P. Qty.: 1

LED work light 4 high-powered LEDs

4 LED with 10 W high power CREE LEDs

- IP 67
- Power consumption: 3 A at 12 V, 1.5 A at 24 V
- Aluminium die-cast housing
- Polycarbonate lens
- 45° floodlight

Form	Square
Lamp type	LED
Min./max. nominal voltage	10/30 V/DC
Luminous flux	3600 lm
Cable connection	With cable
Cable length	0.3 m
Power rating	40 W
Length	110 mm
Length x width x height	110 x 110 x 164 mm
IP protection class	IP 67

Art. no. 0812 45 324

P. Qty.: 1

LED work light 5 high-powered LEDs

5 LED with 3 W power consumption

- IP 67
- Compact flat LED work light with sturdy metal housing
- 500 mm connecting cable

Form	Square
Lamp type	LED
Min./max. nominal voltage	9/32 V/DC
Luminous flux	1200 lm
Cable connection	With cable
Cable length	0.3 m
Power rating	15 W
Length	110 mm

Continuation **LED work light 5 high-powered LEDs**

Length x width x height	110 x 110 x 135 mm
IP protection class	IP 67

Art. no. 0812 45 326

P. Qty.: 1

Rotating/flashing light 12 V/24 V

Dome with bayonet mount

Lamp type	Bulb
Colour	Yellow
Min. nominal voltage	12 V/DC
Max. nominal voltage	24 V/DC

Cable connection	Max. speed	Diameter	Height	Art. no.	P. Qty.
3-screw mount		153 mm	179 mm	0812 42 0	1
Flexible pipe connection mount		149 mm	285 mm	0812 42 01	1
Magnetic mount and plug for cigarette lighter	80 km/h	155 mm	182 mm	0812 42 02	1

Without bulb fitting

Design with magnet attachment subject to speed restrictions

Double flashing beacon, 12 V/24 V

Including xenon lamp

- Dome with bayonet catch

Lamp type	Xenon
Colour	Yellow
Min. nominal voltage	12 V/DC
Max. nominal voltage	24 V/DC
Diameter	123 mm
IP protection class	IP 54

Cable connection	Max. speed	Height	Art. no.	P. Qty.
3-screw mount		154 mm	0812 42 050	1
Flexible pipe connection mount		178 mm	0812 42 051	1
Magnetic mount and plug for cigarette lighter	80 km/h	154 mm	0812 42 052	1

Design with magnet attachment subject to speed restrictions

LED rotating beacon 12V/30V

Extra flat design

10 light patterns

- Continuous light
- Single, double and triple flash
- Rotating, flashing, alternate flashing, all fast or slow

Lamp type	LED
Colour	Yellow
Cable connection	Flexible pipe connection mount
Min. nominal voltage	10 V/DC
Max. nominal voltage	30 V/DC
Diameter	147.2 mm
Height	170.9 mm
IP protection class	IP 66

Art. no. 0812 42 061

P. Qty.: 1

E-tested
R65 and EMC R10-tested

LED rotating beacon 12V/30V

Extra flat design

10 light patterns

- Continuous light
- Single, double and triple flash
- Rotating, flashing, alternate flashing, all fast or slow

Lamp type	LED
Colour	Yellow
Cable connection	3-screw mount
Min. nominal voltage	10 V/DC
Max. nominal voltage	30 V/DC
Diameter	147.2 mm
Height	75.7 mm
IP protection class	IP 67

Art. no. 0812 42 060

P. Qty.: 1

E-tested
R65 and EMC R10-tested

LED rotating beacon 12V/30V

Extra flat design

10 light patterns

- Single, double and triple flash
- Turning, flashing, alternating flash, fast or slow

Lamp type	LED
Colour	Yellow
Cable connection	Magnetic mount and plug for cigarette lighter
Max. speed	80 km/h
Min. nominal voltage	10 V/DC
Max. nominal voltage	30 V/DC
Diameter	147.2 mm
Height	76.9 mm
IP protection class	IP 67

Art. no. 0812 42 062

P. Qty.: 1

E-tested
R65 and EMC R10-tested

Design with magnet attachment subject to speed restrictions

LED contour light 12V/24V

Universal, with flexible pendulum holder

Design	With flexible pendulum holder
Lamp type	LED
Colour of light	Red/white
Cable connection	With cable
Cable length	1.75 m
Min./max. nominal voltage	12/24 V/DC
Power rating	1.5 W
Length	110 mm
Width	41 mm
Height	45 mm
Approval mark	ADR, ECE
IP protection class	IP 68

Art. no. 0812 42 341

P. Qty.: 2

LED contour light with 90° lamp arm 12V/24V

Universal

Top design with clear glass lens

With 3 LED functions:

- Position light
- Tail light
- Side marker light

LED unit fully coated with PUR

If the lens unit is damaged, no moisture penetrates into the contact area

Design	90° lamp arm
Lamp type	LED
Colour of light	Red/white/yellow
Cable connection	With cable
Cable length	1.75 m
Min./max. nominal voltage	12/24 V/DC
Power rating	4 W
Approval mark	ADR, ECE

Art. no. 0812 42 320

P. Qty.: 2

LED contour light with flexible assembly housing 12V/24V

Universal

Top design with clear glass lens

With 3 LED functions:

- Position light
- Tail light
- Side marker light

Fully PUR-coated LED unit

Protects the contact area from the ingress of moisture in the event of damage to the lens

Flexible lamp arm made from heat-resistant rubber material

Design	Flexible attachment housing
Lamp type	LED
Colour of light	Red/white/yellow
Cable connection	With cable
Cable length	1.75 m
Min./max. nominal voltage	12/24 V/DC
Power rating	4 W
Length	100 mm
Height	67 mm
Approval mark	ADR, ECE

Art. no. 0812 42 322

P. Qty.: 2

LED contour light with 90° lamp arm 24V

Universal

Fully PUR-coated LED unit

Protects the contact area from the ingress of moisture in the event of damage to the lens.

Flexible lamp arm made from heat-resistant rubber material

Design	90° lamp arm
Lamp type	LED
Colour of light	Red/white
Cable connection	With cable
Cable length	1.75 m
Nominal voltage	24 V/DC
Power rating	0.85 W
Length	182 mm
Width	46.2 mm
Height	159 mm
Approval mark	ADR, ECE
IP protection class	IP 68

Art. no. 0812 42 301

P. Qty.: 2

White side marked with „White“ inscription on lens.

The lens unit LED also fits the contour lights 081242 20, 081242 30 and 081242 40.

Container warning marking

Type II (reflective)

- Self-adhesive reflective film
- Processing temperature and storage temperature: from 15°C to maximum 30°C

Type description	Type II (reflective)
Width	141 mm
Length	705 mm
Adhesive system	Self-adhesive
Included in delivery (Lieferumfang)	Set consists of 4 right-pointing blanks and 4 left-pointing blanks
Colour	Red, White

Art. no. 0812 44 5

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Marking of containers compliant with Art. 32 (1) StVO (German law regarding obligation to traffic safety due to traffic obstruction) and with Art. 32 VwV StVO (III) (German law regarding requirement of exemption permit)

Vehicle warning marking

Type III (retro-reflective)

- Self-adhesive reflective film, can be removed
- Processing temperature: from 10°C to max. 30°C

Complies with DIN 30710

Type description	Type III (retro-reflective)
Length	9 m
Adhesive system	Self-adhesive
Included in delivery (Lieferumfang)	Set consists of 1 right-pointing roll and 1 left-pointing roll
Material	Reflective tape
Colour	Red, White

Width	Art. no.	P. Qty.
141 mm	0812 44 6	1
282 mm	0812 44 7	1

Please consider the legal instruction at the beginning of this chapter.

Night parking sign

Type III (retro-reflective)

Can be folded vertically and horizontally

Sign can be permanently attached to vehicle and opened out from centre or folded in as required using turn latch

With holes for attachment

Width	285 mm
Height	285 mm
Material	Aluminium
Colour	Red, White

Design	Art. no.	P. Qty.
Folded horizontally: front left-pointing, folded vertically: rear left-pointing	0812 20 1	1
Folded horizontally: rear left-pointing, folded vertically: front left-pointing	0812 20 11	1

Please consider the legal instruction at the beginning of this chapter.

Reflectors and markings may not be covered by the sign

Retro-reflective warning marking for fixed surfaces

Type III (retro-reflective)

With ECE-approval, can be used without special permit

Complies with ECE 104

Self-adhesive

Very thin single-layer film:

- No damage from water, petrol or high pressure cleaner
- Can be bonded around corners without issue
- No separate sealing of edges necessary

Width	50 mm
Length	50 m

Colour	Art. no.	P. Qty.
Red	0812 44 73	1
White	0812 44 75	1
Yellow	0812 44 71	1

Please consider the legal instruction at the beginning of this chapter.

Retro-reflective warning marking for tarpaulins

Type III (retro-reflective)

With ECE-approval, can be used without special permit

Complies with ECE 104

Self-adhesive

Very thin single-layer film:

- No damage from water, petrol or high pressure cleaner
- Can be bonded around corners without issue
- No separate sealing of edges necessary

Width	50 mm
Length	50 m

Colour	Art. no.	P. Qty.
Red	0812 44 740	1
White	0812 44 760	1
Yellow	0812 44 720	1

Please consider the legal instruction at the beginning of this chapter.

Warning flag

For platform lifts, type III (retro-reflective)

- Material: Flexible reflective material
- Easy replacement of warning flags with interchangeable holders

Width	250 mm
Height	400 mm
Material	Reflective fabric, flexible
Colour	Red, White

Design	Art. no.	P. Qty.
Left-pointing	0812 44 1	1
Right-pointing	0812 44 2	1

Please consider the legal instruction at the beginning of this chapter.

Contour marking 983 3M Diamond Grade

High-quality contour marking for permanent structures in accordance with UN ECE 104

- Microprismatic films
- Exceptionally good night-time visibility over long distances
- Bright and clear colours, both day and night
- Fluorescent yellow for 24-hour visibility
- Without aluminium coating, no corrosion possible
- Edge-sealed against dirt and damp
- Self-adhesive for simple use

Width	52 mm
Length	50 m

Continuation **Contour marking 983 3M Diamond Grade**

Colour	Art. no.	P. Qty.
Red	5M98 372 55	1
White	5M98 310 55	1
Yellow	5M98 371 55	1

Container reflective tape

Type III - RA2 structure C

Type description	Type III (reflective), microprismatic
Width	141 mm
Length	705 mm
Adhesive system	Self-adhesive
Material	Plastic
Colour	Red, White

Art. no. 0812 44 500

P. Qty.: 10

According to DIN 67520:2011-11 and DIN 6171:2003-08
BASt approval

Marking of containers compliant with Art. 32 (1) StVO (traffic safety obligation due to traffic obstruction) and with Art. 32 VwV StVO1 (III) (exemption permit required)

LED interior light

Universal

- Flat design
- Homogeneous illumination thanks to opal lens
- Switch with touch sensor

Length	305 mm
Width	44 mm
Height	15 mm
Cable length	0.3 m

Nominal voltage	Art. no.	P. Qty.
12 V/DC	0812 42 524	1
24 V/DC	0812 42 523	1

LED reversing light ECE R23 12V/24V

- Approved for side and rear assembly (in accordance with ECE R23)
- Insensitive to strong vibrations

Form	Square
Lamp type	LED

Luminous flux	1300 lm
Cable connection	With cable
Cable length	1.5 m
Min./max. nominal voltage	10/50 V/DC
Power rating	15 W
Length x width	100 x 100 mm
Approval mark	ADR, ECE
IP protection class	IP 68

Art. no. 0812 45 322

P. Qty.: 1

Turn signal and brake light bulb HD Longlife

For heavy-duty commercial vehicle applications

- Heavy-Duty Longlife signifies greater resistance to vibration, with a longer service life than conventional 24V bulbs. These bulbs have been developed to withstand extreme road conditions (vibrations) and have a longer service life.
- Longer service life and thereby reduced frequency of bulb replacement
- Hard wearing helix technology withstands extreme road conditions
- Extreme durability saves costs and prevents downtime
- Available for all light functions

Power rating	21 W
Nominal voltage	24 V/DC

Type description	Socket designation	Art. no.	P. Qty.
P21W HD Longlife	BA15d	0720 132 251	10
P21W HD Longlife	BA15s	0720 132 25	10
PY21W HD Longlife	BAU15s	0720 132 252	10

Turn signal and brake light bulb H21W

Economical bulb for light commercial vehicles 24V

Nominal voltage	24 V/DC
-----------------	---------

Continuation **Turn signal and brake light bulb H21W**

Type description	Power rating	Socket designation	Art. no.	P. Qty.
18 W	18 W	BA15s	0720 131 2	10
H21W	21 W	BAY9s	0720 132 20	10
P21W	21 W	BA15s	0720 132 2	10
PY21W	21 W	BAU15s	0720 132 23	10

Brake/tail light bulb P21/5W

Economical bulb for light commercial vehicles 24V

Nominal voltage	24 V/DC
Power rating	21 W
Socket designation	BAY15d
Area of application for vehicle bulb	Turn signal lamp, Brake light, Backup lamp, Rear fog lamp

Art. no. 0720 134 2

P. Qty.: 10

Vehicle bulb Twin spare box

For HGVs and coaches/buses

Nominal voltage	24 V/DC
Length x width x height	200 x 95 x 60 mm

Type description	Included in delivery (Lieferumfang)	Art. no.	P. Qty.
Spare box H4/H4	2 x H4 2 x P21/5W, 2 x P21W, 2 x R5W, 1 x R10W, 1 x C5W, 1 x 10 watt festoon, 1 x W5W, 2 x T4W, ATO fuses (1 x 5 A, 2 x 7.5 A, 2 x 10 A, 2 x 15 A, 1 x 20 A)	0720 962 4	1
Spare box H7/H7	2 x H7 2 x P21/5W, 2 x P21W, 2 x R5W, 1 x R10W, 1 x C5W, 1 x 10 watt festoon, 1 x W5W, 2 x T4W, ATO fuses (1 x 5 A, 2 x 7.5 A, 2 x 10 A, 2 x 15 A, 1 x 20 A)	0720 962 7	1/10
Spare box H7/H7 LL HD	2 x H7 LL HD, 2 x P21/5W, 2 x P21W, 2 x R5W, 1 x R10W, 1 x C5W, 1 x 10 watt festoon, 1 x W5W, 2 x T4W, ATO fuses (1 x 5 A, 2 x 7.5 A, 2 x 10 A, 2 x 15 A, 1 x 20 A)	0720 962 701	1

Glass socket bulb

Economical bulb for light commercial vehicles 24V

Nominal voltage	24 V/DC
-----------------	---------

Type description	Power rating	Socket designation	Art. no.	P. Qty.
	1.2 W	W2x4,6d	0720 160 2	10

Halogen bulb

Trusted OEM quality for standard applications

Nominal voltage	24 V/DC
-----------------	---------

Type description	Socket designation	Power rating	Power of second spiral coil	Art. no.	P. Qty.
H1	P14s	70 W		0720 111 2	10
H3	PK22s	70 W		0720 112 2	10
H4	P43t	75 W	70 W	0720 110 2	10
H7	PX26d	70 W		0720 114 2	10

Halogen bulb Longlife +100%

For safety conscious drivers

Up to 100% more light on the road in the 50–75m range

- Keeps attention on the road during long trips
- Faster response times to obstacles, risks and signs

Lasts up to two times longer than a standard bulb

Longer change intervals

Nominal voltage	24 V/DC
-----------------	---------

Continuation **Halogen bulb Longlife +100%**

Type description	Socket designation	Power rating	Power of second spiral coil	Art. no.	P. Qty.
H1 Longlife +100%	P14,5s	70 W		0720 111 21	10
H3 Longlife +100%	PK22s	70 W		0720 112 21	10

H7 Longlife +100%	PX26d	70 W		0720 114 21	10

Halogen bulb Heavy-Duty Longlife

For performance-orientated drivers

Hard wearing helix technology

- Greater resistance to vibration
- Suitable for extreme road conditions

Extremely durable

- Saves money and prevents downtime
- Longer change intervals

Greater resistance to vibration (heavy-duty)

Nominal voltage	24 V/DC
-----------------	---------

Type description	Socket designation	Power rating	Power of second spiral coil	Art. no.	P. Qty.
H1 Heavy Duty Longlife	P14,5s	70 W		0720 111 25	10
H3 Heavy Duty Longlife	PK22s	70 W		0720 112 25	10
H4 Heavy Duty Longlife	P43t	75 W	70 W	0720 110 25	10
H7 Heavy Duty Longlife	PX26d	70 W		0720 114 25	10

Metal socket bulb HD Longlife

For heavy-duty commercial vehicle applications

- Heavy-Duty Longlife signifies greater resistance to vibration, with a longer service life than conventional 24V bulbs. These bulbs have been developed to withstand extreme road conditions (vibrations) and have a longer service life.
- Longer service life and thereby reduced frequency of bulb replacement
- Hard wearing helix technology withstands extreme road conditions
- Extreme durability saves costs and prevents downtime
- Available for all light functions

Nominal voltage	24 V/DC
Socket designation	BA15s

Turn signal and brake light bulb P21W Daylight

For drivers who cover many miles and drivers who use daytime running lights

Lasts up to three times longer than a standard bulb
Longer change intervals

Type description	P21W Daylight
Nominal voltage	12 V/DC
Power rating	21 W
Socket designation	BA15s

Art. no. 0720 132 16

P. Qty.: 10

Small car bulb set

130 pieces

Art. no. 0988 000 248

P. Qty.: 1

Gas discharge light

For xenon-original driver (must be fitted ex works)

100% more light than halogen technology
Easier on the eyes

Higher colour temperatures compared with halogen technology
Arrive more comfortably and without feeling tired
due to improved illumination of the road

Testing voltage	13.5 V/DC
Power rating	35 W

Type description	Socket designation	Colour temperature	Art. no.	P. Qty.
D1S	PK32d-5	4100 K	0720 110 32	1
D2R	P32d-3	4000 K	0720 110 31	1
D2S	P32d-2	4100 K	0720 110 30	1

Operation only with suitable electronic ballast

Glass socket bulb

Trusted OEM quality for standard applications

Halogen bulb Vehicle xenon light Ultra

Blueish bright white light for xenon effect

Nominal voltage	12 V/DC
Colour temperature	4200 K

Type description	Socket designation	Power rating	Power of second spiral coil	Art. no.	P. Qty.
H4 xenon light Ultra	P43t	60 W	55 W	0720 110 152	2
H7 xenon light Ultra	PX26d	55 W		0720 114 152	2

Halogen bulb Ultralight +130%

Premium halogen bulb with up to +130% more luminance in an attractive double pack

- For active, safety-conscious drivers
- Very bright, white light
- Improved safety when driving
- Relaxed, fatigue-free driving
- Attractively packaged design for increased POS sales

Nominal voltage	12 V/DC
-----------------	---------

Type description	Socket designation	Power rating	Power of second spiral coil	Art. no.	P. Qty.
H1 Ultralight + 130	P14,5s	55 W		0720 111 191	2

Halogen bulb Daylight

For drivers who cover many miles and drivers who use daytime running lights

Lasts up to three times longer than a standard bulb
Longer change intervals

Type description	H7 Daylight
Nominal voltage	12 V/DC
Socket designation	PX26d
Power rating	55 W

Art. no. 0720 114 16

P. Qty.: 10

Halogen bulb Xenon light +50%

For drivers who value design but do not want to sacrifice active safety.

Up to 50% more light on the road in the 50–75m range

Faster response times to obstacles, risks and signs

Relaxed driving, free of fatigue

Blue-white light provides relief for eyes

Optimal design with silver cap

Ideal for clear glass headlights

Attractively packaged design for greater sales at the counter

Type description	H1 xenon light + 50%
Nominal voltage	12 V/DC
Socket designation	P14,5s
Power rating	55 W

Art. no. 0720 111 151

P. Qty.: 2

Halogen bulb Nightstar +90%

For active, safety-conscious drivers

- Up to 90% more light on the road in the 50–75m range
- White light provides relief for eyes
- Attractively packaged design for greater sales at the counter

Nominal voltage	12 V/DC
-----------------	---------

Continuation **Halogen bulb Nightstar +90%**

Heat-shrink crimp connector push connector

Semi-transparent heat-shrink tubing

Straightforward visual monitoring of the connection

40% faster shrinking process

Saves time

Low shrinking temperature of +300 °C

Low risk of damage to connector and cable insulation

Nominal size of flat plug/push connector/blade connector	6.3 x 0.8 mm
Dielectric strength	30 kV/mm
IP protection class	IP 67
Min./max. temperature conditions	-55 to 125 °C
Min. shrinkage temperature	300 °C

Heat-shrink solder connector HIGH-END butt connector

Double-walled 3M heat-shrink tubing for increased mechanical resistance and disruptive strength. Individual strands cannot penetrate through the heat-shrink tubing.

- Heat-shrinkable tubing is fully coated with adhesive
- Lead-free solder with greater surface tension
- Larger internal diameter of the heat-shrinkable tube

Dielectric strength	36 kV/mm
IP protection class	IP 67
Min./max. temperature conditions	-55 to 110 °C
Min. shrinkage temperature	500 °C

Min./max. wire cross section	Colour	Length	Art. no.	P. Qty.
0.35-0.75 mm ²	White	27.5 mm	0555 810 0	50/100
0.5-1.5 mm ²	Red	40.8 mm	0555 810 1	50/100
1.5-2.5 mm ²	Blue	40.8 mm	0555 810 2	50/100
4-6 mm ²	Yellow	40.8 mm	0555 810 4	25/50

RoHS-compliant, lead-free design

Avoid localised overheating of the heat-shrink tubing.

Heat-shrink solder branch connector end connector

Transparent heat-shrink tubing

Straightforward visual monitoring of the connection

Dielectric strength	2 kV/mm
IP protection class	IP 67
Min./max. temperature conditions	-40 to 125 °C
Min. shrinkage temperature	500 °C

Max. bundle diameter (Bündel-Ø max.)	Colour	Art. no.	P. Qty.
3.3 mm	Green	0555 924 10	25
4.5 mm	Red	0555 924 20	25
7 mm	Blue	0555 924 30	25
9 mm	Yellow	0555 924 40	25

Avoid localised overheating of the heat-shrink tubing.

Heat-shrink solder butt connector

Dust-proof and damp-proof connections

- Semi-transparent heat-shrink tubing for straightforward visual monitoring of the connection

Dielectric strength	2 kV/mm
IP protection class	IP 67
Min./max. temperature conditions	-55 to 125 °C
Min. shrinkage temperature	500 °C

Max. bundle diameter (Bündel-Ø max.)	Colour	Length	Art. no.	P. Qty.
1.7 mm	White	26 mm	0555 923 0	25/100
2.7 mm	Red	42 mm	0555 923 1	25/100

6 mm	Yellow	42 mm	0555 923 3	25/50

Heat-shrink crimp and solder butt connector

The ultimate connection — crimping for mechanical reliability, welded for superior strength and conductivity.

- Crimp-fixed cable — one-person operation
- Lead-free tin solder with greater surface tension
- Double-walled 3M heat-shrink tubing with increased mechanical resistance and disruptive strength
- Connection sleeve with viewing holes, transparent heat-shrink tubing: Straightforward visual monitoring of the connection.

Dielectric strength	36 kV/mm
IP protection class	IP 67
Min./max. temperature conditions	-55 to 110 °C
Min. shrinkage temperature	500 °C

Min./max. wire cross section	Colour	Length	Art. no.	P. Qty.
0.35-0.75 mm ²	White	27.5 mm	0555 710 0	50
0.5-1.5 mm ²	Red	40.8 mm	0555 710 1	50
1.5-2.5 mm ²	Blue	40.8 mm	0555 710 2	50
4-6 mm ²	Yellow	40.8 mm	0555 710 4	25

RoHS-compliant, lead-free design

Avoid localised overheating of the heat-shrink tubing.

Resettable fuse ATO

For non-stop operation (fixed installation)

Colour-coded thermal trip switch

Easy to reset by hand

using red reset switch

No costly downtime

Eliminates need to change fuses in defective circuits

Max. nominal voltage	32 V/DC
Min./max. operating temperature	-40 to 85 °C
Surface of the contacts	Tin plated

Max. current	Colour	Art. no.	P. Qty.
5 A	Light brown	0731 100 105	3

Fuse holder for flat blade fuses ATO

For direct cable clamping

Max. current	20 A
Min./max. wire cross section	0.75-2 mm ²

Art. no. 0555 972

P. Qty.: 25

The amperage specifications are application guidelines for use of our fuses art. sub-no. 0731 and, in particular, depend on the chosen fuse manufacturer, temperature, installation etc.

Fuse holder for flat blade fuses ATO

Holder can be arranged in rows

Housing with wall bracket

Max. current	30 A
Nominal size of flat plug/push connector/blade connector	6.3 x 0.8 mm

Art. no. 0555 973

P. Qty.: 25

Fuse holder for screw-fit fuses MIDI

With improved contact protection

Tongue and groove principle

Extendable push-fit system (e.g. trailer, motorhome/caravan, HGV etc.)

With improved contact protection

Also suitable for strip fuses

Art. no. 0731 309 001

P. Qty.: 2

Fuse holder for screw-fit fuses MEGA

With improved contact protection

Tongue and groove principle

Extendable push-fit system (e.g. trailer, motorhome/caravan, HGV etc.)

With improved contact protection

Art. no. 0731 310 001

P. Qty.: 1

Fuse holder for flat blade fuses

For connection of auxiliary consumers

Extension element to accommodate an additional fuse for connecting an auxiliary consumer in an existing fuse socket

Optimum protection

Protection of connected consumer by auxiliary fuse

Max. current	10 A
Min./max. wire cross section	1.5-2.5 mm ²
Cable cross section	1.5 mm ²
Cable length	130 mm

Silicon lead SIFF

Highly flexible, superfine single wire

- Conductor: Tin-plated CU strand (CuSn)
- Insulation: Silicon E12 in accordance with VDE 0282 Part 1
- Increased heat resistance
- Halogen-free
- Does not help fire spread
- Resistant to a wide range of oils, alcohols and other chemical media

Min./max. temperature conditions	-35 to 180 °C

Cable entry plate

Ideal for use in tight spaces. High packing density in a very small space.

- Significant reduction in working time compared with conventional systems
- Space saving of over 50% compared with conventional cable glands

Suitable for min./max. wall thickness	1.5-2 mm
IP protection class	IP 66

Length x width x height	147.5 x 59.5 x 16.8 mm
Min./max. temperature conditions	-30 to 100 °C
Colour	Black
Material	PA 66 GF25 V-0 - Polyamide
Material of the sealing ring	Ethylene propylene diene terpolymer rubber EPDM
Halogen-free	No
Silicone-free	No

USB car charger, 2.4 A

Car quick charger with 2 USB connections for charging USB devices

- Universal rapid charge function, compatible with Apple, Samsung, HTC, Sony etc.
- Intelligent charge control, automatic detection of maximum possible charge current
- Charges as quickly as the original charger

Material	Plastic
Product weight (per item)	21 g
Length	48 mm
Width	25 mm

Art. no. 0837 900 103

P. Qty.: 1

USB data and charging cable 2in1 Micro and USB Type-C connector

High-quality cable with robust finish enables the synchronization and charging with up to 480 Mbps.

- Fast charging function
- Aluminium cable head with load relief

Material	Plastic
Product weight (per item)	57 g
Length	120 cm

Art. no. 0837 900 107

P. Qty.: 1

USB data and charging cable 2in1 Micro and Apple connector

High-quality cable with robust finish enables the synchronization and charging with up to 480 Mbps.

- Fast charging function
- Aluminium cable head with load relief

Material	Product weight (per item)	Length	Colour	Art. no.	P. Qty.
Plastic	40 g	120 cm		0837 900 106	1
Thermoplastic elastomer	46 g	2 m	Black	0837 900 108	1

Starter battery DURACELL® PROFESSIONAL HD

Robust power pack for commercial vehicles

- Starts engine reliably and supplies sufficient power to on-board electrical system
- Easy to maintain with visible electrolyte marking and practical screw connection
- Robust design
- Heavy duty: Cycle and vibration-proof (EN 50342-1 classification E3/V3)
- Pocket separators to prevent short circuits
- Product identification with UK number and EN/SAE cold cranking amps
- With handle (mG design)

Starter battery DURACELL® PROFESSIONAL SHD

Robust power pack with highest safety standards for commercial vehicles

- Starts engine reliably and supplies sufficient power to on-board electrical system
- Maximum safety thanks to central degassing, back ignition protection and safety screw connection
- Super heavy duty: Extra cycle and vibration-proof (EN 50342-1 classification E4/V3)
- Enhanced leak protection on types 145, 180 and 225 Ah
- Entirely maintenance free
- Product identification with UK number and EN/SAE cold cranking amps
- With handle, central degassing and back ignition protection (mGGARZS design)

Tachograph disc for EC tachographs

Approved for all EC tachographs

Approved for use throughout the EU

Manufactured in accordance with DIN ISO 9001

Automatic discs can be evaluated electronically

Rotogravure printing method

Clear contours

Abrasion resistant

No damage to tachograph due to soiling

E1 numbers of new tachograph models are automatically updated on the tachograph discs

Type description	Moto Meter number	Comparison number	E1 number	Art. no.	P. Qty.
100 EC = 100 km/h combination disc	517.601.0001 664.910.1480	100-24 EC 4K	03/04/07/08/09/10/11/12/15/18/21/22/23/26/29/30/31/32/35/36/37/40/41/44/45/46/47/48/53/54/55/56/57/58/59/60/63/64/65/66/67/68/69/70/72/73/74/75/78/79/80/81/82/83	0850 031 00	100

Should an accident evaluation be necessary, please observe the following:

Send the disc together with a brief note, the customer address etc. to the PCM department in Künzelsau, Germany.

Thermal paper

For digital tachographs:

- High-quality thermal paper in accordance with EC Regulation 432/2004, Annex 1B
- For all approved digital tachographs
- Approved by various commercial vehicle manufacturers and monitoring device manufacturers
- Coreless winding to protect the inside of the tachograph and avoid additional waste
- Roll end mark on last 50 cm
- Each roll is individually sealed in a special film
- Under normal storage conditions, the paper can be read and printed on for 10 years
- High level of resistance

Outer diameter	28 mm
Width	57.5 mm
Length	8 m
Max. temperature resistance	90 °C

Art. no. 0850 100 300

P. Qty.: 3

PE seat protector on roll

Suitable for use with airbags

- White, oil and water-resistant PE film
- Optimal material thickness for elasticity in all directions, thanks to film thickness of 13 μm (0.013 mm)
- Exact perforation ensures high tear-off quality

Length x width	1300 x 790 mm
Number of tear-offs	500 PCS
Material	PE - Polyethylene
Roll width	620 mm
Weight of roll	10 kg
Colour	White

Art. no. 0899 500 01

P. Qty.: 1

Seat protector, nylon

Robust and reusable

- Suitable for all standard vehicle types
- PU-coated special nylon fabric
- Repels water, oil and grease
- Integrated elastic band for a perfect fit
- Reinforced with fabric hem all round
- Suspension eyelet
- Washable up to 40°C

Length x width	1450 x 760 mm
Material	Nylon (polyamide)

Art. no. 0899 500 010

P. Qty.: 1

Seat protector, synthetic leather

Robust and reusable

- Suitable for all standard vehicle types
- Hard-wearing, high-quality synthetic leather
- Headrest shape for ideal fit
- Fully hemmed
- Washable up to 40°C

Length x width	1430 x 590 mm
Material	Faux leather
Colour	Black

Art. no. 0899 500 015

P. Qty.: 1

Crepe floor mats

Particularly tear-resistant

- Particularly high resistance to tearing, made from 100% recycled paper
- Protects footwell from dirt

Length x width	500 x 350 mm
Number of tear-offs	500 PCS

Art. no. 0899 500 031

P. Qty.: 1

Adhesive film for steering wheel protection

With red interchangeable handle

- One roll is sufficient for approx. 215 steering wheels
- Continuous film suitable for all steering wheel types
- Material: PE adhesive film, transparent
- Material thickness: 14 µm
- Dimensions: 300 m x 140 mm (L x W)

Length	300 m
Material	PE - Polyethylene

Art. no. 0899 500 025

P. Qty.: 1

Adhesive film for steering wheel protection

- One roll is sufficient for approx. 215 steering wheels
- Continuous film suitable for all steering wheel types
- Material: PE adhesive film, transparent
- Material thickness of the adhesive film: 14 µm
- Dimensions of the adhesive film (L x W): 300 m x 140 mm

Length	300 m
Width	140 mm
Material	PE - Polyethylene

Art. no. 0899 500 026

P. Qty.: 1

PE steering wheel protector on roll

Flexible and non-slip

- White, oil and water-resistant PE film
- Optimal durability and flexibility thanks to high material thickness of 39 µm (0.039 mm)
- One roll is sufficient for approx. 500 steering wheels
- Exact perforation ensures high tear-off quality
- Dust-proof thanks to practical dispenser carton

Length	310 mm
Width	150 mm
Material	PE - Polyethylene

Art. no. 0899 500 02

P. Qty.: 1

Nylon steering wheel protector

Elasticated around the outside for a perfect fit

- PU-coated special nylon fabric
- Repels water, oil and grease
- Reinforced with extra material
- Washable up to 40°C

Width	100 mm
Material	Nylon (polyamide)
Oil-repellent	Yes
Water-repellent	Yes

Art. no. 0899 500 020

P. Qty.: 1

Vehicle interior protection set

5-piece vehicle interior protection set consisting of seat protector, foot mat, protective film for steering wheel, gearstick and handbrake

- All required protectors on a single tear-off segment
- Simple to plan material requirements, as only one item; saves storage space and makes dispenser systems unnecessary
- Suitable for most car interiors
- Helps mechanics meet the required quality standards
- All protectors are dust-protected in a dispenser box (L x W x H mm: 720 x 170 x 170)
- Seat protector and floor mat provide protection against oil, dirt and water
- The multi-layer film is especially slip-resistant and adherent
- Highly expandable film, adapts flexibly to the contours
- Transparent material allows symbol recognition

Roll width	720 mm
Roll diameter	160 mm
Number of tear-offs	200 PCS
Number of pieces in assortment/set	1000 PCS

Art. no. 0899 500 051

P. Qty.: 1

Vehicle interior protection set

5-piece protector set for vehicle interiors

- All necessary protectors are packed in a dust-proof polythene bag
- Easy logistics as comprises just one item; saves on storage space and dispensing systems
- Suitable for most passenger car interiors

Number of tear-off units/set	100 PCS
Number of pieces in assortment/set	500 PCS

Art. no. 0899 500 054

P. Qty.: 1

Tap

Metal tap with 3/4 inch connection for 60-l metal drum

Material	Metal
Product weight (per item)	299 g

Art. no. 0891 302 06

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

3/4-inch tap

Plastic tap with 3/4-inch connection for 60-l metal drum

Material	Plastic
Product weight (per item)	47 g

Art. no. 0891 302 07

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Tap

For 20-litre plastic canister

Product weight (per item)	1 g
---------------------------	-----

Art. no. 0997 368 031

P. Qty.: 1

Plastic funnel

With removable sieve

- Oil and fuel resistant
- Food safe
- Robust plastic material

Material	Plastic
Colour	Red

Liquid volume	Diameter (Ø)	Product weight (per item)	Art. no.	P. Qty.
1100 ml	160 mm	135 g	0891 410 5	1
1200 ml	160 mm	102.5 g	0891 410 3	1
1200 ml	160 mm	122 g	0891 410 4	1
2000 ml		162.85 g	0891 410 2	1
4000 ml		233 g	0891 410 1	1

Please consider the legal instruction at the beginning of this chapter.

Plastic funnel set

4 pieces

- Oil and fuel resistant
- Food safe
- Removable sieve
- Robust plastic material

Includes:

- 1x plastic funnel Ø 50, h=60 mm
- 1x plastic funnel Ø 70, h=75 mm
- 1x plastic funnel Ø 90, h=90 mm
- 1x plastic funnel Ø 115, h=100 mm

Material	Plastic
Number of pieces	4 PCS
Colour	Red
Product weight (per item)	72 g

Art. no. 0891 410 010

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Oil filler funnel set

7 pcs. For easy filling of engine oil without overflow

- Quick-change system with 5 different adapters for all common vehicles, such as VW Golf
- Easy filling even in hard-to-reach places thanks to the angled adapter and extension included in the scope of delivery
- Plastic funnel with 1-L capacity

Liquid volume	1 l
Material	Aluminium
Number of pieces	7 PCS
Colour	Aluminium (base material)
Diameter (Ø)	100 mm
Product weight (per item)	3 kg

Art. no. 0891 410 10

P. Qty.: 1

Measuring jug

With 10 ml increment scale

- Resistant to acids and chemicals
- Ideal for transferring oil, coolant, screenwash etc.

Material	Plastic
Colour	White
Resistance against	Oil, Acid

Contents	Scale	Art. no.	P. Qty.
1 l	Scale: 10 ml	0705 800 050	1
2 l	Scale: 20 ml	0705 800 100	1
5 l	Scale: 100 ml	0705 800 500	1

Please consider the legal instruction at the beginning of this chapter.

Measuring cups

With pouring spout

- Acid and oil-resistant
- Ideally suited for transferring oil, coolant, screenwash, etc.

Material	HDPE - High density polyethylene
Colour	White
Resistance against	Oil, Acid

Contents	Scale	Art. no.	P. Qty.
0.5 l	Scale: 0.25 l	0891 400 05	1
1 l	Scale: 0.25 l	0891 400 1	1
2 l	Scale: 0.5 l	0891 400 2	1
3 l	Scale: 0.5 l	0891 400 3	1

Please consider the legal instruction at the beginning of this chapter.

360° Pump spray bottle

Special suction system allows 360° spraying for reliable overhead, diagonal or vertical operation

- Easy to open owing to surface-feel elements
- Ergonomic, robust spray atomiser with long handle
- Customisable label

Contents	1 l
----------	-----

Art. no. 0891 503 360

P. Qty.: 1

Pump spray bottle ECO

Produced from renewable raw material cane sugar

- Environmentally friendly
- Ergonomic, sturdy spray atomiser with long handle
- Label for individual identification
- Good stability due to conical shape

Contents	1 l
----------	-----

Art. no. 0891 503 300

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Pump spray bottle Perfect Foam

Ideal for applying cleaning foam for vehicle and commercial car cleaning

- Effective foam that effectively dissolves and easily removes dirt, insects and tough road grime
- 3 foam inserts ensure different consistency and variable levels of foaming – from viscous to thin liquid
- Ideal for alkaline cleaners

Contents	1.5 l
----------	-------

Art. no. 0891 503 021

P. Qty.: 1

360° Spray bottle

Solvent-resistant suction system enables 360° spraying action

- Special suction system enables 360° spraying action
- Sealable control nozzle up to 15 bar piston pressure
- Transparent, shatter-proof 0.5 litre container
- Gauge in 100 ml graduations

Contents	500 ml
Material	Polypropylene/polyethylene
Colour	Transparent, matt

Art. no. 0891 502 360

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Suitable for mineral, alkaline, base and oily Würth products. Not suitable for resin remover, acetone cleaner and 1A parts and assembly cleaner.

Spray bottle

For user-friendly application of liquids

- Natural-coloured, shatter-proof container
- Gauge in 100 ml and 200 ml graduations

Customisable label

- Space for labelling the filled liquid
- Extra fields for safety instructions

Contents	500 ml
Material	PE - Polyethylene
Colour	Natural

Art. no. 0891 502 002

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Fuel canister, steel, 20 litres

Fuel canisters for transporting petrol and diesel

- UN-approved fuel canister for the safe transport of specific dangerous goods, e.g. fuel and oil for construction machinery and small vehicles, etc.
- TUV type-tested label, safety and regular production monitoring
- Wall thickness 0.9 mm in accordance with to DIN 7274

Material	Steel
Contents	20 l
Width	345 mm
Length	165 mm
Height	468 mm
Resistance against	Fuel
Volumetric capacity	20 l

Colour	Art. no.	P. Qty.
Flame red RAL 3000	0891 420 721	1
Olive green RAL 6003	0891 420 722	1

Please consider the legal instruction at the beginning of this chapter.

- Caution: Check the seal for leaks after every refuelling application or before transport!
- Observe the marking for transport of the fuel canister. See note
- The seal in the canister cover is a wear part and must be replaced regularly.
Seals can be found under art. no. 0891420744 in PU 5.
- When transporting canisters containing fuel, follow the provisions of the GHS and ADR regulations where necessary, and attach the legally required labelling to the canister.

Our safety adhesive labels can be used for this; see art. no. 0891420740.

Fuel canister, 5 l

With two discharge pipes for petrol and diesel

- Suitable for E10
- Spout for diesel vehicles integrated into the body of the canister (black)
- Child-safe, certified safety lock

Material	HDPE - High density polyethylene
Colour	Black, Red
Contents	5 l
Width	147 mm
Length	265 mm
Height	247 mm
Resistance against	Fuel

Art. no. 0824 010 067

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

TÜV-tested manufacture

The discharge pipes are suitable for vehicles with misfuelling protection guard and thus meet all current requirements.

Spout with flexible metal pipe

For pouring fuel and fuel mixtures from the 20-litre steel fuel canister

For safely pouring fuel from the fuel canister and even refuelling of construction machinery and small vehicles. Using the right spout, avoid incorrect refuelling.

Material	Metal
Length	380 mm

Product weight (per item)	Art. no.	P. Qty.
33 g	0891 420 741	1
34 g	0891 420 742	1

PLEASE NOTE!!! At the start and at the end of the refuelling, a small amount of fuel may escape from the vent at the outlet!

- The spouts can be attached easily to the canister. There are already holes in the canister for the retaining clip supplied with the spout.
Caution: Canister not included in the scope of delivery.
- The seal in the cap of the spout is a wear part and must be replaced from time to time. Seals can be found in art. no. 0891420745 in PU 5.
- Please always follow the appliance manufacturer's instructions when refuelling. Never refuel a hot appliance or while the engine is still running.

Plastic workshop oiler

Ergonomic polyethylene oil container

- Virtually complete draining due to moving suction tube
- Double-action brass pump with ball valve
- Pump unit enables metered droplet outlet

Material	PE - Polyethylene
----------	-------------------

Contents	Max. external diameter	Art. no.	P. Qty.
0.2 l	76 mm	0695 555 324	1
0.3 l	85 mm	0695 555 325	1

Please consider the legal instruction at the beginning of this chapter.

Metal workshop oiler

Ergonomic zinc diecast oil container

- Virtually complete draining due to moving suction tube
- Double-action brass pump with ball valve
- Pump unit enables metered droplet outlet

Material	Die-cast zinc
----------	---------------

Contents	Max. external diameter	Art. no.	P. Qty.
0.2 l	76 mm	0695 555 401	1
0.3 l	85 mm	0695 555 402	1

Please consider the legal instruction at the beginning of this chapter.

Manual dispensing pump

For oils, cleaners, brake fluids and liquids

- Manual pump with transparent PVC cylinder
- Ascending and descending graduations in 50-ml increments

Material	PVC - Polyvinyl chloride
Pump length	550 mm
Hose length	750 mm
Product weight (per item)	953 g
Contents	1 l

Art. no. 0695 555 406

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Not suitable for explosive liquids or acids

EVAPO® vehicle A/C cleaner Clean

Hygienic vehicle air-conditioning unit cleaning agent dispensed by an ultrasonic misting device (EVAPO-mat®).

Effectively eliminates and prevents offensive odours and allergic reactions caused by bacteria and fungi.

Chemical basis	Water and cationic polymer
Smell/fragrance	Neutral
Colour	Colourless
Density	1 g/cm ³

Contents	Weight of content	Art. no.	P. Qty.
100 ml	100 g	0893 139 2	6
1000 ml	1000 mg	0893 139 101	1/6

Please consider the legal instruction at the beginning of this chapter.

Preventive and regular use is required for keeping air-conditioning unit odour-free over the long term (at least 1–2 times per year). EVAPO Clean may only be applied with EVAPO®mat.

Take care when using biocidal products. Always read the label and product information before use.

EVAPO® vehicle A/C cleaner Fresh

Fast-acting odour absorber for use in the EVAPO® mat system.

Reliable odour elimination

- The aerosol is ideal for reaching hard-to-reach areas
- Does not leave any traces behind on windows or interior
- 100 ml is sufficient for one application
- Diffuses a pleasant, fresh citrus scent

Chemical basis	Water tenside
Smell/fragrance	Lemon
Colour	Colourless
Density	1 g/cm ³

Contents	Weight of content	Art. no.	P. Qty.
100 ml	100 g	0893 139 3	6
1000 ml	1000 g	0893 139 100	1/6

Please consider the legal instruction at the beginning of this chapter.

EVAPO®fresh may only be applied with EVAPO®mat.

Air-conditioning system cleaner

Easily cleans all cooling devices and air-conditioning systems in buildings of soot, dust, grease and oil, thereby providing longer service life and lower energy consumption.

Excellent cleaning performance

Thanks to its excellent creeping properties, it also reaches inaccessible areas.

High degree of material compatibility

As no AOX or silicone are used.

Longer service life

As the system is cleaned of dust, dirt, soot and oil.

Contents	1000 ml
Smell/fragrance	Neutral
Colour	Yellowish
pH value	13
Ratio of ingredients	1:1
AOX-free	Yes
Silicone-free	Yes
Water-soluble	Yes

Art. no. 0893 117 500

P. Qty.: 1/6

Please consider the legal instruction at the beginning of this chapter.

In providing this information, we want to ensure you receive the best advice based on our experience and the tests we perform. Preliminary testing is required!

A/C leakage stop additive

For preventative use, to seal slightly perished and brittle O-rings in R134a air-conditioning units.

TCP reduces wear

- Longer compressor service life
- Improves the compressor service life
- Reduces noises developing in the compressor
- (Tri-cresyl-phosphate) Additive specifically developed for vehicle air-conditioning compressors for reducing mechanical wear (friction) in the compressor (piston etc.)

Compatible with PAG and ester oil

Contents	30 ml
----------	-------

Art. no. 0892 764 500

P. Qty.: 6

Please consider the legal instruction at the beginning of this chapter.

Not suitable for sealing leaks on metallic components (evaporator, compressor, condenser etc.).

AC leakage stop plus

Preventive use for sealing micro-leaks on metal and rubber components, and for locating leaks in R134a and R1234yf vehicle air-conditioning systems

- Can be mixed with mineral, ester and PAG oils
- Supports lubrication of the compressor and prolongs service life
- The UV dye which is contained enables leak detection with the help of a conventional UV light

Contents	60 ml
Container	Can

Art. no. 0892 764 776

P. Qty.: 1/6

Please consider the legal instruction at the beginning of this chapter.

Do not attach the can to the high-pressure side of the air-conditioning circuit, as this could cause the container to explode, which may result in personal injury.

Air-conditioning refrigerant R134 a

Accessories for maintaining, servicing and retrofitting R134a vehicle air-conditioning systems

- Design-tested, refillable and stable reusable bottle
- High stand-up collar and bleeder valve with 3/4 inch male thread
- Colourless, odourless and tasteless
- Non-toxic
- Non-inflammable or non-explosive

Weight of content	12 kg
-------------------	-------

Art. no. 0892 764 001

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Air-conditioning refrigerant R1234yf

Accessories for maintaining, servicing and retrofitting R1234yf vehicle air-conditioning systems.

- Colourless, odourless and tasteless
- Non-toxic
- Design-tested, refillable and stable reusable bottle
- High stand-up collar and bleeder valve with 3/4" male thread

Weight of content	5 kg
-------------------	------

Art. no. 0892 123 405

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Flammable gases, category 1; pressurised gases, liquefied gas

A/C leak detection additive

Fluorescent additive for locating leaks in R134a climate systems without climate service device.

- Air-conditioning service unit not required to perform a service
Portable

Contents	7.5 ml
----------	--------

Art. no. 0892 764 010

P. Qty.: 6

Please consider the legal instruction at the beginning of this chapter.

Adapter art. no. 0764000114 can only be used with a 134a coupling.

A/C leak detection additive

Fluorescent additive for localising leaks in R 134a air-conditioning systems without air conditioning service units.

Air-conditioning service unit not required to perform a service

Portable

Contents	1.8 ml
----------	--------

Art. no. 0892 764 011

P. Qty.: 6

Please consider the legal instruction at the beginning of this chapter.

If the special filling adapter is mounted, no pressure is displayed on the service unit pressure gauge. Remove the adapter to measure the high pressure.

Adapter art. no. 0764000111 and art. no. 0764000112 can only be used with a 134a coupling.

Premium UV leak detection additive

Fluorescent additive for localising leaks in R134a and R1234yf air-conditioning systems in accordance with SAE J2297

- Sufficient for 32 applications in a car or 16 applications in a lorry
- Compatible with PAG and ester oil
- High proportion of fluorescent ingredients
- Does not damage O-rings and seals

Contents	240 ml
----------	--------

Art. no. 0892 764 034

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Only insert the leak detection additive into the air-conditioning system via the red fresh oil tank coupling.

Basic UV leak detection additive

Fluorescent additive for locating leaks in R134a and R1234yf air-conditioning systems

- Sufficient for 32 applications in a car or 16 applications in a lorry
- Compatible with PAG and ester oil
- High proportion of fluorescent ingredients
- Does not damage O-rings and seals

Contents	240 ml
----------	--------

Art. no. 0892 764 134

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Only insert the leak detection additive into the air-conditioning system via the red fresh oil tank coupling.

Air conditioning disinfectant spray

Special cleaner to clean and disinfect vehicle air conditioning systems

- Disinfects, cleans and protects
- Extra-long hose with special nozzle for direct application to the air-conditioning unit heat exchanger
- pH value: 5.0

Contents	300 ml
Weight of content	265 g
Chemical basis	Isopropanol
Smell/fragrance	Alcohol
Colour	Colourless
Bio-degradable	No

Art. no. 0893 764 10

P. Qty.: 1/6

Please consider the legal instruction at the beginning of this chapter.

PAG oil 100

PAG polyalkylene glycol air-conditioning compressor oil for vehicle air-conditioning systems using R134a refrigerant

- Good mixing properties
- Optimum lubrication effect
- High degree of wear protection
- Very hydrophobic
- Ensures thermal stability

Contents	250 ml
Viscosity/consistency	Liquid

Art. no. 0892 764 026

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Do not mix with other air-conditioning compressor oils. Store so the oil is protected from moisture. Avoid storing in open containers.

POE oil POE 100

Special POE (polyester) air-conditioning compressor oil for vehicle air-conditioning systems using R134a/ R1234yf refrigerants and electric air-conditioning compressors (hybrid, start/stop, electric)

Excellent resistance to potential electric creepage currents in high-voltage air-conditioning systems
Highly hydrophobic

- Not conductive
- Electrical components are not affected

Excellent smoothness, thereby protecting the compressor from wear

Contents	210 ml
----------	--------

Art. no. 0892 764 045

P. Qty.: 1/6

Please consider the legal instruction at the beginning of this chapter.

- Do not mix with other air-conditioner compressor oils
- Store such that the oil is protected from moisture
- Use up the open can quickly and do not store for long periods

Multi-range compressor oil Pro

High-value synthetic oil with additive specifically tailored for use in air-conditioning compressor technology

- Compatible with following refrigerants: R 23, R 125, R 134a, R 227, R 413a, R 407c, R 410a, R 404a, R 507, R 744.
- Mixable with PAG oil and ester oil
- Excellent lubricating effect

Contents	1000 ml
----------	---------

Art. no. 0892 764 123

P. Qty.: 1/6

Please consider the legal instruction at the beginning of this chapter.

Thread extractor set

25 pcs.

- For broken-off screws and bolts from 6–16 mm or 1/4 to 5/8 inches
- Complete set, also comprises necessary twist drills
- Specially profiled extractor pins enlarge the stud bolt only slightly
- Scope of delivery: Guide sleeves, spiral drills, extractor pins and nuts, operating instructions, high-quality plastic box

Product weight (per item)	682 g
---------------------------	-------

Art. no. 0690 14

P. Qty.: 1

Screw extractor assortment

5 pieces. For removing snapped off screws or stud bolts.

- Chromium vanadium, forged
- Supplied in plastic case

Number of pieces in assortment/set	5 PCS
------------------------------------	-------

Art. no. 0695 684 353

P. Qty.: 1

Contents for art. no. 0695 684 353		
Designation	Art. no.	Quantity
Screw extractor Suitable for screw 1/8 inch - 1/4 inch M3 - M6	0695 347 940	1
Screw extractor Suitable for screw 1/4 inch - 5/16 inch M6 - M8	0695 348 127	1
Screw extractor Suitable for screw 5/16 inch - 7/16 inch M8 - M11	0695 348 314	1
Screw extractor Suitable for screw 7/16 inch - 9/16 inch M11 - M14	0695 348 501	1
Screw extractor Suitable for screw 9/16 inch - 3/4 inch M14 - M18	0695 348 688	1

Screw extractor assortment

6 pieces. For removing snapped off screws or stud bolts.

Chrome vanadium, forged

Supplied in plastic case

Contents: 6 pcs.

- 6 screw extractors
Sizes 1, 2, 3, 4, 5 and 6 (M3–M24)

Number of pieces in assortment/set	6 PCS
Included in delivery (Lieferumfang)	Size 6 screwdriver (M18–24)

Art. no. 0695 684 540

P. Qty.: 1

Contents for art. no. 0695 684 540		
Designation	Art. no.	Quantity
Screw extractor Size=1	0695 347 940	1
Screw extractor Size=2	0695 348 127	1
Screw extractor Size=3	0695 348 314	1
Screw extractor Size=4	0695 348 501	1
Screw extractor Size=5	0695 348 688	1

Stud extractor assortment

4 pieces. For driving in and extracting stud bolts with and without threads in seconds.

- Bolts undamaged by welding on auxiliary materials (nuts etc.) or using pliers
- Securing with nuts unnecessary
- Grips securely from 10 mm bolt length
- A tool without wear parts
- Supplied in painted metal case with plastic insert

Product weight (per item)	1138 g
---------------------------	--------

Art. no. 0690 421 1

P. Qty.: 1

Pulling tabs combination assortment

Adapter for PinPuller, Minilifter, Dent Lifter and Maxi-lifter to remove dents without damaging the paint-work

Form	Spherical, Round
Colour	Red

Included in delivery (Lieferumfang)	Art. no.	P. Qty.
5 x 16 mm diameter, 5 x 27 mm diameter	0691 500 154	10
5 x 21 mm diameter, 5 x 32 mm diameter	0691 500 155	10

PinPuller® power set, fully equipped

The PinPuller® power set is fully equipped and contains the most important tools for accident repair

- For universal use
- Unique pin electrode for professional reforming of wheel arches
- Set contains essential tools for accident repairs
- Trimmer for rapid and precise refilling of pin electrodes

Product weight (per item)	6054 g
---------------------------	--------

Art. no. 0691 500 379

P. Qty.: 1

Antifreeze tester for coolant

For ethanediol (ethylene glycol) and water mixtures, with the exception of G13

- The pendulum indicator renders holding upright non-essential as with conventional devices.
- Automatic temperature correction
- Direct, simple reading of freezing point for all coolant temperatures.

Min. temperature conditions	-40 °C
Suction volume	52 cm³
Length	155 mm

Art. no. 0853 600 1

P. Qty.: 1

The measurement chamber must be completely filled with fluid and be entirely bubble-free. This is achieved by tapping on the housing.

Flexible spring band clamp pliers

Pliers with Bowden cable and tensioning slide for hard-to-reach places in engine compartment

- Flexible Bowden cable mechanism for ideal working conditions even in extremely cramped spaces.
- The tensioning slide can also be guided to the desired position using only the Bowden cable.
- Using the micro-lock, the spring band clamp can be gradually opened without over-expanding it in the process.
- The micro-lock holds the clamp in the open position without the application of force.
- The improved tensioning slide with its integrated tensioning spring keeps the slide and the pull cable pre-tensioned.
- The clamping holder at the handle end of the pliers fixes the Bowden cable in place and simplifies storage

Min./max. clamp diameter (D)	18-54 mm
Clamp width	12 mm, 15 mm
Bowden-cable length	600 mm

Art. no. 0714 577 112

P. Qty.: 1

Spring band clamp pliers

Pliers with rotating clamping jaws and locking mechanism

- Rotating clamping jaws enable universal alignment of the clamp in tight spaces.
- The locking mechanism holds the clamp in the open position without the application of force.
- Special safety jaws prevent the tensioned clamps from sliding out.
- Extra long design for convenient pre-tensioning of clamps
- Special steel construction with PVC handle casing

Length (L)	270 mm
Min./max. clamp diameter (D)	18-54 mm

Clamp width	Art. no.	P. Qty.
12 mm	0714 577 110	1
12 mm, 15 mm	0714 577 111	1

Radiator bleeder

For rapid filling of cooling system with coolant without air pockets

- Rubber cone covers radiator openings Ø 17 – 50 mm
- The simple design of the device requires only a few work steps
- The process of filling with coolant is performed in seconds and without air pockets owing to the vacuum created in the cooling system
- Problematic air pockets in the cooling system are avoided by vacuum filling

Technical data:

- Operating pressure: 6 – 12 bar
- Compressed-air connection: 1/4 inch
- Rubber cone: Ø 17 – 50 mm

Scope of delivery:

- Radiator bleeder with rubber cone
- Water hose with sieve
- Storage bag with operating instructions

Min./max. pressure	6-12 bar
Min./max. diameter	17-50 mm
Connection thread	1/4 inch

Art. no. 0714 55 18

P. Qty.: 1

Valve setting blade

For testing and setting engine valves and for measuring gaps in guides, bearings, pistons etc.

- Designated colours for easy identification of the respective blades
- Gauge blades with easily readable dimensions

Sheet width	12.7 mm
Sheet length	45 mm
Length	104 mm

Blade thickness	Colour	Art. no.	P. Qty.
0.05 mm	Light blue (bright blue)	0713 51 20	5
0.08 mm	Dark green	0713 51 21	5
0.1 mm	Purple	0713 51 22	5

0.45 mm	Black	0713 51 29	5
0.5 mm	Beige	0713 51 30	5
0.55 mm	Wine red	0713 51 31	5
0.6 mm	Brown	0713 51 32	5

Oil filter ratchet wrench

For simple and rapid replacement of oil filter using ratchet principle

A ratchet effect is generated on the oil filter by the toothed, hinged jaws

Minimum angle of rotation of just 5° allows you to work in extremely confined spaces

Adjustment aid automatically indicates the optimum pre-tension

So you always use the ideal ratchet setting

Ergonomically shaped handle

Fatigue-free working

Max. clamping width	106 mm
Product weight (per item)	323 g

Art. no. 0714 57 14

P. Qty.: 1

Tensioning strap repairs only possible at factory

Oil filter wrench

- Used predominantly on French vehicles
- Also suitable for use on construction vehicles such as tracked loaders

Max. clamping width	110 mm
Product weight (per item)	317 g

Art. no. 0714 57 12

P. Qty.: 1

Strap wrench

For rapid placement and opening of oil filter

Max. clamping width	Product weight (per item)	Art. no.	P. Qty.
100 mm	281 g	0715 57 21	1
200 mm	327.5 g	0715 57 20	1

Spark plug brush

Wooden handle and crimped brass wire bristles for cleaning spark plug electrodes and contacts.

Length	145 mm
Material of the grip handle	Wood

Art. no. 0715 51 58

P. Qty.: 1

1/2 inch spark plug socket wrench insert

- Attachment: Permanent magnet
- Design: chrome-plated, matt
- Drive: 1/2 inch, ball catch groove
- Drive: Hexagonal

Length (L1)	80 mm
External drive	WS1/2
Socket wrench depth (t)	9 mm

Width across flats	Width across flats in inches	Socket wrench external diameter (D1)	Socket wrench external diameter 2 (D2)	Product weight (per item)	Art. no.	P. Qty.
16 mm	5/8 inch	22 mm	22 mm	122.5 g	0715 51 47	1/10
18 mm	11/16 inch	25 mm	25 mm	166.2 g	0715 51 48	1/10
20.8 mm	13/16 inch	27 mm	26 mm	161.2 g	0715 51 49	1/10

3/8 inch spark plug socket wrench insert

- Attachment: Permanent magnet
- Design: chrome-plated, matt
- Drive: 3/8 inch, ball catch groove
- Drive: Hexagonal

Length (L1)	80 mm
External drive	WS3/8

Width across flats	Width across flats in inches	Socket wrench external diameter (D1)	Socket wrench external diameter 2 (D2)	Socket wrench depth (t)	Art. no.	P. Qty.
16 mm	5/8 inch	22 mm	21 mm	9 mm	0715 51 50	1/10
18 mm	11/16 inch	25 mm	25 mm	9 mm	0715 51 51	1/10
20.8 mm	13/16 inch	27 mm	25 mm	10 mm	0715 51 52	1/10

3/8 inch spark plug socket wrench insert

Attachment: ring magnet

Design: chrome-plated, polished

Drive: 3/8 inch, ball catch groove, and hexagon head size 17

Output: bi-hexagon

For spark plugs with hexagon or bi-hexagon drive

Application: e.g. spark plugs for Peugeot and Citroën

Width across flats	14 mm
Length (L1)	70 mm

Continuation **3/8 inch spark plug socket wrench insert**

Socket wrench external diameter (D1)	19 mm
External drive	WS3/8
Socket wrench external diameter 2 (D2)	18 mm
Socket wrench depth (t)	11 mm
Product weight (per item)	88 g

Art. no. 0715 51 537

P. Qty.: 1

Telescopic rod

With telescopic mirror

- Extendible telescopic shaft
- Telescopic rod with spring-tensioned double joint (twist-proof)
- The glass mirror panels are exchangeable via M3 male thread
- No clouding of the mirrors, as with polished „metal mirrors“
- Mirror glass is securely protected by the stainless-steel mount

Diameter of mirror	30 mm
Min./max. length	295-735 mm

Art. no. 0715 35 70

P. Qty.: 1

Glass mirror panel

For telescopic rod

- The mirrors are exchangeable via M3 male thread
- No clouding of the mirrors, as with polished „metal mirrors“
- Mirror glass is securely protected by the stainless-steel mount

Form	Length	Diameter of mirror	Length of mirror	Width of mirror	Art. no.	P. Qty.
Rectangular	98 mm		43 mm	65 mm	0715 35 765	1
Round	63 mm	30 mm			0715 35 730	1
Round	83 mm	50 mm			0715 35 750	1

Inspection tool set

6-piece in rolled tool bag

Number of pieces in assortment/set	6 PCS
------------------------------------	-------

Art. no. 0715 35 900

P. Qty.: 1

Contents for art. no. 0715 35 900		
Designation	Art. no.	Quantity
Telescopic magnet	0715 34 96	1
Magnetic lifter with plastic handle	0715 35 35	1
Telescopic rod	0715 35 70	1
Glass mirror panel	0715 35 765	1
Claw gripper, flexible, with plastic handle	0715 35 80	1
High-end power LED torch, W1		1

Hose pinch-off pliers set

For flexible hoses and lines without metal fabric

- For quick pinching off of water hoses, oil and fuel lines
- Locking mechanism holds the pliers in the desired clamping position
- Rounded clamping jaws prevent unintentional damage to lines
- Fibreglass reinforced plastic construction in striking red signal colour

Number of pieces in assortment/set	3 PCS
Product weight (per item)	279 g

Art. no. 0714 601 931

P. Qty.: 1

Contents for art. no. 0714 601 931		
Designation	Art. no.	Quantity
Pinch-off pliers 5-14 mm	0714 601 912	1
Pinch-off pliers 13-19 mm	0714 601 919	1
Pinch-off pliers 19-57 mm	0714 601 956	1

Infrared laser thermometer

For contact-free measurement of surface temperatures, with integrated laser pointer

- Ergonomic, practical and suitable for use anywhere
- Thanks to the two-point laser beam, the measuring point can be focused even more precisely
- With integrated display lighting

Min./max. temperature measuring range	-50 to 650 °C
Thermometer measuring cone	12:1
Nominal voltage	9 V/DC
Min./max. spectral range	8-14 µm
Reaction time	150 ms
Automatic switch-off	5 s
Rechargeable battery/battery designation	9 V block; PP3; F22

Art. no. 0715 53 110

P. Qty.: 1

Video endoscope PRO Dual

For perfect examination and documentation in inaccessible places via video recording and/or imaging

- 4.9 mm dual camera with 90° front and side view and two dimmable and luminous mini LEDs
- Live observation via the TFT colour display or recording straight to the SD card in the multifunctional console; JPG image format and NTSC or PAL video format
- Probes with scratch-proof sapphire glass for high image quality and to protect the camera lens

Width	72 mm
Height	200 mm
Min./max. temperature conditions	0 to 55 °C
Type of rechargeable battery/battery	Lithium
Product weight (per item)	2332 g

Art. no. 0715 53 757

P. Qty.: 1

Endoscope probe

For endoscope

Angle	0 Degree
-------	----------

Diameter	Cable length	Art. no.	P. Qty.
3.9 mm	1 m	0715 53 775	1
5.5 mm	1 m	0715 53 762	1
5.5 mm	1 m	0715 53 776	1

5.5 mm	10 m	0715 53 778	1

Endoscope camera probe Dual

4.9 mm dual camera with 90° front and side view

- Perfect inspection and documentation of inaccessible areas
- Optimal image quality thanks to two dimmable and bright mini LEDs
- Probe with scratch-resistant sapphire glass to protect the camera lens and ensure high image quality

Diameter	4.9 mm
Angle	90 Degree
Cable length	100 cm
Material	Plastic

Continuation **Endoscope camera probe Dual**

Art. no. 0715 53 760

P. Qty.: 1

Endoscope video probe One Way

4.5 mm camera with front view and can be rotated up to 180°

- Perfect inspection and documentation of inaccessible areas
- Optimal image quality thanks to five dimmable and bright mini LEDs
- Probe with scratch-resistant sapphire glass to protect the camera lens and ensure high image quality

Diameter	4.5 mm
Angle	180 Degree
Cable length	186 cm
Material	Plastic

Art. no. 0715 53 759

P. Qty.: 1

Can only be used together with the Video, endoscope PRO and Video endoscope PRO Dual

Gas detector

For detecting and localising leaks in gas pipes

- Measuring range: 10 ppm to vol. 1%
- Extremely simple operation
- Compact and rugged housing

Display	5-step LED
Min./max. temperature conditions	0 to 40 °C
Width	45 mm
Height	25 mm
Length	140 mm
Gooseneck length	180 mm

Art. no. 0715 53 260

P. Qty.: 1

The device must not be used to assess gas concentrations. It is used solely to locate areas of gas build-up.

Not ex-protected!

Storage temperature: -10°C to +50°C

Precision feeler gauge

For measuring slots and gaps, and for checking play on slide guides, bearings, pistons etc.

- Conical gauge blades with easily readable dimensions
- Gauge blades stored in a high-quality plastic sheath
- Clamping screw for securing the gauge blades

Repair hose line FPM/ECO/AR/ECO

With low permeation for fuel-carrying applications

- Extremely low fuel permeability
- Excellent heat resistance
- Highly flexible
- Complies with the EU End-of-Life Vehicles Directive
- Material: FPM/ECO/AR/ECO (Type 3E) in accordance with DIN 73379-1

Colour	Black
Max. working pressure	6 bar
Testing pressure	20 bar
Min. temperature resistance	-40 °C
Max. temperature resistance	125 °C
Conditions for temperature resistance/temperature conditions	brief resistance, 72 hours (over entire service life)
Max. short-term temperature resistance	150 °C

Vacuum hose

Resistant to fuel vapours, oil, diesel (without bio-additives) and ozone

- Made of synthetic rubber
- Short-term peak temperature of up to max. +150°C
- Stored on coil for ORSY10 dispenser system

Continuation **Vacuum hose**

Min. temperature conditions	-35 °C
Max. temperature conditions	110 °C

Not suitable as diesel return line or as fuel-carrying hose or pressure hose! Must not be used as an oil or diesel line!

Repair hose line, NBR/CR

With medium permeation for non-fuel-carrying applications

- Material: NBR/CR
- Medium permeation of fuel vapours
- Oil and acid-resistant outer elastomer layer for protection against abrasion, ozone and weathering
- Medium heat resistance
- Complies with EU End-of-life Vehicles Directive
- Flexible

Colour	Black
Min. temperature conditions	-35 °C
Max. temperature conditions	90 °C
Max. working pressure	10 bar
Testing pressure	20 bar

14 mm	22 mm	5 m	0895 501 440	5

Due to the addition of renewable raw materials in commercially available petrol and diesel fuels and increasingly high operating temperature ranges, Type 2A hoses are not recommended for use in fuel-carrying applications in motor vehicles. Observe the manufacturer's specifications.

Please note that the manufacturer's specifications must be complied with with regard to the operating temperature for high-performance engines subject to high temperatures.

For production-related reasons, the hoses are not always delivered in one piece. For 15 m max. 3 pieces, for 10 m max. 2 pieces.

Not suitable:

- For use in fuel-carrying applications
- For use in fuel tanks
- For gear and engine oils

Repair hose line, NBR/textile

For non-fuel-carrying applications

- On coil for ORSY 10 roll-off system
- Hose made from synthetic rubber (NBR) with vulcanised-on outer twine braiding
- Limited heat resistance
- Flexible
- Complies with EU End-of-life Vehicles Directive

Type description	On spool for ORSY® 10 dispenser system,
Colour	Black
Min. temperature conditions	-20 °C
Max. temperature conditions	70 °C
Material of inner core layer	Synthetic rubber NBR
Material of the outer weave	Rubber/meshwork
Max. working pressure	10 bar
Testing pressure	20 bar

Internal diameter (ID)	Outer diameter (AD)	Length	Art. no.	P. Qty.
3.2 mm	7 mm	15 m	0895 813 2	15
3.5 mm	7.5 mm	15 m	0895 813 5	15
4.5 mm	9.5 mm	15 m	0895 814 5	15
5 mm	10 mm	15 m	0895 815 0	15
5.5 mm	10.5 mm	15 m	0895 815 5	15
7 mm	12 mm	15 m	0895 817 0	15
7.5 mm	12.5 mm	15 m	0895 817 5	15
9 mm	14 mm	10 m	0895 819 0	10
9.5 mm	15 mm	10 m	0895 895 151	10

Please note that the manufacturer's specifications must be complied with with regard to the operating temperature for high-performance engines subject to high temperatures.

Not suitable:

- For use in fuel-carrying motor vehicle applications
- For use in fuel tanks
- For gear and engine oils

Rubber blade refills, flat, cars

For cars with flat-blade technology

- Wiping quality and service life is virtually the same as that of original wipers
- Optimal addition to any windscreen wiper assortment
- Immediate coverage of almost all new vehicles launched (provided blades are interchangeable)

Length	750 mm
--------	--------

Art. no. 0848 175 0

P. Qty.: 20

Rubber edge REFILLS

For car frame windscreen wiper

- New-generation click-on system
- Wiping quality and service life virtually the same as that of original wipers
- High resistance to heat and acids
- Environmentally friendly
- Industrial package with European hole
- Mounting instructions and corresponding template included
- Optimal addition to any windscreen wiper assortment
- Quick and easy installation
- Immediate coverage of virtually all new vehicles launched
- Saves a lot of time
- No need to search for and organise „exotic“ wipers
- Minimal stock-keeping required
- No unsaleable items

Profile thickness	6.3 mm
Ultraviolet resistance	Yes
Material	Rubber plastic

Length	Art. no.	P. Qty.
610 mm	0848 106 10	40
750 mm	0848 147 50	20

Cut off the refill after guiding it into the wiper frame with an excess length of approx. 1.5 cm. Never press back the bow claws, as this prevents the rubber profile from being able to run in the guide, and therefore negatively affects the wiping pattern.

Standard car windscreen wiper

With premounted multi-adapter

- Resealable individual packaging
- Refillable (replacement rubber wiper blade)

Robust metal bar system

- High resistance to weathering
- Quiet wiper blade properties on the windscreen
- Stainless steel pin joints in plastic casing
- Individual joints connected via stainless steel rivets

Scope of delivery

1x windscreen wiper with profile edge protection including preinstalled multi-adapter and 9 x 3 U-clip adapter for high market coverage

Seat protector, truck

Extra-strong protective cover made from PE to protect the truck seat cover during repair work.

- Extremely non-slip inner
- No sticking to clothes thanks to smooth top side
- Form-welded
- Suitable for long-term repairs and multiple use

Length x width	1570 x 785 mm
Number of tear-offs	200 PCS
Material	PE - Polyethylene
Roll width	780 mm
Weight of roll	9000 g

Art. no. 0899 500 60

P. Qty.: 1

Vehicle interior protection set 4in1

4 pieces. Consists of a seat protector, a floor mat, a steering wheel and a gear lever protector.

- Suitable for most passenger car interiors
- Seat protector: Optimal material thickness for high tear resistance and elasticity
- Floor mat: Absorbent paper and coated underside, protection against oil, dirt and water

Number of tear-off units/set	100 PCS
Number of pieces in assortment/set	400 PCS

Art. no. 0899 500 045

P. Qty.: 100

Crepe floor mat, truck

Robust footwell protector made from crepe to protect the truck floor mat during repair work.

- Optimum protection of the vehicle floor from dirt, oil and wet
- With steering column cut-out (centred at 500 mm side: width 10.5 cm and depth 17 cm)

Length x width	500 x 500 mm
Number of tear-offs	200 PCS

Art. no. 0899 500 61

P. Qty.: 1

LED digital thermometer

With contact sensor

Product weight (per item)	114 g
---------------------------	-------

Art. no. 0764 000 013

P. Qty.: 1

Please also note the test procedures described in the Environmental Manual volumes 1, 2 and 3.

Nitrogen pressure reducer

- Tests for leaks in air-conditioning system using the noise created by nitrogen escaping from the leak at high pressure (up to 15 bar)
- Setting range from 0 to 35 bar; can also be used for flushing

Product weight (per item)	2129 g
---------------------------	--------

Art. no. 0764 000 560

P. Qty.: 1

Only use on drained air conditioning systems!

Universal valve

Product weight (per item)	Art. no.	P. Qty.
0.6 g	0764 000 324	5
1.8 g	0764 000 322	5
1.83 g	0764 000 055	10
2.8 g	0764 000 325	5
3 g	0764 000 323	5

Removal adapter set R134a

For 12 kg R134a reusable refrigerant bottles

Product weight (per item)	121 g
---------------------------	-------

Art. no. 0764 000 003

P. Qty.: 1

Removal adapter set R1234YF

For 5.6 kg R1234YF reusable refrigerant bottles

Includes:

- Seal
- Valve insert

Product weight (per item)	45 g
---------------------------	------

Art. no. 0764 000 812

P. Qty.: 1

Quick-release service coupling

With SAE outer thread

Pressure system	Product weight (per item)	Art. no.	P. Qty.
High pressure	132 g	0764 000 160	1
High pressure	156 g	0764 000 154	1
Low pressure	145 g	0764 000 165	1
Low pressure	167 g	0764 000 153	1

Hose pack for pressure testing valve

For vehicles with R1234YF refrigerant

Includes:

- Low pressure service hose
- High pressure service hose
- Quick-release service coupling for low pressure (M12 x 1.5)
- Quick-release service coupling for high pressure (M12 x 1.5)

Type of refrigerant	HFO1234YF
Length	1.2 m
Product weight (per item)	752 g

Art. no. 0764 000 804

P. Qty.: 1

Adapter for high/low pressure service connection

The straight quick-action coupling for refrigerants R134a and R1234yf offers easier access to high/low-pressure service connections that are difficult to access due to plastic covers.

Length	122 mm
Diameter	25 mm
Product weight (per item)	154 g

Pressure system	Type of refrigerant	Art. no.	P. Qty.
High pressure	R-1234yf	0764 000 126	1
High pressure	R134a	0764 000 121	1
Low pressure	R-1234yf	0764 000 127	1
Low pressure	R134a	0764 000 125	1

O-ring

O-ring assortment

310 pieces For cargo/commercial vehicles

Zawartość: 310 sztuk

Number of pieces in assortment/set	310 PCS
------------------------------------	---------

Art. no. 5964 764 035

P. Qty.: 1

ORSY

O-ring assortment Universal

165 pieces Includes all the essential O-rings and sealing rings, and the most common valve inserts used in vehicles, air-conditioning service devices and service hoses.

- Green colour coding, may be yellow in some individual cases, to prevent confusion
- Resistant to refrigerant

Contents: 165 pieces

- 80 o-rings R134a
- 10 o-rings, pressure switches, male thread
- 20 o-rings for pressure switches, female thread
- 2 seals for service hoses
- 2 seals for quick-release couplings, R134a
- 12 seals for filling hoses
- 10 seals for WIGAM hoses
- 10 o-rings, 6-6/16"
- 4 o-rings for compressors
- 10 Schrader valves, R134a
- 5 Schrader valves, R134a/Japan

ORSY

Number of pieces in assortment/set	165 PCS
------------------------------------	---------

Art. no. 5964 764 004

P. Qty.: 1

The valve inserts must be replaced at each air conditioning service or when maintenance work is carried out on an air conditioning system. This is because debris from the compressor or other components may build up in the valve inserts as a result of activities such as draining and refilling, and this can cause leaks. Please use our range of protective caps and valve inserts when carrying out this type of work.

Self-adhesive protective film SK 50

For protecting and covering delicate surfaces.

Application is clean, quick and easy

- Self-adhesive
- No scratches or damage to surfaces when applying the film
- Easy to remove the film without leaving any adhesive residue
- Recyclable (environmentally friendly disposal)

Reliable protection

Largely resistant to chemical influences, mechanical damage and moisture.

Length	100 m
--------	-------

Width	Art. no.	P. Qty.
500 mm	0818 500 050	1/4
1000 mm	0818 500 100	1/2

Please consider the legal instruction at the beginning of this chapter.

Self-adhesive protective film SK 80

For protecting and covering delicate surfaces.

Application is clean, quick and easy

- Self-adhesive
- No scratches or damage to surfaces when applying the film
- Easy to remove the film without leaving any adhesive residue
- Recyclable (environmentally friendly disposal)

Reliable protection

Largely resistant to chemical influences, mechanical damage and moisture.

Length	100 m
Width	500 mm

Art. no. 0818 800 050

P. Qty.: 1/4

Please consider the legal instruction at the beginning of this chapter.

The films are not intended for long-term protection of surfaces beyond the specified protection period. They are intended for indoor and outdoor use and must be removed once the specified application time has passed. Films are not suitable for use in large-scale forming processes. We assume no liability for incorrect use and any damage that occurs as a result of incorrect use. We recommend that preliminary tests be performed in all cases.

Never remove the film using a jerky motion (pull-off angle below 90°). Cannot be used for copper and brass. Not suitable for laser-cutting technology. UV-resistant. Max. storage period: 12 months.

Maximum application time on the object: 6 weeks.

Paintwork protection film Mask light

Light, bright and transparent micropore density standard cover film.

- Excellent paint adhesion
- Transparent for easy detection of contours during cutting
- Easy to cut
- Micropore density
- Statically charged

Material	PE - Polyethylene
Width x length	4 m x 200 m
Length	200 m
Width	4 m
Foil thickness	10 µm

Art. no. 0818 103 400

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

When using Würth Mask Light, ensure that the surface to be masked is fully dry. Würth Mask Light is not suitable for application on wet surfaces.

Mask Plus paintwork protection film

Light grey transparent, micro pore density premium cover film that prevents paint marks being left on the vehicle even with some residual moisture.

- Excellent paint adhesion
- Transparent for easy detection of contours during cutting
- Easy to cut
- Tear-proof and highly flexible
- Micropore density
- Statically charged
- Temperature-resistant up to 125°C

Material	PE - Polyethylene
Foil thickness	16 µm

Width x length	Design	Length	Width	Art. no.	P. Qty.
4 m x 6 m	Hood	6 m	4 m	0818 107 640	1
4 m x 150 m	Roles ware	150 m	4 m	0818 107 400	1

6 m x 100 m	Roles ware	100 m	6 m	0818 107 600	1

Please consider the legal instruction at the beginning of this chapter.

Parking sensor cover sensor mask

Material	Plastic
Width x length	18 mm x 18 mm
Length	18 mm
Width	18 mm
Foil thickness	80 µm

Art. no. 0818 108 018

P. Qty.: 1

Film knife

With specially coated blade

The foil knife is equipped with a specially coated blade for a long service life and high cutting speeds.

Material	Plastic
Colour	Red

Art. no. 0818 105 103

P. Qty.: 5

Please consider the legal instruction at the beginning of this chapter.

Film dispenser

For simple handling of paintwork protective film

- Large tyres for problem-free manoeuvring in the paint workshop
- Optimal, pull-based mechanism and highly robust construction with deflection pulley; in combination with paintwork protection film Mask Plus or Mask Light, facilitates complete masking of a vehicle by just one person.
- Simple to cut off cover film with specially fitted U-profile rail

Material	Metal
----------	-------

Design	Colour	Art. no.	P. Qty.
Dispenser box	Silver	0891 818 107	1
Roll	Blue	0891 818 106	1

Please consider the legal instruction at the beginning of this chapter.

Masking paper Light

Specially sealed reinforced paper for covering vehicle bodywork and components.

Specially sealed

Reduces the penetration of clear varnishes and water-based paint and coating systems.

Minimum disposal costs

Highly adaptable

Paper can be easily moulded over corners and edges.

Can be used in all commercially available dispensers

- Sleeve diameter: 5 cm
- Roll diameter: approx. 18 cm

Length	300 m
Coating weight per m ²	48 g

Width	Art. no.	P. Qty.
20 cm	0899 700 820	1
60 cm	0899 700 860	1
90 cm	0899 700 890	1
120 cm	0899 700 892	1
150 cm	0899 700 895	1

Please consider the legal instruction at the beginning of this chapter.

Non-slip covering

Versatile non-slip mat to prevent falling and slipping accidents

- For keeping floors clean with no risk of slipping
- Simple, quick and clean to apply
- Durable and wear-resistant
- Self-adhesive
- Easy to clean
- Non-slip mineral-oil grain

Colour	Black
--------	-------

Length	Width	Art. no.	P. Qty.
3 m	0.15 m	0894 301 015	1
3 m	0.3 m	0894 301 030	1
6 m	0.1 m	0894 301 010	1
9 m	0.05 m	0894 301 005	1

Please consider the legal instruction at the beginning of this chapter.

Paint protection film

Protects against expensive paint damage caused by parking dents, scratches on door steps or loading edges from loading/unloading as well as protecting against rust caused by stone chips.

Paintwork protection film – polyurethane-based

- Resistant to scratches, stone chips and wear (prevents corrosion from forming)
- High degree of transparency, i.e. not immediately visible after bonding
- Good resistance to UV

Simple self-assembly and disassembly

Backing material	Polyurethane film
Adhesive base	Acrylate
Colour	Transparent
Material of the cover	Adhesive-repellent paper
Foil thickness	200 µm
Min./max. temperature resistance	-40 to 110 °C
Max. short-term temperature resistance	135 °C

Length	Width	Art. no.	P. Qty.
2 m	15 cm	0894 101 150	1
6 m	30 cm	0894 101 030	1
10 m	10 cm	0894 101 010	1
10 m	15 cm	0894 101 015	1
10 m	20 cm	0894 101 020	1

Please consider the legal instruction at the beginning of this chapter.

Please note that the paint protection film must only be used in conjunction with Würth assembly fluid. Only when this liquid is used can optimum assembly, a permanent hold and residue-free removal be guaranteed.

Optimum bonding of the film with the surface is reached after approx. 48 hours. Until this point, do not attempt to adhere anything or expose the glued paint protection film to major stresses (such as car wash facilities, steam jets etc.).

Textured design film

Visual highlight on shaped areas of vehicle and provides optimum protection against corrosion of exposed painted areas in daily use

- For all smooth, grease-free surfaces – also for creating design features
- Extremely resistant protection against stone chips, tar splashes, insect residue etc.
- Permanent grip (car-wash-proof).
- Resistant to heat and cold
- Non-slip and sound absorbing
- Easy attachment and removal

Backing material	PVC
Material of the cover	Adhesive-repellent paper
Colour	Black, structured
Length	10 m
Min./max. temperature resistance	-40 to 110 °C

Width	Art. no.	P. Qty.
10 cm	0894 201 010	1
15 cm	0894 201 015	1

Please consider the legal instruction at the beginning of this chapter.

Please note: Optimum bonding of the film with the substrate is reached after approx. 48 hours. Until this point, do not attempt to adhere anything or expose the glued textured design film to major stresses (such as car wash facilities, steam jets etc.).

Assembly fluid

For the paint protection film

Contents	500 ml
Chemical basis	Water and alcohol
Density	1 g/cm ³
Shelf life from production	24 Month

Art. no. 0893 455

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Masking tape Soft Mask easy

Self-adhesive special sealing tape with fine-pore polyester foam for paint work.

- For use on bodywork and on moving parts
- Simple adjustment by closing the door
- Repeated masking not necessary. Simply press down to prevent the primer from showing through during subsequent painting
- Concealed adhesive strip prevents paint sticking to the adhesive and fibres on the paint edges
- Extremely absorbent polyester foam for high paint absorption
- Narrow tape width

Colour	White
Length	50 m
Width	20 mm

Art. no. 0818 300 050

P. Qty.: 1

Please consider the legal instruction at the beginning of this chapter.

Sensor pad

Silicon pads for re-using rain and light sensors when replacing the windscreen.

- Optically connects the old rain sensor or light sensor to the front windscreen without any bubbles forming
- Insensitive to grease, dust and fingerprints

Type description	Included in delivery (Lieferumfang)	Length	Width	Art. no.	P. Qty.
Sensor pad type 1	5 x pads	27 mm	27 mm	0890 025 029	1
Sensor pad type 2-1	5 x pads	33.5 mm	27 mm	0890 025 030	1
Sensor pad type 7/10	1 x pad	50 mm	37 mm	0890 025 031	1
Sensor pad type 18/19/20	5 x pads	32 mm	32 mm	0890 025 032	1
Sensor pad type H1	5 x pads	44 mm	44 mm	0890 025 033	1
Sensor pad type H2	5 x pads	44 mm	44 mm	0890 025 034	1
Sensor pad type 20/24	5 x pads	31 mm	31 mm	0890 025 035	1

To prevent bubbles from forming when attaching the pads (except art. no.: 0890025031) we recommend wetting the pads slightly with water. Sensor pad type 7/ 10 (art. no.: 0890025031) must not be moistened.

Sensor pad set

26 pieces. Silicon pads for re-using rain and light sensors when replacing the windscreen.

- Optically connects the old rain sensor or light sensor to the front windscreen without any bubbles forming
- Insensitive to grease, dust and fingerprints

Included in delivery (Lieferumfang)	6 x sensor types
--	------------------

Art. no. 0890 025 027

P. Qty.: 1

To prevent bubbles from forming when attaching the sensors, we recommend wetting the pads slightly with water.

Mould release agent

For thermoplastics and thermosetting plastics

- Can be used up to +120°C
- Greatly reduces rejects
- Physiologically safe
- Washes off easily
- Subsequent treatment of injection moulded parts such as printing, painting and metallising etc. is possible
- Slight deformation of injection-moulded part
- Silicone-free

Contents	400 ml
Colour	Colourless
Smell/fragrance	Characteristic
Chemical basis	Mineral oil
Shelf life from production	24 Month

Art. no. 0890 50

P. Qty.: 1/12

Please consider the legal instruction at the beginning of this chapter.

Dent lifter set

Dent removal system with glue technology

- By attaching the glue tabs, shallow dents and dings can be removed from different materials and surfaces.
- Five different pulling tabs included in set for lifting small, large, round and long dings and dents. Tabs can be reused.
- The dent lifter set includes all necessary tools and aids to perform repairs, excluding electrical devices.

Product weight (per item)	6032 g
---------------------------	--------

Art. no. 0691 500 111

P. Qty.: 1

Pulling adapter

Adapter for PinPuller, Minilifter, Dent Lifter and Maxi-lifter to remove dents without damaging the paint-work

Colour	Red
--------	-----

Diameter	Form	Range of applications	Length	Width	Art. no.	P. Qty.
	Rectangular	Especially for angular dents, e.g. door blow dents	32 mm	16 mm	0691 500 164	10
16 mm	Spherical, Round	For very small dents, e.g. remaining dent residues			0691 500 160	10
21 mm	Spherical, Round	Small dents, for example typical hail dents			0691 500 161	10
27 mm	Spherical, Round	For larger hail dents			0691 500 162	10
32 mm	Spherical, Round	To bring forward dents for the extractor lever			0691 500 163	10

Dent removal system PinPuller® Set

All-purpose dent removal system with welding and gluing accessories for bare steel and painted surfaces

- Contains all necessary tools for welding-based and adhesive-based repair systems
- Minimal heat generation means that sensitive components can be worked on as well
- Easily remove bonded pulling tabs by spraying on adhesive remover

Contents: 30 pieces

- 1 PinPuller with feet
- 1 PinPuller electrode, 3x
- 1 PinPuller electrode, 5x
- 1 copper electrode
- 1 short screwdriver, 1.2 x 6.5 mm
- 1 electrode file
- 1 each of plastic wedge, plastic knock down, gloves – size 9, acetone cleaner 250 ml, adhesive remover 150 ml, 1 Minilifter pulling piece
- 2 each of ball tabs (red) 5 x 16 mm Ø; 5 x 27 mm Ø; 5 x 21 mm Ø and 5 x 32 mm Ø
- 10 brown glue sticks, high-strength, 12 mm Ø

Product weight (per item)	4107 g
---------------------------	--------

Art. no. 5964 691 169

P. Qty.: 1

The PinPuller set is a component of the SmileREPAIR system.

Slide hammer

For dent lifter and PinPuller adhesive tabs

Length	460 mm
--------	--------

Art. no. 0691 500 112

P. Qty.: 1

Wiggle wire

For welding onto steel bodywork for 3x claws and Bi-Puller

Wiggle wire enables you to pull at multiple pulling points simultaneously

Typical peak stresses do not occur which prevents sheet metal from tearing and bumps from forming.

Length	360 mm
Wire diameter	2 mm
Product weight (per item)	12.7 g

Art. no. 0691 500 147

P. Qty.: 50

Total length 360 mm x 50 pcs. = 18 m. Wire thickness: 2 mm

Bodywork lever set 32 pcs.

Professional dent removal system for removing dents from vehicle bodywork without damaging paint.

- Versatile
- Method recognized or required by insurance companies and appraisers
- The dent removal assortment includes the most important bodywork levers for professional dent repair
- Almost all the bodywork levers are made of hardened tool steel

Scope of delivery

- 25 bodywork levers
- 1 support chain
- 3 plastic knock down tools
- 1 assembly wedge
- 1 glass protection panel
- 1 high-quality carrying case
- 1 instruction manual

Number of pieces in assortment/set	32 PCS
------------------------------------	--------

Continuation **Bodywork lever set 32 pcs.**

Art. no. 0691 500 300

P. Qty.: 1

Universal lever

Length	395 mm
Shaft diameter (Ø)	19 mm
Material	Steel

Art. no. 0715 74 47

P. Qty.: 1

Bodywork file blade

- Flat
- Double-sided, radial milled

File blade length (L1)	350 mm
Hole distance (L2)	325 mm
Width (B1)	35 mm

Design	Teeth per unit of length	Art. no.	P. Qty.
Radial coarse	9 PCS/Inch	0714 61 71	1
Radial medium	12 PCS/Inch	0714 61 72	1

Bodywork repair tools Planishing set

For heavy bodywork pressing tasks

Weight: 36 kg

Max. pressure: 10 tonnes

Contents: 15 pieces

- 1 each of spreader, hand pump with hose, pressure cylinder with 155 mm stroke, fluted pressure piece, pressure piece prism attachment, pressure piece wedge attachment, piston rod attachment, cylinder attachment, baseplate, 380 mm extension pipe, 530 mm extension pipe, 659 mm extension pipe, 2-piece pipe connection, rubber cap, metal case

Included in delivery (Lieferumfang)	Fluted pressure piece, pressure piece prism attachment, pressure piece wedge attachment, piston rod attachment, cylinder attachment, base plate, 380 mm ext. pipe, 530 mm ext. pipe, 659 mm ext. pipe, 2 x piece pipe connection, rubber cap, metal case
Product weight (per item)	36000 g

Art. no. 0715 740 100

P. Qty.: 1

Suction lifter

Vacuum indicator and two rigid heads

- Vacuum gauge for safe working
- Suitable for briefly holding sandblasted panes
- Large ergonomic handle

Diameter	120 mm
Load capacity	50 kg

Art. no. 0714 58 047

P. Qty.: 1

Vacuum lifter

With vacuum pump and vacuum indicator in practical storage case

- Integrated vacuum pump and large suction disc diameter
- Vacuum control by means of marking ring
- Padded, non-slip handle
- Ergonomic holding area due to large reach-through height

Diameter	210 mm
Load capacity	120 kg

Art. no. 0714 58 045

P. Qty.: 1

Suction lifter

With three mobile heads

- High load capacity and flexibility thanks to three mobile suction heads
- Suitable for transporting curved panels
- Ergonomic holding area due to large reach-through height

Diameter	120 mm
Load capacity	70 kg

Art. no. 0715 58 02

P. Qty.: 1

Vacuum lifter

Two mobile heads

Also for transporting curved windscreens

such as e.g. vehicle windscreens

Windscreens can be secured using belts

thanks to slots in handles

Diameter	120 mm
Elongated hole length	30 mm
Load capacity	45 kg

Art. no. 0714 58 20

P. Qty.: 1

Suction lifter

With two rigid heads

- Stable and robust construction
- For materials with smooth and gas-tight surfaces such as glass, plastic sheeting, sheet metal, marble, tiles etc.

Diameter	120 mm
Load capacity	60 kg

Art. no. 0714 58 043

P. Qty.: 1

Vacuum lifter with one head

For fast and effective work

due to use of just one suction head

Ideal for objects on which there is only space for a single suction disc

Diameter	120 mm
Load capacity	30 kg

Art. no. 0715 58 01

P. Qty.: 1

Vacuum lifter

One-handed operation

- One-handed operation and quick-locking system
- Suitable for delicate items
- Low suction head diameter for holding smaller items

Diameter	70 mm
Load capacity	8 kg

Art. no. 0715 58 015

P. Qty.: 1

Windscreen removal set

9 pieces For easy and cost-effective removal of glued windscreens in passenger and commercial vehicles.

- Removal tool with suction system, cutting cord and mounting hook allows operation by only one person.
- The use of cutting cord and protector means that the inner panelling does not need to be removed.
- Thanks to the robust cutting cord, it can also be used with narrow clearance dimensions

Number of pieces in assortment/set	9 PCS
------------------------------------	-------

Art. no. 0714 58 230

P. Qty.: 1

Pulling handle

For cutting wire

Art. no. 0714 58 23

P. Qty.: 1

Wire anchor

Long version

Wire anchor with knurled screw

Art. no. 0714 58 24

P. Qty.: 1

Stainless steel cutting wire

Extremely smooth surface, cuts more easily through adhesive bead

In handy plastic dispenser roll

Width	0.6 mm
Height	0.6 mm
Form	Square-cut
Length	50 m
Material	Stainless steel
Edge radius	0.1 mm

Art. no. 0891 656

P. Qty.: 1

Special steel cutting wire

Particularly strong cutting wire

On conventional spool

Width	0.6 mm
Height	0.6 mm
Form	Square-cut
Length	50 m
Material	Steel
Edge radius	0.08 mm

Art. no. 0714 58 281

P. Qty.: 1

Special steel cutting wire

Excellent flexibility with high tensile strength, particularly suitable for hard-to-reach areas

In handy plastic dispenser roll

Width	0.6 mm
Height	0.6 mm
Form	Square-cut
Length	50 m
Material	Steel
Edge radius	0.08 mm

Art. no. 0714 58 282

P. Qty.: 1

Round cutting wire

Braided for high cutting capacity despite lack of cutting edges

Secured on plastic spool

Form	Round
Length	22.5 m
Wire diameter	0.8 mm
Material	Steel

Art. no. 0714 58 28

P. Qty.: 1

Windscreen cutting line

For damage-free removal of vehicle windows with particularly narrow gaps.

- Extremely tear-resistant cutting thread for use in tight corners and in particularly narrow gaps
- Thanks to its round cross section, cutting injuries are virtually unheard of
- Can be used 2-4 times
- If the thread tears, it can be knotted to continue working

Form	Roll
Material	PE - Polyethylene

Min. tensile force	Length	Colour	Cord thickness	Art. no.	P. Qty.
1600 N	65 m	Orange	0.8 mm	0714 58 284	1
1800 N	25 m	Red	0.85 mm	0714 58 283	1
1850 N	65 m	Red	1.1 mm	0714 58 240	1

Combination workbench

For passenger vehicle and commercial vehicle wind-screens and assembly parts

- Cross tubing covered in soft, hard-wearing padding.
- Collapsible and height-adjustable from 0.8 to 1 m
- Robust tubular steel frame, powder coated

Length	1150 mm
Width	500 mm
Min./max. height	0.8-1 m
Max. load capacity	40 kg
Material	Steel

Art. no. 0714 58 261

P. Qty.: 1

Knife blade, straight

Cutting edge length	Art. no.	P. Qty.
26 mm	0696 512 1	2
91 mm	0696 517 6	2

Conversion of Fein part numbers to Würth part numbers.

The three digits after 639 03 ... in original Fein numbers are crucial, or the three-digit number punched into the knives.

If the number begins with 0, e.g. 095, the 0 is replaced with a 5 and the result is given the prefix 0696. In this instance, for example, the Würth item no. would be 0696 595.

If the number begins with 1 or 2, e.g. 126, a 5 is inserted before the 1 or 2 and the result is given the prefix 0696. In this instance, for example, the Würth art. no. would be 0696 512 6.

Knife blade, straight, long

Cutting edge length	Art. no.	P. Qty.
27 mm	0696 517 4	2
45 mm	0696 516 8	2
55 mm	0696 512 3	2

Cutting edge length	Art. no.	P. Qty.
80 mm	0696 517 1	2
85 mm	0696 512 5	2
110 mm	0696 519 4	2

Conversion of Fein part numbers to Würth part numbers.

The three digits after 639 03 ... in original Fein numbers are crucial, or the three-digit number punched into the knives.

If the number begins with 0, e.g. 095, the 0 is replaced with a 5 and the result is given the prefix 0696. In this instance, for example, the Würth item no. would be 0696 595.

If the number begins with 1 or 2, e.g. 126, a 5 is inserted before the 1 or 2 and the result is given the prefix 0696. In this instance, for example, the Würth art. no. would be 0696 512 6.

Knife blade U-shaped

Cutting edge length	Art. no.	P. Qty.
18 mm	0696 587	2
22 mm	0696 511 5	2
24 mm	0696 576	2
28 mm	0696 516 3	2
32 mm	0696 511 4	2
32 mm	0696 514 7	2
32 mm	0696 519 1	2
36 mm	0696 579	2
38 mm	0696 521 2	2
40 mm	0696 511 0	2
40 mm	0696 515 6	2
45 mm	0696 515 4	2
52 mm	0696 515 3	2
60 mm	0696 510 1	2
60 mm	0696 510 7	2
60 mm	0696 515 7	2
95 mm	0696 511 1	2

Conversion of Fein part numbers to Würth part numbers.

The three digits after 639 03 ... in original Fein numbers are crucial, or the three-digit number punched into the knives.

If the number starts with „0“, e.g. 095, a „5“ is used instead of the „0“.

If the number starts with „1“ or „2“, e.g. 126, a „5“ is inserted in front of the „1“ or „2“.

Knife blade, L-shaped, toothed

Cutting edge length	Art. no.	P. Qty.
19 mm	0696 520 8	2
25.4 mm	0696 520 7	2
38 mm	0696 520 9	2

Conversion of Fein part numbers to Würth part numbers.

The three digits after 639 03 ... in original Fein numbers are crucial, or the three-digit number punched into the knives.

If the number begins with 0, e.g. 095, the 0 is replaced with a 5 and the result is given the prefix 0696. In this instance, for example, the Würth item no. would be 0696 595.

If the number begins with 1 or 2, e.g. 126, a 5 is inserted before the 1 or 2 and the result is given the prefix 0696. In this instance, for example, the Würth art. no. would be 0696 512 6.

Knife blade, straight, long, toothed

Cutting edge length	85 mm
---------------------	-------

Art. no. 0696 581

P. Qty.: 2

Conversion of Fein part numbers to Würth part numbers.

The three digits after 639 03 ... in original Fein numbers are crucial, or the three-digit number punched into the knives.

If the number begins with 0, e.g. 095, the 0 is replaced with a 5 and the result is given the prefix 0696. In this instance, for example, the Würth item no. would be 0696 595.

If the number begins with 1 or 2, e.g. 126, a 5 is inserted before the 1 or 2 and the result is given the prefix 0696. In this instance, for example, the Würth art. no. would be 0696 512 6.

Rubber disc for vacuum lifter

Includes toggle and bolts

Diameter	120 mm
----------	--------

		Art. no.	P. Qty.
		0714 58 041	1
		0714 58 044	1

Mounting wedge

For simple and rapid detachment of e.g. door paneling, sealing plugs and protective caps of hollow hinge pins

Material: Plastic

Prevents damage to paintwork

Length	270 mm
Width	22 mm
Height	8 mm
Material	Plastic

Art. no. 0714 58 31

P. Qty.: 1/10

Assembly wedge set

For removing interior panelling and lifting sealing lips

- Fibreglass-reinforced plastic for high strength

4 different assembly wedges for

- Levering cutting wire in behind sealing lips
- Detaching panelling and covers
- Lifting sealing lips
- Lifting clips

Number of pieces in assortment/set	Art. no.	P. Qty.
	0714 58 216	1
	0714 58 247	1
	0714 58 248	1
4 PCS	0714 58 246	1

Assembly wedge set

12 piece set for disassembling internal panelling and fastening elements.

- Slim yet tough construction
- Offers the right mounting wedge for just about any issue
- Includes high-quality tool roll

Number of pieces in assortment/set	12 PCS
------------------------------------	--------

Art. no. 0714 58 245

P. Qty.: 1

Plastic trim wedge

For all work on trim strips and rubber seals

- For all work on trim strips and rubber seals
- Wedge shape also suitable for aligning vehicle doors
- Special plastic prevents damage to paintwork

Length (L)	200 mm
Height	25 mm

Width	Art. no.	P. Qty.
32 mm	0714 58 32	1
60 mm	0714 58 321	1

Seal scraper

Vanadium special steel, chrome-plated

Scraper width	25 mm
Blade length	150 mm
Length	260 mm
Material of the grip handle	Plastic
Material	Chrome-vanadium steel

Art. no. 0714 34 51

P. Qty.: 1/10

Blade scraper

With ergonomic, slip-free 2-component handle

- Includes 6 scraper blades
- Robust stainless steel blade holder
- Removable blade protector

Length	180 mm
Scraper width	40 mm
Material of the grip handle	2-component plastic
Material	Stainless steel A2, 1.4310
Product weight (per item)	109 g

Art. no. 0714 663 35

P. Qty.: 1

Coating thickness gauge Combi

Fully electronic coating thickness measuring instrument for determining coatings (e.g. paintwork, corrosion protection coating thicknesses)

Measuring range (FE/N Fe)

0–3000 μm (μm /mils switching)

Measuring time increment

Individual measurement: 600 ms

Measurement display

From 0.0–999 in μm , from 1000 μm in mm

Display	LCD
Measuring accuracy in %	3 %
Error of measurement for length (+/-)	+/- 2 μm
Min./max. temperature conditions	0 to 50 °C
Length	100 mm
Width	60 mm

Art. no. 0715 53 790

P. Qty.: 1

Clip remover

For gentle removal of clips on internal trims.

Blade length	165 mm
Blade opening	16 mm
Length	280 mm

Art. no. 0714 34 52

P. Qty.: 1/10

Sound-absorbing lining

For sound absorption, temperature insulation and visual improvement on engine and luggage compartment hoods, doors, etc.

- Polyurethane soft foam mats
- Colour: Foam: grey; top layer: Black
- With an enclosed, highly elastic polyurethane top layer on one side
- Self-adhesive
- Resistant to water, salt water, engine oil, fuels, solvents, etc.
- Impermeable to air and most liquids
- High adhesive strength
- Temperature resistant -30°C to $+80^{\circ}\text{C}$ (1 hour at $+180^{\circ}\text{C}$)

Length x width x thickness	1000 x 500 x 11 mm
Number of pieces	2 PCS
Colour	Anthracite

Art. no. 0890 100 065

P. Qty.: 2

The foam's fire properties meet standard FMVSS 302

Sound-absorbing plate

Prevents vibration noise in the interior caused by vibrating body parts, such as the wheel arch, cardan tunnel, floor group, doors and other side parts.

- Heavy-duty bitumen plate with polypropylene coating, self-adhesive
- High adhesive strength
- Virtually unbreakable
- Resistant to water, weak acids, alkaline solutions, etc.
- Temperature resistant -30°C to $+80^{\circ}\text{C}$ (1 hour at $+180^{\circ}\text{C}$)

Length x width x thickness	550 x 250 x 2 mm
Number of pieces	6 PCS
Colour	Light grey (bright grey)

Art. no. 0890 100 060

P. Qty.: 1

Self-adhesive fusible layer

For repair work, sound insulation and sound deadening on car floor panels

- Protects the car interior from vibration noises and airborne noise
- Very good plasticity once heated
- Use on panels with severe deformation, surface embossing or beading
- 1 packaging unit covers 4 panels

Length x width x thickness	1000 x 500 x 2.8 mm
Number of pieces	4 PCS
Colour	Black (base material)

Art. no. 0890 100 070

P. Qty.: 1

Tarpaulin repair system 10-piece patch set

Mobile, self-adhesive repair system for defective truck tarps, tents, covers etc.

- Simple and professional repair
- Mobile application
- Costs optimised
- UV-resistant
- Resistant to washing brushes
- Processing temperature: -15°C to +40°C
- Temperature resistance: -40°C to +70°C
- Contents:

Length	210 mm
Width	500 mm

Colour	Art. no.	P. Qty.

Please consider the legal instruction at the beginning of this chapter.

The patch cannot be pulled off and corrected after application!

All colours are similar to RAL, 161 and 290 are manufacturer's specifications

Tarpaulin repair system Plaster kit

32 pieces Mobile, self-adhesive repair system for defective truck tarps, tents, covers etc.

- Ready-to-use patches with high bonding strength in a range of colours
- Simple and professional repair with little time required
- Repair times, unnecessary downtimes, and workshop visits are reduced
- Eliminates damage claims due to freight damage
- UV-resistant
- Resistant to washing brushes

Scope of delivery

- 3 patches 300 x 200 mm
- 3 patches 200 x 200 mm
- 4 patches 300 x 100 mm
- 4 patches 200 x 100 mm
- 6 patches 100 x 100 mm
- 6 patches 200 x 50 mm
- 6 patches 100 x 50 mm

Included in delivery (Lieferumfang)	3 plasters 300x200 mm, 3 plasters 200x200 mm, 4 plasters 300x100 mm, 4 plasters 200x100 mm, 6 plasters 100x100 mm, 6 plasters 200x50 mm, 6 plasters 100x50 mm,

Multifunction spotter Spot 4500 SN2

The ideal unit for dent removal work

- Fast dent removal from outside with slide hammer puller
- Allows welding of stud bolts, T-pins, discs and corrugated wire
- With carbon or copper electrodes, sheet steel can be drawn-in and smoothed
- Large application range thanks to extra-long pistol cable
- Virtually all accessory parts for dent-removal available on the market can be used with this device

Scope of delivery

- Multifunction dent-removing device
- Cart with storage tray
- Multifunction pistol with 2500-mm cable length
- Earthing cable with terminal, 2500-mm cable length
- For dent removal, spot welding, pulling in sheet metal
- Range of accessories for dent removal
- Slide hammer puller

Nominal voltage	400 V/DC
Frequency	50 Hz
Power rating	5 kW
Conditions for power rating	at 100% action time
Power (welding)	20 kW
Main fuse	16 A slow
IP protection class	IP 21
Secondary-current short circuit	4.5 kA/AC/DC
Max. current	0.63 kA/AC/DC
Length	44 cm
Width	14 cm
Height	23 cm
Heat class	F
Cable cross section	7.5 mm ²
Number of phases	1 PCS
Secondary voltage	5.6 V/DC
Control current connection socket	XLR
Product weight (per item)	31000 g

Art. no. 0691 500 270

P. Qty.: 1

Welding unit PinPuller-Spot with LCD display

Universal welding unit for all dent-removal work on steel bodywork.

- LCD display for simple status indication with a selection of pre-set programs
- Precise setting of welding time and welding current and reproducible results
- Corrosion protection virtually preserved
- Tools are always ready to use
- Simple and flexible
- Also suitable for tools without trigger button

Nominal voltage	230 V/AC
Frequency	50 Hz
Power rating	2 kVA
Conditions for power rating	at 50% duty cycle
Main fuse	16 A slow
IP protection class	IP 21
Secondary-current short circuit	1600 A
Length	320 mm
Width	180 mm
Height	285 mm
Number of phases	1 PCS
Secondary voltage	7 V/AC
Control current connection socket	Renk, XLR
Connecting socket diameter	13 mm
Product weight (per item)	15407 g

Art. no. 0691 500 299

P. Qty.: 1

Complete printed Classic number plate holder

Printed in several colours or with raised printing

Germany's best-selling number plate holder

Often only the bar needs to be replaced (at low cost). Bars available separately

Easy to use

Robust design

Long-lasting advertising effect thanks to high degree of stability and long service life.

Meets EU directive (EEC 74/483)

Design	Complete, base plate and strip
Printed strip width x printed strip height	400 x 13 mm

Width	525 mm
Material	Plastic
Colour	Black

Art. no. 0826 001

P. Qty.: 1/50

Meets EU directive (EEC 74/483)

The strips are compatible and fit on all Classic base plates.

Base plate for number plate holder Circo

Heavily curved version

Fits rounded vehicle contours very well

Easy to use

Robust design

High stability and long-lasting durability

CIRCO is a modified „Classic“ quick-mount number plate holder

Design	Base plate
Suitable for number-plate size	520 x 110 mm
Height	124 mm
Width	525 mm
Material	PP - Polypropylene
Colour	Black

Art. no. 0826 010 0

P. Qty.: 1

Meets EU directive (EEC 74/483)

Quick-mount NPH screw

Ideal time-saving screw for attaching number plate holders

Head with pressed-on washer

Large contact surface

Galvanised thick-film passivation with seal

400 h salt spray test, meets automotive industry requirements, high corrosion protection

Teeth under head

High stripping torque

Head diameter	8 mm
Material	Steel
Nominal diameter	4.8 mm
Internal drive	H2
Head type	Button head

Length	Art. no.	P. Qty.
13 mm	0826 748 13	100/300
16 mm	0826 748 16	100/300
25 mm	0826 748 25	100/300

Damper for number plate holders

Rubber damper for retrofitting to all popular number plate holders to prevent rattling noise

Customised contents and adaptation to the intended purpose (vehicle type, combination of letters on the number plate)

Prevents rattling noise and damage to the vehicle

Acts as a cushion between the number plate and the holder and between the holder and vehicle body.

Insertion aid with predetermined breaking point

Quick, easy and accurate positioning

Length	17 mm
Head diameter	0.9 mm
Material	Rubber

Art. no. 0826 715 200

P. Qty.: 300

Quick-mount NPH clip

Adapter allowing attaching red number plates to easily be attached to number plate holders

- Quick and easy changing of temporary number plates
- No additional assembly materials or tools required

Material	Plastic
Included in delivery (Lieferumfang)	2 x quick-action license plate holder clips and 4 x screws

Art. no. 0826 715 100

P. Qty.: 2

If the vehicle's rear number plate mounting point is too narrow, it may be sensible to screw the clip to the red number plate upside down. It is then attached to the vehicle from the top downward.

Mobile phone holder with magnet

Material	Plastics - Polyamide PA
Product weight (per item)	72 g
Length	57 mm
Width	40 mm
Colour	Black

Art. no. 0837 900 110

P. Qty.: 1

High-vis vest	0899 078	1

Printed car first aid bag, one piece

First aid materials in accordance with DIN 13164-2014

The components that need to be replaced are packaged individually and can easily be replaced upon expiry.

Nylon fabric bag

Long rip-tape strip on rear for securing in the vehicle

Low minimum order quantity

- Low quantities of item held in stock, so therefore low tied-up capital requirements
- Can be used up to expiration dates of first aid materials

Colours of print	1-coloured white
Minimum order quantity/note	4 PCS/PU = 10 pieces, minimum order quantity = 4 x 10 pieces
Printed strip width x printed strip height	165 x 45 mm
Length x width x height	220 x 65 x 146 mm

Folding metre rule, internal hinges

Inside hinges

- Does not bend and always lies straight during measuring
- Folding rule can be used as a ruler – larger advertising surface

Material	Wood
Colour	White
Max. length measuring range	2 m
Length of link (pivot point)	200 mm
Accuracy class	III
Number of chain links	10 PCS

Length (folded up) x width (folded up) x height	Angle markings on joints	Material of joints	Design	Art. no.	P. Qty.
220 x 16 x 34 mm		Steel	Inside hinges, Without locking function at 90°	0825 802 000	10
220 x 16 x 36 mm	90 Degree	Hardened steel	Inside hinges, With locking function at 90°	0825 800 000	10

EEC type approval, accuracy class III

Folding metre rule, internal hinges

Inside hinges

Wooden rule, 2 m

Does not bend and always lies straight when measuring

Suitable for one-colour or multi-colour digital printing to suit customer requirements

Any information can be printed, including images

Internal hinges

Folding metre rule can be used as a ruler – larger advertising surface

Standard angle impression on 2nd joint

No additional goniometer required

Printed strip width x printed strip height	242 x 39 mm
Material	Wood
Number of chain links	10 PCS

Continuation **Folding metre rule, internal hinges**

Ice scraper with brush

Broad range of uses

- The snow broom has a 75 mm wide scraper blade and a water wiper edge
- Available in four different colours

Type description	With broom
Colour	Blue, Red, Yellow, Green
Length	31.5 cm
Min./max. width	3.2-13 cm
Material	Plastic
Length of rubber lip	7.5 cm
Length of scraping edge	7.5 cm
Length of bristles	3 cm
Material of the handle	Plastic

Art. no. 0824 105 12

P. Qty.: 10

No advertising space

Ice scraper with handle Hobby

With stable edge for effortless removal of ice

- Neutral; no print
- Handle made of soft, non-slip plastic

Type description	Hobby
Colour	Red, Blue, Yellow
Handle colour	Grey
Length	184 mm
Min./max. width	27-75 mm
Material	Plastic
Length of scraping edge	7.7 cm

Art. no. 0824 601 000

P. Qty.: 10

Supplied in assorted colours: red, yellow and blue

Base plate for number plate holder Twin-Fixx

With four red rubber inserts

Harmonious and appealing design

Also fits rounded vehicle contours

Easy to use

Robust design

Highly stable and durable

Design	Base plate
Suitable for number-plate size	520 x 110 mm
Height	136 mm
Width	530 mm
Material	PP - Polypropylene
Colour	Black, Red

Art. no. 0824 010 0

P. Qty.: 1/100

Meets EU directive (EEC 74/483)

Rattling noises and damage to the vehicle are permanently avoided, as both the inserted number plate and the Twin-Fixx are cushioned against the vehicle body.

Disposable PP hard film key fob

Environmentally friendly PP hard film

Available in 6 different colours

Permits clearly-arranged and organised working in the workshop

Can be marked easily and quickly with ball point or felt pen

In practical dispenser box

Continuation **Disposable PP hard film key fob**

Length	80 mm
Width	35 mm
Material	PP - Polypropylene

Price sheet holder

High-quality polycarbonate, so break-proof and heat-resistant at high temperatures inside the vehicle

Quick and easy to fit

Simply slots in behind the window

Protects the presented data

Non-fading, clearly legible vehicle details

Colour	Transparent
Material	Polycarbonate - PC
Height	305 mm
Width	210 mm

Art. no. 0824 010 030

P. Qty.: 5

Cotton bag for wheel bolts, unprinted

Strong design with double pull cord

- Environmentally friendly thanks to reusability
- No more annoying searching

Colour	Black
Length	200 mm
Width	150 mm
Material	Cotton

Art. no. 0824 010 023

P. Qty.: 50

Customised printing available for the plain cotton bag for orders of 100 units or more.

Wheel/tyre tag loops

Quick and clear assignment of tyre set to vehicle.

Large label (approx. 15 x 10.5 cm)

Excellent legibility, clearly laid out

Inserted label is protected against moisture

Wheel can even be cleaned with high-pressure cleaner with tag attached

Tag can be reused several times

One tag for winter and summer tyres

Colour	Black, White, Transparent
Material	Paper/plastic

Length	Art. no.	P. Qty.
80 cm	0824 010 020	100
110 cm	0824 010 019	50

Warning triangle Mini

Extremely small and practical

Especially light and space-saving

Fits into narrow gaps

Colour	Red
Length	425 mm
Width	30 mm
Height	47 mm
Material	Plastic

Art. no. 0824 010 024

P. Qty.: 10

Tested in line with EC directive

Tyre/wheel ID sticker

- Very good sticking properties on the tyre surface structure thanks to special adhesive
- Aluminium-coated reverse side prevents substances in the tyre from penetrating the label/migrating to the surface
- Label suitable for use with ballpoint pens and permanent markers
- Universal label; pre-printed for use on any tyre, FL/FR/RL/RR

Colour	Black, White
Length	120 mm
Width	80 mm
Material	PE - Polyethylene

Art. no. 0824 010 034

P. Qty.: 100

Inspection tag

Clearly laid out important maintenance and safety notes for the vehicle owner

- Easy to label
- With stamp field on rear
- For recording completed work
- Made of sturdy 250 g/m² cardboard
- Includes winding wire

Length	100 mm
Width	65 mm
Material	Paper

Art. no. 0824 010 032

P. Qty.: 100

Replacement loop for tyre tag

Colour	Black
Width	1.7 cm
Material	Paper/plastic

Length	Art. no.	P. Qty.
80 cm	0824 010 027	100
110 cm	0824 010 028	50

Petrol/cooling water can

With angled neck

- Resistant to oil, diesel, petrol and diluted acids
- With two handles for secure hold
- Narrow spout for filling e.g. windscreen washer fluid containers on vehicles

Colour	Dark grey
Contents	8.5 l
Material	PE - Polyethylene
Length x width x height	639 x 167 x 316 mm

Art. no. 0824 010 066

P. Qty.: 1

Workshop scheduler, five rows

For DIN A4 order protector sleeves or DIN A4 clip-boards

- Professional organisation tool for staff planning, scheduling and order documentation
- Timeless modern design with a robust finish
- Easy installation incl. **fastening material**
